No. MC 107002 (Sub-No. E150), filed May 12, 1974. Applicant: MILLER TRANSPORTERS, P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Tall oil and tall oil products*, in bulk, in tank vehicles, from Mobile, Ala., to points in Connecticut. The purpose of this filing is to eliminate the gateway of Picayune, Miss.

No. MC 107002 (Sub-No. E151), filed May 12, 1974. Applicant: MILLER TRANSPORTERS, P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except hydrogen peroxide), in

bulk, in tank vehicles, from Collierville, Tenn., to points in Ohio north of U.S. Highway 40. The purpose of this filing is to eliminate the gateway of Memphis, Tenn.

No. MC 107002 (Sub-No. E152), filed May 12, 1974. Applicant: MILLER TRANSPORTERS, P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Chemicals*, restricted to naval stores and naval stores products, in bulk, in tank vehicles, from Mobile, Ala., to points in Connecticut. The purpose of this filing is to eliminate the gateway of Picayune, Miss.

No. MC 107002 (Sub-No. E153), filed May 12, 1974. Applicant: MILLER TRANSPORTERS, P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid caustic soda*, in bulk, in tank vehicles, from McIntosh, Ala., to those points in Tennessee on and west of a line beginning at the Alabama-Tennessee State line and extending along U.S. Highway 43 to junction Tennessee Highway 99, thence along Tennessee Highway 99 to junction U.S. Highway 231, thence along U.S. Highway 231 to the Tennessee-Kentucky State line. The purpose of this filing is to eliminate the gateway of Louisville, Miss.

No. MC 107107 (Sub-No. E15), filed April 6, 1975. Applicant: ALTERMAN TRANSPORT LINES, INC., P.O. Box 425, Opa Locka, Fla. 33054. Applicant's representative: Ford W. Sewell (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products*, as defined by the Commission, from Boston and Southboro, Mass., to points in Louisiana, thence in Mississippi on and south of U.S. Highway 80, those in Georgia on and south of U.S. Highway 280 (except Savannah), and those in Alabama on and south of U.S. Highway 80. The purpose of this filing is to eliminate the gateway of Florida.

No. MC 107107 (Sub-No. E17), filed April 6, 1975. Applicant: ALTERMAN TRANSPORT LINES, INC., P.O. Box 425, Opa Locka, Fla. 33054. Applicant's representative: Ford W. Sewell (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Candy*, from Providence, R.I., to those points in Georgia on and south of a line beginning at the Atlantic Ocean and extending along U.S. Highway 341 to junction U.S. Highway 280, thence along U.S. Highway 280 to the Alabama-Georgia State line. The purpose of this filing is to eliminate the gateway of Florida.

No. MC 107107 (Sub-No. E18), filed April 6, 1975. Applicant: ALTERMAN TRANSPORT LINES, INC., P.O. Box 425, Opa Locka, Fla. 33054. Applicant's representative: Ford W. Sewell (Same

as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products, and meat by-products*, as defined by the Commission, from Hartford, Conn., to those points in Georgia on and south of U.S. Highway 280, (except Chatham County), and those in Alabama on and south of U.S. Highway 80 (Florida)\*; *meat, meat products, and meat by-products*, as defined by the Commission, from Hartford, Conn., to points in Louisiana and those in Mississippi on and south of U.S. Highway 80, (Jacksonville, Fla.)\*; and *fresh meats*, from Hartford, Conn., to points in Texas (Florida)\*. The purpose of this filing is to eliminate the gateways as indicated by asterisks above.

No. MC 107107 (Sub-No. E19), filed April 6, 1975. Applicant: ALTERMAN TRANSPORT LINES, INC., P.O. Box 425, Opa Locka, Fla. 33054. Applicant's representative: Ford W. Sewell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Frozen foods*, from those points in New York west of U.S. Highway 11, to those points in Georgia on and south of a line beginning at the Alabama-Georgia State line and extending along U.S. Highway 82 to junction U.S. Highway 84, thence along U.S. Highway 84 to the Atlantic Ocean; those in Alabama on and south of U.S. Highway 80, those in Louisiana on and south of U.S. Highway 84, and those in Texas on and south of a line beginning at the Louisiana-Texas State line and extending along U.S. Highway 84 to junction U.S. Highway 80, thence along U.S. Highway 80 to the Texas-New Mexico State line; (2) *meat, meat products, and meat by-products*, as defined by the Commission, from Rochester, N.Y., to those points in Alabama on and south of U.S. Highway 80, and those in Georgia on and south of U.S. Highway 280 (except Chatham County, Ga.); and (3) *fresh meats*, from Rochester, N.Y., to those points in Texas on and south of a line beginning at the Louisiana-Texas State line and extending along U.S. Highway 84 to junction U.S. Highway 80, thence along U.S. Highway 80 to the United States-Mexico International Boundary line. The purpose of this filing is to eliminate the gateway of Florida.

No. MC 107107 (Sub-No. E20), filed April 6, 1975. Applicant: ALTERMAN TRANSPORT LINES, INC., P.O. Box 425, Opa Locka, Fla. 33054. Applicant's representative: Ford W. Sewell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products and meat by-products*, as defined by the Commission, from Baltimore, Md., to those points in Georgia on and south of a line beginning at the Georgia-Alabama State line and extending along U.S. Highway 82 to junction U.S. Highway 84, thence along U.S. Highway 84 to the Atlantic Ocean, those in Alabama on and south of a line beginning at the Alabama-Georgia State line and extending along U.S. Highway 82 to junction U.S. Highway 80, thence along

U.S. Highway 80 to the Alabama-Mississippi State line, points in Hancock, Harrison, and Jackson Counties, Miss., and those in Louisiana on and south of U.S. Highway 190; those in Louisiana on and south of U.S. Highway 190, and those in Texas except those north of a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 70 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 66, thence along U.S. Highway 66 to the Texas-New Mexico State line. The purpose of this filing is to eliminate the gateway of Florida.

No. MC 107107 (Sub-No. E32), filed April 6, 1975. Applicant: ALTERMAN TRANSPORT LINES, INC., P.O. Box 425, Opa Locka, Florida 33054. Applicant's representative: Ford W. Sewell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dairy products*, as defined by the Commission, from Alexandria, Butterfield, Grand Meadow, Litchfield, Pease, Rochester, St. Charles, St. Peter, Wells and Willmar, Minn., to those points in Alabama on and south of U.S. Hwy. 80 and those in Georgia on and south of U.S. Hwy. 280.

The purpose of this filing is to eliminate the gateway of Florida.

No. MC 107107 (Sub-No. E33), filed April 6, 1975. Applicant: ALTERMAN TRANSPORT LINES, INC., P.O. Box 425, Opa Locka, Fla. 33054. Applicant's representative: Ford W. Sewell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dairy products*, as described by the Commission, from Green Bay, Monroe, Mt. Horeb, New Richmond, Plymouth, and Rice Lake, Wisc., to those points in Alabama on and south of Alabama Hwy. 10 and those in Georgia on and south of U.S. Hwy. 280. The purpose of this filing is to eliminate the gateway of Florida.

No. MC 107107 (Sub-No. E34), filed April 16, 1975. Applicant: ALTERMAN TRANSPORT LINES, INC., P.O. Box 425, Opa Locka, Florida 33054. Applicant's representative: Ford W. Sewell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Cleveland, Ohio, to those points in Texas on and south of a line beginning at the Texas-Louisiana State line and extending along U.S. Highway 79 to junction U.S. Highway 81, to the United States-Mexico International Boundary line. The purpose of this filing is to eliminate the gateway of Florida.

No. MC 108449 (Sub-No. E82), filed May 21, 1974. Applicant: INDIANHEAD TRUCK LINE, INC., 1947 West County Road, C, St. Paul, Minnesota 55113. Applicant's representative: W. A. Myllenbeck (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, as described in Appendix XIII to the report in *Descriptions in Motor*

*Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, from the Duluth Petroleum Products Terminal (located about eight miles from Duluth, Minn.), and points within two miles thereof, to points in Iowa. The purpose of this filing is to eliminate the gateway of St. Paul, Minn.

No. MC 108449 (Sub-No. E93), filed May 21, 1974. Applicant: INDIANHEAD TRUCK LINE, INC., 1947 W. County Rd. C, St. Paul, Minn. 55113. Applicant's representative: W. A. Myllenbeck (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from Grand Forks, N. Dak., and points in North Dakota within 10 miles thereof, to points in Illinois. The purpose of this filing is to eliminate the gateways of the Williams Brothers Pipe Line Company terminal located at or near St. Cloud, Minn.; the facilities of American Oil Company, in Dubuque, Iowa; and Minneapolis, Minn.

No. MC 108449 (Sub-No. E80), filed May 21, 1974. Applicant: INDIANHEAD TRUCK LINE, INC., 1947 W. County Rd. C, St. Paul, Minn. 55113. Applicant's representative: W. A. Myllenbeck (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from the terminal of Duluth Petroleum Products, about eight miles from Duluth, Minn., and points within two miles thereof, to points in Nebraska. The purpose of this filing is to eliminate the gateways of Minneapolis, Minn. and of the Williams Brothers Pipe Line Company terminal located at or near Spirit Lake, Iowa.

No. MC 109064 (Sub-No. E14), filed June 4, 1974. Applicant: TEX-O-KA-N TRANSPORTATION COMPANY, INC., P.O. Box 8367, Fort Worth, Tex. 76112. Applicant's representative: Clayte Binton, 1108 Continental Life Building, Fort Worth, Tex. 76102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *plastic pipe, plastic tubing, plastic conduit, valves, fittings, compounds, joint sealer, bonding cement, primer, coating, thinner, vinyl building products and accessories* used in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines for the transportation of water and sewage, including the stringing and picking up of pipe, from points in California to points in Alabama, Florida, Georgia, Mississippi, Tennessee, Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, West Virginia, Wisconsin, and points in Minnesota on and east of a line beginning at the Iowa-Minnesota State line and extending over U.S. Highway 59 to Worthington, thence over Minnesota Highway 60 to junction U.S. Highway 169, thence along U.S.

Highway 169 to junction Minnesota Highway 38, thence over Minnesota Highway 38 to junction with Minnesota Highway 6, thence over Minnesota Highway 6 to junction U.S. Highway 71, thence over U.S. Highway 71 to International Falls; restricted to the transportation of traffic originating at, or destined to, pipeline rights-of-way. The purpose of this petition is to eliminate the gateways of McPherson, Kansas or Waco, Texas.

No. MC 109397 (Sub-No. E2), (Correction), filed May 15, 1974, published in the FEDERAL REGISTER December 24, 1974. Applicant: TRI-STATE MOTOR TRANSIT CO., P.O. Box 113, Joplin, Mo. 64801. Applicant's representative: E. S. Gordon (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Source, special nuclear and by-product materials, and radioactive materials*, between points in Washington, on the one hand, and, on the other, points in Washington. The purpose of this filing is to eliminate the gateway of the facilities of the General Electric Co., located near Morris, Grundy County, Ill. The purpose of this correction is to omit the restriction.

No. MC 109397 (Sub-No. E3), (Correction), filed May 15, 1974, published in the FEDERAL REGISTER December 24, 1974. Applicant: TRI-STATE MOTOR TRANSIT CO., P.O. Box 113, Joplin, Mo. 64801. Applicant's representative: E. S. Gordon (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Source, special nuclear and byproduct materials, and radioactive materials*, between points in the Lower Peninsula of Michigan, on the one hand, and, on the other, points in that part of Illinois on and west of U.S. Highway 66. The purpose of this filing is to eliminate the gateway of the facilities of the General Electric Co., located near Morris, Grundy County, Ill. The purpose of this correction is to omit the restriction.

No. MC 109397 (Sub-No. E4) (Correction), filed May 15, 1974, published in the FEDERAL REGISTER December 24, 1974. Applicant: TRI-STATE MOTOR TRANSIT CO., P.O. Box 113, Joplin, Mo. 64801. Applicant's representative: E. S. Gordon (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Source, special nuclear and byproducts materials, and radioactive materials*, between points in Washington, on the one hand, and, on the other, points in Kentucky, Tennessee, Alabama, Georgia, South Carolina, and Florida. The purpose of this filing is to eliminate the gateways of (1) the facilities of the General Electric Co., located near Morris, Grundy County, Ill., and (2) points in DuPage County, Ill. The purpose of this correction is to omit the restriction.

No. MC 109397 (Sub-No. E5) (Correction), filed May 15, 1974, published in the FEDERAL REGISTER December 24, 1974. Ap-

plicant: TRI-STATE MOTOR TRANSIT CO., P.O. Box 113, Joplin, Mo. 64801. Applicant's representative: E. S. Gordon (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Source, special nuclear and by-products materials, and radioactive materials*, between points in Washington, on the one hand, and, on the other, points in the Lower Peninsula of Michigan and that part of Wisconsin on and east of a line beginning at the Michigan-Wisconsin State line, thence along U.S. Highway 41 to junction Wisconsin Highway 67, thence along Wisconsin Highway 67 to the Wisconsin-Illinois State line. The purpose of this filing is to eliminate the gateways of (1) the facilities of the General Electric Co., located near Morris, Grundy County, Ill., and (2) points in DuPage County, Ill. The purpose of this correction is to omit the restriction.

No. MC 109397 (Sub-No. E6), (Correction), filed May 15, 1974, published in the FEDERAL REGISTER December 24, 1974. Applicant: TRI-STATE MOTOR TRANSIT CO., P.O. Box 113, Joplin, Mo. 64801. Applicant's representative: E. S. Gordon (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Source, special nuclear and by-product materials and radioactive materials*, between points in Anderson and Roane Counties, Tenn., on the one hand, and, on the other, points in Iowa, Minnesota, and Wisconsin. The purpose of this filing is to eliminate the gateways of (1) the facilities of the General Electric Co., located near Morris, Grundy County, Ill., and (2) points in DuPage County, Ill. The purpose of this correction is to omit the restriction.

No. MC 109397 (Sub-No. E7), (Correction), filed May 15, 1974, published in the FEDERAL REGISTER December 24, 1974. Applicant: TRI-STATE MOTOR TRANSIT CO., P.O. Box 113, Joplin, Mo. 64801. Applicant's representative: E. S. Gordon (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Source, special nuclear and by-products materials, and radioactive materials*, between points in Anderson and Roane Counties, Tenn., on the one hand, and, on the other, points in that part of Illinois on and north of Illinois Highway 17. The purpose of this filing is to eliminate the gateway of points in DuPage County, Ill. The purpose of this correction is to omit the restriction.

No. MC 109397 (Sub-No. E8), (correction), filed May 15, 1974, published in the FEDERAL REGISTER December 24, 1974. Applicant: TRI-STATE MOTOR TRANSIT CO., P.O. Box 113, Joplin, Mo. 64801. Applicant's representative: E. S. Gordon (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Source, special nuclear and by-products materials and radioactive materials*, between the Cimarron facilities of Kerr-McGee Corporation at or near Crescent, Okla., on the one hand, and on the other, points in Michigan,

that part of Wisconsin on and east of U.S. Highway 51, and those parts of Indiana and Ohio on and north of U.S. Highway 30. The purpose of this filing is to eliminate the gateways of (1) the facilities of the General Electric Co., located near Morris, Grundy County, Ill., and (2) the Argonne National Laboratory of the United States Atomic Energy Commission, near Lemont, Ill. The purpose of this correction is to omit the restriction.

No. MC 108397 (Sub-No. E9), (correction), filed May 15, 1974, published in the FEDERAL REGISTER December 24, 1974. Applicant: TRI-STATE MOTOR TRANSIT CO., P.O. Box 113, Joplin, Mo. 64801. Applicant's representative: E. S. Gordon (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Source, special nuclear and by-product materials, and radioactive materials*, between points in Washington, Idaho, Oregon, Nevada, and that part of California, on, west, and north of Interstate Highway 18, on the one hand, and, on the other, points in Illinois. The purpose of this filing is to eliminate the gateway of the facilities of the General Electric Co., located near Morris, Grundy County, Ill. The purpose of this correction is to omit the restriction.

No. MC 109397 (Sub-No. E10), (Correction), filed May 15, 1974, published in the FEDERAL REGISTER December 24, 1974. Applicant: TRI-STATE MOTOR TRANSIT CO., P.O. Box 113, Joplin, Mo. 64801. Applicant's representative: E. S. Gordon (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Special, nuclear, radioactive and by-products materials*, between the Nuclear Generating Stations located at or near Monticello, Minn., and Two Rivers, Wis., on the one hand, and, on the other, points in that part of South Carolina on and east of South Carolina Highway 121. The purpose of this filing is to eliminate the gateways of (1) the facilities of the General Electric Co., located near Morris, Grundy County, Ill., and (2) Sheffield, Ill. The purpose of this correction is to omit the restriction.

No. MC 109397 (Sub-No. E11), (Correction), filed May 15, 1974, published in the FEDERAL REGISTER December 24, 1974. Applicant: TRI-STATE MOTOR TRANSIT CO., P.O. Box 113, Joplin, Mo. 64801. Applicant's representative: E. S. Gordon (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Source, special nuclear, and by-product materials, and radioactive materials*, between points in that part of South Carolina on and east of South Carolina Highway 121, on the one hand, and, on the other, points in that part of Illinois on and north of U.S. Highway 36. The purpose of this filing is to eliminate the gateway of the facilities of the General Electric Co., located near Morris, Grundy County, Ill. The purpose of this correction is to omit the restriction.

No. MC 111401 (Sub-No. E23), filed May 12, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products* as described in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, from points in Texas on and west of a line beginning at the Oklahoma-Texas State line and extending along U.S. Highway 259 to junction U.S. Highway 59 to junction Texas Highway 288 to the Gulf of Mexico. The purpose of this filing is to eliminate the gateway of Houston, Tex.

No. MC 111401 (Sub-No. E28), filed May 12, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia and acrylonitrile*, in bulk, in tank vehicles, from Avondale, La., to points in Arizona, California, Colorado, Idaho, Iowa, Kansas, Minnesota, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, Wyoming, and those points in Missouri on and west of U.S. Highway 65 and on and north of Interstate Highway 44. The purpose of this filing is to eliminate the gateway of Longview, Tex.

No. MC 111401 (Sub-No. E29), filed May 12, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, and those synthetic plastics which are chemicals (not in liquid form), in specialized motor vehicles equipment, from points in Arkansas on and south of U.S. Highway 64 to points in California, Oregon, and Washington. The purpose of this filing is to eliminate the gateway of Longview, Tex.

No. MC 111401 (Sub-No. E34), filed May 12, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Petrochemicals*, in bulk, in tank vehicles, from points in Oklahoma on and east of U.S. Highway 81 and on and west of U.S. Highway 177 to points in Nebraska, Iowa, and those points in Missouri on and north of U.S. Highway 50. The purpose of this filing is to eliminate the gateway of Wichita, Kans.

No. MC 111401 (Sub-No. E35), filed May 12, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Au-

thority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank or hopper-type vehicles, from points in Arkansas on and south of a line beginning at the Arkansas-Texas State line and extending along Interstate Highway 30 to junction Arkansas Highway 4, thence along Arkansas Highway 4 to junction Arkansas Highway 81, thence along Arkansas Highway 81 to the Arkansas-Louisiana State line. The purpose of this filing is to eliminate the gateway of Longview, Tex.

No. MC 111401 (Sub-No. E44), filed May 12, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid petroleum wax*, in bulk, in tank vehicles, from points in Texas on, east, and south of a line beginning at Loredo, Tex., and extending along U.S. Highway 59 to junction U.S. Highway 90 to the Texas-Louisiana State line to points in Missouri. The purpose of this filing is to eliminate the gateway of Beaumont, Tex.

No. MC 111401 (Sub-No. E46), filed May 12, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Number 5 and 6 fuel oils*, in bulk, in tank vehicles, from points in Oklahoma on and south of U.S. Highway 66 and west of U.S. Highway 75 to points in Missouri north of U.S. Highway 66. The purpose of this filing is to eliminate the gateway of Tulsa, Okla.

No. MC 111401 (Sub-No. E73), filed May 14, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Number 5 and 6 fuel oils*, in bulk, in tank vehicles, from points in Texas on, south, and east of a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 62 to junction U.S. Highway 83 to the United States-Mexico International Boundary line, and on and west of a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 75 to junction U.S. Highway 77 to the United States-Mexico International Boundary line. The purpose of this filing is to eliminate the gateway of Tulsa, Okla.

No. MC 111401 (Sub-No. E76), filed May 14, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Petrochemicals*, in bulk, in tank vehicles, from points in Arkansas on and south of a line begin-

ning at the Texas-Arkansas State line and extending along Interstate Highway 30 to its junction with U.S. Highway 67 to the Missouri-Arkansas State line, and on, north, and west of a line beginning at the Louisiana-Arkansas State line and extending along State Highway 81 to its junction with U.S. Highway 79 to the Arkansas-Tennessee State line to points in Texas on and east of Interstate Highway 35, and on and south of Interstate Highway 20, and on and west of a line beginning at the junction of Interstate Highway 20 and U.S. Highway 259 and extending along U.S. Highway 259 to its junction with U.S. Highway 69 and thence along U.S. Highway 69 to Port Arthur. The purpose of this filing is to eliminate the gateway of Longview, Tex.

No. MC 111401 (Sub-No. E79), filed May 14, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, from points in Kansas on and south of U.S. Highway 50 and on and west of U.S. Highway 283 to points in Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, Virginia, and Louisiana. Service to Louisiana is restricted to shipments of liquid chemicals, in bulk, in tank vehicles. The purpose of this filing is to eliminate the gateway of Longview, Tex.

No. MC 112988 (Sub-No. E1), filed May 13, 1974. Applicant: WEST COAST TRUCK LINES, INC., Rt. 4, P.O. Box 194-R, Eugene, Ore. 97405. Applicant's representative: Michael D. Crew, 620 Blue Cross Bldg., Portland, Ore. 97201. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) (a) *Lumber*, between points in Humboldt and Del Norte Counties, Calif., on the one hand, and, on the other, points in Lane, Lincoln, Tillamook, and Clatsop Counties, Ore.; (b) *Lumber*, between points in Siskiyou County, Calif., on or west of Interstate Highway 5, on the one hand, and, on the other, points in Lane, Lincoln, Tillamook, and Clatsop Counties, Ore.; (c) *Lumber*, from points in Kern, Fresno, Sacramento, Santa Cruz, Los Angeles, Monterey, Humboldt, San Luis Obispo, San Mateo, Alameda, Contra Costa, and Marin Counties, Calif., to points in Tillamook and Clatsop Counties, Ore. (points in Coos County, Ore.); (2) *Lumber mill products*, from points in California to Astoria, Newport, Coos Bay, and Portland, Ore., and points in Clark and Cowlitz Counties, Wash. (points in Josephine County, Ore.); (3) *Lumber*, from points in California to Garibaldi and Portland, Ore., and Vancouver, Wash. (points in Douglas and Coos Counties, Ore.); (4) *Lumber and forest products*, between points in California on or south of Mendocino, Glenn, Butte, Yuba, and Sierra Counties, Calif., on the one hand, and, on the other, points in Klamath County,

Oreg. (points in Jackson County, Ore.); (5) *Lumber*, from points in Del Norte, Humboldt, and Siskiyou Counties, Calif., to Astoria, Newport, Coos Bay, and Portland, Ore., and points in Clark and Cowlitz Counties, Wash. (points in Curry County, Ore.); (6) *Woodchips*, from points in Del Norte and Humboldt Counties, Calif., to Astoria, Newport, and Portland, Ore. (points in Josephine County, Ore.); (7) *Woodchips*, from points in Del Norte and Humboldt Counties, Calif., to points in Clark County, Wash. (except Camas, Wash.) (points in Josephine County, Ore.); (8) *Machinery*, between points in Del Norte and Humboldt Counties, Calif., on the one hand, and, on the other, points in Washington (points in Coos or Curry Counties, Ore.); (9) *Heavy machinery and contractors' equipment*, the transportation of which requires the use of special equipment, between points in California, on the one hand, and, on the other, points in Washington (points in Douglas County, Ore.); (10) *Heavy machinery and contractors' equipment*, the transportation of which requires the use of special equipment, between points in Jackson and Josephine Counties, Ore., on the one hand, and, on the other, points in Washington (Douglas County, Ore.); (11) *Heavy machinery and contractors' equipment*, the transportation of which requires the use of special equipment, between points in Lane County, Ore., on and west of a line extending south along Oregon Highway 126 to Rainbow, thence along unnumbered highway to Oakridge, and thence along Oregon Highway 58, on the one hand, and, on the other, points in Washington (points in Douglas County, Ore.); and (12) *Lumber*, between points in Chicago and Tillamook Counties, Ore., on the one hand, and, on the other, points in California (points in Douglas County, Ore.). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 113843 (Sub-No. E179), filed May 15, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Shells (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen fruits*, from those points in Virginia east of the Chesapeake Bay and south of the Chesapeake and Delaware Canal, to points in Colorado, Kansas, Minnesota, those in Oklahoma on, north, and west of a line beginning at the Oklahoma-Kansas State line and extending along U.S. Highway 77 to junction U.S. Highway 177, thence along U.S. Highway 177 to junction Oklahoma Highway 51, thence along Oklahoma Highway 51 to junction U.S. Highway 183, thence along U.S. Highway 183 to the Oklahoma-Texas State line, and those in Texas on, west, and north of a line beginning at the Texas-Oklahoma State line and extending along Texas Highway 283 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction U.S. High-

way 62, thence along U.S. Highway 61 to junction Texas Highway 116, thence along Texas Highway 116 to the United States-Mexico International Boundary line. The purpose of this filing is to eliminate the gateway of Elmira, N.Y.

No. MC 113843 (Sub-No. E182), filed May 14, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Shells (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen potatoes and potato products*, (1) from Presque Isle and Easton, Maine, to those points in New York within 75 miles of and including Rochester, and (2) from Portland, Maine, to those points in New York within a 75 mile radius of Rochester, N.Y., and including Rochester (except those east of a line beginning at the New York-Pennsylvania State line and extending along New York Highway 17 to junction New York Highway 13 to Ithaca, thence along New York Highway 13 to Ithaca, thence along New York Highway 96, thence along New York Highway 96 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction New York Highway 14, thence along New York Highway 14 to Lake Ontario). The purpose of this filing is to eliminate the gateway of Athens, Pa.

No. MC 113855 (Sub-No. E167), filed May 30, 1974. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd. SE., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Road construction equipment and machinery and lift trucks*, the transportation of which, because of their size or weight require the use of special equipment, (2) *Self-propelled articles*, described in (1) above which do not require special equipment for their transportation, each weighing 15,000 pounds or more (restricted to commodities transported on trailers), (a) from points in Wyoming to points in Maine, Vermont, New Hampshire, South Carolina, Florida (except points in and west of Hamilton, Suwannee, Lafayette, and Dixie Counties), New York, Delaware, Virginia, North Carolina, and Maryland; (j) from points in Crook, Weston, Campbell, Johnson, Sheridan, Big Horn, Washakie, Hot Springs, Park, Yellow Stone National Park, and Teton Counties, Wyo., to points in Tennessee, Georgia, Alabama, Mississippi, and Kentucky; (k) from points in Niobrara, Converse, Natrona, Fremont, Sublette, Lincoln, Uinta, and Sweetwater Counties, Wyo., to points in Tennessee on and east of Interstate Highway 65, Georgia, Alabama, and Kentucky; (c) from points in Niobrara, Converse, Natrona, Fremont, Sublette, Lincoln, Uinta, and Sweetwater Counties, Wyo., to points in Tennessee on and east of Interstate Highway 65, Georgia, Alabama, and Kentucky; (d) from points in Laramie, Goshen, Platte, Albany, and Carbon Counties, Wyo., to points in Tennessee on and east of Tennessee Highway 70; *Road construction machinery and equipment*, as described in Appendix VIII

to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, and lift trucks in flat bed trailers only, restricted to the transportation of so-called "twilight zone" commodities as described by the Commission in *National Automobile Transporters Association v. Rowe Transfer* 64 M.C.C. 229; (e) between points in Wyoming, on the one hand, and, on the other, points in Maine, Vermont, New Hampshire, South Carolina, Florida (except points in Hamilton, Suwannee, Lafayette, and Dixie Counties), New York, Delaware, Virginia, and North Carolina; (f) between points in Crook, Weston, Campbell, Johnson, Sheridan, Big Horn, Washakie, Hot Springs, Park, Yellow Stone National Park, and Teton Counties, Wyo., on the one hand, and, on the other, points in Tennessee, Georgia, Alabama, Mississippi, and Kentucky; (g) between points in Niobrara, Converse, Natrona, Fremont, Sublette, Lincoln, Uinta, and Sweetwater Counties, Wyo., on the one hand, and, on the other, points in Tennessee on and east of Interstate Highway 65, Georgia, Alabama, and east of U.S. Highway 231, Kentucky on and east of U.S. Highway 41; (h) between points in Laramie, Goshen, Platte, Albany, and Carbon Counties, Wyo., on the one hand, and, on the other, points in Tennessee on and east of Tennessee Highway 70, *street sweeping machines* the transportation of which, because of their size or weight, require the use of special equipment, and related street sweeper parts and attachments when their transportation is incidental to the transportation by said carrier of commodities which by reason of size or weight, require special equipment, and self-propelled articles described in (1) above, not requiring special equipment for their transportation, each weighing 15,000 pounds or more and related machinery, and parts moving in connection therewith (restricted to commodities transported on trailers); (i) between points in Wyoming to points in Maine, Vermont, New Hampshire, South Carolina, Florida (except points in and west of Hamilton, Suwannee, Lafayette, and Dixie Counties), New York, Delaware, Virginia, North Carolina, and Maryland; (j) from points in Crook, Weston, Campbell, Johnson, Sheridan, Big Horn, Washakie, Hot Springs, Park, Yellow Stone National Park, and Teton Counties, Wyo., to points in Tennessee, Georgia, Alabama, Mississippi, and Kentucky; (k) from points in Niobrara, Converse, Natrona, Fremont, Sublette, Lincoln, Uinta, and Sweetwater Counties, Wyo., to points in Tennessee on and east of Interstate Highway 65, Georgia, Alabama, and east of U.S. Highway 231, Kentucky on and east of U.S. Highway 41; and (1) from points in Laramie, Goshen, Platte, Albany, and Carbon Counties, Wyo., to points in Tennessee on and east of Tennessee Highway 70. The purpose of this filing is to eliminate the gateways of South Dakota east of Missouri River, Minneapolis-St. Paul, Minn., and points within 15 miles thereof, as to paragraphs (a) through (h); and, South Dakota east of Missouri River, Minneapolis, Minn., as to paragraphs (i) through (1).

No. MC 113855 (Sub-No. E172), filed May 30, 1974. Applicant: INTERNATIONAL TRANSPORT, INC. 2450 Marston Rd. SE., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Road construction machinery and equipment*, as described in appendix VIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, and lift trucks in flat-bed trailers only; *Restriction*: the above authority is restricted to the transportation of so-called "twilight zone" commodities as described by the Commission in *National Automobile Transporters Association v. Rowe Transfer* 64 M.C.C. 229. (A) between points in Colorado on the one hand, and, on the other, points in Maine, Vermont, New Hampshire, New York, Delaware; (B) between points in Colorado on and west of Interstate Highway 25, on the one hand, and, on the other, points in Virginia on, north, and east of a line beginning at the West Virginia-Virginia State line along U.S. Highway 250, thence easterly along U.S. Highway 301, thence southerly along U.S. Highway 301 to the Virginia-North Carolina state line; (C) between points in Colorado on and north of U.S. Highway 6, on the one hand, and, on the other, points in Virginia on and east of U.S. Highway 15.

(D) Between points in Moffat, Rio Blanco, Garfield, Mesa, Pitkin, Eagle, Routt Counties, Colorado, on the one hand, and, on the other, points in North Carolina; (E) between points in Colorado on and north of U.S. Highway 6 (except points in the counties named in paragraph (N) below, on the one hand, and, on the other, points in North Carolina in and east of Person, Durham, Wake, Johnston, Sampson, Pender, and Brunswick Counties. (2) *Road construction equipment and machinery and lift trucks*, the transportation of which, because of their size and weight require the use of special equipment, (3) *self-propelled articles*, described in (2) above which do not require special equipment for their transportation, each weighing 15,000 pounds (restricted to commodities transported on trailers); (F) between points in Colorado, on the one hand, and, on the other, points in Maine, Vermont, New Hampshire, New York, Delaware; (G) between points in Colorado on and west of Interstate Highway 25, on the one hand, and, on the other, points in Virginia on, north, and east of a line beginning at the West Virginia-Virginia state line along U.S. Highway 250, thence easterly along U.S. Highway 250 to the junction of U.S. 301, thence along U.S. Highway 301 to the Virginia-North Carolina State line; (H) between points in Colorado on and north of U.S. Highway 6, on the one hand, and, on the other, points in Virginia on and east of U.S. Highway 15; (I) between points in Moffat, Rio Blanco, Garfield, Mesa, Pitkin, Eagle, Routt Counties, Colorado on the one hand, and, on the other, points

in North Carolina; (J) between points in Colorado on and north of U.S. Highway 6 (except points in the counties named in paragraph (N) below), on the one hand, and, on the other, points in North Carolina in and east of Person, Durham, Wake, Johnston, Sampson, Pender, and Brunswick Counties; (K) from points in Colorado to points in Maine, Vermont, New Hampshire, New York, Delaware, Maryland, (except Garrett and Allegany Counties) and the District of Columbia.

(L) From points in Colorado on and west of Interstate Highway 25, to points in Virginia on, north, and east of a line beginning at the West Virginia-Virginia State line along U.S. Highway 250, thence easterly along U.S. Highway 250 to the junction of U.S. Highway 301 thence southerly along U.S. Highway 301 to the Virginia-North Carolina State line; (M) from points in Colorado on and north of U.S. Highway 6 to points in Virginia on and east of U.S. Highway 15; (N) from points in Moffat, Rio Blanco, Garfield, Mesa, Pitkin, Eagle, Routt Counties, Colorado to points in North Carolina; (O) from points in Colorado on and north of U.S. Highway 6 (except points in the counties named in (N) above) to points in North Carolina in and east of Person, Durham, Wake, Johnston, Sampson, Pender, and Brunswick Counties. The purpose of this filing is to eliminate the gateways of South Dakota or points in Iowa or Minnesota within 50 miles of Sioux Falls, S.D., and Minneapolis and St. Paul, Minnesota and points within 15 miles thereof, for paragraphs (A) through (J), and South Dakota, on points in Minnesota or Iowa within 50 miles of Sioux Falls, South Dakota and Minneapolis, Minnesota for parts (K) through (O).

No. MC 113908 (Sub-No. E272), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Charlotte, N.C., to points in California, with no transportation for compensation on return (except as otherwise authorized). The purpose of this filing is to eliminate the gateway of Denver, Colo.

No. MC 113908 (Sub-No. E273), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Charlotte, N.C., to points in California, with no transportation for compensation on return (except as otherwise authorized). The purpose of this filing is to eliminate the gateway of Marionville, Mo.

No. MC 113908 (Sub-No. E274), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Charlotte, N.C., to points in California, with no transportation on return (except as otherwise authorized). The purpose of this filing is to eliminate the gateway of Memphis, Tenn.

No. MC 113908 (Sub-No. E275), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Bailey, Belding, and Fremont, Mich., to points in California, with no compensation on return (except as otherwise authorized). The purpose of this filing is to eliminate the gateway of Denver, Colo.

No. MC 113908 (Sub-No. E276), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Hutchinson and Wichita, Kans., to points in California, with no transportation for compensation on return (except as otherwise authorized). The purpose of this filing is to eliminate the gateway of Denver, Colo.

No. MC 113908 (Sub-No. E278), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Lyndonville and North Rose, N.Y., to points in California, with no transportation for compensation on return (except as otherwise authorized). The purpose of this filing is to eliminate the gateway of St. Paul, Minn.

No. MC 113908 (Sub-No. E280), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Memphis, Tenn., to points in California, with no transportation for compensation on return (except as otherwise authorized). The purpose of this filing is to eliminate the gateway of Oklahoma City, Okla.

No. MC 113908 (Sub-No. E281), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Memphis, Tenn., to points in California, with no transportation for compensation on return (except as otherwise authorized). The purpose of this filing is to eliminate the gateway of Paris, Tex.

No. MC 113908 (Sub-No. E282), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Charlotte, N.C., to points in California, with no transportation for compensation on return (except as otherwise authorized). The purpose of this filing is to eliminate the gateway of Rogers, Ark.

No. MC 113908 (Sub-No. E283), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Charlotte, N.C., to points in California, with no transportation for compensation on return (except as otherwise authorized). The purpose of this filing is to eliminate the gateway of Oklahoma City, Okla.

No. MC 113908 (Sub-No. E284), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Kansas City, Mo., to points in California, with no transportation for compensation on return (except as otherwise authorized). The purpose of this filing is to eliminate the gateway of Oklahoma City, Okla.

No. MC 114457 (Sub-No. E356), filed June 3, 1974. Applicant: DART TRUCKING COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal canned glass containers and container ends, accessories, and materials and supplies* used in connection with the manufacture and distribution of metal containers (except commodities in bulk and those which because of size or weight require the use

of special equipment), when moving in mixed loads with metal containers, from points in Wisconsin to points in Montana. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114552 (Sub-No. E8), filed April 29, 1974. Applicant: SENN TRUCKING COMPANY, P.O. Drawer 220, Newberry, S.C. 29108. Applicant's representative: Tony G. Russell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber* (except veneer and plywood), (1) from points in Florida to points in Delaware, Maine, Maryland, New Hampshire, Vermont, and North Dakota; (2) from points in Florida to points in Connecticut, New Jersey, New York, Pennsylvania, and Virginia; (3) (a) from points in Florida on and east of U.S. Highway 231, to points in Wisconsin, South Dakota, and Minnesota, (b) from points in Florida on and east of a line beginning at the Georgia-Florida State line, thence along U.S. Highway 221 to junction Florida Highway 361A, thence along Florida Highway 361A to the Gulf of Mexico, to Nebraska, Kansas, and points in Missouri on and north of a line beginning at the Missouri-Illinois State line, thence along Missouri Highway 32 to junction Missouri Highway 39, thence along Missouri Highway 39 to junction U.S. Highway 160, thence along U.S. Highway 160 to the Missouri-Kansas State line, (c) from points in Florida on and east of a line beginning at the Florida-Georgia State line, thence along Interstate Highway 75 to junction Florida Highway 51, thence along Florida Highway 51 to the Gulf of Mexico, to points in Oklahoma on and west of a line beginning at the Oklahoma-Arkansas State line, thence along Oklahoma Highway 33 to junction Interstate Highway 44, thence along Interstate Highway 44 to junction U.S. Highway 277/281, thence along U.S. Highway 277/281 to the Oklahoma-Texas State line, and (d) from points in Florida on and east of the Ochlocknee River, to points in Iowa; (4) from points in Florida to points in Massachusetts, Rhode Island, and the District of Columbia; and (5) from points in Florida on and east of the Ochlocknee River, to points in Alabama. The purpose of this filing is to eliminate the gateways of: Greenwood County, S.C., in (1) and (3); McDuffie County, Ga., in (2); Clay County, N.C., and Georgia in (4); and Georgia in (5).

No. MC 114552 (Sub-No. E10), filed May 1, 1974. Applicant: SENN TRUCKING COMPANY, P.O. Drawer 220, Newberry, S.C. 29108. Applicant's representative: William P. Jackson, Jr., 919 Eighteenth St. NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber* (except plywood and veneer); (1) from points in Illinois to points in Virginia, on, south, and east of a line beginning at the Virginia-North Carolina State

line, thence along U.S. Highway 220 to junction Virginia Highway 122, thence along Virginia Highway 122 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction U.S. Highway 29, thence along U.S. Highway 29 to junction U.S. Highway 60, thence along U.S. Highway 60 to the Chesapeake Bay; (2) between points in Mississippi, on, east, and south of a line beginning at the Alabama-Mississippi State line, thence along Mississippi Highway 18 to junction Mississippi Highway 35, thence along Mississippi Highway 35 to the Mississippi-Louisiana State line, on the one hand, and, on the other, points in Illinois, on and north of a line beginning at the Illinois-Indiana State line, thence along U.S. Highway 24 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Illinois Highway 17, thence along Illinois Highway 17 to the Illinois-Iowa State line; (3) between points in South Carolina, on the one hand, and, on the other, points in Illinois; (4) from points in Illinois to points in Alabama; (5) from points in Mississippi on and east of a line beginning at the Mississippi-Alabama State line, thence along U.S. Highway 80 to junction Interstate Highway 59, thence along Interstate Highway 59 to junction Mississippi Highway 18, thence along Mississippi Highway 18 to junction Mississippi Highway 35, thence along Mississippi Highway 35 to the Mississippi-Louisiana State line, to points in Indiana on and north of a line beginning at the Indiana-Kentucky State line, thence along Indiana Highway 256, from Madison, Ind., to junction Indiana Highway 39, thence along Indiana Highway 39 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Indiana Highway 37, thence along Indiana Highway 37 to junction Indiana Highway 46, thence along Indiana Highway 46 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction Interstate Highway 74, thence along Interstate Highway 74 to the Indiana-Illinois State line.

(6) Between points in South Carolina, on the one hand, and, on the other, points in Indiana; (7) from points in Indiana to points in Alabama; (8) from points in Indiana on and west of a line beginning at the Indiana-Ohio State line, thence along Indiana Highway 67 to junction Indiana Highway 3, thence along Indiana Highway 3 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction Interstate Highway 74, thence along Interstate Highway 74 to the Indiana-Ohio State line, to points in Virginia on and south of a line beginning at the Virginia-North Carolina State line, thence along U.S. Highway 220 to junction Virginia Highway 122, thence along Virginia Highway 122 to junction U.S. Highway 221, thence along U.S. Highway 221 to junction U.S. Highway 29, thence along U.S. Highway 29 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction Virginia Highway 33, thence along Virginia Highway 33 to the Chesapeake Bay; (9) between points in that part of Kentucky on and west of a line beginning at

junction U.S. Highway 231 and the Indiana-Kentucky State line, thence along U.S. Highway 231 to Eden, Ky., thence along Kentucky Highway 90 to Williamsburg, Ky., thence along Interstate Highway 75 to the Kentucky-Tennessee State line, on the one hand, and, on the other, the District of Columbia; (10) between points in Louisiana, on the one hand, and, on the other, points in that part of Kentucky on and east of Interstate Highway 75; (11) between points in Maryland, on and east of a line beginning at the Maryland-Pennsylvania State line, thence along Interstate Highway 83 to junction Interstate Highway 695, thence along Interstate Highway 695 to junction Maryland Highway 2, thence along Maryland Highway 2 to junction Maryland Highway 3, thence along Maryland Highway 3 to junction U.S. Highway 50, thence along U.S. Highway 50 to the District of Columbia line, on the one hand, and, on the other, points in Kentucky, on and west of a line beginning at the Kentucky-Tennessee State line, thence along U.S. Highway 31E/231 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction Kentucky Highway 70, thence along Kentucky Highway 70 to junction Kentucky Highway 85, thence along Kentucky Highway 85 to junction U.S. Alternate Highway 41, thence along U.S. Alternate Highway 41 to junction Kentucky Highway 109, thence along Kentucky Highway 109 to junction Kentucky Highway 56, thence along Kentucky Highway 56 to the Kentucky-Indiana State line.

(12) Between points in Mississippi on and south of a line beginning at the Mississippi-Alabama State line, thence along Mississippi Highway 16 to junction Mississippi Highway 22, thence along Mississippi Highway 22 to junction U.S. Highway 80, thence along U.S. Highway 80 to the Mississippi-Louisiana State line, on the one hand, and, on the other, points in Kentucky on and east of a line beginning at the Kentucky-Indiana State line, thence along U.S. Highway 60/460 to junction U.S. Highway 127, thence along U.S. Highway 127 to the Kentucky-Tennessee State line; (13) between points in New Jersey, on the one hand, and, on the other, points in Kentucky on and west of a line beginning at the Kentucky-Tennessee State line, thence along U.S. Highway 127 to junction Kentucky Highway 90, thence along Kentucky Highway 90 to junction Cumberland Parkway, thence along Cumberland Parkway to junction Kentucky Highway 259, thence along Kentucky Highway 259 to junction Kentucky Highway 70, thence along Kentucky Highway 70 to junction U.S. Highway 231, thence along U.S. Highway 231 to the Kentucky-Indiana State line; (14) from points in Kentucky, on and west of a line beginning at the Kentucky-Tennessee State line, thence along U.S. Highway 231 to the Kentucky-Indiana State line, to points in Virginia on and south of a line beginning at the Virginia-North Carolina State line, thence along U.S. Highway 29 to junction U.S. High-

way 60, thence along U.S. Highway 60 to the Atlantic Ocean; (15) from points in Kentucky, on and west of a line beginning at the Kentucky-Tennessee State line, thence along U.S. Highway 127 to junction Kentucky Highway 90, thence along Kentucky Highway 90 to junction Kentucky Highway 70, thence along Kentucky Highway 70 to junction U.S. Highway 231, thence along U.S. Highway 231 to the Kentucky-Indiana State line, to Rhode Island; (16) from points in Kentucky to points in Alabama.

(17) From points in Kentucky on and west of a line beginning at the Kentucky-Tennessee State line, thence along U.S. Highway 127 to junction Kentucky Highway 90, thence along Kentucky Highway 90 to junction Kentucky Highway 70, thence along Kentucky Highway 70 to junction U.S. Highway 41, thence along U.S. Highway 41 to the Kentucky-Indiana State line, to Connecticut; (18) from points in Kentucky on and west of a line beginning at the Kentucky-Tennessee State line, thence along U.S. Highway 127 to junction Kentucky Highway 90, thence along Kentucky Highway 90 to junction Kentucky Highway 70, thence along Kentucky Highway 70 to junction U.S. Highway 41, thence along U.S. Highway 41 to the Kentucky-Indiana State line, to Maine; and (19) from points in Kentucky on and west of a line beginning at the Kentucky-Tennessee State line, thence along U.S. Highway 127 to junction Kentucky Highway 90, thence along Kentucky Highway 90 to junction Kentucky Highway 70, thence along Kentucky Highway 70 to junction U.S. Highway 41, thence along U.S. Highway 41 to the Kentucky-Indiana State line, to Massachusetts. The purpose of this filing is to eliminate the gateways of: Buncombe, Chatam, Cherokee, Columbus, Cumberland, Franklin, Guilford, Harnett, Henderson, Lee, Macon, Orange, Rockingham, Transylvania, and Union Counties, N.C., in (1), (8), and (10); Georgia and Tennessee in (2), (5), and (7); Tennessee in (3), (4), (6), (7), and (16); Tennessee and Georgia in (9), (11), (8), (9), (15), (17), and (19); and Greenwood County, S.C., in (18).

No. MC 114552 (Sub-No. E14), filed May 16, 1974. Applicant: SENN TRUCKING COMPANY, P.O. Drawer 220, Newberry, S.C. 29108. Applicant's representative: William P. Jackson, Jr., 919 Eighteenth St. NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Plywood*, from Manatee County, Fla., to points in Michigan. The purpose of this filing is to eliminate the gateway of Greenwood County, S.C.

No. MC 114552 (Sub-No. E15), filed May 16, 1974. Applicant: SENN TRUCKING COMPANY, P.O. Drawer 220, Newberry, S.C. 29108. Applicant's representative: William P. Jackson, Jr., 919 Eighteenth St. NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fiberboard*, from the plant site of the Masonite Cor-

poration, located at or near Spring Hope, N.C., to points in Texas and Oklahoma. The purpose of this filing is to eliminate the gateway Greenwood County, S.C.

No. MC 114552 (Sub-No. E23), filed May 21, 1974. Applicant: SENN TRUCKING COMPANY, P.O. Drawer 220, Newberry, S.C. 29108. Applicant's representative: WILLIAM P. JACKSON, JR., 919 18th St. NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Composition board and plywood*, from the plant and warehouse sites of Weyerhaeuser Company at Adel, Ga., to points in North Carolina and Virginia; (2) *Composition board and plywood*, from the facilities of Plywood Panels, Inc., at or near New Orleans, La., to points in Virginia and that part of North Carolina on and east of a line beginning at the North Carolina-Georgia State line, thence along the U.S. Highway 178 to its junction with unnumbered North Carolina Highway, thence along unnumbered North Carolina Highway to its junction with the Blue Ridge Parkway, thence along the Blue Ridge Parkway to its junction with U.S. Highway 23, thence along U.S. Highway 23 to its junction with North Carolina Highway 209, thence along North Carolina Highway 209 to its junction with U.S. Highway 25/70, thence along U.S. Highway 25/70 to the North Carolina-Tennessee State line.

(3) *Composition board*, from the plant and warehouse sites of Weyerhaeuser Company at Adel, Ga., to the District of Columbia, points in Massachusetts, Connecticut, Rhode Island, and points in New York on and south of New York Highway 7, restricted to the transportation of traffic originating at the above named plant and warehouse site, and restricted against the transportation of commodities in bulk; (4) *Composition board* (except commodities in bulk), from the facilities of International Paper Company, located in Greenwood County, S.C., to points in Massachusetts, Connecticut, Rhode Island, the District of Columbia, and New York; (5) *Roofing and roofing materials, gypsum and gypsum products, composition boards, insulation materials, urethane and urethane products* (except commodities in bulk), from the facilities of The Celotex Corporation at or near Port Clinton, Ohio, to points in Mississippi, Alabama, Georgia, Florida, and that part of South Carolina on and west of a line beginning at the South Carolina-North Carolina State line, thence along U.S. Highway 276 to its junction with Interstate Highway 26 thence along Interstate Highway 26 to the Atlantic Ocean; and

(6) *Roofing materials, gypsum and gypsum products, composition board, insulation materials, urethane and urethane products* (except commodities in bulk), from Cincinnati, Ohio, to points in Alabama and Mississippi, restricted to the transportation of shipments originating at the facilities utilized by The Celotex Corporation at the named origin. The purpose of this filing is to eliminate the gateways of: Greenwood County,

S.C., in (1) and (2); Greenwood County, S.C., and Roaring River, N.C., in (3); Roaring River, N.C., in (4); and Elizabethtown, Ky., in (5) and (6).

No. MC 114552 (Sub-No. E54), filed March 13, 1975. Applicant: SENN TRUCKING COMPANY, P.O. Drawer 220, Newberry, S.C. 29108. Applicant's representative: William P. Jackson, Jr., 919 Eighteenth Street NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Steel electrical conduit pipe*, from the facilities of Jones & Laughlin Steel Corporation at New Kensington, Pa., to points in Texas, on and south and west of a line beginning at the Texas-Oklahoma State line, thence along U.S. Highway 66 to its junction with U.S. Highway 287, thence along U.S. Highway 287 to the Texas-Oklahoma State line, points in Oklahoma, on and south of Interstate Highway 40, and points in Arkansas, on and south of a line beginning at the Arkansas-Tennessee State line, thence along U.S. Highway 61 to its junction with U.S. Highway 63, thence along U.S. Highway 63 to its junction with Arkansas Highway 18, thence along Arkansas Highway 18 to its junction with Arkansas Highway 14, thence along Arkansas Highway 14 to its junction with Arkansas Highway 9, thence along Arkansas Highway 9 to its junction with Arkansas Highway 95, thence along Arkansas Highway 95 to its junction with Interstate Highway 40, thence along Interstate Highway 40 to the Arkansas-Oklahoma State line. The purpose of this filing is to eliminate the gateway of the facilities of Fitecraft-Luminous Ceilings, Division of the Celotex Corporation, located at or near Scottsboro, Ala.

No. MC 115841 (Sub-No. E31), filed June 3, 1974. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., P.O. Box 10327, Birmingham, Ala. 35202. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products, and articles* distributed by meat packinghouses (except hides, liquid commodities, in bulk, and commodities in bulk, in tank vehicles), as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, in vehicles equipped with mechanical refrigeration, from the plant site of Armour and Company near Sterling, Ill., to points in Florida, North Carolina, and South Carolina, restricted to the transportation of traffic originating at the above-named plant site. The purpose of this filing is to eliminate the gateways of Birmingham, Ala., and Chattanooga, Tenn.

No. MC 115841 (Sub-No. E33), filed June 3, 1974. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., P.O. Box 10327, Birmingham, Ala. 35202. Applicant's representative: E.

Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except in bulk, in tank vehicles), in vehicles equipped with mechanical refrigeration, from Buffalo, N.Y., to points in Florida, points in Arkansas on and south of Interstate Highway 40 from West Memphis to Little Rock, Ark., and on and south of Interstate Highway 30 from Little Rock, Ark., to the Arkansas-Texas State line, and points in California on and south of a line extending along U.S. Highway 6 from the Nevada-California State line to Benton Station, Calif., thence along California Highway 120 to Manteca, Calif., thence along California Highway 99 to Lodi, Calif., thence along California Highway 12 to Santa Rosa, Calif., and thence westward to the Pacific Ocean. The purpose of this filing is to eliminate the gateway of Birmingham, Ala.

No. MC 115841 (Sub-No. E34), filed June 3, 1974. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., P.O. Box 10327, Birmingham, Ala. 35202. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Foods and foodstuffs*, not including in foods (except in both instances liquid commodities, in bulk, and in tank vehicles, and bananas), in vehicles equipped with mechanical refrigeration, from New York, N.Y., points in that part of Rockland County, N.Y., east of the Garden State Parkway and south of Interstate Highway 287, that part of Nassau County, N.Y., west of Nassau County Highway 1, and points in Bergen, Essex, Hudson, Passaic, and Union Counties, N.J., to points in Alabama, Arkansas, Kentucky, Louisiana, Mississippi, and Tennessee. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.

No. MC 115841 (Sub-No. E38), filed June 3, 1974. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., P.O. Box 10327, Birmingham, Ala. 35202. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except in bulk), in vehicles equipped with mechanical refrigeration, from Derry Township, Dauphin County, Pa., and Lebanon, Pa., to points in Arkansas, California, Oregon, and in Florida on and west of U.S. Highway 221 from the Georgia-Florida State line to Perry, Fla., and thence on and west of a line extending southwest to the Gulf of Mexico. The purpose of this filing is to eliminate the gateway of Birmingham, Ala.

No. MC 115841 (Sub-No. E39), filed June 3, 1974. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., P.O. Box 10327, Birmingham, Ala. 35202. Applicant's representative: E.

Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, in vehicles equipped with mechanical refrigeration, from points in Erie and Chautauqua Counties, N.Y., to points in Arkansas on and south of Interstate Highway 40 from the Arkansas-Tennessee State line to Little Rock, Ark., and on and south of Interstate Highway 30 from Little Rock, Ark., to the Texas-Arkansas State line, points in California on and south of U.S. Highway 6 from the Nevada-California State line to Benton Station, Calif., on and south of California Highway 120 from Benton Station to Manteca, Calif., on and south of Interstate Highway 205 and 580 to San Francisco, and points in Georgia on and west of Interstate Highway 75. The purpose of this filing is to eliminate the gateway of Birmingham, Ala.

No. MC 115841 (Sub-No. E82), filed June 4, 1974. Applicant: COLONIAL REFRIGERATED TRANSPORTATION INCORPORATED, P.O. Box 10327, Birmingham, Ala. 35202. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Dairy products* (except in bulk, or in tank vehicles), in vehicles equipped with mechanical refrigeration, from points in Alabama on and north of U.S. Highway 80 (except Cullman, Ala.), to points in Delaware, Maine, Rhode Island, Virginia, and West Virginia. The purpose of this filing is to eliminate the gateway of Birmingham, Ala.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON,  
Acting Secretary.

[Notice #295]

#### MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

MAY 28, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before June 17, 1975. Pursuant to section 17(b) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending

its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-35467. By order of May 28, 1975, the Motor Carrier Board approved the lease to Blaschke Trucking Company, a corporation (formerly Pinepoint, Inc.), Houston, Tex., for a period of one year commencing November 1, 1974, of the operating rights evidenced by Certificate of Registration No. MC-120851 (Sub-No. 1) issued April 3, 1967, to Blaschke Trucking Company (now Pinepoint, Inc.), a corporation, Houston, Tex., covering the transportation of oilfield equipment and pipe and other named commodities pursuant to the scope of intrastate authority in certificate of convenience and necessity No. SMC-5255 issued March 21, 1966, by the Railroad Commission of Texas. Paul D. Angenend, P.O. Box 2207, Austin, Texas 78767, attorney for applicants.

No. MC-FC-75751. By order entered May 21, 1975, the Motor Carrier Board approved the transfer to Midcoast Trucking, Belleville, N.J., of the operating rights set forth in Permits Nos. MC-30209, MC-30209 (Sub-No. 4), MC-30209 (Sub-No. 6), MC-30209 (Sub-No. 9), and MC-30209 (Sub-No. 18), issued by the Commission November 10, 1949, March 22, 1962, July 22, 1971, July 22, 1971, and July 28, 1971, respectively, to John O'Shea, Inc., Ridgefield Park, N.J., authorizing the transportation of such merchandise as is dealt in by wholesale, retail, and chain grocery and food business houses, and in connection therewith, equipment, materials, and supplies used in the conduct of such businesses, between points in New York, New Jersey, and Pennsylvania. Alan Kahn, 1920 Two Penn Center Plaza, Philadelphia, Pa. 19102, attorney for applicants.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[Notice 57]

#### MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

MAY 16, 1975.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative,

if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

#### MOTOR CARRIERS OF PROPERTY

No. MC 531 (Sub-No. 311TA), filed May 6, 1975. Applicant: YOUNGER BROTHERS, INC., 4904 Griggs Road, Houston, Tex. 77021. Applicant's representative: Wray E. Hughes (same address as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Alcoholic liquors*, in bulk, in tank vehicles, from Weston, Mo., and Atchison, Kans., to Portland, Oreg., for 180 days. [Notice 58-TA]

# MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

MAY 16, 1975.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a (a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

No. MC 106400 (Sub-No. 104TA), filed May 8, 1975. Applicant: KAW TRANSPORT COMPANY, P.O. Box 12628, North Kansas City, Mo. 64116. Applicant's representative: Harold D. Holwick (same address as applicant). Supporting shipper: Beveridge Paper Company (Division of Scott Paper Company), 717 West Washington St., Indianapolis, Ind. 46204. Send protests to: Lyle D. Heifer, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 5301 Federal Bldg., 125 South State St., Salt Lake City, Utah 84138.

No. MC 135713 (Sub-No. 4TA), filed May 8, 1975. Applicant: AFRO-URBAN TRANSPORTATION, INC., 1167 At-

lantic Ave., Brooklyn, N.Y. 11216. Applicant's representative: Bert Collins, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Salt and salt products*, except in bulk, for the account of Diamond Crystal Salt Company, from points in St. Clair, Mich., to points in the New York, N.Y. Commercial Zone; points on Long Island, N.Y.; and those points in Bergen, Essex, Hudson, Hunterdon, Middlesex, Somerset, and Union Counties, N.J.; and Springfield, Mass., for 180 days. Supporting shipper: Diamond Crystal Salt Company, 916 South Riverside Ave., St. Clair, Mich. 48079. Send protests to: Marvin Kampel, District Supervisor, Interstate Commerce Commission, 26 Federal Plaza, New York, N.Y. 10007.

No. MC 136273 (Sub-No. 4TA), filed May 9, 1975. Applicant: KENNETH G. MAY AND ORVILLE L. HOWARD, doing business as CORONADO TRUCKING CO., 307 Old County Road, Edgewater, Fla. 32032. Applicant's representative: William J. Monheim, 15492 Whittier Blvd., P.O. Box 1756, Whittier, Calif. 90609. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Pottery*, from points in Chula Vista, Corona, La Verne, and Los Angeles, Calif., and Marshall, Tex., to points in Daytona Beach, Fla., for 180 days. Supporting shipper: Tony's Pottery, Inc., President, P.O. Box 1743, 1231 S. Ridgewood Ave., Daytona Beach, Fla. 32014. Send protests to: G. H. Fauss, Jr., District Supervisor, Bureau of Operations, Interstate Commerce Commission, Box 35008, 400 West Bay St., Jacksonville, Fla. 32202.

No. MC 136987 (Sub-No. 11TA), filed May 5, 1975. Applicant: REMINGTON FREIGHT LINES, INC., P.O. Box 315, U.S. Hwy. 24 West, Remington, Ind. 4977. Applicant's representative: James Robert Evans, 145 West Wisconsin Ave., Neenah, Wis. 54956. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Soya flour and soya flour products*, from points in Remington, Ind., to points in the United States (except Alaska and Hawaii), under a continuing contract or contracts with Griffith Food Products, a subsidiary of Griffith Laboratories, Inc., Chicago, Ill., for 180 days. Supporting shipper: Griffith Laboratories, Inc., doing business as Griffith Food Products, 1415 W. 37th St., Chicago, Ill. 60609. Send protests to: J. H. Gray, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 345 West Wayne St., Room 204, Fort Wayne, Ind. 46802.

No. MC 140029 (Sub-No. 5TA), filed May 9, 1975. Applicant: CLIFFORD H. HALL, INC., Pearl Street, Bliss, N.Y. 14024. Applicant's representative: William J. Hirsch, Esq., Suite 1125, 43 Court St., Buffalo, N.Y. 14202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transport-

ing: *Liquid feed and feed ingredients*, from the Town of Arcade (Wyoming County, N.Y.), to all points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, and Virginia, and returned shipments in return, for 180 days. Supporting shipper: Ruminant Nitrogen Products Company, 770 Riverside Drive, Adrian, Mich. 49221. Send protests to: George M. Parker, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 612 Federal Bldg., 111 West Huron St., Buffalo, N.Y. 14202.

No. MC 140538 (Sub-No. 3TA), filed May 9, 1975. Applicant: LESLIE NORMAN FRED, doing business as NORMAN FRED, RFD #1, DeSoto, Ill. 62924. Applicant's representative: John G. Gilbert, 231 W. Main, P.O. Box 1058, Carbondale, Ill. 62901. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Dairy products, ice cream mix, cottage cheese, ice cream, milk powder and milk substitutes*, for the account of Prairie Farms Dairy, Inc., over irregular routes, between Carbondale, Ill., and points in Dunklin County, Mo., and points in Green, Craighead, and Mississippi Counties, Arkansas, for 180 days. Supporting shipper: Harold Hauter, Comptroller, Prairie Farms Dairy, Inc., 1100 N. Broadway, Carlinville, Ill. 62626. Send protests to: Harold C. Joliff, District Supervisor, Interstate Commerce Commission, P.O. Box 2418, Springfield, Ill. 62705.

No. MC 140844 (Sub-No. 1TA), filed April 29, 1975. Applicant: TERRY L. PRIEST, Box 188, New Florence, Pa. 15944. Applicant's representative: John A. Pillar, 1122 Frick Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages* (except in bulk) and related advertising material, (1) from points in Cleveland, Ohio, to the Boroughs of Clymer and Indiana, Indiana County, Pa., the Boroughs of East Vandergrift and Bolivar, Westmoreland County, Pa., and the Township of Somerset, Somerset County, Pa., and *empty malt beverage containers on return*, under a continuing contract or contracts with (1) Paul and Dominic LaMantia t/a LaMantia Beer Distributors; (2) George J. Paytash and Elsie Paytash t/d/b/a Clymer Beverage Company; (3) Bertha T. Dellaflora d/b/a National Beer Sales; (4) Chester Rukas and Irene Rukas d/b/a Rukas Beverage Distributing Company; and (5) Joseph and Josephine Picadio d/b/a Picadio Beer Distributors; (2) from points in Winston-Salem, N.C., to the Borough of Blairsville, Indiana County, Pa., and *empty malt beverage containers on return*, under a continuing contract with Frances L. LaMantia d/b/a F. L. LaMantia Beer Distributor, for 180 days. Supporting shippers: Paul and Dominic LaMantia t/a LaMantia Beer Distributors, 609-611 Washington St., Bolivar, Pa. 15923. Bertha T. Dellaflora d/b/a Na-

tional Beer Sales, 471 Water St., Indiana, Pa. 15701. Chester Rukas and Irene Rukas d/b/a Rukas Beverage Distributing Company, 701 McKinley Avenue, East Vandergrift, Pa. 15629. Joseph Picadio and Josephine Picadio d/b/a Picadio Beer Distributors, R.D. #6, Route 31, Somerset, Pa. 15501. George J. Paytash and Elsie Paytash, t/d/b/a Clymer Beverage Company, 81 Sherman St., Clymer, Pa. 15728. Frances L. LaMantia d/b/a F. L. LaMantia Beer Distributor, 42 W. Ranson Ave., Blairsville, Pa. 15717.

No. MC 140854 (Sub-No. 1TA), filed May 5, 1975. Applicant: MICHAEL TARANTINO, doing business as M. TARANTINO TRUCKING, P.O. Box 602, Bound Brook, N.J. 08805. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Soap*, in tank vehicles, from points in Middlesex County, N.J., to the facilities of Lehigh Valley RR. Co., at Middlesex, N.J., restricted to shipments having subsequent movement by railroad, for 180 days. Supporting shipper: The Miranel Chemical Company, Inc., 660 Stuyvesant Ave., Irvington, N.J. 07111. Send protests to: Robert S. H. Vance, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 9 Clinton St., Newark, N.J. 07102.

No. MC 140884 (Sub-No. 1TA), filed May 9, 1975. Applicant: PAUL SWENGLISH, R.D. #4, Box 611, Uniontown, Pa. 15401. Applicant's representative: Wil-

lam A. Gray, Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Scrap metals*, (Shipper advises that special equipment such as A-Frame, winch or hydraulic boom is needed to handle larger sections of scrap metal. Shipper also advises that because of the nature of the commodities, carrier must do cutting with acetylene torch in certain situations in order to insure proper loading), from points in Morgantown, Fairmont, Barrackville, Idamay and Clarksburg, W. Va., to points in Monongahela, Glassport, Elizabeth, and Pittsburgh, Pa., under a continuing contract or contracts with Edward Fields & Company of Morgantown, W. Va., for 180 days. Supporting shipper: Edward Fields & Company, P.O. Box 737, Morgantown, W. Va. 26505. Send protests to: Joseph A. Niggemyer, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 416 Old Post Office Bldg., Wheeling, W. Va. 25003.

No. MC 140888 (Sub-No. 1TA), filed May 7, 1975. Applicant: CONTAINER SERVICE (NIAGARA REGION) LTD., Box 26, Wellandport, Ontario, Canada. Applicant's representative: Robert D. Gunderman, Suite 710, Statler Hilton, Buffalo, N.Y. 14202. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Dry fertilizer*, in bags, and in bulk, for the account of Skyway Fertilizers Ltd., of Smithville, Ontario, Canada, from ports of entry on the International Boundary line between the United States

and Canada located on the Niagara River to points in the New York counties of Allegany, Cattaraugus, Chautauqua, Erie, Genesee, Livingston, Monroe, Niagara, Ontario, Orleans, Steuben, Wayne, Wyoming, Yates, and the City of North East, Pa., restricted to traffic moving in foreign commerce, for 180 days. Supporting shipper: Skyway Fertilizers Limited, Box 274, Smithville, Ontario, Canada. Send protests to: George M. Parker, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 612 Federal Building, 111 West Huron Street, Buffalo, N.Y. 14202.

No. MC 140927 (Sub-No. 1TA), filed May 5, 1975. Applicant: FREDERICK J. CAREY, JR., doing business as F. J. CAREY, JR. TRANS, 35 Brett Street, Brockton, Mass. 02401. Applicant's representative: Frank J. Weiner, Esq., 15 Court Sq., Boston, Mass. 02108. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Scrap metals*, in bulk, in dump vehicles, from points in Everett, Mass., to points in Jersey City, N.J., for 180 days. Supporting shipper: Prolerized Transportation Systems, Inc., Rover Street, Everett, Mass. Send protests to: John B. Thomas, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 150 Causeway St., Boston, Mass. 02114.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON,  
Acting Secretary.

## FOOD FOR SPECIAL DIETARY USES

Opportunity for Filing Applications for Additional Formulations of Dietary Supplements of Vitamins and Minerals; Preliminary Notice of Reopening of Hearing; Tentative Amendments to Final Orders

In the FEDERAL REGISTER of August 2, 1973 (38 FR 20708, 20730), the Commissioner of Food and Drugs established new regulations to govern the labeling of foods for special dietary uses in §§ 125.1, 125.2 and 125.3 (21 CFR 125.1, 125.2, 125.3) and to govern the composition of dietary supplements of vitamins and minerals in § 80.1 (21 CFR 80.1). Subsequently, 15 petitions for review of these regulations were filed in various United States courts of appeals, and all petitions were eventually consolidated in the United States Court of Appeals for the Second Circuit. After extensive briefing and argument, that Court rendered judgment on August 15, 1974. "National Nutritional Foods Association v. Food and Drug Administration," 504 F.2d 761 (2d Cir. 1974). While the Court stated that it was "broadly sustaining the regulations," it nevertheless remanded the regulations to the Food and Drug Administration for certain specified action and stayed the effective date of the regulations "until six months after our judgment becomes final or June 30, 1975, whichever is later". (504 F.2d 785-786.) A copy of this judgment is on file with the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852.

On February 24, 1975, the Supreme Court denied certiorari in this case. Accordingly, the Commissioner concludes that it is now appropriate to develop revised regulations, in compliance with the directions of the Court of Appeals, as expeditiously as is feasible.

### I. APPLICATIONS FOR ADDITIONAL FORMULATIONS

The Court's decision directs the Commissioner to receive and consider applications for additional formulations of dietary supplements.

The Commissioner hereby invites applications from any interested persons who desire that additional formulations of dietary supplements of vitamins and/or minerals be permitted under § 80.1 (21 CFR 80.1). Applications may be filed for additional combinations of vitamins and/or minerals and/or for increased potency of any vitamins or minerals within a combination. An additional formulation incorporating a substance or potency that is not generally recognized as safe shall also require a food additive petition pursuant to sections 201(s), 402 (a) (2) (C), and 409 of the act (21 U.S.C. 321(s), 342(a) (2) (C), 348).

A separate application shall be filed with the Hearing Clerk, in quadruplicate, for each formulation sought. Each application shall include:

## PROPOSED RULES

a. A description of the formulation sought, containing a list of all vitamins and/or minerals to be included, the potency of each, and an explanation of how the formulation differs from those presently authorized by 21 CFR 80.1, together with the name proposed by the applicant for such formulation.

b. A statement of the nutritional or other physiological rationale, if any, which the applicant believes justifies the formulation. One or more affidavits by qualified experts, and/or copies of published scientific literature in support of any such rationale shall be included.

c. A statement of any other rationale which the applicant believes shows a need for the formulation. If an existing consumer demand or market for the formulation is asserted on behalf of the product, the applicant shall include copies of labeling for the existing product, including labels, cartons, leaflets, etc., and an affidavit(s) with accompanying documentation establishing the scope of the existing market, including data on the number of units sold and the wholesale and retail value involved.

All applications shall be received by the Hearing Clerk, Food and Drug Administration, not later than close of business on or before July 14, 1975. Applications received after that date will be held in abeyance pending review after all other issues relating to this matter are disposed of.

In evaluating the applications the Commissioner will be guided by the following statement by the Court:

The FDA should establish dates for the filing of such applications and, if these should prove to be numerous, procedures to screen out the most meritorious for early hearing and decision. In determining whether it is "reasonable" to deny a particular application, the primary consideration must of course be the degree of increase in potential consumer confusion. Since the sheer variety of products is a central problem here, the applications will in a real sense be in competition with one another, and we do not expect a very large number to be granted. It would be reasonable in resolving this competition to favor products which, because of widespread prior publicity or even just because of simplicity of terminology, are unlikely to confuse many consumers when properly labeled. Indeed, we specifically direct that the FDA consider any such applications as to vitamin C in larger dosages and vitamin B complex supplements. Moreover, against any danger of slight increases in confusion should be weighed such factors as the following: (1) How large is the consumer demand for the product at present, and how widespread any expert belief that it is not an irrational product for a significant number of consumers; (2) how effectively could any potential confusion with respect to the particular product be reduced or eliminated by requiring on the label (A) with respect to a high dosage product, a legend to the effect that the FDA has determined this product contains quantities of such-and-such nutrients not normally essential to human health, or (B) with respect to a combination, a legend to the effect that the FDA has determined this product does not contain all the nutrients essential to human health, and (3) in the case of application to exceed the upper limits, how dependable, if this can be determined, is the particular NAS RDA on which the upper limit is based relative to other RDA's . . . We wish to make clear, that, while it would defeat the purposes of Part 80 for a very large number of such applications to be granted, either with respect to dosage limitations or with respect to combinations of less than all essential ingredients, we expect each application to receive the most serious consideration on its merits relative to the criteria just outlined. At the same time it should be obvious to the petitioners that we are broadly sustaining the regulations and that any attempt to convert the procedures we are here directing into something like a nearly complete reopening of the proceeding will be counter-productive. Indeed, if an avalanche of petitions for exceptions should occur, the agency would be justified in denying all applications (except those as to increased dosages of vitamin C and vitamin B complex supplements), without prejudice to subsequent renewal, on this ground alone. What we are doing is to provide the industry with another chance of individualized consideration of the most meritorious cases of exceptions. An exercise of responsibility on the part of the industry will be necessary if this is to confer the benefits we intend. (504 F.2d 785-786.)

The Commissioner advises that it will not be necessary for anyone to file an application for the high potency vitamin C product mentioned by the Court or for any other high potency product composed of a single vitamin or mineral. As set forth in section III of this notice, the Commissioner is tentatively amending the final orders so that Parts 80 and 125, which establish a standard of identity and labeling requirements, will impose no potency limitations on products consisting of a single vitamin or mineral. Limitations for reasons of safety may be imposed by other regulations in Part 121 and in other sections in this chapter or by direct application of the act, as discussed in section III.h. of this preamble.

As explained in section III.h. below, new information may be developed by the GRAS Review Project or the OTC Drug Review concerning the toxicity of particular vitamins and/or minerals which would cause the Food and Drug Administration either to propose new restrictions in the interest of public safety or to propose elimination of certain existing restrictions as no longer justified.

The Commissioner is trusting industry to exercise restraint and common sense in restricting itself to applications with some legitimate basis and hopes that it will not be necessary to respond to an "avalanche" of applications with the sanction suggested by the Court in the passage quoted above. The Commissioner requests that the affected industries consolidate their interests and file joint applications, documented in the manner set forth above, for a small number of additional formulations.

II. PRELIMINARY NOTICE OF REOPENING OF HEARING

The Court's decision remanded the regulations to the Agency "with instructions to reopen the record for the limited purpose of permitting reasonable cross-examination of Dr. (William H.) Sebrell (or, if he is not available, some

other qualified member of the [Food and Nutrition] Board [of the National Academy of Sciences] by Dr. (Miles) Robinson or counsel of some other similarly interested Participant". (504 F.2d 799.)

Dr. Sebrell is no longer a member of the Food and Nutrition Board. Tentative arrangements have been made to call instead Dr. Alfred E. Harper, who was Dr. Sebrell's successor as the Chairman of the Committee on Dietary Allowances of the Food and Nutrition Board, serving in that capacity at the time of development and publication of the most recent (eighth) edition (1974) of the National Academy of Sciences-National Research Council's "Recommended Dietary Allowances." Dr. Harper is Professor of Nutrition Sciences and Biochemistry and Chairman of the Department of Nutritional Sciences, University of Wisconsin. Dr. Harper will not tender any direct testimony on behalf of the Government except to identify and provide for the record a copy of the eighth edition (1974) of the "Recommended Dietary Allowances" developed by the Food and Nutrition Board of the National Academy of Sciences-National Research Council. (The seventh edition (1968) of this publication was one of the fundamental sources relied upon in the development of Parts 80 and 125. The eighth edition was published after appellate review of these regulations had begun. Since the eighth edition was cited and quoted in briefs before the Court of Appeals and the Court itself referred to the eighth edition in its decision (504 F.2d 791, 798, 799 (Ftnt. 67)), it seems clear that a copy of the publication in its entirety should be included in the record prior to the commencement of the examination of Dr. Harper.) Instead, pursuant to the Court's direction, he will be available as Dr. Sebrell's successor to respond to inquiry by those opposed to the regulations, concerning (1) the methodology employed in development of the recommended dietary allowances by the Board and the scientific foundation upon which these allowances are based, (2) the scientific appropriateness of the Food and Drug Administration's use of the Board's recommended dietary allowances, and (3) possible biases or conflicts of interests on the part of the Board, as well as other relevant subjects.

The Commissioner intends to issue shortly in the FEDERAL REGISTER a notice announcing a specific time and place for reopening of the hearing for examination of Dr. Harper. At that time new notices of appearance will be required for all who wish to participate since it is likely that some of the participants of record may have changed their address or their counsel or may no longer wish to participate, and the Commissioner believes the proceeding should be open to new persons who are not presently participants of record.

It is the Commissioner's intention that this proceeding take place in the Hearing Room at the Food and Drug Administration headquarters in Rockville, MD. While the Court has required only that

## PROPOSED RULES

Dr. Robinson or counsel of some other similarly interested participant be allowed to engage in examination, the Commissioner intends that the examination be open to as many participants reflecting as many points of view as is reasonably possible. (Indeed, such an open approach appears necessary to avoid a conflict concerning the person to conduct cross-examination. At the time of the hearing, Dr. Robinson was the official representative of the National Health Federation (NHF). It appears that Dr. Robinson is no longer acting for the NHF and that both Dr. Robinson and the NHF may assert a claim to conduct the cross-examination envisioned by the Court.)

The Commissioner will direct the Administrative Law Judge that, if requests to engage in examination are numerous and the participants cannot agree among themselves on apportionment of time or subject matter sufficient to accommodate all within a reasonable period of time, he should group participants with truly common interests and allow only one, or perhaps a few, qualified representative(s) from each group to examine Dr. Harper.

The Administrative Law Judge will be directed to expedite his report to the Commissioner upon concluding the hearing.

### III. TENTATIVE AMENDMENTS TO FINAL ORDERS

Having carefully considered the decision of the Court of Appeals, the Commissioner concludes that a number of revisions, discussed below, should be made in the regulations.

a. *Elimination of maximum potency restrictions on dietary supplements consisting of a single vitamin or mineral.* Section 80.1(c) (1) is tentatively amended below to eliminate any maximum potency limitations on dietary supplements consisting of a single vitamin or mineral. (As discussed below in paragraph III.h. of this notice, potency may be restricted for reasons of safety by other sections of the act not here involved or by other regulations.)

The Commissioner remains convinced that, in the case of multicomponent supplements, consumed by individuals who wish to assure themselves that they consume the range of vitamins and/or minerals important for good nutrition, the vitamins and/or minerals included should be present in potency ranges generally recognized by qualified experts to be appropriate for such purposes, reflecting reasonable balances among the vitamins and/or minerals. The concept of standardized multicomponent supplements is that they provide essential vitamins and/or minerals which are useful for supplementation purposes (i.e., those which are not only essential to good health but for which there is a reasonable possibility of dietary deficiency) at levels that are nutritionally useful and that maintain reasonable balance among the vitamins and/or minerals. In the Commissioner's judgment, such combination products should not provide excessive quantities of a vitamin or mineral

which are wasteful, i.e., nutritionally useless and immediately excreted out of the system, and which serve only to create consumer confusion leading to false bases of comparison and competition between products, which may lead to higher prices but not to better products. Pursuant to the tentative amendment, on the other hand, dietary supplements consisting of a single vitamin or mineral may be marketed whether or not there is a nutritional rationale for such supplementation at potencies in excess of any established nutritional usefulness. The Commissioner concludes that this approach preserves the nutritional integrity of the multicomponent dietary supplements while assuring the public that dietary supplements consisting of a single vitamin or mineral will be available individually with no upper limits except those dictated by safety.

b. *Status of vitamins and minerals for which there are no U.S. RDA's.* With regard to dietary supplements of vitamins and/or minerals, the decision of the Court enjoins the provisions of § 125.1 (c) which had prohibited the addition of certain vitamins and minerals recognized as essential in human nutrition but for which no U.S. Recommended Daily Allowances (U.S. RDA's) have been established and which had prohibited the addition of such vitamins and minerals to general purpose foods. The Court also directed the Agency to consider whether there are other essential nutrients for which no U.S. RDA's have been established, which are unmentioned in the present regulations and which should be added. The Court specifically mentioned cobalt and selenium for consideration.

Pursuant to the Court's decision, § 125.1(c) is tentatively amended below to become simply an informational paragraph. It lists those vitamins and minerals which are essential or probably essential in human nutrition but for which no U.S. RDA's have been established. The list has been expanded to include all additional vitamins and minerals which the Food and Nutrition Board of the National Academy of Sciences-National Research Council (NAS-NRC) has concluded are essential nutrients, or probably essential nutrients for man but for which the NAS-NRC has established no recommended dietary allowances and for which, consequently, no U.S. RDA's have been established. As tentatively amended, the list now includes two vitamins, i.e., vitamin K and choline, and twelve minerals, i.e., chlorine, chromium, fluorine, manganese, molybdenum, nickel, potassium, selenium, silicon, sodium, tin and vanadium.

The Commissioner concludes that cobalt should not be added to § 125.1(c). Cobalt per se is not an essential nutrient. Its only known function is as an integral part of vitamin B<sub>12</sub> (cobalamin), which is already included in the list of mandatory essential vitamins. Therefore, there is no basis for including cobalt in § 125.1 (c). In any event, cobalt is not generally recognized as safe for use in food and thus any food use is illegal in the absence of a supporting food additive regulation.

## PROPOSED RULES

(21 U.S.C. 321(s), 342(a)(2)(C), 348.) Because of toxicity, 21 CFR 121.106(d)(9), published in the *FEDERAL REGISTER* of September 23, 1974 (39 FR 34172), specifically prohibits any food use of cobaltous salts.

Sulfur has been deleted from § 125.1(c) as tentatively revised because sulfur per se is not an essential nutrient but rather an integral part of the molecular structure of several amino acids (methionine, cystine, cysteine). The concept of sulfur being referred to as an essential nutrient stems from this fact. Sulfur involved in metabolic processes other than protein synthesis is derived in fully adequate amounts from the normal degradation of proteins containing the sulfur amino acids. Dietary sulfur in the form of various salts makes no contribution to the metabolic function of sulfur in the body. Sulfur may lawfully be sold as an ordinary food in any compound which is generally recognized as safe, if there is anyone interested in buying of selling such a product. (Several sulfur compounds which are generally recognized as safe and thus lawful for use without a food additive regulation, 21 U.S.C. 321(s), 342(a)(2)(C), 348, are listed in 21 CFR 121.101(d).) However, any representation that such sulfur is a dietary supplement or that it has special dietary properties would be false or misleading and unlawful.

For many of the substances included in § 125.1(c) as tentatively revised, it is unlikely that NAS-NRC RDA's or U.S. RDA's will ever be established. For example, while nickel appears to be essential to good health as determined by experimental animal studies, the needed level of intake is so low and natural environmental availability is so pervasively abundant that there is no prospect of any dietary insufficiency and no need to divert research resources to determining a specific NAS-NRC RDA or U.S. RDA for humans.

The decision of the Court of Appeals also directs that all essential vitamins and minerals for which no U.S. RDA's have been established be integrated into § 80.1(b)(1)(v) and into the list of optional nutrients in § 80.1(f) until such time as U.S. RDA's may be established. The Commissioner is tentatively amending the regulations in a manner which he believes is responsive to the intentions of the Court.

The Court was concerned about the lack of support for the banning from sale of safe amounts of essential nutrients for which U.S. RDA's have not been established. The Commissioner accordingly concludes that the regulations should be amended to add to § 80.1 a new paragraph (f)(3) to recognize and list other vitamins and minerals, unlisted in § 80.1(f)(1), which are recognized as essential, or probably essential, in human nutrition but for which no U.S. RDA's have been established. (This is the same list of nutrients which appears in tentatively amended § 125.1(c), as discussed above.)

Because § 80.1(b)(2) provides that a dietary supplement may be composed of any single vitamin or mineral listed in

§ 80.1(f), the effect of new § 80.1(f)(3) is that a dietary supplement consisting of a single vitamin or mineral for which no U.S. RDA has been established may be sold without any restrictions on potency imposed by Part 80 or 125. (As discussed in paragraph III.h. of this preamble, availability may be restricted for reasons of safety by other sections of the act not here involved or by other regulations.)

However, on the basis of scientific knowledge presently available to him and contained in the record, the Commissioner concludes that a standard of identity for multicomponent dietary supplements of vitamins and/or minerals, consumed by individuals who wish to assure themselves that they consume the range of vitamins and/or minerals important for good nutrition, does not properly encompass vitamins and minerals for which no NAS-NRC RDA nor any U.S. RDA has been established. While there is evidence that these nutrients are "essential", there currently is no body of scientific evidence establishing that American diets are deficient in any of them. Accordingly, it would be wasteful and misleading to include them in standardized multicomponent dietary supplements consumed by individuals who wish to assure themselves that they consume the range of vitamins and/or minerals important for good nutrition. Under these circumstances, the Commissioner concludes that it would not promote honesty and fair dealing in the interest of consumers for him on his own initiative to provide for the addition of such nutrients to multicomponent supplements.

In section I of this preamble, the Commissioner invites the filing of applications for additional formulations of dietary supplements of vitamins and minerals. The Commissioner advises that he will give unbiased consideration to any application which concerns additional multicomponent combinations involving vitamins and/or minerals for which no U.S. RDA has been established, and he recognizes his obligation under the decision of the Court to consider permitting a limited number of additional formulations under the conditions established by the Court.

Finally, the Commissioner has concluded that dietary supplements of vitamins and/or minerals containing a vitamin(s) or mineral(s) for which no U.S. RDA has been established should bear a statement to inform the consumer of this fact. Sections 80.1(d)(1) and 125.3(a)(2) are tentatively amended to require label statement of such information.

c. *Elimination of provision that high potency vitamin/mineral products are drugs.* The Court ruled § 125.1(h) to be invalid. This paragraph had provided that, except for certain specified and quite limited products, a vitamin/mineral product with a potency exceeding the limits set by § 80.1 was necessarily a drug.

The Court concluded that the hearing record did not show that there is no

known food use of nutrients at such high levels.

• • • It cannot be said even as an objective matter that a given bottle of pills, each containing more than the upper limit of one or more nutrients, is not being used for nutritional purposes.

A fortiori it follows that the vendor of such a product can in good faith intend it for nontherapeutic use. Section 201(g)(1)(B) [21 U.S.C. 321(g)(1)(B)] makes the vendor's intent the crucial element in the definition of "drug" here at issue • • • while we agree that a factfinder should be free to pierce all of a manufacturer's subjective claims of intent and even his misleadingly "nutritional" labels to find actual therapeutic intent on the basis of objective evidence in a proper case, such objective evidence would need to consist of something more than demonstrated uselessness as a food for most people • • •

Our invalidation of this subsection in no way prevents high-dosage products properly labeled from being marketed as over-the-counter drugs. But under our ruling § 125.1(h) will cease to have any independent restrictive force. [504 F.2d 789.]

The Commissioner has considered whether the record should be reopened to permit the admission of additional evidence on this matter. In view of the fact that the sole difference between the approach taken in § 125.1(h) and the approach taken by the Court is that, pursuant to the Court's decision, these products will now be regulated under the law as foods rather than as over-the-counter (nonprescription) drugs, the Commissioner has concluded that no useful purpose would be served by pursuing this point as a general rule at this time. It is now clear that, in specific situations involving an individual vitamin or mineral, where the need for prescription drug control is essential to protect the public health, the vitamin or mineral in question may properly be classified as a prescription drug to prevent indiscriminate use by laymen without medical supervision. See "National Nutritional Foods Association v. Weinberger," No. 74-1738 (2d Cir. 1975). Accordingly, pursuant to the Court's decision, the tentative order revokes § 125.1(h).

As the foregoing quotation from the Court's decision specifically recognizes, a person may choose to offer a vitamin and/or mineral product as a drug rather than as a food, in which case the product must comply with the drug requirements of the act and the regulations promulgated pursuant thereto rather than these regulations.

The term "dietary supplement" applies solely to foods and has no application to a product offered solely as a drug. A vitamin and/or mineral product which is offered as a food and which comes within the definition of a "dietary supplement" in Part 80 must, of course, comply with the definition and standard of identity established by Part 80. Section 403(g) of the act (21 U.S.C. 343(g)) provides that a food shall be deemed to be misbranded if it purports to be or is represented as a food for which a definition and standard of identity has been prescribed by regulation unless it conforms to such definition and standard.

## PROPOSED RULES

A new § 80.1(n)(1) is added to the regulations to explain that a dietary supplement which does not comply with the standard of identity for dietary supplements will be deemed to be a misbranded food pursuant to section 403(g) of the act.

d. *"Unmentioned elements."* The Agency was directed by the Court "to articulate its intentions with respect to those unmentioned elements which it finds not to be essential".

Ingredients which have in the past been represented as having nutritional properties but which have not been shown to be essential in human nutrition and thus are not included in § 125.1 will continue to be governed by the provisions of § 125.2(b)(5), i.e., they may not be added to vitamin/mineral supplements but they may be sold as ordinary foods by themselves or in combination with one another. Thus, for example, a person remains free to sell rutin tablets, or tablets containing a combination of rutin and para-amino-benzoic acid, etc., as food provided no claims are made for such foods to the effect that they have special nutritional properties. However, one may not add rutin or para-amino-benzoic acid to a vitamin and/or mineral supplement because to do so would tend to mislead a consumer into believing that the additional ingredient makes the supplement more useful.

Section 125.2(b)(5) presently lists specific substances which have in the past been represented as having nutritional properties but which have not been shown to be essential to human nutrition e.g., rutin, para-amino-benzoic acid. The substances included by name in § 125.2(b)(5) are automatically banned by operation of law from vitamin and/or mineral supplements by § 125.2(b)(5). To rely on this section of the regulation for banning any other such substance from a vitamin and/or mineral supplement, it would be necessary either (1) to demonstrate by an appropriate factual showing that the substance has been represented as having nutritional properties but has not been shown to be essential in human nutrition, and that it is thus within the class of substances banned from dietary supplements by 21 CFR 125.2(b)(5), e.g., in a civil seizure action pursuant to section 304 of the act (21 U.S.C. 334), or (2) to engage in new rule making to add the substance, by name, to § 125.2(b)(5).

Under the regulations, it is not permissible to add to a dietary supplement any ingredient which does not provide a vitamin or mineral or serve a functional purpose, since the definition and standard of identity does not provide for the inclusion of such substances. (21 CFR 80.1(g); 21 U.S.C. 343(g)(1).) Thus a substance which does not provide any vitamin or mineral and which is not a "preservative, stabilizer, flavor, sweetener, color, seasoning, carrier, base, or vehicle" and which does not "facilitate preparation" of the vitamin and mineral substances, may not be included in a dietary supplement. (21 CFR 80.1(g); 21 U.S.C. 343(g)(1).)

Of course, even if a substance may legally be included in a dietary supplement of vitamins and minerals, it may not be declared on the label in a manner which is false or misleading or otherwise in violation of the act or regulations. For example, assuming that alfalfa is a source of vitamin A activity, the regulations would permit use of alfalfa as the source of vitamin A in the manufacture of a dietary supplement of vitamin A. Such a product would be labeled as a "vitamin A supplement" (21 CFR 80.1(h)), and "alfalfa" would be included in the list of ingredients (21 CFR 80.1(i)(4)), but not in the listing of vitamins and minerals (21 CFR 80.1(i)(1)). It would also be permissible to include in labeling for such a dietary supplement of vitamin A a truthful statement that it is "derived from alfalfa". However, to offer such a product as a "vitamin A—alfalfa supplement" would violate 21 CFR 80.1(h) and section 403(a) of the act (21 U.S.C. 343(a)). (A product such as "powdered alfalfa" could be sold as an ordinary food, rather than as a dietary supplement, with nutrition labeling pursuant to 21 CFR 1.17.)

Of course, any unqualified representation in labeling of a special dietary food to the effect that the vitamin or mineral content is derived from a particular source would be misleading, in violation of sections 403(a) and 201(n) of the act (21 U.S.C. 343(a), 321(n)), unless that source provides a significant portion of the vitamin or mineral content of the product. For example, it would be misleading for a dietary supplement to bear labeling claims such as "vitamin A derived from alfalfa" or "vitamin C derived from rose hips", if only two percent of the vitamin A, or vitamin C, content of the product is derived from that source.

To help clarify this situation and prevent misleading labeling with regard to the source of a vitamin or mineral, a tentative amendment to the regulations, 21 CFR 125.3(c), requires that whenever a representation is included in labeling concerning the source of a vitamin or mineral, the representation shall be accompanied, in type of at least equal size and prominence, by a statement of the percent of the vitamin or mineral content provided by that source. For example, if 40 percent of the vitamin A content of a dietary supplement is derived from alfalfa, a label statement "contains vitamin A derived from alfalfa" would be required to be accompanied, in type of equal size and prominence, by a statement such as "40 percent of the vitamin A content of this product is derived from alfalfa".

e. *Certain representations concerning iron.* Pursuant to the Court's decision, § 125.2(b)(2) is amended to permit representations that infants, children, and women of childbearing age may not be receiving adequate amounts of iron in their daily diets.

f. *Revisions in formulations.* As directed by the Court, § 80.1(b)(4) is amended to make clear that future revisions regarding permissible formulations might involve greater product potencies as well as different combinations

of ingredients, when such revisions would promote honesty and fair dealing in the interest of consumers.

g. *Fresh fruits and vegetables.* Section 80.1(e)(5) and (6) is amended to implement the Court's order that fresh fruits and fresh vegetables be exempted from the regulations. In a notice published in the *FEDERAL REGISTER* of February 26, 1975 (40 FR 8214), the Commissioner proposed regulations to govern nutrition labeling of fresh fruits and fresh vegetables.

h. *Safety restrictions imposed by other regulations or by the act.* Although Parts 80 and 125, as tentatively amended, do not place any restriction upon the potency of a vitamin or mineral sold individually, restrictions on maximum potency or other restrictions on availability or use may be imposed for reasons of safety by other regulations or by the act. For informational purposes, pertinent restrictions are cross-referenced in tentative new § 80.1(n)(2).

i. *A discussion of existing limitations on food use of vitamins and minerals imposed by other regulations and cross-referenced for informational purposes in new § 80.1(n)(2) follows:*

(1) *Vitamin A.* Any oral preparation containing vitamin A in excess of 10,000 IU per dosage unit or recommended daily intake is deemed to be a drug and is restricted to prescription sale (21 CFR 250.109). Sale of a product exceeding this potency as a dietary supplement would be illegal.

(2) *Vitamin D.* Any oral preparation containing vitamin D in excess of 400 IU per dosage unit or recommended daily intake is deemed to be a drug and is restricted to prescription sale (21 CFR 250.110). Sale of a product exceeding this potency as a dietary supplement would be illegal. (21 CFR 250.11 contains an exception for foods which are for use under medical supervision to meet nutritional requirements of persons with poor vitamin D absorption, which may contain vitamin D not in excess of 1,000 IU per dosage unit or recommended daily intake.)

(3) *Folic acid.* Folic acid is not generally recognized as safe for addition to food for its vitamin property and consequently the substance is a food additive for such use subject to the limitations on use set forth in the food additive regulation 21 CFR 121.1134 (e.g., maximum daily adult intake not to exceed 0.4 mg except for pregnant or lactating women, for whom the limit is 0.8 mg).

(4) *Iodine.* Iodine is not generally recognized as safe for addition to food for its mineral property except when added to table salt as cuprous iodide or potassium iodide at a level not to exceed 0.01 percent (21 CFR 121.101(d)(5)). Any other addition of iodine to food for its mineral property constitutes usage as a food additive and must be in accord with a food additive regulation. Food additive regulation 21 CFR 121.1073 permits the addition of iodine to food for its mineral property if contributed as potassium iodide, with certain restrictions (e.g., maximum daily adult intake not to exceed 225 mcg except for pregnant or

lactating women, for whom the limit is 300 mcg). Food additive regulation 21 CFR 121.1149 permits the addition of kelp to food as a source of iodine, with the same potency restrictions.

(5) **Copper.** Copper contributed as copper gluconate is not generally recognized as safe for addition to food for its mineral property if the copper gluconate exceeds 0.005 percent by weight of the finished food product (21 CFR 121.101(d)(5)). Use of copper gluconate in a dietary supplement in excess of this level is illegal in the absence of a food additive regulation approving such use.

(6) **Fluorine.** Because of the potential toxicity of fluorine compounds, fluorine is not generally recognized as safe for addition to food, except for low levels in water as approved by the Public Health Service (21 CFR 121.10). Accordingly, in the absence of an authorizing food additive regulation, the inclusion of fluorine in a dietary supplement product would be illegal.

(7) **Potassium.** Preparations of potassium salts providing 100 mg or more of potassium per tablet (or 20 mg or more per milliliter) are deemed to be drugs and are restricted to sale on a prescription basis by § 201.306 (21 CFR 201.306) because concentrated doses of potassium salts may produce serious and possibly fatal lesions in the small bowel.

In addition to the limitations on use of particular vitamins and minerals imposed by existing regulations, as discussed above, food use of a vitamin or mineral may be restricted for reasons of safety by direct application of the act.

Any added vitamin or mineral which is not generally recognized, among experts qualified by scientific training and experience to evaluate its safety, as having been adequately shown to be safe under the conditions of its intended use in food is a food additive within the meaning of section 201(s) of the act (21 U.S.C. 321(s)), and pursuant to sections 402(a)(2)(C) and 409 of the act (21 U.S.C. 342(a)(2)(C) and 348) such use is illegal in the absence of a food additive regulation approving such use. This legal principle is set forth in new § 80.1(n) for informational purposes.

For example, in the judgment of the Commissioner, molybdenum is not generally recognized as safe for addition to food. Thus, a "molybdenum supplement" would be subject to regulatory action, e.g., a civil seizure action in a United States District Court pursuant to section 304 of the act (21 U.S.C. 334), charging that the supplement is adulterated within the meaning of section 402(a)(2)(C) of the act (21 U.S.C. 342(a)(2)(C)) in that it contains a food additive within the meaning of section 201(s) of the act (21 U.S.C. 321(s)), i.e., molybdenum, which is unsafe for such use within the meaning of section 409 of the act (21 U.S.C. 348) because there is no food additive regulation or exemption permitting such use. Should a claimant, under these circumstances, contend that molybdenum is generally recognized as safe and thus not a food additive within the meaning of 21 U.S.C. 321(s), this would be a factual issue for determination in

the civil seizure action in the absence of a regulation governing the status of the nutrient.

A listing of some of the vitamins, minerals and compounds with vitamin and/or mineral properties which are generally recognized as safe (GRAS), and thus (since a substance which is GRAS is not a food additive, 21 U.S.C. 321(s)) lawful for use without a food additive regulation, appears at § 121.101(d)(5) (21 CFR 121.101(d)(5)).

As 21 CFR 121.101(a) specifically advises, it is not practicable to list by regulation all substances that are generally recognized as safe for their intended use. Accordingly, upon request, addressed to U.S. Food and Drug Administration, Bureau of Foods, Division of Regulatory Guidance, HFF-310, 200 C St. SW., Washington, D.C. 20204, the Food and Drug Administration will advise whether, in its judgment, a particular use of a vitamin or mineral (not specifically governed by regulation) is generally recognized as safe within the meaning of section 201(s) of the act and thus lawful for use without a food additive regulation.

Pursuant to new safety data developed by the Food and Drug Administration's GRAS Review Project, described in the FEDERAL REGISTER of July 26, 1973 (38 FR 20053), or developed by the Food and Drug Administration's Over-the-Counter (OTC, i.e., nonprescription) Drug Review, described in § 330.10 (21 CFR 330.10), or derived from other sources, additional restrictions in the interest of safety may be imposed on the use of a vitamin or mineral by appropriate new rule making, or existing restrictions may be eliminated. Restrictions contained in such regulations will routinely be cross-referenced in § 80.1(n)(2).

The Commissioner advises that he is planning to initiate new rule making to particularize more comprehensively than existing § 121.101(d)(5) the vitamins, minerals and compounds with vitamin and/or mineral properties which are GRAS (specifying potency limitations where recognition of safety depends upon such limited use) and to list as well those substances which are not GRAS at any level of use. Proposals for such rule making will appear in the FEDERAL REGISTER.

In the meantime, the Commissioner advises that he presently has the following tentative views regarding safety of nutrients not already discussed above. Except for vitamins A and D and folic acid (all three of which are subject to existing regulations restricting potency, discussed above), the Commissioner does not believe that current scientific knowledge warrants any potency restrictions in the interest of safety upon use of the vitamins (mandatory or optional) listed in § 80.1(f)(1) or upon the use of choline. However, with regard to vitamin K, the Commissioner is presently of the opinion that synthesized vitamin K (menadione) could only be intended for therapeutic use, and, because of the potential for harm involved in its use, that it should be dispensed only on prescription. The naturally occurring vi-

tamin K (phyloquinone), on the other hand, appears to be generally recognized as safe for use as a dietary supplement at least up to levels providing 100 mcg per recommended daily quantity. While all of the minerals included in § 80.1(f)(1) are generally recognized as safe for use in dietary supplements at levels of up to 150 percent of the U.S. RDA per day, toxicity concerns arise if higher potencies are chronically consumed, and, if practicable, it would be useful to particularize by regulation, in the forthcoming rule making, the potency levels at which these nutrients cease to be GRAS. Manganese appears to be generally recognized as safe for use as a dietary supplement for adults and children 4 or more years of age at levels of up to 7.0 mg per recommended daily quantity. Chlorine and sodium may cease to be GRAS for dietary supplement use at certain levels. Finally, in the absence of any reliable data existing at this time to indicate a safe level for addition to food, and in view of recognized toxic potentialities, the Commissioner has tentatively concluded that chromium, molybdenum, nickel, selenium, silicon, tin, and vanadium are not GRAS for addition to food for dietary supplementation and that any such use would require a food additive application. The foregoing observations are offered simply as a matter of information concerning the Commissioner's present, tentative, views on the GRAS status of particular nutrients; the forthcoming proposed rule making will include a detailed discussion of the safety concerns, if any, which arise with regard to each nutrient, together with citations to published literature.

1. **Lower limits for supplements without U.S. RDA's.** The Commissioner advises that, based on current scientific knowledge available to him, a dietary supplement providing respectively less than 200 mg of choline, 50 mcg of naturally occurring vitamin K (phyloquinone), or 1.25 mg of manganese per recommended daily quantity would not serve a useful purpose as a dietary supplement. Promotion of supplements containing less than these respective amounts would be misleading, in violation of section 403(a) of the act.

2. **Future revisions of U.S. RDA's.** The United States Recommended Daily Allowances (U.S. RDA's) were established primarily on the basis of the recommended dietary allowances (RDA's) contained in the 7th edition of "Recommended Dietary Allowances," published in 1968 by the NAS-NRC. The 8th edition, published in 1974, contains a number of changes in the NAS-NRC RDA's for various age and sex groups. It is the Commissioner's present view that the changes made are not of sufficient magnitude as they relate to overall public health to warrant similar changes in the U.S. RDA's at this point in time. However, the Commissioner advises that U.S. RDA's may be proposed for additional nutrients over the next several years on the basis of accumulating scientific knowledge, and that it is reasonable to anticipate changes in existing U.S. RDA's to reflect changes in the NAS-

NRC RDA's when the latter are next published, probably 1979.

k. **Miscellaneous.** The remaining changes implemented by the amendment to the tentative order involve adjustments for consistency with the changes already discussed.

In accordance with the foregoing discussion and pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201(n), 401, 403 (a) and (j), 701 (a) and (e), 52 Stat. 1041, 1046-1048, 1055, 70 Stat. 919; 21 U.S.C. 321(n), 341, 343 (a) and (j), 371 (a) and (e)) and under authority delegated to him (21 CFR 2.120), the Commissioner issues the following tentative amendments to the final orders establishing §§ 80.1, 125.1, 125.2, and 125.3.

#### PART 80—DEFINITIONS AND STANDARDS OF IDENTITY FOR FOOD FOR SPECIAL DIETARY USES

1. Section 80.1 is amended by revising the introductory text of paragraph (b)(1), paragraphs (b)(4), (c)(1), (e)(5) and (6), (h)(2)(v) and (i)(1), and by adding new paragraphs (f)(3) and (n) to read as follows:

§ 80.1 Dietary supplements of vitamins and minerals; definition, identity, label statements.

(b) . . . . .  
(1) A dietary supplement consisting of more than one vitamin or mineral shall contain only those vitamins and/or minerals listed in paragraph (f)(1) of this section and shall be offered for its vitamin and/or mineral content only in the following combinations, with the provision that any vitamin or mineral defined as optional in paragraph (f)(1) of this section may be omitted:

(4) Amendment of the list of permissible combinations of vitamins and/or minerals contained in paragraph (b)(1) of this section and/or of the permitted range of potency for any vitamin(s) or mineral(s) in a combination product, or any other amendments to this section, may be proposed by the Commissioner of Food and Drugs on his own initiative or upon petition by an interested person in accordance with the procedure set forth in Part 2 of this chapter. Any such petition shall be submitted in the form set forth in § 2.65 of this chapter and shall include data to show that such amendment will promote honesty and fair dealing in the interest of consumers.

(c) . . . . .

(1) Subject to good manufacturing practices, dietary supplements consisting of more than one vitamin or mineral shall contain in the specified daily quantity not less than the lower limit nor more than the upper limit of any nutrient specified in paragraph (f)(1) of this section for the groups for which the supplement is offered; and dietary supplements consisting of a single vitamin or mineral listed in paragraph (f)(1) of this section shall contain in the specified daily

quantity not less than the lower limit of the nutrient specified in paragraph (f)(1) of this section for the groups for which the nutrient is offered.

(e) . . . . .

(5) Foods to which one or more nutrient(s) listed in paragraph (f)(1) of this section are added to improve nutritional quality, unless the total level, including any naturally occurring amounts, of any such added vitamin or mineral per single serving attains or exceeds 50 percent of the U.S. Recommended Daily Allowance (U.S. RDA) for adults and children 4 years or more of age as specified in § 125.1(b) of this chapter, in which case the provisions of both this section and § 1.17 of this chapter shall apply. If the provisions of both this section and § 1.17 of this chapter apply to a food, the labeling of such food shall conform to the labeling established in this section except that the labeling established in § 1.17(c) of this chapter, including the order for listing vitamins and minerals established in § 1.17(c)(7)(iv) of this chapter, shall be used in lieu of the labeling established in paragraph (i)(1) of this section.

(6) Raw agricultural commodities.

(f) . . . . .

(3) In addition to the nutrients listed in paragraph (f)(1) of this section, other vitamins and minerals recognized as essential, or probably essential, in human nutrition in their biologically active forms are vitamin K, choline, and the minerals chlorine, chromium, fluorine, manganese, molybdenum, nickel, potassium, selenium, silicon, sodium, tin, and vanadium.

(h) . . . . .

(2) . . . . . (v) "\_\_\_\_\_ supplement" for a dietary supplement containing a single vitamin or mineral listed in paragraph (f) of this section (the blank to be filled in with the name of the vitamin or mineral).

(i) . . . . .

(1) Immediately following the name and group designation on the principal display panel, as required by paragraph (h) of this section, or on the information panel under § 1.8d of this chapter, if insufficient space is available on the principal display panel, the label shall bear a listing in tabular form of each of the vitamins and/or minerals supplied by the specified daily quantity of the dietary supplement, such daily quantity being specified at the top of the list. The vitamins and/or minerals shall be described by the names appearing in paragraph (f) of this section, shall appear in the order listed in paragraph (f) of this section, and shall be grouped and identified separately as "vitamins" and/or "minerals" without reference to "mandatory" or "optional." The quantity of each vitamin and/or mineral present in a specified daily quantity of the dietary supplement shall be stated as a part of this list and expressed in per-

centage of the U.S. RDA for each specific group for which the supplement is offered. The quantity of each vitamin and/or mineral present in the specified daily quantity of the dietary supplement shall also appear in the tabular listing in terms of the unit of measures specified in paragraph (f) of this section. If the dietary supplement consists of a vitamin or mineral for which no U.S. RDA has been established, the principal display panel shall state the number of milligrams or other recognized unit of measure of such nutrient supplied by the food when consumed in the specified quantity during a period of 1 day followed by the statement "No U.S. Recommended Daily Allowance (U.S. RDA) has been established for this nutrient".

(n) . . . . .

(1) Any food product which meets the definition of a dietary supplement in paragraph (a) of this section and which is not subject to any of the exemptions set forth in paragraph (e) of this section and which fails to comply with the requirements of this section (including a multicomponent supplement which offers an added vitamin or mineral not permitted by this section or which offers a greater potency of any vitamin or mineral than is permitted by this section) will be deemed to be in violation of section 403(g) of the act (21 U.S.C. 343(g)), which provides that a food shall be deemed to be misbranded if it purports to be or is represented as a food for which a definition and standard of identity has been prescribed, unless it conforms to the definition standard.

(2) Restrictions on the maximum potency of vitamins and minerals sold individually as dietary supplements, or other restrictions on dietary supplement use of a vitamin or mineral, may be imposed for reasons of safety by other regulations or by the act. For convenience, certain restrictions are cross-referenced below:

(i) Vitamin A. See § 250.109 of this chapter.

(ii) Vitamin D. See § 250.110 of this chapter.

(iii) Folic acid. See § 121.1134 of this chapter.

(iv) Iodine. See §§ 121.1073 and 121.1149 of this chapter.

(v) Copper. See § 121.101(d)(5) of this chapter.

(vi) Fluorine. See § 121.10 of this chapter.

(vii) Potassium. See § 201.306 of this chapter.

(viii) Any vitamin or mineral which is included in a dietary supplement and which is not generally recognized, among experts qualified by scientific training and experience to evaluate its safety, as having been adequately shown to be safe under the conditions of its intended use is a food additive within the meaning of section 201(s) of the act (21 U.S.C. 321(s)), and pursuant to sections 402(a)(2)(C) and 409 of the act (21 U.S.C. 342(a)(2)(C) and 348) such use is illegal in the absence of a food additive regulation approving such use. A listing of some of the

vitamins, minerals, and compounds with vitamin and/or mineral properties which are generally recognized as safe, and which thus may lawfully be used without a food additive regulation, appears at § 121.101(d)(5) of this chapter.

(3) Compliance with the requirements of this section does not exempt a dietary supplement of vitamins and/or minerals from the requirements of any other applicable regulations or requirements of the act, whether or not cross-referenced herein.

**PART 125—LABEL STATEMENTS CONCERNING DIETARY PROPERTIES OF FOOD PURPORTING TO BE OR REPRESENTED FOR SPECIAL DIETARY USES**

2. Section 125.1 is amended by revising paragraph (c) and by revoking paragraph (h), as follows:

**§ 125.1 Definitions and interpretations of terms.**

(c) In addition to the nutrients listed in paragraph (b) of this section, the following other vitamins and minerals are essential or probably essential in human nutrition in their biologically active forms but no U.S. RDA's have been established for them: Vitamin K, choline, and the minerals chlorine, chromium, fluorine, manganese, molybdenum, nickel, potassium, selenium, silicon, sodium, tin, and vanadium.

(h) [Revoked]

3. Section 125.2 is amended by revising paragraph (b)(2) to read as follows:

**§ 125.2 General label statements; dietary properties; value; placement.**

(b) . . .

(2) That a balanced diet of ordinary foods cannot supply adequate amounts of nutrients: *Provided*, That representations may be made that it is often impractical to supply the iron requirements of infants, children, and women of child-bearing age with a diet of conventional foods.

4. Section 125.3 is amended by revising paragraph (a) and adding a new paragraph (c) as follows:

**§ 125.3 Label statements relating to vitamins and minerals.**

(a)(1) Vitamins and minerals for which U.S. RDA's are established. If a food purports or is represented to be for special dietary use because of vitamin or mineral properties, the label shall bear a statement of the percentage of the U.S. RDA of such vitamins and minerals, as set forth in § 125.1(b), supplied by such food when consumed in a specified quantity during a period of 1 day. The quantity specified shall be a reasonable quantity suitable for and practicable of consumption within 1 day. The order in which the nutrients appear on the label shall be in the order listed in § 125.1(b), except when other regulations indicate otherwise. Immediately preceding the declaration of vitamin and mineral content, the following heading shall be stated, "Percentage of U.S. Recommended Daily Allowances (U.S. RDA)". If such purported or represented special dietary use is for persons within one or more age groups for which the recommended daily allowance is set, such statement shall include the percentage for each age group. When such proportion or percentage is a whole number and a fraction or a whole number and a decimal, it shall be expressed as the whole number disregarding the fraction or decimal. The total quantity of vitamins or minerals in a food shall be no less than the amount declared, and no more than a reasonable amount above the declared quantity. Reasonable variations caused by heat, light, oxidation, storage, transportation, or unavoidable deviations in good manufacturing practice are recognized.

(2) Vitamins and minerals for which no U.S. RDA's are established. If a food purports or is represented to be for special dietary use because of the presence of a vitamin or mineral for which no U.S. RDA has been established, the quantity of each such nutrient (in the order listed in § 125.1(c), except when other regulations provide otherwise) supplied by the food when consumed in a specified quantity during a period of one day shall be stated on the label in milligrams or other recognized unit of measure (the quantity of consumption specified shall be a reasonable quantity suitable for and practicable of consumption within 1 day) followed by the statement "No U.S. Recommended Daily Allowance (U.S. RDA) has been established for this nutrient".

(3) Where both paragraph (a)(1) and paragraph (a)(2) of this section are applicable to a food, the information required by paragraph (a)(2) of this section shall follow immediately after the information required by paragraph (a)(1) of this section and the quantity of consumption specified pursuant to each paragraph shall be the same.

(c) Whenever a representation is included in labeling of a food for special dietary uses to the effect that vitamin and/or mineral content is derived from a particular source, the representation shall immediately be accompanied, in type of at least equal size and prominence, by a statement of the percentage of the vitamin and/or mineral content provided by that source. For example, a representation such as "contains vitamin A from alfalfa" must immediately be accompanied by a statement such as "— percent of the vitamin A content of this product is derived from alfalfa"; alternatively, a single statement incorporating the percentage declaration would be appropriate, for example, "— percent of the vitamin A provided by alfalfa".

Any interested person may, on or before July 14, 1975, file with the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, written exceptions to these tentative amendments. Exceptions and accompanying briefs shall be submitted in quintuplicate.

The Commissioner will endeavor to issue final revised regulations, taking into consideration the relative merits of the applications for additional dietary supplement formulations, the record of the examination of Dr. Harper and the report of the Administrative Law Judge, and the exceptions received to the tentative amendments, as rapidly as is feasible. The final regulations will be published in the *FEDERAL REGISTER*.

Dated: May 17, 1975.

A. M. SCHMIDT,  
Commissioner of Food and Drugs.

Title 24—Housing and Urban Development  
CHAPTER XIII—FEDERAL DISASTER ASSISTANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-75-282]

PART 2205—FEDERAL DISASTER ASSISTANCE

Final Regulations

Notice was given on August 5, 1974, at 39 FR 28212 that the Federal Disaster Assistance Administration was issuing interim regulations to implement the Disaster Relief Act of 1974 (42 U.S.C. 5121n.) by adding a new Part 2205 to Title 24 of the Code of Federal Regulations. Although these interim regulations were effective on the date of publication in the FEDERAL REGISTER, interested parties and government agencies were encouraged to submit written comments, views or data regarding those regulations.

Some of the significant changes in the Disaster Relief Act of 1974 over the prior law which are implemented by these regulations include:

1. Redefining "major disaster" to include additional causes for disasters and including a new category, termed "emergency" to provide specialized assistance to meet specific needs;
2. Strengthening provisions for disaster planning, preparedness, and mitigation;
3. Requiring acquisition of insurance reasonably available, adequate and necessary to protect against future disaster losses any public property and certain other property repaired or restored with Federal assistance;
4. Imposing civil and criminal penalties for violations of this Act;
5. Authorizing Presidential assistance in allocating scarce construction materials needed in major disaster areas;
6. Authorizing 100 percent grants for repairing or reconstructing public educational and recreational facilities (in addition to other public facilities) and private, nonprofit educational, utility, emergency, medical, and custodial care facilities, including those for the aged or disabled, and facilities on Indian reservations which were damaged by a major disaster;
7. Permitting State and local governments the option of 90 percent grants with greater administrative flexibility for restoring certain selected damaged public facilities or to construct new public facilities;
8. Allowing direct expenditures for restoration of damaged homes to habitable condition;
9. Creating a grant program to States to meet disaster-related necessary expenses or serious needs of individuals or families adversely affected by a major disaster;
10. Authorizing procurement of food commodities for distribution in major disaster areas;
11. Authorizing loans (subject to later forgiveness in part or whole) not to exceed 25 percent of annual operating

budgets to local governments suffering revenue losses and in financial need because of major disasters; and

12. Providing professional counseling, training, and services for mental health problems caused or aggravated by a disaster.

The Federal Disaster Assistance Administration has received more than twenty-four responses to the August 5, 1974 publication. All of these comments were seriously considered and many changes have been incorporated in these regulations as a result. The principal changes in the regulations made in response to the comments are as follows:

1. Allowing an Indian tribe or authorized tribal organization, or Alaska Native village or organization to submit a project application directly to the FDAA Regional Director who may provide Federal assistance to such Indian organization without State participation pursuant to § 2205.7(a);
2. Allowing a private nonprofit organization to submit satisfactory evidence from the State that the nonrevenue producing organization or entity is a nonprofit one organized or doing business under State law in lieu of an Internal Revenue Service ruling letter as one of the assurances which must be submitted with a project application pursuant to § 2205.7(k)(1);
3. Allowing a statement by a private nonprofit organization that it has the necessary licenses to restore a facility in lieu of a finding of need of the community for such facility pursuant to § 2205.7(k)(2);
4. Eliminating in § 2205.13(b) the apparent limitation on nondiscrimination to the site of the major disaster and making the nondiscrimination requirements apply to anyone carrying out a disaster assistance function regardless of location;
5. Requiring written assurance of intent to comply with nondiscrimination regulations pursuant to § 2205.13(c);
6. Increasing the time limitation for submission of appeals in § 2205.21(b) from thirty days to sixty days;
7. Providing in § 2205.21(e) for an applicant's appeal to the Administrator if the State refuses or neglects to appeal on the applicant's behalf;
8. Clarifying the statements about "emergencies" in § 2205.23 to explain that it is "specialized assistance to meet specialized need";
9. Providing in § 2205.28 for reimbursement of local government expenditures for emergency mass care only on an affirmative showing that voluntary agencies are not providing all or part of such care;
10. Requiring in § 2205.41(b)(3) information on contributions by a local government separately for each disaster affected area requested by the State;
11. Eliminating in § 2205.48(a) the inference that the Regional Director will make a separate and independent determination of the need for individual and family grants;
12. Providing in § 2205.48(a) a clearer definition of the terms "necessary ex-

penses", "serious needs" and "other means";

13. Expanding national eligibility criteria by adding "Eligible Categories" and "Ineligible Categories" to the explanation of individual and family grants (§ 2205.48(c)(2) and (3));

14. Prescribing separate time limitations on actions related to individual and family grants (§ 2205.48(g));

15. Placing a State on notice that failure to repay Federal advances of the State share of individual and family grants may result in Federal withholding of subsequent advances (§ 2205.48(h)(2));

16. Revising the regulations to reflect a Delegation of Authority to the Secretary of Health, Education, and Welfare concerning crisis counseling assistance and training (§ 2205.51);

17. Adding consideration of the three-fiscal-year period following a disaster in determining the amount of a community disaster loan (§ 2205.56(c));

18. Authorizing the Administrator to extend the time for repayment of a community disaster loan up to 10 years (§ 2205.56(e)).

One commenter suggested that § 2205.21 (Appeals) be amended to establish an appeals board to rule on a request from a State for reconsideration of a determination by a Regional Director on a project application. This suggestion was not adopted since it is felt that an appeal to the Administrator will provide an adequate remedy. The Administrator, pursuant to his Delegation of Authority (39 FR 28227) to implement the Act, has the responsibility for making the final determination of eligibility for Federal disaster assistance. If an applicant disagrees with this determination, it may petition to the Federal Courts for relief.

Another commenter suggested that § 2205.3(a)(4) be amended to delete the word "individuals" from the list of those encouraged to obtain insurance to supplement or replace governmental assistance. This suggestion was not accepted since the language is identical to section 101(b)(4) of the Act. While section 314 (Insurance) of the Act does not apply to individuals, individuals in special flood hazard areas receiving assistance under section 408 (Individual and Family Grant Programs) of the Act for acquisition or construction purposes within the meaning of the Flood Disaster Protection Act of 1973 (87 Stat. 980), may be required to purchase flood insurance pursuant to Subpart E of these regulations.

The Administrator of the Federal Disaster Assistance Administration, with the concurrence of the appropriate Department officials, has issued a Finding of Inapplicability of Environmental Impact concerning these final regulations. It is the position of the signatories to that Finding that these regulations in themselves have no significant impact on the human environment since they do not materially extend or alter the language already adopted by Congress in the Act. Interested parties may inspect and obtain copies of this Finding of Inapplicability of Environmental Impact at the

office of the Rules Docket Clerk of the Department of Housing and Urban Development in Washington, D.C.

Pursuant to the authority contained in section 7(d) of the Department of Housing and Urban Development Act (42 U.S.C. 3535(d), 79 Stat. 670) and section 601 of the Disaster Relief Act of 1974 (42 U.S.C. 5121n.), new Part 2205 is added to Title 24 of the Code of Federal Regulations, as follows:

Subpart A—General

- Sec.
- 2205.1 Purpose.
- 2205.2 Definitions.
- 2205.3 Policy.
- 2205.4 State Emergency Plans.
- 2205.5 Coordinating Officers.
- 2205.6 Emergency support teams.
- 2205.7 Project applications.
- 2205.8 Assistance by Federal Agencies.
- 2205.9 Federal equipment and supplies.
- 2205.10 Public assistance inspections.
- 2205.11 Use of local firms and individuals.
- 2205.12 Use and coordination of relief organizations.
- 2205.13 Non-discrimination in disaster assistance.
- 2205.14 Insurance settlement or recovery.
- 2205.15 Duplication of benefits.
- 2205.16 Non-Liability.
- 2205.17 Financial management.
- 2205.18 Criminal and civil penalties.
- 2205.19 Federal audits.
- 2205.20 Reviews and reports.
- 2205.21 Appeals.
- 2205.22 Effective date.

Subpart B—Emergencies

- 2205.23 General.
- 2205.24 Requests for emergency assistance.
- 2205.25 Processing of State requests.
- 2205.26 Initiating Federal assistance.
- 2205.27 Federal-State agreements.
- 2205.28 Emergency mass care.
- 2205.29 Emergency debris clearance.
- 2205.30 Emergency protective measures.
- 2205.31 Emergency restorative work.
- 2205.32 Emergency communications.
- 2205.33 Time limitations.

Subpart C—Fire Suppression

- 2205.34 General.
- 2205.35 Federal-State agreement.
- 2205.36 Requests for assistance.
- 2205.37 Providing assistance.
- 2205.38 Reimbursement.

Subpart D—Major Disasters

- 2205.39 General.
- 2205.40 Definitions.
- 2205.41 Requests for major disaster assistance.
- 2205.42 Processing a request for a major disaster declaration.
- 2205.43 Initiation of Federal assistance.
- 2205.44 Federal-State agreement.
- 2205.45 Temporary housing assistance.
- 2205.46 Mortgage and rental payments.
- 2205.47 Disaster unemployment assistance.
- 2205.48 Individual and family grants.
- 2205.49 Flood commodities.
- 2205.50 Relocation assistance.
- 2205.51 Crisis counseling assistance and training.
- 2205.52 Availability of materials.
- 2205.53 Emergency public transportation.
- 2205.54 Repair and restoration of damaged facilities.
- 2205.55 Debris and wreckage clearance.
- 2205.56 Community disaster loans.
- 2205.57 Grants for removing timber from privately owned lands.
- 2205.58 Protection of the environment.
- 2205.59 Minimum standards for public and private structures.
- 2205.60 Time limitations.

Subpart E—Flood Insurance

- Sec.
- 2205.61 General.
- 2205.62 Definitions.
- 2205.63 Exclusions.
- 2205.64 Applicability.

Subpart F—Other Insurance

- 2205.65 General.
- 2205.66 Definitions.
- 2205.67 Exclusions.
- 2205.68 Applicability.
- 2205.69 Type of insurance.
- 2205.70 Extent of insurance.
- 2205.71 Duration of insurance coverage.
- 2205.72 Assurances for categorical grants.
- 2205.73 Assurances for flexible funding.
- 2205.74 Self-insurance.

Subpart G—Disaster Preparedness Assistance

- 2205.75 General.
- 2205.76 Definitions.
- 2205.77 Federal Disaster Preparedness Program.
- 2205.78 Technical assistance.
- 2205.79 Financial assistance.

AUTHORITY: Sec. 7(d), Department of Housing and Urban Development Act (79 Stat. 670, 42 U.S.C. 3535(d)).

Subpart A—General

§ 2205.1 Purpose.

The purpose of this part is to prescribe the standards and procedures to be followed in implementing those sections of Pub. L. 93-288 assigned to the Secretary by Executive Order 11795 and delegated to the Administrator on August 5, 1974.

§ 2205.2 Definitions.

As used in this part:

- (a) "The Act" means Pub. L. 93-288, cited as the "Disaster Relief Act of 1974."
- (b) "Administrator" means the Administrator, Federal Disaster Assistance Administration (FDAA), Department of Housing and Urban Development.
- (c) "Applicant" means the State or local government submitting a project application or request for direct Federal assistance under the Act or on whose behalf the Governor's Authorized Representative takes such action.
- (d) "Categorical grants" means contributions to State or local governments, which must be used for emergency assistance, debris removal, temporary housing, restoration of facilities damaged or destroyed by a major disaster, or other eligible work not flexibly funded, on a project-by-project basis, subject to State and Federal inspection and audit. Included are contributions made to such governments on behalf of eligible private non-profit organizations or entities.
- (e) "Contractor" means any individual, partnership, corporation, agency, or other entity (other than an organization engaged in the business of insurance), performing work by contract for the Federal Government or a State or local agency.
- (f) "Emergency" means any hurricane, tornado, storm, flood, high-water, wind-driven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, drought, fire, explosion, or other catastrophe in any part of the United States which re-

quires Federal emergency assistance to supplement State and local efforts to save lives and protect property, public health and safety or to avert or lessen the threat of a major disaster.

(g) "Emergency shelter" means a form of mass or other shelter provided for the communal care of individuals or families made homeless by a major disaster or an emergency.

(h) "Federal agency" means any department, independent establishment, Government corporation, or other agency of the executive branch of the Federal Government, including the United States Postal Service, but shall not include the American National Red Cross.

(i) "Federal assistance" means aid to disaster victims or State or local governments by Federal agencies under provisions of the Act.

(j) "Federal Coordinating Officer (FCO)" means the person appointed by the Administrator to coordinate Federal assistance in an emergency or a major disaster.

(k) "Flexible funding" means in-lieu contributions to State or local governments under § 2205.54(h)(1) and (2).

(l) "Governor" means the chief executive of any State.

(m) "Governor's Authorized Representative" means the person named by the Governor in the Federal-State Agreement to execute on behalf of the State all necessary documents for disaster assistance following the declaration of an emergency or a major disaster, including certification of applications for public assistance.

(n) "Local government" means (1) any county, city, village, town, district, or other political subdivision of any State, any Indian tribe or authorized tribal organization, or Alaska Native village or organization, and (2) includes any rural community or unincorporated town or village or any other public entity for which an application for assistance is made by a State or political subdivision thereof.

(o) "Major disaster" means any hurricane, tornado, storm, flood, high-water, wind-driven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, drought, fire, explosion, or other catastrophe in any part of the United States which, in the determination of the President, causes damage of sufficient severity and magnitude to warrant major disaster assistance under this Act, above and beyond emergency services by the Federal Government, to supplement the efforts and available resources of States, local governments, and disaster relief organizations in alleviating the damage, loss, hardship, or suffering caused thereby.

(p) "Public facility" includes any publicly owned flood control, navigation, irrigation, reclamation, public power, sewage treatment and collection, water supply and distribution, watershed development, or airport facility, any non-Federal-aid street, road, or highway, and any other public building, structure, or system including those used for educational or recreational purposes, or any park.

## RULES AND REGULATIONS

(q) "Regional Director" means a director of a regional office of the Federal Disaster Assistance Administration (FDAA).

(r) "Secretary" means the Secretary of Housing and Urban Development.

(s) "State" means any State of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, the Canal Zone, or the Trust Territory of the Pacific Islands.

(t) "State Coordinating Officer (SCO)" means the person appointed by the Governor to act in cooperation with the Federal Coordinating Officer appointed under section 303(a) of the Act.

(u) "State emergency plan," as used in section 301(b) of the Act, means that State plan which is designed specifically for State-level response to emergencies or major disasters, and which sets forth actions to be taken by the State and local governments including those for implementing Federal disaster assistance.

(v) "Temporary housing" means accommodations provided by the Federal Government to individuals or families made homeless by a major disaster as further defined in § 2205.45.

(w) "United States" means the fifty States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, the Canal Zone, and the Trust Territory of the Pacific Islands.

(x) "Voluntary organization" means any chartered or otherwise duly recognized tax exempt local, State, national organization or group which has provided or may provide services to the States, local governments, or individuals in a major disaster or emergency.

#### § 2205.3 Policy.

(a) It is the policy of the Administrator to provide an orderly and continuing means of assistance by the Federal Government to State and local governments in carrying out their responsibilities to alleviate the suffering and damage that result from disasters by:

(1) Providing Federal assistance for public and private losses and needs sustained from disasters.

(2) Encouraging the development of comprehensive disaster preparedness and assistance plans, programs, capabilities, and organizations by the States and by local governments.

(3) Achieving greater coordination and responsiveness of disaster preparedness and relief programs.

(4) Encouraging individuals, States, and local governments to protect themselves by obtaining insurance coverage to supplement or replace governmental assistance.

(5) Encouraging hazard mitigation measures and environmental planning, to reduce losses from disasters, including development of land-use and construction regulations.

(b) It is also the policy of the Administrator to foster the development of State and local government organizations and plans for coping with major disasters, and to provide advice and guidance to Federal agencies and States

and local governments on organization and preparedness in order to meet the effects of major disasters.

(c) It is further a policy of FDAA to insure that the individual disaster victims are apprised of Federal assistance available and to assist the individual victim in obtaining the Federal assistance to which he is entitled.

#### § 2205.4 State emergency plans.

All responsibilities and actions as provided for in the Act and these regulations required of a State and its political subdivisions to prepare for and respond to disasters and to facilitate the delivery of Federal disaster assistance will be set forth in the State's emergency plan.

#### § 2205.5 Coordinating Officers.

(a) Upon the declaration of a major disaster or an emergency the Administrator will appoint a Federal Coordinating Officer (FCO) who shall:

(1) Make an immediate appraisal of the types of relief aid most urgently needed;

(2) Establish such field offices as he deems necessary;

(3) Coordinate the administration of relief activities of other Federal agencies as well as those of the American National Red Cross, the Salvation Army, the Mennonite Disaster Service, and other voluntary relief organizations which agree to operate under his advice or direction;

(4) Coordinate the administration of relief with State and local government officials;

(5) Undertake appropriate action to make certain that all of the Federal agencies are carrying out their appropriate disaster assistance roles under their own legislative authorities and operational policies.

(6) Take such other action, consistent with authority delegated to him by the Regional Director and with the provisions of the Act, as he may deem necessary to assist local citizens and public officials in promptly obtaining assistance to which they are entitled.

(b) The Governor shall be requested to appoint a State Coordinating Officer (SCO) in emergencies and major disasters for the purpose of coordinating State and local disaster assistance efforts with those of the Federal Government. The SCO will be the principal point of contact for the FCO regarding coordination of State and local disaster relief activities, implementation of the State Emergency Plan, and State compliance with the Federal-State Agreement. The functions, responsibilities, and authorities of the SCO should be set forth in the State Emergency Plan.

(c) The Governor shall be requested to appoint a State Coordinating Officer (SCO) in emergencies and major disasters for the purpose of coordinating State and local disaster assistance efforts with those of the Federal Government. The SCO will be the principal point of contact for the FCO regarding coordination of State and local disaster relief activities, implementation of the State Emergency Plan, and State compliance with the Federal-State Agreement. The functions, responsibilities, and authorities of the SCO should be set forth in the State Emergency Plan.

(d) The Governor shall be requested to appoint a State Coordinating Officer (SCO) in emergencies and major disasters for the purpose of coordinating State and local disaster assistance efforts with those of the Federal Government. The SCO will be the principal point of contact for the FCO regarding coordination of State and local disaster relief activities, implementation of the State Emergency Plan, and State compliance with the Federal-State Agreement. The functions, responsibilities, and authorities of the SCO should be set forth in the State Emergency Plan.

#### § 2205.6 Emergency support teams.

The Administrator or Regional Director shall form emergency support teams of Federal personnel to be deployed in an area affected by a major disaster or emergency. Such emergency support teams shall assist the Federal Coordinating Officer in carrying out his responsibilities pursuant to the Act and these regulations. Upon request of the Administrator, the head of any Federal

department or agency is authorized to detail to temporary duty with the emergency support teams, on either a reimbursable or non-reimbursable basis as is determined necessary by the Administrator, such personnel within the administrative jurisdiction of the head of the Federal department or agency as the Administrator may need or believe to be useful for carrying out the functions of the emergency support teams. Each such detail shall be without loss of seniority, pay, or other employee status.

#### § 2205.7 Project applications.

(a) Federal funding for work approved under the Act may be provided on the basis of project applications submitted by the State or local governments and approved by the State and the Regional Director or his authorized representative, pursuant to the Federal-State Agreement (see §§ 2205.27 and 2205.44) and in accordance with this part. The approved project application will provide the basis of a request for an advance of funds and reimbursement for eligible expenditure. Notwithstanding any other provisions in this section, when assistance is authorized under the Act for a local government and a State is unable to assume the responsibilities prescribed in these Regulations, an Indian tribe or authorized tribal organization or Alaska Native village or organization may submit a project application directly to the Regional Director who may provide Federal assistance to such local government without State participation.

(b) Project applications shall be submitted within the time limits prescribed by § 2205.33 or § 2205.60 or as otherwise prescribed by the Administrator.

(c) The State shall assure that procurement of work and services under project applications hereunder comply with provisions of the Act, and with State or local statutes, regulations, and ordinances not in conflict with Federal procurement policies or procedures covering procurement of such supplies and services by such State or the political subdivision thereof.

(d) The State shall assure that no contract entered into by an applicant under the Act or these regulations shall contain a provision which makes the payment for such work contingent upon reimbursement under this Act or these regulations.

(e) The Governor's Authorized Representative(s) shall review all project applications and shall recommend approval or disapproval. Every project application shall contain a certification by the Governor or the Governor's Authorized Representative and that (1) Federal funds requested will be, or have been, expended in accordance with applicable law and regulations, and (2) the project application meets all the requirements and conditions of the Federal-State Agreement and such other terms established by the Regional Director.

(f) In those cases where a State or local government elects to request a contribution for flexible funding in accordance with section 402(f) of the Act, the basic application shall include only

debris clearance, emergency protective measures, and other emergency work and shall be handled as a request for a categorical grant. Replacement, reconstruction, permanent repair or restoration of public facilities, or other permanent work categories otherwise eligible for flexible funding will be covered by separate supplement or supplements to the basic project application.

(g) In those cases where the total estimated cost approved by the Regional Director for one applicant for emergency work, permanent repair and restoration of damaged public facilities, and debris clearance is less than \$25,000, the basic application should include all eligible work and will be processed in accordance with § 2205.54(i). In any instance where the applicant submits a supplemental project application, the approval of additional Federal funding in excess of \$25,000 by the Regional Director will result in the entire grant, including the previous flexible funding, reverting to a categorical grant, or to flexible funding for any assistance pursuant to section 402(f) of the Act.

(h) If a project application is approved by the Regional Director without change, signed copies thereof evidencing such approval shall be returned to the State.

(i) If disapproved, the project application shall be returned to the State with a statement of the reasons for such disapproval.

(j) If the approval is made subject to revisions, additional conditions, or partial disapproval, signed copies thereof evidencing such approval, together with a full explanation of the revisions or additional conditions, shall be returned to the State.

(k) A private organization or entity may request assistance for private nonprofit educational, utility, emergency, medical, and custodial care facilities under section 402(b) of the Act. Such request must be made to the local government or the State, which shall submit the project application and shall be responsible for project administration including requests and accounting for advances of funds, presentation of the summary of documentation, and submission of vouchers for payment. In addition to the completed application documents, the following documents and assurances must be submitted with the project application:

(1) A copy of the Internal Revenue Service ruling letter which grants the organization or entity tax exemption under section 501 (c), (d), or (e) of the Internal Revenue Code of 1954, as amended, or satisfactory evidence from the State that the nonrevenue producing organization or entity is a nonprofit one organized or doing business under State law.

(2) That it has the necessary permits and licenses to repair, restore, reconstruct or replace the facility in accordance with the project application and to maintain and operate the facility thereafter.

(3) A statement by the applicant which shall identify applicable codes, specifications, and standards to which any proposed restorative work must conform when undertaken.

(4) When appropriate, the comments and recommendations of State or local government clearinghouses pursuant to the guidelines contained in OMB Circular No. A-95.

(5) A copy of the following assurances by the interested private organization or entity:

(i) That it owns the facility and, in the case of real property, that it has or will have a title in fee simple or such other estate or interest in the site, including necessary easements and rights of way, sufficient to assure for a reasonable period of time undisturbed use and possession for the purpose of the construction and operation of the facility.

(ii) That the facility will continue to be operated in such a manner as to maintain either the tax exempt status granted under the Internal Revenue Code or the nonprofit status under State law during the normal anticipated useful life of the restored facility or the useful life of the restorative work, whichever is lesser.

(iii) That it will maintain adequate and separate accounting and fiscal records which account for all funds provided from any source to pay the cost of the project, and permit audit of such records and accounts at any reasonable times; and that claims for Federal reimbursement do not duplicate funding provided from any other source.

(iv) That it will provide and maintain competent and adequate architectural or engineering supervision and inspection at the construction site to insure that the completed work conforms with the approved plans and specifications; and

(v) That adequate financial support will be available for maintenance and operation when completed.

(vi) That insurance required by the Act and these regulations will be obtained and maintained.

## RULES AND REGULATIONS

(3) A statement by the applicant which shall identify applicable codes, specifications, and standards to which any proposed restorative work must conform when undertaken.

(4) When appropriate, the comments and recommendations of State or local government clearinghouses pursuant to the guidelines contained in OMB Circular No. A-95.

(5) A copy of the following assurances by the interested private organization or entity:

(i) That it owns the facility and, in the case of real property, that it has or will have a title in fee simple or such other estate or interest in the site, including necessary easements and rights of way, sufficient to assure for a reasonable period of time undisturbed use and possession for the purpose of the construction and operation of the facility.

(ii) That the facility will continue to be operated in such a manner as to maintain either the tax exempt status granted under the Internal Revenue Code or the nonprofit status under State law during the normal anticipated useful life of the restored facility or the useful life of the restorative work, whichever is lesser.

(iii) That it will maintain adequate and separate accounting and fiscal records which account for all funds provided from any source to pay the cost of the project, and permit audit of such records and accounts at any reasonable times; and that claims for Federal reimbursement do not duplicate funding provided from any other source.

(iv) That it will provide and maintain competent and adequate architectural or engineering supervision and inspection at the construction site to insure that the completed work conforms with the approved plans and specifications; and

(v) That adequate financial support will be available for maintenance and operation when completed.

(vi) That insurance required by the Act and these regulations will be obtained and maintained.

#### § 2205.8 Assistance by Federal Agencies.

(a) Upon the declaration of a major disaster or the determination of an emergency by the President, the Administrator or Regional Director may direct any Federal agency to provide assistance to State and local governments, by:

(1) Utilizing or lending their equipment, supplies, facilities, personnel, and other resources, other than the extension of credit under the authority of any Act;

(2) by distributing medicine, food, and other consumable supplies; and (3) by rendering emergency assistance. Such assistance will be with or without compensation as deemed appropriate by the Administrator or Regional Director under the provisions of Federal reimbursement regulations, Part 2201 of this chapter.

(b) The Regional Director is authorized to coordinate all activities of Federal agencies in providing disaster assistance under the Act.

(c) The Regional Director is authorized to request that other Federal agencies shall provide any reports or information relative to disaster assistance which he deems necessary.

(d) Assistance to be furnished by any Federal agency under paragraph (a) of this section shall be subject to the criteria of eligibility provided by the Administrator under these regulations and other instructions as may be issued from time to time by the Administrator or the Regional Director.

(e) Assistance under paragraph (a) of this section, when directed by the Administrator or Regional Director, shall not affect the authority of any Federal agency to provide disaster relief assistance independent of the Act: However, such disaster relief assistance by other Federal agencies is subject to the coordination of the Federal Coordinating Officer.

(f) In carrying out the purposes of the Act, any Federal agency is authorized to accept and utilize, with the consent of the State or local government, the services, personnel, materials and facilities of any State or local government, or of any agency, office or employee thereof: *Provided, however,* That such utilization shall not be considered to make such services, materials, or facilities Federal in nature or to make the State, local governments, or agencies thereof an arm or agency of the Federal Government.

(g) Eligible work under the provisions of section 402 of the Act will not be performed by or under the direct supervision of a Federal agency except when the State or local government lacks the capability to perform or contract for the approved work or when direct assistance by a Federal agency is deemed necessary by the Regional Director to meet an immediate threat to life, health or safety.

#### § 2205.9 Federal equipment and supplies.

(a) In any major disaster or emergency the Administrator or the Regional Director may direct Federal agencies to donate their equipment and supplies to State and local governments for use and distribution by them for the purposes of the Act.

(b) The Regional Director may authorize donation or loan of equipment and supplies determined in accordance with applicable laws and regulations to be surplus to the needs and responsibilities of the Federal Government, to States and local governments for use or distribution by them for the purposes of the Act or these regulations. The donation of such surplus property shall be made upon the basis of a certification by the State that such property is usable and necessary for current disaster purposes. Such a donation of surplus property will be made in accordance with the procedures prescribed by the General Services Administration.

(c) In providing assistance pursuant to the Act, maximum utilization will be made of surplus Federal property.

#### § 2205.10 Inspections.

In making his determinations of eligibility of Federal grants based on project applications or of direct Federal assistance

ance, the Regional Director shall arrange for damage surveys by Federal inspectors, accompanied by a State inspector when required by the Regional Director, and by an authorized local representative. Federal inspectors will prepare damage survey reports, which provide recommendations to the Regional Director. The Regional Director shall require interim Federal or State inspections when warranted and a final inspection for all categorical grants. Following his approval of Federal grants involving flexible funding, the Regional Director may require such inspections as he deems necessary to assure compliance with the Act and these regulations.

#### § 2205.11 Use of local firms and individuals.

In the expenditure of Federal funds for debris clearance, distribution of supplies, reconstruction, and other disaster assistance activities which may be carried out by contract with private organizations, firms, or individuals, preference shall be given, to the extent feasible and practicable, to those organizations, firms, and individuals who reside or do business primarily in the affected political subdivisions in which such activities are being performed.

#### § 2205.12 Use and coordination of relief organizations.

(a) In providing relief and assistance under the Act, the Administrator or Regional Director may utilize, with their consent, the personnel and facilities of the American National Red Cross, The Salvation Army, the Mennonite Disaster Service, and other relief or disaster assistance organizations, in the distribution of medicine, food, supplies, or other items, and in the restoration, rehabilitation, or reconstruction of community services and essential facilities, whenever the Administrator or Regional Director finds that such utilization is necessary.

(b) In any major disaster or emergency, the Regional Director may provide assistance by distributing or rendering through the American National Red Cross, The Salvation Army, the Mennonite Disaster Service, and other relief and disaster assistance organizations, medicine, food and other consumable supplies, or emergency services.

(c) The Administrator is authorized to enter into agreements with the American National Red Cross, The Salvation Army, the Mennonite Disaster Service, and other relief or disaster assistance organizations under which the disaster relief activities of such organizations may be coordinated by the Federal Coordinating Officer whenever such organizations are engaged in providing relief during and after a major disaster or emergency. Any such agreement shall include provisions assuring that use of Federal facilities supplies and services will be in compliance with §§ 2205.13 (Non-Discrimination in Disaster Assistance) and 2205.15 (Duplication of Benefits) of these regulations and such other regulations as the Administrator may issue.

(d) Nothing contained herein shall be construed to limit or in any way affect the responsibilities of the American National Red Cross as stated in Pub. L. 58-4 approved January 5, 1905 (33 Stat. 599).

#### § 2205.13 Non-discrimination in disaster assistance.

(a) Federal financial assistance to the States or their political subdivisions is conditioned on full compliance with Regulation 5, 32A CFR Part 98.

(b) All personnel carrying out Federal major disaster or emergency assistance functions, including the distribution of supplies, the processing of applications, and other relief and assistance activities, shall perform their work in an equitable and impartial manner, without discrimination on the grounds of race, religion, sex, color, age, economic status, or national origin.

(c) As a condition of participation in the distribution of assistance or supplies under the Act or of receiving assistance under sections 402 or 404 of the Act, government bodies, and other organizations shall provide a written assurance of their intent to comply with regulations relating to nondiscrimination promulgated by the President or the Administrator, and shall comply with such other regulations applicable to activities within an area affected by major disaster or emergency as the Administrator deems necessary for the effective coordination of relief efforts.

(d) By reference to this part, the following provisions shall be included in every Federal-State Agreement:

During the performance of any contract entered into under the Federal-State Agreement, the State, local government or other organization issuing such contract, shall require the contractor to agree as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, religion, sex, color, age, economic status, or national origin. The contractor will take affirmative action to insure that applicants are employed, and that employees are treated during employment without regard to their race, religion, sex, color, age, economic status, or national origin. Such action shall include, but not be limited to, the following: Employment, upgrading, demotion or transfer, recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the contracting officer setting forth the provisions of this non-discrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, religion, sex, color, age, economic status, or national origin.

(3) The contractor will send to each labor union, or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the agency contracting officer, advising the said labor union or workers' representative of the contractor's commitments under section 202 of Executive Order No. 11246 of September 24, 1965 and

shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The contractor will comply with all provision of Executive Order No. 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, as amended, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the contracting agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations and orders.

(6) In the event of the contractor's non-compliance with the nondiscrimination clauses of this contract or with any of such rules, regulations, or orders, this contract may be cancelled, terminated or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts in accordance with procedures authorized in Executive Order No. 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order No. 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(7) The contractor will include the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the contracting agency may direct as a means of enforcing such provisions, including sanctions for non-compliance. *Provided, however,* That in the event the contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the contracting agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

#### § 2205.14 Insurance settlement or recovery.

Prior to approval of a Federal grant for the restoration of property or involving supplies or equipment, the applicant shall notify the Regional Director of any entitlement to insurance settlement or recovery for such properties. The Regional Director shall reduce the grant by the actual amount of insurance proceeds received by the grantee. In the event insurance recovery is contingent upon the amount of reimbursement under the Act, reimbursement will be limited to eligible costs as determined by the Regional Director after deducting the maximum amount otherwise recoverable under and to the limit of the policy.

#### § 2205.15 Duplication of benefits.

(a) The Administrator, in consultation with the head of each Federal agency administering any program providing financial assistance to persons, business concerns or other entities suffering losses as the result of a major disaster, shall assure that no such person, business concern, or other entity will receive such Federal financial assistance with respect to any part of such loss for

which he has received financial assistance under any other program.

(b) The Administrator shall assure that no person, business concern, or other entity receives any Federal assistance for any part of a loss suffered as the result of a major disaster if such person, business concern, or entity received compensation from insurance or any other source for that part of such a loss. Partial compensation for a loss or a part of a loss suffered as the result of a major disaster shall not preclude additional Federal assistance for any part of such a loss not compensated otherwise.

(c) Whenever the Administrator determines (1) that a person, business concern, or other entity has received assistance under this Act for a loss and that such person, business concern or other entity received assistance for the same loss from another source, and (2) that the amount received from all sources exceeded the amount of the loss, he shall direct such person, business concern, or other entity to pay to the Treasury an amount, not to exceed the amount of Federal assistance received, sufficient to reimburse the Federal Government for that part of the assistance which he deems excessive.

#### § 2205.16 Non-liability.

The Federal Government shall not be liable for any claim based upon the exercise or performance of or the failure to exercise or perform a discretionary function or duty on the part of a Federal agency or an employee of the Federal Government in carrying out the provisions of the Act.

#### § 2205.17 Financial management.

All Federal funds made available to the States under these regulations shall be properly accounted for as Federal funds in the accounts of the States. In each case the State agency concerned shall render such authenticated reports to FDAA, covering the status and the application of the funds, the liabilities and obligations on hand, and such other facts as may be required by the Administrator or the Regional Director.

#### § 2205.18 Criminal and civil penalties.

(a) Any individual who fraudulently or willfully misstates any fact in connection with a request for assistance under this Act shall be fined not more than \$10,000 or imprisoned for not more than one year or both for each violation.

(b) Any individual who knowingly violates any order or regulation under this Act shall be subject to a civil penalty of not more than \$5,000 for each violation.

(c) Whoever knowingly misapplies the proceeds of a loan or other cash benefit obtained under any section of this Act shall be subject to a fine in an amount equal to one and one-half times the original principal amount of the loan or cash benefit.

#### § 2205.19 Federal audits.

The Administrator and the Comptroller General of the United States or

their duly authorized representatives shall have access to any books, documents, papers, and records that pertain to Federal funds, equipment and supplies received under these regulations for the purpose of audit and examination.

#### § 2205.20 Reviews and reports.

(a) The Administrator shall conduct annual reviews of the activities of Federal agencies and State and local governments providing disaster preparedness and assistance, in order to assure maximum coordination and effectiveness of such programs, and shall from time to time report thereon to the Congress.

(b) In carrying out this provision, the Administrator or the Regional Director may direct Federal agencies to submit reports relating to their disaster preparedness and assistance activities. He may request similar reports from the States relating to these activities on the part of State and local governments. Additionally, the Administrator may conduct independent investigations, studies, and evaluations as he deems necessary to complete the annual reviews.

#### § 2205.21 Appeals.

(a) An appeal is a request from a State for reconsideration of a determination by the Regional Director on any action related to Federal assistance pursuant to the Act and these regulations.

(b) An appeal shall be made in writing by the State with such additional information as is appropriate to support the request for reconsideration. All appeals shall be made within 60 days of receipt of the notice of determination by the Regional Director.

(c) Upon receipt of an appeal, the Regional Director shall review the material submitted and make such additional investigation as he deems appropriate. Following his review and investigation, the Regional Director shall notify the State, in writing, of his decision to accept or deny the appeal. If his decision is to accept the appeal, the Regional Director shall take such additional action as is necessary to implement his decision including, but not limited to approval of project applications.

(d) If the Regional Director denies the appeal, the State may submit an appeal to the Administrator. Such appeal shall be made in writing through the Regional Director, and shall be submitted not later than 60 days after receipt of notice of the Regional Director's denial of the appeal. Action by the Administrator is final.

(e) If an applicant requests the State to make an appeal to the Regional Director or to the Administrator in accordance with this section and the State declines or takes no action on such request, the applicant may make an appeal to the Regional Director or the Administrator. Such appeal shall be made in writing within 60 days after receipt from the State of the notice of determination or denial of appeal by the Regional Director, or notification by the State that no appeal will be made by the State. An ap-

peal made by an applicant shall be made through the State. The State shall forward such appeal promptly to the Regional Director with or without comment.

(f) Based on his determination that such action is warranted, the Administrator or the Regional Director may extend any of the time periods prescribed by this section.

#### § 2205.22 Effective date.

These regulations are effective for all major disasters declared on or after April 1, 1974, and for all emergency or fire suppression assistance made available on or after April 1, 1974; except that § 2205.48 which implements section 408 of the Act, is effective for all major disasters declared on or after April 20, 1973.

(a) For major disasters declared on or after April 1, 1974 and prior to May 22, 1974:

(1) Project applications Federally funded and approved or other Federal financial assistance obligations incurred under Pub. L. 91-606 may be amended to include the benefits of retroactive implementation of the Act.

(2) No applicant shall be required to surrender any benefits of Pub. L. 91-606.

(b) For major disasters declared prior to April 1, 1974:

(1) All actions taken or to be taken shall be in accordance with Part 2200 (Federal Disaster Assistance) of Title 24, CFR.

#### Subpart B—Emergencies

#### § 2205.23 General.

Upon the occurrence of a catastrophe within the State which the Governor finds (a) is of such severity and magnitude that effective response is beyond the capability of the State and the affected local governments, and (b) requires emergency assistance to save lives and protect property, health and safety or to avert or lessen the threat of a disaster, which, because of the pressures of time or because of the unique capabilities of a Federal agency, can be more readily provided by the Federal Government; the Governor may present to the President, through the Regional Director, a request for Federal assistance which includes the above findings. Based on such Governor's request, the President may determine that an emergency exists which warrants Federal assistance and may provide such assistance under the Act as he deems appropriate.

#### § 2205.24 Requests for emergency assistance.

(a) The request for emergency assistance shall be made by the Governor of the affected State to the President, through the Regional Director.

(b) The Governor's request will furnish information describing State and local efforts and resources which have been or will be used to alleviate the emergency including that for which no Federal funding will be requested, and will define the particular type and specific extent of Federal aid required.

**§ 2205.25 Processing of State requests.**

(a) The Regional Director shall acknowledge the Governor's request. Based on his investigation of the situation, which may include field assessments and consultations with appropriate State and Federal officials or other interested parties, the Regional Director shall promptly submit his report and recommendations to the Administrator.

(b) The Administrator shall forward the Governor's request, together with his report and recommendations, to the Secretary.

(c) The Secretary shall forward the Governor's request to the President, together with his recommendation regarding Presidential action thereon.

**§ 2205.26 Initiation of Federal assistance.**

Upon a determination by the President that an emergency exists which warrants Federal assistance, the Administrator shall immediately initiate action to provide Federal assistance under such determination and in accordance with applicable laws, and regulations and the Federal-State Agreement for Emergencies. The Regional Director may approve or undertake emergency work only as authorized under the determination by the President.

**§ 2205.27 Federal-State agreements.**

(a) A Federal-State Agreement for Emergencies (Agreement) shall be executed by the Governor, acting for the State, and the Regional Director, acting for the Federal Government. The Agreement will contain the necessary terms and conditions consistent with the provisions of applicable laws, executive orders, and regulations, as the Administrator may require and will set forth the type and extent of Federal assistance. The emergency area in which assistance is authorized shall be determined by the Administrator based on the State's request.

(b) It is intended that continuing agreements shall be executed between each State and the Federal Government as soon as possible. Where continuing agreements have been executed, an amendment to such agreement shall be executed by the Governor and the Regional Director for each emergency to specify the incidence period and to include any specifics peculiar to the current emergency. Subsequent amendments to such agreements for the same emergency may be executed by the Governor's Authorized Representative and the Regional Director. A new continuing agreement will be executed if there is a change in Governors or Regional Directors.

(c) The type and extent of Federal assistance set forth in the Agreement, or supplement thereto, shall be the only assistance which is eligible for Federal reimbursement or funding under the Act.

(d) In the event funds are to be transferred to a State for disaster relief purposes, the Agreement, by reference to

this section shall contain, and the State and its political subdivisions will agree to, the following provisions:

In the event that a State or local government violates any of the conditions imposed upon disaster relief assistance under law, this Agreement or applicable Federal regulations, the Administrator will notify the State that additional financial assistance for the purpose of the project in connection with which the violation occurred will be withheld until such violation has been corrected: *Provided, however*, That if the Administrator, after such notice to the State, is not satisfied with the corrective measures taken to comply with his notification, the Administrator will notify the State that further financial assistance will be withheld for the project for which it has been determined that a violation exists, or for all or any portion of financial assistance which has or is to be made available to the State or local governments for the purpose of disaster relief assistance under the provisions of this Agreement, applicable Federal regulations, and the Act.

(e) By reference to this part, the following provision shall be included in the Agreement:

No Member of or Delegate to Congress or resident commissioner, shall be admitted to any share or part of this Agreement, or to any benefit to arise thereupon: *Provided, however*, That this provision shall not be construed to extend to any contract made with a corporation for its general benefit.

(f) When assistance is authorized for a local government and a State is unable to assume the responsibilities prescribed in these Regulations and an Indian tribe or authorized tribal organization or Alaska Native village or organization submits a project application in accordance with § 2205.7(a), Federal disaster assistance will be administered in accordance with a Federal-Tribal agreement. Such Federal-Tribal agreement will provide that the Indian tribe or authorized tribal organization or Alaska Native village or organization will perform the regulatory or coordinating functions to be performed by a State or its political subdivisions as set forth in this section.

**§ 2205.28 Emergency mass care.**

Emergency mass care, such as emergency medical care, emergency shelter, emergency provision of food, water and medicine, and other essential needs, are normally provided by the Red Cross or other voluntary organizations and Federal emergency assistance will be approved by the Regional Director only upon an affirmative showing that such organizations are not providing all or part of emergency mass care essential needs.

**§ 2205.29 Emergency debris clearance.**

The Regional Director is authorized to provide emergency debris clearance limited to the clearance of debris to save lives and protect property and public health and safety. This includes debris clearance from roads and facilities as necessary for the performance of emergency tasks and for restoration of essential public services.

**§ 2205.30 Emergency protective measures.**

The Regional Director is authorized to provide emergency protective measures, including but not limited to search and rescue, demolition of unsafe structures, warning of further risks and hazards, public information on health and safety measures, and other actions necessary to remove or to reduce immediate threats to public health and safety, or to public property, or to private property when in the public interest.

**§ 2205.31 Emergency restorative work.**

The Regional Director is authorized to provide emergency repairs to essential utilities and other essential facilities as necessary to provide for their continued operation. This includes but is not limited to: Emergency bridge work, emergency road detours, tie-ins to neighboring utilities, emergency building repairs, and rental of alternate space for restoration of essential community services.

**§ 2205.32 Emergency communications.**

The Regional Director is authorized during or in anticipation of an emergency or major disaster to establish emergency communications and make them available to State and local government officials and other persons as he deems appropriate. Communications provided under this section are intended to supplement but not replace normal communications that remain operable after a major disaster. Such emergency communications will be discontinued immediately when the essential emergency communications needs of the community have been met.

**§ 2205.33 Time limitations.**

(a) Project applications shall be submitted within 30 days, or a lesser period if so prescribed by the Regional Director, following the declaration of an emergency by the President. When warranted, the Regional Director may, if the State so requests, extend this time limitation.

(b) Federal Emergency Assistance provided under this Subpart B shall terminate no later than one month after the President's determination that an emergency exists, except that:

(1) Based on extenuating circumstances beyond the control of the applicant, the Regional Director, as he deems necessary, may extend the time limitation not to exceed an additional two months for such assistance.

(2) Based on his determination that such action is warranted, the Administrator may extend the time limitation completion date beyond 3 months when requested by the State.

**Subpart C—Fire Suppression****§ 2205.34 General.**

When the Administrator determines that a fire or fires threaten such destruction as would constitute a major disaster, he may authorize assistance, including grants, equipment, supplies, and personnel to any State for the suppression of any fire on publicly or privately owned forest or grassland.

**§ 2205.35 Federal-State agreements.**

Federal assistance under section 417 of the Act will be in accordance with a Federal-State Agreement for Fire Suppression (Agreement), signed when possible in advance of the fire season by the Governor and the Regional Director. The Agreement will contain the necessary terms and conditions consistent with the provisions of applicable laws, executive orders, and regulations, as the Administrator may require and will set forth the type and extent of Federal assistance. The Governor may designate authorized representatives to execute requests and certifications and otherwise act for the State during fire emergencies. Supplemental agreements shall be filed as necessary, but at least annually in order to keep the continuing agreement updated.

**§ 2205.36 Requests for assistance.**

When a Governor determines that fire suppression assistance is warranted, his request for assistance should specify in detail the facts supporting such a request. In order that all actions in processing a State request are executed as rapidly as possible, the request may be submitted to the Regional Director by telephone, promptly followed by confirming telegram or letter.

**§ 2205.37 Providing assistance.**

Following the Administrator's decision on the State request, the Regional Director will notify the Governor and the Federal firefighting agency involved. Requests for assistance from Federal agencies may be made by the Regional Director if requested by the State. For each fire or fire situation, a separate Fire Project Application will be prepared by the State and submitted to the Regional Director for approval.

**§ 2205.38 Reimbursement.**

Payment will be made to the State for its actual eligible costs, subject to verification, as necessary, by Federal inspection and audit. When requested by the State, such payments may be made directly to other Federal agencies for eligible assistance provided by them. The following costs will not be considered eligible for reimbursement: Any clerical or overhead costs other than field administration and supervision; any costs of pre-suppression, including salvaging timber, restoring facilities, seeding and planting operations; and any costs not incurred during the incidence period as determined by the Regional Director other than directly related mobilization or demobilization costs.

**Subpart D—Major Disasters****§ 2205.39 General.**

Upon the occurrence of a catastrophe within a State which the Governor finds is of such severity and magnitude that effective response is beyond the capability of the State and the affected local governments and that Federal assistance is necessary to supplement the efforts and available resources of the State, local

governments and disaster relief, organizations, the Governor may present to the President, through the Regional Director a request for Federal assistance which includes the above findings. Based on such Governor's request, the President may declare that a major disaster exists. Federal assistance pursuant to such declaration may include emergency assistance pursuant to Subpart B of this part. Where the situation is not of sufficient severity and magnitude to warrant major disaster assistance under the Act, or where information upon which to base such a declaration is insufficient or not readily available, the President may determine that an emergency exists which warrants Federal assistance.

**§ 2205.40 Definitions.**

As used in this part:

(a) "Field Assessment" means those preliminary estimates and descriptions, based on actual observations by government engineers or inspectors, of the nature and extent of damages, resulting from a disaster, and of the Federal assistance potentially eligible under the Act.

(b) "Disaster-affected areas" means any local government, as defined in § 2205.2 or part thereof, designated by the Administrator, upon request by the State, as being eligible for Federal assistance under the Act.

(c) "Applicable standards of safety, decency, and sanitation" are those minimum guidelines prescribed or approved by the Administrator for any repair or reconstruction financed by Federal grants or loans under the Act.

**§ 2205.41 Requests for major disaster assistance.**

(a) The request for a major disaster declaration shall be made by the Governor of the affected State to the President, through the Regional Director.

(b) As a part of such request, and as a prerequisite to major disaster assistance under the Act, the Governor shall take appropriate action under State law and direct execution of the State's emergency plan, and shall advise the Administrator thereof. In addition, the request shall include the following:

(1) An estimate of the amount and severity of damage broken down by type, such as private non-agricultural, agricultural, and public.

(2) A statement of actions pending or taken by the State or local legislative and governing authorities with regard to the disaster.

(3) A certification that, for the current disaster, State and local government obligations and expenditures (of which State commitments must be a significant proportion) will constitute the expenditure of a reasonable amount of the funds of such State and local governments for alleviating the damage, loss, hardship, or suffering resulting from such disaster. The certification by the Governor shall include the following:

Pursuant to Federal Disaster Assistance Administration Regulations, I certify that the total of expenditures and obligations for this disaster for which no Federal reimburse-

ment will be requested are expected to exceed \$ \_\_\_\_\_ in accordance with the following table:

Category of assistance	Amount <sup>1</sup>	
	State	Local
Individual assistance:		
Housing.....	\$.....	\$.....
Individual and family grants.....		
Mass care.....		
Other (specify).....		
Total.....		
Public assistance:		
Debris and wreckage clearance.....		
Protective work.....		
Restoration of public facilities.....		
Public safety.....		
Other (specify).....		
Total.....		
Grand total.....		

<sup>1</sup> Provide separately for each disaster affected area requested.

(4) An estimate of the extent and nature of Federal assistance needed within the State, broken down by category of public or individual assistance for each disaster affected area for which Federal assistance is requested and the estimated Federal funds required for each category.

(5) As appropriate, other justification in support of the request.

**§ 2205.42 Processing the request of a Governor for a declaration of a "major disaster".**

(a) The Regional Director shall acknowledge the Governor's request. Based on his investigation of the situation, which may include field assessments of the affected area and consultations with appropriate State and Federal officials, or other interested parties, the Regional Director shall promptly submit his report and recommendations to the Administrator.

(b) The Administrator shall forward the Governor's request, together with his report and recommendations, to the Secretary.

(c) The Secretary shall forward the Governor's request to the President, together with his recommendation regarding Presidential action thereon.

**§ 2205.43 Initiation of Federal assistance.**

Upon a declaration of a major disaster by the President, the Administrator shall immediately initiate action to provide Federal assistance in accordance with such declaration, applicable laws, regulations, and the Federal-State Agreement for Major Disasters. Disaster affected areas within the State will be determined by the Administrator based on the State's request. A disaster affected area designated by the Administrator includes all local governments within its boundaries.

**§ 2205.44 Federal-State agreements.**

(a) Upon the declaration of a major disaster, a Federal-State Agreement for Major Disasters (Agreement) will be executed by the Governor, acting for the State; and the Regional Director, acting for the Federal Government. Such Agreement shall provide for the manner in

which Federal assistance is to be made available and contain the assurance of the Governor that a reasonable amount of the funds of the State, local governments, or other agencies therein will be expended in alleviating damage caused by the disaster. The Agreement will also contain such other terms and conditions consistent with the provisions of applicable laws, executive orders, and regulations as the Administrator may require.

(b) The Agreement will specify the assistance to be provided as a result of major disaster.

(c) In the event funds are to be transferred to a State for disaster relief purposes, the Agreement, by reference to this section shall contain, and the State and its political subdivisions will agree to, the following provisions:

In the event that a State or local government violates any of the conditions imposed upon disaster relief assistance under law, this Agreement or applicable Federal regulations, the Administrator will notify the State that additional financial assistance for the purpose of the project in connection with which the violation occurred will be withheld until such violation has been corrected: *Provided, however*, That if the Administrator, after such notice to the State, is not satisfied with the corrective measures taken to comply with his notification, the Administrator will notify the State that further financial assistance will be withheld for the project for which it has been determined that a violation exists, or for all or any portion of financial assistance which has or is to be made available to the State or local governments for the purpose of disaster relief assistance under the provisions of this Agreement, applicable Federal regulations, and the Act.

(d) By reference to this part, the following provision shall be included in the Agreement:

No Member of or Delegate to Congress or resident commissioner, shall be admitted to any share or part of this agreement, or to any benefit to arise thereupon: *Provided, however*, That this provision shall not be construed to extend to any contract made with a corporation for its general benefit.

(e) When assistance is authorized for a local government and a State is unable to assume the responsibilities prescribed in these Regulations and an Indian tribe or authorized tribal organization or Alaska Native village or organization submits a project application in accordance with § 2205.7(a), Federal disaster assistance will be administered in accordance with a Federal-Tribal agreement. Such Federal-Tribal agreement will provide that the Indian tribe or authorized tribal organization or Alaska Native village or organization will perform the regulatory or coordinating functions to be performed by a State or its political subdivisions as set forth in this section.

#### § 2205.45 Temporary housing assistance.

(a) Temporary housing may be provided, either by purchase or lease, for those who, as a result of a major disaster, require temporary housing.

(b) Temporary housing assistance may be made available to those disaster victims who as a result of a major disaster

(or emergency) require temporary housing for reasons including, but not limited to, the following:

(1) Physical damage to the dwelling to the extent that it has been rendered uninhabitable.

(2) The dwelling has been determined uninhabitable as a result of the disaster by an authorized government entity requiring evacuation of an area. This does not include subsequent condemnation for redevelopment of an area following a disaster.

(3) Impeded access to the dwelling which cannot be quickly alleviated by debris removal even though the structure may be unharmed.

(4) Extended interruption of essential utilities sufficient to constitute a health hazard.

(5) Eviction from residence by the owner because of the owner's personal need for housing as a direct result of the major disaster.

(6) Eviction from residence by owner because of a financial hardship which is a direct result of the disaster.

(7) Other such circumstances which the Regional Director determines to require temporary housing.

(c) Temporary housing shall be limited to minimum accommodations necessary for adequate housing.

(d) Temporary housing accommodations may include, but are not limited to:

(1) Unoccupied, available housing owned by the United States.

(2) Unoccupied, available housing units, financed totally or in part with Federal funds, including public housing.

(3) Rental properties.

(4) Mobile homes, or other readily fabricated dwellings.

(5) Transient accommodations, when the nature or duration of the housing requirement does not justify more stable arrangements, as determined by the Regional Director.

(e) In lieu of providing other types of temporary housing listed in paragraph (d) of this section, expenditures may be made to repair or restore to a habitable condition owner-occupied private residential structures made uninhabitable by a major disaster, which are capable of being restored quickly to a habitable condition with minimal repairs. No assistance provided under this section may be used for major reconstruction or rehabilitation of damaged property.

(f) Utility use costs which are normally paid by the owner or occupant will not be paid by the Federal Government. In those cases where the Federal Government becomes the guarantor for utility services not metered separately, each recipient will be assessed a monthly allowance equivalent to the pro-rata costs of utilities services.

(g) A disaster victim is expected to accept the first adequate housing offered. Refusal by the applicant to accept such accommodations may result in his forfeiture of eligibility for temporary housing assistance.

(h) Any mobile home or readily fabricated dwelling shall be placed on a site complete with utilities provided either by the State or local government, or by

the owner or occupant of the site who was displaced by the major disaster, without charge to the United States. The Administrator may authorize installation of essential utilities at Federal expense and he may elect to provide other more economical or accessible sites when he determines such action to be in the public interest.

(i) Temporary housing shall not be made available to those individuals or families with insurance coverage which provides the full cost of alternate living arrangements, except where, as determined by the Regional Director, adequate alternate housing is not readily available or the receipt of insurance benefits is uncertain or inadequate to meet temporary housing needs. Individuals or families who qualify for and accept assistance under this exception shall repay or pledge to repay to the Government from any insurance proceeds for temporary housing to which they are entitled an amount equivalent to the fair market value of the housing provided.

(j) Temporary housing shall not be made available to any person or family for use as a vacation or recreational residence.

(k) The period of eligibility for occupancy in temporary housing shall be determined on the basis of need. Each temporary housing occupant shall endeavor to place himself in adequate alternate housing at the earliest possible time. Each occupant's eligibility for continued occupancy shall be recertified no less frequently than every 90 days. No rentals shall be established for the first 12 months of occupancy. Thereafter, provided no adequate alternate housing exists, rentals shall be established based upon the fair market value of the accommodations being furnished. Such rentals shall be adjusted to take into consideration the financial ability of the occupant.

(l) Pursuant to this section, temporary housing assistance may be terminated on 30-day written notice after which 30 days the occupant may be liable for such additional charges as the Regional Director may deem appropriate. Termination of temporary housing assistance to an occupant may be for reasons including, but not limited to, the following:

(1) Adequate alternate housing is now available.

(2) Failure on the part of the occupant to utilize or maintain the housing provided in the manner normally expected of a tenant.

(3) Failure on the part of the occupant to pay rent, utilities, or other appropriate charges (including duplication of benefits) or to reimburse the Government for such charges as authorized by the Regional Director in accordance with this section.

(4) Determination that the temporary housing assistance was obtained either through misrepresentation or fraud.

(m) Termination of temporary housing assistance may be in the form of:

(1) Eviction from temporary housing.

(2) Termination of financial assistance.

#### § 2205.48 Individual and family grants.

(a) *General.* The Governor may request that Federal funds be made available to a State for the purpose of such State making grants to individuals and families who as a result of a major disaster are unable to meet necessary expenses or serious needs. The grant program authorized by this section will be 75 percent Federally funded and 25 percent State funded. The Governor of the affected State or his authorized representative will administer the grant program. The grant program is intended to provide funds to disaster victims to permit them to meet those necessary expenses or serious needs for which other governmental assistance is either unavailable or inadequate. The grant program is not intended to indemnify all disaster losses or to purchase items or services that may generally be characterized as nonessential, luxury, or decorative.

(b) *Definitions as used in this section.*

(1) "Necessary expense" means the cost of an item or service essential to an individual or family to mitigate or overcome an adverse condition caused by a major disaster.

(2) "Serious need" means a requirement for an item or service essential to an individual or family to prevent or reduce hardship, injury, or loss caused by a major disaster.

(3) "Family" means a social unit comprised of husband and wife and dependents, if any, or a head of a household, as these terms are defined in the Internal Revenue Code of 1954.

(4) "Individual" means a person who is not a member of a family, as defined in subparagraph (3) of this paragraph.

(5) "Assistance from other means" means assistance including monetary or in-kind contributions from other governmental programs, insurance, voluntary or charitable organizations, or from any sources other than those of the individual or family.

(c) *National eligibility criteria.* In administering the Individual and Family Grant Program, a State shall determine the eligibility of an individual or family for a grant to meet a necessary expense or serious need in accordance with the following criteria.

(1) *General.* (i) In order to qualify for a grant under this section, an individual or family representative must certify:

(A) That application has been made to other available governmental programs for assistance to meet a necessary expense or serious need and that neither he nor any member of his family has been determined to be qualified for such assistance, or for demonstrated reasons, any assistance received has not satisfied any such necessary expense or serious need.

(B) That with respect to the specific necessary expense or serious need or portion thereof for which application is made, neither he, nor to the best of his knowledge, any member of his family, has previously received or refused assistance from other means.

(C) That should the individual or family receive a grant and assistance from other means later becomes available to meet the necessary expense or serious need, the individual or family shall refund to the State that part of the grant for which financial assistance from other means has been received.

(1) Individuals or families who incurred a necessary expense or serious need in the major disaster area may be eligible for assistance under this section without regard to their residency in the major disaster area or within the State in which the major disaster had been declared.

(2) Individuals or families otherwise eligible for assistance under this section must obtain flood insurance, as required by Subpart E of these regulations.

(2) *Eligible categories.* Assistance under this section may be made available to meet necessary expenses or serious needs by providing essential items or services in the categories set forth below:

(i) Medical or dental.

(ii) Housing. With respect to private owner-occupied primary residences (including mobile homes), grants may be authorized to:

(A) Repair, replace, rebuild.

(B) Provide access.

(C) Clean or make sanitary, or

(D) Remove debris from such residences. Any debris removal will be limited to the minimum required to remove health hazards or protect against additional damage to the residence.

(iii) Personal property.

(A) Clothing.

(B) Household items furnishings or appliances.

(C) Tools, specialized or protective clothing or equipment which are essential to or a condition of a wage earner's employment.

(D) Repair, clean, or sanitize any eligible personal property item.

(iv) Transportation.

(A) Grants may be authorized to provide transportation by public conveyance provided that the requirement for this transportation was the direct result of the disaster.

(B) Grants may be authorized to repair, replace or provide private transportation, if the loss of or requirement for this transportation was the direct result of the disaster, and transportation by public conveyance is inadequate or unavailable.

(v) Funeral expenses.

Grants for funeral expenses will be based on minimum expenditures for interment or cremation.

(3) *Ineligible categories.* Assistance under this section will not be made available for any item or service in the following categories:

(i) Business losses, including farm businesses.

(ii) Improvements or additions to real or personal property.

(iii) Landscaping.

(iv) Real or personal property used exclusively for recreation.

(v) Financial obligations incurred prior to the disaster.

(vi) Any necessary expense or serious need or portion thereof for which assistance was available from other means but was refused by the individual or family.

(4) *Other categories.* Should the State determine that an individual or family has an expense or need not specifically identified as eligible, the State shall provide a factual summary to the Regional Director, and request a determination.

(d) *State request to participate in the Individual and Family Grant Program.* In order to make assistance under this section available to disaster victims, the Governor must file with the appropriate Regional Director a request which includes the following:

(1) A certification that assistance under the Act and from other means is insufficient to meet necessary expenses or serious needs of disaster victims.

(2) An estimate of the number of disaster victims who have necessary expenses or serious needs and the basis for such estimate.

(3) An estimate of the total Federal grant as identified in paragraph (f) (1) of this section.

(4) A commitment to implement an administrative plan as identified in paragraph (e) of this section.

(5) A commitment to identify specifically in the accounts of the State all Federal and State funds committed to the grant program.

(6) A commitment to maintain close coordination with the Federal Coordinating Officer and provide him with such reports as he may require in order to insure proper administration, including avoidance of duplication of benefits.

(7) A commitment to implement the grant program throughout the major disaster area designated by the Administrator.

(8) A certification that the State will pay its 25 percent share of all grants to individuals or families. If the State is unable immediately to pay its 25 percent share, the State may request an advance of Federal funds as identified in paragraph (h) of this section.

(e) *State Administrative Plan.* (1) The State will develop a plan for the administration of the Individual and Family Grant Program that includes but is not limited to:

(i) Assignment of grant program responsibilities to State officials or agencies.

(ii) Methods and procedures for notification of potential applicants.

(iii) Establishment of local application centers.

(iv) Administrative procedures for filing, investigating and approving applications; applicant appeals; disbursement of grants; State program audit.

(v) National eligibility criteria as defined in paragraph (c) of this section.

(vi) Provisions for compliance with §§ 2205.13, 2205.15 and 2205.18 of these regulations and the Flood Disaster Protection Act of 1973 (Pub. L. 93-234, 87 Stat. 975) and the Federal Insurance Administration Regulations, 24 CFR Parts 1909 *et seq.*

(2) The Governor or his authorized representative may request the Regional Director to provide technical assistance in the preparation of an administrative plan to implement the Individual and Family Grant Program.

(3) The Regional Director will review the State administrative plan for each disaster for which assistance is requested under this section to insure that the requirements of these regulations have been met. The Regional Director may defer approval of a State administrative plan until any deficiencies have been corrected.

(4) The State administrative plan is to be made a part of the State's emergency plan, as described in § 2205.4 of these regulations.

(f) *Limitation on grants.* (1) The Federal grant under this part shall be equal to 75 percent of the actual cost of meeting necessary expenses or serious needs of individuals and families, plus State administrative expense not to exceed 3 percent of the total Federal grant, and shall be made only on condition that the remaining 25 percent of such actual cost is paid to such individuals and families from funds made available by the affected State.

(2) An individual or family shall not receive a grant or grants under the provisions of this section aggregating more than \$5,000 with respect to any one major disaster. Such aggregate amount shall include both the Federal and State share of the grant.

(g) *Time limitations.* (1) In the administration of the Individual and Family Grant Program authorized under section 408 of the Act, the following time limitations will be applicable except as described in subdivision (vi) of this subparagraph:

(i) Should the Governor decide to request assistance under this section, he must submit such request no later than seven days following the date on which the major disaster was declared and in the manner set forth in paragraph (d) of this section.

(ii) The State will accept applications from individuals or families for a period of 60 days following the date on which the major disaster was declared.

(iii) Any application filed after the 60-day period stated above must be reviewed by the State to determine whether the late filing was the result of extenuating circumstances or conditions beyond the control of the individual or family. If such conditions or circumstances are demonstrated, the State will determine that good cause existed for late filing and accept that application as though it had been filed on a timely basis; otherwise the application will be rejected.

(iv) No application will be accepted by the State if it is filed more than 90 days following the date on which the major disaster was declared.

(v) All administrative activities including the submission of final reports and vouchers to the Regional Director, shall be completed by the State within 180 days following the date on which the major disaster was declared.

(vi) The Regional Director may extend any time limitation set forth above for a period not to exceed 30 days. The Administrator may further extend any of the above time limitations.

(2) Pursuant to the Federal Disaster Assistance Administration Notice for Individual and Family Grant Application (Docket No. N.75-261, 40 FR 5507, dated Feb. 6, 1975), applications by a Governor for assistance pursuant to Section 408 of the Act for all major disasters declared subsequent to Apr. 20, 1973, but prior to Feb. 5, 1975 must have been made to the appropriate Regional Director of the Federal Disaster Assistance Administration not later than Mar. 21, 1975.

(h) *Advance of State share.* (1) If the State is unable immediately to pay its 25 percent share of the grants to be made under this section, the Governor may request that this amount be advanced by the Federal Government. Requests for such advances will be made to the Regional Director and will include the following:

(i) A certification that the State is immediately unable to pay its 25 percent share and an explanation of the reasons therefor.

(ii) A statement as to the specific actions taken or to be taken to overcome the inability to provide the State share, including a time schedule for such actions.

(iii) A commitment to repay the Federal advance at the time the State is able to do so.

(iv) An estimate of the total amount needed to meet the 25 percent State share.

(v) An agreement to return immediately upon discovery all Federal funds advanced to meet the State's 25 percent share which exceeds actual requirements.

(A) Failure to repay the advance of the State share, in accordance with the time schedule in paragraph (h) (1) (ii) of this section, may result in the withholding by the Federal Government of subsequent advances under this section.

(i) *Approval—Authorization of Funds.* (1) The Regional Director may approve Federal assistance and authorize advances of funds under this section upon his determination that:

(i) all required certifications and commitments have been completed by the Governor.

(ii) the administrative plan provided by the State to implement the Individual and Family Grant Program meets the requirements of these regulations.

(iii) The Regional Director may authorize Federal assistance based on his estimate of the amount required to meet the necessary expenses or serious needs of disaster victims.

(j) *Reimbursement to the State.* Reimbursement to the State of the Federal share of eligible costs will be on the basis of a voucher filed by the State and approved by the Regional Director.

(k) *Federal Audit.* All disbursements will be subject to Federal audit, including those for administrative costs for which the State requests reimbursement.

#### § 2205.49 Food commodities.

(a) The Administrator will assure that adequate stocks of food will be ready and conveniently available for emergency mass feeding or distribution in any area of the United States which suffers a major disaster or emergency.

(b) In carrying out his responsibilities in paragraph (a) of this section, the Administrator may direct the Secretary of Agriculture to purchase food commodities in accordance with authorities prescribed in section 410(b) of the Act.

#### § 2205.50 Relocation assistance.

Notwithstanding any other provision of law, no person otherwise eligible for any kind of replacement housing payment under the "Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970" (Pub. L. 91-646) shall be denied such eligibility as a result of his being unable, because of a major disaster as determined by the President, to meet the occupancy requirements set by such Act.

#### § 2205.51 Crisis counseling assistance and training.

The Secretary of Health, Education and Welfare, consistent with the Delegation of Authority to him by the Secretary (Docket No. —, FR —, dated —) will, subject to the general policy guidance and coordination of the Administrator, (a) provide professional counseling services to victims of major disasters in order to relieve mental health problems caused or aggravated by such major disaster or its aftermath; (b) provide financial assistance to State or local agencies or private mental health organizations to provide such services or training of disaster workers; and (c) issue such rules and regulations as may be necessary and appropriate to effectuate this delegation.

#### § 2205.52 Availability of materials.

The Regional Director may, at the request of the Governor of an affected State, provide for a survey of construction materials needed in the disaster affected area on an emergency basis for housing repair, replacement housing, public facilities repairs and replacement, farming operations, and business enterprises and may take appropriate action to assure the availability and the fair distribution of needed materials. Where possible, such action may include the voluntary allocation of such materials for a period of not more than 180 days after the major disaster. Any allocation program shall be implemented by the Regional Director, to the extent possible, by working with and through those companies which traditionally supply construction materials in the affected area. For the purposes of this section, "construction materials" shall include building materials and materials required for housing repair, replacement housing, public facilities repair and replacement, and for normal farm and business operations.

#### § 2205.53 Emergency public transportation.

The Regional Director may provide emergency public transportation service in a disaster-affected area for persons who, as a result of a major disaster, have lost ready access to governmental offices, supply centers, stores, post offices, schools, and major employment centers, and to such other places as may be necessary in order to meet the emergency needs of the communities. Any transportation provided under this section is intended to supplement but not replace normal transportation facilities that remain operable after a major disaster. Such emergency transportation will be discontinued immediately when the emergency need of the community has been met.

#### § 2205.54 Repair and restoration of damaged facilities.

(a) *Definitions as used in this section.* (1) "Private non-profit organization" means any non-governmental agency or entity that currently has (i) an effective ruling letter from the U.S. Internal Revenue Service, granting tax exemption under section 501 (c), (d), or (e) of the Internal Revenue Code of 1954, or (ii) satisfactory evidence from the State that the non-revenue producing organization or entity is a nonprofit one organized or doing business under State law.

(2) "Educational Institution" means (i) Any elementary school as defined by section 501(c) of the Elementary and Secondary Education Act of 1965;

(ii) Any secondary school as defined by section 801(h) of the Elementary and Secondary Education Act of 1965; or (iii) Any institution of higher education as defined by section 1201 of the Higher Education Act of 1965

(3) Private non-profit facility means any private non-profit educational, utility, emergency, medical, and custodial care facilities, including those for the aged or disabled, and facilities on Indian reservations as defined by the President.

(i) "Education facilities" means classrooms and related facilities; and equipment, machinery, and utilities necessary or appropriate for instructional purposes. It does not include athletic stadiums or structures or facilities intended primarily for athletic exhibitions, contests, games or other events for which admission is to be charged to the general public; and facilities used primarily for religious instruction or any facility to be used primarily in connection with any part of the program of a school or department of divinity. "School or department of divinity" is used herein as defined by section 1201 of the Higher Education Act of 1965.

(ii) "Utility" means structures of systems of any power, water storage, supply and distribution, sewage collection and treatment, telephone, transportation, or other similar public service.

(iii) "Emergency facility" means those buildings, structures, or systems used to provide services, such as fire protection,

ambulance, or rescue, to the general public as the result of disasters or other situations of great urgency.

(iv) "Medical facility" means any "hospital," "outpatient facility," "rehabilitation facility," or "facility for long term care" as such terms are defined in section 645 of the Public Health Service Act (42 U.S.C. 2910), and any similar facility offering diagnosis or treatment of mental or physical injury or disease, including the administrative and support facilities essential to the operating of such medical facilities although not contiguous thereto.

(v) "Custodial care facility" means those buildings, structures, or systems including those for essential administration and support, which are used to provide institutional care for such persons such as the aged and disabled who do not require day-to-day health care by doctors.

(4) "Pre-disaster design" means that capacity or measure of productive usage for which a facility could be used immediately prior to a major disaster in accordance with locally applicable health or safety codes, specifications or standards.

(5) "Pre-disaster condition" means the state of repair or serviceability of a facility immediately prior to the disaster taking into consideration prior damages, age, deterioration, and any limitations which had been placed upon its operation.

(6) Grant-in-lieu means a contribution pursuant to a project application whose scope of work includes improvements in the public facility to be repaired, restored, reconstructed or replaced, or any changes therein which are not eligible under sections 402 or 419 of the Act, and for which the Regional Director limits his approval and Federal funding to the estimated costs of the eligible work.

(b) *Procedure.* State and local governments may submit applications for Federal assistance under the Act to repair, restore, reconstruct, or replace public facilities belonging to them which were damaged or destroyed in a major disaster. State and local governments may also submit applications on behalf of private non-profit organizations for educational, utility, emergency, medical, and custodial care facilities, including such facilities for the aged and disabled, and facilities on Indian reservations which were damaged or destroyed by a major disaster.

(c) *Codes, specifications, and standards.* For the purposes of these regulations, current applicable codes, specifications, and standards are those which relate directly to the health and safety of persons using the damaged facility and which were in general use and were enforced locally at the time of the disaster. If such codes, specifications, and standards are not in writing, the applicant must provide evidence, and a Federal official shall verify, that the codes, specifications, and standards, were in use

## RULES AND REGULATIONS

at the time of the disaster. Where no codes, specifications, or standards, as prescribed above, apply to eligible restorative work, Federal funding will be limited to restoring the facility to its pre-disaster condition and pre-disaster design in accordance with minimum safety standards prescribed by the Administrator. If compliance with locally applicable codes, specifications, and standards in effect at the time of the disaster clearly will not result in a safe and usable facility, the Administrator may authorize appropriate deviations.

(d) **Public facilities.** Permanent repair or restoration of public facilities may be approved for categorical grants using the following criteria:

(1) The Federal contribution shall not exceed the net eligible cost of restoring a facility based on the pre-disaster design of such facility and on the current codes, specifications, and standards in use by the applicant for similar facilities in the locality.

(2) If the damaged facility is repairable to pre-disaster condition as determined by the Regional Director, approved restorative work will be limited to the cost of eligible repairs. In such cases, only those repairs will be approved which are designed to restore the portions of the structure damaged by the major disaster in conformity with current codes, specifications, and standards locally applicable to such repairs. If the facility was in a damaged or unsafe condition prior to the major disaster, the applicant shall agree to pay the cost of correcting any such condition as a prerequisite to Federal assistance.

(3) If the damaged facility is not repairable to pre-disaster condition as determined by the Regional Director, approved restorative work may include replacement of the facility on the basis of its pre-disaster design, in conformity with current codes, specifications, and standards locally applicable to new construction.

(4) A policy objective in restoring facilities damaged by a major disaster shall be to assure consideration of the advantages or disadvantages of disaster proofing, relocation, or other hazard mitigation measures, before any Federal work or other expense is authorized. In restoring damaged facilities by use of Federal disaster assistance, the Regional Director may authorize minimum disaster proofing as eligible work under the Act. When the Regional Director determines that a facility should not be restored in a hazard area, he may authorize relocation to a less hazardous site. Provided, however, that the overall Federal project cost is not increased. He may decline to authorize Federal disaster assistance to restore facilities at the original site when such facilities are subject to repetitive heavy damages or destruction.

(5) A grant-in-lieu of repair or restoration otherwise eligible under the Act may be approved if repair or replacement of the damaged facility involves betterment or change in design of the facility. When the Regional Director de-

termines that a grant-in-lieu is necessary in the public interest, he may require the applicant to submit an acceptable alternative for restorative work on a grant-in-lieu basis.

(6) Facilities that are (i) obsolete or obsolescent and not in active use, or (ii) that are in otherwise non-operable condition at the time of occurrence of the major disaster, are not eligible for permanent repairs or other restorative work except in those instances, as determined by the Regional Director, where the facilities were only temporarily closed for repairs or remodeling, or where active use by the applicant was firmly scheduled prior to the major disaster to begin within a reasonable time.

(7) Facilities which were in limited use prior to the disaster, or were being used for other purposes than originally designed, may be eligible for assistance only to the extent necessary to resume immediate pre-disaster use, and in conformity with current applicable codes, specifications, and standards.

(e) **Private non-profit facilities.** Categorical grants for the repair or restoration of private non-profit facilities by Federal disaster assistance may be approved, using the criteria for public facilities outlined in paragraph (d) of this section. No payment will be made for any work which was not within the scope of responsibility of the private non-profit facility prior to the major disaster. The following additional criteria apply for determining the eligibility of such facility:

(1) It must be operated in a manner to carry out the non-profit purposes of the owning organization or entity.

(2) Damages must have occurred as the result of a major disaster and impair the capability of the facility to perform services for the community.

(3) The eligible owning organization must give assurances of its continued operation of the facilities when restored that are acceptable to the Regional Director.

(4) It must have the necessary permits and licenses to repair, restore, reconstruct or replace the facility in accordance with the project application and to maintain and operate the facility thereafter.

(f) **Limitations.** (1) Grants made under the provisions of this subpart for private non-profit facilities shall not:

(i) Be used to pay any part of the cost of facilities, supplies, or equipment which are to be used primarily for sectarian purposes; or

(ii) Be used to restore or rebuild any facility to be used primarily for religious worship; replace, restore, or repair any equipment or supplies to be used primarily for religious instruction, or restore or rebuild any facility or furnish any equipment or supplies which are to be used primarily in connection with any part of the program of a school or department of divinity.

(2) No grants shall be made under this subpart for the repair, restoration, reconstruction, or replacement of any educational facility for which disaster relief assistance would not be authorized for a

public facility under the Act, under Pub. L. 81-815, or Title VII of the Higher Education Act of 1965.

(g) **Facilities under construction.** Categorical grants may be approved for those facilities eligible under this paragraph which were in the process of construction when damaged or destroyed by a major disaster.

(1) Federal reimbursement shall not exceed the net eligible costs of the applicant, of an eligible private non-profit organization or entity, or of the contractors in restoring a facility to substantially the same condition as existed prior to the major disaster. The Regional Director may authorize alternative restorative work as a grant-in-lieu of restoring the facility to the same condition as existed prior to the disaster: *Provided, however,* That the net eligible costs to the Federal Government are not increased by approval of such alternative.

(2) Eligible costs shall not include any interest cost on project funding or any cost for which reimbursement is received pursuant to insurance contracts or otherwise by the party incurring the economic burden of such costs, including reimbursements which might be received from any other private, State or local government or Federal agency.

(3) No Federal reimbursement will be made to any applicant for damages caused by its own negligence, by the negligence of any interested private organization or entity, or by any contractor.

(h) **Flexible funding.** (1) Ninety percent contribution. Grants described in paragraph (d) of this section, an applicant may elect to receive a contribution based on 90 per centum of the Federal estimate of the total cost of repairing, restoring, reconstructing, or replacing all damaged public facilities owned by it within its jurisdiction. Such election will provide maximum flexibility in the use of the Federal contribution where an applicant determines that public welfare would not be best served by repairing, restoring, reconstructing or replacing particular public facilities damaged or destroyed in the major disaster.

(1) The total cost will be estimated on the basis of the pre-disaster design of each such facility and in conformity with current applicable codes, specifications, and standards.

(ii) Funds contributed under this subsection may be expended either to repair or restore certain selected damaged public facilities or to construct new public facilities which the applicant determines to be necessary to meet its needs for governmental services and functions in the disaster-affected area.

(iii) Such election must be declared in writing by the applicant to the Regional Director through the Governor's Authorized Representative before the approval of any project application from such applicant for assistance under § 2205.54(d), except as provided under § 2205.54(i) (3) below, and except project applications approved for major disasters declared after April 1, 1974 and prior to May 22, 1974.

(iv) Based on approval of a project application by the Regional Director, partial payments may be made not to exceed a quarterly projection of the applicant's planned obligations and expenditures. Further partial payments may be made periodically as necessary to assure an adequate cash flow for the applicant's restorative work. Within 90 days after the initial partial payment, the applicant shall submit a listing of the public facilities to be repaired, restored, or constructed using the requested funds, the estimated cost of each, and a proposed schedule for initiation and completion, including estimated quarterly fund requirements. Following receipt of such listing and schedule, with amendments by the applicant as necessary, further Federal participation in the administration of these funds will be through additional partial payments. There shall be such final inspection and audit as deemed necessary to assure that the funds were expended in accordance with the purposes of section 402(f) of the Act and as shown in the listing and schedule, and final payment of the grant.

(A) **Small project applications (in-lieu contributions).** (1) In any case where the Federal estimate of total cost approved by the Regional Director for reimbursement to the applicant is less than \$25,000 under sections 306, 402, and 403 of the Act, the in-lieu contribution will be based on 100 per cent of such approved total estimated cost. Direct Federal assistance, and any assistance requested by an applicant on behalf of a private non-profit organization, shall not be included in determining the amount of the in-lieu contribution under section 419 of the Act. However, the Regional Director may approve Federal funding under sections 306, 402, or 403 in any instance where he determines that the circumstances do not justify an in-lieu contribution under section 419 of the Act.

(B) Funds contributed under this subsection may be expended either to repair, restore, reconstruct or replace certain selected damaged or destroyed public facilities; to construct new public facilities which the applicant determines to be necessary to meet its needs for governmental services and functions in the disaster affected areas; or to undertake the disaster work authorized under sections 306 and 403 of the Act upon which the Federal estimate of damages is based.

(C) Within 30 days following completion of the work performed pursuant to this subsection, the applicant shall furnish a listing through the Governor's Authorized Representative to the Regional Director of the work performed and the public facilities that were repaired, restored, reconstructed, replaced or constructed. This listing shall include a brief description, location, insurance coverages, and total project costs of the completed work. A final inspection will be made to verify that the funds were expended in accordance with the purposes of section 419 of the Act.

(D) If an applicant subsequently submits a supplement to its project application that would increase the grant

## RULES AND REGULATIONS

under section 419 of the Act to an amount exceeding \$25,000, the entire contribution shall revert to a categorical grant or to a 90 percent contribution under § 2205.54(h) (1) as approved by the Regional Director.

(1) For the purposes of this section, functional furnishings and equipment essential to the operation of the facility will be considered as part of a facility: *Provided, however,* That comparable used or surplus equipment shall be utilized to the extent practicable.

(j) Consumable supplies damaged or lost in a disaster will be considered eligible for replacement to the extent that such replacement is made within 90 days of the date of the President's declaration, but limited to a 30-day requirement of each item so replaced. The 90-day deadline for replacement may be waived by the Regional Director where appropriate.

(k) When the circumstances warrant, the Regional Director may change the original project approval to a grant-in-lieu based on cost estimates for the approved work that do not include escalation of costs caused by lengthy delays on the part of the applicant or his contractors.

## § 2205.55 Debris and wreckage clearance.

(a) General: Debris and wreckage clearance is normally accomplished by the affected State or local government, however, if the State or local government requests and the Regional Director determines that the use of a Federal agency is necessary he may direct that agency to accomplish the work. No authority under this section for debris clearance through the use of Federal agencies shall be exercised unless the affected State or local government shall first arrange an unconditional authorization for removal of such debris or wreckage from public and private property, and shall agree to indemnify the Federal Government against any claim arising from such removal. All emergency debris and wreckage clearance shall be performed without delay. Other debris clearance is to be completed as rapidly as possible.

(b) In addition to emergency work under Subpart B of this part, the Regional Director, whenever he determines it to be in the public interest, may:

(1) Through the use of Federal agencies, clear debris and wreckage resulting from a major disaster from publicly and privately owned lands and waters, and

(2) Make reimbursements to any State or local government for the removal of such debris or wreckage.

(c) Determination of public interest under this section shall consider:

(1) Whether removal of such debris and wreckage is necessary to eliminate threats to life and property.

(2) Whether removal of such debris and wreckage is necessary to eliminate a hazard which threatens substantial destruction of undamaged public or private property.

(3) Whether removal of debris and wreckage is essential to the economic recovery of the affected community.

(4) Whether a benefit is derived, directly or indirectly, to the community-at-large.

(d) No Federal reimbursement will be made to a State or local government for reimbursement of an individual or non-governmental entity for the cost of removing debris from his own property.

(e) Any salvage value of debris or wreckage cleared under an application for public assistance shall be deducted from the Federal reimbursement to the applicant for expenses actually incurred for such clearance of debris and wreckage.

## § 2205.56 Community disaster loans.

(a) The Administrator may make a community disaster loan, to any local government which may suffer a substantial loss of tax and other revenues as a result of a major disaster, and has demonstrated a need for financial assistance in order to perform its governmental functions.

(b) A community disaster loan may be approved in either the fiscal year in which the disaster occurred or the fiscal year immediately following that year: *Provided, however,* That only one such loan may be approved. This loan, if approved, will be used to carry on existing local government functions or to expand such existing functions to meet disaster related needs.

(c) To obtain a community disaster loan, the local government must submit a loan request through the Governor or his authorized representative. The loan must be justified on the basis of need and shall be based on the actual and projected losses of revenues and disaster-related expenses, as a result of the major disaster, for the fiscal year in which the disaster occurred and for the three succeeding fiscal years. This loan request will be prepared by the affected local government and certified as legal by the Governor or his authorized representative. If the Administrator determines that the projected loss is substantial and that the projected revenue loss is consistent with Federal damage estimates, he may approve a loan up to the amount of projected loss and projected disaster-related expenses of a municipal operating character or 25 percent of the annual operating budget for the fiscal year in which the major disaster occurred, whichever is the lesser. The principal of the loan will be made available in increments based on disaster-related needs of the applicant.

(d) Such loans shall bear interest at a rate not less than (1) a rate determined by the Secretary of the Treasury taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the average maturities of such loans, adjusted to the nearest one-eighth of 1 per centum, plus (2) such additional charge, if any, toward covering other costs of the pro-

V40-103 MAY 28 75

gram as the Administrator may determine to be consistent with its purposes.

(e) No loan made under this section shall be for a period more than three years, unless otherwise approved by the Administrator. When requested by the applicant and warranted by the applicant's financial condition, the Administrator may extend the term of the loan: *Provided, however*, That the total term of the loan shall not exceed 10 years.

(f) To the extent that revenues of the local government during the three full fiscal year period following the disaster are insufficient, as a result of the major disaster, to meet the operating budget of the local government, including additional disaster-related expenses of a municipal operating character, repayment of all or any part of such community disaster loan shall be cancelled: *Provided*, That prior to expiration date of the loan, the local government requests in writing with justification any cancellation considered appropriate. Such request will be submitted through the Governor's Authorized Representative and the Regional Director to the Administrator for determination. Cancellation of all or any part of the principal of the loan shall include related interest.

(g) Any community disaster loans including cancellations made under this section shall not reduce or otherwise affect any grants or other assistance under the Act or these regulations.

#### § 2205.57 Grants for removing timber from privately owned lands.

When he determines it to be in the public interest, the Regional Director may approve grants to a State or local government for the purpose of removing from privately owned lands timber damaged as a result of a major disaster.

(a) An action plan shall be prepared by the State to tailor the cleanup and timber salvage operation to fit the specific situation, including at least the following:

(1) Priorities in the approval of work shall be established to guide efforts to areas where fire, pest, and wildlife hazards are concentrated.

(2) An appropriate limitation shall be placed on the degree of cleanup to be approved.

(3) Approved work practices and a scale of acceptable unit costs (per acre or otherwise) shall be established, if feasible.

(b) Inspection of the areas to be cleared shall be made by State and Federal representatives to provide a valid basis for approval of work to be done. In those cases where work has already been started or completed, the inspection is to determine a reasonable basis for approving or disapproving such work. Inspection reports shall include a complete description of the land to be cleared and of the eligible work and an estimate of the salvage value as well as the estimated cost of such work.

(c) The determination of public interest under this section shall include threats to life and property including possible flood hazards.

(d) In determining eligible cost under this section:

(1) Any applicable insurance recoveries and any salvage value of all timber removed or to be removed are to be considered and deducted from the costs for approved work. If the individual property owner elects to burn or otherwise dispose of the damaged timber instead of salvaging it, an estimated net value of potential salvage shall be established by the State and Federal representatives. If they cannot agree, the Regional Director shall make the determination, and his decision will be final.

(2) Costs for construction of temporary roads approved by the Regional Director as necessary for access to or salvage of damaged timber are eligible.

(e) Claims for reimbursement shall be subject to verification on the basis of inspections and audits of completed work.

#### § 2205.58 Protection of the environment.

(a) No action taken or assistance provided pursuant to sections 305, 306, or 403 of the Act, or any assistance provided pursuant to sections 402 or 419 of the Act that has the effect of restoring facilities substantially as they existed prior to the disaster in conformity with current applicable codes, specifications, and standards, shall be deemed a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (83 Stat. 852). Major Federal actions significantly affecting the quality of the environment are those actions which require Environmental Impact Statements in accordance with section 102(2)(c) of the National Environmental Policy Act.

(b) Environmental clearances may be required for permanent replacement projects, including grants-in-lieu under § 2205.54 that do not have the effect of restoring facilities substantially as they existed prior to the disaster in conformity with current applicable codes, specifications, and standards. However, minor relocations to restore facilities essentially to the same design and capacity that existed prior to the disaster shall not be deemed major Federal actions significantly affecting the quality of the human environment.

(c) For nonexempt Federal actions involving Federal disaster assistance under the Act, the Regional Director shall determine whether or not it is a major Federal action significantly affecting the quality of the human environment. In any case where affirmative determination may result, the Regional Director shall consult with the Administrator or his staff to arrange for compliance with section 102, National Environmental Policy Act.

#### § 2205.59 Minimum standards for public and private structures.

As a condition of a disaster loan or grant made under the provisions of the Act, the recipient applicant shall agree that any repair or construction to be financed therewith shall be in accordance with applicable standards of safety,

decency, and sanitation and in conformity with current locally applicable codes, specifications, and standards, and shall furnish such evidence of compliance with this section as may be required by the Regional Director. If compliance with such locally applicable codes, specifications, and standards in effect prior to the major disaster clearly will not result in a safe and usable facility, the Administrator may authorize additional work as appropriate. As a further condition of any loan or grant made under the provisions of the Act, the State or local government shall agree that the natural hazards in the areas in which the proceeds of the grants or loans are to be used shall be evaluated. The State or local government shall also agree that appropriate action shall be taken to mitigate such hazards, including safe land-use and construction practices, in accordance with standards prescribed by the Administrator after adequate consultation with the appropriate elected officials of general purpose local governments.

#### § 2205.60 Time limitations.

(a) Project applications shall be submitted within 90 days, or a lesser period if so prescribed by the Regional Director, following the date of the President's declaration of a major disaster. If the circumstances of the disaster are such as to make immediate detailed damage surveys and reports by local/State/Federal agencies impractical the Regional Director may, if the State so requests, extend this time limitation.

(b) Federal assistance provided under sections 305, 306, 402, 403, and 419 of the Act shall begin with the President's declaration of a major disaster and, with the following exceptions, shall terminate upon expiration of these prescribed time periods:

	Initiation deadline	Completion deadline
(1) Debris clearance.....	30 days.....	180 days.
(2) Emergency measures.....	do.....	Do.
(3) Permanent restorative projects.....	do.....	18 months. <sup>1</sup>

<sup>1</sup> These time limitations apply to categorical grants and to grants involving flexible funding under sections 402(f) and 419 of the Act. The Regional Director may require an applicant to submit a completion schedule for his approval.

(c) Exceptions:

(1) Based on extenuating circumstances or unusual project requirements clearly beyond the control of the applicant and the direct recipient of the Federal assistance, the Regional Director may extend any of these time periods, not to exceed 180 days on a project-by-project basis.

(2) Based on his determination that such action is warranted, the Administrator may extend any of the time periods prescribed by this section or completion dates prescribed above.

(d) The Regional Director may impose lesser time limits for completion of work under paragraphs (b) (1), (2), and (3) of this section if considered appropriate.

(e) When an applicant fails to make a timely start of work approved under sections 305, 306, 402, 403, or 419 of the Act, the Regional Director shall review the project approval and may withdraw Federal funding.

#### Subpart E—Flood Insurance

##### § 2205.61 General.

The Flood Disaster Protection Act of 1973, Pub. L. 93-234, imposes certain restrictions on approval of Federal financial assistance for acquisition or construction purposes for use in any area defined by the Secretary as an area having special flood hazards. The implementation of Pub. L. 93-234 under the Act is provided by this subpart.

##### § 2205.62 Definitions.

As used in this subpart.

(a) "Federal financial assistance" means any loan or grant or any other form of direct or indirect Federal financial assistance under the Act and these regulations and which is not excluded pursuant to § 2205.63.

(b) "Financial assistance for acquisition or construction purposes" means any form of Federal financial assistance which is intended in whole or in part for the acquisition, construction, reconstruction, repair, or improvement of any publicly or privately owned building or mobile home, and for any machinery, equipment, fixtures, and furnishings contained or to be contained therein.

(c) "Building" means a walled and roofed structure, other than a gas or liquid storage tank, that is fully enclosed and affixed to a permanent site.

(d) "Community" means any State or area or political subdivision thereof, or any Indian tribe or authorized tribal organization, or Alaska Native village or organization, for which an application for participation in the National Flood Insurance program is made and which has authority to adopt and enforce flood plain management regulations for the areas within its jurisdiction. Unincorporated communities or private nonprofit facilities which may be otherwise eligible for Federal disaster assistance but do not fulfill the above definition must meet the flood insurance requirements of these regulations and must be sponsored by an applicant (community) which fulfills this definition in cases when the provision of the Flood Disaster Protection Act applies.

##### § 2205.63 Exclusions.

(a) The following categories of Federal disaster assistance authorized under the Act are excluded from the provisions of the Flood Disaster Protection Act of 1973:

(1) Federal financial assistance for emergency work essential for the protection and preservation of life and property eligible for Federal reimbursement under the Act. This exemption includes eligible emergency work under: (i) Subpart B (Emergencies); (ii) Subpart C (Fire Suppression); and; (iii) §§ 2205.45, 2205.53, 2205.54, 2205.55, 2205.56, and 2205.57 of Subpart D (Major Disasters), of this part.

(2) Federal financial assistance on any State-owned property that is covered by an adequate State policy of self-insurance approved by the Federal Insurance Administrator.

(3) Federal financial assistance under Title II of the Act.

##### § 2205.64 Applicability.

(a) Federal financial assistance for permanent work on buildings in an area identified by the Federal Insurance Administrator as having special flood hazards unless exempted above, is subject to the full restrictions and limitations imposed by the Flood Disaster Protection Act of 1973 for all project applications approved for such buildings in accordance with the following:

(1) Effective March 2, 1974, if the Federal Insurance Administrator has identified the areas having special flood hazards in a community in which the sale of flood insurance has been made available under the National Flood Insurance Act of 1968, any building and contents not covered by flood insurance for the full insurable value or the maximum amount of insurance available, whichever is the lesser, is not eligible for Federal financial assistance.

(2) For all project applications approved after June 30, 1975, if the Federal Insurance Administrator has identified an area in a community as having special flood hazards and the community is not participating in the flood insurance program under the National Flood Insurance Act of 1968, restorative work as the result of disaster damage to buildings in a special flood hazard area is ineligible for Federal financial assistance.

(3) In the case of subparagraph (1) or (2) of this paragraph, any building may become eligible for Federal financial assistance, if the community concerned within six months after the date of the Federal Damage Survey Report qualifies for and enters the flood insurance program; obtains and maintains the necessary flood insurance policy for the anticipated life of the restorative work or of the insured property, whichever is the lesser, as determined by the Regional Director; and provides FDAA with written evidence thereof.

(4) Flood insurance is required in connection with obtaining Federal financial assistance for permanent restorative work within an identified flood-hazard area, even if a flood had not occasioned the major disaster declaration. If the applicant replaces a building outside of the special flood hazard area, Federal financial assistance for eligible permanent restorative work will not be denied for failure to insure or failure of the community to participate in the flood insurance program.

(b) Where permanent repair, replacement, or relocation is involved, flood-proofing not required by locally applicable codes, specifications, and standards shall be accomplished at the owner's expense.

(c) The Regional Director will work closely with the State Coordinating Officer, State and local governments, and the field staff of the Federal Insurance

Administration to ensure that the provisions of this part for special flood hazard areas are considered in the processing and approval of project applications under § 2205.7. In addition, the Regional Director will require compliance with the provisions in this part in issuing mission assignments for direct Federal assistance under § 2205.8 whenever property subject to the provisions of the Flood Disaster Protection Act of 1973 is involved.

(d) For any State-owned building not covered by an approved State policy of self-insurance, the Regional Director shall require proof of adequate flood insurance covering proposed permanent restorative work eligible for reimbursement under the Act.

(e) When an eligible applicant for permanent restorative work to buildings damaged by a disaster provides proof of flood insurance to obtain Federal financial assistance he makes a commitment to continue the flood insurance for the useful life of the eligible restorative work, as determined by the Regional Director. For those buildings on which the eligible applicant is delinquent on flood insurance commitments, the Regional Director shall suspend any future Federal financial assistance until such delinquency is eliminated.

(f) When a State has been approved by the Federal Insurance Administrator as a self-insurer, the Regional Director shall determine the amount of self-insurance applicable to any building damaged by a major disaster and shall deduct such self-insurance coverage from the Federal grant for permanent restorative work.

(g) In administering this section, Regional Directors will utilize current information obtained from the Federal Insurance Administration to identify States having a satisfactory program of self-insurance, the communities eligible for flood insurance under the regular or emergency programs, flood hazard boundary maps and flood insurance rate maps.

#### Subpart F—Other Insurance

##### § 2205.65 General.

Provisions of this subpart do not apply to Flood Insurance under the Flood Disaster Protection Act of 1973, Pub. L. 93-234, which is covered under Subpart E of this part.

##### § 2205.66 Definitions as used in this subpart.

(1) "Assistance" means any form of Federal grant under sections 402 or 419, to replace, restore, repair, reconstruct or construct any property as the result of a major disaster and which is not excluded pursuant to § 2205.67.

(2) "Property" means any structure, vehicles, equipment, materials, or supplies.

##### § 2205.67 Exclusions.

The following categories of Federal disaster assistance are excluded from the requirements to obtain and maintain such insurance as is required by section 314 of the Act, and this subpart:

V 40-103 MAY 28 75

(a) Emergency assistance provided under section 305 or 306, of the Act.

(b) Assistance otherwise eligible under section 402 or 419 of the Act for any State-owned property that is covered by an adequate State policy of self-insurance approved by the Administrator.

(c) Assistance under section 402 or 419 of the Act for any property for which insurance is not reasonably available, adequate, and necessary, including but not limited to: Roads, streets, bridges and other highway facilities, traffic controls, parking meters, drainage channels and debris basins, dikes and levees, pumping stations, and utility distribution systems.

#### § 2205.68 Applicability.

(a) The requirements of this subpart shall apply to all assistance pursuant to section 402 or 419 of the Act with respect to any major disaster declared by the President after May 22, 1974.

(b) No such assistance shall be approved unless the applicant has provided assurances, acceptable to the Regional Director, that any insurance required under these regulations will be obtained and maintained.

(c) Approval of otherwise eligible project applications may be deferred by the Regional Director for not to exceed six months to permit the applicant to provide such assurances referred to in paragraph (b) of this section. The Administrator, when he deems necessary, may extend the time for submission of such assurances by the applicant.

(d) No applicant for assistance under sections 402 and 419 of the Act shall receive such assistance for any property or part thereof for which he has previously received assistance under the Act unless insurance required under section 314 of the Act and these regulations has been obtained and maintained with respect to such property.

(e) Insurance requirements prescribed in this subpart shall apply equally to private non-profit facilities which receive assistance under section 402(b) of the Act. Private non-profit organizations shall submit necessary documentation and assurances pursuant to this subpart through the appropriate applicant.

#### § 2205.69 Type of insurance.

Assurances by the applicant under this subpart to obtain reasonably available, adequate, and necessary insurance shall be required only for the type or types of hazard included in the declaration of the major disaster in which the damages occurred. The Regional Director shall not require greater types and extent of insurance than are certified to him as reasonable by the appropriate State Insurance Commissioner responsible for regulation of such insurance.

#### § 2205.70 Extent of insurance.

Prior to approval of assistance under section 402 or 419 of the Act to replace, restore, repair, reconstruct, or construct any property for which insurance is required under this subpart, the applicant shall provide assurances acceptable to the Regional Director that he will obtain

and maintain reasonably available, adequate, and necessary insurance to protect against future loss to the property. Such insurance must protect against loss to the property and not solely to that portion which was damaged or destroyed by the major disaster.

#### § 2205.71 Duration of insurance coverage.

The applicant shall provide assurances that the required insurance coverage will be maintained for the anticipated life of the restorative work or of the insured property, whichever is the lesser.

#### § 2205.72 Assurances for categorical grants.

Where insurance is required, under this subpart the applicant shall submit evidence of applicable insurance coverage or other related assurances with his project application. The type and extent of such insurance coverage will be subject to approval by the Regional Director.

#### § 2205.73 Assurances for flexible funding.

When applying for assistance under the provisions of sections 402(f) and 419 of the Act, the applicant shall provide assurances acceptable to the Regional Director that it will obtain and maintain such insurance as required by section 314 of the Act and the regulation in this subpart. As part of such assurance the applicant shall agree to provide to the Regional Director a listing of insured property including location, description, extent and duration of insurance coverage, name and address of the insurer, and applicable insurance policy numbers. The Regional Director, after review of the listing and schedule required by § 2205.54(h)(4) and other reviews as he deems necessary shall, if appropriate, require the applicant to obtain additional insurance pursuant to the Act and these regulations.

#### § 2205.74 Self-insurance.

A State may elect to act as a self-insurer with respect to any or all of the facilities belonging to it. Such an election, if declared in writing at the time of accepting assistance under sections 402 or 419 of the Act or subsequently, and accompanied by a plan for self-insurance which is satisfactory to the Administrator, shall be deemed compliance with subsection 314(a) of the Act. No such self-insurer shall receive assistance under such sections for any property or part thereof for which it has previously received assistance under the Act, to the extent that insurance for such property or part thereof would have been reasonably available.

#### Subpart G—Disaster Preparedness Assistance

#### § 2205.75 General.

(a) The purpose of this subpart is to prescribe the standards and procedures to be followed in implementing Pub. L. 93-288 Title II—Disaster Preparedness Assistance, section 201, Federal and State Disaster Preparedness Programs.

(b) The disaster preparedness program shall be carried out in accordance with the policies set forth in § 2205.3 and the following priorities:

(1) To prepare for the efficient and expeditious provision of disaster relief.

(2) To mitigate potential disaster effects on persons and property through warning, evacuation, and emergency protective measures.

(3) To reduce the effects of hazards through effective land use and construction practices and by eliminating or lessening disaster-producing events.

#### § 2205.76 Definitions.

As used in this subpart:

(a) "Disaster preparedness plans" means those plans prepared by Federal, State, and local governments in advance of anticipated disasters for the purpose of assuring effective management and delivery of aid to disaster victims, and providing for disaster mitigation, warning, rehabilitation, and recovery.

(b) "Financial assistance" means grants from the President's Disaster Relief Fund under authority of section 201 of the Act.

(c) "State disaster preparedness coordinator" means the person designated by the Governor or by State law as responsible for overall disaster preparedness program coordination or management.

(d) "Technical assistance" means provision of guidance through advice and consultations, workshops and conferences, studies and analyses, reports and instructional materials, and other services.

(e) "Vulnerability analysis" means a systematic investigation of potential disasters in terms of probability, frequency, magnitude, and location, in order to forecast their probable effects, in specific geographical areas, on the people, systems, facilities, resources, and institutions.

#### § 2205.77 Federal Disaster Preparedness Program.

(a) The Administrator is authorized to establish a program of disaster preparedness that utilizes the services of all appropriate agencies and to provide overall management of that program by:

(1) Providing policy guidance to Federal agencies and conducting program reviews of Federal activities relating to disaster preparedness.

(2) Directing the preparation and review of Federal disaster preparedness plans.

(3) Determining goals and arranging for training of Federal and State personnel, and conducting exercises, critiques, and evaluations to enhance disaster preparedness programs.

(4) Sponsoring and monitoring disaster-related research and the application of science and technology to Federal, State, and local disaster preparedness plans and programs.

(b) The Regional Director shall establish a regional program of disaster preparedness that is consistent with the overall national program and with the State programs within his region and

shall manage that regional program by:

(1) Reviewing Federal agency, State, and local disaster preparedness and response activities and recommending improvements.

(2) Assisting the States in accordance with the Act and these regulations.

(3) Coordinating the disaster preparedness programs of Federal agencies within his region.

(4) Preparing plans and conducting training, exercises, critiques, and evaluations to enhance Federal agencies' preparedness for disaster assistance; arranging for and carrying out such activities in conjunction with the States to ensure coordinated Federal, State, and local response to disasters.

#### § 2205.78 Technical assistance.

(a) The Regional Director shall, upon request, provide technical assistance to the States, in accordance with the priorities specified in § 2205.75(b) of these regulations, for comprehensive plans and practicable programs for preparation against disasters, including hazard reduction, avoidance, and mitigation and for assistance to individuals, businesses, and State and local governments following such disasters.

(b) Particular emphasis shall be given to technical assistance in the following aspects of disaster preparedness:

(1) The drafting of disaster related State legislation and executive authorities.

(2) Vulnerability analyses.

(3) Work plans and other documentation for disaster preparedness grants.

(4) State and local disaster preparedness programs and procedures.

(5) Staff training, workshops, and seminars.

(6) Disaster assistance exercises.

(7) Program evaluation.

(8) Public information and education programs.

(9) Application of technological information to the disaster preparedness program.

(c) The Regional Director shall also advise the States regarding complementary Federal programs that will enhance State and local disaster assistance and preparedness.

(d) Requests for Federal technical assistance under section 201(b) of the Act shall be made by the Governor or the State disaster preparedness coordinator to the Regional Director.

(1) The request for technical assistance shall indicate as specifically as possible the objectives, nature, and duration of the requested assistance; the recipient agency or organization within the State; the State official responsible for utilizing

such assistance; the manner in which such assistance is to be utilized; and any other information needed for a full understanding of the need for such requested assistance.

(2) The State shall provide assurance that technical assistance does not duplicate any existing State capability, any State or local effort funded by the Federal Government, or any Federal assistance provided under other authority.

(e) Nothing in these regulations shall be construed to prevent the States from obtaining appropriate technical assistance from other sources, including other Federal agencies under such agencies' own statutory or delegated authorities.

#### § 2205.79 Financial assistance.

(a) The Regional Director may provide the following financial assistance to the States, in accordance with the priorities specified in § 2205.75(b) of these regulations, upon written request by the Governor or his authorized representative:

(1) An initial development grant, not to exceed in the aggregate \$250,000, for the development of plans, programs, and capabilities for disaster preparedness and prevention, provided that such grant is applied for by May 22, 1975.

(2) An annual improvement grant of up to \$25,000 but not to exceed 50 percent of the cost of improving, maintaining, and updating State disaster assistance plans.

(b) Any financial assistance provided under Public Law 91-79 or Public Law 91-606 for these purposes shall not preclude assistance in the full amount authorized by Public Law 93-288 for further development of disaster preparedness plans, programs, and capabilities.

(c) Application for a development grant shall:

(1) Include a State work plan that sets forth a comprehensive and detailed program of work to develop adequate capability for preparation against and assistance following emergencies and major disasters, including provisions for assistance to individuals, businesses, and local governments.

(2) *Comment:* (See previous comments on similar terms.) Indicates the designated State agency or agencies that will be involved in the development effort and the State disaster preparedness coordinator appointed by the Governor.

(3) Include provisions for appointment and training of appropriate staffs, formulation of necessary regulations and procedures, and conduct of required exercises to ensure that the plans, programs and capabilities to be developed can be implemented.

(4) Describe the relationship of the proposed work with other disaster-related plans, programs, and capabilities under development.

(d) The following minimum requirements shall apply to financial assistance under section 201 of the Act in the development of the comprehensive and detailed State disaster preparedness program:

(1) A "State emergency plan" for implementation as required by section 301 (b) of the Act shall be developed.

(2) The State shall take into account the kinds of disasters to which it is most vulnerable and the particular requirements therefrom for disaster response and mitigation.

(3) State guidance and assistance shall be provided to local jurisdictions in the development of their disaster preparedness plans, programs, and capabilities.

(4) The State emergency plan shall incorporate appropriate policies and procedures pertaining to environmental clearance to assure State and local compliance with applicable Federal, State, and local laws and regulations.

(e) The development grant may apply to such preparedness programs and capabilities as:

(1) Planning for disaster response in general, for specific disaster contingencies in special locales, for local and area mutual emergency support under State sponsorship, and for disaster mitigation and hazard reduction.

(2) Revision, as necessary, of State legislation, implementing orders, regulations, and other authorities and assignments relevant to disaster preparedness and assistance.

(3) Disaster-related mutual aid compacts and agreements.

(4) Conduct of vulnerability analyses not otherwise available but necessary for the development of State and local disaster preparedness plans and programs.

(5) Design of disaster-related emergency systems.

(6) Training and exercises.

(7) Program reviews and postdisaster critiques.

(8) Public information and education programs.

(f) Federal funds provided to the State, or through the State to local government, under the provisions of section 201 of this Act may not be used to procure or repair equipment, materials, or facilities except that required for administration of the grant.

(g) The Regional Director may accept a letter from the Governor requesting grant assistance as meeting the applica-

## RULES AND REGULATIONS

tion time limit prescribed by the Act for a development grant.

(h) Work under a development grant shall be scheduled so that the entire effort specified can be completed within three years of approval of the formal application, unless special exception is approved by the Administrator.

(i) Application for an improvement grant shall include:

(1) The designated agency or agencies that will be involved in the improvement effort.

(2) A work plan setting forth those elements of the comprehensive and detailed program that are to be improved under this grant and any additional or subordinate plans to be developed for specific contingencies or disaster functions in accordance with the State's disaster preparedness program.

(j) A grant application may be amended at any time prior to the scheduled completion of work under the grant if warranted on the basis of new requirements, changes in Federal or State statutes or other legal authorities, or

other sufficient reason, provided such proposed modifications are mutually agreed upon by the Governor or his authorized representative and by the Regional Director.

(k) All grants under section 201 of the Act are subject to the appropriate provisions of Circular No. A-95, Federal and Federally assisted programs and projects: evaluation, review and coordination (revised November 13, 1973, and effective January 1, 1974), and GSA Federal Management Circulars No. 74-4, Cost principles applicable to grants and contracts with State and local governments (issued July 18, 1974), and No. 74-7 Uniform administrative requirements for grants-in-aid to State and local governments (issued September 13, 1974). In accordance with these requirements the following provisions shall also apply:

(1) Financial status and performance reports shall be made quarterly to the Regional Director.

(2) At the request of the State and with the approval of the Regional Direc-

tor, an advance of funds not to exceed the first 90 days' estimated operational expenses may be made.

(3) (i) State audits shall be made to determine, as a minimum, the fiscal integrity of financial transactions and reports, and the compliance with laws, regulations, and administrative requirements. The State shall schedule such audits with reasonable frequency, usually annually, but not less frequently than once every two years, considering the nature, size, and complexity of the activity. A final audit of the grant shall be conducted upon completion of all work presented in the State application, including amendments thereto.

(ii) Federal audits shall be scheduled as deemed necessary.

*Effective date.* These regulations shall be effective on May 28, 1975.

THOMAS P. DUNNE,  
Administrator, Federal Disaster  
Assistance Administration.

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

FEDERAL REGISTER, VOL. 40, NO. 104—THURSDAY, MAY 29, 1975

## HIGHLIGHTS—Continued

RENTAL LOCKBOXES—Postal Service issues regulations regarding special services; effective 5-29-75 23289

MOBILE HOMES—FTC proposal concerning sales and service; comments by 7-28-75 23334

### MEETINGS—

ARBA: American Revolution Bicentennial Advisory Council, 6-2-75 23359

CRC: California State Advisory Committee, 6-25 through 6-27-75 (2 documents) 23361

Colorado State Advisory Committee, 6-21-75 23361

New Jersey State Advisory Committee, 6-17-75 23362

Oklahoma State Advisory Committee, 6-14 and 6-15-75 23362

DOD: Defense Science Board Task Force on Surface Naval Warfare, 6-26 and 6-27-75 23341

NAVY: Professional Education Advisory Committee, 6-19 and 6-20-75 23341

ERDA: ERDA/NASA Information Meeting on the Development of the Very High Temperature Reactor (VHTR) for Process Heat Applications, 6-6-75 23365

FCC: Radio Technical Commission for Aeronautics, Special Committee, 6-18 and 6-19-75 23367

FEA: Retail Dealers Advisory Committee, 6-16-75 23367

NASA: Advisory Board on Aircraft Fuel Conservation Technology, 6-18-75 23382

NSF: Advisory Committee for Research Ad Hoc Task Group 13, 6-19 and 6-20-75 23382

USDA/ERS: National Cotton Marketing Study Committee, 7-8 and 7-9-75 23344

### CANCELLED MEETINGS—

CRC: Colorado State Advisory Committee, 6-14-75 23361

HEW/FDA: Surgical Drugs Advisory Committee, 6-9-75 23352

Title 8—Aliens and Nationality

CHAPTER I—IMMIGRATION AND NATURALIZATION SERVICE, DEPARTMENT OF JUSTICE

[Order No. 604-75]

PART 1—DEFINITIONS

PART 292—REPRESENTATION AND APPEARANCES

Representation and Appearance Before Immigration and Naturalization Service and Board of Immigration Appeals

On April 16, 1974, a notice of proposed rule making concerning representation of persons in proceedings before the Immigration and Naturalization Service and the Board of Immigration Appeals was published in the FEDERAL REGISTER, 39 FR 13659. Pursuant to that notice written comments of interested parties were submitted to the Chairman, Board of Immigration Appeals. All such comments have been considered. The existing regulations regarding representation and appearances are amended in the following major respects:

(1) Law students and law graduates not yet admitted to the bar may serve as representatives, under certain specified conditions, with the permission of the presiding official (8 CFR 292.1(a)(2));

(2) Specific criteria are provided for authorizing "reputable individuals" to serve as representatives (8 CFR 292.1(a)(3));

(3) A provisions requiring a licensed foreign attorney to obtain permission from the presiding official to serve as a representative is deleted, so that foreign attorneys will be on an equal footing

with attorneys in this country (8 CFR 292.1(a)(6); and

(4) Standards are established for accrediting recognition to organizations and for accrediting representatives (8 CFR 292.2).

1. Section 1.1 of 8 CFR Part 1 is amended by revising paragraphs (j) and (k) and adding a new paragraph (m) to read as follows:

§ 1.1 Definitions.

(j) The term "representative" refers to a person who is entitled to represent others as provided in § 292.1(a)(2), (3), (4), (5), (6), and § 292.1(b) of this chapter.

(k) The term "preparation," constituting practice, means the study of the facts of a case and the applicable laws, coupled with the giving of advice and auxiliary activities, including the incidental preparation of papers, but does not include the lawful functions of a notary public or service consisting solely of assistance in the completion of blank spaces on printed Service forms by one whose remuneration, if any, is nominal and who does not hold himself out as qualified in legal matters or in immigration and naturalization procedure.

(m) The term "representation" before the Board and the Service includes practice and preparation as defined in § 1.1(i) and (k).

2. Section 292.1 of 8 CFR Part 292 is revised to read as follows:

§ 292.1 Representation of others.

(a) A person entitled to representation may be represented by any of the following:

(1) Attorneys in the United States. Any attorney as defined in § 1.1(f) of this chapter.

(2) Law students and law graduates not yet admitted to the bar. A law student who is enrolled in the final year of an accredited law school or a law school graduate who is not yet admitted to the bar, provided that:

(i) He is appearing on an individual case basis, at the request of the person entitled to representation;

(ii) In the case of a law student, he has filed a statement that he is participating, under the direct supervision of a faculty member or an attorney, in a legal aid program or clinic conducted by the law school, and that he is appearing without direct or indirect remuneration; and

(iii) His appearance is permitted by the official before whom he wishes to appear (namely a special inquiry officer,

district director, officer-in-charge, regional commissioner, the Commissioner, or the Board), which official, in his opinion special circumstances warrant it, may require that a law student be accompanied by the supervising faculty member or attorney.

(3) Reputable individuals. Any reputable individual of good moral character, provided that:

(i) He is appearing on an individual case basis, at the request of the person entitled to representation;

(ii) He is appearing without direct or indirect remuneration and files a written declaration to that effect;

(iii) He has a pre-existing relationship or connection with the person entitled to representation (e.g., as a relative, neighbor, clergyman, business associate or personal friend), provided that such requirement may be waived, as a matter of administrative discretion, in cases where adequate representation would not otherwise be available; and

(iv) His appearance is permitted by the official before whom he wishes to appear (namely, a special inquiry officer, district director, officer-in-charge, regional commissioner, the Commissioner, or the Board), provided that such permission shall not be granted with respect to any individual who regularly engages in immigration and naturalization practice or preparation, or holds himself out to the public as qualified to do so.

(4) Accredited representatives. A person representing an organization described in § 292.2 of this chapter who has been accredited by the Board.

(5) Accredited officials. An accredited official, in the United States, of the government to which an alien owes allegiance, if the official appears solely in his official capacity and with the alien's consent.

(6) Attorneys outside the United States. An attorney other than one described in § 1.1(f) of this chapter, who does not maintain an office in the United States, who resides outside the United States and is licensed to practice law and in good standing in a court of general jurisdiction of the country in which he resides, and who is engaged in such practice.

(b) Persons formerly authorized to practice. A person, other than a representative of an organization described in § 292.2 of this chapter, who on December 23, 1952, was authorized to practice before the Board and the Service may continue to act as a representative, subject to the provisions of § 292.3 of this chapter.

(c) Former employees. No person previously employed by the Department of

Justice shall be permitted to act as a representative in any case in violation of the provisions of 28 CFR 45.735-7.

(d) *Amicus curiae*. The Board may grant permission to appear, on a case-by-case basis, as *amicus curiae*, to an attorney or to an organization represented by an attorney, if the public interest will be served thereby.

(e) Except as set forth in this section, no other person or persons shall represent others in any case.

3. The heading and text of § 292.2 of 8 CFR Part 292 are revised to read as follows:

§ 292.2 Organizations qualified for recognition; requests for recognition; withdrawal of recognition; accreditation of representatives; roster.

(a) *Qualifications of organizations*. A non-profit religious, charitable, social service, or similar organization established in the United States and recognized as such by the Board may designate a representative or representatives to practice before the Service and the Board. Such organization must establish to the satisfaction of the Board that:

(1) it makes only nominal charges and assesses no excessive membership dues for persons given assistance; and

(2) it has at its disposal adequate knowledge, information and experience.

(b) *Requests for recognition*. An organization having the qualifications prescribed in paragraph (a) of this section may file a request for recognition on Form G-27 with a district director, regional commissioner or the Commissioner for transmittal to the Board. The Service shall forward the request, along with recommendations for approval or disapproval and reasons therefor. The organization and the Service shall be informed of the action taken by the Board.

(c) *Withdrawal of recognition*. The Board may withdraw the recognition of any organization which has failed to maintain the qualifications required by § 292.2(a). Withdrawal of recognition may be accomplished in accordance with the following procedure:

(1) The Service, by the district director within whose jurisdiction the organization is located, may conduct an investigation into any organization it believes no longer meets the standards for recognition.

(2) If the investigation establishes to the satisfaction of the district director that withdrawal proceedings should be instituted, he shall cause a written statement of the grounds upon which withdrawal is sought to be served upon the organization, with notice to show cause why its recognition should not be withdrawn. The notice will call upon the organization to appear before a special inquiry officer for a hearing at a time and place stated, not less than 30 days after service of the notice.

(3) The special inquiry officer shall hold a hearing, receive evidence, make findings of fact, state his recommendations, and forward the complete record to the Board.

(4) The organization and the Service shall have the opportunity of appearing

at oral argument before the Board at a time specified by the Board.

(5) The Board shall consider the entire record and render its decision. The order of the Board shall constitute the final disposition of the proceedings.

(d) *Accreditation of representatives*. An organization recognized by the Board under paragraph (b) of this section may apply for accreditation of persons of good moral character as its accredited representatives. An application for accreditation shall state the nature and extent of the proposed representative's experience and knowledge of immigration and naturalization law and procedure. An application may be filed with a district director, regional commissioner or the Commissioner for transmittal to the Board. The Service shall forward the application along with recommendations for approval or disapproval and reasons therefor. No individual may submit an application on his own behalf under this paragraph. The Board shall provide the organization with a copy of any adverse recommendation by the Service, with opportunity for rebuttal. The organization and the Service shall be advised of the action taken by the Board.

The accreditation of a representative shall be valid for three years only. Renewal may be sought by making application in the same manner as for an initial accreditation. Accreditation terminates when the Board's recognition of the organization ceases for any reason or when the representative's employment or other connection with the organization ceases. The organization shall promptly notify the Board of such changes. Renewal applications shall be due for those who are accredited on May 29, 1975 as follows: For those accredited prior to January 1, 1974, no later than May 29, 1976, and for those accredited on or after January 1, 1974, no later than May 29, 1977. The application should be filed at least 30 days before the anniversary of the Board's notification to the organization that the individual had been accredited.

(e) *Roster*. The Board shall maintain an alphabetical roster of recognized organizations and their accredited representatives. A copy of the roster shall be furnished to the Commissioner and he shall be advised from time to time of changes therein.

(Secs. 103, 292, 68 Stat. 173, 235; (8 U.S.C. 1103, 1362)).

Dated: May 22, 1975.

EDWARD H. LEVI,  
Attorney General.

[FR Doc.75-13960 Filed 5-28-75; 8:45 am]

# Title 10—Energy CHAPTER II—FEDERAL ENERGY ADMINISTRATION

[Ruling 1975-6]

## NATURAL GAS LIQUID PRODUCTS Pricing Prior to January 1, 1975

On December 20, 1974, FEA issued a new Subpart K to 10 CFR, Part 212, the Mandatory Petroleum Price Regulations,

effective January 1, 1975. Subpart K provides regulations designed specifically to cover the pricing of natural gas liquids and natural gas liquid products (propane, butane, and natural gasoline). The pricing of these items was, until December 31, 1974, subject to Subpart E of the FEA price regulations, which applied generally to "refiners," a term defined in 10 CFR 212.31 to include a firm that "refines liquid hydrocarbons from oil and gas field gases." Both refiners of crude oil and of natural gas and natural gas liquids are included within this definition. The new Subpart K was adopted to provide a set of price rules tailored to the purpose of regulating the prices charged for liquid products produced from natural gas, since the process of extracting liquid hydrocarbon products from natural gas differs in significant respects from the process of refining such products from crude oil.

In adopting the new Subpart K regulations, the FEA intended to accomplish three basic objectives: first, to provide a specific method by which maximum lawful prices for natural gas liquid products shall be computed, including a method by which increased product costs may be passed through in prices charged for products; second, to provide a method by which those entities whose May 15, 1973 selling prices for natural gas liquid products were abnormally low could adjust their prices to reflect more closely industry-wide average prices for those products on that date; and third, to provide a method by which refiners may pass through increased non-product costs attributable to gas plant operations.

To accomplish the first of these objectives, FEA provided for the passthrough of increased product costs associated with obtaining natural gas liquids and liquid products, expressly including increased costs of natural gas shrinkage, in a manner analogous to that provided in Subpart E of the FEA regulations for the passthrough of increased product costs. The reason for implementation of this method of increased cost passthrough was, in part, to provide a specific method by which the increased costs of raw materials associated with gas processing may be recovered in the prices charged for products that is basically equivalent to the method by which the increased costs of raw materials associated with crude oil refining may be recovered in prices charged for products. For processors of natural gas, the equivalent of increased product cost is the increase in the cost of "shrinkage" which occurs in the natural gas stream as a result of the extraction of natural gas liquids. The refiner's price rules of Subpart E, which applied to prices charged for natural gas liquid products until December 31, 1974, provided for the passthrough of increased product costs, but did not expressly indicate that sellers of natural gas liquids and liquid products could recover increased natural gas "shrinkage" costs as increased product costs, in prices charged for processed products.

To accomplish the second objective, FEA provided in Subpart K for the use

of adjusted May 15, 1973 prices by those firms that had May 15, 1973 selling prices for natural gas liquid products that were below average.

To accomplish the third objective, FEA included in Subpart K a provision for the passthrough, in prices charged for processed products, of actual increases in non-product costs attributable to gas plant operations, subject to a maximum limitation of \$.005 per gallon.

The changes in the regulations effected by Subpart K were prospective. The FEA has concluded, however, that the basic issues which the Subpart was intended to resolve have been in existence since the inception of FEA regulations, and that, insofar as practicable, they need to be resolved with respect to the period prior to January 1, 1975, during which Subpart E applied to the pricing of natural gas liquid products, particularly in view of the fact that FEA compliance actions, as well as private rights, remain dependent in large measure upon the application and interpretation of Subpart E to natural gas liquid product price determinations.

FEA is therefore issuing this ruling to make clear that increased costs of natural gas shrinkage could be passed through as increased product costs pursuant to the provisions of Subpart E, and, generally, to more clearly describe the application of the price rules of Subpart E in determining natural gas liquid product prices, before Subpart K became effective on January 1, 1975.

Also, since there were no provisions in Subpart E for use of adjusted May 15, 1973 prices by those firms that had lower than average prices on that date, and since the atypical pricing patterns of May 15, 1973, which are permitted to be adjusted by Subpart K, have affected firms since before the effective date of Subpart K, the FEA is proposing, concurrently with the issuance of this ruling, a class exception to permit the adjusted May 15, 1973 prices of Subpart K to be applied retroactively. The exception proposal also contains provisions to afford passthrough of actual non-product cost increases incurred prior to January 1, 1975, subject to a specific per gallon limitation.

*Facts:* Firms A, B and C are "refiners," as defined in 10 CFR 212.31, which process natural gas or natural gas liquids and recover natural gas liquid products (propane, butane and natural gasoline), which they sell. During 1974, Firms A, B and C obtained natural gas or natural gas liquids for processing in their plants under three different arrangements:

(1) Firm A purchased a mixed stream of natural gas liquids at a fixed price per gallon from Firm X, a firm which had extracted the natural gas liquids from natural gas. Firm A fractionated the mixed stream of natural gas liquids and sold the resulting natural gas liquid products;

On May 15, 1973, Firm A purchased the mixed stream of natural gas liquids from Firm X at a rate of 6 cents per gallon for the propane content, 6.5 cents per gallon for the butane content, and 8.5 cents per

gallon for the natural gasoline content. During November 1974, Firm A purchased the mixed stream of natural gas liquids at a lawful rate of 8 cents per gallon for the propane content, 8.5 cents per gallon for the butane content, and 10.5 cents per gallon for the natural gasoline content.

(2) Firm B purchased "wet" natural gas under a "net back" contract arrangement with Firm Y, a natural gas producer. Title to the "wet" natural gas passed to Firm B at the wellhead, and Firm B transported the gas to its gas plant, where the natural gas liquids were extracted and fractionated into natural gas liquid products. Both the natural gas liquid products and the residue gas were sold by Firm B, subject to the "net back" arrangement with Firm Y. Firms B and Y shared in the proceeds from the sale of the natural gas liquid products and from the sale of the residue gas on a percentage basis. On May 15, 1973, Firm B sold its residue gas at a rate of 23 cents per MCF, and in November, 1974, it sold the residue gas at a rate of \$1.50 per MCF; and

(3) Firm C produced and processed "wet" natural gas in its plants to extract natural gas liquids and to fractionate those liquids into natural gas liquid products. Firm C sold the natural gas liquid products and the residue gas. On May 15, 1973, Firm C sold its residue gas at a rate of 22.3 cents per million BTU's and in November, 1974 it sold the residue gas at a rate of \$1.45 per million BTU's.

On May 15, 1973, Firms A, B and C all sold the natural gas liquid products from their gas plants to Firm M, a distributor and marketer of natural gas liquid products, at 7.5 cents per gallon for propane, 8 cents per gallon for butane, and 10 cents per gallon for natural gasoline.

*Issue:* For months prior to January 1975, how should Firms A, B and C have computed the amount of increased product costs which were available for recovery in the base prices of their natural gas liquid products pursuant to § 212.83?

*Ruling:* It is an underlying principle of all of FEA pricing regulations that refiners, resellers and retailers of crude oil and petroleum products be permitted to recover increases in their product costs on a dollar-for-dollar basis in the prices permitted to be charged. Section 4(b) (2) (A) of the Emergency Petroleum Allocation Act of 1973 generally provides that recovery of increased product costs be permitted on a dollar-for-dollar basis.

Thus, for example, in implementing this principle, the "base price" for products sold by a refiner under FEA's pricing regulations (and before that under the Cost of Living Council's regulations) has been defined by the following general rule:

The base price for sales of an item by a refiner is the weighted average price at which the item was lawfully priced in transactions with the class of purchaser concerned on May 15, 1973, plus increased product costs incurred between the month of measurement and the month of May 1973 and measured pursuant to the provisions of § 212.83.

Section 212.83(b) of the FEA regulations (which is identical to the corre-

sponding section of the predecessor CLC regulations in Title 8 of C.F.R.) includes within the definition of "increased product costs" for products refined and sold by a refiner, "the difference between the total costs of crude petroleum during the month of measurement and the total cost of crude petroleum during the month of May 1973. . . ." Methods for computing this difference and allowing it to be passed through on a dollar-for-dollar basis are described in the refiner's cost formulae contained in § 212.83(c).

Although Subpart E of Part 212 of FEA's regulations specifically address only the passthrough of the increased cost of crude petroleum and petroleum product, a comparable dollar-for-dollar passthrough of increased shrinkage costs is also permitted for the reasons stated above. A dollar-for-dollar passthrough of all increased product costs may therefore be achieved by firms A, B and C in the foregoing fact situations as follows:

Firm A. Firm A is entitled to increase its May 15, 1973 selling price for its natural gas liquid products in the month following the month of measurement to reflect increased costs of the mixed gas liquid stream which it purchased for processing during the month of measurement. Since Firm A purchases its mixed stream at a fixed price per gallon, its increased product costs under § 212.83 are equal to the difference between the per gallon cost of the mixed stream on May 15, 1973 and the per gallon cost during the month of measurement multiplied by the number of gallons purchased by Firm A during the month of measurement.

Firm B. In many instances in which natural gas is processed pursuant to "net back" arrangements, such as that between Firms B and Y, the equivalent of increased product costs incurred by crude oil refiners is the increased cost of natural gas shrinkage. That is, an increase in the amount by which the value of the unprocessed natural gas is reduced through processing. This reduction in value is often referred to as the cost of natural gas "shrinkage." The cost of such shrinkage is the reduction in sales revenues that could otherwise have been received for the natural gas pursuant to the contract under which the gas is being sold, if its volume or BTU content had not been reduced through processing to extract natural gas liquids.

Accordingly, where the natural gas sales revenues are reduced by processing, and where the selling price of the natural gas that has been processed has increased since May 15, 1973, the cost of shrinkage resulting from extraction of the liquids will also have increased. The FEA considers this increased shrinkage to be an "increased product cost" under § 212.83 and it may therefore be recovered on a dollar-for-dollar basis in Firm B's base prices for natural gas liquid products in the month following the month of measurement.

The cost of shrinkage shall be determined by comparing the value of the natural gas prior to processing with the value of the natural gas after processing. The value of the natural gas stream for

this purpose shall be computed by reference to the contractual terms in effect for the sale of Firm B's "residue" natural gas during the relevant month. For example, since the sale of residue gas by Firm B was made on a volumetric basis, shrinkage costs incurred by Firm B as a result of extraction from the gas stream must be calculated on a volumetric basis. On the other hand, if Firm B sold its residue gas on a \$/MMBTU basis during the relevant month, its shrinkage costs would be determined on the same basis. Any increase in the cost of shrinkage shall be determined by comparing the cost of shrinkage respecting a particular stream during the month of May, 1973, with the cost of shrinkage during the month of measurement.

Since there is no sale of the natural gas liquid products and the residue gas under the "net-back" arrangement for which a per-unit price can be determined until after the gas has been processed, the increased cost of shrinkage is calculated with respect to residue gas sold in the month of measurement and is then applied in the month following the month of measurement to the May 15, 1973 selling price of the natural gas liquid products with the proceeds from these sales by Firm B apportioned between Firm B and Firm Y as provided by the "net-back" agreement.

Firm C. Firm C also incurs "shrinkage" costs when it removes natural gas liquids from its natural gas stream since the revenues received for its natural gas stream are thereby reduced. Firm C is therefore entitled to recover its shrinkage costs on a dollar-for-dollar basis under § 212.83 in the same manner as Firm B, above.

ROBERT E. MONTGOMERY, Jr.,  
General Counsel,  
Federal Energy Administration.

**Title 12—Banks and Banking**  
**CHAPTER III—FEDERAL DEPOSIT**  
**INSURANCE CORPORATION**  
**SUBCHAPTER B—REGULATIONS AND**  
**STATEMENTS OF GENERAL POLICY**  
**PART 329—INTEREST ON DEPOSITS**

**Elimination of Penalty Provisions for Withdrawal of Time Deposits Before Maturity Upon Death of Depositor**

On April 4, 1975 the Board of Directors of the Federal Deposit Insurance Corporation adopted a proposed amendment to § 329.4(d) of the FDIC's rules and regulations (12 CFR 329.4(d)). The proposed amendment would permit insured nonmember banks to pay time deposits before maturity, without imposing a penalty therefor, in certain cases where the depositor has died. The proposed amendment was published as a notice of proposed rulemaking in the *FEDERAL REGISTER* of April 10, 1975 (40 FR 16219-20). Interested persons were given until May 16, 1975 to submit written data,

views or arguments on the proposed amendment.

After considering all comments submitted to the FDIC, the Board of Directors has decided to adopt the proposed amendment without change as set forth below. Since the amendment relieves a present restriction, its effective date will not be delayed for 30 days following publication.

**Effective date.** The amendment to § 329.4(d) shall be effective May 26, 1975.

By order of the Board of Directors,  
May 23, 1975.

FEDERAL DEPOSIT INSURANCE  
CORPORATION,  
[SEAL] ALAN R. MILLER,  
Executive Secretary.

Section 329.4(d) is amended by adding a new sentence at the end thereof as follows:

§ 329.4 Payment of time deposits before maturity.

(d) *Penalty on payment of time deposits before maturity.* . . . *Provided*, that the penalty prescribed by this paragraph (d) shall not apply to the withdrawal of all or any portion of a time deposit before the maturity thereof upon the death of an individual depositor who, at the time of his death, is the sole legal and beneficial owner of such deposit.

[Airspace Docket No. 74-NW-26]

**PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS**

**Alteration of Control Zone**

On March 21, 1975, a notice of proposed rule making was published in the *FEDERAL REGISTER* (40 FR 12810) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Boise, Idaho, Control Zone.

Interested persons were given 30 days in which to submit written data, views, or arguments. No objections were received.

In consideration of the foregoing, the amendment is hereby adopted without change.

**Effective date:** This amendment shall be effective 0901 G.m.t., August 14, 1975.

This amendment is issued under the authority of sec. 307(a) of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Seattle, Washington, on May 12, 1975.

C. B. WALK, Jr.,  
Director, Northwest Region.

**§ 71.171 [Amended]**

In § 71.171 (40 FR 354) the description of the Boise, Idaho Control Zone is amended to read as follows:

**BOISE, IDAHO**

Within a 5-mile radius of the Boise Air Terminal (Latitude 43°33'55" N., Longitude 116°13'30" W.); within 2 miles each side of the Boise VORTAC 304° radial, extending from the 5-mile radius zone to 12 miles northwest of the VORTAC; within 2 miles each side of the Boise VORTAC 319° radial, extending from the 5-mile radius zone to 12 miles northwest of the VORTAC; within 5 miles each side of the Boise VORTAC 114° radial, extending from the 5-mile radius area to 12 miles southeast of the VORTAC; and within 2 miles west and 5 miles east of the Boise VORTAC 179° radial extending from the 5-mile radius area to 7 miles south of the VORTAC.

**Title 15—Commerce and Foreign Trade**

**CHAPTER IX—NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE**

**PART 927—COASTAL ZONE MANAGEMENT PROGRAM, ADMINISTRATIVE GRANTS, ALLOCATION OF SECTION 306 FUNDS TO STATES**

**Interim Regulations**

Notice is hereby given of the establishment of interim regulations regarding allocation of coastal zone management program administrative grants to State governments pursuant to section 306(a) of the Coastal Zone Management Act of 1972 (Pub. L. 92-583; 86 Stat. 1280).

Under section 306 of the Act, the Secretary of Commerce is authorized to make annual grants to any coastal State for the purpose of administering the State's coastal zone management program if he approves such program in accordance with section 306 of the Act. Such grants shall not exceed 66⅔ percent of the costs of administering the program in any one year. Federal funds received from other sources shall not be used to pay the State's share of costs. No annual administrative grants made under section 306 shall exceed \$2,000,000 for fiscal year 1975, \$2,500,000 for fiscal year 1976, or \$3,000,000 for fiscal year 1977. In addition, no such grant may be awarded for less than one percent of the amount so appropriated, except upon a request of a waiver of such provision by a coastal State.

Section 306(b) states in part:

Such grants shall be allocated to the States with approved programs based on rules and regulations promulgated by the Secretary which shall take into account the extent and nature of the shoreline and area of the plan, population of the area and other relevant factors . . .

The interim regulations set forth below establish the procedure for allocating funds under section 306 to the coastal States and are intended to fulfill the above requirements of section 306(b). Such interim regulations are intended for allocation of funds made available for grants under section 306 in Fiscal

Year 1975 only. Allocation to States of such grant funds in subsequent fiscal years may reflect changes in these regulations; such changes, if made, will be duly published.

Comments upon these regulations are invited through June 30, 1975. Comments should be addressed to the Administrator, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, Washington, D.C. 20230. Following the close of this 30 day period any comments received will be reviewed. In the discretion of the Administrator, these interim regulations will be amended so as to reflect any such comments. The Administrator shall then publish final regulations in the *FEDERAL REGISTER*. As authorized by USC section 553(d) (3), these interim regulations are effective in order to allocate such funds to the States until final regulations become effective.

Part 927 is added as set forth below:

Sec.  
927.1 Purpose of rules and regulations.  
927.2 Basis of allocation.  
927.3 Allocation of non-distributed funds.  
927.4 Duration of allocation.

**AUTHORITY:** Pub. L. 92-583; 86 Stat. 1280.

**§ 927.1 Purpose of rules and regulations.**

Twelve million dollars has been appropriated by the Congress for Fiscal Year 1975 to implement the Coastal Zone Management Act of 1972 (Pub. L. 92-583; 86 Stat. 1280). Of this amount, \$2.1 million has been made available for coastal zone management program administrative grants-in-aid to those coastal States and territories which have had coastal zone management programs approved by the Secretary of Commerce, pursuant to section 306(b) of the Act. It is the purpose of this part to establish the rules and regulations for allocation of grant-in-aid funds under section 306 of the Coastal Zone Management Act of 1972 pursuant to the requirements of section 306(b) which states:

Such grants shall be allocated to the states with approved program based on rules and regulations promulgated by the Secretary which shall take into account the extent and nature of the shoreline and area covered by the plan, population of the area, and other relevant factors: **PROVIDED**, That no annual grant made under this section shall be in excess of \$2,000,000 for Fiscal Year 1975, in excess of \$2,500,000 for Fiscal Year 1976, nor in excess of \$3,000,000 for Fiscal Year 1977: **Provided further**, That no annual grant made under this section shall be less than 1 per centum of the total amount appropriated to carry out the purposes of this section: **And provided further**, That the Secretary shall waive the application of the 1 per centum minimum requirement as to any grant under this section, when the coastal State involved requests such a waiver.

**§ 927.2 Basis of allocation.**

Coastal zone management program administrative grants under Section 306 may be awarded only to States whose

coastal zone management programs have been approved by the Secretary of Commerce, pursuant to requirements and standards set forth in various sections of the Act and subsequent administrative rules and regulations (see 15 CFR Part 923). To date, no coastal State has received such approval. NOAA's Office of Coastal Zone Management (OCZM), which has responsibility for administering the Act, has determined that a limited number of States are in a position to request such approval for all or a segment of their coastal zone, and further that, of this number, a maximum of two programs can be processed and approved in Fiscal Year 1975. Thus, with the prospect of approving only two, one, or no such management programs in Fiscal Year 1975, there does not appear to be a reasonable rationale for developing a formula allocation of section 306 administrative grant funds to all coastal States, to all States likely to apply for approval, or to those States actually applying. Therefore, for Fiscal Year 1975 only, OCZM will review applications from States with approved programs or which are deemed likely to receive such approval within that fiscal year, and will award administrative grants to States actually receiving approval in the fiscal year in amounts which take into account and bear reasonable relationship to the extent and nature of the shoreline and area covered by the plan, population of the area, and other relevant factors.

**§ 927.3 Allocation of non-distributed funds.**

Funds appropriated in order to make coastal zone management program administrative grants under section 306 remain available until expended, pursuant to section 315(a)(2) of the Act. Such funds not obligated during Fiscal Year 1975 will be carried over into Fiscal Year 1976 and added to such funds appropriated for that year.

**§ 927.4 Duration of allocation.**

The allocations as contained herein are published for the distribution of coastal zone management program administrative grants during Fiscal Year 1975, which is the first year for which these funds are available. Assessments regarding the relative needs of States for such grants may lead to alterations in the method of allocation for fiscal years subsequent to Fiscal Year 1975. Such revisions will be duly published.

ROBERT L. CARNAHAN,  
Deputy Assistant Administrator  
for Administration.

[FR Doc. 75-14056 Filed 5-28-75; 8:45 am]

**PART 928—COASTAL ZONE MANAGEMENT PROGRAM DEVELOPMENT GRANTS, OUTER CONTINENTAL SHELF Supplemental Appropriation, Allocation of Funds to States, Interim Regulations**

The National Oceanic and Atmospheric Administration (NOAA) on November 29, 1973, published final guidelines pursuant to section 305 of the

Coastal Zone Management Act of 1972 (Pub. L. 92-583, 86 Stat. 1280), hereinafter referred to as the "Act," for the purposes of defining the procedures by which States can qualify to receive development grants under section 305 of the Act and policies for development of the management program.

The Act recognizes that the coastal zone is rich in a variety of natural, commercial, recreational, industrial, and esthetic resources of the immediate and potential value to the present and future well-being of the Nation. Present State and institutional arrangements for planning and regulation of land and water uses in the coastal zone are often inadequate to deal with the competing demands and the urgent need to protect natural systems in the ecologically fragile area. Section 305 of the Act authorizes annual grants to any coastal state for the purpose of assisting the State in the development of a management program for the land and water resources of its coastal zone (development grant).

Once a coastal State has developed a management program it is submitted to the Secretary of Commerce for approval and, if approved, the State is then eligible, under section 306, to receive annual grants for administering its management program (administrative grants).

The guidelines contained in this part are for the allocation of funds to States based on a supplemental appropriation to section 305 of the Act. The reasons for the supplemental appropriation and its allocation to the States are set forth below.

There are published herewith interim regulations relating to the allocation of funds to States on the basis of the supplemental appropriation formula set forth below.

Comments upon these regulations are invited through June 30, 1975. Comments should be addressed to the Administrator, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, Washington, D.C. 20230. Following June 30, 1975, any comments received will be reviewed. In the discretion of the Administrator, these interim regulations will be amended so as to reflect any such comments. The Administrator shall then publish final regulations in the *FEDERAL REGISTER*. As authorized by 5 USC 553(d) (3), these interim regulations are effective in order to allocate such funds to the States until final regulations become effective.

Sec.  
928.1 Background.  
928.2 Administration proposal.  
928.3 Intent of guidance.  
928.4 Purpose of supplemental funding.  
928.5 Nature of onshore impacts.  
928.6 Regional approach.  
928.7 Local governments.  
928.8 Specific use of funds.  
928.9 Miscellaneous.  
928.10 Allocation of funds.

**AUTHORITY:** Pub. L. 92-583, 86 Stat. 1280.

## § 928.1 Background.

(a) Current plans by the Department of the Interior call for the leasing of extensive tracts of offshore seabed on the Outer Continental Shelf (OCS) over the next few years for the purpose of oil and gas extraction, in order to increase domestic energy production and diminish reliance upon foreign energy sources.

(b) Certain onshore areas of the coastal States lying adjacent to these tracts will be looked upon as potential staging points for offshore operations, as land-side terminal points for the transmission and storage of oil and gas, and as possible locations for refineries, industrial processing plants and electrical generating facilities. The coastal States are especially concerned that inadequate opportunity may exist for OCS and localities to plan for the onshore physical, social and economic impacts of OCS leasing and oil and gas production.

## § 928.2 Administration proposal.

(a) On November 13, 1974, President Ford announced to a meeting of coastal State governors a number of actions designed to ameliorate the concerns expressed by coastal States. Among these actions was the decision to request an additional \$3 million for FY 1975 for program development grants to coastal States under Section 305 of the Coastal Zone Management Act.

(b) While the President did not postpone the leasing of OCS tracts until State coastal zone management programs are completed, he pointed out that States will want to utilize the time between leasing and actual production to prepare for the shoreside impact of such activity, and that States would be asked to participate in the tract selection process. The \$3 million supplemental appropriation requests intended "to facilitate coastal State participation in this effort" and to accelerate State planning efforts. The President's FY 76 budget request to Congress also reflects this additional level of funding.

## § 928.3 Intent of guidance.

(a) The intent of this document is (1) to identify the purposes for which States may apply for grants awarded under this supplemental appropriation, when and if made, (2) to indicate how work elements so funded should be integrated into the ongoing development of State coastal zone management programs, and (3) to specify the method of allocating funds which may be thus available to the coastal States.

## § 928.4 Purpose of supplemental funding.

(a) The central focus of grants made under this supplemental appropriation shall be to improve State capabilities to plan for and manage the projected or potential impacts induced by Federal actions leading to or resulting from OCS production. A central objective should be to integrate such planning and management activities into the development of an approvable State coastal zone management program.

(b) Activities to be funded by these grants should fulfill the following general purposes:

(1) To determine the probable physical, social and economic effects of OCS leasing, exploration, production, and eventual shut-down on a State's coastal zone.

(2) Where those effects could include or lead to the establishment of land or water uses which have a direct and significant impact upon coastal waters, to make appropriate plans to take into account these effects and include them within the terms of the State's management program.

(3) To provide policy guidance and advice, based upon (1) and (2) above, to the State's governor and legislature.

## § 928.5 Nature of onshore impacts.

(a) In attempting to evaluate not only the environmental impacts on coastal areas resulting from OCS activities but the social and economic effects as well, it may be useful to divide them into the following categories.

(1) *Malfunctioning of the oil and gas production system.* Oil spills (accidental or chronic), blowouts, fires and other catastrophic events are major concerns in the minds of citizens of coastal areas. While they are obviously rare occurrences, States may wish to integrate planning for such contingencies into the development of their coastal zone management programs. It is not anticipated, however, that such planning activities will represent a significant portion of a grant under this supplemental, particularly in view of the limited amount of funding available, and work now being carried out by the Coast Guard.

(2) *Onshore activities and facilities which are required to service the construction of and production from OCS oil and gas facilities.* These would include oil platform fabrication sites, boat docks, storage yards, pipeline corridors, pumping stations, tank farms, intermodal transfer facilities and onshore pipelines, for example.

(3) *Onshore activities and facilities which are located in the coastal zone in order to take advantage of the availability of oil and gas produced from the OCS* either as raw material or as a source of energy. These would include oil refineries, petrochemical processing facilities, and electrical generating plants, for example.

(4) *Onshore activities and facilities whose presence has been induced by (a)*

(2) and (3) of this section. These would include incremental additions to community facilities such as roads, sewers, schools, housing and transit facilities as well as to public services. The actual sites these facilities may occupy in the coastal zone will result from locational decisions influenced by both economic considerations of the private market and restraints exerted by Federal, State and local governments. The resulting pattern of facilities across the coastal zone will thus be irregular, and often very localized depending upon the economic requirements and physical characteristics of each facility. Some communities

may be likely to undergo disruptions, the severity of which will vary according to the size of the facilities and their relationship to existing development. Others, while not directly impacted, may nonetheless experience change as a result of activities in neighboring communities. Still others, perhaps the vast majority, may not be affected in any significant manner.

(b) Some impacts will be viewed as beneficial, others as adverse. These perceptions may be colored by the particular perspectives of various levels of government or the private sector. What are positive benefits to some may be negative to others. Also in some cases, the impact may be adverse at first and beneficial later, or vice versa. Examples of these impacts include:

(1) *Beneficial.*

(i) More jobs and lower unemployment;

(ii) Increased personal and corporate income;

(iii) Increased tax base;

(iv) Better job opportunities and mobility.

(2) *Adverse.*

(i) Additional costs of community infrastructure;

(ii) Potential oil pollution;

(iii) Environmental and esthetic damage;

(iv) Changes in the social and culture fabric of the community;

(v) Decline in traditional employment.

## § 928.6 Regional approach.

(a) Some offshore lease sale sites will induce onshore development in only one State, while others will affect a number of States adjacent to the site. Some States will welcome OCS development for what they perceive to be beneficial onshore impacts, while others will oppose it for the adverse effects. The "national interest" clause (section 306(c) (8)) of the Act is interpreted as meaning that States may not arbitrarily exclude or restrict the siting of facilities deemed to be of greater than statewide significance. In locations where regional groupings of States are likely to be affected, it is important that one State not be called upon to bear the entire regional burden of such facilities, nor should it expect to receive all of the benefits of such development. Siting decisions in such cases should be taken in the context of a broad regional approach which assesses both economic and social needs, environmental considerations and public desires in the affected States. The mechanisms for making such decisions in the coastal zone should be an integral part of the development or implementation of each State's coastal zone management program.

(b) Thus, where more than one State will be directly impacted as the result of the leasing of and production from OCS tracts, as will almost certainly be the case in New England, and the Mid and South Atlantic regions, it would be beneficial if all of the affected States were to be involved in cooperative re-

gional studies, which the individual States can then utilize to integrate OCS-related impacts into their State's coastal zone management program. The nature of these regional studies and the manner of carrying them out shall be left to the States involved. No specific regional organizations or cooperative mechanisms shall be prescribed by OCZM, but clearly where such an entity is used, it should have the capacity to undertake the work contemplated and sufficient credibility throughout the region to assure public acceptance.

(c) While the regional interstate approach described here is desirable and strongly recommended, it is not mandatory. States within a region affected by OCS activities may choose not to utilize funds for regional studies, reserving them for developing an individual State response to OCS-related impacts and integrating them into the State's management program.

## § 928.7 Local governments.

Because of the nature of the potential onshore impacts, it is likely that local governments will need to be heavily involved in State planning activities. Whereas the aggregate impact on State government may be fairly nominal, the economies of individual communities and counties may undergo severe fluctuations and dislocations. Thus, it will be important that the planning of State and local governments be closely integrated and coordinated, and that local governments be provided, to the extent practicable and appropriate, with funds from these grants for such coordinated management program development.

## § 928.8 Specific use of funds.

(a) It is not the intent of OCZM to mandate the specific work elements to be funded under this appropriation. Each State should develop its own work program to fit both its own needs and the general purposes of the funding. It may prove helpful to States, however, to provide some examples of work which is considered eligible, as follows:

(b) Inventories and analyses. (1) Specialized surveys of coastal resources, public and private facilities and services and land and water uses, of a nature specific to OCS-induced impacts and of a detail not normally required for management program development.

(2) Existing oil and gas distribution and processing systems;

(3) Locational aspects of existing land use and air and water pollution controls;

(4) Compilation of data on existing levels, types of employment, income, skills;

(5) Projections of physical, economic, social conditions in the absence of OCS development;

(6) Surveys of public sentiment.

(c) Required facilities and anticipated impact. (1) Formulation of assumptions on location and quantity of OCS oil and gas;

(2) requirements onshore to service OCS exploration, construction, production and shutdown;

(3) alternative patterns and timing of facilities to fulfill such requirements;

(4) environmental and socio-economic impacts of alternative siting options, at State, interstate and local levels;

(5) analyses of impacts and timing of additional induced growth at various levels;

(6) determination and distribution of costs to State and local governments of onshore impacts;

(d) Integration of coastal zone planning and OCS impacts: (1) Studies of carrying capacity and suitability of specific uses;

(2) Detailed analysis of areas of particular concern;

(3) Establishment of siting criteria;

(4) Identification of appropriate and inappropriate sites and conditions;

(5) Formulation of controls on siting and operation;

(6) Establishment of timetable for completion of management program and coordination with OCS field production plan;

(7) Establishment of management system for monitoring and altering plans as new or changing impacts as perceived.

(e) Policy guidance for governor and legislature: (1) Interpretation of detailed studies for popular consumption;

(2) Formulation of State strategy for dealing with OCS issues.

## § 928.9 Miscellaneous.

(a) With the exception of the items noted above, the procedures and regulations applying to section 305 program development grants, including A-95 project notification and review, shall also apply to funds under this appropriation. States may apply for supplemental funds either as a part of the regular application for section 305 grants or in a separate request, depending upon their own timetable. Unless modified by Congressional action, the statutory requirement of a one-third State matching share continues to apply.

(b) Funds received by the States may also be passed through to interstate bodies for regional studies, to local governments, to areawide planning agencies, to other State agencies, to universities or other such institutions, or to private or non-profit contractors.

## § 928.10 Allocation of funds.

(a) Funds available from appropriations in FY 1975 will be allocated to all coastal States considered to be impacted by OCS oil and gas development on the same general formula as earlier grants made under Section 305. That is, each grant made under the supplemental would be allocated funds on the following basis:

(1) *Uniform allocation:* Each affected State will be allocated 1% of the funds available (presumably \$30,000 for FY 1975).

(2) *Variable allocation:* Of the amount available after distribution of the uniform allocation,

(i) 40 percent will be distributed to affected States, based upon the ratio of any given State's marine shoreline to the

total of marine shorelines of affected States

(ii) 40 percent will be distributed to affected States, based upon the ratio of any given State's coastal population in marine coastal counties (the same counties, excluding those not on marine shorelines, earlier identified for allocation purposes) to the total population in marine coastal counties of affected States

(iii) 20 percent will be distributed on the basis of identified needs. Examples of such needs may include, but are not limited to:

(A) States which have chosen to participate with other States similarly impacted by development of the same offshore field in studies, inventories or analyses of regional needs and resources.

(B) States being impacted by OCS development for the first time (i.e., so-called "frontier" areas) and which have not had experience in dealing with these or similar issues.

(C) States where OCS-induced impacts will be felt earliest as a result of current leasing and production timetables.

(D) States where special physical, ecological, demographic or social conditions obtain to the extent that distribution of funds by the formula above creates obvious inequities.

(b) All impacted States are eligible to apply for funds appropriated for FY 1975. However, States will be limited to three grants under appropriations made for this purpose; States adjacent to fields scheduled for leasing in later years should be aware of this limitation and plan the development of work under the supplemental accordingly.

(c) Funds not obligated by the end of FY 1975 (June 30, 1975) will remain available. States thus should attempt to develop the strongest possible work program and not feel bound by time constraints imposed by the short time between the data of appropriations and the end of the fiscal year. Later in FY 1976, States which have not submitted application for such FY 1975 funds will be asked if and when they intend to apply. Funding of any given State under this supplemental will depend, of course, upon approval of a satisfactory application for such funds which carries out the terms of the Coastal Zone Management Act of 1972, and its associated regulations, including the guidance set forth herein.

(d) It is recognized that a number of States may have their coastal zone management programs approved by the Secretary of Commerce during the period for which the State may be receiving OCS supplemental grants. At present, the supplemental applies only to section 305 program development grants and program approval under the current statute would make the State ineligible for further section 305 grants.

(e) Basic allocations to States from the FY 1975 supplemental (rounded to the nearest \$1,000) without any distribution on the basis of need are indicated below. Also displayed are regional totals for groupings of States likely to be impacted by leasing and development of the

same field. Data and computations by which these allocations were determined are on file and questions should be directed to OCZM.

Impacted States:	Basic Allocation (nearest \$1,000; excluding needs)
Alabama	\$42,000
Alaska	300,000
California	300,000
Connecticut	65,000
Delaware	42,000
Florida	198,000
Georgia	59,000
Louisiana	149,000
Maine	73,000
Maryland	105,000
Massachusetts	86,000
Mississippi	37,000
New Hampshire	34,000
New Jersey	128,000
New York	228,000
North Carolina	73,000
Oregon	61,000
Pennsylvania	87,000
Rhode Island	47,000
South Carolina	68,000
Texas	107,000
Virginia	91,000
Washington	97,000
Total	2,447,000
Needs distribution	553,000
Total	3,000,000

<sup>1</sup> No State may receive more than 10 percent of the amount appropriated in any fiscal year for section 305 grants, or \$1,200,000 should the supplemental appropriation be enacted. In States where the previous maximum of \$900,000 has been or has a reasonable expectation of being awarded, exclusive of the supplemental, the additional funds cannot exceed \$300,000. As was done earlier, the difference of basic allocation and legal maximum has been applied to the needs distribution.

REGIONAL TOTALS	Basic Allocation (nearest \$1,000; excluding needs)
South Atlantic Area:	
North Carolina	\$ 73,000
South Carolina	68,000
Georgia	59,000
Florida	198,000
Total	298,000
MAFLA:	
Mississippi	37,000
Alabama	42,000
Florida	98,000
Total	177,000
Georges Bank:	
Maine	73,000
New Hampshire	34,000
Massachusetts	86,000
Rhode Island	47,000
Connecticut	65,000
New York	114,000
Total	417,000
Baltimore Canyon:	
New York	114,000
New Jersey	128,000
Delaware	42,000
Maryland	105,000
Pennsylvania	87,000
Virginia	91,000
Total	547,000

<sup>1</sup> State likely to be impacted by two different fields. Allocation split evenly by region.

R. R. HAGEMeyer,  
Acting Deputy Assistant  
Administrator for Administration.

## RULES AND REGULATIONS

### Title 16—Commercial Practices CHAPTER 1—FEDERAL TRADE COMMISSION

#### SUBCHAPTER A—PROCEDURES AND RULES OF PRACTICE

##### PART 4—MISCELLANEOUS RULES

#### Public Records, Confidential Information, and Freedom of Information Act Requests

On February 21, 1975, the Federal Trade Commission published in the *FEDERAL REGISTER* (40 FR 7628) its revised regulations relating to public records, inspection and copying of records, exempted records, and requests for disclosure of records. To remove a possible ambiguity concerning the applicability of Freedom of Information Act exemptions to Congressional committee requests and to clarify the procedure to be utilized by other agencies in requesting Commission records in cases in which a formal liaison arrangement exists between those agencies and the Commission, § 4.11(b) is amended to read as follows:

§ 4.11 Requests for disclosure of records.

(b) *Requests from Government Agencies and Congressional Committees.* (1) Requests from Congressional committees and subcommittees shall be referred to the General Counsel for processing, subject to the provision in 5 U.S.C. section 552(c) that that section is not authority to withhold information from Congress. (2) Requests from agencies of the Federal Government shall be referred to the liaison officer for the requesting agency, or if there is none, to the General Counsel for determination. If it is determined that the records are not exempt under 5 U.S.C. 552(b), the request shall be granted. If it is determined that the records are exempt, the matter shall be forwarded to the Commission for final determination.

For similar clarification purposes, the phrase "administrative manuals" contained in § 4.10(a)(1), which is also used in § 4.9(b)(1) and thus may be confusing, should be deleted. Section 4.10(a)(1) is therefore amended to read as follows:

##### § 4.10 Confidential information.

(a) . . . .  
(1) Records, except to the extent required to be disclosed under other laws or regulations, related solely to the internal personnel rules and practices of the Commission. This exemption applies to internal rules or instructions to Commission personnel which must be kept confidential in order to assure effective performance of the functions and activities for which the Commission is responsible and which do not affect members of the public.

(15 U.S.C. 41, et seq., 5 U.S.C. 552)

Effective date: May 29, 1975.

By direction of the Commission dated May 9, 1975.

[SEAL] CHARLES A. TOBIN,  
Secretary.

[FR Doc.75-13903 Filed 5-28-75; 8:45 am]

### Title 17—Commodity and Securities Exchange

#### CHAPTER 1—COMMODITY FUTURES TRADING COMMISSION

##### PART 1—GENERAL REGULATIONS UNDER THE COMMODITY EXCHANGE ACT

#### Registration of Associated Persons, Commodity Trading Advisors, and Commodity Pool Operators

##### Correction

In FR Doc. 75-12437 appearing at page 20614 in the issue for Monday, May 12, 1975, on page 20615 in the last column, the fifth paragraph, the fifth line, the U.S.C. cite should read "5 U.S.C. 553(d)." .

### Title 24—Housing and Urban Development

#### CHAPTER X—FEDERAL INSURANCE ADMINISTRATION

##### SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-584]

##### PART 1916—CONSULTATION WITH LOCAL OFFICIALS

#### Modification of Existing Base Flood Elevations Determinations in Orleans Parish, Louisiana

On March 6, 1970, at 53 FR 4208-9, and October 19, 1971, at 36 FR 20225, the Federal Insurance Administrator published lists of communities with Special Flood Hazard Areas and the map numbers and locations where Flood Insurance Rate Maps were available for public inspection. These lists included Flood Insurance Rate Maps for portions of Orleans Parish, Louisiana.

The Federal Insurance Administration has determined that it is appropriate to modify the base (100-year) flood elevations of some locations in Orleans Parish, Louisiana. These modified elevations are currently in effect and amend the Flood Insurance Rate Map, which was in effect prior to this determination. A revised map will be published as soon as possible. The modifications are made in accordance with section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234) and the National Flood Insurance Act of 1968, as amended, (Title XIII of the Housing and Urban Development Act of 1968 Pub. L. 90-448) 42 U.S.C. 4001-4128, and 24 CFR Part 1916.

For rating purposes, the new community number is 225203A and must be used for all new policies and renewals.

Under the above mentioned Acts of 1968 and 1973 the Administrator must develop criteria for flood plain management. In order for the community to continue participation in the National Flood Insurance Program, the community must use the modified elevations to carry out the flood plain management measures of the Program. These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

The modified elevations are in effect. However, from the date of this notice, any person has 90 days in which he can

request through the community that the Federal Insurance Administrator reconsider the changes. Any request for reconsideration must be based on knowledge of changed conditions or new scientific or technical data. All interested parties are on notice that until the 90-day period elapses, the Administrator's new determination of elevations may itself be changed.

Any person having knowledge or wishing to comment on these changes should immediately notify:

Director-Secretary, City Planning Commission, City Hall, 1300 Perdido Street, New Orleans, Louisiana 70112.

Also, at this location is the map showing the new base flood elevations. This map is a copy of the one that will be printed.

The numerous changes made in the base flood elevations on the Orleans Parish Flood Insurance Rate Map make it administratively unfeasible to publish all of the base flood elevation changes contained on the Orleans Parish map.

(National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968); effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended 39 FR 2787, January 24, 1974.)

Issued: May 9, 1975.

J. ROBERT HUNTER,  
Acting Federal  
Insurance Administrator.

[FR Doc.75-13845 Filed 5-28-75; 8:45 am]

[Docket No. FI-583]

##### PART 1916—CONSULTATION WITH LOCAL OFFICIALS

#### Modifications of Existing Base Flood Elevations Determinations in St. Bernard Parish, Louisiana

On March 11, 1970, at 35 FR 4331-2, March 27, 1970, at 35 FR 5175-6, and September 7, 1973, at 38 FR 24355, the Federal Insurance Administrator published lists of communities with Special Flood Hazard Areas and the map numbers and locations where Flood Insurance Rate Maps were available for public inspection. These lists involved Flood Insurance Rate Maps for portions of St. Bernard Parish, Louisiana.

The Federal Insurance Administrator has determined that modification of the base (100-year) flood elevations of some locations in St. Bernard Parish, Louisiana, is appropriate. These modified elevations are currently in effect and amend the Flood Insurance Rate Map. A revised rate map will be published as soon as possible. The modifications are made in accordance with section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234) and the National Flood Insurance Act of 1968, as amended (Title XIII

## RULES AND REGULATIONS

of the Housing and Urban Development Act of 1968, Pub. L. 90-448) 42 U.S.C. 4001-4128, and 24 CFR Part 1916.

For rating purposes, as of February 6, 1975 (the date of notice to the community), the new community number is 225204A and must be used for all new policies and renewals.

The changes in base flood elevations are as follows:

Previous Federal Insurance Administration zones (as on map)	Previous base flood elevations (as on map) (mean sea level)	New Federal Insurance Administration zones	New base flood elevations (mean sea level)
Zone A18 (S of Highway 40)	10.8	Zone A9.....	6.0
Zone A18 (N of Highway 40)	10.8	Zone A6.....	5.0
Zone A8.....	4.6	Zone A1.....	1.2
Zone A6.....	3.5	Zone A1.....	1.2
Zone A2.....	-1.4	Zone A2.....	-1.5
Zone A1.....	(1)	Zone A1.....	(2)
Zone V11.....	12.5	Zone V12.....	12.5
Zone V10.....	10.2	Zone A2.....	6.0
Zone V12.....	12.2	Zone V12.....	12.0

<sup>1</sup> Varies (see maps).

<sup>2</sup> Unchanged (see maps).

Under the above mentioned Acts of 1968 and 1973 the Administrator must develop criteria for flood plain management. In order for the community to continue participation in the National Flood Insurance Program, the community must use the modified elevations to carry out the flood plain management measures of the Program. These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The modified elevations are in effect. However, from the date of this notice, any person has 90 days in which he can request through the community that the Federal Insurance Administrator reconsider the changes. Any request for reconsideration must be based on knowledge of changed conditions or new scientific or technical data. All interested parties are on notice that until the 90-day period elapses, the Administrator's new determination of elevations may itself be changed.

Any person having knowledge or wishing to comment on these changes should immediately notify:

President, St. Bernard Parish Police Jury, Courthouse Annex, Chalmette, Louisiana.

(National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968); effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to the Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended 39 FR 2787, January 24, 1974.)

Issued: May 9, 1975.

J. ROBERT HUNTER,  
Acting Federal  
Insurance Administrator.

[FR Doc.75-13844 Filed 5-28-75; 8:45 am]

### Title 40—Protection of Environment

#### CHAPTER 1—ENVIRONMENTAL PROTECTION AGENCY

##### SUBCHAPTER C—AIR PROGRAMS

[FRL 365-7]

##### PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

#### Connecticut: Control of Air Pollution from Facilities Owned, Operated or Under Contract With Connecticut Transportation Authority

On May 31, 1972 (37 FR 10842), pursuant to section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator initially approved the State Plan for implementation of the National Ambient Air Quality Standards in the State of Connecticut. The Administrator's approval of the Legal Authority section of that Plan was based on the assumption that the State had the legal authority required by 40 CFR 51.11, including authority to prevent construction, modification or operation of any stationary source where emissions from such source would prevent the attainment or maintenance of a national standard.

Subsequently, the Connecticut Supreme Court ruled in *Town of Greenwich v. Connecticut Transportation Authority*, et al., 35 Conn. L.J. 45 (1974), that Connecticut General Statutes Section 16-344 exempts facilities owned, operated or under contract with the Connecticut Transportation Authority from the State Implementation Plan. Therefore, under the present state of the law in Connecticut, the State does not have the legal authority required by the Clean Air Act. The Administrator proposed to disapprove the State implementation plan insofar as the State lacked the requisite legal authority with regard to facilities of the Connecticut Transportation Authority in a notice of proposed rulemaking on January 16, 1975 (40 FR 2832).

Section 110(c)(1) of the Clean Air Act directs the Administrator to publish proposed regulations to be substituted for any portion of a plan submitted by a State which he determines not to be in accordance with the requirements of section 110 of the Act, and to provide opportunity for a public hearing on the regulations to be substituted within such State. The proposed regulations would become a part of the State implementation plan if finally promulgated. On January 16, 1975 (40 FR 2832), the Administrator published the regulations proposed to be substituted which are identical to Connecticut Regulations for the Abatement of Air Pollution, sections 19-508-1 through 19-508-25 inclusive, and gave notice of a hearing to be held on February 11, 1975 in Greenwich, Connecticut. Actual written notice was sent to interested parties, and the *Greenwich Times* on January 9, 1975 carried a story announcing the public hearing on page one.

A hearing was held on February 11, 1975, and reconvened on February 18, 1975. There was substantial testimony by local health officers, local residents and by representatives of the Connecticut Department of Environmental Protection that the Cos Cob Generating Plant owned by Penn Central Transportation Company and leased to the Connecticut Transportation Authority was frequently in violation of the applicable emission and opacity limitations. No person appearing at the hearing, or submitting testimony subsequently opposed the disapproval of the State Implementation plan or the substitution of the proposed regulation by the Administrator. Representatives of the Connecticut Transportation Authority and of the Penn Central Transportation Company appeared, presented plans for the phasing out of the Cos Cob Generating Plant and asked for a delay in the implementation of the regulation. The hearing provided for adequate notice to and participation of the public.

Accordingly, on the basis of information produced at the public hearing and otherwise before the EPA, the Administrator hereby disapproves the Connecticut Implementation Plan insofar as the State lacks the legal authority to control emissions from sources owned or controlled by the Connecticut Transportation Authority; and hereby further promulgates, as federal regulations for inclusion in the implementation plan, regulations identical to those originally intended by the implementation plan to apply to facilities of the Connecticut Transportation Authority.

This rulemaking is effective June 30, 1975.

(42 USC 1857c-5)

Dated: May 22, 1975.

RUSSELL E. TRAIN,  
Administrator.

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is as amended as follows:

#### PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

##### Subpart H—Connecticut

1. Section 52.377 is amended by adding a new paragraph (b) as follows:

§ 52.377 Legal authority.

(b) The requirements of § 51.11(a) of this chapter are not met because the State does not have the legal authority to enforce approved implementation plan regulations against facilities owned, operated, or under contract with the Connecticut Transportation Authority.

2. A new § 52.380 is added, as follows:

§ 52.380 Rules and regulations.

(a) All facilities owned, operated or under contract with the Connecticut Transportation Authority shall comply in all respects with Connecticut Regulations for the Abatement of Air Pollution sec-

tions 19-508-1 through 19-508-25 inclusive, as approved by the Administrator.

(b) For the purposes of subsection (a) of this section the word "Administrator" shall be substituted for the word "Commissioner" wherever that word appears in Connecticut Regulations for the Abatement of Air Pollution Sections 19-508-1 through 19-508-25 inclusive, as approved by the Administrator.

[FR Doc.75-14018 Filed 5-28-75; 8:45 am]

#### SUBCHAPTER E—PESTICIDE PROGRAMS

[PP5F1552/R31]

#### PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

##### 3,5-Dichloro-N-(1,1-Dimethyl-2-Propynyl) Benzamide

On November 15, 1974, notice was given (39 FR 40326) that Rohm and Haas Co., Independence Mall West, Philadelphia PA 19105, had filed a pesticide petition (PP 5F1552) with the Environmental Protection Agency (EPA). This petition proposed an increase in the established tolerance for combined residues of the herbicide 3,5-dichloro-N-(1,1-dimethyl-2-propynyl) benzamide and its metabolites (calculated as the herbicide in or on the raw agricultural commodities fresh forage and hay of alfalfa from 5 to 10 parts per million.

The data submitted in the petition and other relevant material have been evaluated. The herbicide is considered useful for the purpose for which the increased tolerance is sought. The established tolerances for residues in eggs, meat, milk, and poultry are adequate to cover residues resulting from the proposed and established uses. The tolerance established by amending § 180.317 of the regulations will protect the public health. Therefore, it is concluded that the tolerance should be established as set forth below.

Any person adversely affected by this regulation may on or before June 30, 1975, file written objections with the Hearing Clerk, Environmental Protection Agency, 401 M St. SW., East Tower, Room 1019, Washington, DC 20460. Such objections should be submitted in triplicate and specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Effective on May 29, 1975, Part 180, Subpart C, is amended by revising § 180.317.

AUTHORITY: Section 408(d) (2) of the Federal Food, Drug, and Cosmetic Act [21 U.S.C. 346a(d) (2)].

Dated: May 23, 1975.

EDWIN L. JOHNSON,  
Deputy Assistant Administrator  
for Pesticide Programs.

Part 180, Subpart C, § 180.317, is amended by adding the new paragraph "10 parts per million . . ." after the introductory paragraph and by deleting "fresh forage and hay of alfalfa" from the paragraph "5 parts per million . . ." to read as follows:

§ 180.317 3,5-Dichloro-N-(1,1-dimethyl-2-propynyl) benzamide; tolerances for residues.

10 parts per million in or on fresh forage and hay of alfalfa.  
5 parts per million in or on clover, crown vetch, sainfoin, and trefol.

[FR Doc.75-14016 Filed 5-28-75; 8:45 am]

[PP5F1552/R32; FRL 380-2]

#### PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

##### Butanoic Anhydride, Exemption From the Requirement of a Tolerance

On August 15, 1974, notice was given (39 FR 29418) that Cloverland Products, Route 1, Pearl City IL 61062, had filed a pesticide petition (PP 5F1526) with the Environmental Protection Agency (EPA). This petition proposed establishment of an exemption from the requirement of a tolerance for residues of butyric acid in honey from use of the insect repellent butyric anhydride. (The correct chemical names for these compounds are butanoic anhydride and butanoic acid.)

The data submitted in the petition and other relevant material have been evaluated. It was determined that the exemption should be expressed in terms of the use of butanoic anhydride rather than as residues of butanoic acid in honey. The insect repellent is considered useful for the purpose for which the exemption is sought and the exemption established by regulation will protect the public health.

Any person adversely affected by this regulation may on or before June 30, 1975 file written objections with the Hearing Clerk, Environmental Protection Agency, 401 M Street, SW., East Tower, Room 1019, Washington DC 20460. Such objections should be submitted in triplicate and specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Effective May 29, 1975, Part 180, Subpart D, is amended by adding § 180.1034.

Dated: May 22, 1975.

EDWIN L. JOHNSON,  
Deputy Assistant Administrator  
for Pesticide Programs.  
(Sec. 408(d) (2) of the Federal Food, Drug, and Cosmetic Act [21 U.S.C. 346a(d) (2)])

Part 180, Subpart D, is amended by adding § 180.1034 to read as follows.

§ 180.1034 Butanoic anhydride; exemption from the requirement of a tolerance.

The insect repellent butanoic anhydride is exempt from the requirements of a tolerance when applied in an absorbent pad over the hive to repel bees during the harvesting of honey.

[FR Doc.75-13936 Filed 5-28-75; 8:45 am]

#### Title 47—Telecommunication

##### CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 20148; RM-2072]

#### PART 83—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

##### Radiotelegraph Auto Alarm Receiver Timing Tolerances

In the matter of amendment of Part 83 to specify radiotelegraph auto alarm receiver timing tolerances, add requirements for reception of additional emissions, and to make editorial changes.

The Annex to Report and Order, FCC 75-442, in the above matter, released May 1, 1975, which amended § 83.554 of the rules with respect to Auto Alarm Receiver Tolerances, was not included in the Federal Register with the published document. At the special request of the FCC, the Office of the Federal Register published the Annex separately as Part V in the issue of May 19, 1975. For the benefit of interested persons, this memorandum is issued to reference the Annex to the original document as follows:

[SEAL] VINCENT J. MULLINS,

Secretary.

[FR Doc.75-13923 Filed 5-28-75; 8:45 am]

#### Title 50—Wildlife and Fisheries

##### CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

#### PART 82—ADMINISTRATIVE PROCEDURES FOR GRANTS-IN-AID (MARINE MAMMAL PROTECTION ACT OF 1972)

Proposed regulations were published in the FEDERAL REGISTER of October 21, 1974 (39 FR 37394-37396) to implement section 110 of the Marine Mammal Protection Act of 1972 ((16 U.S.C. 1361-1407) 86 Stat. 1027), pertaining to administrative procedures governing grants-in-aid.

The regulations define procedures whereby grants can be made to Federal or State agencies, public or private institutions, or private individuals for the purpose of undertaking research in subjects

which are relevant to the protection and conservation of marine mammals.

Applications must be received by September 1 of the year preceding the fiscal year in which the research is contemplated.

The deletions, additions and minor changes in this final rule-making reflect comments received and correct certain technical errors and omissions. The following changes have been made:

1. Section 82.1—This is a new section which will clarify the regulations.
2. Section 82.2—This is a new section provided for clarification.
3. Section 82.3—This section provides supplementary information and procedures for applicants.
4. Section 82.5—The definition of "Cooperative Agreement" and "grantee" have been reworded for clarification.
5. Section 82.6—This section simplifies the application procedures.
6. Section 82.7—This section clarifies coordinating proposals with the various states.

It is determined that compliance with a delayed effective date 5 U.S.C. 553(d) is unnecessary, impracticable, and contrary to the public interest in as much as these regulations are merely procedural in nature. Accordingly, these regulations shall become effective upon publication.

Effective Date: These regulations become effective on May 29, 1975.

Dated: May 22, 1975.

LYNN A. GREENWALT,  
Director.

##### Subpart A—Introduction

§ 82.1 Scope of regulations.

The regulations in this part are issued, pursuant to the authority of the Secretary in section 1380 of the Marine Mammal Protection Act, 16 U.S.C. 1361-1407 (Supp. II 1972), to provide procedures for the submission and review of applications and the award and administration of research grants, or other forms of financial assistance, to Federal or state agencies, public or private institutions, or other

persons including any foreign governments for research relevant to the protection and conservation of marine mammals.

#### § 82.2 Purpose of regulations.

The Marine Mammal Protection Act of 1972 (Pub. L. 92-552) authorizes appropriations, and confers authority upon the Secretary, subject to such terms and conditions as he deems necessary, and after review by the Marine Mammal Commission, to make grants, or provide other forms of financial assistance, for the purpose of undertaking research relevant to the protection and conservation of marine mammals. Research initiated pursuant to this authorization is to be directed toward increasing the available knowledge of the ecology and population dynamics of marine mammals and of the factors which bear upon their ability to reproduce themselves successfully, which information may be used for the purposes of increasing and maintaining the number of animals within species and populations of marine mammals at the optimum carrying capacity of their habitat.

#### § 82.3 Supplementary information and procedures.

The regulations in this part are intended to provide for the maximum flexibility and simplicity in the application and award of grants or other financial assistance and the minimum amount of Federal control in the conduct of the research and supervision of Federal funds, consistent with the anticipated level of appropriated funds and demand for such funds. With respect to grants to state or local governments these regulations are intended to implement and be read as consistent with Federal Management Circular 74-7, "Uniform Administrative Requirements for Grants-in-Aid to State and Local Governments," (FMC 74-7) 34 CFR Part 256, 39 FR 35787-35796, October 4, 1974, unless specifically noted otherwise. The standards and procedures set forth therein, and other referenced Federal management circulars, will, to the extent practical, govern other forms of financial assistance to state and local governments, public and private institutions and persons as well as grants to such institutions and persons. Other Federal regulations and sources of guidance potential applicants may find worthwhile to consult for information which may be helpful in applying and implementing research grants or other financial assistance under these regulations include: 34 CFR Part 211, Cost Sharing on Federal Research (FMC 73-3); 34 CFR Part 251, Audit of Federal Operations and Programs by Executive Branch Agencies, superseding OMB Circular No. A-73, dated August 4, 1965; 34 CFR Part 252, Coordinating Indirect Cost Rates and Audit at Educational Institutions, (FMC 73-6); 34 CFR Part 253, Administration of College and University Grants (FMC 73-7); 34 CFR Part 254, Cost Principles for Educational Institutions (FMC 73-8); FMC 74-4, Cost Principles under Grants to State and Local Governments.

### § 82.4 Authority.

The Secretary of the Interior has delegated to the Director, Fish and Wildlife Service, his authority under the Marine Mammal Protection Act to enter into grants or other forms of financial assistance for research relevant to the protection and conservation of marine mammals covered by the Act excluding the order *Cetacea* and members, other than walruses, of the order *Pinnipedia*.

### § 82.5 Definitions.

As used in this part, terms shall have the meanings ascribed in this section.

(a) "Act" means the Marine Mammal Protection Act of 1972, 16 U.S.C. §§ 1361-1407.

(b) "Cooperative Agreement" means the properly signed documentation, including the Application for Federal Assistance, which describes the project goals, the time schedule for achieving them, the estimated expenses to be incurred and the terms and conditions under which the research will be conducted, the totality of which constitutes the legally binding instrument between the Secretary and the grantee.

(c) "Grantee" means (A) any private person or entity, or (B) any officer, employee, agent, department, or instrumentality of the Federal Government, or any state or political subdivision thereof or any foreign government, participating in a cooperative agreement with the Secretary.

(d) "Marine Mammal" means any specimen of the following species, whether alive or dead, or any part thereof, including but not limited to, any raw, dressed, or dyed fur or skin:

Scientific name:	Common name
<i>Ursus maritimus</i> .....	Polar bear.
<i>Enhydra lutris</i> .....	Sea Otter.
<i>Odobenus rosmarus</i> .....	Walrus.
<i>Dugong dugong</i> .....	Dugong.
<i>Trichechus inunguis</i> .....	West Indian manatee.
<i>Trichechus manatus</i> .....	West African manatee.
<i>Trichechus senegalensis</i> .....	Amazonian manatee.

Note: Common names given may be at variance with local usage; they are not required to be provided by the Act, and they have no legal significance.

(e) "Non-Federal Interest" means any organization, association, institution, business, school, individual or group of individuals, state agency, municipality, or others outside the Federal Government which desires to participate within the terms of the Act.

(f) "Project" means any program for which an Application for Federal Assistance and a cooperative agreement have been approved and which provides for research in subjects which are relevant to the protection and conservation of marine mammals.

(g) "Secretary" means the Secretary of the Interior or his delegated representative.

(h) "State" means the several states, the District of Columbia, the Commonwealth of Puerto Rico, the Canal Zone, the possessions of the United States, and

the Trust Territory of the Pacific Islands.

(i) "State agency" means any department(s), commission(s), or official(s), of a state empowered under its laws to administer the state program for marine mammals.

### Subpart B—Application for Grants

#### § 82.6 Submission of proposals.

(a) Preapplication forms may be submitted by any potential grantee in order to (1) Establish communication between the Fish and Wildlife Service and the applicant; (2) to determine the applicant's eligibility; (3) determine how well the project can compete with applications from others; and (4) eliminate any proposals which have little or no chance for Federal funding before the applicant incurs significant expenditures for preparing an application. A notice of review action will be sent to the applicant within 45 days of the receipt of the preapplication form informing the applicant of the results of the review of the preapplication form. If the review cannot be completed within 45 days, the applicant will be informed by letter as to when the review will be completed.

(b) An Application for Federal Assistance for non-construction shall be submitted by all applicants for grants, however, an Application for Federal Assistance—Short Form may be utilized for single purpose and one-time grant applications for less than \$10,000 not requiring clearinghouse approval, an environmental impact statement, or the relocation of persons, businesses, or farms.

(c) Copies of the applications described in subsections (a) and (b) may be obtained from the Federal Aid Coordinator, State Fish and Game Agency, and the Director, U.S. Fish and Wildlife (Attention: Division of Cooperative Research), Washington, D.C. 20240. An original and two copies of the appropriate application forms should be submitted to the Director at this address. In order to allow sufficient time for processing, the Federal Assistance Application must be submitted by September 1 of the year preceding the fiscal year in which the research is contemplated. Any requests by grantees for changes, continuations, and supplements to approved grants must be submitted on the same form as the original application.

#### § 82.7 Coordination with States.

If the proposed project is to be conducted within the territorial limits of a state, the Secretary shall not enter into an agreement with a non-Federal interest other than a State without first consulting with the State agency.

### Subpart C—Administration

#### § 82.8 Prosecution of work.

(a) The grantee shall pursue the agreed-upon objectives expeditiously, adhering to the procedures set forth in the Cooperative Agreement. Failure to do so or failure to provide timely and adequate reports shall be cause for the Secretary to withhold further reimburse-

ments to the grantee until project commitments are satisfactorily met. All further disbursement of funds under the cooperative agreement may be terminated upon determination by the Secretary that satisfactory progress has not been maintained.

(b) All work shall be performed in accordance with applicable Federal, state, and local laws, including safety, health and sanitation laws, except that when state and local laws are in conflict with Federal laws or regulations, such Federal laws or regulations shall prevail.

#### § 82.9 General information for the Secretary.

Before any Federal funds may be obligated for any project the grantee shall furnish to the Director such information regarding the authority of the grantee to participate in the benefits of the Act, such information of the type described in FMC 74-7 Attachment G, concerning the system to be used by the grantee for the financial management of grant funds, the state laws affecting marine mammals, and such other information as the Director may request.

(a) *Document signature.* The Application for Federal Assistance and the Cooperative Agreement must bear the signature of an official who is legally authorized to commit the prospective grantee to expenditure of funds. The Secretary may, from time to time, request, and grantee shall furnish, information relating to the administration and maintenance of any project established under the Act.

#### § 82.10 Payments to grantee.

Payments may be requested by the grantee at intervals of not less than 30 days as work described in the cooperative agreement progresses.

#### § 82.11 Forms of vouchers.

Vouchers, on forms provided by the Secretary, showing amounts expended on each project, and the Federal portion claimed to be due on account thereof, shall be certified, and submitted to the Director by the grantee.

#### § 82.12 Permit requirements.

No work shall commence on a proposal funded under the provisions of 16 U.S.C. 1380 until all appropriate State and Federal permits have been applied for and issued.

#### § 82.13 Ownership of property.

When property is acquired pursuant to the provisions of the Act, title to such property or interests therein shall be vested in the grantee as long as the property is used for the authorized purpose. When the property is no longer needed for such purpose, the Director and the grantee shall mutually agree regarding the assignment of title and any compensations consistent with the terms of Federal Management Circular 74-7 or other appropriate referenced Federal Management Circulars cited in § 82.3 above.

#### § 82.14 Inspection and audit.

Supervision of each project shall be as specified in the initial cooperative agreement and shall include adequate and continuous inspection by the grantee. The project will be subject at all reasonable times to Federal inspection. The Director and the Comptroller General of the United States, or their duly authorized representatives, shall be given access by the grantee during regular business hours to any books, documents, papers, and records of the grantee which are pertinent to the project for the purposes of making audit, examination, excerpts, and transcripts.

#### § 82.15 Record retention.

All records of accounts, and reports, with supporting documentation thereto, will be maintained by the grantee for a period of three years after submission of the final expenditure report, with the qualifications stated in FMC 74-7, Attachment C, paragraph 1.

#### § 82.16 Reporting.

Performance reports and other specified reports shall be submitted to the Secretary by the grantee in accordance with requirements prescribed by FMC 74-7 or other appropriate referenced Federal Management Circulars cited in § 82.3 above.

#### § 82.17 Procurement.

Grantees may use their own procurement regulations which reflect applicable State and local laws, rules, and regulations, provided that procurements made with funds under the Act adhere to the standards set forth in FMC 74-7 or other appropriate referenced Federal Management Circulars cited in § 82.3 above.

#### § 82.18 Officials not to benefit.

No member of, or delegate to, Congress, or Resident Commissioner, shall be admitted to any share or any part of an agreement, or to any benefit that may arise therefrom; but this provision shall not be construed to extend to an agreement made with a corporation for its general benefit.

#### § 82.19 Patents and inventions.

Determination of the patent rights in any inventions or discoveries resulting from work under cooperative agreements entered into pursuant to the Act shall be governed by the "Government Patent Policy," President's Memorandum for Heads of Executive Departments and Agencies, August 23, 1971, and statement of government patent policy as printed in 36 FR 16889.

#### § 82.20 Civil rights.

Each cooperative agreement shall be supported by a statement of assurance executed by the grantee providing that the project will be carried out in accordance with Title VI, non-discrimination in federally assisted programs, of the Civil Rights Act of 1964, 42 U.S.C. 2000d-2000d-4, and with the Secretary's regula-

tions promulgated thereunder, 43 CFR Part 17.

#### § 82.21 Copyrights.

Where research conducted under a grant issued pursuant to this part results in a book or other copyrightable material, the author or grantee, subject to the terms of the Cooperative Agreement, is encouraged to publish the work, but the Department of the Interior reserves a royalty free, nonexclusive and irrevocable license to reproduce, publish, or otherwise use, and to authorize others to use the work for Government purposes. Any publication by the grantee must bear in an appropriate place an acknowledgment of grant support under the Marine Mammal Act from the Department of the Interior. In addition, any publication must include a statement that the findings, conclusions, etc., do not necessarily represent the views of the Department of the Interior. At least two copies of any printed publications must be furnished to the United States Fish and Wildlife Service.

### Title 7—Agriculture

#### CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Reg. 500]

#### PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

##### Limitation of Handling

This regulation fixes the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period May 30-June 5, 1975. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908. The quantity of Valencia oranges so fixed was arrived at after consideration of the total available supply of Valencia oranges, the quantity of Valencia oranges currently available for market, the fresh market demand for Valencia oranges, Valencia orange prices, and the relationship of season average returns to the parity price for Valencia oranges.

#### § 908.800 Valencia Orange Regulation 500.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby

found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the respective quantities of Valencia oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Valencia orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Valencia oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Valencia oranges is generally good except for smaller-size fruit.

Prices f.o.b. averaged \$3.46 per carton on a reported sales volume of 660,000 cartons last week, compared with an average f.o.b. price of \$3.36 per carton and sales of 655,000 cartons a week earlier. Track and rolling supplies at 447 cars were up 51 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Valencia oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy

FR 20070; 40 FR 13202), is amended to clarify the Farmers Home Administration's policies regarding the method of computing the interest rate for transfers of association-type loans to ineligible applicants. Since the changes are minor in nature and no substantive change in the regulation is effected, notice and public procedure thereon are unnecessary.

As amended, § 1861.85(c) (3) reads as follows:

§ 1861.85 Transfer of security and assumption of loans.

(c) Transfers to ineligible applicants.

(3) Interest rates to ineligible transferees will be the current rate charged individual borrowers for operating-type loans on the date the transfer is approved less one percent, and in accordance with the following:

((7 U.S.C. 1989): delegation of authority by the Sec. of Agril., 7 CFR 2.23; delegation of authority by the Asst. Sec. for Rural Development, 7 CFR 2.70; delegations of authority by Dir., OEO, 29 FR 14764, 33 FR 9850)

Dated: May 16, 1975.

FRANK B. ELLIOTT,  
Administrator,  
Farmers Home Administration.

#### Title 20—Employees' Benefits

#### CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[Reg. No. 4]

#### PART 404—FEDERAL OLD-AGE, SURVIVORS AND DISABILITY INSURANCE Elective Social Security Coverage for Vow-of-Poverty Members of Religious Orders

On December 18, 1974, there was published in the FEDERAL REGISTER (39 FR 43729) a Notice of Proposed Rule Making and proposed amendments reflecting the provisions of section 123 of Pub. L. 92-603, enacted October 30, 1972 (86 Stat. 1354), regarding elective social security coverage for members of religious orders who have taken a vow of poverty. Interested parties were given 30 days within which to submit data, views, and arguments. The only comment received was later withdrawn. Therefore, the regulations are adopted as proposed, and are set forth below.

Under prior law, the services performed by a member of a religious order who is subject to a vow of poverty which were in the exercise of the duties required by the order were excluded from coverage under social security. Under section 123 of Pub. L. 92-603 such service will be covered under social security if the order (or an autonomous subdivision of the order) irrevocably elects coverage for its members subject to a vow of poverty, and if the order also makes an ir-

revocable election (or makes irrevocable a previous election) to cover its lay employees. The election may be made retroactive for a maximum of 20 calendar quarters preceding the quarter in which the certificate of election is filed.

The "wages" of these members of religious orders for social security purposes include the fair market value of any board, lodging, clothing, and other perquisites furnished to the member, except that the amount included as such individual's remuneration shall not be less than \$100 a month. These regulations provide that where the fair market value of any board, lodging, clothing, and other perquisites furnished to all members of an electing religious order or subdivision (or to all in a group of members) does not vary significantly, such order or subdivision may treat all of its members (or all in such group of members) as having a uniform wage.

A member of a religious order (i.e., an individual whose "wages" are subject to tax) is defined as any individual who is subject to a vow of poverty as a member of such order, who performs tasks usually required (and to the extent usually required) of an active member of such order, and who is not considered retired because of old age or total disability. These regulations provide that, in determining whether it is reasonable to consider an individual to be retired because of old age, consideration is first to be given to the nature of the services rendered by the individual to his religious order, the amount of time the individual devotes to the performance of services for his religious order, and the nature and extent of the services rendered by the individual before he "retired," as compared with the services performed thereafter. Where consideration of these factors does not establish whether an individual is or is not reasonably considered retired, all other factors are considered.

Under these rules, an electing religious order or subdivision which determines that a member has retired must submit with its employment tax return a summary of the facts upon which the determination has been made.

These regulations also provide that a religious order or an autonomous subdivision of such an order desiring to make an election of coverage shall file a certificate of election on Form SS-16, Certification of Election of Coverage. However, a document other than Form SS-16 may, under certain circumstances, constitute a certificate of election.

(Secs. 206, 310, and 1102 of the Social Security Act, as amended, and section 123 of the Social Security Amendments of 1972 (Pub. L. 92-603), 86 Stat. 1368, as amended, 84 Stat. 494, as amended, 40 Stat. 641, as amended, 86 Stat. 1354; (42 U.S.C. 406, 410, and 1302).)

**Effective date:** These amendments are effective May 29, 1975.

(Catalog of Federal Domestic Assistance Program No. 13.803, Social Security—Retirement Insurance.)

Dated: May 5, 1975.

J. B. CARDWELL,  
Commissioner of Social Security.

Approved: May 22, 1975.

CASPAR W. WEINBERGER,  
Secretary of Health,  
Education, and Welfare.

Subpart K, Regulations No. 4 of the Social Security Administration, as amended (20 CFR Part 404), is further amended as follows:

1. Section 404.1015 is amended by revising paragraph (a) to read as follows:

§ 404.1015 Ministers of churches and members of religious orders.

(a) *In general.* Services performed by a duly ordained, commissioned, or licensed minister of a church in the exercise of his ministry, or by a member of a religious order not subject to a vow of poverty in the exercise of his duties required by such order, are excluded from employment, but are included under the self-employment provisions of the Act. However, services performed by a member of a religious order who has taken a vow of poverty which are in the exercise of duties required by such order (whether performed for the order or for another employer) are included in employment if an election of coverage under section 3121(r) of the Internal Revenue Code of 1954 is in effect with respect to such order or with respect to an autonomous subdivision thereof to which such member belongs. For provisions relating to the election available to certain ministers and members of religious orders not subject to a vow of poverty with respect to the extension of the Federal old-age, survivors, and disability insurance system established by title II of the Social Security Act to certain services performed by them, see §§ 404.1070(e), 404.1080, and 404.1086. See also section 1402(e) of the Internal Revenue Code of 1954 (26 U.S.C. 1402(e)).

2. Section 404.1015a is added to read as follows:

§ 404.1015a Election of coverage by religious orders.

(a) *In general.* A religious order whose members are required to take a vow of poverty, or any autonomous subdivision of such an order, may elect to have the Federal old-age, survivors, and disability insurance system established by title II of the Social Security Act extended to services performed by its members which are in the exercise of duties required by such order or subdivision. See § 404.1026 (a) for provisions relating to the computation of the amount of remuneration of such members. For purposes of this section, a subdivision of a religious order is autonomous if it directs and governs its members, if it is responsible for its

members' care and maintenance, if it is responsible for members' support and maintenance in retirement, and if the members live under the authority of a religious superior who is elected by them or appointed by higher authority.

(b) *Definition of member.* (1) *In general.* For purposes of this section, a member of a religious order means any individual who is subject to a vow of poverty as a member of such order and who performs tasks usually required (and to the extent usually required) of an active member of such order and who is not considered retired because of old age or total disability.

(2) *Retirement because of old age.* (i) *In general.* For purposes of this paragraph, an individual is considered retired because of old age if the order to which he belongs has an established retirement program, (e.g., all members are retired at age 70, or all members are retired when they become incapacitated by advanced age), and the member meets the criteria established by such retirement program. If an order does not have an established retirement program, an individual is considered retired because of old age if (A) in view of all the services performed by the individual and the surrounding circumstances it is reasonable to consider him to be retired, and (B) his retirement occurred by reason of old age. Even though an individual performs some services in the exercise of duties required by the religious order, the first test (the retirement test) is met where it is reasonable to consider the individual to be retired.

(ii) *Factors to be considered.* In determining whether it is reasonable to consider an individual to be retired, consideration is first to be given to all of the following factors:

(A) *Nature of services.* Consideration is given to the nature of the services performed by the individual in the exercise of duties required by his religious order. The more highly skilled and valuable such services are, the more likely the individual rendering such services is not reasonably considered retired. Also, whether such services are of a type performed principally by retired members of the individual's religious order may be significant.

(B) *Amount of time.* Consideration is also given to the amount of time the individual devotes to the performance of services in the exercise of duties required by his religious order. This time includes all the time spent by him in any activity in connection with services which might appropriately be performed in the exercise of duties required of active members by the order. Normally, an individual who, solely by reason of his advanced age, performs services of less than 45 hours per month shall be considered retired. In no event shall an individual who, solely by reason of his advanced age, performs services of less than 15 hours per month not be considered retired.

(C) *Comparison of services rendered before and after retirement.* In addition, consideration is given to the nature and extent of the services rendered by the

individual before he "retired," as compared with the services performed thereafter. A large reduction in the importance or amount of services performed by the individual in the exercise of duties required by his religious order tends to show that the individual is retired; absence of such reduction tends to show that the individual is not retired. Normally, an individual who reduces by at least 75 percent the amount of services performed shall be considered retired.

Where consideration of the factors described in paragraph (b) (2) (ii) of this section does not establish whether an individual is or is not reasonably considered retired, all other factors are considered.

(3) *Retirement because of total disability.* For purposes of this paragraph, an individual is considered retired because of total disability (i) if he is unable, by reason of a medically determinable physical or mental impairment, to perform the tasks usually required of an active member of his order to the extent necessary to maintain his status as an active member, and (ii) if such impairment is reasonably expected to prevent his resumption of the performance of such tasks to such extent. A physical or mental impairment is an impairment that results from anatomical, physiological, or psychological abnormalities which are demonstrable by medically acceptable clinical and laboratory diagnostic techniques. Statements of the individual, including his own description of his impairment (symptoms), are alone insufficient to establish the presence of a physical or mental impairment.

(4) *Evidentiary requirements with respect to retirement.* There shall be attached to the return of taxes paid pursuant to an election under section 3121(r) of the Internal Revenue Code of 1954 a summary of the facts upon which any determination has been made, by the religious order or autonomous subdivision, that one or more of its members retired during the period covered by such return. Each summary shall contain the name and social security number of each such retired member as well as the date of his retirement. Such order or subdivision shall maintain records of the details relating to each such "retirement" sufficient to show whether or not such member or members has in fact retired.

(c) *Certificates of election.* (1) *In general.* A religious order or an autonomous subdivision of such an order desiring to make an election of coverage pursuant to section 3121(r) of the Internal Revenue Code of 1954 and this section shall file Form SS-16, *Certificate of Election of Coverage Under the Federal Insurance Contributions Act*, with the Internal Revenue Service in accordance with the instructions applicable thereto. However, in the case of an election made before August 9, 1973, a document other than form SS-16 shall constitute a certificate of election if it purports to be a binding election of coverage and if it is filed with an appropriate official of the Internal Revenue Service. Such a document shall be given the effect it would have if it were

a certificate of election containing the provisions required by paragraph (c) (2) of this section. However, it should subsequently be supplemented by a form SS-16.

(2) *Provisions of certificates.* Each certificate of election shall provide that:

(i) Such election of coverage by such order or subdivision shall be irrevocable.

(ii) Such election shall apply to all current and future members of such order, or in the case of a subdivision thereof to all current and future members of such order who belong to such subdivision.

(iii) All services performed by a member of such order or subdivision in the exercise of duties required by such order or subdivision shall be deemed to have been performed by such member as an employee of such order or subdivision, and

(iv) The wages of each member, upon which such order or subdivision shall pay the taxes imposed on employees and employers by sections 3101 and 3111 of the Internal Revenue Code of 1954, will be determined as provided in § 404.1026(e).

(d) *Effective date of election.* (1) *In general.* Services which are performed by members of orders as defined in §§ 404.1015a(b) (1) are covered during any period either retroactive or prospective for which an order has elected coverage provided the member is not considered retired because of old age or total disability. Except as provided in paragraph (e) of this section, a certificate of election of coverage filed by a religious order or its subdivision, pursuant to section 3121(r) of the Internal Revenue Code of 1954 and this section, shall be in effect, for purposes of section 3121(b) (8) (A) of the Internal Revenue Code of 1954 and for purposes of section 210(a) (8) (A) of the Act, for the period beginning with whichever of the following may be designated by the electing religious order or subdivision:

(i) The first day of the calendar quarter in which the certificate is filed.

(ii) The first day of the calendar quarter immediately following the quarter in which the certificate is filed, or

(iii) The first day of any calendar quarter preceding the calendar quarter in which the certificate is filed, except that such date may not be earlier than the first day of the 20th calendar quarter preceding the quarter in which such certificate is filed.

(2) *Retroactive elections.* Whenever a date is designated as provided in paragraph (d) (1) (iii) of this section, the election shall apply to services performed before the quarter in which the certificate is filed only if the member performing such services was a member at the time such services were performed and is living on the first day of the quarter in which such certificate is filed. Thus, the election applies to an individual who is no longer a member of a religious order on the first day of such quarter if he performed services as a member at any time on or after the date so designated and is living on the first day of the quarter in which such certificate is filed.

(e) *Coordination with coverage of lay employees.* If at the time the certificate

of election of coverage is filed by a religious order or autonomous subdivision, a certificate of waiver of exemption under section 3121(k) of the Internal Revenue Code of 1954 (extending coverage to any lay employees) is not in effect, the certificate of election shall not become effective unless the order or subdivision files a Form SS-15, *Certificate Waiving Exemption from Taxes Under the Federal Insurance Contributions Act*, and a Form SS-15a, *List to Accompany Certificate on Form SS-15 Waiving Exemption from Taxes Under the Federal Insurance Contributions Act*, to accompany the certificate on Form SS-15, as provided by section 3121(k) of the Internal Revenue Code of 1954. The preceding sentence applies even though an order or subdivision has no lay employees at the time it files a certificate of election of coverage. The effective date of the certificate of waiver of exemption must be no later than the date on which the certificate of election becomes effective, and it must be specified on the certificate of waiver of exemption that such certificate is irrevocable. The certificate of waiver of exemption required under this paragraph shall be filed notwithstanding the provisions of section 3121(k)(3) of the Internal Revenue Code of 1954 (relating to no renewal of the waiver of exemption) which otherwise would prohibit the filing of a waiver of exemption if an earlier waiver of exemption had previously been terminated. If at the time the certificate of election of coverage is filed a certificate of waiver of exemption is in effect with respect to the electing religious order or autonomous subdivision, the filing of the certificate of election shall constitute an amendment of the certificate of waiver of exemption and make the latter certificate irrevocable.

3. Section 404.1018 is amended by revising paragraph (a) to read as follows:

§ 404.1016 Religious, charitable, educational, or certain other organizations exempt from income tax.

(a) In general. Services performed by an employee in the employ of a religious, charitable, educational, or other organization described in section 501(c)(3) of the Internal Revenue Code of 1954 which is exempt from income tax under section 501(a) of the Internal Revenue Code of 1954 (section 101 (b) of the Internal Revenue Code of 1939) are excepted from employment. However, this exception does not apply to services performed during the period for which a Form SS-15, *Certificate Waiving Exemption From Taxes Under the Federal Insurance Contributions Act*, or Form SS-15b, *Certificate for Retroactive Coverage*, filed pursuant to section 3121(k) or section 3121(r) of the Internal Revenue Code of 1954 or section 1426(l) of the Internal Revenue Code of 1939, is in effect if such services are performed by an employee (1) whose signature appears on form SS-15b or on the Form SS-15a, *List to Accompany Certificate on Form SS-15 Waiving Exemption from Taxes Under the Federal Insurance Contributions Act*, or Form

SS-15a Supplement, *Amendment to List on Form SS-15a*, filed by such organization under section 3121(k) of the Internal Revenue Code of 1954 (section 1426(l) of the Internal Revenue Code of 1939); (2) who became an employee of such organization after the calendar quarter in which the form SS-15 was filed; or (3) who became a member of a group of employees as described in section 3121(k)(1)(E) of the Internal Revenue Code of 1954 after the calendar quarter in which the form SS-15 was filed with respect to such group. (See § 404.1015(b) and (d) relating to services performed by a minister of a church in the exercise of his ministry or by a member of a religious order not subject to a vow of poverty in the exercise of duties required by such order; § 404.1015a relating to services performed by a member of a religious order or subdivision thereof whose members are required to take a vow of poverty; § 404.1018 relating to services performed in the employ of an organization otherwise exempt from income tax under section 501 (a) of the Internal Revenue Code of 1954 (section 101 of the Internal Revenue Code of 1939); § 404.1019 relating to services performed in the employ of a school, college, or university by certain students; and § 404.1022 relating to services performed by certain student nurses and hospital interns. See 26 CFR § 31.3121(k)-1 relating to waiver of exemption from taxes with respect to certain services under section 3121(k) of the Internal Revenue Code of 1954 and 26 CFR § 31.3121(r)-1 relating to services with respect to which a certificate is in effect under section 3121(r) of the Internal Revenue Code of 1954.)

4. Section 404.1026 is amended by adding paragraph (e) to read as follows:

§ 404.1026 Wages.

(e) Remuneration for service performed by certain members of religious orders. In any case where an individual is a member of a religious order as defined in § 404.1015a(b) and performing service in the exercise of duties required by such order, and an election of coverage under section 3121(r) of the Internal Revenue Code of 1954 is in effect with respect to such order or the autonomous subdivision thereof to which such member belongs, the term "wages" shall, subject to the provisions of section 3121(a)(1) of the Internal Revenue Code of 1954 (relating to definition of wages), include as such individual's remuneration for such service the fair market value of any board, lodging, clothing, and other perquisites furnished to such member by such order or subdivision or by any other person or organization pursuant to an agreement (whether written or oral) with such order or subdivision. Such other perquisites shall include any cash either paid by such order or subdivision or paid by another employer and not required by such order or subdivision to be remitted to it. For purposes of this section, perquisites

shall be considered to be furnished over the period during which the member receives the benefit of them. In no case shall the amount included as such individual's remuneration under this paragraph be less than \$100 a month. All relevant facts and elements of value shall be considered in every case. Where the fair market value of any board, lodging, clothing, and other perquisites furnished to all members of an electing religious order or autonomous subdivision (or to all in a group of members) does not vary significantly, such order or subdivision may treat all of its members (or all in such group of members) as having a uniform wage.

[Reg. No. 5, further amended]

#### PART 405—FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED

##### Admissions to Skilled Nursing Facilities More Than 14 Days After Discharge From Hospital

On July 8, 1974, there was published in the *FEDERAL REGISTER* (39 FR 24920) a notice of proposed rule making with proposed amendments to Subpart A of Regulations No. 5 (20 CFR Part 405), implementing section 248 of Pub. L. 92-603 (86 Stat. 1425), and providing that services furnished eligible beneficiaries in skilled nursing facilities may be covered if admission to the skilled nursing facility occurred more than 14 days after discharge from a hospital in the following situations: (a) Where an individual who required extended care services within 14 days of his discharge from a hospital was unable to be admitted to a skilled nursing facility within such 14 days because of a shortage of appropriate bed space in the geographic area in which he resides, provided he entered the skilled nursing facility within 28 days of his hospital discharge, or (b) where an individual whose condition is such that covered skilled nursing facility care would not be medically appropriate within 14 days after discharge from a hospital was admitted to a skilled nursing facility within such time as it would be medically appropriate to begin an active course of treatment in such a facility. Interested persons were given active course of treatment in such a facility. Comments and suggestions received with regard to such notice of proposed rule making and response thereto are summarized below.

(1) One individual questioned the use of the term "extended care services" since in the Social Security Act the title of the setting in which such services are rendered has been changed from "extended care facility" to "skilled nursing facility." Since the statute still refers to the services rendered as "extended care services", we feel that a change would not be appropriate.

(2) Another individual was concerned that since the index of the *FEDERAL REGISTER* indicated that this was a Medical regulation, that the prior hospitalization requirement might inadvertently be imposed on individuals who are patients under title XIX of the Social Security Act. This, of course, is not possible since this amendment relates strictly to a requirement of title XVIII of the Social Security Act and individuals admitted to skilled nursing facilities under the requirements of title XIX would not be affected by this amendment in any way.

In addition, the proposed regulations have been revised to reflect the decision of the court in *Wilson v. Secretary of Health, Education, and Welfare*, 502 F.2d 1337 (4th Cir. 1974), decided after the notice of proposed rule making, in which the court applied section 248 of Pub. L. 92-603 to a claim involving an admission to a skilled nursing facility which occurred prior to October 30, 1972, the date of enactment of section 248. The regulations, as revised, provide that section 248 of Pub. L. 92-603 shall be applied to skilled nursing facility admissions prior to October 30, 1972, with respect to which a final determination had not been made prior to that date.

The amendments are adopted as so revised and are set forth below.

(Secs. 1102, 1861(i), and 1871 of the Social Security Act, 49 Stat. 647, as amended, 79 Stat. 317, 79 Stat. 331; (42 U.S.C. 1302, 1395x (i), and 1395hh))

**Effective date:** These amendments shall be effective on June 30, 1975 and apply to skilled nursing facility admissions occurring on or after October 30, 1972, or to skilled nursing facility admissions occurring prior to October 30, 1972, with respect to which a final determination had not been made prior to October 30, 1972.

(Catalog of Federal Domestic Assistance Program No. 13.800, Health Insurance for the Aged—Hospital Insurance.)

Dated: May 5, 1975.

J. B. CARDWELL,  
Commissioner of Social Security.

Approved: May 22, 1975.

CASPAR W. WEINBERGER,  
Secretary of Health, Education,  
and Welfare.

Regulations No. 5 of the Social Security Administration (20 CFR Part 405), are further amended as set forth below:

1. Paragraph (a)(1) of § 405.120 is amended by deleting the phrase "within 14 days (as defined in paragraph (d) of this section)" and inserting in its place the phrase "within the time specified in paragraph (d) of this section."

2. Paragraph (d) of § 405.120 is revised to read as follows:

§ 405.120 Posthospital extended care services; scope of benefits.

(d) **Timely admission to a skilled nursing facility.** To be eligible for extended care services an individual must be admitted to a skilled nursing facility within a specified time period.

(1) **Skilled nursing facility admissions prior to October 30, 1972.** With respect

to skilled nursing facility admissions occurring prior to October 30, 1972, which do not fall within the exception referred to in paragraph (d)(2) of this section, an individual must have been admitted to the skilled nursing facility and received required post-hospital extended care (see § 405.126) within 14 days after his discharge from a hospital (see paragraph (d)(3) of this section for method of counting days).

(2) **Skilled nursing facility admissions on or after October 30, 1972.** With respect to skilled nursing facility admissions occurring on or after October 30, 1972, or to skilled nursing facility admissions occurring prior to October 30, 1972, with respect to which a final determination (see Subpart G of this part for definition of "final determination") had not been made prior to October 30, 1972, an individual must (i) be admitted to the skilled nursing facility and receive required post-hospital extended care (see § 405.126) within 14 days after discharge from a hospital, or (ii) be admitted to the skilled nursing facility within 28 days after such discharge, in the case of an individual who was unable to be admitted to a skilled nursing facility within 14 days because of a shortage of appropriate bed space in the geographic area in which he resides provided he required posthospital extended care (see § 405.126) within 14 days of the hospital discharge and continued to require such care through the time of his admission to the facility, or (iii) must be admitted to the skilled nursing facility within such time as it would be medically appropriate to begin an active course of treatment in such a facility, in the case of an individual whose condition is such that post-hospital extended care (see § 405.126) would not be medically appropriate within 14 days after discharge from a hospital (see paragraph (d)(3) of this section for method of counting days).

(3) **Counting days.** For the purpose of this section, "within 14 days" or "within 28 days" means the period of 14 or 28 consecutive calendar days (including Saturdays, Sundays, legal holidays, and days, all or part of which is declared to be a nonworkday for Federal employees by statute or Executive order) beginning with the calendar day following the day of discharge from the hospital or, where paragraph (b)(2) of this section applies, beginning with the calendar day following the day of discharge from a skilled nursing facility.

#### Title 39—Postal Service CHAPTER I—UNITED STATES POSTAL SERVICE

##### PART 111—GENERAL INFORMATION ON POSTAL SERVICE

###### Lockbox and Caller Service Rentals

On April 8, 1975, the Postal Service published in the *FEDERAL REGISTER* (40 FR 15909) a notice of proposed rule-making on this subject, setting forth a

complete revision of Part 169 of the Postal Service Manual, dealing with post office boxes. The primary purpose of the revision is to reorganize the existing postal box service into two distinct categories of service: Lockbox service, and caller service. Interested persons were invited to submit written views and arguments on the proposed revision at any time on or before May 8, 1975.

A number of commenters recommended that the Postal Service provide free lockbox service to customers in small rural communities who do not have carrier delivery. Several commenters recommended free lockbox service to inner-city residents whose mail has been stolen from their mail boxes.

Persons entitled to carrier delivery who show that their mail boxes have been vandalized or their mail stolen would appear clearly to satisfy the requirement in § 113.32 of the Postal Service Manual to show "good and sufficient reasons" to receive their mail at general delivery windows. There is, of course, no charge for this service. Rural customers who do not receive carrier delivery are likewise entitled to the free service at general delivery windows. Free lockbox service for these customers, as well as for those whose mail boxes have been vandalized, would not be justified because adequate free service is provided at the general delivery window. Secondly, lockbox service causes costs to be incurred by the Postal Service. Accordingly, it is proper to recover such costs from those who benefit from the service.

One commenter believes that it is discriminatory to require rural mail patrons who do not receive home delivery to pay for a post office lockbox, since others receive home delivery free of charge. Since general delivery service is available free of charge, we do not believe it is discriminatory to transfer the additional costs which the Postal Service incurs in providing lockboxes to customers who would bear box purchase and maintenance costs if home delivery were provided.

Some commenters stated that general delivery was not available to them because at the time they left town to go to work the general delivery window was either not open or the mail had not yet been sorted, and when they returned in the evening the window was closed. If there is no one at home to pick up the mail during regular window hours, it would seem that this problem could largely be solved by the customer picking up his mail at the general delivery window in the city or town where he is employed. We believe it not inappropriate that the few customers whose residential or professional practices that make even this solution impracticable are charged a fee for delivery into a box owned and maintained by the Postal Service.

One commenter opposed adoption of a reserved number fee system on the ground that the present no-fee system is mutually beneficial to the Postal Service and its customers and a reserved-number fee system might upset the balance.

The argument is that, if this change is adopted, some customers who usually reserve large blocks of numbers might well give up numbers now held on reserve. Then, when such customers request additional numbers at a later time the numbers assigned may be out of sequence with previously assigned numbers. This would increase sortation costs for the Postal Service and tend to delay mail delivery.

The purpose of the reserved number fee system is to provide an additional service to our customers by assuring the future availability of particular numbers or blocks of numbers to persons or firms who plan for personal or business reasons to use those numbers. The regulation does not prohibit postmasters from continuing to reserve without charge sequential numbers for heavy users of postal boxes when it would be in the best interest of the Postal Service to do so.

One commenter recommended, in effect, that the regulations should be amended to take away a postmaster's discretion under proposed § 169.122j to restrict caller service "if local conditions justify such restrictions." We decline to do so. Local postmasters are in the best position to know how much space they need for efficient postal operations. They know what portion can be allocated to caller service, and whether funds are, or would be, available for adding additional space. Accordingly, it is reasonable, in our opinion, to lodge in the local postmaster the discretion to restrict caller service, if justified by local conditions, subject to the District Manager's approval. We have attempted, however, to clarify the regulation by adding new § 169.323b, providing that customers presently holding more than five lockboxes must pay the appropriate rental fee for the five lockboxes plus the caller service fee for those boxes in excess of five. This addition is essentially a clarification of § 169.122b(2), which has been similarly amended.

Accordingly, having given due consideration to all comments received, the Postal Service has determined to adopt the revision, which is set forth below, with the following additional changes:

1. The rental rate of \$27 shown in proposed § 169.27 for group 1, subgroup B, number 5 box size was incorrect. It has been changed to the correct amount—\$27.50.

2. In proposed § 169.122d reference was made to Fourth Class Post Offices. These offices have been redesignated in terms of the number of revenue units generated by such offices. Accordingly, the term Fourth Class Post Offices is not being used in these regulations and has been changed to post offices with 35 or fewer revenue units.

To be consistent with this change we also removed reference to the term Fourth Class Post Office Group, which was the third of three groups of rental rates proposed in § 169.231, and substituted the term Group 3. These name changes required amendments in several places in the new regulation.

3. A new § 169.234c is added to provide guidance in the assigning of rates by post offices established after July 1, 1973, which do not provide city carrier delivery.

4. A new § 169.235 is added to provide a formula for determining the rates to be charged by post offices with 35 or fewer revenue units, and to provide for increased rates if the number of revenue units increases.

We also made a number of minor, technical, or editorial changes.

In view of the considerations discussed above, the Postal Service hereby adopts revised Part 169 of the Postal Service Manual, which is effective immediately, reading as set forth below.

#### PART 169. POST OFFICE LOCKBOX AND CALLER SERVICE

##### 169.1 PURPOSE AND DEFINITION OF SERVICE

###### 1.1 General Purpose

Post Office Lockbox and Caller Service are premium services provided for the convenience of the public. These two services, provided in addition to available carrier or general delivery, afford customers privacy and permit them to obtain their mail at their convenience during the hours the lobby is open. Both services make use of the traditional Post Office Box Number as the address.

###### 1.2 Description of Services

###### 1.21 Lockbox Service

a. Lockbox Service is provided only through the use of Post Office Lockboxes. The term Drawer is hereby abolished and all boxes previously referred to by that term are to be considered the same as Lockboxes for all purposes, including rental rates. The terms lockbox and box are to be considered the same for purposes of these regulations and the term boxholder is to be applied to those who use lockboxes.

b. Lockboxes are located only in Postal facilities. Customers receive their mail in these boxes and may open the boxes by means of a key or combination. Numbers are assigned to the boxes and the customers must use their assigned Post Office Box Number in their addresses immediately above the city, state and Zip Code.

c. Five sizes of lockboxes are available for rent and customers are assigned a lockbox of a certain size in accordance with their needs as determined by the postmaster.

d. Boxes without doors for customer access, formerly identified as "Call Boxes", shall be used only in conjunction with General Delivery service, and no rent shall be charged for their use.

e. Lockbox Service Does Not Include "alternate means of delivery" established to replace, simplify or extend carrier delivery service. Examples are Vertical Improved Mail (VIM) units, neighborhood cluster box units, apartment house units, rural non-personnel units, etc. These "alternate means of delivery" shall not be administered or charged for under provisions of Part 169 of the Postal Service Manual.

###### 1.22 Caller Service

a. Caller Service is provided through the use of sacks, pouches, trays, bundles and other devices. Normally, mail is handed to the customer or his agent at a call window or from a loading dock. Caller Service users are termed Callers throughout these regulations.

b. Caller Service will be provided to customers under the following conditions:

(1) To boxholders who normally receive too much mail for their box when no larger box is available. (Do not consider parcels, catalogs or other bulky items in such a determination).

(2) To customers who wish to rent more than five (5) lockboxes in any one facility. Five lockboxes may be rented to one customer, but additional separation may be provided only through the use of Caller Service. Customers who currently rent more than five lockboxes may retain those boxes providing that the appropriate caller fees are paid.

c. Caller Service may be provided to customers under the following conditions:

(1) To a new customer who will receive (or can be expected to receive) too much mail to be accommodated in the largest box available in the facility.

(2) To a customer who, at his option, desires a lockbox but none are available with the provision that such service does not adversely affect normal postal operations.

(3) To any customer who desires Caller Service in lieu of lockbox service even though boxes of adequate size may be available and the provision of such service does not adversely affect normal postal operations.

d. No Caller Service shall be provided from post offices with 35 or fewer Revenue Units (Note: those offices otherwise known as 4th Class Post Offices).

e. A Post Office Box Number is assigned to the caller for each separation utilized and the caller must use his assigned number in the address immediately above the city, state and Zip Code.

f. A customer may obtain Caller Service for the purpose of receiving the mail of a client. A Caller Number issued to such a customer shall be considered to be held by the customer and not the client. All restrictions or regulations provided in 169.212 shall be applicable to the provision of Caller Service under this section.

g. No physical lockbox shall be used for purposes of obtaining a number for a caller.

h. If a caller is already using a number assigned to a lockbox, the caller may be issued a new caller number to replace it. However, this may be done only with the consent of the caller. (See 169.323 for rate to be charged when a caller holds a number assigned to a lockbox.)

i. Where possible, a post office lockbox presently used by a caller for purposes of obtaining a caller number may be renumbered, or an ALPHA prefix or suffix added to the number, and rented to another party.

j. Caller service may be restricted by postmasters with approval of the District Manager if local conditions justify such restrictions.

##### 1.3 General Caller Service Information

###### 1.31 Caller Service Terms

Services which may have been locally termed as Phantom Box Service, Holdout Service, Firm Direct Service, Firm Holdout Service, Sack Service and miscellaneous other services of similar nature which involved the customer use of a Post Office Box Number as an address and which required the customer pick-up of mail from a postal facility on a regular basis are replaced with Caller Service.

###### 1.32 Carrier Holdout Service and Other Exceptions

a. Caller Service Does Not Include Firm Holdout service provided to customers under provisions of 361 of the Postal Service Manual.

b. Caller Service Does Not Include General Delivery Service.

##### 1.33 Reservation of Caller Numbers

a. Callers of record may reserve caller numbers for future use. Postmasters shall determine which numbers may be reserved and may restrict this service in accordance with local conditions. The fee for this special service is detailed in 169.31.

b. If a caller has reserved a number and subsequently receives mail separated to that number or otherwise notifies the Post Office that he intends to begin receiving mail addressed and separated to that number, then the appropriate semi-annual rate for caller service will be charged and no return of the reservation fee or any part of the reservation fee will be made. If the customer continues to receive mail addressed for separation to the number he will be charged the appropriate caller fee and for the next fiscal year no reservation fee will be charged. (Note exception in § 169.322b.)

##### 1.4 How To Rent a Lockbox or Obtain Caller Service

###### 1.41 Application for Post Office Box, Form 1093

Form 1093, obtainable from any postmaster, must be filled out completely and submitted to the postmaster at the post office where box or caller service is desired. The application will be approved or denied by the postmaster. Furnishing false information on the application is sufficient reason for denial. (See 169.8.)

###### 1.42 Known Applicant

A known applicant shall be issued a box or provided caller service upon submission of Form 1093 and payment of the proper rent or fee.

###### 1.43 Unknown Applicant

a. Applicant must present his driver's license, military ID or other valid identification to postmaster upon submission of the application, Form 1093.

b. Postmasters will verify that the applicant resides or conducts business at the address shown. Verification procedures will be initiated immediately upon receipt of the application. Verification for local customers should be completed within three working days.

c. A box will be assigned or caller service provided immediately upon approval of the application and receipt of box rent or caller fee.

###### 1.44 Minors

Boxes may be rented or caller service extended to minors unless parents or guardians object in writing.

##### 1.5 Conditions of Use

###### 1.51 Individuals

An individual boxholder or caller may receive through his box or caller service mail addressed to himself, his family, relatives or other persons residing in his household whether permanently or temporarily if the mail is properly addressed to the box number.

###### 1.52 Firms, Corporations, Associations or Institutions

A firm, corporation, association, public or private institution may receive through its box or caller service mail addressed to its name, any of its officials, employees, inmates, students, teachers or other individuals associated with the organization if the mail is properly addressed to the box number. (See also § 169.122f.)

###### 1.53 Mail Addressed to a Box Number

Mail addressed only to a box number may be delivered to the boxholder or caller as long as no improper or unlawful business is conducted.

###### 1.54 Updating Application Form

Whenever any information required on Form 1093, Application for Post Office Box,

changes or becomes obsolete it shall be the duty of the boxholder or caller to file a revised box application reflecting such changes. Changes or obsolete information must be updated as soon as noted. (See also § 169.821.)

##### 1.6 Restriction on Use

###### 1.61 Accumulation of Mail

Only matter which has passed through the mail, or official postal notices may be placed in a post office box. Boxholders shall remove mail promptly from their boxes. If mail is to be accumulated for more than 30 days, specific arrangements must be made in advance with the postmaster.

###### 1.62 Unlawful Activity

No post office boxes or caller service may be used for or in connection with a scheme or enterprise which:

a. Violates any Federal, State or local law;

b. Breaches an agreement with a Federal, State or local agency whereby the boxholder has agreed to discontinue a specified activity, or

c. Violates or attempts to evade any order of a court or administrative body.

###### 1.63 Forwarding

Boxes and Caller numbers may not be used when the sole purpose is, by subsequently filing change of address orders, to have mail forwarded or transferred to another address by the Postal Service free of charge.

##### 169.2 LOCKBOX SERVICE RENTAL RATES AND FEES

###### 2.1 Changes in Rates

a. Revisions of lockbox rental rates and fees may be made effective at any time. If rates for the rental of a lockbox are changed by reason of a general rate change, discontinuance of a post office and reestablishment of same as a station or branch of another post office or the extension of carrier delivery service, no customer shall be made to pay at the newly established rate until the end of the current semi-annual period for which he has already paid. Box customers will receive specific notice when such a change is made.

Customers shall pay the difference, if any, between the old rate and the new rate for any period paid in advance of their current period if rates are changed.

b. Rates listed are for a semi-annual or 6-month period. One or two periods may be paid at a time. (See also § 169.526.)

###### 2.2 Key Fee

Keys for key-type lockboxes shall be issued to customers upon receipt of payment of \$1.00 for each key. This shall apply to all keys, including those initially issued to new customers. Account for payments for keys the same as box rents. However, issue Form 3544, Non-Postal Receipt. Other key information is in 169.4.

###### 2.3 Rental Rate Groups

###### 2.31 Three Groups for Establishment of Lockbox Rents

Three groups are established for the determination of lockbox rental rates. These groups are called Group 1, Group 2 and Group 3.

###### 2.32 New Groups as Related to Previously Established Groups

In general the new groups are related to the previously established groups in the following manner:

a. Group 1 is subdivided into five subgroups called Subgroup A, B, C, D and E. These subgroups correspond to previously established Groups A, B, C, D and E respectively.

b. Group 2, is subdivided into three subgroups called Subgroup F, G or H. These subgroups correspond to previously established Groups F, G and H respectively.

c. Group 3 corresponds to previously established Group I (eye) which was used exclusively in offices otherwise known as 4th Class Post Offices.

###### 2.33 Assignment of Subgroups in Group 1

a. Facilities established prior to July 1, 1973 which were classified as Group A, B, C, D or E at that time shall use Subgroup A, B, C, D or E lockbox rental rates respectively.

b. All mail processing facilities not under the administration of a post office and new post offices providing city carrier service established after July 1, 1973 shall use Subgroup A lockbox rental rates.

c. Facilities established after July 1, 1973, which are under the administration of a post office providing city carrier delivery service, shall be subject to the same lockbox rental rates as those applicable to the main post office.

d. If a post office is discontinued and re-established as a station or branch of another post office, then that facility will be subject to the same lockbox rental rates as those applicable to the main office.

e. Post offices initiating city carrier delivery service after July 1, 1973 are to charge at Subgroup A rental rates.

###### 2.34 Assignment of Subgroups in Group 2

a. Facilities established prior to July 1, 1973 and which were classified as Group F, G or H at that time shall charge at Subgroup F, G or H lockbox rental rates respectively except as provided in 169.242c.

b. Facilities which were established as Group F, G, H or I on or before July 1, 1973, but which have experienced any of the changes listed in 169.233 shall charge rents at the appropriate new levels as indicated by the changes.

2.34c. Post Offices established after July 1, 1973, not providing city carrier delivery service shall charge at Group 2, Subgroup F rates.

##### 169.235 ASSIGNMENT IN GROUP 3

Post offices with 35 or fewer Revenue Units shall charge at Group 3 rates unless or until:

a. They were classified as Group A, B, C, D, E, F, G or H on or before July 1, 1973, in which case they will charge rents at Subgroup A, B, C, D, E, F, G or H respectively.

b. They exceed 35 Revenue Units in which case they will charge rents at Group 2, Subgroup F if city carrier has not been established, or at Group 1, Subgroup A if city carrier delivery is established.

##### 2.4 Rental Rate Group Application Rules for Customers

###### 2.41 Group 1 Rates, General Rule

Group 1 rates are charged to customers for whom the rental of a lockbox constitutes a premium delivery service. If a customer has available to him or if he is otherwise eligible for delivery by carrier, then his lockbox is a premium means of delivery and he shall be charged at Group 1 rates.

###### 2.42 Group 1 Rates, Specific Application

a. In mail processing facilities not under the administration of a post office, all customers shall be charged at the appropriate Group 1, Subgroup A rates.

b. Post offices providing city carrier delivery shall normally charge all customers at the appropriate Group 1 rates in all of their facilities except that a customer eligible for Group 2 rates in that post office may rent one lockbox at Group 2, Subgroup F rates (See 169.244).

## RULES AND REGULATIONS

c. Post offices not providing city carrier delivery shall charge Group 1, Subgroup A rates to any customers who do any one of the following:

(1) Give as a permanent address of residence or business a different post office or city from that where the box is rented.

(2) Are located on or receive service from a rural carrier route.

(3) Rent more than one lockbox. (First box excepted.)

d. The qualification of a business, association, organization, church or other institution to rent a box at Group 1 or Group 2 rates shall be determined separately from the qualification of any associated person.

## 243 Group 2 Rates, General Rule

Group 2 rates are charged customers who do not have available to them, or who are not eligible for, delivery by carrier. Thus, the basic delivery service available to them is more restricted than that available to those who are charged Group 1 rates. However, the use of a lockbox represents a premium service as compared with general delivery.

## 244 Group 2 Rates, Specific Application

a. In mail processing facilities not under the administration of a post office, no customer shall be eligible for Group 2 box rental rates.

b. Post offices providing city carrier delivery service shall charge Group 2, Subgroup F rates to customers who:

(1) Are not eligible for and do not receive carrier delivery because of the provisions of Part 156 or Part 156 of the Postal Service Manual and are not served by another post office; or

(2) Are resident in or have a place of business in an area not served by carrier and where an agreement has been made between the postmaster and all customers in that area that delivery will not be provided by carrier but by post office box at a postal facility. Such customers may rent one lockbox at Group 2, Subgroup F rates. They may rent additional lockboxes at the appropriate Group 1 rates.

c. The qualification of a business, association, organization, church or other institution to rent a box at Group 1 or Group 2 rates shall be determined separately from the qualification of any associated person.

## 245 Group Three Rates

All lockboxes in post offices with 35 or fewer Revenue Units shall be charged for at the established Group 3 rates without exception. Postmasters shall make every effort to reserve boxes in such offices for local customers.

## 25 General Delivery

Customers who are eligible to rent a post office box at Group 2 rates but who in fact do not rent a lockbox may be extended no more than one separation in General Delivery without time limit. Any caller separations utilized in addition to the one General Delivery separation by such customers shall be charged for at the full caller rate. Customers who are not eligible to rent a post office lockbox at Group 2 rates may not receive General Delivery for periods longer than 30 days except as provided in Part 113 of the Postal Service Manual.

## 26 Facilities Primarily Serving Academic Institutions

## 261 Boxes Owned by the Institution

The Postal Service shall not set or collect rent for boxes owned by an academic institution if the boxes are separate from designated Postal Service areas and serviced by employees or agents of the institution. The institution may set and collect rent for such

boxes, but the revenues shall not be considered to be Postal Service funds. In all other cases rents shall be collected as otherwise provided in 169.2 and the Postal Service shall retain the revenues.

## 262 Adjustment of Rental Rates to Meet Semester Schedules

In facilities primarily serving academic institutions or the students of such institutions, box rental rates may be adjusted to better fit the semester schedules as follows:

Period for Box Rental	Adjusted rate
95 days or less	$\frac{1}{2}$ semi-annual rate.
96 to 140 days	$\frac{3}{4}$ semi-annual rate.
141 to 190 days	Full semi-annual rate.
191 to 230 days	$1\frac{1}{4}$ semi-annual rate.
231 to 270 days	$1\frac{1}{2}$ semi-annual rate.
271 days to full year	Full annual rate.

Round off fractions to next highest ten cents. Make no refunds for discontinued service when box has been rented under these provisions.

## 27 Rental Rates for Lockboxes

Box size	Cubic inch capacity of lockboxes				
	To 265	266 to 500	501 to 1000	1001 to 2000	2001 and over
Group 1:					
Subgroup A	12.50	15.00	20.00	25.00	30.00
Subgroup B	10.00	14.00	17.50	20.00	27.50
Subgroup C	8.00	10.00	12.50	17.50	22.50
Subgroup D	7.00	8.00	10.00	15.00	17.50
Subgroup E	5.50	6.50	7.50	12.50	15.00
Group 2:					
Subgroup F	2.50	3.00	4.00	6.00	7.50
Subgroup G	2.00	2.50	3.00	4.50	6.00
Subgroup H	1.50	2.00	2.50	3.50	4.00
Group 3:	1.00	1.00	1.00	1.00	1.00

## 28 Effective Date of Lockbox Rental Rates

The foregoing rates shall be effective July 1, 1975 for all periods of service beginning on or after July 1, 1975. Postmasters shall collect these rents and fees during the last 20 days of June 1975 as provided in these regulations.

## 169.3 CALLER SERVICE RATES AND FEES

## 31 Reserved Number Fee

Each number reserved by a customer for future use shall be charged for at the rate of \$10 per Postal fiscal year or any part of such a fiscal year. Account for these revenues in the same manner as box rent.

## 32 Caller Service Fees

## 321 When Rates are Effective

Revisions in caller service rates and fees may be made effective at any time. When rates are changed, customers shall pay at the newly established rate at the end of the current semi-annual period for which they have already paid. If customers have paid for an annual period, then at the end of their current semi-annual period they shall pay the difference, if any, between the new rate and that which they have already paid for the second semi-annual period. One or two periods may be paid at a time.

## 322 Basic Caller Service Fee

a. General Rule. The basic fee for Caller Service for semi-annual periods beginning on or after July 1, 1975 to be applied to each Caller Number or Separation used shall be \$35.00. Account for these revenues the same as box rent. (See also 169.122e.)

b. Exceptions. If a Caller utilizes many post office box numbers but receives only a bulk delivery of his mail, not separated to those numbers either because his mail is sorted to a unique five-digit ZIP Code held only by him or because sortation is made by caller name or other identification, then the Caller shall be charged the basic caller fee for each separation actually made. He shall be charged the reserved number fee for each of the post office box numbers to which mail received by the caller is addressed.

c. Local Agreements. No local agreements between postmasters and Caller Service or Lockbox Service customers shall be established which shall in any way contravene the provisions of these regulations with respect to the determination or collection of Caller Service fees.

## 323 Caller Numbers Which are Also Assigned to a Lockbox

a. If a caller presently uses a physical lockbox for purposes of obtaining a caller number, then he must pay the appropriate rental fee for the lockbox in addition to the caller service fee.

b. Customers presently holding more than five lockboxes in any one facility must pay the appropriate rental fee for all of their lockboxes plus the caller service fee for all lockboxes they hold in excess of five.

## 169.4 Equipment: Keys, Locks and Boxes

## 41 Keys

## 411 Issuance of Keys

Customers utilizing key-type lockboxes will be supplied with keys according to their needs upon payment of the key fee for each key issued.

## 412 Restriction on Source of Keys

Customers utilizing post office lockboxes are not permitted to obtain or use any keys except those issued through the Postal Service.

## 413 How to get new or additional keys

Customers may obtain keys by submitting Form 1094, Application for Additional Keys to Post Office Box. Customers will pay the appropriate key charges at that time.

## 414 Refund of Key Fee

This section shall be applicable only to boxholders renting a key-type box for the first time on or after July 1, 1975.

Upon termination of rental the Postal Service will refund to boxholders the purchase price for up to two keys if such keys are returned to the post office where the box was rented. Use Form 1096 as the receipt but account for funds returned the same way as for box rents or fees returned.

## 415 Worn or Broken Keys

Worn or broken keys are replaced without charge if the keys are returned.

## 416 Acceptance of Orders for Additional or New Keys

Postmasters shall not hold orders for new or additional keys for more than 24 hours. Key orders should not be consolidated except for general orders for keys for an entire unit of lockboxes. Process all orders for keys as rapidly as possible.

## 417 Key Inventory Maintenance

At least three keys must be provided for each keylocking lockbox. Keep at least one key on hand at all times for issuance upon submission by boxholder of Form 1094. Upon issuance of the spare key, regulation a replacement. Withdraw keys in excess of reserve requirements, tag to indicate the key

or lock number, file numerically and store in a safe place.

## 42 Boxes

## 421 Surrender of Keyless Boxes

When a keyless box is surrendered, change the combination before reassignment.

## 422 Surrender of Key Boxes

When a customer surrenders his box and fails to return all keys, send Form 1099, Notice to return keys to the customer's new address.

## 43 Locks

Do not rent boxes having broken locks. When the lock on a rented box is broken, replace the lock and issue the same number of keys to the customer as had been issued to him for the broken lock. Make no charge for these keys. Do not force customer to change boxes or box numbers due to the failure of postal equipment.

## 44 Changing Locks

Always change the lock immediately when a key type box is surrendered.

## 169.5 INTERNAL CONTROLS, RECORD KEEPING AND RENT PAYMENT

## 51 Record of Boxholders

Keep a record of boxes, boxholders and callers on Form 1091, Box Rent Register for Keylocking and Keyless Equipment in five files as follows:

a. Cards for vacant boxes in numerical sequence.

b. Cards for boxes rented for one semi-annual period, by month rent is due and in numeric sequence within the month.

c. Cards for boxes rented for two semi-annual periods, by month rent is due and in numeric sequence within the month.

d. Cards for callers paid for one semi-annual period, by month fee is due and in numeric sequence within the month.

e. Cards for callers paid for two semi-annual periods, by month payment is due and in numeric sequence within the month.

## 52 Payment of Box Rent and Caller Fees

## 521 Purpose

This section establishes semi-annual payment periods for customers that are not bound by the Postal Service fiscal year.

## 522 Rent Paid in Advance

Box rent and caller fees must be paid in advance for no less than a semi-annual or no more than an annual period. Fees and rent may be paid by check to postmasters. However, checks sent by mail must be received by the postmaster by the due date.

## 523 Receipt

A Form 1538, Box Rent Receipt, will be given for each box rent or caller payment except that:

a. Boxholders or callers who hold more than one box or caller number may be issued one receipt for payment for all of their box and caller numbers.

b. Maintain a separate list of such multiple number customers showing numbers used, customer name, fee charged and normal due date for each. Mark receipt with the number (count) of boxes or caller numbers paid for at that time.

## 524 Payment Periods

Payment may be made for any six or twelve consecutive months. The beginning of a payment period is established on the date of the approval of the application to rent a box.

## RULES AND REGULATIONS

## 525 How a Customer May Change His Payment Period Date

Boxholders of record may change their payment period by submitting a new application to rent a box and noting on the application the month they wish to use as the start of their payment period. This date must be before the end of their current payment period and rents and fees already paid will not be refunded or applied to the new payment period, except that a remaining period of six (6) months or more will be applied to six (6) months of the new payment period.

## 526 Boxholders and Callers of Record

Boxholders and callers of record may, during the last month of their rental period, pay rent for their next semi-annual or annual payment period.

## 527 Rented Before 15th of Month

If a lockbox is rented by a new boxholder on or before the 15th of any month the rental period shall be from the first day of that month. If rented after the 15th day of the month the rental period shall be computed from the first day of the following month.

## 53 Notices

531 Notices of rent due, Notice 32, shall be placed in boxes or handed to callers 20 days before rent is due. If a boxholder or caller is temporarily out of town, and if he has filed a temporary forwarding order, the notice will be sent to him.

532 Notices to government agencies paying rent and fees on an annual basis will be postmarked before release and will show the box number(s) and the amount due for one year.

## 54 Past Due Box Rent or Caller Fee

## 541 Boxes

a. Plug the Lock or Change the Combination if a Lockbox Customer Fails To Pay Rent by the Due Date and has not submitted a change of address order or otherwise indicated that he is terminating the service.

b. Prohibition of Access to a Key-Type Lock may be accomplished according to the following diagram. If key-stops are available, use them but if they are not available use a paper clip. Do Not Order any Key Stops. They Are a Discontinued Item but May Be Used Until Stock on Hand is Exhausted.

c. Continue to Distribute the Mail to the Box for up to 10 Days. If at the end of that time the customer has not paid the rent or left other instructions, remove the mail from the box and treat that mail and any subsequent mail addressed to the customer at

that box as undeliverable mail unless it is possible to deliver it by carrier or general delivery.

d. At the End of 10 Days Close the Box if the customer has not paid his rent or submitted other instructions.

e. If the Customer Pays His Rent unplug the lock or notify him of his new combination.

## 542 Callers

a. If a caller fails to pay his fee by the due date and does not submit a change of address order and does not attempt to obtain his mail, retain his mail for a period not exceeding 10 days, then treat his mail as undeliverable mail unless it may be readily delivered by carrier.

b. If a caller fails to pay his fee by the due date and attempts to obtain his mail within 10 days, explain to him or his agent that at the end of the tenth day after the due date, if payment or a change of address order is not received his mail will be delivered to his street address and that he will lose the use of his post office or caller box number(s) and may not obtain his mail at the postal facility. Continue to give him his mail until the end of the ten day period, but do not provide him in excess of one separation (in case multiple separations had been provided) during that period.

## 55 When a Box Is Surrendered

## 551 Rental of a Surrendered Box

If a customer surrenders a box before the end of the payment period, the box may be rented to another customer after 15 days. If the box has been closed by the Judicial Officer, the box may be rented to another customer after 20 days. (See Section 169.8.)

## 552 Surrender of a Box

A box shall be considered to have been surrendered if:

a. The boxholder submits a permanent change of address order.

b. The boxholder refuses or fails to pay appropriate rent or fees by the due date.

c. The boxholder submits in writing an order to discontinue service.

## 553 Nonsurrender of a Box

A box shall not be considered to have been surrendered if:

a. The boxholder dies or disappears before the end of the period for which he has rented the box.

b. The boxholder submits a temporary change of address order.

c. There is a change of address order issued for mail going to the box by any person other than the boxholder.

## 554 Refund of Box Rent and Caller Fees

When a lockbox is closed or surrendered or Caller Service discontinued, no portion of the rent or fees shall be refunded to a customer who has paid on a semi-annual basis. A customer who has paid on an annual basis and who discontinues service before the end of his annual period may apply for a refund of that portion of his payment that is applicable to a full, remaining semi-annual period.

## 169.6 Operations

## 61 Placing in Boxes

Place mail addressed to post office boxes in proper boxes immediately after distribution. If the flow of the mail allows it and no lengthy delays will occur, attempt to place larger items such as newspapers, catalogs and magazines in boxes prior to placing smaller items such as letter mail and flats into the boxes.

## RULES AND REGULATIONS

## .62 Withdrawal From Boxes

Mail may be delivered to authorized persons who have forgotten their key or cannot open their box. However, mail should not be handed out to persons properly supplied with keys who can open their boxes but who make it a practice of requesting that their mail be given to them.

## .63 Delivery by Carrier

Do not remove mail from boxes of address for delivery by carrier except for the case of box service discontinued due to failure to pay rent.

## .64 Multi-Pickup Callers

Callers who desire to call at a postal facility for their mail more than once in any 24 hour period as a regular practice shall make provisions with the postmaster for the establishment of a proper and reasonable schedule of pick-up. Postmasters shall determine the times and places most satisfactory to the post office.

## .65 Standards

## .651 Box Service

If the postmaster determines that safety and security provisions allow it and if he determines that there is sufficient public demand, then he may keep the box lobby open to the public 24 hours per day.

## .652 Caller Service

Caller service shall be provided during normal hours of business. Caller service may be provided at all other hours during which mail is undergoing distribution within the facility if it is consistent with normal operations.

## .66 Changes of Address Order

## .661 Standard Procedure for Use in Facilities Without Central Markup System

a. When the number of Forms 3575, Change of Address Order, average five or more per month, maintain a change of address order book (supply item 0-391-M) in the box and caller section.

b. Use a separate address change sheet, Form 1564, for each letter of the alphabet separated by item 0-89(b), Index.

c. As Forms 3575 are received, post pertinent information chronologically on appropriate sheet. Make appropriate entries on Forms 1564 whenever a former boxholder fails to furnish a forwarding order at the time he surrenders a lockbox or when it is closed for nonpayment of rent.

d. Maintain one set of Forms 1564 at the main office, station or branch providing the service.

e. After entry to Forms 1564, file Forms 3575 chronologically by months or alphabetically, in a manner that will permit withdrawal at the end of the month after requests are 2 years old. See 158.2 for forwarding time limit.

f. If the number of requests on Form 3575 averages less than 5 per month follow the same procedure except that Forms 3575 may be filed in alphabetical order and used for reference purposes in lieu of a register.

## .662 Flag Boxes

a. White labels identify lockboxes for which there are no entries on Forms 1564. Use a colored label or a colored dot or tab applied to a white label to identify all boxes for which there ARE entries on Form 1564 and for which mail may be received addressed to other than the current boxholder.

b. If a box has changed hands more than 3 times in the last year use any reasonable means in addition to colored labels or dots that will identify this box as one which will probably receive mail addressed to other than the current boxholder.

c. If desired, the dates on which colored labels should be replaced with white labels or dots or tabs removed from white labels may be shown on the labels. Except for these dates only information relating to the name of the current boxholder shall be shown on any label. No data pertaining to the forwarding address of the former boxholder shall be placed on labels either before or after rental of the box.

d. Case all mail addressed to color coded boxes, other than that addressed to or in care of the current boxholder, to a single separation for determination of forwarding address from Forms 1564. If no forwarding address is on record, distribute the mail to the boxes as addressed unless the boxholder of record advises that mail for the addressee shall not be placed in his box.

e. Mail rejected by the boxholder shall be treated as undeliverable mail unless it may be readily delivered by carrier.

f. Replace Colored Labels With White Labels or Remove Colored Dots or Tabs From White Labels Immediately Following Termination of a Forwarding or Change of Address Order or as Soon as It Is Apparent That a Need for the Color Coding No Longer Exists.

## 169.7 (Reserved)

## 169.8 Refusal To Provide Service.

## .81 Refusal To Provide Service to a New Customer.

## .811 Postmaster's Authority.

A postmaster may refuse to rent a post office box or extend caller service to any person if he has reason to believe that such person:

a. has falsified the application or has, within the previous 2 years, physically abused a box or violated any regulation or contractual provision relating to the care and use of a box or caller service; or

b. is likely to use a box or caller service in connection with a scheme or enterprise in violation of 169.162.

## .812 Customer's Right of Appeal

Whenever the rental of a post office box or the extension of new (or additional) caller service is refused, the postmaster shall, upon written request made within 10 days, furnish the applicant with the reasons for such refusal in writing. Where the refusal to rent or extend is based in whole or in part upon the grounds specified in 169.811, an appeal may be taken in the same manner and subject to the same limitations as where a Notice of Intent To Close a Post Office Box (or to terminate caller service) has been issued. (See 39 C.F.R. 958.)

## .82 Refusal To Continue To Provide Service to a Current Customer

## .821 Postmaster's Authority

Postmasters do not have authority to close a post office box or terminate caller service without referral to higher authority except in cases of failure to pay rent or where the boxholder has clearly and unequivocally given up the box or abandoned it under the conditions given in 169.552.

## .822 Grounds for Closure or Refusal To Renew

A box may be closed or caller service terminated whenever the boxholder has falsified the application for the box or has violated, or is violating, any of the regulations or contractual terms or conditions relating to its care and use.

## .823 Procedures

Postmasters or any other postal officials who have reason to believe that any regulation or contractual provision governing the rental or use of a post office box or caller

service has been or is being violated shall send a report of the facts, with any supporting documents to the General Counsel.

## .824 Notice of Intent To Close a Post Office Box

Whenever the General Counsel is in receipt of substantial evidence which he believes warrants the closing of a post office box or the termination of caller service, he may issue Notice of Intent To Close a Post Office Box (or to terminate caller service). Such notice shall state clearly the reasons for the contemplated action and inform the boxholder or caller of his right to appeal this determination to the Judicial Officer, United States Postal Service, Washington, D.C. 20260.

## .825 Service of Notice

The Notice of Intent To Close a Post Office Box (or terminate caller service) may be served on the boxholder or caller by certified mail, with restricted delivery, addressed to his post office box or other address. Obtain a return receipt therefor and forward immediately to the General Counsel. If restricted delivery cannot be made, deposit the notice in the box or in the receptacle provided for the caller for delivery as ordinary mail and this shall constitute valid service. Complete a post office delivery receipt, Form 3849, and send to the General Counsel. Endorse both the Form 3849 and the return receipt for the certified mail to show that restricted delivery could not be made and that the notice was delivered as ordinary mail. An order of the Judicial Officer closing a post office box or terminating caller service or affirming the refusal to grant an original or renewal application for such box or caller service shall bar the granting of any similar application wherever made, by or on behalf of the person involved, until such order has been revoked, amended or modified by the Judicial Officer.

## .826 Right of Appeal

a. An appeal taken from a Notice to Close a Post Office Box (or to terminate caller service) issued under 169.82 must be filed with the docket clerk no later than 20 days after service of such notice. (See 39 CFR 958.3.)

b. If no appeal is taken within 20 days after service of the Notice of Intent to Close a Post Office Box (or to terminate caller service), the box may be closed or the caller service terminated by order of the General Counsel without further notice to the boxholder or caller.

## .83 Disposition of Mail

When a box has been closed or caller service terminated pursuant to 169.81 or 169.82 or by the order of the Judicial Officer, notify the boxholder or caller and transfer mail addressed to the box or to the box number assigned to the caller to general delivery. Hold the current time limitation for forwarding orders. At the end of the applicable period, all mail addressed to the caller shall be handled as undeliverable. However, this shall not preclude compliance with sender's request in accordance with 122.32.

A Post Office Services (Domestic) transmittal letter making this change in the pages of the Postal Service Manual is in the process of being published and will be transmitted to subscribers automatically as soon as possible. Notice of the issuance of this transmittal letter will be published in the usual manner in the FEDERAL REGISTER through an appropriate amendment to 39 CFR 111.3.

(39 U.S.C. 401, 404)

LOUIS A. COX,  
General Counsel.

## RULES AND REGULATIONS

## PART 310—ENFORCEMENT OF THE PRIVATE EXPRESS STATUTES

## PART 320—SUSPENSION OF THE PRIVATE EXPRESS STATUTES

## Correction and Clarification

On September 16, 1974, the Postal Service published regulations under the Private Express Statutes as 39 CFR Parts 310 and 320, to take effect on October 20, 1974. The Postal Service now amends its regulations in Parts 310 and 320 to correct three errors that have been discovered in the regulations as originally published. (A missing word "or" was inserted in § 310.1(a) (7) (vii) by publication at 39 FR 36114 (Oct. 8, 1974).) The changes are described as follows:

Section 310.1(a) (7) (v) is amended to make clear that books—as well as catalogs—are not considered to be letters for purposes of the Private Express Statutes. The line between what are considered letters and what are not considered letters is drawn on the basis of number of pages, since short printed reports, price lists, and other bound matter constitute "messages" that may have all the attributes of "letters", as defined in § 310.1 (a), and have physical characteristics similar to other personal and business communications. The line of "24 or more bound pages with at least 22 printed" has simply been borrowed from § 134.121 of the Postal Service Manual, where it has long served as a guide to what is included within the meaning of "books or catalogs" for certain rate classification purposes. It has, however, no necessary connection with the classification schedule, and the exceptional tie to the classification schedule reflected in unamended § 310.1(a) (7) (v) has been severed since this tie produced an unintended result in private express administration.

Section 310.7 is amended to make clear that changes in Part 320 as well as in Part 310 will be made only in accordance with the rulemaking provisions of the Administrative Procedure Act.

Section 320.3(b) is amended to correct a misprint in which the word "contained" appeared in lieu of the proper word, "carried".

Because these changes are corrective and clarifying only, because they are limited in scope, and because they relieve a restriction that might otherwise appear to exist, the Postal Service finds that publication for comment or publication in advance of the effective date is unnecessary and would be contrary to the public interest. The Postal Service will, however, entertain any comments on these changes that the public may wish to submit.

Accordingly, the following amendments are effective immediately:

1. In § 310.1, paragraph (a) (7) (v) is revised to read as follows:

## § 310.1 Definitions.

(a) . . .  
(7) . . .

(v) Books and catalogs consisting of 24 or more bound pages with at least 22 printed, and telephone directories.

2. Section 310.7 is revised to read as follows:

## § 310.7 Amendment of regulations.

Amendments of the regulations in this part and in Part 320 may be made only in accordance with the rulemaking provisions of the Administrative Procedure Act.

## § 320.3(b) [Amended]

3. In § 320.3(b) the word "contained" in the second sentence is changed to "carried."

(39 U.S.C. 401, 404, 601-606 (18 U.S.C. 1693-99, 1724))

ROGER P. CRAIG,  
Deputy General Counsel.

[FR Doc.75-13971 Filed 5-28-75; 8:45 am]

## Title 45—Public Welfare

## SUBTITLE A—DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, GENERAL ADMINISTRATION

## PART 63—GRANT PROGRAMS ADMINISTERED BY THE OFFICE OF THE ASSISTANT SECRETARY FOR PLANNING AND EVALUATION

On January 8, 1975, a document was published in the FEDERAL REGISTER (40 FR 1516) proposing to amend 45 CFR Subtitle A by adding a new part 63 establishing rules for the award and administration of grants by the Office of the Assistant Secretary for Planning and Evaluation, Department of Health, Education, and Welfare, hereafter referred to as the Assistant Secretary.

All comments supported adoption of the rules. However, as a result of the comments and further Departmental analysis, the following changes are made.

The title of the proposed rules and the Purpose and scope, § 63.1, raised a number of questions concerning the applicability and scope of the program. To clarify this, the title of Part 63 is changed to indicate that the regulations apply only to the grant programs administered by the Office of the Assistant Secretary for Planning and Evaluation. In addition, § 63.1, Purpose and scope, has been redrafted to identify the various programs from which grants may be awarded under these regulations. The revised section also describes the overall objectives of the policy research program, which is the only program under which the Assistant Secretary plans to award grants in FY-75. The new language lists the statutory authorities for the Assistant Secretary's grant programs, cites the regulations for determining if an award shall be by grant or contract, and identifies the regulations which govern contracts awarded by the Assistant Secretary.

A new section, § 63.8 has been added to identify and clarify the relationship among the supplemental regulations and conditions affecting grants awarded by the Assistant Secretary. It identifies the specific regulations and statutory provisions which apply to grants awarded by the Assistant Secretary under Section 232 of the Community Services Act. It further provides for the timely identification in the Federal Register of any other regulations which would be ap-

plicable to future programs under which the Assistant Secretary may make grants. Finally, it brings together in one place a listing of the major Departmental regulations which will apply to all grants awarded by the Assistant Secretary.

To make the policies compatible with overall Departmental policy, three new sections have been added and one existing section has been expanded. They are: § 63.22, *Cost sharing, provides for cost sharing as required by law for DHEW grants.*

Section 63.32, *Data collection instruments*, has been supplemented with two paragraphs defining the responsibility for collection of information, and the requirement for parental consent when children are involved as respondents.

Section 63.38, *Publications*, provide for the customary acknowledgement of Federal assistance for publications resulting from grants.

Section 63.39, *Religious worship or instruction*, restricts the use of Federal funds in those areas.

In addition, a number of editorial changes were made, the term Assistant Secretary was defined (§ 63.2), and a central address was established for applications and questions on the interpretation of regulations and administration of grants (§ 63.3).

These regulations are issued under the authority of section 602 of the Community Services Act of 1974 (42 USC 2942) and section 1110 of the Social Security Act (42 USC 1310).

*Effective date.* This part was published for comment on January 8, 1975, and all changes reflect established policies and practices which are generally in effect for Departmental grant programs. Therefore, Subtitle A of Title 45 of the Code of Federal Regulations is amended by adding a new Part 63 as follows. effective.

Dated: May 2, 1975.

WILLIAM A. MORRILL,  
Assistant Secretary for  
Planning and Evaluation.

Approved: May 22, 1975.

CASPAR W. WEINBERGER,  
Secretary of Health,  
Education, and Welfare.

AUTHORITY: Sec. 602, Community Services Act (42 U.S.C. 2942); Section 1110, Social Security Act (42 U.S.C. 1310).

## Subpart A—General

## § 63.1 Purpose and scope.

(a) *Applicability.* Except to the extent inconsistent with an applicable Federal statute the regulations in this part apply to all grant awards of Federal assistance made by the Assistant Secretary for Planning and Evaluation or his designee, hereinafter referred to in this part as the Assistant Secretary. Such grants include those under section 232 of the Community Services Act (42 USC 2825), section 1110 of the Social Security Act (42 USC 1310), and such other authority as may be delegated to the Assistant Secretary for policy research activities.

(b) *Exceptions to applicability.* The award and administration of contracts and cooperative agreements by the Assistant Secretary shall not be covered by this subchapter. Contracts entered into by the Assistant Secretary shall be subject to the regulations in 41 CFR Chapters 1 and 3. Generally, the Assistant Secretary will select between grant and contract procedures and instruments, both with regard to the solicitation process and with respect to unsolicited proposals, on the basis of criteria set forth in the proposed revision of 41 CFR 3-1.53 published at 39 FR 27469 at any subsequent revision thereof.

(c) *Overall objective.* The overall objective of policy research activities is to obtain information, as it relates to the mission of the Department of Health, Education, and Welfare, about the basic causes of and methods for preventing and eliminating poverty and dependency and about improved methods for delivering human resources services. Such information is obtained through the conduct of basic and applied research, statistical analyses, and demonstrations and evaluations which have demonstrated a high probability of impacting on the formulation or modification of major Departmental policies and programs.

## § 63.2 Eligibility for award.

(a) *Groups and organizations eligible.* Except where otherwise prohibited by law, any public or nonprofit private agency, institution, or organization which is found by the Assistant Secretary to be authorized and qualified by educational, scientific, or other relevant competence to carry out a proposed project in accordance with the regulations of this

subchapter shall be eligible to receive a grant under this part.

(b) *Project eligible.* Any project found by the Assistant Secretary to be a research, pilot, evaluation, or demonstration project within the meaning of this section and § 63.1 shall be eligible for an award. Eligible projects may include planning, policy modeling or research utilization studies; experiments; demonstrations; field investigations; statistical data collections or analyses; or other types of investigation or studies, or combinations thereof, and may either be limited to one aspect of a problem or subject, or may consist of two or more related problems or subjects for concurrent or consecutive investigation and may involve multiple disciplines, facilities, and resources.

## § 63.3 Program announcements and solicitations.

(a) In each fiscal year the Assistant Secretary may from time to time solicit applications through one or more general or specialized program announcements. Such announcements will be published in the FEDERAL REGISTER as notices and will include:

(1) A clear statement of the type(s) of applications requested;

(2) A specified plan, time(s) of application, and criteria for reviewing and approving applications;

(3) Any grant terms or conditions of general applicability (other than those set forth in this part) which are necessary (i) to meet the statutory requirements of applicable legislation, (ii) to assure or protect the advancement of the project, or (iii) to conserve grant funds.

(b) *Applications for grants.* Any applicant eligible for grant assistance may submit on or before such cutoff date or dates as the Assistant Secretary may announce in program solicitations, an application containing such pertinent information and in accordance with the forms and instructions as prescribed herein and additional forms and instructions as may be specified by the Assistant Secretary. Such application shall be executed by the applicant or an official or representative of the applicant duly authorized to make such application. The Assistant Secretary may require any party eligible for assistance under this subchapter to submit a preliminary proposal for review and approval prior to the acceptance of an application submitted under these provisions.

63.3(c) All applications and preliminary proposals should be addressed to:

Grants Officer, Office of the Assistant Secretary for Planning and Evaluation, Department of Health, Education, and Welfare, 330 Independence Avenue, SW., Room 5027, Washington, D.C. 20201.

## § 63.4 Cooperative arrangements.

(a) Eligible parties may enter into cooperative arrangements with other eligible parties, including those in another State, to apply for assistance.

(b) A joint application made by two or more applicants for assistance under

this subchapter may have separate budgets corresponding to the programs, services and activities performed by each of the joint applicants or may have a combined budget. If joint applications present separate budgets, the Assistant Secretary may make separate awards, or may award a single grant authorizing separate amounts for each of the joint applicants.

(c) In the case of each cooperative arrangement authorized under paragraph (a) of this section and receiving assistance, except where the Assistant Secretary makes separate awards under paragraph (b) of this section all such applicants (1) shall be deemed to be joint legal recipients of the grant award and (2) shall be jointly and severally responsible for administering the project assisted under such grant.

## § 63.5 Effective date of approved grant.

Federal financial participation is normally available only with respect to obligations incurred subsequent to the effective date of an approved project. The effective date of the project will be set forth in the notification of grant award. Grantees may be reimbursed for costs resulting from obligations incurred before the effective date of the grant award if such costs are authorized by the Assistant Secretary in the notification of grant award or subsequently in writing, and otherwise would be allowable as costs of the grant under the applicable regulations and grant terms and conditions.

## § 63.6 Evaluation of applications.

(a) *Review procedures.* All applications filed in accordance with § 63.3 shall be evaluated by the Assistant Secretary through officers, employees, and such experts or consultants engaged for this purpose as he/she determines are specially qualified in the areas of research pursued by this office. The evaluation criteria below will be supplemented each fiscal year by a program announcement outlining priorities and objectives for policy research, and by other general or specialized solicitations. Such supplements may modify the criteria in paragraph (b) of this section to provide greater specificity or otherwise improve their applicability to a given announcement or solicitation.

(b) *Criteria for evaluation.* Review of applications under paragraph (a) of this section will take into account such factors as:

(1) Scientific merit and the significance of the project in relation to policy objectives;

(2) Feasibility of the project;

(3) Soundness of research design, statistical technique, and procedures and methodology;

(4) Theoretical and technical soundness of the proposed plan of operation including consideration of the extent to which:

(i) The objectives of the proposed project are sharply defined, clearly stated, and capable of being attained by the proposed procedures;

(ii) The objectives of the proposed project show evidence of contributing to the achievement of policy objectives;

(iii) Provisions are made for adequate evaluation of the effectiveness of the project and for determining the extent to which the objectives are accomplished; and

(iv) Appropriate provisions are made for satisfactory inservice training connected with project services.

(5) Expected potential for utilizing the results of the proposed project in other projects or programs for similar purposes;

(6) Sufficiency of size, scope, and duration of the project so as to secure productive results;

(7) Adequacy of qualifications and experience, including managerial, of personnel;

(8) Adequacy of facilities and other resources;

(9) Reasonableness of estimated cost in relation to anticipated results; and

(10) Where the applicant has previously received an award from the Department of Health, Education, and Welfare, the applicant's compliance or noncompliance with requirements applicable to such prior award as reflected in past written evaluation reports, memoranda on performance, and completeness of required submissions: Provided, that in any case where the Assistant Secretary proposes to deny assistance based upon the applicant's noncompliance with requirements applicable to a prior award, he shall do so only after affording the applicant reasonable notice and an opportunity to rebut the proposed basis for denial of assistance.

## § 63.7 Disposition of applications.

(a) *Approval, disapproval, or deferral.* On the basis of the review of an application pursuant to § 63.6 the Assistant Secretary will either (1) approve the application in whole or in part, for such amount of funds and subject to such conditions as he/she deems necessary or desirable for the completion of the approved project, (2) disapprove the application, or (3) defer action on the application for such reasons as lack of funds or a need for further review.

(b) *Notification of disposition.* The Assistant Secretary will notify the applicant in writing of the disposition of its application. A signed notification of grant award will be issued to notify the applicant of an approved project application.

## § 63.8 Supplemental Regulations and Grant Conditions.

(a) *Grants under section 232 of the Community Services Act.* (1) Any grants awarded with funds appropriated under section 232 of the Community Services Act shall be subject to the following regulations issued by the Director of the Community Services Administration (formerly the Office of Economic Opportunity):

(2) Part 80 of this title, effectuating the provisions of title VI of the Civil Rights Act of 1964; and

(3) Part 16 of this title, establishing a Departmental Grant Appeals Board for the resolution of specified post-award grant disputes.

## Subpart B—Financial Provisions

§ 63.16 Scope of Subpart.  
This subpart sets forth supplemental financial provisions which apply to all grants awarded by the Assistant Secretary.

## RULES AND REGULATIONS

- 45 CFR 1060.2 (Income Poverty Guidelines)  
45 CFR 1060.3 (Limitation on Benefits to Those Voluntarily Poor)  
45 CFR 1067.1 (Suspension and Termination of Assistance)  
45 CFR 1068.6 (Grantee Compliance with IRS Requirements for Withheld Federal Income and Social Security Taxes)  
45 CFR 1069.1 (Employee Participation in Direct Action)  
45 CFR 1069.2 (Limitations with Respect to Unlawful Demonstrations, Rioting, and Civil Disturbances)  
45 CFR 1070.1 (Public Access to Grantee Information)

No other portions of Chapter X of this title are applicable to such grants.

(2) Grants awarded with funds appropriated under section 232 of the Community Services Act shall also be subject to the applicable statutory requirements in sections 242, 243, and 244, and title VI of the Community Services Act. The Assistant Secretary will advise grantees of the nature of these requirements at or prior to the time of award.

(3) In the event that any provision of this part is inconsistent with a provision of law or a regulation referenced in paragraphs (1) and (2) of this section with respect to any grant funded under section 232 of the Community Services Act, the provision of this part shall, to the extent of any such inconsistency, not be effective.

(b) *Grants under other statutory authority.* Grants awarded by the Assistant Secretary may be subject to regulations, other than those set forth in this part, which have been issued under the authority of statutes authorizing particular awards. In such a case, that fact will be set forth in the program announcement soliciting applications for such grants published in the FEDERAL REGISTER pursuant to § 63.3.

(c) *Other regulations applicable to grants under this part.* Federal financial assistance provided under this part shall be subject to the following additional regulations except as otherwise provided in this part:

(1) Part 74 of this title, establishing uniform administrative requirements and cost principles for grants by the Department of Health, Education, and Welfare.

(2) Part 80 of this title, effectuating the provisions of title VI of the Civil Rights Act of 1964; and

(3) Part 16 of this title, establishing a Departmental Grant Appeals Board for the resolution of specified post-award grant disputes.

## Subpart B—Financial Provisions

## § 63.16 Scope of Subpart.

This subpart sets forth supplemental financial provisions which apply to all grants awarded by the Assistant Secretary.

## § 63.17 Amount of award.

Federal assistance shall be provided only to meet allowable costs incurred by the award recipient in carrying out an approved project in accordance with the authorizing legislation and the regulations of this Part.

## § 63.18 Limitations on costs.

The amount of the award shall be set forth in the grant award document. The total cost to the Government will not exceed the amount set forth in the grant award document or any modification thereof approved by the Assistant Secretary which meets the requirements of applicable statutes and regulations. The Government shall not be obligated to reimburse the grantee for costs incurred in excess of such amount unless and until the Assistant Secretary has notified the grantee in writing that such amount has been increased and has specified such increased amount in a revised grant award document. Such revised amount shall thereupon constitute the maximum cost to the Government for the performance of the grant.

## § 63.19 Budget revisions and minor deviations.

Pursuant to § 74.102(d) of this title, paragraphs (b)(3) and (b)(4) of that section are waived.

## § 63.20 Period during which grant funds may be obligated.

(a) The amount of the grant award shall remain available for obligation by the grantee during the period specified in the grant award or until otherwise terminated. Such period may be extended by revision of the grant with or without additional funds pursuant to paragraph (b) of this section where otherwise permitted by law.

(b) When it is determined that special or unusual circumstances will delay the completion of the project beyond the period for obligation, the grantee must in writing request the Assistant Secretary to extend such period and must indicate the reasons therefor.

## § 63.21 Obligation and liquidation by grantee.

Obligations will be considered to have been incurred by a grantee on the basis of documentary evidence of binding commitments for the acquisition of goods or property or for the performance of work, except that funds for personal services, for services performed by public utilities, for travel, and for the rental of facilities, shall be considered to have been obligated as of the time such services were rendered, such travel was performed, and such rented facilities were used, respectively.

## § 63.22 Cost sharing.

Policy Research funds shall not be used to pay any recipient of a grant for the conduct of a research project an amount equal to as much as the entire cost of the project.

## Subpart C—Special Provisions

## § 63.30 Scope of Subpart.

This subpart sets forth supplemental special provisions which apply to all grants awarded by the Assistant Secretary.

## § 63.31 Protection of human subjects.

All grants made pursuant to this part are subject to the specific provisions of Part 46 of this title relating to the protection of human subjects.

## § 63.32 Data collection instruments.

(a) *Definitions.* For the purposes of this section "Child" means an individual who has not attained the legal age of consent to participate in research as determined under the applicable law of the jurisdiction in which such research is to be conducted.

"Data-collection instruments" means tests, questionnaires, inventories, interview schedules or guides, rating scales, and survey plans or any other forms which are used to collect information on substantially identical items from 10 or more respondents.

"Respondents" means individuals or organizations from whom information is collected.

(b) *Applicability.* This section does not apply to instruments which deal solely with (1) functions of technical proficiency, such as scholastic aptitude or school achievement, or (2) routine demographic information.

(c) *Protection of privacy.* (1) No project supported under this part may involve the use of data collection instruments which constitute invasions of personal privacy through inquiries regarding such matters as religion, sex, race, or politics. (2) A grantee which proposes to use a data collection instrument shall set forth in the grant application an explanation of the safeguards which will be used to restrict the use and disclosure of information so obtained to purposes directly connected with the project, including provisions for the destruction of such instruments where no longer needed for the purposes of the project.

(d) *Clearance of instruments.* (1) Grantees will not be required to submit data-collection instruments to the Assistant Secretary or obtain the Assistant Secretary's approval for the use of these instruments, except where the notification of grant award specifically so provides. (2) If a grantee is required under paragraph (d) (1) of this section to submit data-collection instruments for the approval of the Assistant Secretary or if a grantee wishes the Assistant Secretary to review a data-collection instrument, the grantee shall submit seven copies of the document to the Assistant Secretary along with seven copies of the Office of Management and Budget's standard form No. 83 and seven copies of the Supporting Statement as required in the "Instructions for Requesting OMB Approval under the Federal Reports Act" (Standard form No. 83A).

(e) *Responsibility for collection of information.* A grantee shall not in any way represent or imply (either in a

letter of transmittal, in the data-gathering instruments themselves, or in any other manner) that the information is being collected by or for the Federal Government or any department, agency or instrumentality thereof. Basic responsibility for the study and the data-gathering instruments rests with the grantee.

(f) *Parental consent.* In the case of any survey using data-collection instruments in which children are involved as respondents, the grantee, in addition to observing the other requirements contained in this section, and in Part 46 as appropriate, shall provide assurances satisfactory to the Assistant Secretary that informed consent will be obtained from the parents of each such respondent prior to the use of such instruments, except that a waiver from the requirements of this paragraph for specific data-collection activities may be granted upon the written request by the grantee and a determination by the Assistant Secretary that a waiver is necessary in order to fully carry out the purposes of the grant.

## § 63.33 Treatment of animals.

If animals are utilized in any project receiving assistance, the applicant for such assistance shall provide assurances satisfactory to the Assistant Secretary that such animals will be provided with proper care and humane treatment; in accordance with the Animal Welfare Act (7 U.S.C. 2131 et seq.) and regulations set forth in (9 CFR 1, 2, 3, 4)

## § 63.34 Principal investigators.

The principal investigator(s) designated in successful grant applications as responsible for the conduct of the approved project, shall not be replaced without the prior approval of the Assistant Secretary or his designee. Failure to seek and acquire such approval may result in the grant award being terminated in accordance with the procedures set forth in § 74.114 of this title or such other regulations as may be indicated in the grant terms and conditions.

## § 63.35 Dual compensation.

If a project staff member or consultant of one grantee is involved simultaneously in two or more projects supported by any funds either under this part or otherwise, he/she may not be compensated for more than 100 percent of his/her time from any funds during any part of the period of dual involvement.

## § 63.36 Fees to Federal employees.

The grantee shall not use funds from any sources to pay a fee to, or travel expenses of, employees of the Federal Government for lectures, attending program functions, or any other activities in connection with the grant.

## § 63.37 Leasing facilities.

In the case of a project involving the leasing of a facility, the grantee shall demonstrate that it will have the right to occupy, to operate, and, if necessary, to maintain and improve the leased

facility during the proposed period of the project.

## § 63.38 Publications.

Any publication or presentation resulting from or primarily related to Federal financial assistance under this part shall contain an acknowledgement essentially as follows:

The activity which is the subject of this report was supported in whole or part by a grant from the Office of the Assistant Secretary for Planning and Evaluation, Department of Health, Education, and Welfare. However, the opinions expressed herein do not necessarily reflect the position or policy of that Office and no official endorsement by that Office should be inferred.

## § 63.39 Religious worship or instruction.

Federal funds shall not be used for the making of any payment for religious worship or instruction, or for the construction, operation, or maintenance of so much of any facility as is used or to be used for sectarian instruction or as a place for religious instruction.

[FR Doc. 75-13922 Filed 5-28-75; 8:45 am]

## CHAPTER I—OFFICE OF EDUCATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

## PART 126—SUPPLEMENTARY EDUCATIONAL CENTERS AND SERVICES, SPECIAL PROGRAMS AND PROJECTS, TITLE III, SECTION 306

## Final Funding Criteria

Notice of proposed rulemaking was published in the FEDERAL REGISTER on March 14, 1975, (40 FR 11885) which described criteria for determining the award of grants under Title III, section 306 of the Elementary and Secondary Education Act of 1965, as amended (20 U.S.C. 844b). This program provides financial assistance to local educational agencies for special programs and projects. Pursuant to section 431(d) of the General Education Provisions Act, as amended, (20 U.S.C. 1231(d)) these regulations were transmitted to the Congress concurrently with the publication of the notice of proposed rulemaking in the FEDERAL REGISTER. That section provides that regulations subject thereto shall become effective on the forty-fifth day following the day of such transmission, subject to the provisions therein concerning congressional action and adjournment.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections regarding the proposed criteria. No comments have been received and the proposed criteria are hereby adopted without change and are set forth below.

It should be noted that pursuant to section 402(a) (2) (ii) of Pub. L. 93-380, the authorization for ESEA, Title III, section 306 expires June 30, 1975.

*Effective date.* The notice of proposed rulemaking was transmitted to Congress on March 10, 1975 pursuant to section 431(d) of the General Education

Provisions Act (20 U.S.C. 1232(d)). The time period set forth therein for congressional action has expired without such having been taken. These criteria shall become effective on May 29, 1975.

(20 U.S.C. 844b)

(Catalog of Federal Domestic Assistance No. 13.516, Special Programs and Projects of the Elementary and Secondary Education Act of 1965, as amended, Title III, Section 306)

Dated: May 8, 1975.

T. H. BELL,  
U.S. Commissioner of Education.

Approved: May 22, 1975.

CASPAR W. WEINBERGER,  
Secretary of Health, Education,  
and Welfare.

## APPENDIX

I. *Types of applications.* A. Many innovative approaches contributing to the solution to national education problems have been developed in past years with Title III funds and other monies. Emphasis for Section 306 grants for Fiscal Year 1975 has been placed on the dissemination and diffusion of successful educational programs and practices in areas of national concern. Therefore, applications for the following three types of projects will be given priority in the award of grants:

1. *Developer-Demonstration Projects.* Projects in which a local educational agency that has successfully implemented an exemplary approach to the solution of an educational problem common to all or several States undertakes to aid other local educational agencies (through such activities as training and dissemination activities) in adopting that approach. Of particular interest are projects which have successfully implemented preschool programs which serve the needs of parents and other persons relating to preschool children.

2. *Statewide Facilitator Projects.* Projects in which a local educational agency in cooperation with the State educational agency assists other local educational agencies within its own State to find an appropriate Developer-Demonstration program selected under categories I.A.1 above and I.F. below, to meet their educational needs.

3. *Replication of Projects Validated by Office of Education.* Projects in which a local educational agency having large numbers or proportions of children with deficiencies in reading and mathematics undertakes to replicate compensatory education programs "Project Information Packages" (hereinafter referred to as PIPs) which have been validated by the Office of Education and which are appropriate to the demonstrated needs of the district.

B. The Commissioner has also assigned priority to helping the schools assume a substantially new role in assisting parents and parenting persons, such as day care center and nursery school workers, babysitters, and other persons having direct contact with young children, to respond more effectively to the needs and potential of young children. Applications are sought for the establishment in school districts of early childhood outreach programs which extend school services to the community and home.

C. The Commissioner has also recognized the fact that many local school district administrators are requesting training in the application of performance-based management techniques to assure optimal use of limited resources to meet the most critical educational needs of their schools. Applications may therefore be made for support of

short term training programs in the implementation of performance-based management approaches such as Management By Objectives (MBO). Applicants may choose from among a number of already developed performance-based training approaches listed by the funding agency, or they may select another already developed program.

D. In addition, educational problems associated with child abuse and neglect have been identified as a national educational problem. Therefore, priority will also be given to applications for projects in which a local educational agency implements a comprehensive demonstration program to provide more effective educational services to victims of child abuse and neglect enrolled in elementary and secondary schools.

E. Pursuant to section 306(b) of the Act, grants will be made to local educational agencies to develop, implement or aid in the adoption of programs designed to meet the special educational needs of handicapped children. Priority will be given to projects holding promise of having a favorable early impact upon the education of handicapped children.

F. The Commissioner is also interested in special programs for the teaching of standard mathematics in schools with large numbers of children with severe deficiencies in mathematics through instruction in advanced mathematics by qualified instructors with bachelor degrees or above in mathematics or the mathematical sciences or equivalent experience. Applications may be submitted for a Developer-Demonstration Project (see I.A.1) with this program focus or for a one-year careful replication and evaluation of an already developed program.

(20 U.S.C. 841, 843(b), 844, 844b; E. Rep. No. 634, 91st Cong., 2d Sess. 27-28 (1970))

II. *General criteria for the selection of applications.* General program criteria for the review of project applications submitted pursuant to Section 306 of the Act are found in § 126.B of the regulations promulgated under Section 306 of the Act. (40 FR 8179, published February 26, 1975). Additionally, review criteria found in 45 CFR 100a.26(b) (38 FR 30664, published November 6, 1973) are applicable to grants made under this program.

(20 U.S.C. 843(b), 844, 844b)

III. *Additional criteria for each type of application.* The following criteria will be used in judging the specific type of project application indicated:

A. *Developer-Demonstration Projects.* Activities supportable with project funds will include the development and dissemination of a variety of information packages about the exemplary approach being demonstrated, the refinement of training materials for use with school districts planning to adopt the approach, the maintenance of a small staff to provide training to potential adopters at the development site and limited technical assistance at adopted sites, and other activities clearly related to the demonstration nature of the project. School districts must agree to cover the operational costs of the project as it serves local school children with State and local funds. The developer-demonstration project will not cover these operational costs.

1. The approach to be demonstrated will be judged by its degree of exemplariness as characterized by:

a. The extent to which the project constitutes a comprehensive means of meeting a critical national educational need or a problem common to all or several States;

b. The extent of the availability of the components required to implement the approach, including material products, train-

ing, detailed documentation regarding needs addressed, target population characteristics, staffing, institutional setting, parent and community involvement, objectives, procedures and activities, evaluation design and outcomes, and costs;

c. The extent to which a wide range of school districts would find the approach practicable for adoption relative to instructional methodology, materials, equipment, and facilities, management scheduling, and assessment;

d. The degree of innovativeness of the approach; and

e. Availability of statistically significant evidence that in at least two previous implementations of the approach with comparable groups (either in the same year or two succeeding years), the approach has demonstrated a high degree of success in the achievement of its major objectives.

2. The project will also be judged by the extent to which the application sets forth procedures for:

a. Disseminating information about the approach in a variety of ways and levels of specificity;

b. Making readily available material products to potential adopters; and

c. Providing them with training and other kinds of technical assistance required to implement the approach in a new location.

B. *Statewide facilitator projects.* A statewide facilitator will be furnished with a list of and information about exemplary approaches selected under I.A.1 above and I.H.1. below by the Office of Education. The facilitator will then assist local educational agencies in its own State to select programs for replication from among the selected developer-demonstration approaches, as follows:

1. Funds will be made available to support a small core staff who will perform a variety of activities such as:

a. Providing detailed information about the available demonstration approaches selected to interested school districts within the State;

b. Assisting local school districts to match needs with the most appropriate developer-demonstration approach; and

c. Implementing the project with a small experienced staff who will seek to promote actual adoption within their State of the exemplary approaches before the end of the 1975-76 school year or at the beginning of the next school year.

C. *Replication of Projects Validated by the Office of Education.* The Office of Education has identified six exemplary compensatory education programs "Project Information Packages" (hereinafter referred to as PIPs) which have been validated. Local educational agencies which have had applications approved under this category will replicate at least one such program consistent with local educational needs as determined by the Office of Education.

1. Grant funds will provide support for a full-time project director with support services, technical assistance from districts and persons involved in the development and implementation of the successful approach, materials and supplies referenced or included in the PIP, and for a locally designed evaluation.

2. The following criteria will be used to select applicants who will replicate a PIP approach:

a. The extent to which the applicant local educational agency provides evidence that it has a high concentration of students with severe deficiencies in reading or mathematics;

b. The extent to which the district can provide the necessary human and material resources using State and local funds to implement an exemplary program; and

## RULES AND REGULATIONS

c. The extent to which the application sets forth a cohesive plan to initiate evaluation on the effect, implementation, and design of the PIFs. The evaluation should include establishment by the applicant district of two comparison groups, one of which would serve as the experimental group using testing, interviews, questionnaires, and continuous classroom monitoring.

D. *Early Childhood Outreach Projects.* School districts may apply for support to implement a new preschool effort designed to help parents and parenting persons provide more effectively for the early education of children in the home, day care centers, or elsewhere.

1. Grant funds will be made available to support a full-time project director with credentials and experience in early childhood education/child development and parent involvement and education; secretarial assistance; local travel; and library resources, such as printed and audiovisual materials and toys; and program evaluation.

2. The criteria used to review these applications are as follows:

a. The extent to which the applicant local educational agency provides evidence of the need for an early childhood outreach program;

b. The extent to which the applicant provides evidence indicating community interest in early childhood education;

c. The extent to which the proposed activity builds upon earlier preschool initiatives on the part of the applicant district;

d. The extent to which the district will make available facilities and resources to accommodate the program and can demonstrate past commitment to opening school facilities to various community activities;

e. The extent to which the proposed outreach program includes carefully defined goals and specific activities to meet the goals which respond to the varied preschool needs identified; and

f. The extent to which the proposed program includes a plan for coordinating activities and services with those of other local institutions and organizations serving families with young children.

E. *Child Abuse and Neglect Projects.* School districts may apply for support to implement a comprehensive program which will prepare teachers to:

1. Identify children who are victims of child abuse and neglect;

2. Make proper referral of these children to other individuals or agencies for help; and

3. Work more effectively with such children in their classrooms and with the children's parents.

The criteria used to review these applications are as follows:

1. The extent to which the critical nature of the child abuse and neglect problem to be attacked by the project is supported by specific data collected systematically in the local school district;

2. The extent to which the proposed project builds upon local experiences in attempting to prepare teachers to identify and provide appropriate services to victims of child abuse and neglect enrolled in their classroom;

3. The extent to which the project represents an innovative, comprehensive strategy for enabling the schools to contribute effectively to reducing the incidence and effects of child abuse and neglect; and

4. The extent to which the application reflects a knowledge of State and local laws which affect the school's role in coping with child abuse and neglect.

F. *Projects Aiding Handicapped Children.* Projects will be judged by the same criteria as the Developer-Demonstration Projects as described under III.A.1. above. In addition, priority will be given local school districts

which apply for funds for one-year developmental projects which hold promise of having a favorable early impact upon the education of handicapped children in the following areas of focus: Early childhood education, education of the severely handicapped (severely emotionally disturbed—schizophrenic and autistic, profoundly and severely mentally retarded, those having two or more serious handicapping conditions—mentally retarded-deaf and mentally retarded-blind, etc.), career education, and questions involving the placement of handicapped children in the regular classroom. These projects may be new efforts or may represent a development of an operating program.

G. *Projects to Train Local School Administrators in Performance-Based Management Approaches.* Districts may apply for support to conduct a short term training program to enable local school administrators to effectively implement performance-based management approaches such as Management by Objectives. Applicant districts may choose from a number of training programs identified by the funding agency or may request funds to implement another performance-based management approach training program of their own selection. In the latter case a full description of the training program, as well as evidence that the program has been judged effective in earlier tests, must be included with the application.

1. Grant funds will support the instructional fees, travel, and per diem of the trainers; materials and supplies associated with the training; local travel and per diem of trainees if necessary; and an evaluation of the effectiveness of the training.

2. The criteria used to review these applications are as follows:

a. The extent to which the applicant district provides evidence of consensus among local school administrators from the School Principals to the Superintendent for the need for training in the implementation of a performance-based management approach.

b. The extent to which the local educational agency presents a concise statement of the problems which it believes can be resolved through use of the approach selected.

c. The extent to which the applicant provides evidence of a long-term concern about improved local school management; and

d. The extent to which the district commits itself to implementing the management approach district-wide for a minimum of a full school year following the training.

H. *Projects to diffuse or to replicate mathematics programs taught by mathematics specialists.* 1. School districts may apply for support to help other school districts adopt an exemplary program involving mathematics specialists in the teaching of standard mathematics through advanced mathematics instruction in schools with large numbers of children with severe deficiencies in mathematics. Criteria to be used in the review of such applications are found in III.A. above.

2. School districts may also apply to replicate and evaluate an already developed mathematics program with the same characteristics.

a. Grant funds for the replication and evaluation project will be made available for a full-time project director, secretarial assistance, the instructional services of mathematics specialists, program evaluation, local travel, consultant services and materials and supplies.

b. The criteria used to review these applications are as follows:

1. The extent to which the applicant local school district provides evidence that it has a high concentration of students with severe deficiencies in mathematics;

II. The extent to which the applicant district provides a detailed description of the program proposed for implementation, including its rationale, objectives, activities, staff requirements, material requirements, and previous evaluation findings;

III. The extent to which the local educational agency provides evidence of earlier attempts to solve the local mathematics achievement problems and presents strong reasons for greater expectations for success from the proposed program;

IV. The extent to which the applicant district provides evidence of its intent and capability to continue the program with State and local funds if it proves successful locally; and

v. The extent to which the application sets forth a cohesive plan to evaluate the effects and implementation of the new program. The evaluation should include (a) establishment by the applicant district of two comparison groups, one of which would serve as the experimental group, (b) valid and reliable data collection instruments, and (c) appropriate data analysis techniques.

IV. *Priority Order for Selecting Projects.* Applications meeting the "general criteria" (See II above) and the "additional criteria" (See III above) will be selected for funding according to the following priority order:

A. Currently funded Developer-Demonstration Projects, Statewide Facilitator Projects, "Project Information Package" Replication Projects, and Child Abuse and Neglect Projects which have performed satisfactorily during the past year.

B. Projects which in addition to projects under A are necessary to meet the legislative set-aside for the education of handicapped children.

C. New Projects in each of the following areas:

1. Developer-Demonstration projects in home-based preschool education and projects which provide early childhood outreach programs.

2. Projects which provide short-term training programs for local school administrators to assist them in implementing performance-based management approaches such as Management by Objectives.

3. Developer-Demonstration and replication projects which provide for mathematics programs taught by mathematics specialists.

4. State Facilitator Projects.

5. New Developer-Demonstration Projects. The Commissioner will use his discretion, consistent with the overall merit of the proposals submitted and each State's allotment, to determine the number of projects and the amounts of money to be used in each of these areas.

(20 U.S.C. 843(b), 844, 844b; S. Rep. No. 634, 91st Cong., 2d Sess. 27-28 (1970))

[FR Doc. 75-14011 Filed 5-28-75; 8:45 am]

# PART 189—VETERANS' COST-OF-INSTRUCTION PAYMENTS TO INSTITUTIONS OF HIGHER EDUCATION

Notice of proposed rule making setting forth proposed amendments to the regulations governing the veterans' cost-of-instruction program (authorized at 20 U.S.C. 1070e-1) was published in the FEDERAL REGISTER on January 6, 1975 (40 FR 1053-1057). Interested persons were invited to submit written comments, suggestions, or objections regarding the notice to the Office of Education within 30 days.

A. *Comments and responses.* After consideration of the comments received, it has been determined that the proposed regulatory amendments should be adopted without change. A summary of the comments, with responses, follows:

1. Comment. Several commenters suggested that the three veteran counting dates designated for payments to institutions in § 189.3(b) be dates which occur in the same academic year.

Response. In light of (1) the desirability that an institution utilize its three payments within one academic year and (2) the timing of the Congressional appropriations process, the current dates appear to be appropriate. They enable an institution of higher education to plan its veterans' services over the summer, on the basis of the size of its first payment, for an academic year beginning in the fall.

2. Comment. Several commenters objected to the new provision concerning use of program funds by institutions for travel expenditures (§ 189.17(c)).

Response. This provision is deemed necessary in order to prevent unreasonable expenditures by institutions for travel and to establish a uniform policy.

3. Comment. Several commenters suggested that more detailed applications as to intended use of funds be required than is currently the case. One commenter suggested more rigorous auditing procedures by the Commissioner.

Response. In light of the size of awards under this program, the corresponding requirements and procedures provided for in the proposed regulations are deemed adequate. It should be noted that a new provision at § 189.21(b)(7) calls for the submission by an educational institution of a proposed budget and that new § 189.32(b) calls for an audit of its program expenditures by an institution.

4. Comment. Other suggestions included the following: a. Provide for payments for students not enrolled as at least half-time students.

b. Compute an institution's payment on the basis of the average number of veterans enrolled on the three counting dates.

c. Provide a flat amount of \$20 per veteran to each institution.

d. Provide for a maximum annual payment to an institution of \$75,000 rather than \$135,000.

e. Provide for payments for veterans who are graduate students.

f. Require an institution to expend 90 percent or 100 percent of its program funds for required veterans' services.

Response. Each of these suggestions would conflict with statutory provisions, the first with section 491(c)(2) of the Higher Education Act of 1965 (20 U.S.C. 1088(c)(2)) and the others with the program statute (20 U.S.C. 1070e-1). With regard to the last suggestion, however, it should be noted that § 189.17(a) requires an institution to expend more than 75 percent of its program funds for required veterans' services if such greater amount is needed to provide such services.

B. *Effective date.* These regulations were transmitted to the Congress concurrently with their publication as a notice of proposed rule making pursuant to section 431(d) of the General Education

## RULES AND REGULATIONS

23301

Provisions Act (20 U.S.C. 1232(d)). The period set forth in such section 431(d) for Congressional action on the regulations has expired without such action having been taken. The proposed regulations are hereby adopted without change, as set forth below. These regulations are effective May 29, 1975.

(Catalog of Federal Domestic Assistance Program No. 13.540, Higher Education—Cost of Veterans' Instruction (VCIP))

Dated: April 10, 1975.

T. H. BELL,  
U.S. Commissioner of Education.

Dated: May 6, 1975.

R. L. ROUDEBUSH,  
Administrator of  
Veterans' Affairs.

Approved: May 22, 1975.

CASPAR W. WEINBERGER,  
Secretary of Health,  
Education, and Welfare.

## Subpart A—General Provisions

Sec. 189.1 Definitions.  
189.2 Institutional eligibility.  
189.3 Calculation of cost-of-instruction payment.  
189.4 Applicability of civil rights provisions.

## Subpart B—Required Services and Use of Funds

189.11 Special definitions.  
189.12 Office of veterans' affairs.  
189.13 Related veterans' services.  
189.14 Institutions with small number of students and veterans.  
189.15 Consortium agreements.  
189.16 Criteria for assessing adequacy of veterans' programs.  
189.17 Expenditure requirements.

## Subpart C—Application Process

189.21 Submission of application by individual institutions.  
189.22 Submission of applications by parties to consortium agreements.

## Subpart D—Fiscal and Reporting Requirements

189.31 Maintenance of records.  
189.32 Audits.  
189.33 Fiscal operations reports.  
189.34 Limitations on costs.  
189.35 Reporting requirements.

AUTHORITY.—Section 420, Higher Education Act of 1965, as added by section 1001(a) of Pub. L. 92-318, 86 Stat. 378 (20 U.S.C. 1070e-1), as amended, unless otherwise noted.

## Subpart A—General Provisions

### § 189.1 Definitions.

As used in this part:

"Academic year" means a period beginning on July 1 and ending on the following June 30.

"Cost-of-instruction payment," or "payment," means an amount calculated with respect to an institution of higher education for an academic year on the basis of undergraduate veteran student enrollment.

"Institution of higher education," or "institution," means an educational institution in any State which: (a) Admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate, (b) is legally authorized within such

State to provide a program of education beyond secondary education, (c) provides an educational program for which it awards a bachelor's degree or provides not less than a 2-year program which is acceptable for full credit toward such a degree, (d) is a public or other nonprofit institution, and (e) is accredited by a nationally recognized accrediting agency or association as determined by the Commissioner or, if not so accredited, (1) is an institution with respect to which the Commissioner has determined that there is satisfactory assurance, considering the resources available to the institution, the period of time, if any, during which it has operated, the effort it is making to meet accreditation standards, and the purpose for which this determination is being made, that the institution will meet the accreditation standards of such an agency or association within a reasonable time, or (2) is an institution whose credits are accepted, on transfer, by not less than three institutions which are so accredited, for credit on the same basis as if transferred from an institution so accredited, or (3) is an institution which has been approved by a state agency recognized by the Commissioner pursuant to § 438(b) of the Higher Education Act of 1965, as amended. Such term also includes any school which provides not less than a 1-year program of training to prepare students for gainful employment in a recognized occupation and which meets the provisions of clauses (a), (b), (d), and (e) of this definition.

"Instructional expenses in academically related programs" means the expenditures of instructional departments of an institution of higher education for salaries, office expenses, equipment, and research.

"School or department of divinity" means an institution or a department or a branch of an institution the program of instruction of which is designed for the education of students (a) to prepare them to become ministers of religion or to enter upon some other religious vocation (or to provide continuing training for any such vocation), or (b) to prepare them to teach theological subjects.

"State" includes the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands.

"Student" means a person in attendance as at least a half-time student at an institution of higher education. The term is further defined as follows:

(a) "Full-time student" means a student who (1) is enrolled for the equivalent of at least 14 semester hours or (2) is enrolled for the equivalent of not less than 12 semester hours and is being charged on the basis of the institution's normal full-time fee schedule.

(b) "Three-quarter time student" means a student who (1) is enrolled for the equivalent of 10 through 13 semester hours or (2) is enrolled for the equivalent of not less than 9 semester hours and is being charged at least three-quarters of the institution's normal full-time fees.

(c) "Half-time student" means a student who (1) is enrolled for the equivalent

## RULES AND REGULATIONS

lent of 7 through 9 semester hours or (2) is enrolled for the equivalent of not less than 6 semester hours and is being charged at least one-half of the institution's normal full-time fees.

"Undergraduate" refers to a student who (a) has not earned his first bachelor's degree or professional degree, and (b) (1) is pursuing a program of studies leading to a certificate or diploma or (2) is receiving or has received educational assistance under subchapter V or subchapter VI of chapter 34 of title 38, United States Code. A student who has not earned his first bachelor's or professional degree and who is enrolled in a program of study at the postsecondary level which is designed to extend for more than four academic years shall not be considered as an undergraduate student in that portion of the program that involves study beyond the fourth academic year unless that program leads to a first degree and is designed to extend for a period of five academic years.

"Veteran" means a person receiving benefits under chapter 31 or chapter 34 of title 38, United States Code, or who, if enrolled in an institution of higher education, would be eligible for such benefits.

(20 U.S.C. 1070e, 1070e-1, 1087-1(b), 1088, 1141.)

#### § 189.2 Institutional eligibility.

(a) To apply for assistance under this part, an applicant must be an institution of higher education, and must meet the requirements specified in paragraph (b) or (c) of this section.

(b) In order for an institution of higher education to apply for assistance under this part during an academic year following one during which it was not eligible for or did not apply for such assistance, it must have in attendance on April 16 of such academic year (or, where such date falls between academic terms of the institution, the end of the previous academic term), a number of undergraduate veteran students receiving benefits under chapter 31 or chapter 34 of title 38, United States Code (or who have received benefits under subchapter V or subchapter VI of such chapter 34 while attending such institution during that academic year) equal to at least 25 and to at least (1) 110 percent of the number of undergraduate veteran students who were in attendance on the first counting date adopted under this part for the preceding academic year and were at that time receiving benefits under chapter 31 or chapter 34 of title 38, United States Code (or had received benefits under subchapter V or subchapter VI of such chapter 34 while attending such institution during that academic year), or (2) 10 percent of the total number of undergraduate students in attendance at such institution during such current academic year, if such number does not constitute a percentage of such undergraduate students which is less than such percentage for the preceding academic year.

(c) In order for an institution of higher education to apply for assistance

under this part during an academic year following one during which it has received such assistance, it must have in attendance on April 16 of such academic year (or, where such date falls between academic terms of the institution, the end of the previous academic term), a number of undergraduate veteran students receiving benefits under chapter 31 or chapter 34 of title 38, United States Code (or who have received benefits under subchapter V or subchapter VI of such chapter 34 while attending such institution during that academic year) equal to at least (1) the number of undergraduate veteran students who were in attendance on the first counting date adopted under this part for the preceding academic year and were at that time receiving benefits under chapter 31 or chapter 34 of title 38, United States Code (or had received benefits under subchapter V or subchapter VI of such chapter 34 while attending such institution during that academic year), or (2) the minimum number of such persons which was necessary for such institution to establish eligibility for assistance under this part during the preceding academic year, whichever is less.

(d) Schools or departments of divinity and proprietary institutions (i.e., organized for profit) are not eligible to apply for assistance under this part.

(20 U.S.C. 1070e-1.)

#### § 189.3 Calculation of cost-of-instruction payment.

(a) To compute an institution's cost-of-instruction payment under this part, the Commissioner of Education shall determine, on the basis of data provided by the institution:

(1) The number of undergraduate veteran students in attendance on the applicable dates specified in paragraph (b) of this section who are at those times recipients of vocational rehabilitation assistance under chapter 31 of title 38, United States Code, or of educational assistance under chapter 34 of title 38, United States Code, and to whom the services required by §§ 189.12 and 189.13 will be reasonably accessible, and

(2) The number of undergraduate veteran students in attendance on the applicable dates specified in paragraph (b) of this section who have ever received educational assistance under subchapter V or subchapter VI of chapter 34 of title 38, United States Code, and to whom the services required by §§ 189.12 and 189.13 will be reasonably accessible.

(b) A cost-of-instruction payment for a given academic year shall, by reason of paragraph (d) of this section, be based on the number of students in attendance on April 16 of the preceding academic year and October 16 and February 16 of the given year (or, where such dates fall between academic terms of the institution, the end of the previous academic term), and shall, subject to the availability of funds, be computed at the following annual rate:

(1) For students described in paragraph (a) (1) of this section:

(i) \$300 per full-time student;

(ii) \$225 per three-quarter time student;

(iii) \$150 per half-time student; and

(iv) No payment for students not enrolled as at least half-time students.

(2) For students described in paragraph (a) (2) of this section:

(i) \$150 per full-time student;

(ii) \$112.50 per three-quarter time student;

(iii) \$75 per half-time student; and

(iv) No payment for students not enrolled as at least half-time students.

(c) (1) Notwithstanding any other provision of this section, the maximum amount of payments in any fiscal year to any institution of higher education, or any branch thereof which is located in a community which is different from that in which the parent institution is located, shall be \$135,000.

(2) Funds which become available as a result of the limitation on payments set forth in subparagraph (c) (1) shall be apportioned in such a manner as will result in the receipt by institutions of a uniform minimum amount of first up to \$9,000, and then in excess of \$9,000, to the extent that funds remain available, except that no institution shall receive funds in excess of the amounts calculated according to paragraph (b) of this section.

(d) One third of the program funds available for a given academic year shall be used for payment to institutions based on enrollment data for April 16 of the preceding academic year. Funds obligated to an individual institution which remain after the payment to such institution based on the April 16 enrollment data shall be paid to such institution on the basis of enrollment data for October 16 and February 16 of the given year at rates per undergraduate veteran student in the categories set forth in § 189.3 (a) (1) and (2) equal to the rates for such students at which the payment based on April 16 enrollment data was made.

(e) Notwithstanding any other provision of this section, the sum of the second and third payments to an institution for any academic year may not exceed twice the amount of the first payment to such institution for such year.

(20 U.S.C. 1007e-1, 31 U.S.C. 701.)

#### § 189.4 Applicability of civil rights provisions.

(a) Federal financial assistance under this part is subject to the regulations in part 80 of this title, issued by the Secretary of Health, Education, and Welfare and approved by the President, to effectuate the provisions of title VI of the Civil Rights Act of 1964 (Pub. L. 88-352).

(b) Federal financial assistance under this part is also subject to the provisions of title IX of the Education Amendments of 1972 (prohibition of sex discrimination) and any regulations issued thereunder.

(20 U.S.C. 1681-86; Pub. L. 92-318, section 906.)

#### Subpart B—Required Services and Use of Funds

##### § 189.11 Special definitions.

For purposes of this subpart:

(a) "Full-time," with respect to an office of veterans' affairs, means that the office of veterans' affairs (1) is staffed by at least one person who is employed by an institution on a full-time basis and whose sole institutional responsibility is that of coordinating the activities of the office (except that an institution described in § 189.14 may employ part-time employees for this purpose who together assume the responsibility of at least one full-time employee) and (2) provides services at times and places convenient to the veterans being served.

(b) "Outreach" means an extensive, coordinated, communitywide program of reaching veterans within the institution's normal service area, determining their needs, and making appropriate referral and follow-up arrangements with relevant service agencies.

(c) "Recruitment" means a concerted effort to interest veterans in taking advantage of opportunities for a wide variety of postsecondary training experiences at the institution.

(d) "Special education programs" means specially designed remedial, tutorial, and motivational programs designed to promote success in the postsecondary experience.

(e) "Counseling" means professional assistance available to veterans for consultation on personal, family, educational, and career problems.

(20 U.S.C. 1070e-1.)

##### § 189.12 Office of veterans' affairs.

Except as provided in § 189.14, an application for assistance under this part shall be approved only if the Commissioner is satisfied that the applicant will, during the period for which the award is made, make an adequate effort, as measured by the criteria set forth in § 189.16, in the areas of outreach, recruitment, special education programs, and counseling.

(20 U.S.C. 1070e-1.)

##### § 189.13 Related veterans' services.

Except as provided in § 189.14, an application for assistance under this part shall be approved only if the Commissioner is satisfied that the applicant will, during the period for which the award is made, make an adequate effort, as measured by the criteria set forth in § 189.16, to carry out:

(a) Programs designed to prepare educationally disadvantaged veterans for postsecondary education (1) under subchapter V of chapter 34 of title 38, United States Code, and (2) in the case of any institution located near a military installation, under subchapter VI of such chapter 34;

(b) Active outreach, recruiting, and counseling activities through the use of other funds such as those available under

## RULES AND REGULATIONS

federally assisted work-study programs; and

(c) An active tutorial assistance program (including dissemination of information regarding such program) in order to make maximum use of the benefits available under section 1692 of title 38, United States Code.

(20 U.S.C. 1070e-1.)

##### § 189.14 Institutions with small numbers of students and veterans.

An institution with less than 2,500 students and no more than 70 undergraduate veteran students in attendance on April 16 (or, where such date falls between academic terms of the institution, the end of the previous academic term) of an academic year during which assistance under this part is sought need provide the services described in § 189.12 only to the extent of maintaining a full-time office of veterans' affairs with adequate services in the areas of recruitment and counseling, and need not provide the services described in § 189.13.

(20 U.S.C. 1070e-1.)

##### § 189.15 Consortium agreements.

In the case of an institution with less than 2,500 students in attendance on April 16 (or, where such date falls between academic terms of the institution, the end of the previous academic term) of an academic year during which assistance under this part is sought, the Commissioner may permit one or more of the functions set forth in §§ 189.12 and 189.13 to be carried out under a consortium agreement between that institution and one or more other such institutions located within a reasonable commuting distance therefrom if he finds that (a) such institution cannot feasibly carry out such functions by itself, and (b) the benefits of such functions will be readily accessible to veterans attending, and to veterans in the community served by, each of the institutions which are parties to the agreement.

(20 U.S.C. 1070e-1.)

##### § 189.16 Criteria for assessing adequacy of veterans' programs.

An applicant institution's assurance pursuant to § 189.21(b) (6), with respect to the requirements of §§ 189.12 and 189.13 and to the extent that such requirements are not waived pursuant to § 189.14, shall be made in light of the following criteria, which criteria shall also be used by the Commissioner in evaluating the adequacy of the institution's veterans' programs:

(a) *In general.*—(1) Adequate identification and assessment of the veteran population in the institution's normal service area;

(2) Appropriate consideration, in terms of programs and services, of the number of veterans enrolled at the institution;

(3) The establishment of an advisory mechanism involving community and institutional personnel to assist in the institution's decisionmaking process with respect to veterans' services and

through which the institution may become aware of the views of the institution's administrative and academic staff, its veteran student population, and relevant community organizations;

(4) The use of qualified Vietnam-era veterans in staffing the institution's office of veterans' affairs and in providing related services;

(5) The employment of a sufficient number of qualified staff members in order to adequately support required veterans' activities and services;

(6) The provision of adequate, visible and accessible housing for the institution's office of veterans' affairs, in light of the institution's veteran student enrollment and physical environment; and

(7) The coordination of veterans' services with other campus services available to veterans, such as admissions, student financial aid, counseling, and job placement.

(b) With respect to outreach, the establishment and maintenance of—

(1) Contact with veterans in the institution's normal service area;

(2) A procedure for assessing veterans' needs, problems, and interests; and

(3) A coordinated and extensive referral service involving agencies providing assistance in areas such as housing, employment, health, recreation, vocational and technical training, and financial assistance;

(c) With respect to recruitment, the establishment and maintenance of a process of bringing the maximum number of veterans into purposeful systematic programs of postsecondary education most suited to their educational and career aspirations, including such techniques as publications, use of mass media, and personal contacts;

(d) With respect to special education programs, the establishment and maintenance of—

(1) Support from appropriate departments of the institution for launching special education programs for the veteran student of a remedial, motivational, and tutorial nature;

(2) Support throughout the institution for appropriate changes in rules, policies, and procedures that will accommodate the special needs and problems of the veteran student; and

(3) Adequate guidance for individual veteran students that will insure the highest possible rate of their retention in educational programs; and

(e) With respect to counseling, the establishment and maintenance of—

(1) Ease of access of veteran students to professional assistance for consultation on personal, family, educational, and career problems as appropriate and necessary; and

(2) Frequent and scheduled liaison of the office of veterans' affairs with the institution's academic departments, counseling service, and central administration.

(20 U.S.C. 1070e-1.)

##### § 189.17 Expenditure requirements.

(a) Not less than (1) 75 percent of funds awarded to an institution under

## RULES AND REGULATIONS

this part or (2) the amount of funds needed to implement the required services set forth in §§ 189.12 and 189.13, whichever is greater, shall be used by the institution to implement such services. Any remaining awarded funds may be used solely to defray instructional expenses in academically related programs of such institution.

(b) All assistance received under this part must be expended or obligated for the foregoing purposes not later than the end of the period for which the award is made. Obligations will be considered to have been incurred by a recipient on the basis of documentary evidence of binding commitments for the acquisition of goods or property or for the performance of work, except that funds for personal services, for services performed by public utilities, for travel, and for the rental of facilities, shall be considered to have been obligated as of the time such services were rendered, such travel was performed, and such rented facilities were used, respectively.

(c) Travel expenditures shall be restricted to recruitment and outreach activities, attendance at Office of Education sponsored meetings providing technical assistance for this part, and attendance at Office of Education approved professional meetings.

(20 U.S.C. 1070e, 1070-1, 1232c(b)(2); 31 U.S.C. 200)

## Subpart C—Application Process

## § 189.21 Submission of application by individual institutions.

(a) Assistance under this part will be provided only on the basis of an application submitted by an institution which sets forth all information necessary to determine the institution's eligibility and payment amount.

(b) Each application must be submitted on a form to be provided by the Commissioner and contain the following:

(1) Information necessary to show that the institution is eligible for assistance under this part;

(2) Information necessary to determine the amount of the institution's payment, in accordance with § 189.3;

(3) An assurance that any funds received by the institution under this part will not be used for a school or department of divinity or for any religious worship or sectarian activity;

(4) An assurance that any funds received by the institution under this part which are not required pursuant to § 189.17 to be used to implement the requirements of §§ 189.12 and 189.13 will be used solely to defray instructional expenses in academically related programs of the institution;

(5) An assurance that the institution will expend during the period for which the award is made, for all academically related programs of the institution, an amount equal, in terms of either total or per student expenditure, to at least the average amount so expended during the 3 academic years preceding such period, together with such supporting data as the Commissioner may require;

(6) An assurance that the institution will carry out the required services set forth in §§ 189.12 and 189.13;

(7) An assurance that the institution will initiate the services required by §§ 189.12 and 189.13, and will submit a proposed budget for the operation of the office of veterans' affairs, not later than 90 days after the date of award notification;

(8) An assurance that the services required by §§ 189.12 and 189.13 will be reasonably accessible to all undergraduate veteran students on behalf of whom funds are received by the institution under this part; and

(9) If the institution is seeking a waiver of any of the required activities specified in §§ 189.12 and 189.13 pursuant to § 189.14, information necessary to show that it has less than 2,500 students and not more than 70 undergraduate veteran students in attendance on April 16 (or, where such date falls between academic terms of the institution, the end of the previous academic term) of the academic year during which assistance under this part is sought.

(20 U.S.C. 1070e-1.)

## § 189.22 Submission of applications by parties to consortium agreements.

Institutions proposing to carry out the activities required under this part through a consortium agreement, pursuant to § 189.15, must submit their applications on a form to be provided by the Commissioner, and each such institution must provide all information and assurances required pursuant to § 189.21 as well as information and assurances necessary to a finding by the Commissioner that the conditions for a consortium agreement set forth in § 189.15 have been met.

(20 U.S.C. 1070e-1.)

## Subpart D—Fiscal and Reporting Requirements

## § 189.31 Maintenance of records.

(a) *Records.* Each institution and consortium of institutions shall keep intact and accessible records relating to the receipt and expenditure of Federal funds in accordance with section 434(a) of the General Education Provisions Act, including all accounting records and related original and supporting documents that substantiate direct costs charged to the award. Records must be maintained so as to reflect (1) expenditures made for veterans' services provided for under this part, and (2) expenditures made for instructional costs in academically related programs.

(b) *Period of retention.* (1) Except as provided in paragraph (b)(2) or (b)(3) of this section, the records specified in paragraph (a) of this section shall be retained for 3 years after the date of the submission of the fiscal operations report, pursuant to § 189.33, to which they pertain.

(2) Records for nonexpendable personal property which was acquired with Federal funds shall be retained for 3 years after it is no longer needed for program purposes.

(3) The records involved in any claim or expenditure which has been questioned by Federal audit shall be further retained until resolution of any such audit questions.

(c) *Microfilm copies.* Institutions may substitute microfilm copies in lieu of original records in meeting the requirements of this section.

(20 U.S.C. 1232c(a).)

## § 189.32 Audits.

(a) *Audit and examination.* The Secretary of Health, Education, and Welfare and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purpose of audit and examination to all records required pursuant to § 189.31(a) and to any other pertinent books, documents, papers, and records of the institution or consortium of institutions. The Commissioner may, at any time before or after making a payment under this part, review the data supplied by an institution with respect to such payment and take appropriate action as a result thereof, including that of requiring the institution to return funds received on the basis of inaccurate data submitted by the institution.

(b) *Audit responsibilities.* All expenditures by recipient institutions or consortiums thereof shall be audited by the recipient or at the recipient's direction to determine, at a minimum, the fiscal integrity of financial transactions and reports, and the compliance with laws and regulations. Such audits shall be scheduled with reasonable frequency, usually annually, but not less frequently than once every two years, considering the nature, size, and complexity of the activity.

(20 U.S.C. 1232c(a), (b)(2).)

## § 189.33 Fiscal operations reports.

(a) In addition to such other accounting as the Commissioner may require, an institution or consortium shall render annually, with respect to the assistance awarded under this part, a full account of funds expended, obligated, and remaining.

(b) A report of such accounting in a format approved by the Commissioner shall be submitted to the Commissioner within 90 days of the expiration of the academic year for which such assistance was awarded, and the institution or consortium shall remit within 30 days of the receipt of a written request therefor any amounts found by the Commissioner to be due. Such period may, upon written request, be extended at the discretion of the Commissioner.

(20 U.S.C. 1232c(b)(3); 31 U.S.C. 628)

## § 189.34 Limitations on costs.

(a) The maximum amount of a payment under this part shall be set forth in the award document. The total payment from the Federal Government will not exceed the amount so set forth.

(b) Institutions will be governed by the cost principles set forth in Part II

## RULES AND REGULATIONS

of Appendix D of 45 CFR Part 74 (Part II of Appendix C of 45 CFR Subchapter A). (31 U.S.C. 200; 20 U.S.C. 1070e-1.)

## § 189.35 Reporting requirements.

(a) Institutions of higher education, and consortiums thereof, receiving assistance under this part must submit to the Commissioner no more than 30 days after the close of each academic year, a report describing the manner in which the required veterans' services were provided during such academic year. Such a report shall be in a format approved by the Commissioner and shall make specific reference to the extent to which the criteria set forth in § 189.16 of this part have been met.

(b) Interim reports describing the progress being made in providing the veterans' services required pursuant to §§ 189.12 and 189.13 of this part shall be submitted if, and at such times as, the Commissioner deems such reports necessary.

(20 U.S.C. 1070e-1.)

## proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

### DEPARTMENT OF JUSTICE

#### Drug Enforcement Administration

##### [ 21 CFR Part 1308 ]

#### SCHEDULES OF CONTROLLED SUBSTANCES

#### Proposed Placement of Mecloqualone and the Thiophene Analog of Phencyclidine in Schedule I

On March 15, 1974, the Administrator of the Drug Enforcement Administration requested the Assistant Secretary of Health to submit, in behalf of the Department of Health, Education and Welfare, a scientific and medical evaluation and recommendation that the thiophene analog of phencyclidine (1-[1-(2-thienyl) cyclohexyl] piperidine) be placed in Schedule I of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (Pub. L. 91-513).

On October 22, 1974, a similar request was made with respect to mecloqualone.

By a letter dated January 21, 1975, the Assistant Secretary for Health submitted the requested scientific and medical evaluations and recommendations. That letter is set out as follows:

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

OFFICE OF THE SECRETARY  
Washington, D.C. 20201

JANUARY 21, 1975

Mr. JOHN R. BARTELS, JR.,  
Administrator, Drug Enforcement Administration, Department of Justice, 1405 Eye Street NW., Washington, D.C. 20537.

DEAR Mr. BARTELS: The appropriate agencies within the Department of Health, Education and Welfare, and the FDA Controlled Substances Advisory Committee, have evaluated the DEA proposals of March 15 and October 22, 1974 to control the thiophene analog of phencyclidine ([1-(1-2-thienyl) cyclohexyl] piperidine) and mecloqualone. We agree that these substances should be controlled in Schedule I of the Controlled Substances Act (Pub. L. 91-513).

Pursuant to the criteria for Schedule I substances described in section 202(b) of the Controlled Substances Act, the present evidence indicates that these substances have a high potential for abuse, have no currently accepted medical use in treatment in the United States, and there is lack of accepted safety for use of these substances under medical supervision.

Schedule I control of the thiophene analog of PCP and mecloqualone therefore seems to be clearly in the interest of public health. Enclosed please find a document supporting these recommendations.

Sincerely yours,

CHARLES C. EDWARDS, M.D.,  
Assistant Secretary for Health.

Upon receipt of this letter, the Drug Enforcement Administration undertook a review of the following: (1) Materials submitted to DEA by the Department of Health, Education and Welfare with the

letter of January 21, 1975; (2) materials on file with the Food and Drug Administration; (3) published scientific and medical literature from the United States and other nations regarding these drugs; (4) selected investigatory files compiled for law enforcement purposes by the Drug Enforcement Administration; and (5) the legislative history of the Comprehensive Drug Abuse Prevention and Control Act of 1970.

Based upon the investigations and review of the Drug Enforcement Administration and upon the scientific and medical evaluations and recommendations of the Secretary of Health, Education and Welfare, received pursuant to sections 201(a) and 201(b) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 811(a) and 811(b)), the Administrator of the Drug Enforcement Administration finds that:

1. Based on information now available, mecloqualone and the thiophene analog of phencyclidine have a high potential for abuse.

2. Mecloqualone and the thiophene analog of phencyclidine have no currently accepted medical use in treatment in the United States.

3. There is a lack of accepted safety for use of mecloqualone and of the thiophene analog of phencyclidine under medical supervision.

Therefore, under the authority vested in the Attorney General by section 201 (a) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 811(a)), and delegated to the Administrator of the Drug Enforcement Administration by § 0.100 of Title 28 of the Code of Federal Regulations, the Administrator proposes that § 1308.11 of Title 21 of the Code of Federal Regulations be amended to read:

§ 1308.11 Schedule I.

(d) Hallucinogenic substances. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation, which contains any quantity of the following hallucinogenic substances, or which contains any of its salts, isomers, and salts of isomers whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation (for purposes of this paragraph only, the term "isomer" includes the optical, position and geometric isomers):

- (1) 4-bromo-2,5-dimethoxyamphetamine ----- 7391  
Some trade or other names: 4-bromo-2,5-dimethoxy- $\alpha$ -methylphenethylamine; 4-bromo-2,5-DMA.
- (2) 2,5-dimethoxyamphetamine ----- 7396  
Some trade or other names: 2,5-dimethoxy- $\alpha$ -methylphenethylamine; 2,5-DMA.

- (3) 4-methoxyamphetamine ----- 7411  
Some trade or other names: 4-methoxy- $\alpha$ -methylphenethylamine; paramethoxyamphetamine; PMA.
- (4) 5-methoxy-3,4-methylenedioxyamphetamine ----- 7401  
Some trade and other names: 4-methyl-2,5-dimethoxy- $\alpha$ -methylphenethylamine; "DOM"; and "STP".
- (5) 4-methyl-2,5-dimethoxyamphetamine ----- 7395  
Some trade and other names: 4-methyl-2,5-dimethoxy- $\alpha$ -methylphenethylamine; "DOM"; and "STP".
- (6) 3,4-methylenedioxyamphetamine ----- 7400  
(7) 3,4,5-trimethoxyamphetamine ----- 7390  
(8) Bufotenine ----- 7433  
Some trade and other names: 3-( $\beta$ -Dimethylaminoethyl)-5-hydroxyindole; 3-(2-dimethylaminoethyl)-5-indole; N,N-dimethylserotonin; 5-hydroxy-N,N-dimethyltryptamine; mapine.
- (9) Diethyltryptamine ----- 7434  
Some trade and other names: N,N-Diethyltryptamine; DET.
- (10) Dimethyltryptamine ----- 7435  
Some trade or other names: DMT.
- (11) Ibogaine ----- 7260  
Some trade and other names: 7-Ethyl-6,6a,7,8,9,10,12,13-octahydro-2-methoxy-6,9-methano-5H-pyrido [1',2':1,2] azepino [5,4-b] indole; tabernanthe iboga.
- (12) Lysergic acid diethylamide ----- 7315
- (13) Marihuana ----- 7360
- (14) Mescaline ----- 7381
- (15) Peyote ----- 7415
- (16) N-ethyl-3-piperidyl benzilate ----- 7482
- (17) N-methyl-3-piperidyl benzilate ----- 7484
- (18) Psilocybin ----- 7437
- (19) Psilocyn ----- 7438
- (20) Tetrahydrocannabinols ----- 7370  
Synthetic equivalents of the substances contained in the plant, or in the resinous extracts of Cannabis, sp. and/or synthetic substances, derivatives, and their isomers with similar chemical structure and pharmacological activity such as the following:  
 $\Delta^1$  cis or trans tetrahydrocannabinol, and their optical isomers.  
 $\Delta^8$  cis or trans tetrahydrocannabinol, and their optical isomers.  
 $\Delta^9$  cis or trans tetrahydrocannabinol, and its optical isomers.

(Since nomenclature of these substances is not internationally standardized, compounds of these structures, regardless of numerical designation of atomic positions are covered.)

- (21) Thiophene Analog of Phencyclidine -----  
Some trade or other names: 1-[1-(2-thienyl) cyclohexyl] piperidine; 2-Thienyl Analog of Phencyclidine, TPCP.

### PROPOSED RULES

23307

(e) Depressants. Unless specifically excepted or unless listed in another schedule, any material compound, mixture, or preparation which contains any quantity of the following substances having a depressant effect on the central nervous system, including its salts, isomers, and salts of isomers whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation:

- (1) mecloqualone ----- 2572

All interested persons are invited to submit their comments or objections in writing regarding this proposal. The comments or objections should state with particularity the issues concerning which the person desires to be heard. Comments and objections should be submitted in quintuplicate to the Hearing Clerk, Office of the Administrative Law Judge, Drug Enforcement Administration, Department of Justice, Room 1130, 1405 Eye Street NW., Washington, D.C. 20537, and must be received no later than July 1, 1975.

In the event that an interested party submits objections to this proposal which present grounds for this rule not to be finalized and requests a hearing in accordance with 21 CFR 1308.45, the party will be notified by registered mail that a hearing on these objections will be held as soon as the matter may be heard at the Drug Enforcement Administration, 1405 Eye Street NW., Washington, D.C. 20537. If objections submitted do not present such reasonable grounds, the party will be so advised by registered mail.

If no objections presenting reasonable grounds for a hearing on the proposal are received within the time limitations, and all interested parties waive or are deemed to waive their opportunity for the hearing or to participate in the hearing, the Administrator may, without a hearing, and, after giving consideration to written comments, issue his final order pursuant to 21 CFR 1308.48 without a hearing.

Dated: May 9, 1975.

JOHN R. BARTELS, JR.,  
Administrator,  
Drug Enforcement Administration.  
[FR Doc. 75-13818 Filed 5-28-75; 8:45 am]

### DEPARTMENT OF THE INTERIOR

#### Fish and Wildlife Service

##### [ 50 CFR Part 18 ]

#### MARINE MAMMALS

#### Procedures for Hearings on Proposed Regulations

The Marine Mammal Protection Act authorizes the Secretary to prescribe regulations and to waive the moratorium on the taking and/or importation of marine mammals and marine mammal products and, for such prescription or waiver, refers the Secretary to section 103 of the Act (16 U.S.C. 1373). Section 103(d) requires that regulations be made on the record after opportunity for an agency

hearing on such regulations and, in the case of a waiver, on a determination by the Secretary to waive the moratorium.

On July 12, 1974 proposed regulations to govern hearings on the record as required by section 103 of the Act (16 U.S.C. 1373) were published in the FEDERAL REGISTER, 39 FR 25664-25667, by the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce. Thirty days were provided for comments on the proposed regulations.

The only comment received was from the Environmental Protection Agency (EPA). The EPA suggested that provision be made for introducing the environmental impact statement into the record of the hearing. To comply with that suggestion, §§ 216.73(b)(6) and 216.85(b) have been amended. Furthermore, if an environmental impact statement is necessary, the statement will be considered when the Director determines the issues of fact published in the notice of hearing pursuant to § 216.73(b)(5).

The regulations to govern hearings on the record as required by section 103 of the Marine Mammal Protection Act (16 U.S.C. 1373) were published in final form in the FEDERAL REGISTER, 40 FR 10182-10186, March 5, 1975.

It is the intent of the Director, U.S. Fish and Wildlife Service to adopt the regulations published in final form by the NMFS on March 5, 1975 [40 FR 10182-10182]. The purpose of adopting these regulations would be to allow the two Departments to handle joint requests for a waiver of the moratorium and hearings simultaneously.

The basic format for the proposed hearing procedures to govern section 103 hearings consist of:

(1) Publication of notice in the FEDERAL REGISTER of (i) an intent to waive the moratorium and/or to prescribe regulations and (ii) issues which may be involved in the hearing;

(2) Submission in writing of all direct testimony to be introduced at the hearing. Such submission must be accomplished by a date specified in the notice;

(3) As soon as possible after the date specified in (2) above, the presiding officer shall consider all the direct testimony offered and make a preliminary determination of the issues presented;

(4) The presiding officer shall then conduct a prehearing conference and cause to be published in the FEDERAL REGISTER a final hearing agenda;

(5) If the presiding officer determines at the prehearing conference that no issues of fact are presented by the written direct testimony, the presiding officer shall publish in the FEDERAL REGISTER such determination and notice that no hearing will be held and that any person may submit written comments for the presiding officer's consideration prior to his rendering of a recommended decision;

(6) When a hearing is held, only direct testimony previously submitted may be introduced. Direct testimony not submitted as provided in these regulations and introduced at the hearing shall not

be considered a part of the record;

(7) The hearing shall be limited to cross-examination of witnesses introducing direct testimony. Oral arguments may be allowed at the presiding officer's discretion;

(8) After the hearing, written comments may be submitted by any interested person;

(9) After the time provided for submission of written comments, the presiding officer shall make a recommended decision and transmit such decision with the transcript and comments to the Director for a final determination.

Written comments, views and objections with respect to this proposed adoption of regulations may be submitted to the Director, U.S. Fish and Wildlife Service (MNB), Washington, D.C. 20240. All material received on or before June 30, 1975 will be considered.

The Fish and Wildlife Service published the present subpart G in the FEDERAL REGISTER on February 13, 1975 (40 FR 6661-6663) for the hearing to waive the Moratorium and return the Management of Walrus to the State of Alaska. This proposal will replace the earlier publication as the new subpart G will broaden the hearing procedures from walrus to all marine mammals.

Accordingly, it is hereby proposed to amend Subpart G, Part 18, Subchapter B, Chapter I of Title 50, CFR by deleting it in its entirety and replacing it with the following new language.

LYNN A. GREENWALT,  
Director.

MAY 21, 1975.

#### Subpart G—Notice and Hearing on Section 103 Regulations

- Sec. 18.70 Basis and purpose.
- 18.71 Definitions.
- 18.72 Scope of regulations.
- 18.73 Notice of hearing.
- 18.74 Notification by interested persons.
- 18.75 Presiding officer.
- 18.76 Direct testimony submitted as written documents.
- 18.77 Mailing address.
- 18.78 Inspection and copying of documents.
- 18.79 Ex parte communications.
- 18.80 Prehearing conference.
- 18.81 Final agenda of the hearing.
- 18.82 Determination to cancel the hearing.
- 18.83 Rebuttal testimony and new issues of fact in final agenda.
- 18.84 Waiver of right to participate.
- 18.85 Conduct of the hearing.
- 18.86 Direct testimony.
- 18.87 Cross-examination.
- 18.88 Oral and written arguments.
- 18.89 Recommended decision, certification of the transcript and submission of comments on the recommended decision.
- 18.90 Director's decision.

Authority: Title I of the Marine Mammal Protection Act of 1972, 86 Stat. 1027 (16 U.S.C. 1361-1407), Pub. L. No. 92-522.

#### Subpart G—Notice and Hearing on Section 103 Regulations

##### § 18.70 Basis and purpose.

(a) Sections 101(a)(2), 101(a)(3)(A), and 101(b) (16 U.S.C. §§ 1371(a)(2), 1371(a)(3)(A), 1371(b) (1972)) of the Act and these regulations authorize the Director, U.S. Fish and Wildlife Service,

## PROPOSED RULES

to (1) impose regulations governing the taking of marine mammals incidental to commercial fishing operations; (2) waive the moratorium and to adopt regulations with respect to the taking and importing of animals from each species of marine mammals under his jurisdiction; (3) prescribe regulations governing the taking of depleted marine mammals by any Indian, Aleut or Eskimo, respectively. In prescribing regulations to carry out the provisions of said sections, the Act refers the Director to § 103 (16 U.S.C. § 1373 (1972)). In accordance with § 103(d), regulations must be made on the record after opportunity for an agency hearing on such regulations and, in the case of a waiver, on the determination by the Director to waive the moratorium pursuant to section 101(a)(3)(A) (16 U.S.C. 1371(a)(3)(A) (1972)).

(b) The purpose of this subpart is to establish rules of practice and procedure for all hearings conducted pursuant to § 103(d).

## § 18.71 Definitions.

Definitions shall be the same as in subpart A of this Part except as follows:

(a) "Party" means, for the purposes of this subpart:

(1) The Director or his representative;

(2) A person who has notified the Director by specified dates of his or her intent to participate in the hearing pursuant to §§ 18.74 and 18.83(b).

(b) "Witness" means, for the purposes of this subpart, any person who submits written direct testimony on the proposed regulations.

A person may be both a party and a witness.

## § 18.72 Scope of regulations.

The procedural regulations in this subpart govern the practice and procedure in hearings held under § 103(d) of the Act. These hearings will be governed by the provisions of 5 U.S.C. § 556 and § 557 of the Administrative Procedure Act. The regulations shall be construed to secure the just, speedy, and inexpensive determination of all issues raised with respect to any waiver or regulation proposed pursuant to § 103(d) of the Act with full protection for the rights of all persons affected thereby.

## § 18.73 Notice of hearing.

(a) A notice of hearing on any proposed regulations shall be published in the FEDERAL REGISTER, together with the Director's proposed determination to waive the moratorium pursuant to section 101(a)(3)(A) (16 U.S.C. § 1371(a)(3)(A)), where applicable.

(b) The notice shall state:

(1) The nature of the hearing;

(2) The place and date of the hearing. The date shall not be less than 60 days after publication of notice of the hearing;

(3) The legal authority under which the hearing is to be held;

(4) The proposed regulations and waiver, where applicable, and a summary of the statements required by § 103

(d) of the Act (16 U.S.C. § 1373(d));

(5) Issues of fact which may be involved in the hearing;

(6) If a draft Environmental Impact Statement is required, the date of publication of the draft and the place(s) where the draft and comments thereon may be viewed and copied;

(7) Any written advice received from the Marine Mammal Commission;

(8) The place(s) where records and submitted direct testimony will be kept for public inspection;

(9) The final date for filing with the Director a notice of intent to participate in the hearing pursuant to § 18.74;

(10) The final date for submission of direct testimony on the proposed regulations and waiver, if applicable, and the number of copies required;

(11) The docket number assigned to the case which shall be used in all subsequent proceedings; and

(12) The place and date of the prehearing conference.

## § 18.74 Notification by interested persons.

Any person desiring to participate as a party shall notify the Director, by certified mail, on or before the date specified in the notice.

## § 18.75 Presiding officer.

(a) Upon publication of the notice of hearing pursuant to § 18.73, the Director shall appoint a presiding officer pursuant to 5 U.S.C. 3105. No individual who has any conflict of interest, financial or otherwise, shall serve as presiding officer in such proceeding.

(b) The presiding officer, in any proceeding under this subpart, shall have power to:

(1) Change the time and place of the hearing and adjourn the hearing;

(2) Evaluate direct testimony submitted pursuant to these regulations, make a preliminary determination of the issues, conduct a prehearing conference to determine the issues for the hearing agenda, and cause to be published in the FEDERAL REGISTER a final hearing agenda;

(3) Rule upon motions, requests and admissibility of direct testimony;

(4) Administer oaths and affirmations, question witnesses and direct witnesses to testify;

(5) Modify or waive any rule (after notice) when determining no party will be prejudiced;

(6) Receive written comments and hear oral arguments;

(7) Render a recommended decision; and

(8) Do all acts and take all measures, including regulation of media coverage, for the maintenance of order at and the efficient conduct of the proceeding.

(c) In case of the absence of the original presiding officer or his inability to act, the powers and duties to be performed by the original presiding officer under this part in connection with a proceeding may, without abatement of the proceeding, be assigned to any other presiding officer unless otherwise ordered by the Director.

(d) The presiding officer may upon his own motion withdraw as presiding officer in a proceeding if he deems himself to be disqualified.

(e) A presiding officer may be requested to withdraw at any time prior to the recommended decision. Upon the filing by an interested person in good faith of a timely and sufficient affidavit alleging the presiding officer's personal bias, malice, conflict of interest or other basis which might result in prejudice to a party, the hearing shall recess. The Director shall immediately determine the matter as a part of the record and decision in the proceeding, after making such investigation or holding such hearings, or both, as he may deem appropriate in the circumstances.

## § 18.76 Direct testimony submitted as written documents.

(a) Unless otherwise specified, all direct testimony, including accompanying exhibits, must be submitted to the presiding officer in writing no later than the dates specified in the notice of the hearing (§ 18.73), the final hearing agenda (§ 18.81), or within 15 days after the conclusion of the prehearing conference (§ 18.83) as the case may be. All direct testimony shall be in affidavit form and exhibits constituting part of such testimony, referred to in the affidavit and made a part thereof, must be attached to the affidavit. Direct testimony submitted with exhibits must state the issue to which the exhibit relates; if no such statement is made, the presiding officer shall determine the relevance of the exhibit to the issues published in the FEDERAL REGISTER.

(b) The direct testimony submitted shall contain:

(1) A concise statement of the witness' interest in the proceeding and his position regarding the issues presented. If the direct testimony is presented by a witness who is not a party, the witness shall state his relationship to the party; and

(2) Facts that are relevant and material.

(c) The direct testimony may propose issues of fact not defined in the notice of the hearing and the reason(s) why such issues should be considered at the hearing.

(d) Ten copies of all direct testimony must be submitted unless the notice of the hearing otherwise specifies.

(e) Upon receipt, direct testimony shall be assigned a number and stamped with that number and the docket number.

(f) Contemporaneous with the publication of the notice of hearing, the Director's direct testimony, in support of the proposed regulations and waiver, where applicable, shall be available for public inspection as specified in the notice of hearing. The Director may submit additional direct testimony during the time periods allowed for submission of such testimony by witnesses.

## § 18.77 Mailing address.

Unless otherwise specified in the notice of hearing, all direct testimony shall be addressed to the Presiding Officer,

c/o Director, U.S. Fish and Wildlife Service, Washington, D.C. 20240. All affidavits and exhibits shall be clearly marked with the docket number of the proceedings.

## § 18.78 Inspection and copying of documents.

Any document in a file pertaining to any hearing authorized by this subpart or any document forming part of the record of such a hearing may be inspected and/or copied in the Office of the Director, U.S. Fish and Wildlife Service, Washington, D.C. 20240 unless the file is in the care and custody of the presiding officer, in which case he shall notify the parties as to where and when the record may be inspected.

## § 18.79 Ex parte communications.

(a) After notice of a hearing is published in the FEDERAL REGISTER, all communications, whether oral or written, involving any substantive or procedural issue and directed either to the presiding officer or to the Director, Deputy Director or Marine Mammal Coordinator, U.S. Fish and Wildlife Service, without reference to these rules of procedure, shall be deemed ex parte communications and are not to be considered part of the record for decision.

(b) A record of oral conversations shall be made by the above persons who are contacted. All communications shall be available for public viewing at the place(s) specified in the notice of hearing.

(c) The presiding officer shall not consult any person or party on any fact in issue or on the merits of the matter unless notice and opportunity is given for all parties to participate.

## § 18.80 Prehearing conference.

(a) After an examination of all the direct testimony submitted pursuant to § 18.76, the presiding officer shall make a preliminary determination of issues of fact which may be addressed at the hearing.

(b) The presiding officer's preliminary determination shall be made available at the place or places provided in the notice of the hearing (§ 18.73(b)(8)) at least five days before the prehearing conference is held.

(c) The purpose of the prehearing conference shall be to enable the presiding officer to determine, on the basis of the direct testimony submitted and prehearing discussions:

(1) Whether the presiding officer's preliminary determination of issues of fact for the hearing has omitted any significant issues;

(2) What facts are not in dispute;

(3) Which witnesses may appear at the hearing; and

(4) The nature of the interest of each party and which parties' interests are adverse.

(d) Only parties may participate in the prehearing conference and a party may appear in person or be represented by counsel.

## PROPOSED RULES

(e) Parties who do not appear at the prehearing conference shall be bound by the conference's determinations.

## § 18.81 Final agenda of the hearing.

(a) After the prehearing conference, the presiding officer shall prepare a final agenda which shall be published in the FEDERAL REGISTER within ten days after the conclusion of the conference. A copy of the final agenda shall be mailed to all parties.

(b) The final agenda shall list: (1) all the issues which the hearing shall address, the order in which those issues shall be presented, and the direct testimony submitted which bears on the issues; and (2) a final date for submission of direct testimony on issues of fact not included in the notice of hearing if such issues are presented. The final agenda may also specify a final date for submission of direct testimony to rebut testimony previously submitted during the time specified in the notice of the hearing.

(c) The presiding officer shall publish with the final agenda a list of witnesses who may appear at the hearing, a list of parties, the nature of the interest of each party, and which parties' interests are adverse on the issues presented.

## § 18.82 Determination to cancel the hearing.

(a) If the presiding officer concludes that no issues of fact are presented by the direct testimony submitted, the presiding officer shall publish such conclusion and notice in the FEDERAL REGISTER that a hearing shall not be held and shall also publish a date for filing written comments on the proposed regulations. Written comments may include proposed findings and conclusions, arguments or briefs.

(b) A person need not be a party to submit any written comments.

(c) Promptly after expiration of the period for receiving written comments, the presiding officer shall make a recommended decision based on the record, which in this case shall consist of the direct testimony and written comments submitted. He shall transfer to the Director his recommended decision, the record and a certificate stating that the record contains all the written direct testimony and comments submitted. The Director shall then make a final decision in accordance with these regulations (§ 18.90).

## § 18.83 Rebuttal testimony and new issues of fact in final agenda.

(a) Direct testimony to rebut testimony offered during the time period specified in the notice of hearing may be submitted pursuant to these regulations within fifteen days after the conclusion of the prehearing conference unless the presiding officer otherwise specifies in the final agenda.

(b) If the final agenda presents issues not included in the notice of the hearing published pursuant to § 18.73:

(1) Any person interested in participating at the hearing on such issues presented shall notify the Director by certified mail of an intent to participate not later than ten days after publication

of the final agenda. Such person may present direct testimony or cross-examine witnesses only on such issues presented unless he previously notified the Director pursuant to § 18.74; and

(2) Additional written direct testimony concerning such issues may be submitted within the time provided in the final agenda. Such direct testimony will comply with the requirements of § 18.76.

## § 18.84 Waiver of right to participate.

Persons who fail to notify the Director pursuant to § 18.74 and § 18.83 shall be deemed to have waived their right to participate as parties in any part of the hearing.

## § 18.85 Conduct of the hearing.

(a) The hearing shall be held at the time and place fixed in the notice of hearing, unless the presiding officer changes the time or place. If a change occurs, the presiding officer shall publish the change in the FEDERAL REGISTER and shall expeditiously notify all parties by telephone or by mail: *Provided*, That if the change in time or place of hearing is made less than five days before the date previously fixed for the hearing, the presiding officer shall also announce, or cause to be announced, the change at the time and place previously fixed for the hearing.

(b) The presiding officer shall, at the commencement of the hearing, introduce into the record: the notice of hearing as published in the FEDERAL REGISTER; all subsequent notices published in the FEDERAL REGISTER; the draft Environmental Impact Statement if it is required and the comments thereon and agency responses to the comments; and a list of all parties. Direct testimony shall then be received with respect to the matters specified in the final agenda in such order as the presiding officer shall announce. With respect to direct testimony submitted as rebuttal testimony or in response to new issues presented by the prehearing conference, the presiding officer shall determine the relevancy of such testimony.

(c) The hearing shall be publicly conducted and reported verbatim by an official reporter.

(d) If a party objects to the admission or rejection of any direct testimony or to any other ruling of the presiding officer during the hearing, he shall state briefly the grounds of such objection, whereupon an automatic exception will follow if the objection is overruled by the presiding officer. The transcript shall not include argument or debate thereon except as ordered by the presiding officer. The ruling of the presiding officer on any objection shall be a part of the transcript and shall be subject to review at the same time and in the same manner as the Director's final decision. Only objections made before the presiding officer may subsequently be relied upon in the proceedings.

(e) All motions and requests shall be addressed to, and ruled on by, the presiding officer, if made prior to his certification of the transcript or by the Director if made thereafter.

## PROPOSED RULES

## § 18.86 Direct testimony.

(a) Only direct testimony submitted by affidavit as provided in these regulations and introduced at the hearing by a witness shall be considered part of the record. Such direct testimony shall not be read into evidence but shall become a part of the record subject to exclusion of irrelevant and immaterial parts thereof.

(b) The witness introducing direct testimony shall:

(1) State his name, address and occupation;

(2) State qualifications for introducing the direct testimony. If an expert, the witness shall briefly state the scientific or technical training which qualifies him as an expert;

(3) Identify the direct testimony previously submitted in accordance with these regulations; and

(4) Submit to appropriate cross and direct examination. Cross-examination shall be by a party whose interests are adverse on the issue presented, to the witness, if the witness is a party, or to the interests of the party who presented the witness.

(c) A party shall be deemed to have waived the right to introduce direct testimony if such party fails to present a witness to introduce the direct testimony.

(d) Official notice may be taken of such matters as are judicially noticed by the courts of the United States. *Provided*, That parties shall be given adequate notice, by the presiding officer, at the hearing, of matters so noticed and shall be given adequate opportunity to show that such facts are inaccurate or are erroneously noticed.

## § 18.87 Cross examination.

(a) The presiding officer may:

(1) Require the cross-examiner to outline the intended scope of the cross-examination;

(2) Prohibit parties from cross-examining witnesses unless the presiding officer has determined that the cross-examiner has an adverse interest on the facts at issue to the party-witness or the party presenting the witness. For the purposes of this subsection, the Director's or his representative's interest shall be considered adverse to all parties;

(3) Limit the number of times any party or parties having a common interest may cross-examine an "adverse" witness on the same matter; and

(4) Exclude cross-examination questions that are immaterial, irrelevant or unduly repetitious.

(b) Any party shall be given an opportunity to appear, either in person or through an authorized counsel or representative, to cross-examine witnesses. Before cross-examining a witness, the party or counsel shall state his name, address and occupation. If counsel cross-examines the witness, counsel shall state for the record the authority to act as counsel. Cross-examiners shall be assumed to be familiar with the direct testimony.

(c) Any party or party's counsel who fails to appear at the hearing to cross-examine an "adverse" witness shall be deemed to have waived the right to cross-examine that witness.

(d) Scientific, technical or commercial publications may only be utilized for the limited purposes of impeaching witnesses under cross-examination unless previously submitted and introduced in accordance with these regulations.

## § 18.88 Oral and written arguments.

(a) The presiding officer may, in his discretion, provide for oral argument at the end of the hearing. Such argument when permitted, may be limited by the presiding officer to the extent necessary for the expeditious disposition of the proceeding.

(b) The presiding officer shall announce at the hearing a reasonable period of time within which any interested person may file with the presiding officer any written comments on the proposed regulations and waiver, including proposed findings and conclusions and written arguments or briefs, which are based upon the record and citing where practicable the relevant page or pages of the transcript. If a party filing a brief desires the presiding officer to reconsider any objection made by such party to a ruling of the presiding officer, he shall specifically identify such rulings by reference to the pertinent pages of the transcript and shall state his arguments thereon as a part of the brief.

(c) Oral or written arguments shall be limited to issues arising from direct testimony on the record.

## § 18.89 Recommended Decision, Certification of the transcript and submission of comments on the recommended decision.

(a) Promptly after expiration of the period for receiving written briefs, the presiding officer shall make a recommended decision based on the record and transmit the decision to the Director. The recommended decision shall include:

(1) A statement containing a description of the history of the proceedings;

(2) Findings on the issues of fact with the reasons therefor; and

(3) Rulings on issues of law.

(b) The presiding officer shall also transmit to the Director the transcript of the hearing, the original and all copies of the direct testimony, and written comments. The presiding officer shall attach to the original transcript of the hearing a certificate stating that, to the best of his knowledge and belief, the transcript is a true transcript of the testimony given at the hearing except in such particulars as are specified.

(c) Immediately after receipt of the recommended decision, the Director shall give notice thereof in the FEDERAL REGISTER, send copies of the recommended decision to all parties, and provide opportunity for the submission of comments. The recommended decision may be reviewed and/or copied in the office of the Director, U.S. Fish and Wild-

life Service, Washington, D.C. 20240.

(d) Within twenty days after the notice of receipt of the recommended decision has been published in the FEDERAL REGISTER, any interested person may file with the Director any written comments on the recommended decision. All comments, including recommendations from or consultation with the Marine Mammal Commission, must be submitted during the twenty-day period to the Director at the above address.

## § 18.90 Director's decision.

(a) Upon receipt of the recommended decision and transcript and after the twenty-day period for receiving written comments on the recommended decision has passed, the Director shall make a final decision on the proposed regulations and waiver, where applicable. The Director's decision may affirm, modify, or set aside, in whole or in part, the recommended findings, conclusions and decision of the presiding officer. The Director may also remand the hearing record to the presiding officer for a fuller development of the record.

(b) The Director's decision shall include:

(1) A statement containing a description of the history of the proceeding;

(2) Findings on the issues of fact with the reasons therefor; and

(3) Rulings on issues of law.

(c) The Director's decision shall be published in the FEDERAL REGISTER. If the waiver is approved, the final adopted regulations shall be promulgated with the decision.

## ACTION

## [ 45 CFR Part 1212 ]

## SPONSORS' AGREEMENTS

## Suspension and Termination and Denial of Request To Renew

Full-time volunteers serving in programs under Part A and some full-time volunteers under Part C of Title I of the Domestic Volunteer Service Act of 1973 (87 Stat. 397, 400) are assigned to sponsors pursuant to agreements between ACTION and sponsors. (ACTION also funds full-time volunteer programs under Part C through grants to sponsors.) Procedures for ACTION's suspension and termination of such agreements, as well as for denying requests to renew them, are needed to give sponsors an opportunity to present their views concerning any such actions. Section 402(15) of the Act (87 Stat. 411) authorizes the Director generally to perform such functions and take such steps consistent with the purposes and provisions of the Act, as he deems necessary or appropriate to carry out the provisions of the Act.

Notice is hereby given that the Director of ACTION proposes to amend Chapter XII of Title 45, Code of Federal Regulations to add a new Part 1212. This will provide procedures, including notice and an opportunity to present views, with respect to the suspension and termination and denial of requests to renew agreements for the assignment of full-time volunteers under Parts A and C of Title I, the Domestic Volunteer Service Act of 1973.

The proposed procedures provide for the suspension and termination of an

## PROPOSED RULES

agreement because of the material failure of a sponsor to comply with its terms and conditions. They also provide for denial of a request to renew an agreement. These procedures do not apply to the suspension or the termination of or denial to refund grants or contracts of assistance which may fund full-time volunteer program under Part C of Title I. Part 1206 of this title is applicable to such situations.

Inquiries may be addressed and comments and views concerning the proposed new part may be submitted to ACTION, 806 Connecticut Avenue, Washington, D.C. 20525, Attention: Associate Director for Domestic and Anti-Poverty Operations. All comments received on or before June 30, 1975, will be considered. All comments in response to this proposal will be available for public inspection during normal business hours at the foregoing address.

It is therefore proposed to add a new Part 1212 to Chapter XII of Title 45 of the Code of Federal Regulations as follows:

## PART 1212—SPONSORS' AGREEMENTS—SUSPENSION AND TERMINATION AND DENIAL OF REQUESTS TO RENEW

## Subpart A—Suspension and Termination of Agreements

Sec.	Purpose and scope.
1212.1-1	Application of this part.
1212.1-2	Definitions.
1212.1-3	Suspension.
1212.1-4	Termination.
1212.1-5	Time and place of termination hearings.
1212.1-6	Termination of hearing procedures.
1212.1-7	Decisions and notices regarding termination.
1212.1-8	Right to counsel; travel expenses.
1212.1-9	Modification of procedures by consent.
1212.1-10	Other remedies.
1212.1-11	Other remedies.

## Subpart B—Request To Renew Agreement

Sec.	Applicability of this subpart.
1212.2-1	Purpose.
1212.2-2	Definitions.
1212.2-3	Procedures.
1212.2-4	Right to counsel.

AUTHORITY: Sections: 103, 122, 402 (12), and 420 of Pub. L. 93-113, 87 Stat. 394, 396, 401, and 414.

## Subpart A—Suspension and Termination of Agreements

## § 1212.1-1 Purpose and scope.

(a) This subpart establishes rules and review procedures for the suspension and termination of agreements between ACTION and sponsors for the assignment of full-time volunteers under Parts A and C of Title I, the Domestic Volunteer Service Act of 1973, 87 Stat. 394, Pub. L. 93-113 (the Act), because of a material failure of a sponsor to comply with the terms and conditions of any such agreement including applicable laws, regulations, program guidelines and policies, instructions, plans, or approved volunteer work assignments.

(b) These procedures do not apply to the termination of projects resulting from a State Governor's action pursuant to section 103(d) of the Act, which pro-

vides that the assignment of a volunteer within a State may be terminated by the Director of ACTION when requested by the Governor or Chief executive officer of the State concerned.

(c) This subpart does not apply to any administrative action of the ACTION agency based upon any violation, or alleged violation, of Title VI of the Civil Rights Act of 1964 and sections 417 (a) and (b) of the Act relating to nondiscrimination. In the case of any such violation or alleged violation Part 1203 of this chapter shall apply.

(d) Suspension and termination of agreements are not grievances under Part 1211, Chapter XII, Title 45, "Volunteer Grievance Procedure".

## § 1212.1-2 Application of this part.

This subpart applies to full-time volunteer programs authorized under Parts A and C of Title I of the Act and operated pursuant to agreements between ACTION and sponsors. It does not apply to volunteer programs operated pursuant to grants or contracts of assistance under Part C of Title I, Part 1206, Chapter XII, Title 45, Code of Federal Regulations applies to such grants and contracts.

## § 1212.1-3 Definitions.

As used in this section—

(a) The terms "ACTION" or "ACTION Agency" include each regional office and state office.

(b) The term "Deputy Director" means the Deputy Director of the ACTION agency.

(c) The term "responsible ACTION official" refers to the appropriate ACTION Regional Director or his designee in the case of volunteer programs authorized under Parts A and C of Title I of the Act. However, in the case of programs under Part C of Title I, in which the sponsor agrees to reimburse ACTION for part or all of the costs of the program, the "responsible ACTION official" is the appropriate Regional Contracts Officer or his designee.

(d) The term "Hearing Examiner" means the individual conducting the termination hearing pursuant to § 1206.1-7.

(e) The term "agreement" means any written instrument, including a memorandum, arrangement, or contract between ACTION and a sponsor providing for the assignment or referral of full-time domestic volunteers under either Parts A or C of the Act, except grants or contracts of assistance.

(f) The term "sponsor" means a public or non-profit private agency, institution, or organization or a state or other political jurisdiction which has signed an agreement.

(g) The term "agency" means a public or non-profit private agency, institution, or organization or a State or other political jurisdiction with which the sponsor has entered into an arrangement for the placement or service of a volunteer or volunteers.

(h) The term "party" in the case of a termination hearing means ACTION, the sponsor concerned, and any other agency or organization which has a right or

which has been granted permission by the Hearing Examiner to participate in a hearing concerning termination pursuant to § 1212.1-5(e).

(i) The term "termination" means an action permanently terminating part or all of an agreement with respect to a program prior to the time that such program is concluded by the terms and conditions of the agreement. It does not include the refusal to sign a new or amended agreement, which is covered by Subpart B.

(j) The term "suspension" means any action temporarily suspending or curtailing part or all of an agreement with respect to a program prior to the time that such program is concluded by the terms and conditions of the agreement. It does not include the refusal to sign a new or amended agreement which is covered by subpart B.

(k) The term "volunteer" means a full-time domestic volunteer serving pursuant to an agreement.

(l) The term "Act" means the Domestic Volunteer Service Act of 1973, Pub. L. 93-113, 87 Stat. 394, as amended from time to time.

(m) The term "program" is used in several distinct ways in this Part. It may mean a full-time domestic volunteer program, such as VISTA, or the ACTION Cooperative Volunteer program. It may also mean a part or whole of a project or program in which a volunteer participates or to which he is assigned or referred.

(n) The term "administrative hold" means that period starting when a volunteer has been removed from a program because of any suspension or termination action taken against a sponsor and has not yet resigned or been terminated or transferred to a new program. During such period, he continues to receive his regular allowances and stipend.

(o) The term "contract of assistance" refers to contracts or other written arrangements entered into between ACTION and sponsors whereby ACTION provides or shares the cost of volunteer support. One example would be a VISTA contract of assistance for transportation or supervisory support services. (See Vol. 39, FEDERAL REGISTER, No. 47, March 8, 1974, p. 9221.) Termination of contract of assistance is governed by section 412 of the Act and Part 1206 of this Title.

#### § 1212.1-4 Suspension.

(a) *General.* The responsible ACTION official may suspend an agreement in whole or in part for a material failure or threatened material failure to comply with any requirement stated in § 1212.1-1. Such suspension shall be pursuant to notice and opportunity to show cause why the agreement should not be suspended as provided in paragraph (b) of this section. However, in emergency cases, where the responsible ACTION official determines summary action is appropriate, the alternative summary procedure of paragraph (c) of this section shall be followed.

(b) *Suspension on notice.* (1) Except as provided in paragraph (c) of this sec-

tion, the procedure for suspension shall be on notice of intent to suspend as hereinafter provided.

(2) The responsible ACTION official shall notify the sponsor by letter or by telegram that ACTION intends to suspend the agreement in whole or in part unless good cause is shown why it should not be suspended. In such letter or telegram the responsible ACTION official shall specify the grounds for the proposed suspension and the proposed effective date of the suspension.

(3) The responsible ACTION official shall also inform the sponsor of its right to submit written material in opposition to the intended suspension and of its right to request an informal meeting at which it may respond and attempt to show why such suspension should not occur. The period of time within which the sponsor may submit such written material or request the informal meeting shall be stated in the notice of intent to suspend. However, in no event shall the period of time within which the sponsor must submit written material or request such a meeting be less than 5 days after the notice of intent to suspend the agreement is received. If the sponsor requests a meeting, the responsible ACTION official shall fix a time and place for the meeting, which shall not be more than 10 days after the sponsor's request is received by ACTION.

(4) In lieu of the provisions of subparagraph (3) of this paragraph dealing with the right of the sponsor to request an informal meeting, the responsible ACTION official may within 10 days on his own initiative establish a time and place for such a meeting and notify the sponsor in writing or by telegram.

(5) The responsible ACTION official may in his discretion extend the period of time or date referred to in the previous paragraphs of this section and shall notify the sponsor in writing or by telegram of any such extension.

(6) At the time the responsible ACTION official sends the notification referred to in subparagraphs (2), (3), and (4) of this paragraph to the sponsor, he shall also send a copy of it to any agency whose activities or failures to act have substantially contributed to the proposed suspension, and shall inform such agency that it is entitled to submit written material or to participate in the informal meeting referred to in subparagraphs (3) and (4) of this paragraph. In addition, the responsible ACTION official may in his discretion give such notice to any other agency.

(7) Within 3 days of receipt of the notice referred to in subparagraphs (2), (3), and (4) of this paragraph, the sponsor shall send a copy of such notice and a copy of these regulations to any agency which would lose the services of a volunteer as a result of any suspension action. Any agency that wishes to submit written material may do so within the time stated in the notice. Any agency that wishes to participate in the informal meeting with the responsible ACTION official contemplated herein may request permission to do so from

the responsible ACTION official, who may in his discretion grant or deny such permission. In acting upon any such request from an agency, the responsible ACTION official shall take into account the effect of the proposed suspension on the particular agency, the extent to which the meeting would become unduly complicated as a result of granting such permission, and the extent to which the interests of the agency requesting such permission appear to be adequately represented by other participants.

(8) In the notice of intent to suspend assistance the responsible ACTION official shall invite voluntary action to adequately correct the deficiency which led to the initiation of the suspension proceeding.

(9) The responsible ACTION official shall consider any timely material presented to him in writing, any material presented to him during the course of the informal meeting provided for in subparagraphs (3) and (4) of this paragraph as well as any showing that the sponsor has adequately corrected the deficiency which led to the initiation of suspension proceedings. If after considering the material presented to him the responsible ACTION official concludes the sponsor has failed to show cause why assistance should not be suspended, he may suspend assistance in whole or in part and under such terms and conditions as he shall specify.

(10) Notice of such suspension shall be promptly transmitted to the sponsor and shall become effective upon delivery. Suspension shall not exceed 30 days unless during such period of time termination proceedings are initiated in accordance with § 1212.1-5, or unless the responsible ACTION official and the sponsor agree to a continuation of the suspension for an additional period of time. If termination proceedings are initiated, the suspension shall remain in full force and effect until such proceedings have been fully concluded.

(11) During a period of suspension, the responsible ACTION official shall decide whether the volunteers assigned to the program should be removed and placed in "administrative hold." In making his decision, the responsible ACTION official shall pay particular attention to the importance of not interrupting a volunteer's assignment. However, where, in his opinion, the best interests of the volunteers and ACTION would be so served, he may remove the volunteers from the program. The decision to remove the volunteers is not a grievance under Part 1211, Chapter XII, Title 45, "Volunteer Grievance Procedure."

During the period of suspension, no new expenditures shall be made and no new obligations shall be incurred under any contract of assistance in connection with the suspended program except as specifically authorized in writing by the responsible ACTION official. Expenditures under any such contract to fulfill legally enforceable commitments made prior to the notice of suspension, in good faith and in accordance with the sponsor's approved work plan, and not in anticipation of suspension or termina-

tion, shall not be considered new expenditures.

(12) The responsible ACTION official may in his discretion modify the terms, conditions and nature of the suspension or rescind the suspension action at any time on his own initiative or upon a showing satisfactory to him that the sponsor had adequately corrected the deficiency which led to the suspension and that repetition is not threatened. Suspensions partly or fully rescinded may, in the discretion of the responsible ACTION official, be reimposed with or without further proceedings: Provided, however, That the total time of any suspension, including a resumption of a suspension, may not exceed 30 days unless termination proceedings are initiated in accordance with § 1212.1-5 or unless the responsible ACTION official and the sponsor agree to a continuation of the suspension for an additional period of time. If termination proceedings are initiated, the suspension of assistance shall remain in full force and effect until such proceedings have been fully concluded.

(c) *Summary suspension.* (1) The responsible ACTION official may suspend the agreement without the prior notice and opportunity to show cause provided in paragraph (b) of this section if he determines in his discretion that immediate suspension is necessary because of a serious risk of (i) substantial injury to or loss of government property or loss of Federal funds, or (ii) violation of a Federal, state, or local criminal statute, or (iii) violation of section 403 of the Act or any applicable regulations, guidelines and instructions, published in accordance with section 420 of the Act implementing this section of the Act, and that such risk is sufficiently serious to outweigh the general policy in favor of advance notice and opportunity to show cause.

(2) Notice of summary suspension shall be given to the sponsor by letter or by telegram, shall become effective upon delivery to the sponsor and shall specifically advise the sponsor of the effective date of the suspension and the extent, terms and conditions of any partial suspension. The notice shall also forbid the sponsor to make any new expenditures or incur any new obligations under any contract of assistance, or part thereof, in connection with the suspended portion of the program. Expenditures under any such contract to fulfill legally enforceable commitments made prior to the notice of suspension, in good faith and in accordance with the sponsor's approved work plan and not in anticipation of suspension or termination, shall not be considered new expenditures.

The notice may also inform the sponsor that a volunteer or volunteers are being removed from the program. Such removal shall be governed by the same terms and conditions as in paragraph (b) (11) of this section.

(3) In the notice of summary suspension the responsible ACTION official shall advise the sponsor that it may request

ACTION to provide it with an opportunity to show cause why the summary suspension should be rescinded. If the sponsor requests such an opportunity, the responsible ACTION official shall immediately inform sponsor in writing of the specific grounds for the suspension and shall within 7 days after receiving such request from the sponsor hold an informal meeting at which the sponsor may show cause why the summary suspension should be rescinded. Notwithstanding the provisions of this subparagraph, the responsible ACTION official may proceed to initiate termination proceedings at any time even though assistance to the sponsor has been suspended in whole or in part. In the event that termination proceedings are initiated, the responsible ACTION official shall nevertheless afford the sponsor, if it so requests, an opportunity to show cause why suspension should be rescinded pending the outcome of the termination proceedings.

(4) Copies of the notice of summary suspension shall be furnished by the sponsor to agencies in the same manner as notices of intent to suspend as set forth in paragraph (b) (6), (7), and (8) of this section. Agencies may submit written material to the responsible ACTION official or to participate in the informal meeting as in the case of intended suspension proceedings set forth in paragraph (b) (6) and (7) of this section.

(5) The effective period of a summary suspension of assistance may not exceed 30 days unless termination proceedings are initiated in accordance with § 1212.1-5, or unless the parties agree to a continuation of summary suspension for an additional period of time, or unless the sponsor, in accordance with paragraph (c) (3) of this section, requests an opportunity to show cause why the summary suspension should be rescinded.

(6) If the sponsor requests an opportunity to show cause why a summary suspension action should be rescinded the suspension shall continue in effect until the sponsor has been afforded such opportunity and a decision has been made. Such a decision shall be made within 5 days after the conclusion of the informal meeting referred to in paragraph (c) (3) of this section. If the responsible ACTION official concludes, after considering all material submitted to him, the sponsor has failed to show cause why the suspension should be rescinded, the responsible ACTION official may continue the suspension in effect up to a total of 30 days, provided however, That if termination proceedings are initiated, the summary suspension of assistance shall remain in full force and effect until all termination proceedings have been fully concluded.

#### § 1212.1-5 Termination.

(a) If the responsible ACTION official believes that an alleged failure to comply with any requirement stated in § 1212.1-1 may be sufficiently serious to warrant termination of the agreement, whether or not the agreement has been suspended,

he shall so notify the sponsor by letter or telegram. The notice shall state that there appear to be grounds which warrant terminating the agreement and shall set forth the specific reasons therefor. If the reasons result in whole or substantial part from the activities of an agency other than the sponsor, which presently has volunteers assigned to it, the notice shall identify that agency. The notice shall also advise the sponsor that the matter has been set down for hearing at a stated time and place, in accordance with § 1212.1-6. In the alternative the notice shall advise the sponsor of its right to request a hearing and shall fix a period of time, which shall not be less than 10 days from receipt of notice, in which the sponsor may request a hearing.

(b) Termination hearings shall be conducted in accordance with the provision of §§ 1212.1-7 and 1212.1-8. They shall be scheduled for the earliest practicable date, but not later than 30 days after a sponsor has requested a hearing in writing or by telegram. Consideration shall be given to a request by a sponsor to advance or postpone the date of a hearing scheduled by ACTION. Any such hearing shall afford the sponsor a full and fair opportunity to demonstrate that it is in compliance with requirements specified in § 1212.1-1. In any termination hearing, the sponsor shall have the burden of proving why the proposed termination action should not take place.

(c) If the responsible ACTION official pursuant to paragraph (a) of this section informs a sponsor that a proposed termination action has been set for hearing, the sponsor shall within 5 days of its receipt of this notice send a copy of it to all agencies which would be affected by the termination and to each agency identified in the notice pursuant to paragraph (a) of this section. The sponsor shall send the responsible ACTION official a list of all agencies notified and the date of notification.

(d) If the responsible ACTION official has initiated termination proceedings because of the activities of an agency, that agency may participate in the hearing as a matter of right. Any other agency, person, or organization that wishes to participate in the hearing may, in accordance with § 1212.1-7(d), request permission to do so from the Hearing Examiner. Such participation shall not, without the consent of ACTION and the sponsor, alter the time limitations for the delivery of papers or other procedures set forth in this section.

(e) The results of the proceeding and any measure taken thereafter by ACTION pursuant to this part shall be fully binding upon the sponsor and all agencies whether or not they actually participated in the hearing.

(f) A sponsor may waive a hearing by notice to the responsible ACTION official in writing and submit written information and argument for the record. Such material shall be submitted to the responsible ACTION official within a reasonable period of time to be fixed by him upon the request of the sponsor. The failure

of a sponsor to request a hearing, or to appear at a hearing for which a date has been set, unless excused for good cause, shall be deemed a waiver of the right to a hearing and consent to the making of a decision on the basis of such information as is then in the possession of ACTION.

(g) The responsible ACTION official may attempt, either personally or through a representative, to resolve the issues in dispute by informal means prior to the date of any applicable hearing.

#### § 1206.1-6 Time and place of termination hearings.

The termination hearing shall be held in Washington, D.C., or in the appropriate Regional Office or state office, at a time and place fixed by the responsible ACTION official unless he determines that the convenience of ACTION, or of the parties or their representatives, requires that another place be selected.

#### § 1206.1-7 Termination hearing procedures.

(a) *General.* The termination hearing, decision, and any review thereof shall be conducted in accordance with the rules of procedure set forth in this section and §§ 1212.1-8 and 1212.1-9.

(b) *Presiding Officer.* The presiding officer at the hearing shall be an independent hearing examiner. The responsible ACTION official shall notify the Chief, Labor and Employees Relations Branch that appointment of a Hearing Examiner will be required. He shall within seven days after such notification, secure the services of a Hearing Examiner, who shall possess the qualifications specified in Appendix A. The Hearing Examiner shall conduct a full and fair hearing, avoid delay, maintain order, and make a sufficient record for a full and true disclosure of the facts and issues. To accomplish these ends, the Hearing Examiner shall have all powers authorized by law, and he may make all procedural and evidentiary rulings necessary for the conduct of the hearing. The hearing shall be open to the public unless the Hearing Examiner for good cause shown shall otherwise determine.

(c) *Presentation of evidence.* Both ACTION and the sponsor are entitled to present their case by oral or documentary evidence, to submit rebuttal evidence and to conduct such examination and cross-examination as may be required for a full and true disclosure of all facts bearing on the issues.

(d) *Participation.* (1) In addition to ACTION, the sponsor, and any agency which has a right to appear, the Hearing Examiner in his discretion may permit the participation in the proceedings of such persons or organizations as he deems necessary for a proper determination of the issues involved. Such participation may be limited to those issues or activities which the Hearing Examiner believes will meet the needs of the proceeding, and may be limited to the filing of written material.

(2) Any person or organization that wishes to participate in a proceeding may

apply for permission to do so from the Hearing Examiner. This application, which shall be made as soon as possible after the notice of proposed termination has been received by the sponsor, shall state the applicant's interest in the proceeding, the evidence or arguments the applicant intends to contribute, and the necessity for the introduction of such evidence or arguments.

(3) The Hearing Examiner shall permit or deny such participation and shall give notice of his decision to the applicant, the sponsor, and ACTION, and, in the case of denial, a brief statement of the reasons therefor. If participation is granted, the Hearing Examiner shall notify all parties of that fact and may, in appropriate cases, include in the notification a brief statement of the issues as to which participation is permitted.

(4) Permission to participate to any extent is not a recognition that the participant has any interest which may be adversely affected or that the participant may be aggrieved by any decision, but is allowed solely for the air and information of the Hearing Examiner.

(e) *Filing.* All papers and documents which are required to be filed shall be filed with the Hearing Examiner. Simultaneous with filing, copies shall be sent to the other parties.

(f) *Notice.* The responsible ACTION official shall send the sponsor and any other party a written notice which states the time, place, nature of the hearing, the legal authority and jurisdiction under which the hearing is to be held. The notice shall also identify with reasonable specificity the facts relied on as justifying termination and/or the ACTION requirements which it is contended the sponsor has violated. The notice shall be filed and served not later than 10 days prior to the hearing and a copy thereof shall be filed with the Hearing Examiner.

(g) *Notice of intention to appear.* The sponsor and any other party which has a right or has been granted permission to participate in the hearing shall give written confirmation to ACTION of its intention to appear at the hearing 3 days before it is scheduled to occur. Failing to do so may, at the discretion of the Hearing Examiner, be deemed a waiver of the right to a hearing.

(h) *Form and date of service.* All papers and documents filed or sent to a party shall be signed in ink by the appropriate party or his authorized representative. The date on which papers are filed shall be the day on which the papers or documents are deposited, postage prepaid in the U.S. mail, or delivered in person: *Provided however,* That the effective date of the notice that there appear to be grounds which warrant terminating assistance shall be the date of its delivery or attempted delivery at the sponsor's last known address as reflected in the records of ACTION.

(i) *Prehearing conferences.* Prior to the commencement of a hearing the Hearing Examiner may, subject to the provisions of paragraph (b)(2), of this section, require the parties to meet with him or correspond with him concerning

the settlement of any matter which will expedite the hearing.

(j) *Evidence.* Technical rules of evidence shall not apply to hearings conducted pursuant to this subpart, but the Hearing Examiner shall apply rules or principles designed to assure production of relevant evidence and to subject testimony under oath to such examination and cross-examination as may be required for a full and true disclosure of the facts. The Hearing Examiner may exclude irrelevant, immaterial, or unduly repetitious evidence. A transcript shall be made of the oral evidence and shall be made available to any participant upon payment of the prescribed costs. All documents and other evidence submitted shall be open to examination by the parties and opportunity shall be given to refute allegations and arguments advanced on either side of the issues.

(k) *Depositions.* The Hearing Officer may authorize the taking of depositions provided that all parties are afforded an opportunity to participate in the taking of the depositions. The party who requested the deposition shall arrange for a transcript to be made of the proceedings and shall upon request, and at his expense, furnish all other parties with copies of the transcript.

#### § 1212.1-3 Decisions and notices regarding termination.

(a) Each decision of a Hearing Examiner shall set forth his findings of fact and conclusions. The decision shall also specify the requirement or requirements with which it is found that the sponsor has failed to comply.

(b) The decision of the Hearing Examiner may provide for continued suspension or termination of the agreement in whole or in part, and may contain such terms, conditions, and other provisions as are consistent with and will effectuate the purposes of the Act.

(c) A copy of the decision shall be mailed to all parties. Any party may, within 20 days of the mailing of such decision, or such longer period of time as the Hearing Examiner specifies, file with the Regional Director his written exceptions to the decision and any supporting brief or statement. Upon the filing of such exceptions the Regional Director shall, within 20 days of the mailing of the exceptions, review the decision and issue his own written decision thereof, including the reasons therefor. The decision of the Regional Director may increase, modify, approve, vacate, remit, or mitigate any sanction imposed in the decision of the Hearing Examiner or may remand the matter to the Hearing Examiner for further hearing or consideration.

(d) Whenever a hearing is waived, a decision shall be made by the responsible ACTION official and a written copy of the final decision shall be given to the sponsor.

(e) The sponsor may request the Deputy Director to review a final decision by the responsible ACTION official which provides for the termination of an agreement. Such a request must be made in

writing within 15 days after the sponsor has been notified of the decision in question and must state in detail the reasons for seeking the review. In the event the sponsor requests such a review, the Deputy Director or his designee shall consider the reasons stated by the sponsor for seeking the review and shall approve, modify, vacate or mitigate any sanction imposed by the responsible ACTION official or remand the matter to the responsible ACTION official for further hearing or consideration. The decision of the responsible ACTION official will be given great weight by the Deputy Director or his designee during the review. Pending the decision of the Deputy Director or his designee assistance shall remain suspended under the terms and conditions specified by the responsible ACTION official, unless the responsible ACTION official or the Deputy Director or his designee otherwise determines. Every reasonable effort shall be made to complete the review by the Deputy Director or his designee within 30 days of receipt of the sponsor's request.

#### § 1212.1-9 Right to counsel.

In all proceedings under this subpart, whether formal or informal, the sponsor and ACTION shall have the right to be represented by counsel or other authorized representatives.

#### § 1212.1-10 Modification of procedures by consent.

The responsible ACTION official or the Hearing Examiner of a termination hearing may alter, eliminate, or modify any of the provisions of this subpart with the consent of the sponsor, and in the case of a termination hearing, with the consent of all agencies that have a right to participate in the hearing pursuant to § 1212.1-5(e). Such consent must be in writing or be recorded in the hearing transcript.

#### § 1212.1-11 Other remedies.

The procedures established by this subpart shall not preclude ACTION from pursuing any other remedies authorized by law.

#### APPENDIX A STANDARD FOR EXAMINERS

An examiner must meet the requirements specified in either (1), (2), (3), or (4) below:

(1) (a) Current employment in grade GS-12 or equivalent, or above.

(b) Satisfactory completion of a specialized course of training prescribed by the Civil Service Commission for examiners.

(c) At least four years of progressively responsible experience in administrative, managerial, professional, investigative, or technical work which has demonstrated the possession of:

(i) The personal attributes essential to the effective performance of the duties of an examiner, including integrity, discretion, reliability, objectivity, impartiality, resourcefulness, and emotional stability.

(ii) A high degree of ability to: Identify and select appropriate sources of information; collect, organize, analyze, and evaluate information; and arrive at sound conclusions on the basis of that information; Analyze situation; make an objective and logical determination of the pertinent facts;

evaluate the facts; and develop practicable recommendations or decisions on the basis of facts;

Recognize the causes of complex problems and apply mature judgment in assessing the practical implications of alternative solutions to those problems;

Interpret and apply regulations and other complex written material;

Communicate effectively orally and in writing, including the ability to prepare clear and concise written reports; and

Deal effectively with individuals and groups, including the ability to gain the cooperation and confidence of others.

(iii) A good working knowledge of: The relationship between volunteer administration and over-all management concerns; and

The principles, systems, methods, and administrative machinery for accomplishing the work of an organization.

(2) Designation as an arbitrator on a panel of arbitrators maintained by either the Federal Mediation and Conciliation Service or the American Arbitration Association.

(3) Current or former employment as, or current eligibility on the Civil Service Commission's register for, Hearing Examiner, GS-935-0.

(4) Membership in good standing in the National Academy of Arbitrators.

(5) A former Federal employee who at the time of leaving the Federal service was in grade GS-12 or equivalent, or above, and who meets all the requirements specified for an examiner except completion of the prescribed training course, may be used as an examiner upon satisfactory completion of the training course.

#### Subpart B—Refusal To Renew Agreement

##### § 1212.2-1 Applicability of this subpart.

This subpart applies to full-time volunteer programs authorized under Parts A and C of Title I of the Act and operates pursuant to agreements between ACTION and sponsors. It does not apply to full-time volunteer programs operated pursuant to grants or contracts of assistance under Part C of Title I. Part 1206, Chapter XII, Title 45, Code of Federal Regulations applies to such grants and contracts.

##### § 1212.2-2 Purpose.

This subpart establishes rules and review procedures for the denial of a request by a sponsor to renew an agreement for the assignment of full-time volunteers under Parts A and C of Title I of the Act. It also includes denial of a request to amend an existing agreement to add additional volunteers. Such denials are not grievances under Part 1211, Chapter XII, Title 45, "Volunteer Grievance Procedure."

##### § 1212.2-3 Definitions.

As used in this subpart, the terms "ACTION," "responsible ACTION official," "agreement," and "sponsor" shall have the same meaning as specified in § 1212.1-3.

##### § 1212.2-4 Procedures.

(a) Wherever possible, the responsible ACTION official shall make a tentative decision at the time of its field review as to the level of new volunteers which it intends to offer a sponsor for the sponsor's next program year. An ACTION official shall notify the sponsor of this tentative

decision as soon as possible following the field review.

(b) The procedures set forth in paragraphs (c) through (g) of this section shall apply only where a new application for volunteers submitted by a current sponsor is rejected or is reduced to 80 percent or less of the sponsor's authorized volunteer level in the current agreement. These procedures do not apply to reductions based on legislative requirements, or on general policy, including limiting the number of years volunteers will be provided to a sponsor for a particular program or project, or in instances where regardless of a sponsor's current authorized volunteer level, its application for volunteers is not reduced by 20 percent or more.

(c) Before rejecting an application of a sponsor within the meaning of paragraph (b) of this section, the responsible ACTION official shall notify the sponsor of its intention and shall offer the sponsor an opportunity to submit written material and to meet informally with another ACTION official to show cause why its application should not be rejected or reduced. Written notification of ACTION's intention shall be sent to the sponsor as far in advance of the end of the sponsor's current program year as possible. The notice shall inform the sponsor that a tentative decision has been made to reject or reduce an application. The notice shall also state the reasons for the tentative decision to which the sponsor shall address himself if he wishes to make a presentation.

(d) If the sponsor requests an informal meeting with an ACTION official as discussed in paragraph (c) of this section, such a meeting shall be scheduled by ACTION as soon as possible after the notice is sent to the sponsor informing it of ACTION's tentative decision to reject or reduce its application. However, this meeting may not, without the consent of the sponsor, be scheduled sooner than 14 days after ACTION has mailed the notice to the sponsor.

(e) The ACTION official who shall conduct this meeting shall be an ACTION official who is not authorized to sign an agreement with the sponsor and did not participate in the tentative decision to reject or reduce the application.

(f) An ACTION official who participated in the tentative decision to reject or reduce the application shall wherever possible attend the meeting. The meeting shall be held in Washington, D.C., in the appropriate Regional or state office, or in the city or county in which the sponsor is located.

(g) The recommendation of the official who conducts the meeting together with any written material submitted by the sponsor shall be forwarded for review to the responsible ACTION official. He shall inform the sponsor of his decision and the basis for the decision in writing. If he rejects or reduces the application, no further appeal lies to any other ACTION official.

##### § 1212.2-5 Right to counsel.

In all proceedings under this subpart, whether formal or informal, the sponsor

and ACTION shall have the right to be represented by counsel or other authorized representatives.

Issued in Washington, D.C. on May 23, 1975.

MICHAEL P. BALZANO, JR.,  
Director.

[FR Doc. 75-14034 Filed 5-28-75; 8:45 am]

## FEDERAL COMMUNICATIONS COMMISSION

### [47 CFR Part 76]

[Docket No. 20487; FCC 75-565]

## CABLE TELEVISION CARRIAGE

### Selection of Television Signals

In the matter of amendment of Part 76, Subpart D of the Commission's Rules and Regulations Relative to Selection of Television Signals for Cable Television Carriage (leapfrog rules): §§ 76.59(b) (1) and (2), 76.61(b) (1) and (2), 76.63.

1. Notice is hereby given of proposed rule making in the above-entitled matter concerning the "leapfrogging" provisions of §§ 76.59(b) (1) and (2), 76.61(b) (1) and (2), and 76.63 of the Commission's cable television rules.<sup>1</sup>

2. The evolution of the Commission's current "leapfrogging" rule can be traced back to the Notice of Inquiry and Notice of Proposed Rule Making in Docket 15971, FCC 65-334, 1 FCC 2d 453 (1965). In that document the Commission began grappling with its jurisdiction over non-microwave cable television systems and the impact of cable television on the television broadcast industry. Parties commenting in that proceeding asserted that generalized restrictions on the distance the signal of a television broadcast station may be extended beyond the station's contour were necessary in order

<sup>1</sup> Similar provisions of the rules apply to first 50, second 50 and smaller television markets. Sections 76.61(b) (1) and (2), for example, provide:

(1) Full network stations. A cable television system may carry the nearest full network stations, or the nearest in-State full network stations;

NOTE: The Commission may waive the requirements of this subparagraph for good cause shown in a petition filed pursuant to § 76.7.

(2) Independent stations. (1) For the first and second additional signals, if any, a cable television system may carry the signals of any independent television station: Provided, however, That if signals of stations in the first 25 major television markets (see § 76.51 (a)) are carried pursuant to this subparagraph, such signals shall be taken from one or both of the two closest such markets, where such signals are available. If a third additional signal may be carried, a system shall carry the signal of any independent UHF television station located within 200 air miles of the reference point for the community of the system (see § 76.53), or, if there is no such station, either the signal of any independent VHF television station located within 200 air miles of the reference point for the community of the system, or the signal of any independent UHF television station.

NOTE: It is not contemplated that waiver of the provisions of this subparagraph will be granted.

to prevent the multiplicity of local stations contemplated by the Sixth Report and Order, 41 FCC 148 (1952), from being displaced by a CATV "network" distributing the New York, Chicago and Los Angeles signals nationwide. They added that CATV systems should be required to select the stations it carries in an order of priority determined by the distance of each station from the system, i.e., that the system should carry nearer stations in preference to more distant ones, so as to avoid, "leapfrogging". The Commission concluded that the petitioners' assertions raised matters of future importance, but reached no conclusion on the issue and requested interested parties to address themselves to it in future proceedings.<sup>2</sup> Further comment on the issue was sought by the Commission in the Notice of Proposed Rule Making and Notice of Inquiry in Docket 18397, FCC 68-1176, 15 FCC 2d 417 (1968).

This was followed by the August 5, 1971 "Letter of Intent," 36 FCC 2d 260, in which we proposed to allow carriage of one independent station without restriction as to point of origin, permit carriage of other stations under rules intended to encourage UHF station carriage, and permit cable systems to compose channels of programming from more than one station.

3. In the Cable Television Report and Order, FCC 72-108, 36 FCC 2d 143 (1972), rules embodying the current leapfrog policy were adopted. In doing so we stated:

In establishing policy in this area we have had a number of conflicting considerations to reconcile. On the one hand, it is arguably desirable to allow cable systems the greatest possible choice, on the assumption that they will select those signals that will most appeal to their subscribers and are available at the least expense. But in that event there is a risk that most cable systems would select stations from either Los Angeles, Chicago, New York, or one of the other larger markets. There would then be no general participation by broadcast television stations in the benefits of cable carriage. There is the additional consideration that carriage of closer stations, because they are usually in the same region and often in the same state, supplies some programming that is more likely to be of interest in the cable community. We believe we have struck an appropriate balance. (Paragraph 92)

Since that time suggestions have been made by the Commission's Federal State/Local Advisory Committee and to

<sup>2</sup> The Commission asked interested parties to address themselves to the following questions among others:

Does it promote more effective use of our communications systems if closer signals are carried?

Is such carriage called for in the public interest in order to extend the service area of UHF stations or VHF stations serving sparsely populated areas and thus enhance their chances of successful operation?

If a policy along these lines is adopted, should it be accompanied by a concomitant duty, on the part of the station carried, to provide some amount of programming of particular interest to the people in the CATV community. (Paragraph 53)

the Cable Television Re-regulation Task Force that further consideration be given to particular aspects of this issue.<sup>3</sup> In the Clarification of Rules and Notice of Proposed Rule Making, FCC 74-383, 46 FCC 2d 175, para. 9 (1974), the Commission responded to the Advisory Committee's suggestion that consideration be given to the views of cable operators and franchising authorities in ruling on waiver requests based on a showing of community of interest. The Commission agreed with the Advisory Committee suggestion and went on to state that "as we gain more experience in this area, we may consider appropriate amendments of our leapfrogging rules (§ 76.59, 61 et seq.) to accommodate the carriage of in-state signals in some or all situations."

4. Our continuing review of our cable television rules generally as well as our specific experience with the operation of the existing leapfrogging rules, particularly insofar as problems have been brought to our attention in waiver petitions,<sup>4</sup> and through the work of our Re-regulation Task Force, has led us to question whether the current rules achieve the practical objectives we had desired. Whether the problem lies with the specifics of the rules or their underlying objectives is uncertain, but it does appear that matter relevant to these rules bear considerable new discussion.

5. A major concern with the rules is that they deprive cable system operators (and hence cable subscribers) of a choice as to which signals may be carried and thus may deprive subscribers of a quality or diversity of programming they might otherwise enjoy. A number of facets of this general problem deserve special mention. Among the reasons discussed for having rules of this type was the desirability of cable subscribers having access to programming from the same state or region which would likely be of particular

<sup>3</sup> The Federal-State/Local Advisory Committee was established at the time the Cable Television Report and Order was adopted to further advise the Commission as to the allocation of regulatory responsibilities among the various levels of government. The Re-regulation Task Force, whose creation was announced in a Public Notice of May 15, 1974, was established to review the Commission's cable television rules with a view towards eliminating unnecessary rules and improving the operation of those rules considered necessary.

<sup>4</sup> See for example, denial of leapfrogging waivers requested on grounds of excessive microwave costs; Vidi-Comm of Saugerties, Inc., FCC 74-1201, 49 FCC 2d 893 (1974); Citizens Cable of Allen County, FCC 75-240, — 1 FCC 2d — (1975); Moshannon Valley TV Cable Co., FCC 73-1206, 43 FCC 2d 1190 (1973), recons. denied, FCC 74-357, 46 FCC 2d 619 (1974); Morgantown Cable Company, FCC 74-68, 45 FCC 2d 158 (1974); on ground of de minimis mileage; Citizens Cable of Allen County, supra; Auburn Cable Company, FCC 74-1350, 50 FCC 2d 220 (1974); on grounds of near-by systems carrying the requested signals; High Fidelity Cable Television, FCC 74-511, 47 FCC 2d 73 (1974); Warner Cable of Pittsfield/Dalton, FCC 74-429, 46 FCC 2d 852 (1974); Citizens Cable of Allen County, supra, on grounds of carrying an in-state signal; STV Cable Television, Inc., FCC 74-1392, 50 FCC 2d 424 (1974).

interest in the cable community.<sup>5</sup> Although the present rules concerning the carriage of distant network affiliated stations recognize this rationale by providing a preference to "in-state" stations, the independent station rules do not. The result, with respect to independent stations, may be the required carriage of stations closer in proximity geographically but not from the same state and possibly more distant in community of interest. Compare Commission on Cable Television of the State of New York, FCC 73-1148, 43 FCC 2d 836 (1973), reconsid. denied, FCC 74-99, 45 FCC 2d 283 (1974), First Illinois Cable TV Inc., FCC 74-125, 45 FCC 2d 304 (1974), reconsid. granted in part, FCC 74-694, 47 FCC 2d 715 (1974).

6. Beyond this problem of systems being cut off from in-state programming, the restriction on the system operators' ability to select signals freely may be undesirable from the subscribers' point of view for other reasons. Systems may be forced to carry signals with very limited audience appeal. The type of "specialty stations" involved broadcast predominantly religious oriented programming and/or stock market quotations. Cable subscribers in such situations do not receive the type and variety of programming which was contemplated when the rules were adopted. By limiting choice as to stations available for carriage, subscriber welfare may be affected in other ways as well. Access to stations with a somewhat different format than local stations could be lost. With greater freedom of choice, signals more beneficial to subscribers and stations alike might be carried.

7. Another major concern is with the burdens these rules may place on cable systems and hence their subscribers when additional costs are passed on in the form of rate increases. The cost problem has two aspects. If the leapfrog rules require carriage of signals from two different directions, the microwave route costs are likely to be far greater than if a single route can be used to import two or three signals from the same city or the same general direction. Further, microwave expenses are likely to be high unless a number of different systems help bear the cost of constructing and operating the facilities. If costs are to be shared, all sys-

<sup>5</sup> For example, in the Notice of Inquiry and Notice of Proposed Rule Making in Docket 15971, FCC 65-339, 1 FCC 2d 453, para. 53 (1965), the Commission questioned whether carriage of closer stations should be required "on the ground that carriage of such signals would bring a programming service more likely to come closer to meeting the CATV community's interests than those from a distant state?" In the Notice of Proposed Rule Making and Notice of Inquiry in Docket 18397, FCC 68-1176, 15 FCC 2d 417, para. 56 (1968), we made reference to systems "carrying the signals of stations of the same type that are located closer to the system and thus are much more apt to have regional or in-state programming more attuned to the needs and interest of the community." See also Cable Television Report and Order, supra, paragraph 92.

tems involved must be permitted to carry the same signals. The magnitude of the costs involved, of course, vary widely depending on system location. It appears likely, however, that there are some areas in which the costs imposed are so large as to preclude carriage of any distant independent signals.<sup>6</sup>

8. Another concern with the operation of the existing rules, and possibly with rules of this type generally, is that their operation may be subject to so many vagaries of geography and population distribution as to conflict in significant fashion with some of the reasons initially advanced as warranting their adoption. The rules in their present form, because they apply only to top-25 market independent stations and allow a choice between the two closest such markets, would not, for example, prohibit a Washington, D.C. station from being carried as far away as Miami, Florida while they would prohibit the carriage of the same stations in much closer areas of Pennsylvania. They do not prohibit carriage of New York City stations into many of the larger eastern seaboard cities such as Philadelphia, Hartford, New Haven, or Boston, but would prohibit such carriage in Rhode Island. The rules, if strictly applied, would tend to encourage, if not require, carriage of Los Angeles stations as far away as Salt Lake City. Cf. Western TV Cable Corp., FCC 73-152, 39 FCC 2d 624 (1973). While some more restrictive type of rules might tend to eliminate some of their apparent anomalies, they would further limit such flexibility in obtaining distant signals as now exists.

9. Finally, we think it appropriate to give further consideration to the underlying rationale of the rules. Do the rules actually benefit stations that would

<sup>6</sup> An extreme instance of the type of problem that may be encountered is reflected in the Commission's recent decision in Citizens Cable of Allen County, Inc., FCC 75-240, — FCC 2d — (1974). In that case, the applicant asked for a waiver of the "leapfrogging" rules to permit it to import Chicago Independent Station WGN-TV to its five proposed cable systems surrounding and contiguous to the city of Fort Wayne. Citizens argued that there was an existing microwave link from Chicago to Fort Wayne, but none from Detroit or Cincinnati (two closer top-25 markets) and it could not afford the cost of the construction of such links. While all five systems were to operate off a common headend, Chicago was the second closest to two communities, Detroit was the second closest to two, and Cincinnati was the second closest to one. If the applicant chose to go to the second closest top-25 market for its second independent, it was forced to go to three such markets and construct two separate microwave links which it had made a substantial showing it could not afford to construct. Although the practical problems involved in such a situation were recognized, the Commission felt constrained to deny the waiver request in view of the express policy statement in the Reconsideration of the Cable Television Report and Order, supra, that "we do not intend to return to the process whereby waiver is requested in case after case because of microwave savings." \* \* \* Paragraph 25.

otherwise be passed over by giving them cable carriage? Are the costs they impose worth the benefits produced? Are they necessary to assure cable subscribers access to in-state and regional programming? Is there any real threat of undue concentration of control over media voices?

10. In view of these substantial questions, we believe it desirable to consider whether or not it is in the public interest to eliminate the existing rules. On the other hand, if it is our ultimate determination that some rules should be retained, can their flexibility be increased and their operation improved through some alternative to the existing rules? We seek comment on the value of adopting one or more of the following alternatives:

a. A deletion of the Note to §§ 76.59 (b) (2) and 76.61 (b) (2) and the policy against considering microwave costs when waivers of the rule are sought;

b. A revision of the rules to allow at least one signal to be carried without restriction as to point of origin;

c. Elimination of the rules application insofar as they prohibit carriage of stations from within the same state;

d. A definition of "specialty stations" (see paragraph 6 above) and their elimination as stations to which the leapfrog rules apply;

e. Application of the rules only to stations in the three or four largest markets, i.e., New York, Los Angeles, Chicago and Philadelphia;

f. New rules based on a zone or regional concept with all stations within the zone equally available for carriage and systems beyond such zones not limited by leapfrog rules as to stations available for carriage. Zones would be of sufficient size (150-200 miles?) to assure stations carriage in areas where they would receive some benefit from cable carriage but not so large as to impose carriage restrictions in areas where cable carriage would be so far distant from a station's off-the-air market area as to be of limited value to the stations involved;

g. Rules specifically intended to encourage the carriage of UHF television stations.

11. In filing comments, parties are encouraged to be as explicit as possible concerning the reasons why particular regulations are thought appropriate and the factual premises underlying such reasons. Of particular interest to us in reaching a decision in this proceeding will be studies or information quantifying:

a. The benefits, if any, of cable carriage to stations whose carriage is mandated by the rules;

b. The additional burdens, nationwide and in particular communities, which compliance with existing or alternative regulation imposes on cable system operators;

c. How these private benefits and burdens on television stations and cable television systems are reflected in television service to the public, including both cable subscribers and the non-cable viewing public.

## PROPOSED RULES

12. Authority for the rule making proposed herein is contained in section 4(i), 303 and 403 of the Communications Act of 1934, as amended. All interested parties are invited to file written comments on this rule making proposal on or before July 8, 1975, and reply comments on or before July 23, 1975. In reaching a decision on this matter, the Commission may take into account any other relevant information before it, in addition to the comments invited by this Notice.

15. In accordance with the provisions of § 1.419 of the Commission's rules and regulations, an original and 14 copies of all comments, replies, pleadings, briefs, or other documents filed in this proceeding shall be furnished to the Commission. Responses will be available for public inspection during regular business hours in the Commission's Docket Reference Room (Room 239) at its Headquarters in Washington, D.C. (1919 M St., NW.).

Adopted: May 15, 1975.

Released: May 22, 1975.

FEDERAL COMMUNICATIONS  
COMMISSION,

[SEAL] VINCENT J. MULLINS,  
Secretary.

## [47 CFR Part 76]

[Docket No. 20482; FCC 75-541]

## CABLE TELEVISION SYSTEMS

## Exempt from Obligation of Providing Syndicated Program Exclusivity Protection

In the matter of amendment of Part 76, Subpart F of the Commission's Rules and Regulations to Exempt Smaller Cable Television Systems and Smaller System Conglomerates from the Obligation of Providing Syndicated Program Exclusivity Protection: §§ 76.99 and 76.151 et seq.

1. Notice is hereby given of proposed rule making in the above captioned matter. As set forth in the attached Appendix, and as discussed herein, we are proposing adoption of a rule which would exempt from the obligations of our syndicated program exclusivity rules cable television systems and systems conglomerates serving fewer than 1000 subscribers. The Commission has previously exempted from these rules.

2. Between 1965<sup>1</sup> and 1972<sup>2</sup>, the Commission had program exclusivity or non-duplication rules which generally made no distinction between network and syndicated programming. These rules required cable television systems, at the request of local stations as defined in the rules, to delete certain programming from distant or lower priority station's signals. In the Cable Television Report

and Order of 1972, separate rules were applied to network and syndicated programming.<sup>3</sup>

3. In our Notice of Proposed Rule Making in Docket 19995,<sup>4</sup> we raised the question of whether, as had been suggested in a rule making petition filed by the National Cable Television Association, cable television systems with under 1500 subscribers should be exempt from the requirements of our network non-duplication rules.<sup>5</sup> In the First Report and Order<sup>6</sup> in that proceeding, we adopted rules exempting systems or system conglomerates with fewer than 1000 subscribers from non-duplication obligations on the grounds that the burden of providing such protection fell disproportionately heavily on these systems in view of their small size and in the belief that such an exemption would not be likely to have any significant adverse impact on television broadcast service to the public.<sup>7</sup>

4. It would appear that the analysis upon which this network non-duplication exemption was based may also be relevant to the matter of syndicated program exclusivity. The manpower and capital expenditure factors associated with the purchase, operation, and maintenance of a program exclusivity switcher apply with equal import to the provision of both network and syndicated program protection. And, while we are aware of the need to consider the cumulative impact of exemptions of this type, we question whether, either individually or in combination with the existing network non-duplication exemption, a 1000 subscriber exemption from the syndicated exclusivity protection rules (§§ 76.99 and 76.151 et seq.) would adversely impact on television broadcast service to the public. We note that, at least as to network affiliated stations, most program schedules include far more network programs than syndicated programs, that the number of systems now subject to our syndicated program exclusivity rules (due to market location, etc.) is significantly smaller than that number obligated to protect network programs, and that the syndicated protection rules, in contrast to the network rules, do not

necessarily provide insulation against audience fractionalization because of the ability of systems to insert non-protected programs during those times when protected programs must be deleted.<sup>8</sup> In sum, we believe it may be inappropriate for the Commission to exempt, on the basis of subscriber count, a particular system or system conglomerate from the network program exclusivity obligations but still require these systems' adherence to our syndicated program exclusivity rules. It is our tentative belief, subject to further evaluation as the result of comments filed in this proceeding, that an exemption similar to that now found in § 76.95(b) of the rules, made applicable to syndicated program exclusivity protection, would not create any substantial adverse effect on broadcasters, local broadcast service, or on the value of syndicated program material.

5. In view of the above, and consistent with our decision in Docket 19995, we propose to amend our present rules in the manner set forth below.

6. Authority for the rule making proposed herein is contained in sections 2, (3), 4 (i), and (j), 301, 303, 307, 308, and 309 of the Communications Act of 1934, as amended. All interested parties are invited to file written comments on this rule making proposal on or before July 3, 1975, reply comments on or before July 23, 1975. In reaching a decision on this matter, the Commission may take into account any other relevant information before it, in addition to that invited by this Notice.

7. In accordance with the provisions of § 1.419 of the Commission's rules and regulations, an original and 14 copies of all comments, replies, pleadings, briefs, or other documents filed in this proceeding shall be furnished to the Commission. Responses will be available for public inspection during regular business hours in the Commission Public Reference Room (Room 239) at its Headquarters in Washington, D.C. (1919 M St., NW.).

Adopted: May 13, 1975.

Released: May 20, 1975.

FEDERAL COMMUNICATIONS  
COMMISSION,

[SEAL] VINCENT J. MULLINS,  
Secretary.

Part 76 of Chapter I of Title 47 of the Code of Federal Regulations is amended, as follows:

A new § 76.161 is added, as follows:

Section 76.61(b)(2)(ii), for example, provides that:

(ii) Whenever, pursuant to [the syndicated exclusivity rules], a cable television system is required to delete a television program on a [distant signal] . . . , such system may, consistent with the program exclusivity rules of Subpart F of this part, substitute a program from any other television broadcast station. A program substituted may be carried to its completion, and the cable system need not return to its regularly carried signal until it can do so without interrupting a program already in progress.

## PROPOSED RULES

23319

## § 76.161 Exception.

The provisions of §§ 76.99 and 76.151 shall not apply to a cable television system (as described in § 76.5(a)) serving fewer than 1000 subscribers or to a conglomerate of commonly-owned and technically-integrated cable systems serving fewer than 1000 subscribers. Within sixty (60) days following the provision of service to 1000 subscribers each such cable system or system conglomerate shall file a notice to that effect with the Commission and shall send a copy thereof to all television broadcast stations carried by the cable system.

NOTE: Technical integration, for the purpose of this section, is limited to that accomplished by a local cable or microwave (e.g., a CARS/LDS facility) interconnection. Satellite or microwave networking to geographically separated systems of a multiple system owner does not constitute technical integration for the purposes of this section.

[FR Doc. 75-13926 Filed 5-28-75; 8:45 am]

## [47 CFR Part 89]

[Docket No. 20484; FCC 75-544]

POLICE AND EMERGENCY RADIO SERVICE  
UHF Band Frequencies

In the matter of amendment of Part 89 of the Commission's rules concerning certain UHF band frequencies in the Police Radio Service and the Special Emergency Radio Service.

1. Notice of Inquiry and Proposed Rule Making is hereby given with respect to utilization and possible exchange of the frequencies 462.950/467.950 MHz and 462.975/467.975 MHz in the Police Radio Service, and the frequencies 460.525/465.525 MHz and 460.550/465.550 MHz in the Special Emergency Radio Service.

2. On March 23, 1972, the Commission adopted a Report and Order in Docket No. 19261 (34 FCC 2nd 241) and allocated the above two 462/467 MHz band frequency pairs exclusively for digital radiocommunications or other non-voice uses, particularly with respect to mobile computer terminal installations, in the Police Radio Service. Assignment of these frequencies is limited to the Nation's thirty largest cities (1970 population census). In this regard, the Commission had noted that there appeared to be a requirement for dedicated channels for these police operations in the major cities where there may be serious limitations on availability of frequencies for non-voice purposes. However, in the more than three years since allocation of these frequencies, only five cities have been licensed to operate a total of approximately 150 mobile units on the 462/467 MHz channels for digital subsystems. Obviously, this is not the extent of non-voice police operations being conducted in the thirty largest cities and it appears that other police channels are being utilized for these purposes, presumably under the Commission's rules which permit secondary non-voice communications on voice channels.

3. In view of the apparently limited demand and need for these frequencies in the thirty cities where their assignment may be presently authorized the Commission believes that rule changes to expand the opportunity for use of the Police 462/467 MHz frequencies is warranted. In support of this approach, we are presently in receipt of requests for use of these frequencies from the New York State Police who propose a state-wide non-voice sub-system employing hundreds of units on these frequencies, and from Atlantic City, New Jersey, which conducts combined voice/non-voice operations on other police channels but is experiencing inter-system interference problems that it hopes to eliminate by utilizing the dedicated 462/467 MHz channels. It is likely that other communities outside of the thirty largest cities would also make use of these frequencies if they were generally available.

4. For the foregoing reasons, the Commission proposes to amend its rules to delete the limitation to thirty cities that applies to assignment of the 462/467 MHz band non-voice frequencies.

5. At the same time, and while these frequencies are still relatively lightly assigned, the Commission also wishes to consider a recommendation from the State of Florida with respect to the possible exchange of the 462/467 MHz band channels for the frequency pairs 460.525/465.525 and 460.550/465.550 MHz. These latter frequency pairs were also re-allocated in the Docket 19261 proceeding, and they are made assignable in the Special Emergency Radio Service for dispatch and common calling in medical radio systems.

6. The basis for Florida's request is that the 462/467 MHz Police frequencies are contiguous to eight pairs of 463/468 MHz band frequencies that are also assignable for medical services operations and, therefore, the requested re-allocation would enable the combined use of the 462/467 MHz and 463/468 MHz channels on the same radio equipment. The 460/465 MHz channels, on the other hand, must be utilized on separate equipment.

7. Florida's request for exchanging frequencies was reviewed in a rule making proceeding in Docket No. 19880,<sup>9</sup> where, in a Memorandum Opinion and Order adopted October 22, 1974 (39 FR 38902, November 4, 1974), the Commission stated in part:

before re-allocating these pairs, we will need to consider, in context of a separate rule making proceeding, among other things, the impact of such change to existing users and to those who may have gone ahead in planning radio systems on these frequencies. This process takes time and would further delay implementation of planned medical communication systems which have been awaiting completion of this proceeding. For these reasons, we will deny Florida's request. However, its suggestion will be considered further in a proceeding we plan concerning the two 462/467 MHz Police Radio Service frequency pairs.

8. In the period following the adoption of rule changes for medical radio systems in Docket 19880, the Commission has had an opportunity to study and evaluate the development of numerous wide-area medical radio systems. In some situations, there may well be significant advantages to contiguous medical services channels. However, there are also some apparent difficulties involved with effecting an exchange of frequencies where there are presently numerous licensed systems involved. Accordingly, the Commission believes that there should be public inquiry to enable the submission of comments as to the merits and problems associated with Florida's proposal. One problem to be addressed is the issue of whether to apply any exchange of these frequencies to present licensees so as to require that they modify existing equipment; or whether to "grandfather" such systems, and, if so, for what period of time. It is assumed that if the comments support a finding that an exchange of frequencies as requested would serve the public interest, the Commission will adopt appropriate rule changes to meet the requirements for this amendment.

9. The proposed amendment and inquiry herein are issued pursuant to authority contained in sections 4(i) and 303(r) of the Communications Act of 1934, as amended.

10. Pursuant to applicable procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before July 24, 1975, and reply comments on or before August 11, 1975. All relevant and timely comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision, the Commission may also take into account other relevant information before it, in addition to the specific comments noted by this Notice.

11. In accordance with the provisions of § 1.419 of the Commission's rules, an original and fourteen copies of all briefs, or comments filed shall be furnished to the Commission. Responses will be available for public inspection during regular business hours in the Commission's Docket Reference Room at its Headquarters in Washington, D.C.

Adopted: May 13, 1975.

Released: May 20, 1975.

FEDERAL COMMUNICATIONS  
COMMISSION,

# FEDERAL ENERGY ADMINISTRATION

[ 10 CFR Part 212 ]

## RETROACTIVE APPLICATION OF SUBPART K—NATURAL GAS LIQUIDS

### Proposed Class Exception and Public Hearing

The Federal Energy Administration hereby gives notice of a proposal to issue a class exception to permit, generally, the retroactive application of the price rules of Subpart K, which currently apply to the pricing of natural gas liquids and natural gas liquid products (propane, butane and natural gasoline). Written comments will be received and a public hearing held with respect to this proposal.

**Background:** On December 19, 1974, FEA issued a new Subpart K to 10 CFR, Part 212, the Mandatory Petroleum Price Regulations, effective January 1, 1975. Subpart K provides regulations designed specifically to cover the pricing of natural gas liquids and natural gas liquid products, including propane. In adopting the new Subpart K regulations, FEA expressly stated that four basic components are allowed in the lawful selling price: (1) The May 15, 1973 lawful selling price; (2) the passthrough of increased costs of natural gas shrinkage, in a manner analogous to that provided in Subpart E for the passthrough of increased costs of crude oil and petroleum products; (3) an adjustment to May 15, 1973 selling prices to correct a disequilibrium market condition at that time; and (4) a specific price increment to afford passthrough of increased non-product costs incurred by producers and processors of natural gas liquids, without a requirement for prenotification. Previously, the pricing of natural gas liquids and natural gas liquid products had been subject to Subpart E of the FEA price regulations, which applied generally to "refiners"—both of crude oil and of natural gas. It was, however, never made very clear how the price rules of Subpart E, which did not specifically address the activities of natural gas producers and processors, should be construed in their application to such activities.

A major ambiguity of the Subpart E price rules, as they related to natural gas processing, is that they did not explicitly provide for the recovery of increased natural gas "shrinkage" costs incurred from the extraction of natural gas liquids from the gas (i.e., the reduced value of natural gas after it has been reduced in volume and BTU content by the extraction of liquids). In order to clarify this aspect of the Subpart E Regulations, the FEA has issued a ruling to make explicit that the regulations of Subpart E which afford dollar-for-dollar passthrough of increased product costs also afford a passthrough of the increased costs of natural gas shrinkage, in the same manner as is now expressly provided for in Subpart K.

Subpart K authorizes the use of adjusted May 15, 1973 prices by those sellers of natural gas liquid products that were

selling at unusually low prices on that date. However, the problem of unusually low May 15, 1973 prices resulting from market disequilibrium respecting natural gas liquid products on that date adversely affected sellers with such prices from the inception of the price control system based on May 15, 1973 prices, until Subpart K became effective on January 1, 1975. Therefore, FEA has tentatively concluded that the pricing inequities among processors of natural gas liquids that were sought to be resolved by the permissible price adjustments of Subpart K warrant relief on a retroactive as well as a prospective basis.

The class exception here proposed would permit sellers to use the adjusted May 15, 1973 prices now provided by Subpart K in computing lawful prices pursuant to the provisions of Subpart E, prior to the effective date of Subpart K.

With respect to increased non-product costs, attributable to gas processing, Subpart E permitted the passthrough of "allowable" increased non-product costs, subject to prenotification and profit margin limitations. Although some gas processors did prenotify price increases to reflect increased non-product costs, it is possible that many gas processors, particularly the smaller operators, were not fully aware of the availability of this procedure under the FEA price regulations.

Pursuant to Subpart K, an increment of not more than \$.005 per gallon is permitted to be added to the selling price of natural gas liquid products to reflect actual increased non-product costs attributable to gas plant operations. In view of the fact that many gas plant operators may well have been unaware of the former prenotification procedures of Subpart E, this proposed class exception would also permit a non-product cost price increment to be used to justify prices charged prior to the effective date of Subpart K.

The provisions of Subpart K which place a \$.005 per gallon limit on the non-product cost price increment were based on FEA's determination that computation of actual increases in non-product costs on a plant by plant or firm by firm basis in the manner of § 212.87 of FEA's regulations pertaining generally to the passthrough of non-product costs by crude oil refiners, would present an unreasonable administrative burden in light of the large number of gas plants and the even larger number of gas plant owners involved. This proposed class exception would place a similar limitation on the passthrough of non-product cost increases. However, since increases in such costs have occurred gradually over time, FEA has determined that in proposing an exception to implement retroactively the pricing mechanisms of Subpart K, a lower limit should be placed on the price increment reflecting non-product cost increases prior to January 1, 1975. The exception here proposed would therefore permit sellers to justify a price increment of up to \$.0025 per gallon to afford passthrough of actual non-product cost increases incurred prior to

January 1, 1975, without regard to whether or not a seller prenotified such an increment. Sellers would be required, however, to maintain evidence sufficient to justify any non-product cost increment permitted, just as they would be required to do with respect to price increments representing increased shrinkage costs, and the passthrough of increased non-product costs by refiners that process natural gas and refine crude oil would be subject to the profit margin limitations of Subpart E.

Currently FEA is in the process of auditing the prices charged for natural gas liquid products prior to the January 1, 1975 effective date of Subpart K, particularly prices charged by independent gas processors (those not affiliated with a crude oil refiner). Preliminary indications are that many such gas processors were either unaware that FEA's price regulations applied to their sales activities or unsure as to the effect of the regulations on the prices which could lawfully be charged for their products. This proposed class exception is issued in light of the need to state a uniform method of application of Subpart E to the activities of natural gas liquids processors, so that these matters can be resolved on a uniform basis and without undue hardship to gas processors or the purchasers of natural gas liquid products.

The FEA remains very concerned over the potential adverse impact of its price regulations on the supply of natural gas liquid products, especially propane. An important reason for the proposal of this class exception is to obviate the need for time-consuming individual exception proceedings, which could adversely affect individual gas processors and delay the conclusion of compliance efforts in this area. In addition, this proposed exceptional relief will permit all parties affected by the proposal to submit comments. Specifically, FEA requests comments respecting:

- the need for and extent of the proposed class exception in its current form;
- the criteria that FEA should apply in evaluating requests by individual firms for further exceptional relief; and
- the potential impact of the proposed exception on gas processors which may have mistakenly believed they were not covered by FEA regulations or were exempt from the regulations by virtue of the stripper well exemption or for some other reason.

Interested persons are invited to participate in this proceeding by submitting data, views or arguments with respect to the proposed class exception set forth in this notice to Executive Communications, Room 3309, Federal Energy Administration, Box DF, Washington, D.C. 20461.

Comments should be identified on the outside envelope and on documents submitted to FEA Executive Communications with the designation "Retroactive Application of Subpart K." Fifteen copies should be submitted. All comments received by Monday, June 16, 1975, before 4:30 p.m., d.s.t., and all other relevant information, will be considered by the Federal Energy Administration before

final action is taken on the proposed exception.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, one copy only. The FEA reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

The public hearing regarding the proposed class exception will be held beginning at 9:30 a.m., d.s.t., on Wednesday, June 18, 1975, and will be continued if necessary on Thursday, June 19, 1975, in Room 2105, 2000 M Street, NW., Washington, D.C. 20461, in order to receive comments from interested persons on the matters set forth herein.

Any person who has an interest in this matter, or who is a representative of a group or class of persons that has an interest in this matter, may make written request for an opportunity to make oral presentation. Such a request should be directed to Executive Communications, Room 3309, FEA, and must be received before 4:30 p.m., d.s.t., on Wednesday, June 11, 1975. Such a request may be hand delivered to Executive Communications, Room 3309, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461, between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. The person making the request should be prepared to describe the interest concerned; if appropriate, to state why he is a proper representative of a group or class of persons that has such an interest; and to give a concise summary of the proposed oral presentation and a phone number where he may be contacted through Tuesday, June 17, 1975. Each person selected to be heard will be so notified by the FEA before 4:30 p.m., d.s.t., Friday, June 13, 1975, and must submit 100 copies of his statement to Executive Communications, FEA, Room 2214, 2000 M Street NW., Washington, D.C. 20461, before 4:30 p.m., d.s.t., on Tuesday, June 17, 1975.

The FEA reserves the right to select the persons to be heard at these hearings, to schedule their respective presentations and to establish the procedures governing the conduct of the hearings. The length of each presentation may be limited, based on the number of persons requesting to be heard.

An FEA official will be designated to preside at the hearings. These will not be judicial or evidentiary-type hearings. Questions may be asked only by those conducting the hearings, and there will be no cross-examination of person presenting statements. Any decision made by the FEA with respect to the subject matter of the hearings will be based on all information available to the FEA. At the conclusion of all initial oral statements, each person who has made an oral statement will be given the opportunity, if he so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Any interested person may submit questions, to be asked of any person mak-

ing a statement at the hearings, to Executive Communications, FEA, before 4:30 p.m., d.s.t., Monday, June 16, 1975. Any person who wishes to ask a question at the hearings may submit the question, in writing, to the presiding officer. The FEA or the presiding officer, if the question is submitted at the hearings, will determine whether the question is relevant, and whether the time limitations permit it to be presented for answer.

Any further procedural rules needed for the proper conduct of the hearings will be announced by the presiding officer.

A transcript of the hearings will be made and the entire record of the hearings, including the transcript, will be retained by the FEA and made available for inspection at the Administrator's Reception Area, Room 3400, Federal Building, 12th & Pennsylvania Avenue, NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. Any person may purchase a copy of the transcript from the reporter.

As required by section 7(c)(2) of the Federal Energy Administration Act of 1974, Pub. L. 93-275, a copy of this notice has been submitted to the Administrator of the Environmental Protection Agency for his comments concerning the impact of this proposal on the quality of the environment. The Administrator had no comments on this proposal.

Issued in Washington, D.C., May 23, 1975.

ROBERT E. MONTGOMERY, Jr.,  
General Counsel,  
Federal Energy Administration.

## FEDERAL HOME LOAN BANK BOARD

[ 12 CFR Part 545 ]

[ 75-445 ]

### FEDERAL SAVINGS AND LOAN SYSTEM Proposed Amendment Relating to Service Corporations

MAY 19, 1975.

The following outline regarding the amendment proposed herein is included for the reader's convenience and is subject to the full description in the preamble as well as the specific provisions in the regulation.

**I. Present situation.** A service corporation must apply for Board approval before acquiring any office building of an association.

**II. Proposed regulation.** A service corporation would be authorized to acquire, maintain and manage any office building of a parent association as a preapproved activity.

**III. Reason for proposed change.** To increase the business planning flexibility available to management of associations and service corporations.

The Federal Home Loan Bank Board considers it desirable to propose an amendment to § 545.9-1(a)(4) of the rules and regulations for the Federal Savings and Loan System (12 CFR 545.9-1(a)(4)) for the purpose of per-

mitting a service corporation in which Federal savings and loan associations may invest under § 545.9-1 to acquire, maintain and manage any office building of an association which holds stock in such service corporation. Appropriate stylistic revisions would be made in current §§ 545.9-1(a)(4)(xii) and 545.9-1(a)(4)(xiii).

At present, Federal association service corporations must apply for Board approval before acquiring any office building of an association. This proposed amendment, by making such activity preapproved, would increase the business planning flexibility available to the management of such associations and service corporations.

If this proposal is adopted, a service corporation subsidiary of a subsidiary insured institution of a savings and loan holding company would be authorized to perform this same activity, if it has legal power to do so, because of current § 584.2(c) of the Regulations for Savings and Loan Holding Companies (12 CFR 584.2(c)). That section incorporates any changes made in § 545.9-1(a)(4) into the holding company regulations for service corporation subsidiaries. No similar amendment is necessary for multiple holding companies and their subsidiaries, which are neither insured institutions nor service corporations of a subsidiary insured institution, since they are already authorized by section 408(c)(2) of the National Housing Act, as amended (12 USC 1730a(c)), to hold and manage an insured institution's office building.

Accordingly, the Board hereby proposes to amend § 545.9-1(a)(4) by redesignating as paragraphs (xiii) and (xiv), respectively, the present paragraphs (xii) and (xiii) thereof and adding thereto a new paragraph (xii) to read as set forth below.

Interested persons are invited to submit written data, views and arguments to the Office of the Secretary, Federal Home Loan Bank Board, 320 First Street, NW., Washington, D.C. 20552, by June 30, 1975, as to whether this proposal should be adopted, rejected, or modified. Written material submitted will be available for public inspection at the above address unless confidential treatment is requested or the material would not be made available to the public or otherwise disclosed under § 505.5 of the general regulations of the Federal Home Loan Bank Board (12 CFR 505.5).

The proposed amendment to § 545.9-1(a)(4) would read as follows:

§ 545.9-1 Service corporations.

(a) General service corporations.

(4) Substantially all of the activities of such service corporation, performed directly or through one or more wholly-owned subsidiaries or joint ventures, consist of one or more of the following:

(xii) Acquisition, maintenance and management of any office building of a savings and loan association which holds stock in such service corporation;

(Sec. 5, 48 Stat., 132, as amended (13 U.S.C. 1464); Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943-48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] GRENVILLE L. MILLARD, Jr.,  
Assistant Secretary.

## FEDERAL POWER COMMISSION

[18 CFR Parts 101, 104, 201, 204, 141 and 260]

[Docket No. RM75-27]

### UNIFORM SYSTEMS OF ACCOUNTS FOR PUBLIC UTILITIES FUNDS USED DURING CONSTRUCTION AND REVISIONS OF CERTAIN SCHEDULE PAGES OF FPC REPORTS

#### Proposed Rulemaking

MAY 20, 1975.

Pursuant to 5 U.S.C. 553, sections 3, 4, 301, 304, 308, 309, and 311 of the Federal Power Act (41 Stat. 1063, 1065; 49 Stat. 838, 839, 854, 855, 858, 859; 16 U.S.C. 796, 797, 825a, 825c, 825g, 825h, 825j) and sections 8, 10, and 16 of the Natural Gas Act (52 Stat. 825, 826, 830; 15 U.S.C. 717g, 717i, 717o), the Commission gives notice it proposes to revise and amend:

A. Two instructions and certain accounts in the Uniform System of Accounts for Class A and Class B Public Utilities and Licensees, prescribed by Part 101, Chapter I, Title 18, CFR.

B. Two instructions and certain accounts in the Uniform System of Accounts for Class C and Class D Public Utilities and Licensees, prescribed by Part 104, Chapter I, Title 18, CFR.

C. Two instructions and certain accounts in the Uniform System of Accounts for Class A and Class B Natural Gas Companies, prescribed by Part 201, Chapter I, Title 18, CFR.

D. Two instructions and certain accounts in the Uniform System of Accounts for Class C and Class D Natural Gas Companies, prescribed by Part 204, Chapter I, Title 18, CFR.

E. Certain schedules of FPC Form No. 1, Annual Report for Electric Utilities, Licensees and Others (Class A and Class B) prescribed by Section 141.1, Chapter I, Title 18, CFR.

F. Certain schedules of FPC Form No. 1-F, Annual Report for Public Utilities and Licensees, (Class C and Class D) prescribed by § 141.2, Chapter I, Title 18, CFR.

G. FPC Form No. 5, Monthly Statement of Electric Operating Revenue and Income, prescribed by § 141.25, Chapter I, Title 18, CFR.

H. Certain schedules of FPC Form No. 2, Annual Report for Natural Gas Companies (Class A and Class B) prescribed by § 260.1, Chapter I, Title 18, CFR.

I. Certain schedules of FPC Form No. 2-A, Annual Report for Natural Gas Companies (Class C and Class D) prescribed by § 260.2, Chapter I, Title 18, CFR.

J. FPC Form No. 11, Natural Gas Pipeline Company Monthly Statement, prescribed by § 260.3, Chapter I, Title 18, CFR.

The allowance for funds used during construction (AFUDC) is essentially an outgrowth of historical ratemaking procedures. Regulatory Commissions have traditionally included in rate determinations

amounts to cover interest costs, return on equity capital, depreciation, and other costs relating only to plant that is "used and useful" in utility operations, that is, completed plant. However, they also recognized a need to compensate a utility for funds invested in construction programs prior to the time facilities are placed in service. Recognition of such construction financing costs has usually been given by permitting a utility to add to construction work in progress a computed amount as compensation for the use of funds. The other part of the accounting entry is currently reported as "other income". When facilities are placed in service, they become part of rate base and the utility is then able to recover the capitalized AFUDC in the same manner as any other construction cost, i.e. through rates which include depreciation charges to recover the capitalized amounts over the service life of the facilities.

The amendments as proposed herein are to provide for a uniform method of determining the maximum rates to be used for AFUDC and to provide for accounting and reporting requirements for AFUDC which accord with the elements entering into the determination of AFUDC rates.

With respect to the rates to be used in computing AFUDC, plant instruction 3(17) of the Uniform System of Accounts currently reads in part:

Allowance for funds used during construction includes the net cost for the period of construction of borrowed funds used for construction purposes and a reasonable rate on other funds when so used.

This plant instruction and similar earlier plant instructions have been interpreted and applied in a variety of ways. This historical lack of uniformity was not a source of serious general concern because the capitalized amounts involved were relatively small until the mid 1960's. Since that time the increases in financing costs, expansion of construction programs and lengthened construction periods have caused major increases in the amounts of AFUDC capitalized, particularly by electric utility companies.

The two basic problems in interpreting and applying existing instructions relating to AFUDC involve the reasonableness of methods of determining (1) the sources of funds used during construction and (2) the rates for such funds, particularly the "reasonable rate" for non-borrowed funds. It is generally impossible to specifically trace the source of funds used to finance construction of specific projects and widely different approaches could be taken on determining the appropriate "cost" of construction funds. However, a basic objective of AFUDC should be to enable a company to construct new facilities without causing a significant adverse effect on its earnings on plant in service. Stated another way, the AFUDC computation should interface with ratemaking practices in a manner which will permit a utility to earn on its total utility operations, including its construction program, at approximately the level which would

be allowed in a rate case. The proposed method for determining AFUDC recognizes the interrelationship between capital utilized for rate case purposes and the capital components of AFUDC.

Generally, for rate case purposes, short-term debt has not been included in rate of return computations on the grounds that such debt is temporary and is used for construction purposes. The proposed method for determining sources of capital for AFUDC purposes would track this rate case concept by assuming that short-term debt is the first source of financing used for construction work in progress. Any remaining construction work in progress is assumed to be financed by funds provided according to the pro rata capitalization of the company.

The proposed method of determining the rates attributable to the sources of funds would also track the rate case methodology by using actual book cost rates for debt and preferred stock. The rate attributable to common equity would be the rate allowed by the Regulatory Commission having primary rate jurisdiction in the last rate proceeding or, if no such rate is available, the average rate actually earned during the latest 3-year period.

The accounting for and reporting of AFUDC is a subject which appears to be widely misunderstood and in need of revision and clarification. AFUDC has always consisted of two principal elements, namely the interest cost of borrowed funds used for construction purposes and a reasonable rate (or imputed cost) for non-borrowed funds used for construction. However, these two elements have never been accounted for or reported separately, but instead have been combined and reported as one amount in the income section of financial statements. This situation appears to have led to misunderstandings on the part of some readers of financial statements as to the nature of AFUDC.

While the issue is currently receiving attention of some accounting bodies, the propriety of capitalizing the interest cost element of AFUDC has never been seriously questioned. Interest costs are actually incurred and can be viewed in the same manner as labor, materials, equipment and other costs which are incurred and properly capitalized during construction. The capitalization of the non-borrowed funds element of AFUDC (imputed costs) is unique to regulated utilities and is fully justified by historical rate processes. While the income recorded resulting from this element of AFUDC is not immediately accompanied by cash flow it is evidenced by an increase in plant. The ratemaking process in effect guarantees that the capitalized amounts will be recovered in cash in future periods through depreciation charges allowed in setting rate levels.

To clearly disclose the source of capitalized AFUDC amounts, the proposed amendments would establish separate accounts for recording the credits resulting from the two elements of AFUDC. The proposed amendments

would also position these two elements of AFUDC in the appropriate sections of the income statements.

Good cause exists for proposing to make the amendments to the Uniform Systems of Accounts for Public Utilities and Licensees and Natural Gas Companies proposed herein, to become effective upon the issuance of a final order in this proceeding, in accordance with the provisions of the Administrative Procedure Act, 5 U.S.C. 553(d) (3).

Any interested person may submit to the Federal Power Commission, Washington, D.C. 20426, to be received no later than July 7, 1975, data, views, comments or suggestions in writing concerning all or part of the proposals herein. Written submittals will be placed in the Commission's public files and will be available for public inspection at the Commission's Office of Public Information, Washington, D.C. during regular business hours. The Commission will consider all such written submittals before acting on the matters herein proposed. An original and 14 conforming copies should be filed with the Secretary of the Commission. Submittals to the Commission should indicate the name, title, mailing address and telephone number of the person to whom communications concerning the proposal should be addressed and whether the person filing them requests a conference with the staff of the Federal Power Commission to discuss the proposed revisions. The staff, in its discretion, may grant or deny requests for conference.

The proposed amendments to the Commission's Uniform Systems of Accounts under the Federal Power Act and to FPC Forms No. 1, No. 1-F and No. 5 would be issued under the authority granted the Federal Power Commission by the Federal Power Act, particularly sections 3, 4, 301, 304, 308, 309, and 311 (41 Stat. 1063, 1065; 49 Stat. 838, 839, 854, 855, 858, 859; 16 U.S.C. 796, 797, 825a, 825c, 825g, 825h, 825j).

The proposed amendments to the Commission's Uniform Systems of Accounts under the Natural Gas Act and to the FPC Forms No. 2, No. 2-A and No. 11 would be issued under the authority granted the Federal Power Commission by the Natural Gas Act, particularly sections 8, 10, and 16 (52 Stat. 825, 826, 830; 15 U.S.C. 717g, 717i, 717o).

A. The following are the proposed amendments to the Uniform System of Accounts for Class A and Class B Public Utilities and Licensees in Part 101, Chapter I, Title 18 of the Code of Federal Regulations:

#### PART 101—UNIFORM SYSTEM OF ACCOUNTS PRESCRIBED FOR CLASS A AND CLASS B UTILITIES AND LICENSEES

1. The General Instructions are amended by revising paragraph "I" of Instruction "17. Long-Term Debt: Premium, Discount and Expense, and Gain or Loss on Recacquisition." As amended

this portion of General Instruction 17 will read:

#### General Instructions

17. Long-Term Debt: Premium, Discount and Expense, and Gain or Loss on Recacquisition.

I. Premium, discount, or expense on debt shall not be included as an element in the cost of construction or acquisition of property (tangible or intangible), except under the provisions of account 432, Allowance for Borrowed Funds Used During Construction—Credit.

2. Amend subparagraph "(17) Allowance for Funds Used During Construction" of Electric Plant Instruction "3. Components of Construction Cost." by revising the first sentence of the paragraph and immediately following the first paragraph adding three new paragraphs (a), (b) and (c). As amended, subparagraph (17) will read:

#### Electric Plant Instructions

3. Components of Construction Cost.

(17) "Allowance for funds used during construction" includes the net cost for the period of construction of borrowed funds used for construction purposes and a reasonable rate on other funds when so used, not to exceed allowances computed in accordance with the formula prescribed in paragraph (a) below. No allowance for funds used during construction charges shall be included in these accounts upon expenditures for construction projects which have been abandoned.

(a) The formula and elements for the computation of the allowance for funds used during construction shall be:

$$A_1 = s \left( \frac{S}{W} \right) + d \left( \frac{D}{D+P+C} \right) \left( 1 - \frac{S}{W} \right) \\ A_2 = \left[ 1 - \frac{S}{W} \right] \left[ p \left( \frac{P}{D+P+C} \right) + c \left( \frac{C}{D+P+C} \right) \right]$$

$A_1$  = Allowance for borrowed funds used during construction rate.

$A_2$  = Allowance for other funds used during construction rate.

$S$  = Average short-term debt.

$s$  = Short-term debt interest rate.

$D$  = Average long-term debt.

$d$  = Long-term debt interest rate.

$P$  = Average preferred stock.

$p$  = Preferred stock cost rate.

$C$  = Average common equity.

$c$  = Common equity cost rate.

$W$  = Average construction work in progress balance.

(b) The rates shall be determined annually and the various components in the formula for the current year rates shall be derived from actual book balances and book cost rates for the prior year, with the exception that the rate used for common equity shall be the rate granted

common equity in the last rate proceeding before the ratemaking body having primary rate jurisdiction. If such rate is not available, the average rate actually earned during the preceding three years shall be used.

(c) For those companies which are required to flow-through the interest expense portion of AFUDC in computing income taxes for cost of service purposes, the utility would use the gross AFUDC rate. For companies where the interest portion of AFUDC is not utilized in computing income taxes for cost of service purposes, depending upon the requirements of the appropriate regulatory commission, a net-of-tax rate should be used or a gross rate with appropriate normalization entries for the tax effect of the interest.

NOTE: . . .

3. The Chart of Income Accounts is amended by revising the title of account "419.1, Allowance for Funds Used During Construction," to read 419.1, Allowance for Other Funds Used During Construction, and immediately following account "431, Other Interest Expense," adding a new account 432, Allowance for Borrowed Funds Used During Construction—Credit. As amended the Chart of Income Accounts will read:

Income Accounts	
1. OTHER INCOME AND DEDUCTIONS	
A. OTHER INCOME	
419.1 Allowance for other funds used during construction.	
3. INTEREST CHARGES	
432 Allowance for borrowed funds used during construction—Credit.	
4. The text of the Income Accounts is amended by revising the title and text of account "419.1, Allowance for Funds Used During Construction," and immediately following account "431, Other Interest Expense," adding a new account 432, Allowance for Borrowed Funds Used During Construction—Credit. As amended, these portions of the text of the Income Accounts will read:	

Income Accounts	
2. OTHER INCOME AND DEDUCTIONS	
419.1 Allowance for other funds used during construction.	

This account shall include concurrent credits for allowance for other funds used during construction, not to exceed amounts computed in accordance with the formula prescribed in Electric Plant Instruction 3(17).

## PROPOSED RULES

## 3. INTEREST CHARGES

## 432 Allowance for borrowed funds used during construction—Credit.

This account shall include concurrent credits for allowance for borrowed funds used during construction, not to exceed amounts computed in accordance with the formula prescribed in Electric Plant Instruction 3(17).

B. The following are the proposed amendments to the Uniform System of Accounts for Class C and Class D Public Utilities and Licensees in Part 104, Chapter I, Title 18 of the Code of Federal Regulations:

## PART 104—UNIFORM SYSTEM OF ACCOUNTS FOR PUBLIC UTILITIES AND LICENSEES (CLASS C AND CLASS D)

1. The General Instructions are amended by revising paragraph "I" of Instruction "51. Long-Term Debt: Premium, Discount and Expense, and Gain or Loss on Reacquisition." As amended this portion of General Instruction 15 will read:

## General Instructions

15. Long-Term Debt: Premium, Discount and Expense, and Gain or Loss on Reacquisition.

I. Premium, discount, or expense on debt shall not be included as an element in the cost of construction or acquisition of property (tangible or intangible), except under the provisions of account 432, Allowance for Borrowed Funds Used During Construction—Credit.

2. Amend Electric Plant Instruction "2. Components of Construction Cost." by revising the first paragraph and lettering it "A." and immediately following the first paragraph adding three new paragraphs B., C., and D. As amended, Instruction 2 will read:

## Electric Plant Instructions

## 2. Components of Construction Cost.

A. The cost of construction of property chargeable to the electric plant accounts shall include, where applicable, the cost of labor; materials and supplies; transportation; work done by others for the utility; injuries and damages incurred in construction work; privileges and permits; special machine service; allowance for funds used during construction, not to exceed amounts computed in accordance with the formula prescribed in paragraph B below; and such portion of general engineering, administrative salaries and expenses, insurance, taxes, and other analogous items as may be properly includible in construction costs.

B. The formula and elements for the computation of the allowance for funds used during construction shall be:

$$A_c = s \left( \frac{S}{W} \right) + d \left( \frac{D}{D+P+C} \right) \left( 1 - \frac{S}{W} \right) \\ A_c = \left[ 1 - \frac{S}{W} \right] \left[ p \left( \frac{P}{D+P+C} \right) + c \left( \frac{C}{D+P+C} \right) \right]$$

A<sub>c</sub> = Allowance for borrowed funds used during construction rate.  
A<sub>c</sub> = Allowance for other funds used during construction rate.  
S = Average short-term debt.  
s = Short-term debt interest rate.  
D = Average long-term debt.  
d = Long-term debt interest rate.  
P = Average preferred stock.  
p = Preferred stock cost rate.  
C = Average common equity.  
c = Common equity cost rate.  
W = Average construction work in progress balance.

C. The rates shall be determined annually and the various components in the formula for the current year rates shall be derived from actual book balances and book cost rates for the prior year, with the exception that the rate used for common equity shall be the rate granted common equity in the last rate proceeding before the ratemaking body having primary rate jurisdiction. If such rate is not available, the average rate actually earned during the preceding three years shall be used.

D. For those companies which are required to flow-through the interest expense portion of AFUDC in computing income taxes for cost of service purposes, the utility would use the gross AFUDC rate. For companies where the interest portion of AFUDC is not utilized in computing income taxes for cost of service purposes, depending upon the requirements of the appropriate regulatory commission, a net-of-tax rate should be used or a gross rate with appropriate normalization entries for the tax effect of the interest.

3. The Chart of Income Accounts is amended by revising the title of account "419.1, Allowance for Funds Used During Construction," to read 419.1, Allowance for Other Funds Used During Construction, and immediately following account "431, Other Interest Expense," adding a new account 432, Allowance for Borrowed Funds Used During Construction—Credit. As amended the Chart of Income Accounts will read:

INCOME ACCOUNTS  
(Chart of Accounts)

## 2. OTHER INCOME AND DEDUCTIONS

## A. OTHER INCOME

419.1 Allowance for other funds used during construction.

## 3. INTEREST CHARGES

432 Allowance for borrowed funds used during construction—Credit.

4. The text of the Income Accounts is amended by revising the title and text of account "419.1, Allowance for Funds

Used During Construction," and immediately following account "431, Other Interest Expense," adding a new account 432, Allowance for Borrowed Funds Used During Construction—Credit. As amended these portions of the text of the Income Accounts will read:

## Income Accounts

## 2. OTHER INCOME AND DEDUCTIONS

419.1 Allowance for other funds used during construction.

This account shall include concurrent credits for allowance for other funds used during construction, not to exceed amounts computed in accordance with the formula prescribed in Electric Plant Instruction 2. No allowance for funds used during construction shall be capitalized on plant which is completed and ready for service.

## 3. INTEREST CHARGES

432 Allowance for borrowed funds used during construction—Credit.

This account shall include concurrent credits for allowance for borrowed funds used during construction, not to exceed amounts computed in accordance with the formula prescribed in Electric Plant Instruction 2. No allowance for funds used during construction shall be capitalized on plant which is completed and ready for service.

C. The following are the proposed amendments to the Uniform System of Accounts for Class A and Class B Natural Gas Companies in Part 201, Chapter I, Title 18 of the Code of Federal Regulations:

## PART 201—UNIFORM SYSTEM OF ACCOUNTS FOR NATURAL GAS COMPANIES

1. The General Instructions are amended by revising paragraph "I" of Instruction "17. Long-Term Debt: Premium, Discount and Expense, and Gain or Loss on Reacquisition." As amended this portion of General Instruction 17 will read:

## General Instructions

17. Long-Term Debt: Premium, Discount and Expense, and Gain or Loss on Reacquisition.

I. Premium, discount, or expense on debt shall not be included as an element in the cost of construction or acquisition of property (tangible or intangible), except under the provisions of account 432, Allowance for Borrowed Funds Used During Construction—Credit.

2. Amend paragraph "17. Allowance for Funds Used During Construction" of Gas Plant Instruction "3. Components of

Construction Cost." by revising the present paragraph, and immediately following the present paragraph, adding three new paragraphs (a), (b) and (c). As amended subparagraph (17) will read:

## Gas Plant Instructions

## 3. Components of Construction Cost.

(17) "Allowance for funds used during construction" includes the net cost for the period of construction of borrowed funds used for construction purposes and a reasonable rate on other funds when so used, not to exceed allowances computed in accordance with the formula prescribed in paragraph (a) below, except when such other funds are used for exploration and development or leases acquired after October 7, 1969, no allowance on such other funds shall be included in these accounts.

(a) The formula and elements for the computation of the allowance for funds used during construction shall be:

$$A_c = s \left( \frac{S}{W} \right) + d \left( \frac{D}{D+P+C} \right) \left( 1 - \frac{S}{W} \right) \\ A_c = \left[ 1 - \frac{S}{W} \right] \left[ p \left( \frac{P}{D+P+C} \right) + c \left( \frac{C}{D+P+C} \right) \right]$$

A<sub>c</sub> = Allowance for borrowed funds used during construction rate.  
A<sub>c</sub> = Allowance for other funds used during construction rate.  
S = Average short-term debt.  
s = Short-term debt interest rate.  
D = Average long-term debt.  
d = Long-term debt interest rate.  
P = Average preferred stock.  
p = Preferred stock cost rate.  
C = Average common equity.  
c = Common equity cost rate.  
W = Average construction work in progress balance.

(b) The rates shall be determined annually and the various components in the formula for the current year rates shall be derived from actual book balances and book cost rates for the prior year, with the exception that the rate used for common equity shall be the rate granted common equity in the last rate proceeding before the ratemaking body having primary rate jurisdiction. If such rate is not available, the average rate actually earned during the preceding three years shall be used.

(c) For those companies which are required to flow-through the interest expense portion of AFUDC in computing income taxes for cost of service purposes, the utility would use the gross AFUDC rate. For companies where the interest portion of AFUDC is not utilized in computing income taxes for cost of service purposes, depending upon the requirements of the appropriate regulatory commission, a net-of-tax rate should be used or a gross rate with appropriate normalization entries for the tax effect of the interest.

NOTE: . . .

3. The Chart of Income Accounts is amended by revising the title of account "419.1, Allowance for Funds Used During Construction," to read 419.1, Allowance

## PROPOSED RULES

## General Instructions

15. Long-Term Debt: Premium, Discount and Expense, and Gain or Loss on Reacquisition.

I. Premium, discount, or expense on debt shall not be included as an element in the cost of construction or acquisition of property (tangible or intangible), except under the provisions of account 432, Allowance for Borrowed Funds Used During Construction—Credit.

2. Amend Gas Plant Instruction "2. Components of Construction Cost." by revising the first paragraph and lettering it "A." and immediately following the first paragraph adding three new paragraphs B., C., and D. As amended, Instruction 2 will read:

## Gas Plant Instructions

2. Components of Construction Cost.  
A. The cost of construction of property chargeable to the gas plant accounts shall include, where applicable, fees for construction, privileges and permits, paid after grant of certificate, the cost of labor, materials and supplies, transportation, work done by others for the utility, injuries and damages incurred in construction, privileges and permits, special machine service, allowance for funds used during construction, not to exceed amounts computed in accordance with the formula prescribed in paragraph B below, training costs and such portion of general engineering, administrative salaries and expenses, insurance, taxes, and other analogous items as may be properly includible in construction costs. (See Operating Expense Instruction 3.) When the utility employs its own funds in exploration and development on leases acquired after October 7, 1969, no allowance for funds used during construction on such funds shall be included in these accounts.

B. The formula and elements for the computation of the allowance for funds used during construction shall be:

$$A_c = s \left( \frac{S}{W} \right) + d \left( \frac{D}{D+P+C} \right) \left( 1 - \frac{S}{W} \right) \\ A_c = \left[ 1 - \frac{S}{W} \right] \left[ p \left( \frac{P}{D+P+C} \right) + c \left( \frac{C}{D+P+C} \right) \right]$$

A<sub>c</sub> = Allowance for borrowed funds used during construction rate.  
A<sub>c</sub> = Allowance for other funds used during construction rate.  
S = Average short-term debt.  
s = Short-term debt interest rate.  
D = Average long-term debt.  
d = Long-term debt interest rate.  
P = Average preferred stock.  
p = Preferred stock cost rate.  
C = Average common equity.  
c = Common equity cost rate.  
W = Average construction work in progress balance.

C. The rates shall be determined annually and the various components in the formula for the current year rates

for Other Funds Used During Construction, and immediately following account "431, Other Interest Expense," adding a new account 432, Allowance for Borrowed Funds Used During Construction—Credit. As amended the Chart of Income Accounts will read:

## Income Accounts

## 2. OTHER INCOME AND DEDUCTIONS

## A. OTHER INCOME

419.1 Allowance for other funds used during construction.

## 3. INTEREST CHARGES

432 Allowance for borrowed funds used during construction—Credit.

4. The text of the Income Accounts is amended by revising the title and text of account "419.1, Allowance for Funds Used During Construction," and immediately following account "431, Other Interest Expense," adding a new account 432, Allowance for Borrowed Funds Used During Construction—Credit. As amended these portions of the text of the Income Accounts will read:

## Income Accounts

## 2. OTHER INCOME AND DEDUCTIONS

419.1 Allowance for other funds used during construction.

This account shall include concurrent credits for allowance for other funds used during construction, not to exceed amounts computed in accordance with the formula prescribed in Gas Plant Instruction 3(17).

## 3. INTEREST CHARGES

432 Allowance for borrowed funds used during construction—Credit.

This account shall include concurrent credits for allowance for borrowed funds used during construction, not to exceed amounts computed in accordance with the formula prescribed in Gas Plant Instruction 3(17).

D. The following are the proposed amendments to the Uniform System of Accounts for Class C and Class D Natural Gas Companies in Part 204, Chapter I, Title 18 of the Code of Federal Regulations:

## PART 204—UNIFORM SYSTEM OF ACCOUNTS FOR NATURAL GAS COMPANIES (CLASS C AND CLASS D)

1. The General Instructions are amended by revising paragraph "I" of Instruction "15. Long-Term Debt: Premium, Discount and Expense, and Gain or Loss on Reacquisition." As amended this portion of General Instruction 15 will read:

## PROPOSED RULES

shall be derived from actual book balances and book cost rates for the prior year, with the exception that the rate used for common equity shall be the rate granted common equity in the last rate proceeding before the ratemaking body having primary rate jurisdiction. If such rate is not available, the average rate actually earned during the preceding three years shall be used.

D. For those companies which are required to flow-through the interest expense portion of AFUDC in computing income taxes for cost of service purposes, the utility would use the gross AFUDC rate. For companies where the interest portion of AFUDC is not utilized in computing income taxes for cost of service purposes, depending upon the requirements of the appropriate regulatory commission, a net-of-tax rate should be used or a gross rate with appropriate normalization entries for the tax effect of the interest.

3. The Chart of Income Accounts is amended by revising the title of account "419.1, Allowance for Funds Used During Construction," to read 419.1, Allowance for Other Funds Used During Construction, and immediately following account "431, Other Interest Expense," adding a new account 432, Allowance for Borrowed Funds Used During Construction—Credit. As amended, the Chart of Income Accounts will read:

Income Accounts (Chart of Accounts)	
2	OTHER INCOME AND DEDUCTIONS
A.	OTHER INCOME
419.1	Allowance for other funds used during construction.
3.	INTEREST CHARGES
432	Allowance for borrowed funds used during construction—Credit.

4. The text of the Income Accounts is amended by revising the title and text of account "419.1, Allowance for Funds Used During Construction," and immediately following account "431, Other Interest Expense," adding a new account 432, Allowance for Borrowed Funds Used During Construction—Credit. As amended these portions of the text of the Income Accounts will read:

Income Accounts	
2.	Other Income and Deductions
419.1	Allowance for other funds used during construction.
This account shall include concurrent credits for allowance for other funds used during construction, not to exceed amounts computed in accordance with the formula prescribed in Gas Plant Instruction 2. No allowance for funds used during construction shall be capitalized on plant which is completed and ready for service.	
3.	Interest Charges
432	Allowance for borrowed funds used during construction—Credit. This account shall include concurrent credits for allowance for borrowed funds used during construction, not to exceed amounts computed in accordance with the formula prescribed in Gas Plant Instruction 2. No allowance for funds used during construction shall be capitalized on a plant which is completed and ready for service.

## PART 141—STATEMENTS AND REPORTS (SCHEDULES)

E. Effective for the reporting year 1975, it is proposed to revise certain schedule pages of FPC Form No. 1, Annual Report for Electric Utilities, Licensees and Others (Class A and Class B), prescribed by § 141.1, Chapter I, Title 18 of the Code of Federal Regulations, all as set out in Attachments A and B hereto.

F. Effective for the reporting year 1975, it is proposed to revise certain schedule pages of FPC Form No. 1-F, Annual Report for Public Utilities and Licensees (Class C and Class D), prescribed by § 141.2, Chapter I, Title 18 of the Code of Federal Regulations, all as set out in Attachment E hereto.

G. It is proposed to revise FPC Form No. 5, Monthly Statement of Electric Operating Revenue and Income, prescribed by § 141.25, Chapter I, Title 18 of the Code of Federal Regulations, all as set out in Attachment E hereto.

H. Effective for the reporting year 1975, it is proposed to revise certain schedule pages of FPC Form No. 2, Annual Report for Natural Gas Companies (Class A and Class B), prescribed by § 260.1, Chapter I, Title 18 of the Code of Federal Regulations, all as set out in Attachments A and C hereto.

## PART 260—STATEMENTS AND REPORTS (SCHEDULES)

I. Effective for the reporting year 1975, it is proposed to revise certain schedule pages of FPC Form No. 2-A, Annual Report for Natural Gas Companies (Class C and Class D), prescribed by § 260.2, Chapter I, Title 18 of the Code of Federal Regulations, all as set out in Attachment D hereto.

J. It is proposed to revise FPC Form No. 11, Natural Gas Pipeline Company Monthly Statement, prescribed by § 260.3, Chapter I, Title 18 of the Code of Federal Regulations, all as set out in Attachment F.

The Secretary shall cause prompt publication of this notice to be made in the FEDERAL REGISTER.

By direction of the Commission.

KENNETH F. PLUMB,  
Secretary.

FPC Form No. 1

Docket No. RM75-27

Annual report of ..... Year ended December 31, 19..

## GENERAL DESCRIPTION OF CONSTRUCTION OVERHEAD PROCEDURE

1. For each construction overhead explain: (a) the nature and extent of work, etc., the overhead charges are intended to cover, (b) the general procedure for determining the amount capitalized, (c) the method of distribution to construction jobs, (d) whether different rates are applied to different types of construction, (e) basis of differentiation in rates for different types of construction and (f) whether the overhead is directly or indirectly assigned.

2. State the general policy with respect to the capitalization of allowance for funds used during construction to include: (a) the general classes of property included in the allowance base, (b) the method used to compute the allowance, (c) the allowance computation period and (d) the specific factors to support the allowance rate for the year.

## Revise:

2. Show below the computation of allowance for funds used during construction rates, in accordance with the provisions of Electric Plant Instruction 3 (17).

## Add:

3. Where a net-of-tax rate for borrowed funds is used, show the appropriate tax effect adjustment to the computations below in a manner that clearly indicates the amount of reduction in the gross rate for tax effects.

Components of formula (derived from actual book balances and book cost rates):

Title	Amount	Capitalization Ratio (percent)	Cost Rate Percentage
Average short-term debt	S		s
Short-term interest rate			
Average long-term debt	D		d
Average preferred stock	P		p
Average common equity	C		c
Total capitalization		100%	
Average construction work in progress balance	W		

$$\text{Rate for borrowed funds} = s \left( \frac{S}{W} \right) + d \left( \frac{D}{D+P+C} \right) \left( 1 - \frac{S}{W} \right)$$

$$\text{Rate for other funds} = \left[ 1 - \frac{S}{W} \right] \left[ p \left( \frac{P}{D+P+C} \right) + c \left( \frac{C}{D+P+C} \right) \right]$$

1/ Rate shall be the rate granted in the last rate proceeding. If such is not available, the average rate actually earned during the preceding three years shall be used.

## FEDERAL TRADE COMMISSION

[16 CFR Part 441]

## MOBILE HOME SALES AND SERVICE

## Proposed Trade Regulation Rule

Notice is hereby given that the Federal Trade Commission, pursuant to the Federal Trade Commission Act, as amended, 15 U.S.C. 41, et seq., the provisions of Part 1, Subpart B of the Commission's Procedures and Rules of Practice, 16 CFR 1.7, et seq., and § 553 of Subchapter II, Chapter 5, Title 5, U.S. Code (Administrative Procedure), has initiated a proceeding for the promulgation of a Trade Regulation Rule concerning mobile home sales and service.

Accordingly, the Commission proposes the following Trade Regulation Rule and to amend Subchapter D, Trade Regulation Rules, Chapter 1 of 16 CFR by adding a new Part 441.

- Sec.
- 441.1 Definitions.
  - 441.2 Warranty performance systems.
  - 441.3 Warrantor reliance on third parties.
  - 441.4 Written warranties and other related documents.
  - 441.5 Disclaimers, limitations, and exclusions.
  - 441.6 Prohibited conditions precedent.
  - 441.7 Dimensions of mobile homes.
  - 441.8 Labels, seals, or certifications.

AUTHORITY: 38 Stat. 717, as amended (15 U.S.C. 41, et seq.).

## § 441.1 Definitions.

For the purpose of this part, the following terms and definitions shall apply:

(a) "Consumer" shall refer to a buyer (other than for purposes of resale) of a mobile home which is used or bought for use primarily as a place of residence, any person to whom such mobile home is transferred during the duration of an implied or written warranty applicable to the mobile home, and any other person who is entitled under the terms of such warranty or under applicable Federal or State law to enforce against the warrantor the obligations of the warranty.

(b) "Mobile home" refers to a structure, transportable in one or more sections, which is eight body feet or more in width and is thirty-two body feet or more in length, and which is built on a permanent chassis and designed to be used as a dwelling with or without a permanent foundation when connected to the required utilities, and includes the plumbing, heating, air-conditioning, and electrical systems contained therein.

(c) "Defect" refers to any non-conformity in the performance, construction, components, or material of a mobile home that renders the home or any part thereof not in accordance with the obligations under the contract of sale or not fit for the ordinary use for which it was intended.

(d) "Written warranty" refers to: (1) Any written affirmation of fact or written promise made in connection with the retail sale of a mobile home by a warrantor to a consumer which relates to the nature of the material or workmanship and affirms or promises that

such material or workmanship is defect free or will meet, a specified level of performance over a specified period of time, or

(2) Any undertaking in writing in connection with the sale by a warrantor of a mobile home to refund, repair, replace or take other remedial action with respect to such mobile home in the event that such mobile home fails to meet the specifications set forth in the undertaking, which written affirmation, promise or undertaking becomes part of the basis for the bargain between a warrantor and a consumer of such mobile home.

(e) "Implied warranty" refers to an implied warranty arising under State law as modified, if at all, under Federal law.

(f) "Warrantor" refers to a corporation, a partnership, or other person engaged in the manufacture, wholesale or retail sale, offering for wholesale or retail sale, distribution, financing, or servicing of mobile homes produced or sold primarily for use by consumers, who gives or offers a written warranty or who is or may be obligated under an implied warranty.

(g) "Manufacturer" refers to any corporation, partnership, or person engaged in the manufacture, assembly, and wholesale sale of mobile homes, including any corporation, partnership, or person engaged in importing mobile homes for resale.

(h) "Corporate headquarters" refers to the location where the offices of the most senior officers in the hierarchy of a manufacturer's enterprise are located and/or where responsibility for management of the enterprise on a company-wide basis is generally exercised.

(i) "Authorized dealer" refers to a business enterprise, including but not necessarily limited to a corporation, a partnership, and an individual proprietor, neither owned nor controlled by a manufacturer, formed for the purpose of selling and servicing products, including but not limited to new mobile homes, from one or more established and recognizable locations, and which is authorized and approved by one or more manufacturers to buy and sell to consumers new mobile homes produced by said manufacturers.

(j) "Tender of possession" refers to the time when the mobile home has been properly set up at the consumer's home site and all necessary documents and keys are transferred to the consumer or the consumer's representative to enable the consumer to exercise the right to take possession and to complete delivery. *Provided, however,* That in cases where the initial set up of the home was arranged by the consumer and not by or through the manufacturer or authorized dealer, "tender of possession" refers to the time when all necessary documents and keys are transferred to the consumer or the consumer's representative to enable the consumer to exercise the right to take possession and to complete delivery.

(k) "Home site" refers to a plot of land designated by the consumer as the

location where the mobile home is to be set up or the location where the mobile home has in fact been set up.

(l) "Set up" refers to the operation whereby a mobile home is installed, leveled, and tied down on a permanent foundation of cinder blocks, cement piers, steel horses, or the like which properly distribute and support its weight. In the case of double-wide and triple-wide homes, "set up" includes the assembly of the two or more units of the mobile home and the sealing of the seams. "Set up" may also include the connection of certain utilities in accordance with local law.

(m) "Normal course of business" refers to the usual or regular manner of operation of the business enterprise in question under ordinary conditions. "Normal course of business" does not include:

(1) Conditions under which abnormal demands are made upon service capabilities as the result of natural disasters, or other acts of God or the government, or any other event beyond the control of the warrantor and, where applicable, its authorized dealers or other third parties which places an unusually large demand upon service facilities; and

(2) Events such as disasters, strikes, acts of the government, instances of force majeure or other occurrences which are beyond the control of the warrantor and, where applicable, its authorized dealers and other third parties which prevent the warrantor and, where applicable, its authorized dealers or other third parties from responding to service requests within the time periods stated herein; and

(3) Slight omissions or deviations from the provisions of this part which are inadvertent, unintentional, and are not due to bad faith.

## § 441.2 Warranty performance systems.

In connection with the manufacture, sale, offering for sale, distribution, and service of mobile homes produced or sold primarily for use by consumers in commerce, as "commerce" is defined in the Federal Trade Commission Act, it is an unfair or deceptive act or practice within the meaning of section 5 of that Act for a corporation, partnership, person, or other business entity to offer or otherwise provide, any written or implied warranty unless the warrantor establishes and maintains a regular and effective warranty performance system which is designed to assure that each consumer of mobile homes so warranted will receive full performance of all such warranty obligations either directly or by action through its authorized dealers or other third parties within the time period requirements set forth hereinbelow and unless the warrantor performs all of its obligations under such warranty within such time period requirements. An effective warranty performance system which is designed to assure that each consumer of a mobile home receives full performance of the warrantor's obligations under the warranty shall incorporate but not necessarily be limited to the following:

(a) The warrantor shall perform warranty service and repair obligations arising subsequent to the tender of possession of the home to the consumer by the warrantor, either directly or through an authorized dealer or other third parties at the site of the mobile home.

(b) The warrantor shall, directly or through an authorized dealer or other third parties, in the normal course of business, commence all warranty service or repair of defects giving rise to a condition which affects the safety of a mobile home or renders it substantially uninhabitable as soon as possible but in no event later than three business days following receipt of notice of such a defect by the warrantor from the retail purchaser or two business days following notice of the determination by the warrantor's authorized dealer or other third parties to rely upon the warrantor to perform or to complete service or repairs requested by consumers with respect to such defects. Such repairs are to be completed expeditiously.

(c) The warrantor shall, directly or through an authorized dealer or other third parties, in the normal course of business, respond to notice of the need for service and repairs of warranty defects other than those set forth in paragraph (b) of this section, within a reasonable time not to exceed seven business days of receipt of notice of such defects by the warrantor, its authorized dealer or other third parties, and complete such service or repairs within a reasonable time not to exceed thirty days following said receipt of notice.

(d) The warrantor shall assure that in the event of a bona fide dispute between the warrantor or its dealers and a consumer pursuant to § 441.3(f) of this part, as to whether the defect(s) complained of by the consumer are or are not covered by an applicable warranty, then: In the event it is determined that warranty service or repair is required, which determination shall be made promptly, the warrantor shall be allowed, notwithstanding the provisions of paragraphs (b) and (c) of this section with respect to the time allowances for repairs, in the normal course of business, from the date of notification of the dispute as set forth in this paragraph (d) of this section, no more than three business days in the case of defects referred to in paragraph (b) of this section to commence service or repair (such repairs to be completed expeditiously) and no more than thirty days in the case of defects referred to in paragraph (c) of this section to complete service or repair.

(e) The warrantor shall, either directly or through its authorized dealers or other third parties, in the normal course of business, inspect each mobile home at the home site prior to or at the time of tender of possession to the consumer to assure that the home is being delivered to such consumer free of all defects which affect the safety of the mobile home or render it substantially uninhabitable and that it is properly set up.

(f) The warrantor shall, either directly or through its authorized dealers

or other third parties, in the normal course of business, reinspect each mobile home within a reasonable time not to exceed 90 days after tender of possession of the home to the consumer to determine the existence of defects in the mobile home or problems relating to its setup, and to correct or arrange for the correction of defects within the scope of any applicable warranty, or improper setup and problems arising therefrom.

(g) Results of the inspections required pursuant to paragraphs (e) and (f) of this section shall be set forth in a report or reports which, if performed by an authorized dealer or other third party, shall be signed by said authorized dealer or other third party and shall be signed by the consumer or said consumer's representative indicating agreement with the information set forth therein. If no signature of the consumer or said consumer's representative appears on such a report, the authorized dealer or other third party shall certify that the necessary inspections and repairs were in fact accomplished and state in writing the reason for the absence of the signature of the consumer or said consumer's representative to the best of the authorized dealer's or other third party's knowledge and belief. Notwithstanding the provisions of paragraphs (e) and (f) of this section, in the event that the initial setup of the mobile home is not provided by or arranged through the warrantor or the warrantor's authorized dealer but is arranged independently by the consumer of such mobile home, there shall be no obligation to make those portions of the inspections described in paragraphs (e) and (f) of this section which cannot be accomplished prior to the initial setup.

(h) The warrantor shall, in the normal course of business, obtain information as to the date of purchase and the name and address of the consumer of each of its mobile homes and shall maintain adequate records of the information so ascertained.

(i) Where the warrantor chooses to delegate, assign, contract, or otherwise rely on a continuing basis upon any authorized dealers or any third parties not employees of the warrantor to satisfy the obligations assumed by the warrantor under any warranty, whether written or implied by law, then the warrantor shall assure that if a dispute or disagreement should arise between the warrantor and one or more of its authorized dealers or other third parties as to which of them is to incur any such obligation, burden, or responsibility or is to correct a malfunction related or alleged to relate to the set up of the warrantor's mobile homes, any and all necessary repairs or other corrective action will be expeditiously accomplished, regardless of whether the dispute or disagreement has been resolved. Nothing in this section shall be construed to preclude a warrantor from replacing a mobile home, refunding the purchase price or taking any other remedial action with respect to the mobile home which is within the scope of the terms of the written or implied warranty applicable to such

mobile home; *Provided, however,* That such a refund, replacement or other remedial action with respect to a mobile home shall be delivered to the consumer within a reasonable time, taking into account the individual circumstances of each case, but in no event later than thirty days following the receipt of notice of the defect for which the remedy is provided.

## § 441.3 Warrantor reliance on third parties.

In connection with the manufacture, sale, offering for sale, distribution, and service of mobile homes produced or sold primarily for use by consumers in commerce, as "commerce" is defined in the Federal Trade Commission Act, it is an unfair or deceptive act or practice within the meaning of section 5 of that Act for a mobile home manufacturer who is a warrantor to delegate, assign, contract with, or otherwise rely on a continuing basis upon any authorized dealers or any other third parties who are not employees of said manufacturer to: First, determine whether any mobile home constructed by the manufacturer contains any defects which are within the scope of any written or implied warranty or whether any such mobile home otherwise requires remedial action pursuant to any such warranty; second, notify the manufacturer of the existence of any such defects or need for remedial action pursuant to the aforesaid warranties; or third, perform any repairs or otherwise provide services in satisfaction of any warranty obligations incurred by the manufacturer, if the manufacturer shall fail to:

(a) Enter into a written service agreement with each such person desiring to be authorized to assume the responsibility of satisfying the manufacturer's mobile home warranty obligations on a continuing basis which sets forth the respective warranty service obligations to be discharged by the manufacturer and by the authorized dealer or other third party. Mobile home manufacturers who extend a warranty, express or implied, and rely upon authorized dealers or other persons not employees of said manufacturers to perform their warranty obligations shall require all such dealers and other persons to execute such agreements described herein within 180 days of the effective date of this part as a condition precedent to the manufacturer continuing the aforesaid delegation, assignment, contractual relationship or reliance subsequent to the 180th day following the effective date of this part. Dealers or the other third parties upon whom the manufacturer commences to rely, delegate, assign, or contract with as aforesaid after the effective date of the part shall execute such agreements prior to or at the time of said delegation, assignment, contracting, or reliance. Such agreements shall include but not necessarily be limited to:

(1) A clear and accurate description of the scope of those duties, burdens and responsibilities to be borne by the manu-

## PROPOSED RULES

facturer and those to be borne by authorized dealers or other third parties as aforesaid and a statement as to the allocation of responsibility for the proper set up of mobile homes constructed by the manufacturer;

(2) The requirement that the authorized dealer or other third party as aforesaid shall, in the normal course of business, commence all warranty service or repair of defects which become necessary as a result of a condition which affects the safety of the mobile home or renders it substantially uninhabitable, as soon as possible but not later than three business days following receipt of notice of such defects or condition by the authorized dealer or other third party, and shall complete such service or repairs expeditiously. In those cases in which the authorized dealer or other party determines to rely upon the manufacturer to perform or to complete service or repairs requested by consumers on such defects, such determination shall be made and communicated to the manufacturer immediately upon such determination but no later than two business days following receipt of notice of such defect from the consumer;

(3) The requirement that except as set forth in paragraph (a)(2) of this section the authorized dealer or other third party as aforesaid must respond to a request for warranty repairs or service within seven business days of the receipt of notice and must complete all such warranty service or repairs within a reasonable time, not to exceed thirty days in the normal course of business, following receipt of notice of such condition by such authorized dealer or other third party. In those cases in which the authorized dealer or other third party determines to rely upon the manufacturer to perform or to complete such service or repairs requested by the consumer, such determination shall be made and communicated to the manufacturer as soon as possible but no later than five business days following receipt of notice from the consumer;

(4) The requirement that the authorized dealer or other third party as aforesaid must, in the normal course of business, inspect each mobile home at the home site prior to or at the time of tender of possession to the consumer to assure that the home is being delivered to such consumer free of all defects which affect the safety of the home or render it substantially uninhabitable and that it is properly set up. Such an inspection shall be reported in written form to the manufacturer as described in paragraph (a)(6) of this section;

(5) The requirement that the authorized dealer or other third party as aforesaid must, in the normal course of business, reinspect each of the mobile homes constructed by the manufacturer at a reasonable time not to exceed 90 days following tender of possession of the home to the consumer to determine the existence of any defects in the mobile home or an improper set up or problems arising therefrom, and to correct or arrange for the correction of any such

conditions. Such a reinspection shall be reported in written form to the manufacturer as described in paragraph (a)(6) of this section;

(6) The requirement that the authorized dealer or other third party as aforesaid in the normal course of business provide the manufacturer with written reports which document the results of the inspections set forth in paragraphs (a)(4) and (5) of this section. The signature of the consumer or the consumer's representative thereon shall be required as certification that the inspections and repairs alleged therein to have been completed were in fact accomplished to the best of his or her knowledge and belief. *Provided, however,* That if the signature of the consumer or the consumer's representative cannot be obtained, the authorized dealer or other third party shall so state in writing in the report and shall also state the reasons for the absence of the required signature to the best of his or her knowledge and belief. Notwithstanding the provisions of paragraphs (a)(4) and (5) of this section, in cases where the initial set up of the mobile home was not provided by or arranged through the warrantor or the warrantor's authorized dealer but was arranged independently by the consumer of such mobile home, there shall be no obligation to make those portions of the inspections described in paragraphs (a)(4) and (5) of this section which cannot be accomplished prior to the initial set up of the mobile home;

(7) The requirement that the authorized dealer or other third party as aforesaid establish and maintain, or contract for the services of personnel and facilities which are capable of providing all necessary warranty repairs and service within the time period requirements set forth in paragraphs (a)(2) and (3) of this section in the normal course of business.

(8) A statement that the manufacturer shall have the right to withdraw authorization from authorized dealers and other third parties as aforesaid who fail to meet their responsibilities under the written service agreement as set forth herein;

(9) A provision providing for the disposition of the manufacturer's continuing obligation, subsequent to the time that authorization has been withdrawn, to perform warranty service on mobile homes sold by the dealer until such time as the terms of all warranties outstanding on such homes have expired.

(b) Fully scrutinize and evaluate the number of personnel, level of expertise, and adequacy of facilities and equipment of such parties desiring to be authorized to perform warranty obligations incurred by the manufacturer on a continuing basis with respect to their ability to capably perform all necessary warranty service, repairs, and set up of said manufacturer's mobile homes within the standards to be set forth in the agreement prior to the authorization of a dealer or reliance upon any other third party as aforesaid. A check of credit references and other evidence of the financial standing of the dealer is not

by itself sufficient to comply with the requirements of this paragraph. If a prospective authorized dealer chooses to rely on an outside service agency with respect to set ups, warranty repairs and service, the manufacturer shall satisfy itself as to the capability of said agency to perform adequate set ups and service through a regular procedure capable of providing a true and objective assessment of such agency's set up, repair, and service capability.

(c) Establish a regular procedure for the effective ongoing evaluation of the manner in which authorized dealers or other third parties as aforesaid maintain their service and set up capability and the manner in which they perform such warranty and set up responsibilities. Such a procedure shall include but not necessarily be limited to the dissemination of a questionnaire to all consumers who purchase the manufacturer's mobile homes at retail within 60 to 120 days subsequent to the date of tender of possession of the home to the consumer but in no event prior to ten days following reinspection of the home which inquiries as to the following:

(1) The existence of any defects in said mobile homes within the scope of the manufacturer's written warranty and any warranties implied by law or of an improper set up or any problems arising therefrom;

(2) The name of the person, if any, whom the mobile home consumer notified as to the existence of said defects or set up problems;

(3) The identity of any person who sought to service or repair any such defects or set up problems;

(4) Whether such defects or set up problems were fully repaired, the period of time required to effect such repairs, and the identity of the parties who accomplished such repairs;

(5) Whether the consumer is satisfied with the promptness and quality of the repairs made on his or her home to date. Such questionnaire shall be sent in the form of a pre-paid self-addressed postcard or a letter containing a pre-paid self-addressed envelope. Such a procedure shall also include regular periodic visits by one or more employees of the manufacturer to review the service facilities and personnel maintained by the authorized dealer or other third party. Such a visit and review shall be immediately initiated by the manufacturer upon the receipt of an unreasonable number of meritorious complaints or unsatisfactory reports, questionnaires or other similar communications from consumers. The manufacturer shall forthwith terminate its authorization of and reliance on authorized dealers or other third parties who fail to meet the responsibilities and standards set by the manufacturer pursuant to the written service agreement and this part.

(d) Assure that the person or persons to whom responsibility for supervising and assuring the implementation of the manufacturer's warranty service program is delegated shall make periodic reports at least on a monthly basis to the

manufacturer's responsible officers. Such reports shall include but not necessarily be limited to current information concerning:

(1) The current cost to the manufacturer of warranty service;

(2) The incidence and nature of frequently recurring defects and of defects which have been determined to deleteriously affect the health and safety of the occupants of mobile homes containing such defects;

(3) Those measures undertaken in response to reports of defects described in paragraph (d)(2) of this section including but not necessarily limited to modification in production and design of the manufacturer's mobile homes;

(4) Analysis of the manner in which the manufacturer's employees, authorized dealers and other third parties are performing their warranty and set up responsibilities.

(e) With respect to manufacturers who produce in excess of 5,000 mobile homes annually, vest the direct administration of such manufacturer's warranty service program at the corporate headquarters level and the responsibility for supervising and assuring the implementation of the warranty service program in only those corporate officials who have no direct responsibilities on a day-to-day basis for the sale of the manufacturer's mobile homes.

(f) Establish a uniform procedure for the systematic receipt and analysis and fair disposition of all complaints or disputes which may arise between the aforesaid consumers of mobile homes constructed by the manufacturer and the manufacturer, its agents, assigns, successors, or other third parties including but not necessarily limited to the manufacturer's authorized dealers, with respect to any alleged warranty obligations of the manufacturer. Such a procedure shall incorporate but not necessarily be limited to:

(1) The prompt evaluation of and response by the manufacturer, directly or by action through a third party, in the normal course of business, to all complaints within a reasonable time not to exceed five business days after receipt of such complaints;

(2) With respect to manufacturers which produce in excess of 5,000 mobile homes annually, the designation of a single focal point within the corporation for the receipt of consumer complaints regarding warranty repairs or set up programs;

(3) An effective mechanism for the fair and impartial resolution of disputes with respect to alleged warranty obligations. With respect to manufacturers which produce in excess of 5,000 mobile homes annually, the responsibility for resolving disputes through the above-described mechanism shall be vested in only those personnel who are not responsible for sales on a day-to-day basis;

(4) An accurate and complete record keeping system regarding the nature and disposition of all such disputes and complaints received by the manufacturer;

(5) Periodic review and evaluation by

## PROPOSED RULES

23337

the manufacturer as to the effectiveness of such procedures and correction of such procedures where necessary;

(g) Maintain full and accurate records and to periodically review such records which shall disclose:

(1) The date of receipt, the disposition, and the date of disposition of each request for warranty service (including any refusal of a request for service or repairs and the reasons for such refusal) received by the manufacturer; and

(2) The results of the evaluations of service capacity provided for in paragraph (c) of this section and the results of any action taken with respect thereto.

## § 441.4 Written warranties and other related documents.

In connection with the manufacture, sale, offering for sale, distribution, and service of mobile homes produced or sold primarily for use by consumers in commerce, as "commerce" is defined in the Federal Trade Commission Act, it is an unfair or deceptive act or practice within the meaning of section 5 of that Act for a warrantor who chooses to disseminate a written warranty not to provide consumers with a written warranty and other related documents which clearly and fully describe and effectively communicate to the consumer, in simple and readily understood language the manner in which the warrantor intends to provide for the performance of warranty obligations, including disclosure of any delegation of warranty responsibility to third parties; *Provided, however,* That disclosure of said delegation must be accompanied by additional disclosure that such delegation in no way relieves the warrantor of the ultimate responsibility to fulfill all warranty obligations.

## § 441.5 Disclaimers, limitations, and exclusions.

In connection with the manufacture, sale, offering for sale, distribution, and service of mobile homes produced or sold primarily for use by consumers in commerce, as "commerce" is defined in the Federal Trade Commission Act, it is an unfair or deceptive act or practice within the meaning of section 5 of that Act to suffer or permit mobile homes to be sold either directly or by action through a third party, without any written or implied warranties or limitations or exclusions of liability under any warranty or to disseminate or cause the dissemination of any statement or representation which represents directly or by implication that any written or implied warranty has been limited or excluded unless the person or persons so representing have a reasonable basis, in the form of an opinion by legal counsel, that said disclaimer, limitations and exclusions are enforceable under governing Federal and State law, and clear and conspicuous notice of such "as is" sale or other disclaimer, limitation or exclusion is given to prospective consumers of their mobile homes prior to the execution of the contract of retail purchase. *Provided, however,* That with respect to the "as is" sale of damaged, salvaged, demonstrator or

repossessed mobile homes, the aforesaid opinion by legal counsel shall not be required. A clear and conspicuous notice of an "as is" sale shall contain the following language:

## NOTICE

The manufacturer of this mobile home sells it "as is" and refuses to assume any responsibility for defects. The purchaser of this mobile home must accept it with all defects and take the entire risk, under contract law, as to its condition.

## § 441.6 Prohibited conditions precedent.

In connection with the manufacture, sale, offering for sale, distribution, and service of mobile homes produced or sold primarily for use by consumers in commerce, as "commerce" is defined in the Federal Trade Commission Act, it is an unfair or deceptive act or practice within the meaning of section 5 of that Act, notwithstanding the provisions of § 441.4(g) for any warrantor of a mobile home to:

(a) Disseminate a written warranty or any documents associated therewith which require or purport to require the return of the home or any defective part thereof to the location of its manufacture as a condition precedent to obtaining warranty repairs or service;

(b) Disseminate a written warranty or any documents associated therewith which require or purport to require the return of a warranty card, owner's registration card, or any similar document bearing certain information about the consumer or the retail purchase transaction as a condition precedent to the validation of the warranty or as a condition precedent to the manufacturer's obligation to perform warranty repairs and service on said consumer's mobile home.

## § 441.7 Dimensions of mobile homes.

In connection with the manufacture, sale, offering for sale, distribution, and service of mobile homes produced or sold primarily for use by consumers in commerce, as "commerce" is defined in the Federal Trade Commission Act, it is an unfair or deceptive act or practice within the meaning of section 5 of the Act for any manufacturer of mobile homes to disseminate or cause the dissemination of any representation or statement which represents, directly or by implication, the dimensions of mobile homes unless the actual dimensions of the mobile homes, from exterior wall to exterior wall, and the dimensions of any tow hitch or other appendage, not part of said living space are clearly and conspicuously disclosed.

## § 441.8 Labels, seals, or certifications.

In connection with the manufacture, sale, offering for sale, distribution, and service of mobile homes produced or sold primarily for use by consumers in commerce, as "commerce" is defined in the Federal Trade Commission Act, it is an unfair or deceptive act or practice within the meaning of section 5 of that Act to use or disseminate any label, seal or certification which makes any representation, directly or by implication, as to the compliance of the mobile homes with any standard, code or the like re-

V 40-104 MAY 29 75

## PROPOSED RULES

garding construction or performance characteristics without disclosing clearly, conspicuously and in close conjunction therewith exactly what said label, seal or certification means and what remedy, if any, is available to a consumer in the event that his or her mobile home is not in compliance with said code or standard. For example, a clear and conspicuous disclosure in close conjunction with a label, seal or certification attached to a mobile home which represents directly or by implication that the particular home is in full compliance with ANSI Standard A119.1 shall consist of the following:

There is no assurance by the manufacturer that this mobile home complies with every requirement of ANSI Standard A119.1. If you believe that this mobile home is not in compliance with ANSI Standard A119.1, the manufacturer suggests that you consult your warranty for instructions on obtaining necessary corrective action.

## STATEMENT OF REASON FOR THE PROPOSED RULE

It is the Commission's purpose, in issuing this statement, to set forth its reason for proposing this Trade Regulation Rule with sufficient particularity to allow informed comment. In this proceeding, it has been determined that meaningful comment by the public will be best facilitated by presenting (1) a statement describing the basic factual and legal premises upon which the Commission has determined to propose the rule, and (2) a series of questions designed to draw to the public's attention matters which the Commission presently deems particularly pertinent and on which comment is especially solicited.

The Commission emphasizes that neither the statement of factual and legal premises nor the questions should be interpreted as designating disputed issues of specific fact. Such designations shall be made by the Commission or its duly authorized presiding official pursuant to the Commission's Rules of Practice.

## STATEMENT

Based upon the information gathered to date, the Commission has reason to believe that:

1. Mobile home warranty performance often does not conform to the representations of warrantors of mobile homes.
2. Substantial numbers of mobile home purchasers in need of warranty service are subjected to unreasonable delay or have never received adequate redress of their warranty problems due to the failure of mobile home warrantors to maintain adequate warranty performance systems reasonably designed to assure that each mobile home consumer receives full performance of warranty repairs within a reasonable time.
3. The practices which contribute to the inadequate performance of mobile home warranty repairs and service include:

a. The delegation by warrantors of substantial warranty responsibilities to mobile home dealers and other third parties without sufficient safeguards to assure

that both the warrantor and the party to which warranty responsibilities have been delegated understand and live up to their agreed upon obligations.

b. The failure of warrantors to systematically scrutinize the ability of a dealer or other third party to perform warranty service and set up prior to the time that the dealer or other third party is delegated the responsibility of servicing the warrantor's mobile homes.

c. The absence of a written service contract between warrantors and their authorized dealers or other third parties to define the scope of their respective responsibilities with respect to service and to make those duties legally enforceable.

d. The lack of regular monitoring of the actual performance of warranty service and set up by authorized dealers or other third parties after a warrantor has delegated the responsibility of servicing its mobile homes to such parties.

e. The failure of warrantors to maintain adequate staff or procedures for the systematic and fair resolution of warranty-related complaints or disputes.

f. The failure of warrantors or their authorized dealers or other third parties to respond to warranty requests within a reasonable time.

g. The delay of needed repairs until after the settlement of disputes between warrantors and their authorized dealers or other third parties as to which party is responsible for the repair in question.

4. Warrantors have disseminated mobile home warranties which contain disclaimers, limitations, and exclusions of express and implied warranties in States where such disclaimers, limitations, and exclusions are unenforceable under governing State law.

5. Warrantors have disseminated mobile home warranties which contain certain conditions precedent to warranty service which have the capacity or tendency to mislead consumers as to the extent of their warranty coverage.

6. Manufacturers and others have utilized representations in promotional materials of the length of mobile homes as a certain distance which includes three to four feet for the length of the tow hitch; such representations have the capacity or tendency to mislead consumers by inducing them to believe that the represented length dimension is the total distance between the outer front and rear walls of the mobile home, rather than the overall length of the mobile home including the tow hitch.

7. Manufacturers have utilized and displayed certification seals which represent either directly or by implication that a particular mobile home is in total compliance with certain construction codes or standards; such use of certification seals has the capacity or tendency to mislead prospective purchasers as to the quality of the particular mobile home they are considering for purchase and has the capacity or tendency to mislead actual purchasers by inducing them to believe that their particular home is in compliance with the codes or standards. In addition, the Commission has reason to believe that mobile home consumers

are inadequately informed as to what steps should be taken in order to obtain remedial action for defects in their homes which may in fact be code violations.

The Commission's authority to prescribe rules which define with specificity acts or practices which are unfair or deceptive acts or practices in or affecting commerce is set forth in section 18(a) (1) (B) of the Federal Trade Commission Act, as amended (15 U.S.C. 57(a) (1) (B)). Such rules may include requirements prescribed for the purpose of preventing such acts or practices. Accordingly, it appears to the Commission that the relief which is now set forth in the various sections of the proposed rule is mandated by section 5 of the Federal Trade Commission Act because:

1. Those mobile home warrantors who fail to establish and maintain regular and effective warranty performance systems designed to assure that each consumer of a mobile home that is warranted will receive full performance of warranty service and repairs within a reasonable period of time (as delineated in the proposed rule) are engaging in unfair or deceptive acts or practices within the meaning of section 5 of the Federal Trade Commission Act (15 U.S.C. 45).

2. Certain acts and practices used in connection with mobile home warranty provisions and other associated documents should be prohibited or restricted in order to prevent deception as to the extent of warranty coverage in violation of section 5 of the Federal Trade Commission Act (15 U.S.C. 45).

3. The use of descriptions of mobile home dimensions and the use of certification seals which have the capacity or tendency to mislead consumers should be prohibited and, instead, such descriptions of mobile home dimensions and such certification seals should be worded so that they are presented to consumers in a manner which will not be deceptive in violation of section 5 of the Federal Trade Commission Act (15 U.S.C. 45).

The Commission has determined that it has reason to believe the above statements on the basis of information compiled during an extensive investigation of the manufacturing, advertising, sales and service practices engaged in by the mobile home industry. In the course of this investigation, the staff has received documentary evidence of these practices and has conducted interviews with consumers; representatives of mobile home manufacturers, dealers, and trade associations; Federal, State, and local officials; and other interested parties. The Commission has not adopted any of the findings or conclusions of the staff. All findings in this proceeding shall be based solely on materials in the rulemaking record.

The terms of the proposed rule differ in some respects from the terms which were made public in December 1974. The previous version of the proposed rule was not published in the Federal Register at that time due to the need to assess the impact of the Magnuson-Moss War-

ranty—Federal Trade Commission Improvements Act (Pub. L. 93-637) on Commission rulemaking procedures. The most significant difference between the two versions of the proposed rule is the deletion of most of the provisions which appeared in the December 1974 version which related to disclosures to be contained in written mobile home warranties and other related documents. The Commission has reason to believe that the disclosure of the nature and extent of mobile home warranty coverage will, for the most part, be adequately treated by the warranty rules to be promulgated under section 102 of Title I of the Magnuson-Moss Warranty—Federal Trade Commission Improvements Act (15 U.S.C. 2302). In addition, several insubstantial language changes in § 441.1 (Definitions) of the proposed rule were made in order to assure that the language in that section conforms, where applicable and appropriate, to the language of 15 U.S.C. 2301 (Definitions) and of section 5402 (Definitions) of the National Mobile Home Construction and Safety Standards Act of 1974 (42 U.S.C. 5401, et seq.).

Finally, a provision has been added to § 441.2 (Warranty performance systems) in order to reflect the fact that under the Magnuson-Moss Act, a warranty may also provide for the replacement of the warranted mobile home, a refund of the purchase price or other remedial action with respect to the mobile home. Under this new provision of the proposed rule, a warrantor would be able to perform a promise under the warranty issued by that company to give a refund or to replace the home, but the proposed rule requires that the warrantor provide the chosen remedy within a reasonable time under the circumstances of the individual case but in no event later than thirty days after receipt of the notice of the defect for which the remedy is to be provided.

At the same time the December 1974 version of the proposed rule was made public, the Commission accepted four consent orders agreed to by mobile home manufacturers which provided for certain relief to past purchasers of those manufacturers' mobile homes and for the elimination of certain alleged unfair and deceptive acts and practices. The Commission, having reason to believe that such proceedings alone are inadequate to establish well defined standards of enforcement for the guidance of consumers, mobile home manufacturers, and other interested parties, undertakes herewith to define with specificity some acts or practices which may be unfair or deceptive and to prescribe requirements for the purpose of preventing such acts or practices.

## QUESTIONS

1. In the accompanying Statement of Reason for the proposed rule the Commission has outlined its tentative appraisal of deception and unfairness in the context of mobile home sales and service. How prevalent are the challenged practices set forth in the Statement, and in what manner and context

## PROPOSED RULES

are such acts and practices unfair or deceptive?

2. Section 441.2 (b), (c), and (d) sets forth certain time standards for the commencement and completion of the repair of defects which affect the safety of a mobile home or render it substantially uninhabitable, for the completion of other warranty repairs, for the response to a notification by a consumer of a defect and for the resolution of disputes with respect to warranty coverage. Are the respective time limits set forth in that section fair and workable? Would different time standards be more appropriate after potential consumer injury, feasibility, and cost to the warrantors are taken into account? Should these time standards be waived or modified in situations governed by 42 U.S.C. 5414 (g) and (h), and if so how should this waiver or modification be accomplished?

3. Section 441.2(e) and 441.2(f) presently require warrantors to assure that mobile homes manufactured by them are inspected at the home site prior to or at the time of tender of possession to the consumer and to reinspect the home within 90 days to assure that the home is being delivered free of defects which affects the safety of the home or render it substantially uninhabitable and to see that the home is properly set up. Would this requirement adequately protect consumers from moving into seriously defective homes? Would such a pre-delivery inspection result in expeditious repair (within the framework of the applicable requirements of the rule) of all defects discovered during the inspection? Would a reinspection of the home within 90 days assure that any settling of the home after the initial set up would be detected and corrected? Is the time standard contemplated by the 90 day limit sufficiently flexible to allow for both the discovery of most warranty problems and defects resulting from a faulty set up while still allowing for an expeditious follow up as to the satisfaction of the consumer by the mobile home warrantor?

4. Section 441.3(c) presently requires warrantors who delegate warranty responsibilities to authorized dealers or other third parties to establish a procedure for evaluating the effectiveness of the performance of warranty repairs by the authorized dealer or other third party, including the use of a consumer questionnaire to be sent to all retail purchasers after the reinspection of their mobile homes (between 60 and 120 days after the date of purchase). Will this requirement result in a reliable, inexpensive, and useful audit of the performance of warranty repairs by authorized dealers and other third parties, and will it reveal whether the mobile home consumers have received all necessary repairs? If not, what alternative or supplemental procedure would achieve these desired results?

5. Section 441.3(f) of the proposed rule requires the establishment by the warrantor of a procedure for resolving consumer complaints and disputes (which may involve manufacturers, dealers, and

other third parties) with respect to warranty problems. This procedure would not come within the purview of section 110 of Title I of the Magnuson-Moss Warranty—Federal Trade Commission Improvements Act (15 U.S.C. 2310) because the rule presently contains no provision for a dispute settlement procedure operated independently of the parties involved in the dispute. In light of section 110 of the Magnuson-Moss Act, is there an additional need in the case of mobile home warranty disputes for the proposed rule to set forth an effective mechanism, to be used in appropriate situations, for the independent, fair, and impartial arbitration of disputes with respect to warranty obligations? How might this arbitration best be accomplished?

6. Section 441.3 (e) and (f) contains requirements which are specifically not imposed upon mobile home manufacturers which produce fewer than 5,000 mobile homes annually. What is the economic effect of the rule on small business? Should special allowances for smaller manufacturers be made with respect to other requirements and why? Is a production figure of 5,000 mobile homes on an annual basis a reasonable cut-off point or would another figure be more appropriate? If so, why?

7. The proposed rule does not at present contain a requirement that the set up of a mobile home be subject to a warranty. Should § 441.2 of the proposed rule include a provision which would address itself to the problems relating to set up that mobile home purchasers appear to experience? If so, should additional measures, including a requirement that all set ups be subject to a separate warranty, be included in the proposed rule?

8. The proposed rule does not at present place any requirements directly upon retail dealers of mobile homes or other third parties except to the extent that such parties are warrantors within the meaning of the rule. In light of the expansion of the Commission's jurisdiction to acts and practices "in or affecting commerce" as "commerce" is defined in the Federal Trade Commission Act, would it be useful and appropriate to include provisions directly relating to the performance of warranty repairs, service, and set ups by mobile home dealers and other third parties in the proposed rule? If so, what provisions would serve to best assure the regular, expeditious and capable performance of warranty repairs and mobile home set ups by dealers and other third parties?

In addition to the above questions, the Commission desires, for each of the individual requirements contained in the proposed rule, comments on:

1. Any benefits which flow from any acts or practices which would be proscribed by the proposed rule;
2. Any detrimental effects which will result from the imposition of any requirement of the proposed rule; and
3. The economic effect of the proposed rule on consumers.

The Commission wishes to know whether consumer injury associated with practices restricted by the rule or with the

failure to utilize practices required by the rule, may be eliminated without eliminating the practices entirely, or without utilizing the practices required by the rule. That is, are there alternative and more desirable ways of attaining the results that the proposed rule seeks to achieve?

#### INVITATION TO PROPOSE ISSUES OF SPECIFIC FACT FOR CONSIDERATION IN PUBLIC HEARINGS

All interested persons are hereby given notice of opportunity to propose any disputed issues of specific fact, in contrast to legislative facts, which are material and necessary to resolve. The Commission, or its duly authorized presiding official, shall, after reviewing submissions hereunder, identify any such issues in a notice which will be published in the *FEDERAL REGISTER*. Such issues

shall be considered in accordance with section 18(c) of the Federal Trade Commission Act as amended by Public Law 93-637, and rules promulgated thereunder. Proposals shall be accepted until July 29, 1975, by the Special Assistant Director for Rulemaking, Federal Trade Commission, Washington, D.C. 20580. A proposal should be identified as a "Proposal Identifying Issues of Specific Fact—Mobile Home Sales and Service," and furnished, when feasible and not burdensome, in five copies. The times and places of public hearings will be set forth in a notice which will be published in the *FEDERAL REGISTER*.

#### INVITATION TO COMMENT ON THE PROPOSED RULE

All interested persons are hereby notified that they may also submit to the Special Assistant Director for Rulemak-

ing, Federal Trade Commission, Washington, D.C. 20580, data, views or arguments on any issue of fact, law or policy which may have some bearing upon the proposed rule. Written comments, other than proposals identifying issues of specific fact, will be accepted until ten days before commencement of public hearings, but at least until July 29, 1975. To assure prompt consideration of a comment, it should be identified as a "Mobile Home Comment" and furnished, when feasible and not burdensome, in five copies.

Issued: May 29, 1975.

By direction of the Commission.

[SEAL] CHARLES A. TOBIN,  
Secretary.

[FR Doc.75-13681 Filed 5-28-75; 8:45 am]

## notices

This section of the *FEDERAL REGISTER* contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

### DEPARTMENT OF STATE

[CM-5/56]

#### SHIPPING COORDINATING COMMITTEE— SUBCOMMITTEE ON SAFETY OF LIFE AT SEA

##### Meeting

The working group on subdivision, stability and load lines of the Subcommittee on Safety of Life at Sea (SOLAS) will hold an open meeting on Tuesday, June 24, 1975, at 9:30 a.m., in Room 7234 of the Department of Transportation, 400 7th Street, SW., Washington, D.C.

The meeting will consider:

- Evaluation of Equivalent Regulations for Subdivision and Stability of Passenger Ships;
- Intact Stability of Offshore Supply Vessels;
- Subdivision and Stability of Mobile Offshore Units;
- Improvement of Regulation 27 of the 1966 Load Line Convention.

Requests for further information on the meeting should be directed to Mr. E. H. Middleton, Chairman of the working group on subdivision, stability and load lines, United States Coast Guard, 400 7th Street, SW., Washington, D.C. 20590. He may be reached by telephone on (area code 202) 426-2170.

Members of the public may submit written comments to the Chairman prior to June 18. The Chairman will, as time permits, entertain oral comments from members of the public attending the meeting.

RICHARD K. BANK,  
Director,  
Shipping Coordinating Committee.

MAY 19, 1975.

[FR Doc.75-13874 Filed 5-28-75; 8:45 am]

### DEPARTMENT OF DEFENSE

#### Department of the Navy

#### PROFESSIONAL EDUCATION ADVISORY COMMITTEE, U.S. MARINE CORPS

##### Meeting

Notice is hereby given, pursuant to the Federal Advisory Committee Act (5 U.S.C. App. I), that the Professional Education Advisory Committee, U.S. Marine Corps, will hold an open meeting on June 19 and 20, 1975, in room 120, Breckinridge Hall, Marine Corps Development and Education Command, Quantico, Virginia. The meeting will convene at 8 a.m., Thursday, June 19 and adjourn at 4:30 p.m., June 20. Limited

seating is available. The agenda will include recommendations concerning ways that the schools within the Education Center can ensure that their programs of instruction best prepare students to meet the professional requirements of their assignments subsequent to graduation, recommendations concerning the optional lengths of schools within the Education Center, and discussion of the proposed Education Center Adjunct Facility.

Any person desiring information about the Professional Education Advisory Committee, U.S. Marine Corps, may write to the Director, Education Center, Marine Corps Development and Education Command, Quantico, Virginia 22134.

Dated: May 22, 1975.

WILLIAM O. MILLER,  
Rear Admiral, JAGC, U.S. Navy,  
Deputy Judge Advocate General.

#### Office of the Secretary

#### DEFENSE SCIENCE BOARD TASK FORCE ON SURFACE NAVAL WARFARE

##### Advisory Committee Meeting

The Defense Science Board Task Force on Surface Naval Warfare will meet in closed session on 26-27 June 1975 at the Pentagon, Washington, D.C. The mission of the Defense Science Board is to advise the Secretary of Defense and the Director of Defense Research and Engineering on overall research and engineering and to provide long range guidance in these areas to the Department of Defense.

The Task Force will undertake a review of the adequacy and directions of U.S. Navy programs in surface offensive operations in the face of continuing increases in Soviet capabilities in naval weapons, command and control, and out-of-area operations. The Task Force will concentrate first on U.S. programs in tactical surface surveillance, targeting, command and control, and weaponry for surface engagement to help assure that our R&D investments yield the greatest improvement in our total force capabilities, when deployed in quantities we can afford. Classified details of U.S. and Soviet systems will be reviewed.

In accordance with section 10(d) of Appendix I, Title 5, United States Code, it has been determined that this Task Force meeting concerns matters listed in section 552(b) of Title 5 of the United States Code, specifically subparagraph

(1) thereof, and that accordingly this meeting will be closed to the public.

MAURICE W. ROCHE,  
Director, Correspondence and  
Directives, OASD (Comptroller).

MAY 22, 1975.

### DEPARTMENT OF THE INTERIOR

#### Bureau of Land Management

[NM 25670]

#### NEW MEXICO

##### Application

MAY 20, 1975.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), El Paso Natural Gas Company has applied for two 4½ inch natural gas pipeline rights-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 21 S., R. 26 E.  
Sec. 3, lot 3.  
T. 20 S., R. 27 E.  
Sec. 28, SW¼SE¼;  
Sec. 33, W¼E½.

These pipelines will convey natural gas across 1.34 miles of national resource lands in Eddy County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, PO Box 1397, Roswell, NM 88201.

FRED E. PADILLA,  
Chief, Branch of  
Lands and Minerals Operations.

**Introduction.** The Southern California Continental Borderland area contains a large and diverse fauna of marine mammals and the only major breeding sites for marine birds between San Francisco and the Mexican border. The possibility of future oil exploration and extraction in such a biologically important and sensitive area demands that baseline studies be made to assess the present location, size and health of populations of marine birds and mammals. Such information will permit wise planning for the area's resources so that damage to these attractive and important mammals and birds may be minimized and the effects of any oil-related accidents may be adequately documented.

**Presence of marine mammals and birds in the continental borderland.** In southern California, the Channel Islands provide the only major breeding areas for seabirds such as Western Gulls, Double-crested and Brandt's Cormorants, Xantus Murrelets and Brown Pelicans between San Francisco and the Mexican border. Since many of the seabirds breeding on the Channel Islands are already suffering from reduced reproductive success (in some cases due to chlorinated hydrocarbon pollution; see Risebrough et al., 1971; Gress et al., 1973), all efforts should be made to protect these birds from further harm.

**Vulnerability of organisms to oil.** Vulnerability to spilled oil or oil extraction procedures will vary from one organism to the next, depending upon behavior, mode of insulation and the seasonal timing of an oil spill. During the life cycle of many marine mammals there will be periods when exposure to floating oil or oiled beaches will be of particularly great potential danger.

One can only guess at the effects of deep-water offshore drilling and oil handling with its attendant ship activity upon most marine mammal populations. Certainly forms which reproduce on shore in highly restricted breeding grounds such as seals, sea elephants and sea lions are highly vulnerable. The sea otter, which relies upon fluffy clean fur for survival, is supremely vulnerable.

Seabirds are more vulnerable to oil at sea than almost any other group of organisms other than possibly those in the littoral zone. In reports of the biological effects of oil spilled in the Hamilton Trader, Torrey Canyon, and Santa Barbara accidents, seabirds have been shown to suffer significant losses (Spoooner 1967, Beer 1968, Straughan 1971, Connell 1971, Clark 1973, Nelson-Smith 1973). This mortality results both from the direct effect of heavy oiling which may cause death from reduced insulation and buoyancy (Nelson-Smith 1973), and from the killing of eggs by transfer of oil from the feathers of lightly oiled incubating adults to the egg surface (references cited in Nelson-Smith 1973).

Oil spills may also prevent seabirds from foraging or may reduce the amount of food available. Reduction in food supplies may also cause the birds to mobilize fat reserves rapidly, possibly releasing lethal quantities of chlorinated hydrocarbon pollutants stored in the fat (Nelson-Smith 1973).

#### THE BASELINE STUDY PROBLEMS

Many of the problems or questions that present themselves are common to the three groups of animals being considered; namely, the seabirds, the cetaceans and the pinnipeds. In the broadest terms we must ask what animals occupy this study area, how many are there, what species are they and, in general, construct a demographic description for the Southern California Bight. In addition, we must concern ourselves with their migratory habits, feeding habits and locales in addition to the reproductive cycles and success of each species.

Questions that also need answering but which will not be approached during this phase concern long-term effects of chronic exposure to modest amounts of oil. Such studies must include reproductive biology, alterations within the food web, breeding success, changes in breeding sites and gross modification of behavior due to avoidance of man's activities or the by-products of such activities.

**Study Area.** The area to be surveyed includes the region between Point Conception in the north and the United States-Mexico International border to the south. The western edge of the study area will extend to approximately 120°40' west longitude in the northern sectors of the study area and will veer southeastward at approximately 33°45' north latitude along a line falling westward of the Tanner and Cortes banks to approximately 120° west longitude and 32°10' north latitude. Within this area all islands and major rocks or islets will be surveyed for nesting or roosting seabirds and breeding or hauling grounds for pinnipeds.

In order to assess the numbers, distribution and activities of marine mammals and birds within the study area, a coordinated program of aerial and shipboard censusing is required. Initially, several coincident aerial and surface censuses over designated routes will permit cross-calibration (ground truth) of the two primary sampling methods.

**Studies of local movements and seasonal migration routes.** In order to determine local movements, population mixing, or seasonal migration routes in many cases it is necessary to study marked individuals. In this way movements of individuals can be traced and it can be determined with certainty whether members of a population are moving about within the study area. Without such individual marking, it cannot be determined that an individual has moved or that two separate individuals have been sighted.

**Marine mammal tracking.** Cetacea and Pinnipeds will be marked by three methods from shipboard:

- (1) Radio tagging and release of selected species.
- (2) Spaghetti tagging on a target of opportunity basis.
- (3) Cryobranding of captured animals as a possible means of resighting from low flying aircraft.

**Seabird tracking.** We propose to approach seabird tracking in two ways. First a number of adult and immature birds will be color marked at selected breeding colonies using commercially available dyes (Hunt, 1972). Marks will be highly visible and relatively

permanent. Observations of marked birds, which will be conducted in the course of regular ship and aerial censusing schemes described in the preceding section, will yield gross information on large numbers of birds and will show where they concentrate and what their interactions are with other species. Land-based observers will also endeavor to locate marked individuals as they forage close to the breeding islands.

Second, in an effort to provide detailed information about movements of individual breeding birds, we will radio tag and track small numbers of adults of various species in and around the breeding colonies. This is a relatively low-cost technique that will provide detail of the sort that is not usually accessible through the use of visual tags and stationary or shipboard observers due to rapid, long-distance movements of marked subjects. Radio-tagged individuals can be followed over relatively large distances with a minimal investment of ship and observer time. The location of telemetry subjects will be evaluated by triangulation using one stationary and one shipboard receiver. All necessary telemetry gear is available commercially at present.

**Beached animal surveys.** Selected mainland beaches in Ventura, Los Angeles and Orange Counties in addition to beaches on Santa Cruz and other Channel Islands will be walked on a monthly basis to check for carcasses of marine birds or mammals which have washed ashore. All carcasses will be photographed, and when possible identified to species and cause of death. When marine mammals are found beached, appropriate experts will be notified so that samples of parasites present may be collected.

**Parasites and food samples.** Whenever marine mammals or birds are handled, the collection of food samples and parasites from their stomachs will be attempted. These samples will be identified in the field or preserved for later study.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), U.S. Fish and Wildlife Service, Post Office Box 9183, Washington, D.C. 20038. All relevant comments received on or before June 30, 1975, will be considered.

Dated: May 21, 1975.

C. R. BAVIN,  
Chief, Division of Law Enforcement,  
U.S. Fish and Wildlife Service.

#### PERMIT APPLICATION

The following information is provided in compliance with 50 CFR 13.12 (b):

(1-3) Applicant: Name: National Park Service, Death Valley National Monument. Address: National Park Service, Death Valley National Monument, Death Valley, California 92328. Telephone: 714-786-2331.

Applicant is a field office of the National Park Service, U.S. Department of the Interior, charged with the management and protection of federally owned lands and resources within Death Valley National Monument, California and Nevada.

(4) Location: Devil's Hole, Nevada. (SW 1/4, Section 36, T. 17 S., R. 50 E., Mount Diablo Meridian.) Within a 40 acre detached section of Death Valley National Monument lies a spring-fed pool with surface area of approximately 10 x 40 feet. Herein exists the sole endemic naturally existing population of Devil's Hole pupfish.

(5) Type of permit: Application is being made for an Endangered Species Permit for habitat management and research purposes. The requirement for such a permit is stated

in section 9(a) and is required to implement actions necessary for the conservation of endangered species as stated in section 7 of Pub. L. 93-205, the Endangered Species Act of 1973. The law prohibits the "taking" of any endangered species within the United States, where "take" means to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or attempt to engage in any such conduct. (Pub. L. 93-205, section 3(14)).

Application is made to lawfully permit habitat management and research activities by members of State and Federal agencies and institutional research personnel for projects as follows:

a. Research of fish population at least monthly and gathering of environmental data such as food production rates, water temperatures, water chemistry, and dissolved oxygen content. This work is to be performed by or under direct supervision of Dr. James E. Deacon, University of Nevada, Las Vegas. Work performed under contract with the National Park Service. Research on fish population and gathering of environmental data by Nevada Department of Fish and Game.

b. Hydrologic monitoring of water levels at Devil's Hole, including operation and maintenance of water level recording instruments and water sampling. Work performed by personnel of the U.S. Geological Survey.

c. Continuing litigation between the Federal Government and an owner of adjacent private lands over utilization of ground waters may require additional surveillance and management activities by the U.S. District Court appointed special master.

d. Entry or disturbance of Devil's Hole water by scuba divers and surface tenders, and observers participating in monthly population censuses as described in (a) above. Personnel involved are employees of the National Park Service, U.S. Fish and Wildlife Service, and Nevada Department of Fish and Game.

e. Unavoidable harassment of fish population for the purposes of habitat restoration, monitoring of population, inspections, and maintenance by personnel of the National Park Service, U.S. Fish and Wildlife Service, Nevada Department of Fish and Game, University of Nevada (Dr. James E. Deacon), and University of Michigan (Dr. Robert R. Miller, NPS Collaborator).

f. Installation, adjustments or removal, maintenance, repair, and operation of temporary prophylactic devices (such as floating feeding/spawning shelf, and electrical lighting fixtures) deemed necessary for species preservation.

g. Habitat disturbance of a corrective nature (such as removal of flash flood debris from natural rock feeding/spawning shelf) as required to provide optimum space for survival of the species.

h. Entry to habitat area and unavoidable harassment by any experts or consultants invited or contracted by State and Federal agencies named above.

i. Projects outlined above do not include collecting of fish and the population will be subjected to as little disturbance as possible.

(6) Not applicable.

(7) Certification: I hereby certify that I have read and am familiar with the regulations contained in Title 50, Part 13, of the Code of Federal Regulations and the other applicable parts in Subchapter B of Chapter I of Title 50, and I further certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement hereon may subject me to the criminal penalties of 18 U.S.C. 1001.

(8) Desired effective date of permit: July 1, 1975.

(9) Date: April 3, 1975.

(10) James B. Thompson, Superintendent, Death Valley National Monument.

(11) Additional information as requested in Form 50 CFR 17, § 17.23, "zoological, educational, scientific, or propagation permits."

(1) Description of wildlife to be covered in the permit. Scientific name: *Cyprinodon diabolis* (Wales). Common names: Devil's Hole pupfish, Devil pupfish.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street, NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), U.S. Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036,

All relevant comments received on or before June 30, 1975 will be considered.

Dated: May 21, 1975.

C. R. BAVIN,  
Chief, Division of Law Enforcement,  
U.S. Fish and Wildlife Service.

## DEPARTMENT OF AGRICULTURE

### Economic Research Service

#### NATIONAL COTTON MARKETING STUDY COMMITTEE

##### Public Meeting

Pursuant to the provisions of section 10(a)(2) of Public Law 92-463, notice is hereby given of a meeting of the National Cotton Marketing Study Committee established by Secretary's Memo 1852. The Committee will meet at 9 a.m. on Tuesday, July 8, 1975, and at 9 a.m. on Wednesday, July 9, 1975, in Room 218-A of the Administration Building of the U.S. Department of Agriculture, Washington, D.C.

The meeting will be open to the public and a brief period will be set aside for public comments and questions. The agenda of the Committee meeting includes a review of final reports from the eight Study Groups, and development of recommendations for the Committee report to the Secretary of Agriculture.

The names of the appointees comprising the Committee, agenda and other information pertaining to the meeting may be obtained from Mr. Irving Starbird, Executive Secretary, Room 212, 500 12th Street, SW., Washington, D.C. 20250 (202-447-8400).

AMOS D. JONES,

Chairman.

Economic Research Service.

### Forest Service

#### BIG PINEY PLANNING UNIT

##### Environmental Statement; Availability of Draft

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Big Piney Planning Unit, Bridger-Teton National Forest, Wyoming. The Forest Service report number is USDA-FS-DES (Adm) R4-75-21.

The environmental statement identifies and evaluates the probable effects of the land use plan for the Big Piney Planning Unit on the Bridger-Teton National Forest, Wyoming. The purpose of the plan is to allocate National Forest lands within the unit to specific resource uses and activities; establish management objectives; document management direction, management decisions, and necessary coordination between resource uses

and activities; and provide for the protection, use and development of the various resources within the planning unit. The plan provides for minimization of adverse effects and maximization of desirable effects. Significant areas will remain undeveloped with options for future management remaining open.

This draft environmental statement was transmitted to CEQ on May 21, 1975.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service  
South Agriculture Bldg., Room 3230  
12th St. and Independence Ave., SW  
Washington, D.C. 20250

Regional Planning Office  
USDA, Forest Service  
Federal Building, Room 4403  
324-25th Street  
Ogden, Utah 84401

Forest Supervisor  
Bridger-Teton National Forest  
Forest Service Building  
Jackson, Wyoming 83001

District Forest Ranger  
Big Piney Ranger District  
P.O. Box 218  
Big Piney, Wyoming 83113

A limited number of single copies are available upon request from Acting Forest Supervisor Ernest C. Hirsch, Bridger-Teton National Forest, Forest Service Building, Jackson, Wyoming 83001.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ Guidelines.

Comments are invited from the public, and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Acting Forest Supervisor Ernest C. Hirsch, Bridger-Teton National Forest, Forest Service Building, Jackson, Wyoming 83001. Comments must be received by July 20, 1975, in order to be considered in the preparation of the final environmental statement.

Dated: May 21, 1975.

P. M. REES,

Director, Regional Planning  
and Budget.

### Soil Conservation Service

#### BRYANT SWAMP WATERSHED PROJECT, N.C.

##### Availability of Final Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Envi-

ronmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a final environmental impact statement (EIS) for the Bryant Swamp Watershed Project, Bladen County, North Carolina, USDA-SCS-EIS-WS-(ADM)-73-19-(F) NC.

The EIS concerns a plan for watershed protection, flood prevention and drainage. The planned works of improvement provide for conservation land treatment, six grade control structures, and 22.9 miles of channel work. The channel work will involve a floodway on 1.5 miles of existing channel, enlargement of 16.2 miles of existing channel, and construction of 5.2 miles of new channel to provide improved water management in a flatland watershed that is 91% agricultural cropland, grassland and forestland. Of the 22.9 miles of work proposed, 15.3 miles will involve channels with ephemeral flow, 1.5 miles of intermittent flow, and 6.1 miles of perennial flow.

The final EIS has been filed with the Council on Environmental Quality.

Bryant Swamp Watershed Project, North Carolina

Notice of Availability of  
Final Environmental Impact Statement

A limited supply is available at the following location to fill single copy requests:

Soil Conservation Service, USDA,  
P.O. Box 27307  
Raleigh, North Carolina 27611

Dated: May 21, 1975.

### WALKER CREEK WATER-BASED RECREATION RESOURCE CONSERVATION & DEVELOPMENT (RC&D) MEASURE

#### Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.-8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Walker Creek Measure, Wood County, West Virginia.

The environmental assessment of this federal action indicates that the measure will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the measure. As a result of these findings, Mr. James B. Bennett, State Conservationist, Soil

Conservation Service, USDA, Federal Building, High Street, West Virginia 26505, has determined that the preparation and review of an environmental impact statement is not needed for this measure.

The measure concerns a plan for watershed protection and water-based recreation as a facet of Mountwood Park, a 2,478 acre facility sponsored by the Wood County Park and Recreation Commission. The planned works of improvement include conservation land treatment, a single-purpose dam which will create a 48 surface-acre lake, and water-based recreation facilities.

The negative declaration is available for single copy requests and the environmental assessment file is available for inspection during regular working hours at the following location: Soil Conservation Service, USDA, Federal Building, High Street, Morgantown, West Virginia 26505.

No administrative action on implementation of the proposal will be taken until 15 days after the date of this notice.

Dated: May 20, 1975.

(Catalog of Federal Domestic Assistance Program No. 10.901, National Archives Reference Services.)

ROBERT E. WILLIAMS,  
Acting Deputy Administrator  
for Field Services, Soil Conservation Service.

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### Office of Education

#### TEACHER CORPS PROJECTS

##### Notice of Final Criteria for Selection of Applications

On December 16, 1974, there was published in the *FEDERAL REGISTER* at 39 FR 43566, a notice of proposed rule making which set forth criteria for selection of applicants for Tenth Cycle Teacher Corps projects under Part B-1 of the Education Professions Development Act of 1965, as amended (79 Stat. 1255-1258 as amended, 20 U.S.C. 1101-1107a). The General Provisions Regulations (45 CFR Part 100a), published in the *FEDERAL REGISTER* on November 6, 1973, at 38 FR 30654 and effective December 6, 1973, are also applicable to these grants.

Interested persons were given thirty days after December 16, 1974 to submit comments, suggestions or objections to the proposed criteria. Four comments were received relating to the number of teacher interns allowable to each project. Three comments strongly suggested that four to ten interns per project were too few and that emphasis should remain on preservice training. The fourth comment suggested that there was still too much emphasis on interns even though new legislation shifted emphasis to retraining of experienced teachers. No action was taken regarding the suggestions submitted. The basic purpose of the new amendments to the Teacher Corps program contained in Pub. L. 93-380 is to shift the

focus from the recruitment and training of large numbers of new teachers for poverty areas to helping local schools reform and improve the education offered poor children by retraining present staff. The shift in focus, however, does not mean the elimination of interns. The Teacher Corps will continue to attract and train a limited number of interns. By so doing, the very format that has made Teacher Corps a success, the Teacher Corps team, can now be put to the wider use of helping local schools improve the quality of education throughout entire schools by including in the program not only new teacher interns but also experienced teachers within the school.

The criteria are set forth below.

**Effective date.** The Notice of Proposed Funding Criteria was transmitted to Congress on December 10, 1974 pursuant to section 431(d) of the General Education Provisions Act (20 U.S.C. 1232(d)). The time period set forth therein for congressional action has expired without such action having been taken. Therefore, these criteria shall become effective May 29, 1975.

(Catalog of Federal Domestic Assistance Program No. 13.489; Teacher Corps)

Dated: May 8, 1975.

T. H. BELL,  
U.S. Commissioner of Education.

Approved: May 22, 1975.

CASPAR W. WEINBERGER,  
Secretary of Health,  
Education, and Welfare.

#### I. CRITERIA FOR THE SELECTION OF TEACHER CORPS PROJECT APPLICATIONS

In addition to the criteria set forth in 45 CFR 100a.26(b), the following criteria will also be used as a basis for approving applications for Teacher Corps projects and in determining the amount of the award under approved applications:

(A) **Instructional program.** The extent to which it is shown that the proposed instructional program (i) provides training options including training designed to enable Teacher Corps interns, teacher aides, and experienced teachers to provide individualized instruction for pupils in classrooms at the local school level, (ii) provides adequate means for identifying and evaluating teacher interns', teacher aides' and experienced teachers' competencies and (iii) makes provision for the training necessary to prepare them to serve in schools in areas having concentrations of low income families (as determined in accordance with section 103 of Title I of the Elementary and Secondary Education Act of 1965 as amended), including training necessary to identify children with learning and behavioral problems, diagnose their special needs, and prescribe learning activities to meet such needs of these children in the regular classrooms of such schools. (See paragraph F.)

(20 U.S.C. 1101, 1103)

(B) *Community based education.* The extent to which the application (i) delineates specific opportunities for consultation with and involvement of parents of children to be served by the proposed project for mutual, deliberate, collaborative decision making in the planning, development, implementation, and evaluation of such project; (ii) includes evidence that such participation has been encouraged and has in fact occurred in the development of the application; (iii) provides for developing the capabilities of such parents, residents in the community, and secondary education and college students to serve as part-time tutors or full-time instructional assistants in the project (including, where appropriate, provision for university courses) and (iv) sets forth policies and procedures for adequate dissemination of program plans and evaluation to such parents and the public.

(20 U.S.C. 1101, 1103, 1231d)

(C) *Institutional adoption.* The extent to which the proposed project is designed in such a manner as to facilitate adaptation or adoption of successful elements of the project by the applicant institution or agency into its overall instructional program.

(20 U.S.C. 1101, 1103)

(D) *Needs analysis.* Whether the application specifies that the retraining of experienced teachers and teacher aides, along with the training of teacher interns, will be based on an analysis of the critical nature of the need for special skills and/or personnel to meet the special learning needs of children from low income families, including improving opportunities for children with learning and behavioral problems.

(20 U.S.C. 1101, 1103)

(E) *Multi-cultural consideration.* The extent to which the application indicates special provisions for meeting the diverse cultures represented by the proposed project's target populations, both in terms of the training program for experienced teachers, teacher interns, teacher aides, and community volunteers, and of the specific needs of the communities and students to be served by the Teacher Corps project. In proposals for programs in areas where the target population has limited cultural diversity, there must be an indication of the extent to which teacher interns, experienced teachers and teacher aides are prepared to understand and to use multi-cultural concepts in their work with children.

(F) *Diagnostic-prescriptive teaching.* The extent to which the application indicates special provisions for training in the techniques of diagnostic-prescriptive teaching, including skills in the identification of special learning problems, skills in diagnosing particular learning needs, and skills in prescribing programs to meet such needs. The application must show how these skills can be applied by participants to improve educational op-

portunities for all children to be served by the project, but especially for improving the educational opportunities in the regular classroom for children with learning and behavioral problems. Development of diagnostic-prescriptive teaching skills must be an ongoing, sequentially organized part of the program design, regardless of the major teaching area, subject, or grade levels with which the Teacher Corps application is concerned.

(20 U.S.C. 1101, 1103)

(G) *School-staff focus.* The extent to which the proposed retraining of experienced teachers and teacher aides will be available to the entire educational staff of each individual school involved in the project.

(20 U.S.C. 1101)

(H) *Field based instruction.* The extent to which instruction for experienced teachers, teacher aides, teacher interns, or community volunteers will be delivered at or near their teaching stations, in those instances when instruction will be enhanced by the close proximity to such teaching stations, rather than on the campus of the participating college or university.

(20 U.S.C. 1101, 1103)

(I) *Collaborative decision-making.* The extent to which the application indicates wide participation in collaborative decision-making by a school-community council for each participating school. Activities of the council must be planned so as to assure active and continuing involvement by, and responsiveness to the needs and desires of, as many as possible of the following groups or institutions: (i) The respective Teacher Corps role groups (including teacher interns, team leaders, project management staff, and coordinators); (ii) community, institution(s) of higher education, and local education agency(ies) involved in the project; (iii) professional associations of teachers and/or other educators; (iv) the state education department (teacher education certification offices); (v) officials of other federally supported education projects; (vi) representatives of social service (public and private) agencies assigned responsibilities within the communities served by the Teacher Corps project; (vii) parent, community, social, welfare, or educational organizations; and (viii) other organizations which may impinge upon the success of the project or the Teacher Corps role groups described in (i) above.

(20 U.S.C. 1101, 1103)

(J) *Teaching teams.* The extent to which the application sets forth a teaching team organization which will be able to operate effectively in carrying out the purposes of the project. A teaching team is defined as not less than 4 nor more than 10 teacher interns led by an experienced teacher. Each project must contain 1 or 2 teams, but shall not exceed a maximum of 10 teacher interns for that project.)

(20 U.S.C. 1103)

(K) *Special characteristics.* Within the context of the proposed strategy, the extent to which the application indicates special characteristics of the project which will make it adaptable to the specific conditions of the sites and communities served by the project (such as population density, housing patterns, etc.).

(20 U.S.C. 1101, 1103)

(L) *Equitable geographical distribution.* The extent to which approval of the project will further the equitable geographical distribution of projects, including proportional representation among urban and rural areas.

(20 U.S.C. 1101, 1103)

(M) *Management and evaluation plans.* The extent to which the application sets forth specific plans for program organization, management, and evaluation of both process and outcome. Specific data collection procedures must be described, based on the careful specification of program goals, performance criteria, and regular program review, so as to assure a record of the project's demonstration aspects and its achievements in terms of Teacher Corps purposes.

(20 U.S.C. 1101, 1103)

## II. DEMONSTRATION REQUIREMENTS

Each application for a Teacher Corps project must combine (1) the meeting of local educational needs and concerns with (2) a demonstration project for the training of teacher interns and the retraining of experienced teachers and teacher aides. The demonstration project must adopt one of the following broadly defined strategies:

(A) *The Training complex.* A training complex is an organization designed to provide preservice and inservice education for potential and practicing educational personnel at a site located within or near the schools where Teacher Corps interns are serving and where retraining of experienced teachers and teacher aides is being initiated. Applications may show wide diversity in the features of a training complex, but it is essential that the application describe plans for (i) the direct involvement of training personnel from the institution of higher education involved in the Teacher Corps project, Teacher Corps interns, experienced teachers, teacher aides, and community volunteers in decision-making; (ii) the assuring that instructional experience for teacher interns, experienced teachers and teacher aides will be administered through the training complex, and (iii) a wide use of community and local educational agency resources for the development and delivery of both training and retraining.

(20 U.S.C. 1101, 1103)

(B) *Competency-based teacher education.* Competency-based teacher education is marked by the specification of objectives for learning based on observation of teacher skills and behaviors which positively influence children's learning.

Instructional programs for experienced teachers, teacher interns, teacher aides, and community volunteers are delivered through sequential programs based on various levels of professional activities and competencies. Applications must describe how the proposed project will (i) demonstrate objective-based programs of training and retraining for educational staff which are designed to improve learning opportunities for low-income children through careful analyses of training and retraining needs; (ii) develop systematic management processes so that persons in training or retraining can evaluate their own learning needs and achievements; (iii) provide alternative modes of instruction based on the achievement of pre-determined competencies for teachers or other educational personnel in relation to the improvement of pupil learning; and (iv) direct the use of university and other program resources towards meeting the needs of teacher interns, experienced teachers, teacher aides, and community volunteers within the school districts served by the project.

(20 U.S.C. 1101, 1103)

(C) *Training for implementing alternative school designs.* School districts which have planned a major organizational or structural educational innovation may choose to demonstrate, through a Teacher Corps project, a program of training teacher interns and retraining experienced teachers and teacher aides which helps meet the special needs for implementing such an innovation. Applications must (i) contain assurances that the school district is already committed to this innovation and that the institution of higher education involved in the Teacher Corps project will be able to demonstrate appropriate training and retraining activities; (ii) contain evidence that other aspects of the innovation have been planned and provided for separately from those supported under the Teacher Corps program and described in the application (which is limited to training and retraining activities); (iii) indicate directions for the improvement of training of Teachers Corps interns and retraining of experienced teachers and teacher aides through relating these activities to institutional change; and (iv) demonstrate a viable strategy for improving the education of low income children by improving both the skills of educational personnel and the conditions under which education takes place.

(20 U.S.C. 1101, 1103)

(D) *Interdisciplinary training approaches.* This strategy provides for training of teacher interns and the retraining of experienced teachers and teacher aides through the demonstration of programs which emerge from the participation in teacher education by representatives from various academic disciplines (such as the liberal and fine arts, physical and natural sciences, social sciences, and humanities), and which are aimed at increasing the educational op-

portunities of low income children by reorganizing the base of knowledge and experience which the educational staff can use as a basis for planning and managing learning activities. Applications must emphasize: (i) The collaborative planning by representatives of diverse disciplines for developing programs of training and retraining geared specifically to populations of learners from low income families; (ii) the relationship of multidisciplinary training and retraining programs to the specific cultural and life styles of the pupils to be served so as to reinforce extant community values; (iii) the development of professional educational staffs which are flexible in their organization and use of knowledge in relation to growth and development of Children as members of specific cultural and social groups; and (iv) the improvement of interrelationships among educational agencies and institutions (such as universities and local school districts) and other community institutions.

(20 U.S.C. 1101, 1103)

(E) *Training for the systematic adaptation of research findings.* There is presently available, in immediately usable form, a substantial body of results from research concerning learning and educational processes. Such research results can be incorporated into the design of programs for the training of teacher interns and the retraining of experienced teachers and teacher aides. This research can be drawn upon to identify training objectives, select approaches to training and evaluation, create instructional materials and activities or adapt existing materials to new situations, and organize training or retraining programs. This research evidence represents a vast potential resource which, as yet, has not been organized into systemic or overall program demonstrations. Applications selecting this strategy must emphasize (i) the systemic organization of validated research findings into demonstration programs of teacher intern training and the retraining of experienced teachers and teacher aides; (ii) the utilization of data based solutions to persistent educational problems addressed by the application; (iii) the relating of research activities and findings to the everyday life and activities of practicing educational personnel; and (iv) the broad-scale, public demonstration of programs based on research findings and involving collaboration among school districts and educational groups.

Food and Drug Administration  
[FDA-225-75-4050]

## ARTX TELECOMMUNICATION EQUIPMENT

Memorandum of Understanding With the Connecticut Department of Consumer Protection

Pursuant to the notice published in the FEDERAL REGISTER of October 3, 1974

(39 FR 35697) stating that future memoranda of understanding between the Food and Drug Administration and others would be published in the FEDERAL REGISTER, the Commissioner of Food and Drugs issues the following notice:

The Food and Drug Administration executed a Memorandum of Understanding with the Connecticut Department of Consumer Protection on March 25, 1975. The purpose of the memorandum is to establish the procedures and guidelines for the operation, maintenance, and protection of FDA-rented ARTX Telecommunication Equipment. It reads as follows:

MEMORANDUM OF UNDERSTANDING BETWEEN THE CONNECTICUT DEPARTMENT OF CONSUMER PROTECTION AND THE FOOD AND DRUG ADMINISTRATION

I. *Purpose.* To establish the procedures and guidelines for the operation, maintenance, and protection of FDA-rented ARTX Telecommunication Equipment located in the office of the Food, Meat and Poultry Division, Room 173, Department of Consumer Protection, State Office Building, Hartford, Connecticut.

II. *Background.* The FDA, Assistant Secretary for Health, Department of HEW, and the General Services Administration have approved a program to install full telecommunication transmit and receive terminals in a number of prime state food and drug agencies. Although terminals will be placed in a number of prime food and drug regulatory agencies, there are a number of other agencies with food and drug responsibilities in each state, where no terminal will be installed. Therefore, your agency, being one that received a terminal, must agree to share the terminal with other food and drug agencies in your state to assure that the communication system is accessible to all agencies with food and drug related responsibilities.

In addition to terminal-sharing, it is necessary for our two agencies to assure that proper operation and necessary supporting requirements for the equipment is maintained and proper security is provided for the equipment.

III. *Substance of agreement.* A. The Food and Drug Administration agrees:

1. To arrange for the installation of the equipment in the location designated by your agency.
2. To support financially the cost of initial installation of the equipment and pay directly to GSA and Western Union the monthly rental cost. After the initial installation, the state will be responsible for relocation installation cost, unless relocation is in conjunction with a major move of the terminal agency to a new location address.
3. To identify for you those units in your state on which terminal-sharing must be accomplished.
4. To require that the terminal location agency (your agency) submit to FDA a terminal-sharing plan to be developed by you and other sharing units in your state.
5. To arrange through Western Union for training of terminal operators.
6. To provide operation instruction manual.
7. To withdraw financial support for the terminal if gross misuse of the terminal is practiced after due notice.

B. The State Terminal Agency agrees:

1. To provide suitable physical location for equipment with adequate security protection.
2. To provide and pay for electric power source to operate the terminal. (110 volts)

3. To provide for paper, tape and other material necessary for the operation of the equipment.

4. To share the terminal with other food and drug agencies in the state according to a terminal-sharing plan agreed to by each potential user.

5. To submit to the FDA Regional Office monthly traffic log. (Form to be furnished by FDA)

6. To submit promptly all messages received for addressees other than your agencies. Transmit promptly messages to FDA received from other appropriate agencies.

7. Maintain operator coverage for the terminal between normal working hours of your agency.

8. Notify vendor (Western Union) of any breakdown of the equipment or other needs for maintenance.

9. Notify FDA (Regional or Headquarters) of periods that the equipment is out-of-service.

10. That the system will be used only for communication between your state and FDA (Regional, District, or Headquarters Office). It is understood that the equipment is not to be used for communication between state agencies.

IV. *Name and Address of Terminal Agency.* Connecticut Department of Consumer Protection, State Office Building, Hartford, Connecticut 06115.

V. *Liaison Officers.* For Connecticut Dept. of Consumer Protection: R. E. Ledogar, Director, Food/Meat and Poultry Division. Address: State Office Bldg., Hartford, Ct. 06115. Telephone No.: (203) 566-2891.

For FDA: Richard J. Davis, Address: Boston. Telephone No.: (617) 223-5067.

IV. *Period of agreement.* This agreement, when accepted by both parties, will have an effective period of performance three (3) years from date of signature and may be modified by mutual consent by both parties or may be terminated by either upon a thirty (30) day advance written notice to the other.

Approved and accepted for the Connecticut Department of Consumer Protection.

Dated: March 25, 1975.

Mary M. Heslin  
Commissioner.

Approved and accepted for the Food and Drug Administration.

Dated: March 13, 1975.

A. J. Beebe, Jr.  
Reg. Food and Drug Director.

*Effective date.* This memorandum of understanding became effective March 25, 1975.

Dated: May 22, 1975.

#### ARTX TELECOMMUNICATION EQUIPMENT

Memorandum of Understanding With the Missouri Department of Social Services

Pursuant to the notice published in the FEDERAL REGISTER of October 3, 1974 (39 FR 35697), stating that future memoranda of understanding between the Food and Drug Administration and others would be published in the FEDERAL REGISTER, the Commissioner of Food and Drugs issues the following notice:

The Food and Drug Administration executed a Memorandum of Understanding with the Missouri Department of Social Services, Division of Health, on February 21, 1975. The purpose of the memorandum is to establish the procedures and guidelines for the operation, maintenance, and protection of FDA-rented ARTX Telecommunication Equipment. It reads as follows:

MEMORANDUM OF UNDERSTANDING BETWEEN THE MISSOURI DEPARTMENT OF SOCIAL SERVICES DIVISION OF HEALTH AND THE FOOD AND DRUG ADMINISTRATION

I. *Purpose.* To establish the procedures and guidelines for the operation, maintenance, and protection of FDA-rented ARTX Telecommunication Equipment located in the office complex of the Division of Health, Broadway State Office Building, P.O. Box 570, Jefferson City, MO 65101.

II. *Background.* The FDA, Assistant Secretary for Health, Department of HEW, and the General Services Administration have approved a program to install full telecommunication transmit and receive terminals in a number of prime state food and drug agencies. Although terminals will be placed in a number of prime food and drug regulatory agencies, there are a number of other agencies with food and drug responsibilities in each state, where no terminal will be installed. Therefore, your agency, being one that received a terminal, must agree to share the terminal with other food and drug agencies in your state to assure that the communication system is accessible to all agencies with food and drug related responsibilities.

In addition to terminal-sharing, it is necessary for our two agencies to assure that proper operation and necessary supporting requirements for the equipment is maintained and proper security is provided for the equipment.

III. *Substance of agreement.* A. The Food and Drug Administration agrees:

1. To arrange for the installation of the equipment in the location designated by your agency.

2. To support financially the cost of initial installation of the equipment and pay directly to GSA and Western Union the monthly rental cost. After the initial installation, the state will be responsible for relocation installation cost, unless relocation is in conjunction with a major move of the terminal agency to a new location address.

3. To identify for you those units in your state on which terminal-sharing must be accomplished.

4. To require that the terminal location agency (your agency) submit to FDA a terminal-sharing plan to be developed by you and other sharing units in your state.

5. To arrange through Western Union for training of terminal operators.

6. To provide operation instruction manual.

7. To withdraw financial support for the terminal if gross misuse of the terminal is practiced after due notice.

B. The State Terminal Agency agrees:

1. To provide suitable physical location for equipment with adequate security protection.

2. To provide and pay for electric power source to operate the terminal. (110 volts)

3. To provide for paper, tape and other material necessary for the operation of the equipment.

4. To share the terminal with other food and drug agencies in the state according to a terminal-sharing plan agreed to by each potential user.

5. To submit to the FDA Regional Office monthly traffic log. (Form to be furnished by FDA)

6. To submit promptly all messages received for addressees other than your agencies. Transmit promptly messages to FDA received from other appropriate agencies.

7. Maintain operator coverage for the terminal during normal working hours of your agency.

8. Notify vendor (Western Union) of any breakdown of the equipment or other needs for maintenance.

9. Notify FDA (Regional or Headquarters) of periods that the equipment is out-of-service.

10. That the system will be used only for communication between your state and FDA (Regional, District, or Headquarters Office). It is understood that the equipment is not to be used for communication between state agencies.

IV. *Name and address of terminal agency.* Missouri Department of Social Services, Division of Health, Broadway State Office Building, P.O. Box 570, Jefferson City, MO 65101.

V. *Liaison Officers.* For Missouri Dept. of Social Services: Erwin P. Gadd, Director, Bureau of Community Sanitation. Address: Broadway State Office Bldg., P.O. Box 570, Jefferson City, MO 65101. Telephone No.: (314) 751-3791.

For FDA: Dwight F. Ringhausen, Asst. to Dir. for Federal, State, and Industrial Affairs. Address: 1009 Cherry Street, Kansas City, Missouri 64106. Telephone No. (816) 374-3817.

VI. *Period of agreement.* This agreement, when accepted by both parties, will have an effective period of performance three (3) years from date of signature and may be modified by mutual consent by both parties or may be terminated by either party upon a thirty (30) day advance written notice to the other.

Approved and accepted for the Missouri Department of Social Services.

6. To submit promptly all messages received for addressees other than your agencies. Transmit promptly messages to FDA received from other appropriate agencies.

7. Maintain operator coverage for the terminal during normal working hours of your agency.

8. Notify vendor (Western Union) of any breakdown of the equipment or other needs for maintenance.

9. Notify FDA (Regional or Headquarters) of periods that the equipment is out-of-service.

10. That the system will be used only for communication between your state and FDA (Regional, District, or Headquarters Office). It is understood that the equipment is not to be used for communication between state agencies.

IV. *Name and address of terminal agency.* Missouri Department of Social Services, Division of Health, Broadway State Office Building, P.O. Box 570, Jefferson City, MO 65101.

V. *Liaison Officers.* For Missouri Dept. of Social Services: Erwin P. Gadd, Director, Bureau of Community Sanitation. Address: Broadway State Office Bldg., P.O. Box 570, Jefferson City, MO 65101. Telephone No.: (314) 751-3791.

For FDA: Dwight F. Ringhausen, Asst. to Dir. for Federal, State, and Industrial Affairs. Address: 1009 Cherry Street, Kansas City, Missouri 64106. Telephone No. (816) 374-3817.

VI. *Period of agreement.* This agreement, when accepted by both parties, will have an effective period of performance three (3) years from date of signature and may be modified by mutual consent by both parties or may be terminated by either party upon a thirty (30) day advance written notice to the other.

Approved and accepted for the Missouri Department of Social Services.

Dated: February 21, 1975.

JOSEPH B. REICHAUT,  
Deputy Director,  
Division of Health.

Approved and accepted for the Food and Drug Administration.

Dated: February 3, 1975.

LLOYD R. CLAIBORNE,  
Regional Food and Drug Director,  
Region VII.

*Effective date.* This memorandum of understanding became effective February 21, 1975.

Dated: May 22, 1975.

#### ARTX TELECOMMUNICATION EQUIPMENT

Memorandum of Understanding With the Nebraska Department of Agriculture

Pursuant to the notice published in the FEDERAL REGISTER of October 3, 1974 (39 FR 35697), stating that future memoranda of understanding between the Food and Drug Administration and others would be published in the FEDERAL REGISTER, the Commissioner of Food and Drugs issues the following notice:

The Food and Drug Administration executed a Memorandum of Understanding with the Nebraska Department of Agriculture

culture on April 8, 1975. The purpose of the memorandum is to establish the procedures and guidelines for the operation, maintenance, and protection of FDA-rented ARTX Telecommunication Equipment. It reads as follows:

MEMORANDUM OF UNDERSTANDING BETWEEN THE NEBRASKA DEPARTMENT OF AGRICULTURE AND THE FOOD AND DRUG ADMINISTRATION

I. *Purpose.* To establish the procedures and guidelines for the operation, maintenance, and protection of FDA-rented ARTX Telecommunication Equipment located in the offices of the Deputy Director, Nebraska Department of Agriculture, 1420 P Street, 3rd Floor, State House Station, Lincoln, Nebraska.

II. *Background.* The FDA, Assistant Secretary for Health, Department of HEW, and the General Services Administration have approved a program to install full telecommunication transmit and receive terminals in a number of prime state food and drug agencies. Although terminals will be placed in a number of prime food and drug regulatory agencies, there are a number of other agencies with food and drug responsibilities in each state, where no terminal will be installed. Therefore, your agency, being one that received a terminal, must agree to share the terminal with other food and drug agencies in your state to assure that the communication system is accessible to all agencies with food and drug related responsibilities.

In addition to terminal-sharing, it is necessary for our two agencies to assure that proper operation and necessary supporting requirements for the equipment is maintained and proper security is provided for the equipment.

III. *Substance of agreement.* A. The Food and Drug Administration agrees:

1. To arrange for the installation of the equipment in the location designated by your agency.

2. To support financially the cost of initial installation of the equipment and pay directly to GSA and Western Union the monthly rental cost. After the initial installation, the state will be responsible for relocation installation cost, unless relocation is in conjunction with a major move of the terminal agency to a new location address.

3. To identify for you those units in your state on which terminal-sharing must be accomplished.

4. To require that the terminal location agency (your agency) submit to FDA a terminal-sharing plan to be developed by you and other sharing units in your state.

5. To arrange through Western Union for training of terminal operators.

6. To provide operation instruction manual.

7. To withdraw financial support for the terminal if gross misuse of the terminal is practiced after due notice.

B. The State Terminal Agency agrees:

1. To provide suitable physical location for equipment with adequate security protection.

2. To provide and pay for electric power source to operate the terminal. (110 volts)

3. To provide for paper, tape and other material necessary for the operation of the equipment.

4. To share the terminal with other food and drug agencies in the state according to a terminal-sharing plan agreed to by each potential user.

5. To submit to the FDA Regional Office monthly traffic log. (Form to be furnished by FDA)

6. To submit promptly all messages received for addressees other than your agencies. Transmit promptly messages to FDA received from other appropriate agencies.

7. Maintain operator coverage for the terminal during normal working hours of your agency.

8. Notify vendor (Western Union) of any breakdown of the equipment or other needs for maintenance.

9. Notify FDA (Regional or Headquarters) of periods that the equipment is out-of-service.

10. That the system will be used only for communication between your state and FDA (Regional, District, or Headquarters Office). It is understood that the equipment is not to be used for communication between state agencies.

IV. *Name and address of terminal agency.* Nebraska Department of Agriculture, P.O. Box 94844, Lincoln, Nebraska 68509.

V. *Liaison Officers.* For Nebraska Department of Agriculture: Roger Sandman, Deputy Director. Address: 1420 P Street, 3rd Floor, Lincoln, Nebraska 68509. Telephone No. (402) 471-2341.

For FDA: Dwight F. Ringhausen, Asst. to the Director for FSIA. Address: 1009 Cherry Street, Kansas City, Missouri 64106. Telephone No. (816) 374-3817.

VI. *Period of agreement.* This agreement, when accepted by both parties, will have an effective period of performance three (3) years from date of signature and may be modified by mutual consent by both parties or may be terminated by either party upon a thirty (30) day advance written notice to the other.

Approved and accepted for the State of Nebraska.

Dated: April 8, 1975.

#### ARTX TELECOMMUNICATION EQUIPMENT

Memorandum of Understanding With the Ohio Department of Agriculture

Pursuant to the notice published in the FEDERAL REGISTER of October 3, 1974 (39 FR 35697), stating that future memoranda of understanding between the Food and Drug Administration and others would be published in the FEDERAL REGISTER, the Commissioner of Food and Drugs issues the following notice:

The Food and Drug Administration executed a Memorandum of Understanding with the Ohio Department of Agriculture on March 26, 1975. The purpose of the memorandum is to establish the procedures and guidelines for the operation, maintenance, and protection

of FDA-rented ARTX Telecommunication Equipment. It reads as follows:

MEMORANDUM OF UNDERSTANDING BETWEEN THE OHIO DEPARTMENT OF AGRICULTURE AND THE FOOD AND DRUG ADMINISTRATION

I. Purpose. To establish the procedures and guidelines for the operation, maintenance, and protection of FDA-rented ARTX Telecommunication Equipment located in the offices of the Division of Foods, Dairies & Drugs, Ohio Department of Agriculture, Route 40, Reynoldsburg, Ohio.

II. Background. The FDA, Assistant Secretary for Health, Department of HEW, and the General Services Administration have approved a program to install full telecommunication transmit and receive terminals in a number of prime state food and drug agencies. Although terminals will be placed in a number of prime food and drug regulatory agencies, there are a number of other agencies with food and drug responsibilities in each state, where no terminal will be installed. Therefore, your agency, being one that received a terminal, must agree to share the terminal with other food and drug agencies in your state to assure that the communication system is accessible to all agencies with food and drug related responsibilities.

In addition to terminal-sharing, it is necessary for our two agencies to assure that proper operation and necessary supporting requirements for the equipment is maintained and proper security is provided for the equipment.

III. Substance of agreement. A. The Food and Drug Administration agrees:

1. To arrange for the installation of the equipment in the location designated by your agency.

2. To support financially the cost of initial installation of the equipment and pay directly to GSA and Western Union the monthly rental cost. After the initial installation, the state will be responsible for relocation installation cost, unless relocation is in conjunction with a major move of the terminal agency to a new location address.

3. To identify for you those units in your state on which terminal-sharing must be accomplished.

4. To require that the terminal location agency (your agency) submit to FDA a terminal-sharing plan to be developed by you and other sharing units in your state.

5. To arrange through Western Union for training of terminal operators.

6. To provide operation instruction manual.

7. To withdraw financial support for the terminal if gross misuse of the terminal is practiced after due notice.

B. The State Terminal Agency agrees:

1. To provide suitable physical location for equipment with adequate security protection.

2. To provide and pay for electric power source to operate the terminal. (110 volts)

3. To provide for paper, tape and other material necessary for the operation of the equipment.

4. To share the terminal with other food and drug agencies in the state according to a terminal-sharing plan agreed to by each potential user.

5. To submit to the FDA Regional Office monthly traffic log. (Form to be furnished by FDA)

6. To submit promptly all messages received for addressees other than your agencies. Transmit promptly messages to FDA received from other appropriate agencies.

7. Maintain operator coverage for the terminal between normal working hours of your agency.

8. Notify vendor (Western Union) of any breakdown of the equipment or other needs for maintenance.

9. Notify FDA (Regional or Headquarters) of periods that the equipment is out-of-service.

10. That the system will be used only for communication between your state and FDA (Regional, District, or Headquarters Office). It is understood that the equipment is not to be used for communication between state agencies.

IV. Name and address of terminal agency. Ohio Department of Agriculture, Division of Foods, Dairies & Drugs, Route 40, Reynoldsburg, Ohio 43068.

V. Liaison Officers. For Ohio Dept. of Agriculture: Roland E. Jenkins, Chief, Division of Foods, Dairies & Drugs, Address: Route 40, Reynoldsburg, OH 43068. Telephone No.: (614) 866-6361.

For FDA: Kermit N. Peterson, Super. Consumer Safety Officer, DHEW/PHS/U.S. Food and Drug Administration, Address: Rm. 550 B, New Federal Bldg., 85 Marconi Blvd., Columbus, OH 43215. Telephone No.: (614) 469-7353.

VI. Period of agreement. This agreement, when accepted by both parties, will have an effective period of performance three (3) years from date of signature and may be modified by mutual consent by both parties or may be terminated by either party upon a thirty (30) day advance written notice to the other.

#### ARTX TELECOMMUNICATION EQUIPMENT

Memorandum of Understanding With the Tennessee Department of Agriculture

Pursuant to the notice published in the FEDERAL REGISTER of October 3, 1974 (39 FR 35697), stating that future memoranda of understanding between the Food and Drug Administration and others would be published in the FEDERAL REGISTER, the Commissioner of Food and Drugs issues the following notice:

The Food and Drug Administration executed a Memorandum of Understanding with the Tennessee Department of Agriculture on April 7, 1975. The purpose of the memorandum is to establish the procedures and guidelines for the operation, maintenance, and protection of FDA-

rented ARTX Telecommunication Equipment. It reads as follows:

MEMORANDUM OF UNDERSTANDING BETWEEN THE TENNESSEE DEPARTMENT OF AGRICULTURE AND THE FOOD AND DRUG ADMINISTRATION

I. Purpose. To establish the procedures and guidelines for the operation, maintenance, and protection of FDA-rented ARTX Telecommunication Equipment located in Room 106-A, Office and Laboratory Building, Ellington Agricultural Center, Melrose Station, Nashville, TN 37204.

II. Background. The FDA, Assistant Secretary for Health, Department of HEW, and the General Services Administration have approved a program to install full telecommunication transmit and receive terminals in a number of prime state food and drug agencies. Although terminals will be placed in a number of prime food and drug regulatory agencies, there are a number of other agencies with food and drug responsibilities in each state, where no terminal will be installed. Therefore, your agency, being one that received a terminal, must agree to share the terminal with other food and drug agencies in your state to assure that the communication system is accessible to all agencies with food and drug related responsibilities.

In addition to terminal-sharing, it is necessary for our two agencies to assure that proper operation and necessary supporting requirements for the equipment is maintained and proper security is provided for the equipment.

III. Substance of agreement. A. The Food and Drug Administration agrees:

1. To arrange for the installation of the equipment in the location designated by your agency.

2. To support financially the cost of initial installation of the equipment and pay directly to GSA and Western Union the monthly rental cost. After the initial installation, the state will be responsible for relocation installation cost, unless relocation is in conjunction with a major move of the terminal agency to a new location address.

3. To identify for you those units in your state on which terminal-sharing must be accomplished.

4. To require that the terminal location agency (your agency) submit to FDA a terminal-sharing plan to be developed by you and other sharing units in your state.

5. To arrange through Western Union for training of terminal operators.

6. To provide operation instruction manual.

7. To withdraw financial support for the terminal if gross misuse of the terminal is practiced after due notice.

B. The State Terminal Agency agrees:

1. To provide suitable physical location for equipment with adequate security protection.

2. To provide and pay for electric power source to operate the terminal. (110 volts)

3. To provide for paper, tape and other material necessary for the operation of the equipment.

4. To share the terminal with other food and drug agencies in the state according to a terminal-sharing plan agreed to by each potential user.

5. To submit to the FDA Regional Office monthly traffic log. (Form to be furnished by FDA)

6. To submit promptly all messages received for addressees other than your agencies. Transmit promptly messages to FDA received from other appropriate agencies.

7. Maintain operator coverage for the terminal during normal working hours of your agency.

8. Notify vendor (Western Union) of any breakdown of the equipment or other needs for maintenance.

9. Notify FDA (Regional or Headquarters) of periods that the equipment is out-of-service.

10. That the system will be used only for communication between your state and FDA (Regional, District, or Headquarters Office). It is understood that the equipment is not to be used for communication between state agencies.

IV. Name and address of terminal agency. Tennessee State Department of Agriculture, Ellington Agricultural Center, Box 40627, Melrose Station, Nashville, Tennessee 37204.

V. Liaison Officers. For Tennessee State Department of Agriculture: Eugene H. Holman, Director, Division of Food and Drugs, Address: Ellington Agricultural Center, Box 40627, Melrose Station, Nashville, Tennessee 37204. Telephone No. (615) 741-1411.

For FDA: Mr. Hayward E. Mayfield, Director, Nashville District, Food and Drug Administration, Address: 297 Pius Park Blvd., Nashville, TN 37217. Telephone No. (615) 749-5851.

VI. Period of agreement. This agreement, when accepted by both parties, will have an effective period of performance three (3) years from date of signature and may be modified by mutual consent by both parties or may be terminated by either party upon a thirty (30) day advance written notice to the other.

Approved and accepted for the Tennessee Department of Agriculture.

Dated: April 3, 1975.

Edward S. Porter,  
Commissioner, Tennessee Department  
of Agriculture.

Approved and accepted for the Food and Drug Administration.

Dated: April 7, 1975.

M. D. Kinslow,  
Regional Food and Drug  
Director, Region IV.

Effective date. This memorandum of understanding became effective April 7, 1975.

Dated: May 22, 1975.

SAM D. FINE,  
Associate Commissioner  
for Compliance.

[NADA No. 15-168]

PFIZER, INC.

Curatin Tablets; Notice of Withdrawal of Approval of New Animal Drug Application

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343-351; 21 U.S.C. 360b) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), the following notice is issued:

New animal drug application (NADA) No. 15-168, held by Pfizer, Inc., 235 East 42d St., New York, NY 10017, provides for Curatin Tablets, a prescription drug indicated for the treatment of pruritus and dermatitis in dogs.

The applicant requested that approval of the application be withdrawn on the basis that the drug is no longer being marketed.

Therefore, in accordance with 21 CFR 514.115(d), notice is given that approval of NADA No. 15-168 and all supplements and amendments thereto is hereby withdrawn effective May 29, 1975.

Dated: May 21, 1975.

[DESI 4687; Docket No. FDC-D-670; NDA No. 12-216]

SCHERING CORP.

Preparation Containing Polycarbophil and Thiexinol Methylbromide; Withdrawal of Approval of New Drug Application

In a notice of opportunity for hearing (DESI 4687) which was published in the FEDERAL REGISTER of June 4, 1974 (39 FR 19799), the Director of the Bureau of Drugs proposed to issue an order withdrawing approval of the drug product described below. The basis of the proposed action was the lack of substantial evidence that the product is effective for its labeled indication. The product has been used for symptomatic treatment of acute and chronic diarrhea. No person contested the proposed action and approval of the new drug application is now being withdrawn.

NDA 12-216; Sorboquel Tablets, polycarbophil 0.5 gram and thiexinol methylbromide 15 milligrams; Schering Corporation, Galloping Hill Road, Kenilworth, NJ 07033.

All identical, related, and similar drug products, not the subject of an approved new drug application, are covered by the application reviewed and are subject to this notice (21 CFR 310.6). Any person who wishes to determine whether a specific product is covered by this notice should write the Food and Drug Administration, Division of Drug Labeling Compliance (HFD-310), 5600 Fishers Lane, Rockville, MD 20852.

Neither the holder of the application nor any other person filed a written appearance of election as provided by said notice. The failure to file such an appearance constitutes an election by such persons not to avail themselves of the opportunity for a hearing.

The Director of the Bureau of Drugs, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1053, as amended; 21 U.S.C. 355), and under authority delegated to him (21 CFR 2.121), finds that on the basis of new information before him with respect to the drug product, evaluated together with the evidence available to him when the application was approved, there is a lack of substantial evidence that the drug product will have the effects it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in its labeling.

Therefore, pursuant to the foregoing findings, approval of new drug application No. 12-216, and all amendments and supplements applying thereto is withdrawn effective June 9, 1975.

Shipment in interstate commerce of the above-listed product or of any identical, related, or similar product, of the subject of an approved new drug application, will then be unlawful.

Dated: May 19, 1975.

J. RICHARD CROUT,  
Director, Bureau of Drugs.

#### BEAR CREEK LAKES

##### Notice of Hearing

In the matter of Bear Creek Lakes, OILSR No. 0-2170-44-131, Docket No. Y-1051.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d) notice is hereby given that:

1. Bear Creek Lakes, Inc., Josiah W. H. Behrens, President, its officers and agents, hereinafter referred to as "Respondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701 et seq.), received a Notice of Proceedings and Opportunity for Hearing issued February 24, 1975, which was sent to the developer pursuant to 15

U.S.C. 1706(d), 24 CFR 1710.45(b) (1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Bear Creek Lakes, located in Carbon County, Pennsylvania, contain untrue statement of material fact or omit to state material facts required to be stated therein as necessary to make the statement therein not misleading.

2. The Respondent filed an Answer received March 10, 1975, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, SW., Washington, D.C., on June 4, 1975, at 2 p.m.

5. The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before May 28, 1975.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b) (1).

This notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: May 2, 1975.

JAMES W. MAST,  
Administrative Law Judge.

[Docket No. N-75-354]

#### BRIARBROOK FIRST SUBDIVISION

##### Notice of Hearing

In the matter of Briarbrook First Subdivision, OILSR No. 0-1433-29-53, Docket No. Y-878.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d) notice is hereby given that:

1. Briarbrook Development Corporation, Jack L. Perry, President, its officers and agents, hereinafter referred to as "Respondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701 et seq.), received a Notice of Proceedings and Opportunity for

Hearing issued February 27, 1975, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b) (1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Briarbrook First Subdivision, located in Jasper County, Missouri, contain untrue statement of material fact or omit to state material facts required to be stated therein as necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received March 17, 1975, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, SW., Washington, D.C., on June 6, 1975, at 2 p.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before May 30, 1975.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b) (1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: April 22, 1975.

JAMES W. MAST,  
Administrative Law Judge.

#### EL PINAR

##### Hearing

In the matter of El Pinar, OILSR No. 0-3065-09-872, Docket No. Y-1096.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d) Notice is hereby given that:

1. Central Florida Action, Inc., Hector Marrero, President, its officers and agents, hereinafter referred to as "Re-

spondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. L. 90-448) (15 U.S.C. 1701 et seq.), received a Notice of Proceedings and Opportunity for Hearing issued February 27, 1975, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b) (1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for El Pinar, located in Polk County, Florida, contain untrue statement of material fact or omit to state material facts required to be stated therein as necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received March 25, 1975, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street SW., Washington, D.C., on June 9, 1975, at 10 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before June 2, 1975.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b) (1).

This notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

Dated: April 22, 1975.

By the Secretary.

#### GRANNY SQUIRREL GAP DEVELOPER Notice of Hearing

In the matter of Granny Squirrel Gap Developer, Leisure Properties, Inc. OILSR No. 0-1870-38-58, Docket No. Y-729.

Pursuant to 15 U.S.C. 1706(e) and 24 CFR 1720.165(b) notice is hereby given that:

1. Leisure Properties, Inc., Michael J. O'Grady, President, its officers and agents hereinafter referred to as "Respondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701 et seq.), received an Order of Suspension issued February 14, 1975, which was sent to the developer pursuant to 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(1) informing the developer of his failure to comply with the request of the Secretary for documents concerning Granny Squirrel Gap, located in Andrews, North Carolina, was not effective pursuant to the Act, and the regulations contained in 24 CFR Part 1710.

2. The Respondent filed an Answer received March 13, 1975, in response to the Suspension Order dated February 14, 1975.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Suspension.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(e) and 24 CFR 1720.165(b) it is hereby ordered, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Suspension will be held before Judge James W. Mast, Administrative Law Judge, in room 7146, Department of HUD Building, 451 7th Street SW., Washington, D.C. on June 10, 1975, at 10 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C. 20410 on or before June 3, 1975.

5. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the suspension of the Statement of Record, herein identified, shall continue until vacated by order of the Secretary, pursuant to 24 CFR 1720.165.

This notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.165.

By the Secretary.

Dated: April 29, 1975.

#### INDIGO PLANTATION Notice of Hearing

In the matter of Indigo Plantation, OILSR No. 0-0993-60-28, Docket No. Y-843.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d) notice is hereby given that:

1. Indigo Development Corporation, Joseph A. Waldschmitt, President, its officers and agents, hereinafter referred to as "Respondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. L. 90-448) (15 U.S.C. 1701 et seq.), received a Notice of Proceedings and Opportunity for Hearing issued February 27, 1975, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Indigo Plantation, located in British Virgin Islands, contain untrue statement of material fact or omit to state material facts required to be stated therein as necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received March 27, 1975, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, SW., Washington, D.C. on July 16, 1975 at 10 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before July 9, 1975.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: April 21, 1975.

#### JAY PEAK SUBDIVISION II Notice of Hearing

In the matter of Jay Peak Subdivision II, OILSR No. 0-2949-53-36, Docket No. Y-991.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d) notice is hereby given that:

1. Jay Peak, Inc., Harold J. Haynes, President, its officers and agents, hereinafter referred to as "Respondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701 et seq.), received a Notice of Proceedings and Opportunity for Hearing issued February 24, 1975, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Jay Peak Subdivision II, located in Orleans County, Vermont, contain untrue statement of material fact or omit to state material facts required to be stated therein as necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received March 24, 1975, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, SW., Washington, D.C., on June 11, 1975, at 10 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before June 4, 1975.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: April 22, 1975.

#### LAKE ARROWHEAD Notice of Hearing

In the matter of Lake Arrowhead, OILSR No. 0-2547-29-112 (A), Doc. No. 75-25.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d) notice is hereby given that:

1. National Development Co., Inc., Robert J. Sabinske, President, its officers and agents, hereinafter referred to as "Respondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. L. 90-448) (15 U.S.C. 1701 et seq.), received a Notice of Proceedings and Opportunity for Hearing issued April 10, 1975, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for National Development Co., Inc., located in Clinton County, Missouri, contain untrue statement of material fact or omit to state material facts required to be stated therein as necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received May 6, 1975, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, SW., Washington, D.C., on June 10, 1975, at 10 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before June 3, 1975.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: May 9, 1975.

#### LAKE FOREST Notice of Hearing

In the matter of Lake Forest, OILSR No. 0-2519-34-53, Docket No. Y-996.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d) notice is hereby given that:

1. Gilford Industries, Inc., Robert W. Valpey, President, its officers and agents, hereinafter referred to as "Respondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. L. 90-448) (15 U.S.C. 1701 et seq.), received a Notice of Proceedings and Opportunity for Hearing issued February 24, 1975, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Gilford Industries, Inc., located in Grafton County, New Hampshire, contain untrue statements of material fact or omit to state material facts required to be stated therein as necessary to make the statements therein not misleading.

2. The Respondent filed an answer received March 13, 1975, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, SW., Washington, D.C., on June 3, 1975, at 10 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before May 27, 1975.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: May 9, 1975.

#### LAKE IN THE WOODS Notice of Hearing

In the matter of Lake in the Woods, OILSR No. 0-3278-29-158, Docket No. Y-1073.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d) notice is hereby given that:

1. American Central Corporation, Howard J. Bohnet, President, its officers and agents, hereinafter referred to as "Respondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. L. 90-448) (15 U.S.C. 1701 et seq.), received a Notice of Proceedings and Opportunity for Hearing issued March 19, 1975, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Lake in the Woods, located in Callaway and Montgomery Counties, Michigan, contain untrue statement of material fact or omit to state material facts required to be stated therein as necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received March 31, 1975, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, SW., Washington, D.C., on June 24, 1975, at 10 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before June 17, 1975.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an Order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: April 21, 1975.

#### LAKE THUNDERBIRD Notice of Hearing

In the matter of Lake Thunderbird, OILSR No. 0-0654-13-9, Docket No. Y-819.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d) notice is hereby given that:

1. American Central Corporation, Don L. Foote, President, its officers and agents, hereinafter referred to as "Respondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701 et seq.), received a Notice of Proceedings and Opportunity for Hearing issued March 19, 1975, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Lake Thunderbird, located in Putnam and Bureau Counties, Illinois, contain untrue statement of material fact or omit to state material facts required to be stated therein as necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received March 31, 1975, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, SW., Washington, D.C., on June 24, 1975, at 10 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before June 17, 1975.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an Order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

Dated: April 21, 1975.

#### MISSAUKEE HILLS Notice of Hearing

In the matter of Missaukee Hills, OILSR No. 0-2868-26-58, Docket No. Y-985.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d) notice is hereby given that:

1. American Central Corporation, Howard J. Bohnet, President, its officers and agents, hereinafter referred to as "Respondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701 et seq.), received a Notice of Proceedings and Opportunity for Hearing issued March 19, 1975, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Missaukee Hills, located in Missaukee County, Michigan, contain untrue statement of material fact or omit to state material facts required to be stated therein as necessary to make the statements therein not misleading.

2. The Respondent filed an answer received March 31, 1975, in response to the

Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, SW., Washington, D.C., on June 24, 1975, at 10 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before June 17, 1975.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: April 21, 1975.

#### PALM RIVER ESTATES AND COUNTRY CLUB Notice of Hearing

In the matter of Palm River Estates and Country Club OILSR No. 0-1924-09-580, Docket No. Y-239.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d) notice is hereby given that:

1. Palm River Estates, Inc., Robert E. Forsythe, President, its officers and agents, hereinafter referred to as "Respondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701 et seq.), received a Notice of Proceedings and Opportunity for Hearing issued March 28, 1975, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Palm River Estates and Country Club, located in Collier County, Florida, contain untrue statement of material fact or omit to state material facts required to be stated therein as necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received April 15, 1975, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, SW., Washington, D.C., on June 25, 1975, at 10 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before June 18, 1975.

The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: April 28, 1975.

#### RIVIERA GOLF ESTATES Notice of Hearing

In the matter of Riviera Golf Estates, OILSR No. 0-3272-09-894, Docket No. Y-837.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d) notice is hereby given that:

1. Riviera Estates Corporation, William T. McCluskey, Vice President, its officers and agents, hereinafter referred to as "Respondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701 et seq.), received a Notice of Proceedings and Opportunity for Hearing issued March 28, 1975, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Riviera Golf Estates, located in Collier County, Florida, contain untrue statement of material fact or omit to state material facts required to be stated therein as necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received April 17, 1975, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, SW., Washington, D.C., on July 1, 1975, at 10 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before June 24, 1975.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: May 2, 1975.

#### STRATFORD HARBOR Notice of Hearing

In the matter of Stratford Harbor, OILSR No. 0-129-54-8, Docket No. Y-1101.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d) notice is hereby given that:

1. American Central Corporation of Virginia, Jim Miller, President, its officers and agents, hereinafter referred to as "Respondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. L. 90-448) (15 U.S.C. 1701 et seq.), received a Notice of Proceedings and Opportunity for Hearing issued March 3, 1975, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Stratford Harbor, located in Westmoreland County, Virginia, contain untrue statement of material fact or omit to state material facts required to be stated therein as necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received March 17, 1975, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, SW., Washington, D.C., on May 21, 1975, at 10 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before May 16, 1975.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: April 28, 1975.

#### TROPICAL RIVER GROVES Notice of Hearing

In the matter of Tropical River Groves, OILSR No. 0-0001-09-1, Docket No. Y-861.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d) notice is hereby given that:

1. American Agronomics Corporation, Jack A. Freeman, President, its officers and agents, hereinafter referred to as "Respondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. L. 90-448) (15 U.S.C. 1701 et seq.), received a Notice of Proceedings and Opportunity for Hearing issued March 19, 1975, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Tropical River Groves, located in De Soto County, Florida, contain untrue statement of material fact or omit to state material facts required to be stated therein as necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received April 2, 1975, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street SW., Washington, D.C., on July 14, 1975, at 10 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C. 20410 on or before July 7, 1975.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b) (1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: April 21, 1975.

JAMES W. MAST,  
Administrative Law Judge.

#### TUCSON ESTATES

##### Notice of Hearing

In the matter of Tucson Estates, OILSR No. 0-0353-02-58, Docket No. Y-821.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d) notice is hereby given that:

1. Tucson Estates, Inc., Melvin J. Hutchinson, President, its officers and agents, hereinafter referred to as "Respondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701 et seq.), received a Notice of Proceedings and Opportunity for Hearing issued March 19, 1975, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b) (1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Tucson Estates, located in Pima County, Arizona, contain untrue statement of material fact or omit to state material facts required to be stated therein as necessary to make the statements therein not misleading.

2. The Respondent filed an Answer

received April 10, 1975, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street SW., Washington, D.C., on June 19, 1975, at 10 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before June 13, 1975.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b) (1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: April 28, 1975.

JAMES W. MAST,  
Administrative Law Judge.

#### WEST MIAMI ACREAGE

##### Notice of Hearing

In the matter of West Miami Acreage, OILSR No. 0-1252-09-341, Docket No. Y-881.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d) notice is hereby given that:

1. Florida Leisure Time, Inc., Gerald Robbins, President, its officers and agents, hereinafter referred to as "Respondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701 et seq.), received a Notice of Proceedings and Opportunity for Hearing issued March 19, 1975, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b) (1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for West Miami Acreage, located in Dade County, Florida, contain untrue statement of material fact or omit to state material facts required to be stated therein as necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received April 10, 1975, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street SW., Washington, D.C., on July 22, 1975, at 10 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before July 15, 1975.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b) (1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: April 28, 1975.

#### DEPARTMENT OF TRANSPORTATION

##### Federal Aviation Administration

[Docket No. 14626]

#### ELIMINATION OF VFR FLIGHT PLAN SERVICE

##### Proposed Change in Policy

The Federal Aviation Administration is considering elimination of VFR flight plan service except where specifically required by the Federal Aviation Regulations or in certain areas prescribed by the Administrator.

No rule-making action is proposed herein. However, because the FAA believes that the aviation community may have an unusually great interest in the policy matters under consideration, this notice is published so that interested persons may participate by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue SW., Washington, D.C. 20591. All communications received on or before August 28, 1975, will be considered by the Administrator before taking action on the proposed change in policy. The proposal contained herein may be changed in the light of comments received. All comments submitted will be available, both before and after the closing dates for

comments, in the Docket for examination by interested persons.

Elimination of the VFR flight plan is neither a new idea nor is it revolutionary. A 1973 DOT-FAA study of modernizing the Flight Service Station system proposed the service be eliminated once a suitable alternative was available.

On November 15, 1974, the Aircraft Owners and Pilots Association (AOPA) submitted a proposal for Flight Service Station modernization. One of AOPA's recommendations was the immediate elimination of the VFR flight plan. It was also recommended that the Flight Service Station workforce currently used to provide VFR flight plan service could in turn be used to implement En Route Flight Advisory Service nationwide. This proposal was jointly developed with the General Aviation Manufacturers Association, coordinated with other user groups, and formally presented to the General Aviation Associations Council December 3, 1974.

Coincident to the AOPA proposal was an ongoing agency effort to provide better definition and direction to Flight Service Station modernization. In a re-assessment of Flight Service Station functional requirements, the review team working group reaffirmed that VFR flight plans should be eliminated.

VFR flight plan service requires some 368,000 manhours annually, yet only 10-15 percent of all VFR itinerant flights file a flight plan. It is felt this workforce, if used to provide an en route flight advisory service, would be more responsive to the needs of the aviation community.

The main value of the VFR flight plan lies in the initiation of search. With the perfection of the Emergency Locator Transmitter (ELT) search may be initiated earlier than is possible with flight plan action. In areas where the ELT value is reduced the Flight Service Station system would continue its flight following service for prescribed areas, i.e., lake, island, mountain, swamp reporting, which are described and depicted in the Airman's Information Manual Part 1.

The provisions of this notice are not intended to delete or alter any requirement for a VFR flight plan where such a requirement is so stated in the Federal Aviation Regulations. Flight Service Stations will continue to service VFR flight plans where specifically required by the Federal Aviation Regulations.

Accordingly, the Federal Aviation Administration proposes elimination of VFR flight plan services except:

1. When such VFR flight plans are required by the Federal Aviation Regulations.

2. When such VFR flight plans involve flight over certain areas (lake, island, swamp, and mountain reporting service) which are described and depicted within the Airman's Information Manual Part 1.

Issued in Washington, D.C., on May 22, 1975.

RAYMOND G. BELANGER,  
Director, Air Traffic Service.

#### AMERICAN REVOLUTION BICENTENNIAL ADMINISTRATION Advisory Council Meeting

In FR Doc. 75-12099 appearing on page 20124 in the issue for Thursday, May 8, 1975, notice was given pursuant to section 10(a) of the Federal Advisory Committee Act (Pub. L. 92-463), of the June meeting of the American Revolution Bicentennial Council. Notice is hereby given that the June 2 meeting will be held at the New Executive Office Building in Room 10103, 17th and Pennsylvania Avenue NW., Washington, D.C. from 9:30 a.m. to 5 p.m.

Agenda items will include a report from the Subcommittee on July 4, 1976, presentations on BINET, the American Issues Forum and the American Folklife Festival.

The meeting will be open to the public on a space available basis. Further information can be obtained from Ms. Jane Shay, Executive Assistant to the Administrator, ARBA, 2401 "E" Street NW., Washington, D.C. 20276, telephone (202) 634-1881.

#### CIVIL AERONAUTICS BOARD

[Docket No. 27158]

##### AEROPERU

##### Notification and Order Disapproving Schedules

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 20th day of March, 1975.

AeroPeru (Empresa de Transportes Aero del Peru) is the holder of a foreign air carrier permit, issued pursuant to Order 74-7-121,<sup>1</sup> which authorizes it to perform foreign air transportation with respect to persons, property, and mail, over a route between: (1) a point or points in Peru; the intermediate points Guayaquil and Quito, Ecuador; Bogota and Cali, Columbia; Panama City, Panama; Caracas, Venezuela; and Miami, Florida; and the terminal point Montreal, Canada; and (2) a point or points in Peru; the intermediate points Guayaquil, Ecuador; and Mexico City, Mexico; and the terminal point Los Angeles, California; and to engage in charter trips subject to Part 212 of the Board's Economic Regulations. This permit, issued pursuant to the Air Transport Services Agreement between the Government of the United States and the Government of Peru, enables AeroPeru to operate to the United States with whatever number of frequencies and combination of authorized points it desires, utilizing whatever type aircraft it alone chooses.

In May 1974 the U.S.-designated carrier (Braniff Airways) applied to the

<sup>1</sup> Approved by the President on July 25, 1974.

aeronautical authorities of Peru for authority to operate two additional frequencies to that country. When the Government of Peru indicated that it would not approve Braniff's application, the United States Government noted its objections and requested the Peruvian authorities to reconsider their decision pending consultations. The Peruvian authorities declined to do so.<sup>2</sup>

On October 22, 1974 the Government of Peru issued Braniff a new operating permit with an expiration date of February 28, 1975. The permit reduced the number of flights permitted the U.S. carrier between the United States and Peru and beyond and required the carrier to adhere to a prescribed itinerary on those flights which would continue to operate. Further restrictions were placed on the number of flights that the carrier might operate to individual points along the route. Braniff's services between Lima, La Paz and Asuncion; Lima, La Paz and Buenos Aires; Lima, La Paz and Santiago and between Lima, Sao Paulo and Rio de Janeiro were authorized to continue only provisionally (for a period of 45 days), it being alleged that they were not contemplated in the Route Annex of the U.S.-Peru Air Transport Services Agreement. The U.S. carrier was given 45 days, or until January 7, 1975, to comply with the terms of the new permit. Subsequently, this period was extended to January 31, 1975. The net effect of the restrictions and termination of beyond authority was to reduce Braniff's flights between Miami and Lima from 14 round-trip frequencies per week to 7, and its operations beyond Peru from 14 weekly round-trip flights to 1 weekly round trip.

Faced with these restrictions on the operations of the U.S. carrier to Peru, on November 8, 1974 the Civil Aeronautics Board issued Order 74-11-43 under Part 213 of its Regulations, requiring AeroPeru to file its existing and proposed schedules so that the Board could determine whether the operation of such services, or any part thereof, were contrary to applicable law or adverse to the public interest.

Subsequent to the issuance of this order, representatives of the Government of Peru and the Government of the United States met for consultations in Lima November 11-15, 1974, and January 8-24, 1975. During the talks the U.S. representatives made clear the United States Government's view that the restrictions the Government of Peru had unilaterally imposed on the U.S. carrier constituted a violation of the Agreement. They urged that the two delegations explore bilateral solutions to the civil aviation problems between the two countries. These talks were unsuccessful. Inter-carrier discussions were similarly unproductive. Beginning February 1, 1975 Braniff was forced to reduce schedules to those authorized pursuant to the terms of the new permit.

<sup>2</sup> The Air Transport Services Agreement between the United States and Peru provides that "neither Government will delay nor deny the entry into effect of proposed schedules."

## NOTICES

In view of the rights denied by the Government of Peru to the U.S.-designated carrier, on February 24, 1975 the Board issued Order 75-2-88 in Docket 27539, in which it found that the foundation for the grant of a permit to AeroPeru no longer existed, and directed interested persons to show cause why the Board should not cancel the foreign air carrier permit held by AeroPeru.

As the Board heretofore found in Order 75-2-88, the unilateral action of the Government of Peru, over the objections of the United States Government, in restricting and terminating rights of the U.S.-designated carrier between the United States and Peru, and beyond, granted pursuant to the U.S.-Peruvian bilateral, has significantly impaired, limited and denied operating rights in a manner inconsistent with and in violation of the United States-Peru Air Transport Service Agreement. Despite strong representations by the United States Government, the Peruvian Government has failed to restore the rights withdrawn from Braniff Airways. Under these circumstances, it is clear that effective and immediate action is required to insure that the rights of the U.S.-designated carrier to maintain a fair and equitable opportunity to conduct the operations provided for under the U.S.-Peru Air Transport Services Agreement will be restored. While the question of cancellation of the AeroPeru permit, by reason of the extinguishment of the foundation for the grant of that permit, will be considered in Docket 27539, pending ultimate determination in that proceeding, AeroPeru remains entitled under its permit to conduct unrestricted operations to the United States while Braniff's rights have been sharply curtailed. The Board finds that to permit AeroPeru to maintain authority to conduct unrestricted operations under its permit, while Braniff is subject to the restrictions imposed by the Government of Peru in violation of the Agreement, would not be consistent with the public interest. Part 213 of the Board's regulations was specifically promulgated, *inter alia*, to provide a means by which the Board could take remedial action in the event of such foreign government restrictions.

In Order 75-2-88 the Board found that the foundation for a grant of a permit to AeroPeru had been terminated by Peru's restrictive actions against Braniff. The Board pointed out that the underlying foundation for the grant of a foreign air carrier permit to AeroPeru rests upon the faithful adherence to the terms of the United States-Peru Air Transport Services Agreement, i.e., the grant to U.S. carriers of the rights exchanged and provided for in that Agreement, and that the Peruvian Government had denied these rights with respect to the operations of the U.S.-designated carrier to Peru. The Peruvian restrictions have seriously drawn into question the economic viability of Braniff's entire operations to Peru. Nevertheless, the Peruvian

Government is presently permitting some Braniff operations, and under these circumstances, pending ultimate decision in Docket 27539, we will, although the justification for such operations does not appear to exist under the current circumstances, permit AeroPeru to continue to operate one round-trip flight per week solely between Lima and Miami, without intermediate stops, or extra sections. The Board therefore finds, pursuant to § 213.3 (d) of its regulations, that the operation by AeroPeru of any existing or proposed schedules in excess of the one weekly round-trip schedule between Lima and Miami, as set forth below, would be adverse to the public interest; and, except to that extent, the schedules of AeroPeru should be disapproved.

Should the two Governments reach an understanding subsequent to this order, reconsideration of this action would, of course, be appropriate.

Accordingly, it is ordered, That:

1. The schedules filed by AeroPeru on November 15, 1974, with the exception of flight 602 which departs Lima on Tuesdays and arrives in Miami on Wednesdays and flight 603 which departs Miami on Thursdays and arrives in Lima on the same day, be, and they hereby are, disapproved, and effective 30 days from the date of service of this order, AeroPeru shall cease operating such schedules. Flights 602 and 603 must originate or terminate in Lima or Miami and must be operated without intermediate stops. Extra sections for such flights shall not be operated;

2. This order shall be submitted to the President and shall become effective on June 26, 1975;

3. This order shall remain in effect until further order of the Board; and

4. This order shall be served on AeroPeru (Empresa de Transportes Aero del Peru) and the Ambassador of Peru in Washington, D.C.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,  
Secretary.

## ALASKA AIRLINES, INC.

Fuel Surcharge Applicable to the Carriage of Intra-Alaska Mail; Order To Show Cause  
Correction

In FR Doc. 75-13478 appearing in the issue of Thursday, May 22, 1975 on page 22297, the first sentence of paragraph 2 should read: "By order 74-12-80, the Board pro-".

\*In this connection, the carrier and the Government of Peru should be advised of the provisions of § 213.3(e) of the regulations, which permit the carrier to apply for reinstatement of any or all of its schedules, as may be appropriate under the circumstances.

\*This order was submitted to the President on March 21, 1975.

[Docket Nos. 27810 and 22859]

## AMERICAN AIRLINES, INC.

Domestic Air Freight Rate Investigation;  
Order of Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 23rd day of May, 1975.

By tariff revisions<sup>1</sup> issued April 24 and marked to become effective May 24, 1975, American Airlines, Inc. (American) proposes to revise the expiry date on its "Daylight" general commodity container rates so as to extend their effectiveness to May 24, 1976. This action amounts to a one year extension of the rates, which pertain to LD-N, LD-3 and LD-5 containers in selected markets only.

The tariff provides that the rates are applicable only to shipments in containers, loaded by the shipper and tendered to the carrier between the hours of 4 a.m. and 4 p.m. any day of the week. The date and exact time of tender of the shipment to the carrier by the shipper will be entered upon the airbill by the carrier.

In support of the proposal and in answer to the complaint, American asserts that since their effectiveness in June 1972, these daylight tender charges have generated approximately 80,000,000 pounds of freight, representing approximately \$8,500,000 in revenue. The carrier seeks to extend these charges for another 12-month period in order to permit further evaluation of the effectiveness of the rates. The carrier expects an annual contribution on LD-3 containers of approximately \$766.961 to its capacity costs from the proposal.

A complaint requesting rejection, or, in the alternative, suspension and investigation was filed by The Flying Tiger Line Inc. (Tiger) asserting, *inter alia*, that (1) American has not submitted adequate economic justification to support continuation of these discounted general commodity container rates, (2) the traffic generation figures supplied are inconsistent with American's publicly available, reported data, especially that published in C.A.B. Form T-103 reports, and (3) the rates undercut bulk and container general commodity rates in major markets at all densities causing a highly dilutionary effect on industry revenues.

The proposed rates come within the scope of the Domestic Air Freight Rate Investigation (DAFRI), Docket 22859, and their lawfulness will be determined in that proceeding. The issue now before the Board is whether to permit them to become effective or to suspend them pending final decision in DAFRI.

Upon consideration of all relevant factors, the Board concludes that the proposal should be suspended pending the final decision of DAFRI. The requirements in § 221.165(b) and (c) of the Board's regulations to supply specific data in support of a tariff filing do not

<sup>1</sup>Revisions to Airline Tariff Publishing Company, Agent, Tariff C.A.B. No. 227.

apply to an extension of an existing rate (as distinguished from new or changed matter) and accordingly we find no basis for rejection of the filing as urged by Tiger.

In the past the Board has regarded reduced daylight rates as a rational experiment in which the attraction of new high-density traffic would counterbalance the yield dilution (See Reduced "Daylight" LD-3 container charges proposed by Trans World Airlines, Inc., Order 71-8-92 dated August 19, 1971). However, American has provided no meaningful information as to whether this test has been met, although the rates have been in effect since June 1972. More specifically, while American has submitted data as to the total daylight freight carried and the revenues therefrom (gross revenues and contribution to capacity costs), the carrier has made no attempt to assess revenues or the volume of freight moving at daylight discount which would not otherwise move by air transportation under the applicable regular bulk or container general commodity rates. It has not attempted to show the net revenue impact these rates have had in the past nor forecast results for the next annual period. On the other hand, Tiger asserts that it has filed at least 23 new specific commodity rates and daylight container rates to permit effective competition with daylight container rates. In these circumstances, we are concerned that the net impact of the rates will dilute industry revenues by diversion of traffic which would otherwise move under the general commodity rates. Clearly a more affirmative case for the rates must be made for us to conclude that they make a net contribution to American's cargo service.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered That:

1. Pending hearing and decision by the Board, the provisions in the explanation of reference mark "e" which would extend the expiration date of general commodity container rates subject to time of tender restrictions beyond May 24, 1975, on 8th Revised Page 63 of the Tariff C.A.B. No. 227, issued by Airline Tariff Publishing Company, Agent, are suspended, and their use deferred to and including August 21, 1975, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension, except by order or special permission of the Board;

2. Except to the extent granted herein, the complaint of The Flying Tiger Line Inc., in Docket 27810 is dismissed; and

3. Copies of this order shall be filed with the tariff.

\*Tiger notes that the data supplied by American in its justification conflicts with other data which it has submitted to the Board.

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Colorado State Advisory Committee (SAC) to this Commission will convene at 8:00 a.m. on June 21, 1975, at the Quality Inn Motel, Summit Room, 1840 Sherman Street, Denver, Colorado.

Persons wishing to attend this meeting should contact the Committee Chairperson, or the Mountain States Regional Office of the Commission, Room 216, 1726 Champa Street, Denver, Colorado 80202.

The purpose of this meeting is to finalize plans for the report on the Committee's project, access to the medical and legal professions by minorities and women.

This meeting will be conducted pursuant to the Rules and Regulations of the Commission.

V 40-104 MAY 29 75

Dated at Washington, D.C., May 23, 1975.

ISAIAH T. CRESWELL, Jr.,  
Advisory Committee  
Management Officer.

### COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

#### COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN PAKISTAN

##### Entry or Withdrawal From Warehouse for Consumption

May 23, 1975.

On July 7, 1972, there was published in the FEDERAL REGISTER (37 FR 13365) a letter dated June 28, 1972 from the Chairman, Committee for the Implementation of Textile Agreements, to the Commissioner of Customs, prohibiting entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products produced or manufactured in Pakistan and exported from Pakistan for which the Government of Pakistan had not issued a visa. One of the requirements is that each visa include the signature of an official authorized by the Government of Pakistan to issue visas.

On May 30, 1973 and January 18, 1974, there were published in the FEDERAL REGISTER (38 FR 14184 and 39 FR 2293) letters dated May 16, 1973 and January 15, 1974, respectively, from the Chairman, Committee for the Implementation of Textile Agreements, to the Commissioner of Customs, announcing an administrative mechanism to certify for exemption from the levels of restraint established under the Bilateral Cotton Textile Agreement of May 6, 1970, as amended, between the Governments of the United States and Pakistan, certain handloomed and folklore products of the cotton industry of Pakistan. To qualify for exemption each shipment of exempt cotton textile items must be accompanied by a signed certification, in addition to the visa described in the letter of June 28, 1972.

The purpose of this notice is to announce that at the request of the Government of Pakistan the list of officials published below as an enclosure to the

letter to the Commissioner of Customs are authorized to issue export visas and certifications for exempt items exported to the United States from Pakistan.

Accordingly, there is published below a letter of May 23, 1975 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs directing that the indicated officials be authorized to issue visas and certifications for exempt textile items exported to the United States from Pakistan.

Effective date: May 23, 1975.

ALAN POLANSKY,  
Chairman, Committee for the  
Implementation of Textile  
Agreements, and Deputy  
Assistant Secretary for  
Resources and Trade Assistance.

May 23, 1975.

Commissioner of Customs, Department of the Treasury, Washington, D.C. 20229.

DEAR MR. COMMISSIONER: This directive amends, but does not cancel, the directive of June 28, 1972, from the Chairman, Committee for the Implementation of Textile Agreements, that directed you to prohibit entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products in Categories 1 through 84 produced or manufactured in Pakistan for which the Government of Pakistan had not issued a visa. It also amends, but does not cancel, the directives of May 16, 1973 and January 15, 1974 which established a certification requirement for entry into the United States for consumption and withdrawal from warehouse for consumption of designated handloomed and folklore products of the cottage industry of Pakistan, which are exempt from the levels of restraint of the Bilateral Cotton Textile Agreement of May 6, 1970, as amended, between the Governments of the United States and Pakistan.

One of the requirements is that the visa and the certification for exempt items must each include the signature of an official authorized by the Government of Pakistan. Under the terms of the Bilateral Cotton Textile Agreement of May 6, 1970, as amended, between the Governments of the United States and Pakistan, and in accordance with the provisions of Executive Order 11651 of March 3, 1972, the directives of June 28, 1972, May 16, 1973 and January 15, 1974 are hereby amended to authorize the officials indicated on the enclosed list to issue visas and certifications for exempt items exported to the United States from Pakistan.

The actions taken with respect to the Government of Pakistan and with respect to imports of cotton textiles and cotton textile products from Pakistan have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States.

Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

ALAN POLANSKY,  
Chairman, Committee for the  
Implementation of Textile  
Agreements, and Deputy  
Assistant Secretary for  
Resources and Trade Assistance.

**COMMODITY FUTURES TRADING COMMISSION**

**ASSOCIATED PERSONS; COMMODITY TRADING ADVISORS; COMMODITY POOL OPERATORS**

Intention to Consider Requests for Interpretations and Exclusions; Solicitation of Comments

**Correction**

In FR Doc. 75-12438 appearing at page 20663 in the issue for Monday, May 12, 1975 make the following changes:

1. On page 20663 in paragraph (1) of 1. Associated Persons in line three, after the word merchant insert the following: "or with any agent of a futures commission merchant".

2. On page 20664 in the fifth paragraph of 3. Commodity Pool Operators, change the date in the third line to "July 18".

**DEFENSE MANPOWER COMMISSION**

**PUBLIC HEARING**

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that the Defense Manpower Commission will hold a public hearing on August 18, 1975, in Conference Room 2705, The Federal Building, 26 Federal Plaza, New York, New York 10007, from 9 a.m. to 4 p.m., so that representatives of public and private organizations and interested citizens can express their views on the issues which the Commission is required to address by its enabling legislation.

Pub. L. 93-155 directs the Commission to conduct a comprehensive study and investigation of the overall manpower requirements of the Department of Defense on both a short- and long-term basis with a view to determining what the manpower requirements are currently and will likely be over the next ten years, and how manpower can be more effectively

utilized in the Department of Defense.

The Commission is required to submit its Final Report to the Congress and to the President not more than 24 months after the appointment of the Commission, and shall cease to exist 60 days after the submission of its Final Report.

In carrying out its study and investigation, the Commission has been directed to give special consideration to:

(1) The effectiveness with which civilian and active duty personnel are utilized, particularly in headquarters staffing and in the number of support forces in relation to combat forces;

(2) Whether the pay structure, including fringe benefits, is adequate and equitable at all levels;

(3) The distribution of grades within each Armed Force and the requirements for advancement in grade;

(4) The cost-effectiveness and manpower utilization of the United States Armed Forces as compared with the armed forces of other countries;

(5) Whether the military retirement system is consistent with overall Department of Defense requirements and is comparable to civilian retirement plans;

(6) The methods and techniques used to attract and recruit personnel for the Armed Forces, and whether such methods and techniques might be improved or new and more effective ones utilized;

(7) The implications for the ability of the Armed Forces to fulfill their mission as a result of the change in the socio-economic composition of military enlistees since the enactment of new recruiting policies provided for in Pub. L. 92-129 and the implications for national policies of this change in the composition of the Armed Forces; and

(8) Such other matters related to manpower as the Commission deems pertinent to the study and investigation.

Interested persons may make an oral presentation and/or submit a written statement for consideration by the Commission during the meeting.

The length and number of oral presentations to be made will depend on the number of requests received.

Each person desiring to make an oral presentation or submit a written statement must notify the Commission and provide at least 10 copies of the presentation statement by August 4, 1975. The order of the presentations on the agenda will be determined by the order in which requests are received by the staff.

Statements should be limited to the mission of the Commission as outlined in Pub. L. 93-155, or other current issues regarding Department of Defense manpower.

Written material in furtherance of presentations will be accepted by the Commission at the time of the meeting and for four days thereafter.

Persons wishing to make presentations, or interested persons wishing to attend the public hearing as observers, must notify Mr. Rippe of the Commission staff (202-254-7803) by August 4,

1975. Copies of the statements and other correspondence must be sent to: Defense Manpower Commission, 1111 18th Street, NW., Room 301, Washington, D.C. 20036, ATTN: Hearing Management.

Dated: May 23, 1975.

BRUCE PALMER, Jr.,  
General, USA (Ret.)  
Executive Director.

[FR Doc. 75-13969 Filed 5-28-75; 8:45 am]

**PUBLIC HEARING**

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that the Defense Manpower Commission will hold a public hearing on July 17, 1975, in the New Executive Office Building, Room 2010, 726 Jackson Place NW., Washington, D.C. 20036, from 9 a.m. to approximately 4 p.m., so that representatives of public and private organizations and interested citizens can express their views on issues which the Commission is required to address by its enabling legislation.

Pub. L. 93-155 directs the Commission to conduct a comprehensive study and investigation of the overall manpower requirements of the Department of Defense on both a short and long term basis with a view to determining what the manpower requirements are currently and will likely be over the next ten years, and how manpower can be more effectively utilized in the Department of Defense.

The Commission is required to submit its final report to the Congress and the President by April 19, 1976.

In carrying out its study and investigation, the Commission has been directed to give special consideration to (among other points):

(1) The methods and techniques used to attract and recruit personnel for the Armed Forces, and whether such methods and techniques might be improved or new and more effective ones utilized;

(2) The implications for the ability of the Armed Forces to fulfill their mission as a result of the change in the socio-economic composition of military enlistees since the enactment of new recruiting policies provided for in Pub. L. 92-129 and the implication for national policies of this change in the composition of the Armed Forces; and

(3) Such other matters related to manpower as the Commission deems pertinent to the study and investigation.

The public hearing on July 17, 1975, will be exclusively on the subject of the All-Volunteer Force. Specific issues to be addressed are:

(1) Can the All-Volunteer Force be sustained over the next 10 years?

(2) Is it in the National Interest to avoid a Total Force which is composed of a disproportionate number of minorities, minorities or personnel from a given geographical area?

(3) How best can the Nation provide adequate personnel for the Total Force over the next 10 years?

Other hearings of the Commission as announced in the Federal Register have provided, or will provide, opportunity for consideration of other Defense manpower matters within the Commission's preview, as specified in Pub. L. 93-155.

The Defense Manpower Commission is inviting several individuals to make presentations at the hearing on July 17, 1975, to ensure that various aspects of the subject are addressed and that representative viewpoints are heard. In addition, any interested person may submit a written statement on the subject for consideration by the Commission. Each person desiring to submit a written statement should provide it to the Commission by July 17, 1975.

Interested persons wishing to attend the public hearing as observers, subject to capacity limits, should notify the Commission staff (Mr. Rippe—Telephone Number: 202-254-7803) by July 11, 1975. Copies of statements and other correspondence should be sent to: Defense Manpower Commission, 1111 18th Street NW., Room 301-F, Washington, D.C. 20036, ATTN: All-Volunteer Force Hearing.

Dated: May 23, 1975.

BRUCE PALMER, Jr.,  
General, USA (Ret.)  
Executive Director.

**ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION  
DEVELOPMENT OF VERY HIGH TEMPERATURE REACTOR (VHTR) FOR PROCESS HEAT APPLICATIONS**

**ERDA/NASA Information Meeting**

The Division of Reactor Research and Development of the Energy Research and Development Administration and the National Aeronautics and Space Administration will hold an information meeting on June 6, 1975 in the Auditorium of the Energy Research and Development Building, Germantown, Maryland. The meeting will begin at 9 a.m. on June 6 and will adjourn at 4:45 p.m. The purpose of the meeting is to present a review of the progress of ERDA and NASA sponsored activities in the development of the Very High Temperature Reactor (VHTR) for process heat applications. No conclusions or recommendations will be made.

While this information meeting is not considered to be a meeting of an "advisory committee" as that term is defined in section 3 of the Federal Advisory Committee Act (Pub. L. 92-463), the meeting is believed to be of sufficient importance and interest to the general public to be announced in the FEDERAL REGISTER as a meeting open for public attendance. The agenda is as follows:

9:00 a.m.—ERDA program on VHTR.  
9:30 a.m.—Hollifield National Laboratory (HNL) presentation on VHTR design studies

and study on the "Application of VHTR's to Coal Conversion."

10:00 a.m.—HNL program for assessing the incentives of the VHTR for process heat applications.

10:30 a.m.—LASL process heat studies and program plans.

11:00 a.m.—American Iron and Steel Institute (AISI) presentation on nuclear steel-making task force studies.

11:30 a.m.—Institute of Gas Technology (IGT) presentation on long range requirements for hydrogen and the application of the VHTR to hydrogen production.

12:00 noon—Break for lunch (Cafeteria available).

1:00 p.m.—NASA activities related to VHTR.

1:15 p.m.—Presentation of Westinghouse study on hydrogen production processes for use with VHTR.

3:00 p.m.—Presentation of General Atomic study on hydrogen production processes for use with VHTR.

4:45 p.m.—End of meeting.

Practical considerations may require changes in the agenda or schedule.

The meeting will be chaired by Mr. E. A. Womack, Jr., Assistant Director for the Office of Gas Cooled Reactor Projects, Division of Reactor Research and Development, U.S. Energy Research and Development Administration. The Chairman is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business. With respect to public participation in agenda items scheduled above, the following requirements shall apply:

(a) Persons wishing to submit written statements on those agenda items may do so by mailing 25 copies thereof, deposited, if possible, no later than June 4, 1975, to Mr. E. A. Womack, Jr., Mail Stop F-309, Energy Research and Development Administration, Washington, D.C. 20545. Minutes of the meeting will be kept open for 30 days for receipt of written statements for the record.

(b) Those persons submitting a written statement in accordance with (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement, and shall set forth reasons justifying the need for such oral statements and their usefulness to the meeting. To the extent that the time available for the meeting permits, oral statements may be received at an appropriate time, chosen by the Chairman.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman, who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call to Mr. J. C. Montgomery at 301-973-3692.

(e) Seating for the public will be made available on a first-come, first-served basis, subject to space limitations.

(f) Copies of minutes of the sessions will be made available for copying, at the

Energy Research and Development Administration's Public Document Room, 1717 H Street NW., Washington, D.C., upon payment of all charges required by law.

Individuals who wish to attend the Seminar should inform Mr. J. C. Montgomery, ERDA/RDD by phone (301-973-3692) or by mail (Mail Stop F-309, Energy Research and Development Administration, Washington, D.C. 20545).

G. W. CUNNINGHAM,  
Acting Director, Division of  
Reactor Research and Development.

**ENVIRONMENTAL PROTECTION AGENCY**

[FRL 380-5]

**AMCHEM PRODUCTS INC.**

**Renewal of Temporary Tolerance**

Amchem Products, Inc., Brookside Avenue, Ambler, PA 19002, was granted a temporary tolerance for residues of the herbicide Ethephon ((2-chloroethyl) phosphonic acid) in or on grapes at 10 parts per million on August 30, 1973, in connection with Pesticide Petition No. 3G1341 (notice was published in the FEDERAL REGISTER of September 10, 1973 (38 FR 24682)). The firm requested and received a two month extension of these tolerances (notice was published in the FEDERAL REGISTER of March 15, 1974 (39 FR 10014)). This temporary tolerance expired October 31, 1974.

The firm has requested a 1-year renewal of the temporary tolerance to obtain additional experimental data. It is concluded that such a renewal of the temporary tolerance will protect the public health. A condition under which this temporary tolerance is renewed is that the herbicide be used in accordance with the temporary permit which is being issued concurrently and which provides for distribution under the Amchem Products, Inc., name.

This temporary tolerance expires May 23, 1976. Residues remaining in or on the above raw agricultural commodity after expiration of this tolerance will not be considered actionable if the pesticide is legally applied during the term, and in accordance with provisions of the temporary permit/tolerance.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346a(j)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (39 FR 18805).

Dated: May 23, 1975.

EDWIN L. JOHNSON,  
Deputy Assistant Administrator  
for Pesticide Programs.

[FRL 380-4]

**CIBA-GEIGY CORP.****Extension of Temporary Tolerances**

CIBA-GEIGY Corp., P.O. Box 11422, Greensboro, NC 27409, was granted temporary tolerances for combined residues of the insecticide chlordimeform (N'-4-chloro-o-tolyl)-N,N-dimethylformamidine and its metabolites containing the 4-chloro-o-toluidine moiety (calculated as chlordimeform) in or on the raw agricultural commodities citrus fruits and hybrids of these at 5 parts per million on May 28, 1974, in connection with Pesticide Petition No. 4G1456 (notice was published in the FEDERAL REGISTER of June 3, 1974 (39 FR 19535)). These temporary tolerances expire May 28, 1975.

The petitioner has requested a one-year extension of these temporary tolerances to obtain additional experimental data. It has been determined that such extension of the temporary tolerances will protect the public health. They are therefore extended on the condition that the insecticide be used in accordance with the temporary permits being issued concurrently and which provide for distribution under the CIBA-GEIGY Corp. name.

These temporary tolerances expire May 28, 1978. Residues remaining in or on the above raw agricultural commodities after expiration of these tolerances

will not be considered actionable if the pesticide is legally applied during the term, and in accordance with provisions of the temporary permits/tolerances.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; (21 U.S.C. 346a(j))), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (39 FR 18805).

Dated: May 23, 1975.

EDWIN L. JOHNSON,  
Deputy Assistant Administrator  
for Pesticide Programs.

[FR Doc.75-14020 Filed 5-28-75; 8:45 am]

[FRL 380-3]

**PENNWALT CORP.****Establishment of Temporary Tolerances**

The Pennwalt Corp., P.O. Box 1297, Tacoma, WA 98401, submitted a petition (4G1449) requesting establishment of temporary tolerances for negligible residues of the pesticide endothal (7-oxabicyclo[2.2.1]heptane - 2,3-dicarboxylic acid) in or on the raw agricultural commodities rice straw at 0.1 part per million and rice at 0.05 part per million from use of its mono-N,N-dimethylal- kylamine salt as an aquatic herbicide.

It has been determined that the temporary tolerances for negligible residues of the herbicide in or on the above raw agricultural commodities will protect the public health. They are therefore established as requested on condition that the herbicide be used in accordance with the temporary permit being issued concurrently and which provides for distribution under the Pennwalt Corp. name.

These temporary tolerances expire May 23, 1976. Residues remaining in or on the above raw agricultural commodities after expiration of these tolerances will not be considered actionable if the pesticide is legally applied during the term, and in accordance with provisions of the temporary permit/tolerances.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; (21 U.S.C. 346a(j))), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (39 FR 18805).

Dated: May 23, 1975.

EDWIN L. JOHNSON,  
Deputy Assistant Administrator  
for Pesticide Programs.

**RADIO TECHNICAL COMMISSION FOR AERONAUTICS****Meeting**

Pursuant to Pub. L. 92-463, notice is hereby given of a meeting of the Radio Technical Commission for Aeronautics, Special Committee 130—"Reliability Specifications for Airborne Electronics Systems." The meeting is to be held on June 17-18, 1975, in RTCA Conference Room 261, 1717 H Street, NW., Washington, D.C. The meeting will commence each day at 9:30 a.m.

The Agenda is as follows:

1. Opening comments from the Chairman.
2. Review Terms of Reference and definition of Systems Reliability.
3. Review events leading up to Determination of MTBF for Ground Proximity Warning System.
4. Review international consideration of Reliability Specifications.
5. Reliability Specifications for Airborne Electronic Systems as related to reliability of the National Airspace System (to be presented by the FAA).
6. NTSB views on Reliability Specifications for Airborne Electronic Systems.
7. Military views on Systems Reliability. Identify Special Committee Work Program:
  - a. Collection of information and establishment of required studies.
  - b. Consideration of task assignments.
  - c. Other Business.
8. Date and place of next meeting.

Meetings of Special Committee 130 are open to the public, subject to limitations of space available, and any member of the public may present oral statements at the meeting, subject to time available, or may submit written statements to the RTCA Secretariat. Persons planning to attend or who desire additional information concerning this meeting are requested to contact the RTCA Secretariat, Suite 655, 1717 H Street NW., Washington, D.C. 20006, or telephone Area Code (202) 296-0484.

**FEDERAL COMMUNICATIONS COMMISSION.**

**FEDERAL ENERGY ADMINISTRATION****RETAIL DEALERS ADVISORY COMMITTEE Meeting**

This order is issued pursuant to section 6(c) (4) of the Emergency Petroleum Allocation Act of 1973. The meeting described below is necessary in order to comply with the provisions of the Act and the regulations issued thereunder.

The meeting is scheduled to take place at 9:30 a.m. on Monday, June 16, 1975 in Room 305, Regional Conference Room B, J. W. McCormack Post Office Building, Post Office and Courthouse, Boston Massachusetts. The participants at the meeting will be the members of the Retail Dealers Advisory Committee.

The objectives of the meeting are to provide the Administrator, FEA, with expert technical advice on a wide range of

activities associated with the retail sale of gasoline/diesel fuel. The subject matter to be discussed at the meeting shall be limited, in light of the foregoing objectives, to the following items:

1. Discussion of Extension of the Emergency Petroleum Allocation Act of 1973
2. Discussion of Market Shares
3. Discussion of Branded Dealer Problems (Margins)
4. Discussion of Priority Projects
  - a. Market Force vs. Allocation and Conservation
  - b. Entitlements—Their Effects in the Market Place and an Updated Review
  - c. Tank Wagon Prices vs. Rack Prices

The meeting shall take place in the presence of a representative of the Antitrust Division of the Department of Justice. A verbatim transcript of the meeting shall be taken and, together with any written agreement resulting from the meetings, shall be deposited with the Attorney General of the United States and the Federal Trade Commission where it will be available for public inspection.

Dated: May 22, 1975.

ROBERT E. MONTGOMERY, Jr.,  
General Counsel.

**FEDERAL MARITIME COMMISSION**

[Docket No. 73-80]

**CARGO DIVERSION PRACTICES AT U.S. GULF PORTS BY MEMBERS OF THE GULF-EUROPEAN FREIGHT ASSOCIATION****Intent To Make an Environmental Assessment**

The above referenced proceeding is an investigation to determine whether particular actions by certain carriers serving Gulf and Atlantic port areas constitute illegal diversion of cargo, and if so, whether such actions are:

- (1) Contrary to the tariffs on file and, therefore, in violation of sections 18(b) (1), 18(b) (2), and 18(b) (3) of the Shipping Act, 1916; or whether said tariff provisions establish unjust or unreasonable regulations and practices within the meaning of section 17, Shipping Act, 1916;
- (2) In violation section 16 of the Shipping Act, 1916;
- (3) Authorized by Agreement No. 9360 and, if so, whether the agreement, to the extent that it authorizes such practices, should be disapproved, cancelled, or modified pursuant to section 15, Shipping Act, 1916, or are in implementation of any other agreement which has not been filed with or approved by the Federal Maritime Commission as required by section 15 of the Shipping Act, 1916;
- (4) Contrary to the policy of section 8, Merchant Marine Act, 1920.

The Commission believes that its final resolution of the issues in this proceeding may constitute a major Federal action significantly affecting the quality of the human environment within the meaning

of the National Environmental Policy Act of 1969 (NEPA). Consequently, the scope of environmental factors involved warrants consideration and evaluation before decision making is undertaken.

Therefore, notice is hereby given that the Federal Maritime Commission intends to make an Environmental Assessment to determine whether its final decision in this proceeding will constitute a major federal action significantly affecting the quality of the human environment within the meaning of NEPA. Written comments regarding possible environmental effects which may occur from the eventual resolution of the proceeding are invited. Such comments should be submitted within 30 days of the date of this order to the Secretary, Federal Maritime Commission, 1100 L Street NW., Washington, D.C. 20573.

It is further ordered, That a copy of this notice be issued to the presiding Administrative Law Judge, and that this proceeding continue its course in accordance with a procedural schedule not inconsistent with our own rules of practice and procedure or NEPA.

By the Commission.

[SEAL] FRANCIS C. HURNEY,  
Secretary.

**FLOTA MERCANTE GRAN CENTRO AMERICANA, S.A. AND PAN AMERICAN MAIL LINE, INC.****Notice of Agreement Filed**

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763 (46 U.S.C. 814)).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., San Juan, Puerto Rico and San Francisco, California. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before June 9, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

## FEDERAL POWER COMMISSION

[Docket No. G-15425, et al.]

## SUN OIL CO. ET AL.

Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates<sup>1</sup>

MAY 20, 1975.

Take notice that each of the applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before June 13, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to

<sup>1</sup> This notice does not provide for consolidation for hearing of the several matters covered herein.

the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is re-

quired by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[Docket No. CP75-333]

## NORTHERN NATURAL GAS CO.

## Application

MAY 20, 1975.

Take notice that on May 9, 1975, Northern Natural Gas Company (Applicant), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP75-333, an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to construct and operate certain sales measuring station facilities and to sell and deliver natural gas in the states of Kansas, Okla-

homa and Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant requests authority to construct and operate 53 delivery stations in the states of Kansas, Oklahoma and Texas and to sell certain volumes of natural gas to Southern Union Gas Company (Southern Union) and West Texas Natural Gas Company (West Texas) for resale to certain of Applicant's pipeline right-of-way grantors or to make direct sales of natural gas to right-of-way grantors. The proposed natural gas service would provide for domestic and small volume agricultural needs. Details of the proposed service are in the appendix hereto.

Estimated total cost of all facilities proposed is \$54,977. Total annual estimated sales are 177,134 Mcf.

According to the application, Applicant will install and operate 35 delivery stations in Kansas and one in Texas which will be required to make direct sales of natural gas volumes to customers through Applicant's Peoples Natural Gas Division. Applicant states that the firm volumes to be delivered will be provided from Peoples' presently authorized contract demand or from capacity of existing pipeline facilities in the producing areas where contract demand rate schedules are not applicable.

Applicant proposes to sell gas for resale to Southern Union to serve 14 right-of-way grantors in Oklahoma. To deliver said gas Applicant proposes to construct minor sales measuring stations as it acquires new reserves and extends gathering lines to new wells. Applicant also proposes to sell gas for resale to West Texas so as to serve three right-of-way grantors located in Texas. The application indicates that Applicant will file revised rate schedules for the sale of the additional volumes to Southern Union and West Texas.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 12, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[Docket No. RP72-138 PGA75-2]  
FLORIDA GAS TRANSMISSION CO.  
Proposed Changes in Rates and Charges

MAY 21, 1975.

Take notice that on May 15, 1975, Florida Gas Transmission Company (Florida Gas) tendered for filing Substitute Seventh Revised Sheet 3-A to its FPC Gas Tariff, Original Volume No. 1, containing changes in rates in its Rate Schedules G and I for effectiveness on July 1, 1975. The changes in rates result from the application of the purchased gas cost adjustment provision in section 15, General Terms and Conditions of the tariff, which was approved by the Commission in Docket No. RP72-136.

A comparison between the currently effective rates and those to be made effective on July 1, 1975 under this filing is as follows:

Rate Schedule	Cents per therm	
	Currently effective	To become effective July 1, 1975
Rate Schedule G.....	7.276	7.244
Rate Schedule I.....	5.886	5.854

The annual effect on the proposed changes is a decrease of \$237,000 based on sales for the twelve months ended March 31, 1975.

Florida Gas states that a copy of its filing has been served upon all customers purchasing gas under its FPC Gas Tariff, Original Volume No. 1 and the Florida Public Service Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, Washington, D.C. 20426, in accordance with section 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 16, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. RP73-17 (PGA75-5)]  
GRANITE STATE GAS TRANSMISSION, INC.  
Proposed Changes in Rates Pursuant to Purchased Gas Adjustment Provision

MAY 21, 1975.

Take notice that Granite State Gas Transmission, Inc. (Granite State) on May 15, 1975, tendered for filing Eighth Revised Sheet 3A in its FPC Gas Tariff, Original Volume No. 1, containing proposed changes in rates to be effective July 1, 1975. According to Granite State, the proposed changes would decrease revenues from jurisdictional sales by approximately \$332,007 annually, based on deliveries for the 12 months ended March 31, 1975. Granite State states that the instant filing is made pursuant to a purchased gas adjustment provision, previously approved by the Commission, on December 14, 1972, in Docket No. RP73-17. Granite State further states that the decreased purchased gas costs result from a proposed decrease in the rates of Tennessee Gas Pipeline Company, a Division of Tenneco, Inc., which Tennessee proposes to make effective on July 1, 1975 and that Granite State purchases its entire natural gas supply from Tennessee.

According to Granite State, copies of the filing were served upon Northern Utilities, Inc., the Company's sole jurisdictional customer and affected state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 16, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. E-9446]

GREEN MOUNTAIN POWER CORP.  
Tariff Change

MAY 21, 1975.

Take notice that Green Mountain Power Corporation, on May 15, 1975, tendered for filing proposed changes in its

Federal Power Commission Electric Service Tariff. The proposed changes would increase revenues from jurisdictional sales and service by \$955,956 based on the twelve month period ending December 31, 1974. The Company proposed that the new rates will become effective as of June 16, 1975.

The Company states that in said test year it experienced a negative rate of return from its wholesale business and that an increase in its wholesale rates is necessitated by increased financing and operating costs.

Copies of the filing were served upon the Company's jurisdictional customers and the Vermont Public Service Board and the New Hampshire Public Utilities Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 12, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Project No. 2188]

## THE MONTANA POWER CO.

## Application for Conveyance of Interest in Project Lands

MAY 21, 1975.

Public notice is hereby given that application was filed November 1, 1974, and supplemented on January 31, 1975, under the Federal Power Act (16 U.S.C. 791a-825r) by Montana Power Company (Correspondence to Mr. John Carl, Attorney, The Montana Power Company, 40 East Broadway, Butte, Montana 59701 with copy to Mr. Lee S. Sherline, Leighton and Sherline, 1701 K Street NW., Washington, D.C. 20006) for Commission approval of conveyance of interest in project lands in Cascade County, Montana for Project No. 2188 on the Missouri River.

Applicant is seeking Commission approval to convey to a private owner approximately 0.31 acre of project property at the Morony development of Project No. 2188. Automation of the Morony plant was completed in 1959 and the license for Project No. 2188 was amended by Commission order dated October 15, 1963, deleting six residences and other structures once used by the operators of the plant. One operator remained until December 1972 and occupied the resi-

## NOTICES

dence on the subject parcel. This parcel of project property is located outside of the contiguous project boundary of the development and applicant states that its sale will not affect the operation of the project.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 14, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR § 1.8 or § 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

[Docket Nos. RP71-125, PGA75-11]

# **NATURAL GAS PIPELINE COMPANY OF AMERICA**

## **PGA Filing To Track a Pipeline Supplier Rate Decrease**

MAY 21, 1975.

Take notice that on May 19, 1975, Natural Gas Pipeline Company of America (Natural) submitted for filing as part of its FPC Gas Tariff, Third Revised Volume No. 1, Twenty-Fourth Revised Sheet No. 5, to be effective July 1, 1975.

Natural states the filing was made pursuant to the provisions of section 18, Purchased Gas Cost Adjustment, of the General Terms and Conditions of its FPC Gas Tariff, to track a decrease in the cost of gas purchased, effective July 1, 1975, from United Gas Pipe Line Company, a pipeline supplier to Natural. United's filing was made on May 16, 1975 to be effective July 1, 1975 in accordance with the terms of its PGA Clause.

Natural states that as notice of the supplier filing was not received by Natural in time to permit it to meet the 45-day filing requirement of its PGA Tariff provision, it requests that that provision be waived to permit Natural's PGA unit adjustment to become effective July 1, 1975.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 10, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a

party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

# **SEA ROBIN PIPELINE CO.**

## **Filing of Revised Tariff Sheet**

MAY 21, 1975.

Take notice that on May 16, 1975, Sea Robin Pipeline Company tendered for filing Sixth Revised Sheet No. 4 to its FPC Gas Tariff, Original Volume No. 1. This tariff sheet and supporting information are being filed 45 days before the effective date of July 1, 1975, pursuant to Section 1 of Sea Robin's tariff, and is in compliance with the provisions of Order Nos. 452, 452-A and 452-B.

Copies of the revised tariff sheet and supporting data are being mailed to Sea Robin's jurisdictional customers and interested state commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 11, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Project No. 2075]

# **WASHINGTON WATER POWER CO.**

## **Application for Amendment of License (Major)**

MAY 21, 1975.

Public notice is hereby given that application was filed on November 18, 1974, and supplemented on November 29, 1974, under the Federal Power Act (16 U.S.C. 791a-825f) by The Washington Water Power Company, Licensee (correspondence to: J. P. Buckley, Secretary, The Washington Water Power Company, P.O. Box 3727, Spokane, Washington 99220; and Mr. Lee S. Sherline, Leighton and Sherline, 1701 K Street, NW., Washington, D.C. 20006), to amend the major license for its constructed Noxon Rapids Project No. 2075. The Noxon Rapids project is on the Clark Fork River, a navigable water of the United States, in Sanders County, Montana near Sandpoint, Coeur D'Alene, and Wallace, Idaho, and Thompson Falls, Kallispell, and Missoula, Montana and affecting lands of the United States within the Kaniksu and Lolo National Forests.

The Noxon Rapids, project, as licensed, consists of: a dam composed of a concrete spillway section, a concrete intake section, and two earth-fill sections, creating a reservoir with a normal maximum water surface elevation of about 2,331 feet and extending upstream about 38 miles; a powerhouse at the toe of the dam containing four units, each rated 70,720 kilowatts, with provision for the future installation of a fifth similar generating unit; five penstocks; two 230-kilovolt transmission lines—one extending approximately 20 miles from Noxon Rapids to Cabinet Gorge (P-2058) and the other extending approximately 44 miles from Noxon Rapids to Pine Creek substation; and appurtenant facilities.

Article 28 of the license for Project No. 2075 states that "The Licensee . . . shall at such time as the Commission may direct and to the extent that it is economically sound and in the public interest to do so, after notice and opportunity for hearing, complete the project to its ultimate development . . ."

Licensee has requested in its application that the Commission direct Licensee to complete the project pursuant to Article 28. Licensee proposes to install a fifth generating unit rated at 114,000 kW and appurtenant facilities. Licensee states that the new unit is scheduled to be in

service by November 1977 and would cost \$14,198,000 (October 1974 price level).

Any person desiring to be heard or to make protest with reference to said application should on or before June 30, 1975 file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

Take further notice that, pursuant to the authority contained in and conferred upon the Federal Power Commission by sections 308 and 309 of the Federal Power Act (16 U.S.C. § 825g, § 825h) and the Commission's rules of practice and procedure, specifically § 1.32(b) (18 CFR § 1.32(b)), as amended by Order No. 518, a hearing may be held without further notice before the Commission on this application if no issue of substance is raised by any request to be heard, protest or petition filed subsequent to this notice within the time required herein and if the applicant or initial pleader requests that the shortened procedure of § 1.32(b) be used. If an issue of substance is so raised or applicant or initial pleader fails to request the shortened procedure, further notice of hearing will be given.

Under the shortened procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant or initial pleader to appear or be represented at the hearing before the Commission.

KENNETH F. PLUMB,  
Secretary.

## **Rate Change Pursuant To Purchased Gas Cost Adjustment Provision**

MAY 21, 1975.

Take notice that Algonquin Gas Transmission Company (Algonquin Gas), on May 8, 1975 tendered for filing Substitute Sixth Revised Sheet No. 10 to its FPC Gas Tariff, First Revised Volume No. 1.

This sheet is being filed pursuant to Algonquin Gas' Purchased Gas Cost Adjustment Provision set forth in Section 17 of the General Terms and Conditions of its FPC Gas Tariff, First Revised Volume No. 1. The rate change is being

## NOTICES

filed to reflect a change in purchased gas costs to be paid by Algonquin Gas to its supplier, Texas Eastern Transmission Corporation (Texas Eastern) on June 1, 1975. Algonquin Gas requests that the Commission waive the requisite notice and grant special permission to permit such Substitute Sixth Revised Sheet No. 10 to become effective June 1, 1975, which will synchronize Algonquin Gas' rates with those of Texas Eastern.

Any persons desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8, 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 30, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

# **AMERADA HESS CORP. ET AL.**

## **Rate Change Filings**

MAY 22, 1975.

Take notice that the producers listed in the Appendix attached hereto have filed proposed increased rates to the applicable new gas national ceiling based on the interpretation of vintage concepts set forth by the Commission in its Opinion No. 699-H, issued December 4, 1974.

The information relevant to each of these sales is listed in the Appendix.

Any person desiring to be heard or to make any protest with reference to said filing should on or before June 10, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,  
Secretary.

Mcf (15.025 psia), subject to heat adjustment, 100 percent tax reimbursement, and a 1.25 cent gathering charge, within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70).

Any person desiring to be heard or to make any protest with reference to said application should on or before June 17, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

## NOTICES

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.75-13979 Filed 5-28-75; 8:45 am]

[Docket No. E-7172]

# DEPARTMENT OF THE INTERIOR AND SOUTHWESTERN POWER ADMINISTRATION

## Request for Approval of Rates and Charges

MAY 21, 1975.

Notice is hereby given that the Secretary of the Interior (Secretary), acting on behalf of Southwestern Power Administration (SWPA) and pursuant to section 5 of the Flood Control Act of 1944 (58 Stat. 887, 890), filed with the Federal Power Commission on May 9, 1975, a request in Docket No. E-7172 for an extension of the Commission's confirmation and approval of SWPA's rates and charges for the sale of electric power and energy included in (1) Rate Schedules F-1 (firm power), P-2 (Revised) (peaking power), EE (excess energy) and IC (interruptible capacity), (2) Contract No. Ispa-356 between SWPA and Oklahoma Gas and Electric Company and Public Service Company of Oklahoma and (3) Contract No. 14-02-001-864-8 between SWPA and Tex-La Electric Cooperative, Inc. The Commission, by orders issued November 30, 1971 and February 20, 1973 in this docket (46 FPC 1275 and 49 FPC 420), approved such rates and charges for the period ending May 31, 1974, and by order issued May 31, 1974, extended its approval for a period ending not later than May 31, 1975. Approval of those rates and charges, which are described in detail in the above-mentioned Commission orders, is now requested by the Secretary for the additional period of six months ending November 30, 1975.

The Secretary represents, in substance, that the requested extension of approval of SWPA's rates and charges is necessary to allow additional time for SWPA to complete the rate and repayment study and other related studies currently underway to determine the

adjustments in such rates and charges which may be appropriate in order that they will produce revenues sufficient to satisfy the payout requirements of the Flood Control Act of 1944.

The rate schedules and rate contracts of SWPA referred to above are on file with the Commission and available for public inspection. Any person desiring to make comments or suggestions for the Commission's consideration with respect to SWPA's rates and charges set forth in said rate schedules and rate contracts should submit the same in writing on or before June 6, 1975 to the Federal Power Commission, Washington, D.C. 20426.

KENNETH F. PLUMB,  
Secretary.

[Docket No. RP71-15; PGA75-5]

# EAST TENNESSEE NATURAL GAS CO. Proposed Rate Change Under Tariff Rate Adjustment Provisions

MAY 22, 1975.

Take notice that on May 16, 1975, East Tennessee Natural Gas Company (East Tennessee) tendered for filing Twelfth Revised Sheet No. 4 to Sixth Revised Volume No. 1 of its FPC Gas Tariff to be effective July 1, 1975.

East Tennessee states that the purpose of this revised tariff sheet is (1) to adjust East Tennessee's rates pursuant to the PGA provision in section 22 of the General Terms and Conditions to reflect decreased purchased gas costs resulting from a rate decrease by its sole supplier, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), and (2) to adjust East Tennessee's rates pursuant to § 24.8 of the General Terms and Conditions so as to reflect Curtailment Credits.

East Tennessee states that copies of the filing have been mailed to all of its jurisdictional customers and affected state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 17, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene; provided, however, that any person who has previously filed a petition to intervene in this proceeding is not required to file a further petition. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. E-9461]

# ILLINOIS POWER CO.

## Filing of Modification of Interconnection Agreement

MAY 22, 1975.

Take notice that on May 19, 1975, Illinois Power Company (Illinois) tendered for filing a Letter of Agreement which modifies the Interconnection Agreement dated November 27, 1961 between Illinois and Indiana & Michigan Electric Company (Indiana).

According to Illinois, the date, under subsection 1.023 of the Interconnection Agreement, which requires Indiana to install 345,000 volt metering equipment, at Indiana's Eugene Substation has been advanced due to Illinois installing a 345,000/138,000 volt Bunsonville Substation (referred to in the Letter of Agreement as Georgetown Substation). Instead of at the time that a second 345,000 volt transmission line is connected to the Sidney substation.

In consideration of these changes, Illinois states it will reimburse Indiana for an amount equal to one-half of Indiana's expenditure for the installation of the 345,000 volt metering equipment at Eugene Substation. This expenditure is presently estimated to be in the order of \$30,000.

Illinois requests that the Letter of Agreement dated March 12, 1973, be permitted to become effective June 15, 1975, the estimated date for the completion of the Bunsonville Substation.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions should be filed on or before June 13, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this filing are available for public inspection at the Federal Power Commission.

MAY 22, 1975.

Take notice that on May 9, 1975, Kansas-Nebraska Natural Gas Company, Inc. (Applicant), P.O. Box 608, Hastings, Nebraska 68901, filed in Docket No. CP 75-334 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the acquisition, construction and operation of facilities for the purpose of developing the Big Springs gas field, Deuel County, Nebraska, as an underground storage field, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

Applicant requests authorization to:

(1) acquire, develop and operate as an underground gas storage reservoir, the "D" sand interval of the Upper Dakota Formation in the Big Springs Field in Deuel County, Nebraska, including the acquisition of storage rights therein, acquisition and use of the remaining gas for cushion gas, the reworking of existing producing and previously abandoned wells and the drilling of new wells as required for storage injection and withdrawal service, at an estimated working gas capacity of 39,000,000 Mcf and an injection-withdrawal capacity of 100,000 Mcf per day;

(2) construct an injection-withdrawal system consisting of approximately 11.1 miles of 12 3/4-inch O.D., 10 3/4-inch O.D., and 6 3/4-inch O.D. pipeline, dehydration equipment, measurement and other auxiliary facilities necessary to inject and withdraw gas, and to salvage the existing gathering system, consisting of approximately 8.8 miles of 4-inch and 8-inch pipeline, following completion of the injection-withdrawal system;

(3) recylinder one 800 H.P. compressor unit now in field gathering service and utilize said unit, in conjunction with existing compressor units presently in transmission service, for dual transmission and storage operations.

Applicant estimates that the total cost of acquiring and developing the Big Springs Field "D" sand reservoir for underground storage, including the converting of existing facilities to dual transmission and storage service and the construction of the required additional facilities, will be \$5,420,000, which will be financed from current working capital or will be obtained from interim bank loans which at a later date may be funded through a security issue.

Applicant states it is presently producing, purchasing and transporting in interstate commerce gas produced from the "D" sand interval of the Upper Dakota Formation in the Big Springs Field, which is approaching depletion. Applicant further states that it is in the process of acquiring by purchase, or contracting to acquire by purchase, the 81.5

percent of leasehold interests and assignments of oil and gas leases in the Big Springs Field not previously owned by Applicant and that it is also securing the remaining royalty interests and obtaining the surface and subsurface rights from the landowners which are required for the gas storage field. As of March 31, 1975, Applicant states it had secured such gas storage agreements covering 36,744 net surface acres or 82.25 percent of the approximately 44,672 acres contained in the proposed storage unit.

Applicant states that the proposed net injection for the first three years will total approximately 18 million Mcf and will consist of 2.8 million Mcf of injected cushion gas and 15.2 million Mcf of working gas and that, after this initial period, gas available during periods of low demand will be injected as system operations allow to build a total storage inventory of 39 million Mcf at Big Springs. Cushion gas requirements for design operating conditions are estimated to be 14.8 million Mcf, consisting of 1.0 million Mcf of nonrecoverable native gas in place, 2.0 million Mcf of remaining recoverable native gas, and 2.8 million Mcf of injected cushion gas.

Applicant avers that the proposed facilities are required to carry out effectively conservation practices and the husbanding of gas for high priority firm gas customers and provide necessary flexibility to manage existing gas supply and to contract effectively and manage new gas supplies as they become available. Applicant also states that the new facilities will provide flexibility in system operations and will obtain greater efficiency in its existing transmission facilities which will improve the reliability of service to its peak day firm gas customers.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 11, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and pro-

## NOTICES

cedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[Project No. 2444]

# LAKE SUPERIOR DISTRICT POWER CO. Filing of Notice of Withdrawal of Application for Surrender of Minor License

MAY 13, 1975.

Public notice is hereby given that notice of withdrawal of application for surrender of minor license was filed on May 2, 1975, pursuant to § 1.11(d) of the Commission's rules of practice and procedure under the Federal Power Act (16 U.S.C. 791a-825r) by Lake Superior District Power Company (correspondence to: Mr. K. S. Austin, President, Lake Superior District Power Company, 101 West Second Street, Ashland, Wisconsin 54806, and Mr. Glen H. Bell, Aberg, Bell, Blake and Metzner, S.C., 222 West Washington Avenue, Madison, Wisconsin 53703) for White River Project No. 2444, located on the White River near the towns of Ashland and Odanah, Ashland County, Wisconsin.

On November 26, 1974, Lake Superior District Power Company (LSDPC) filed an application for surrender of its minor license for White River Project No. 2444. In this application, LSDPC pointed out that the penstock from the project dam to the downstream powerhouse had collapsed, thus rendering the project unusable for the production of power, and averred that it would not be economically feasible to rehabilitate the project for power production purposes.

LSDPC now maintains that there have been two developments in the interim since the application was filed which affect the feasibility of restoring the project to operating condition. These developments are: (1) The new investment tax credit was found to reduce the costs of rehabilitating the project works and making the project operable, and (2) the estimated costs related to abandoning the project were found to be higher than had originally been anticipated.

Accordingly, LSDPC now desires to withdraw its application for surrender of license and has requested the Commission to return the original license for Project No. 2444 which was tendered to the Commission with the application.

Any person desiring to be heard or to make protest with reference to said notice should on or before May 30, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The notice is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. E-9206]

# MCDOWELL COUNTY CONSUMER COUNCIL, INC.

Extension of Time

MAY 21, 1975.

On May 16, 1975, McDowell County Consumer Council, Inc., filed a motion for extension of time to file response to the April 30, 1975, motion of Appalachian Power Company to dismiss, in the above-designated matter.

Upon consideration, notice is hereby given that the time to respond to the above motion to dismiss is extended to and including May 30, 1975.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 75-13986 Filed 5-28-75; 8:45 am]

[Docket No. CP75-339]

# MICHIGAN CONSOLIDATED GAS CO.

Application

MAY 22, 1975.

Take notice that on May 14, 1975, Michigan Consolidated Gas Company (Applicant), One Woodward Avenue, Detroit, Michigan 48226, filed in Docket No. CP75-339 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to render natural gas storage service to Panhandle Eastern Pipe Line Company (Panhandle), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it and Panhandle have entered into a gas storage agreement dated May 1, 1975, providing that during the months of May through October 1975 (the Summer Period), Panhandle will deliver to Applicant for storage, at Applicant's River Rouge Station in Melvindale, Michigan, approximately 3.7 million Mcf of natural gas, and that during the months of November 1975 through April 1976 (the Winter

Period), Applicant will redeliver an equivalent amount of natural gas to Panhandle through displacement, by making deliveries, except during the month of April 1976, to Southeastern Michigan Gas Company (Southeastern) for the account of Panhandle. According to the agreement, if the volume being redelivered on any day by Applicant is in excess of that which Southeastern can accommodate, then the excess shall be redelivered at such other points as the parties may agree upon, but during the month of April 1976 all redeliveries to Panhandle from Applicant shall be by displacement at Applicant's River Rouge Station.

The gas storage agreement also provides that Panhandle shall have the right through May 31, 1975, to increase the volume of gas to be stored by Applicant to 6.0 million Mcf. Applicant proposes to charge Panhandle 43.88 cents per Mcf for natural gas stored.

Applicant states that the gas storage agreement between Applicant and Panhandle is intended only as a temporary arrangement to enable some of Panhandle's resale and direct sale customers to meet their anticipated market or processing requirements during the 1975-76 heating season.

The May 1, 1975, contract provides that the agreement is conditioned upon the issuance by the Commission of requisite authorization to Applicant to provide the storage service without affecting the continued exemption of Applicant under section 1(c) of the Natural Gas Act.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 16, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion

believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[Docket No. CP70-22]

# MICHIGAN WISCONSIN PIPE LINE CO.

Petition To Amend

MAY 22, 1975.

Take notice that on May 15, 1975, Michigan Wisconsin Pipe Line Company (Petitioner), One Woodward Avenue, Detroit, Michigan 48226, filed in Docket No. CP70-22 a petition to amend its import authorization issued pursuant to section 3 of the Natural Gas Act in the subject docket so as to authorize Petitioner to continue importing natural gas from Canada purchased at the new prices to be established by the National Energy Board of Canada, all as more fully set forth in the petition to amend, which is on file with the Commission and open to public inspection.

Petitioner states that on May 5, 1975, the Honorable Donald S. Macdonald, Minister of Energy, Mines and Resources of the Dominion of Canada, issued a statement that the Canadian government will increase the price of natural gas exported to the United States to \$1.40 per Mcf effective August 1, 1975, and to \$1.60 per Mcf effective November 1, 1975.

Petitioner further states that it presently purchases 50,000 Mcf of gas per day from TransCanada PipeLines Limited (TransCanada) which are imported pursuant to authorization granted in the instant docket. The current price paid is \$1.00 per Mcf, which became effective on January 1, 1975, as a result of Canadian government policy to achieve commodity value pricing with respect to energy alternatives in the United States.

Petitioner states that natural gas imported from Canada forms a vital portion of its gas supply, and that, in addition to the gas purchased from TransCanada, Petitioner purchases gas from other Canadian sources such that the total gas purchased from Canada represents approximately 14 percent of Petitioner's gas supply on an annual basis. Unless permission is granted for the requested price increase, Petitioner states, it will face the loss of a substantial part of its gas supply.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before June 17, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be

[Docket Nos. RP74-97; PGA75-2]

# MONTANA-DAKOTA UTILITIES CO.

Adjustments Pursuant to PGA Clause

MAY 22, 1975.

Take notice that on May 16, 1975, Montana-Dakota Utilities Co. ("MDU") tendered for filing "Second Revised Sheet No. 3A" to its FPC Gas Tariff, Original Volume No. 4. MDU states that this filing is pursuant to its presently effective Purchased Gas Cost Adjustment Provision. The proposed effective date is July 1, 1975.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 6, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. E-9442]

# NEW BEDFORD GAS AND EDISON LIGHT CO.

Cancellation of Rate Schedule

MAY 22, 1975.

Take notice that New Bedford Gas and Edison Light Company (New Bedford), on May 14, 1975, tendered for filing Notice of Cancellation of certain Rate Schedules now on file with the Commission on behalf of Cape and Vineyard Electric Company (Cape). These cancellations are sought to become effective as of January 31, 1972, the effective date of the merger of Cape into New Bedford, and the dissolution of Cape as a corporate entity.

Two Rate Schedules are to be affected: (1) Rate Schedule FPC No. 1, consisting of an agreement dated February 27, 1969, wherein New England Power Company established and operated a central dispatch and interchange office known as REMVEC. (2) Rate Schedules FPC No. 8 to 11, consisting of agreements dated

February 14, 1972, wherein NEPOOL member companies, of which Cape is one, agreed to exchange energy between themselves and four other New York energy companies.

This request is filed pursuant to an order of the Commission issued January 20, 1972, in Docket No. E-7640 (47 FPC 122), and the Commission's request to New Bedford dated February 26, 1975. In light of the foregoing, New Bedford requests waiver of the notice requirements pursuant to § 35.11 of the regulations.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 12, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

## NOTICES

were refunded pursuant to the Commission's Order issued March 18, 1974, denying Phillips' special relief and ordered Phillips to comply with the provision of Opinion No. 586, Docket No. AR64-1, et al.

Northern further states that its proposed disposition of the refunds in the amount of \$5,600,671.09 is in accord with the provision set forth in the documents comprising Northern's settlement agreements in Docket No. G-19040 which settlement was approved by Commission Order issued December 27, 1961.

Northern states that copies of the filing have been mailed to each of the Gas Utility customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 28, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.75-13992 Filed 5-28-75; 8:45 am]

[Docket Nos. CP75-340, CP75-341, and CP75-342]

## NORTHWEST PIPELINE CORP.

## Applications

MAY 22, 1975.

Take notice that on May 15, 1975, Northwest Pipeline Corporation (Applicant), P.O. Box 1526, Salt Lake City, Utah 84110, filed in Docket Nos. CP75-340, CP75-341, and CP75-342 applications pursuant to Section 3 of the Natural Gas Act for authorization to continue the importation of natural gas from Canada at points on the International Boundary near Sumas, Washington, and Kingsgate, British Columbia, purchased at the prices established by the Government of Canada and as have been or will be the subject of appropriate order of the National Energy Board of Canada (NEB), all as more fully set forth in the applications, which are on file with the Commission and open to public inspection.

Applicant states that on May 5, 1975, the Honorable Donald S. Macdonald, Minister of Energy, Mines and Resources of the Dominion of Canada, issued a statement on the pricing of gas exports to the United States. The Canadian government, according to the statement, has decided to establish, effective August 1, 1975, a new export price for gas of \$1.40 per Mcf and to adjust that price upwards

to \$1.60 per Mcf on November 1, 1975. Applicant, as a result, requests permission to import gas pursuant to authorizations previously granted but at the new costs to be established by the NEB.

In the application in Docket No. CP75-340, Applicant requests authorization to continue the importation of up to 125,000 Mcf on a peak day and 30,000 Mcf per day on an annual basis at the Kingsgate import point. The volumes were authorized to be imported by Commission order issued December 28, 1973, in Docket No. CP73-332, as amended October 31, 1974. Said volumes are made available to Westcoast Transmission Company Limited (Westcoast) from Alberta and Southern Gas Company Limited (A&S) on a best efforts basis. The application in Docket No. CP75-340 states that the permission to export the subject volumes of natural gas expires on October 31, 1975. Applicant requests the Commission to authorize the importation of these volumes of natural gas at Kingsgate at a cost of \$1.40, effective August 1, 1975. In its application in Docket No. CP75-341, Applicant requests authorization to import gas, purchased at the increased prices to be established, at the Sumas import point. By order issued September 21, 1973, in Docket No. CP73-332, the Commission authorized Applicant to import at Sumas up to 800,000 Mcf of gas per day at 14.9 psia purchased from Westcoast. Applicant requests authorization to import gas purchased at \$1.40 per Mcf effective August 1, 1975, and \$1.60 per Mcf effective November 1, 1975.

In its application in Docket No. CP75-342, Applicant requests authorization to import gas, purchased at increased prices of \$1.40 and \$1.60 per Mcf, from Westcoast at Kingsgate. By the September 21, 1973, order in Docket No. CP73-332, Applicant was authorized to import 151,731 Mcf on a peak day and 51 million Mcf annually (at 14.73 psia) at Kingsgate.

Applicant states that the Sumas volumes represent approximately 52 percent of its annual gas supply and that the Kingsgate volumes represent approximately 11 percent of its annual gas supply. Applicant further states that the gas obtained through A&S is required to assist Applicant in providing a supplemental supply of natural gas to assist it in satisfying the requirements of its customers as a result of the shortfall which Applicant has experienced at the Sumas import point.

Applicant states that the increases of the price of Canadian gas will result in an increase in Applicant's jurisdictional rates of 27.57 cents per Mcf, effective August 1, 1975 (\$117,413,539 in annualized system purchased gas costs) and that it will file for an increase in rates effective November 1, 1975, to recover an estimated additional \$58,600,000 in annualized purchased gas costs.

The increase described herein is said to be the next step in the policy of the Canadian government to increase the price of exported gas so as to increase prices progressively towards achieving a goal of commodity value pricing of nat-

ural gas in relation to energy alternatives in the United States. Effective November 1, 1974, the NEB had increased the price of exported gas to \$1.00 per Mcf at Sumas and for the A&S gas; and effective January 1, 1975 the price for the gas exported at Kingsgate was increased to \$1.00 per Mcf.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 17, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.75-13993 Filed 5-28-75; 8:45 am]

## PANHANDLE EASTERN PIPE LINE CO.

[Docket No. CP75-335]

## Application

MAY 21, 1975.

Take notice that on May 13, 1975, Panhandle Eastern Pipe Line Company (Applicant), P.O. Box 1642, Houston, Texas 77001, filed in Docket No. CP75-335 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to transport natural gas in interstate commerce to implement a gas storage agreement between Applicant and Michigan Consolidated Gas Company (Mich Con) and gas storage and transportation agreements between Applicant and certain of its existing customers, all as more fully described in the application, which is on file with the Commission and open to public inspection.

Applicant seeks authorization to transport gas to implement agreements with certain of its customers which provide that, during the 1975 summer period, such customers will direct that a portion of their monthly gas entitlement be transported by Applicant to storage and that, during the 1975-76 heating season, specified portions of such stored volumes will be redelivered by Applicant. The total proposed charge for the services to be performed by Applicant during the summer and winter period is 48.88 cents per Mcf for gas delivered into storage and redelivered.

The volumes of gas to be stored are proposed to be transported and delivered by Applicant to Mich Con at an existing measurement facility at Melvindale, Michigan, for injection into Mich Con's underground storage fields. Applicant would pay Mich Con 43.88 cents per Mcf

for such storage service according to the applicable contract. No new facilities will be required to be installed by Applicant to implement this storage project, the application states.

Applicant states that this arrangement will assist the participating customers by providing, at a minimum of cost to such customers, additional volumes of gas during the winter season when curtailments are at their deepest level.

According to the contract between Applicant and Mich Con, Applicant's deliveries to Mich Con would total up to 3,700,000 Mcf of natural gas. The contract also provides that the agreement is conditioned upon the issuance by the Commission of requisite authorization to Mich Con to provide the storage service without affecting the continued exemption of Mich Con under section 1(c) of the Natural Gas Act.

Applicant has contracted with the following customers for the following storage volumes in connection with its arrangement with Mich Con:

Customer:	Volume (Mcf)
Michigan Gas Utilities Co.	552,000
Ohio Gas Co.	235,000
The Toledo Edison Co.	35,000
Citizens Gas Fuel Co.	154,000
City of Indianapolis	1,130,000
Missouri Utilities Co.	65,000
City of Morton, Ill.	70,000
Brockway Glass Co., Inc.	20,830
Alsey Refractories Co.	21,000
Johns-Manville Fiber Glass, Inc.	250,000
National Distillers and Chemical Corp.	750,000
Marblehead Lime Co.	10,000
Northern Indiana Public Service Co.	1,000,000
Hayes-Albion Corp., Albion Millable Division	30,000
City of Bushnell, Ill.	18,100
The Gas Service Co.	20,000

Any person desiring to be heard or to make any protest with reference to said application should on or before June 13, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public

SOUTHERN NATURAL GAS CO.  
Proposed Changes in FPC Gas Tariff

MAY 22, 1975.

Take notice that Southern Natural Gas Company (Southern) on May 16, 1975 tendered for filing proposed changes in its FPC Gas Tariff, Sixth Revised Volume No. 1, to become effective July 1, 1975. Such filing is pursuant to Section 17 (Purchased Gas Adjustment) of the General Terms and Conditions of Southern's FPC Gas Tariff, Sixth Revised Volume No. 1. The proposed changes would decrease the commodity and one-part rates by 6.358¢ per Mcf. The overall decrease is made up of the following items:

(1) A Current Adjustment, pursuant to § 17.3, for decreased cost of purchased gas to jurisdictional customers of \$40,064,133, or 6.645¢ per Mcf.

(2) A Surcharge Adjustment, pursuant to § 17.4 of the General Terms and Conditions of Southern's FPC Gas Tariff, for Unrecovered Purchased Gas Costs. The balance in Account No. 191, Unrecovered Purchased Gas Costs, as of March 31, 1975, is \$2,862,724. Such balance will be returned over the estimated sales for the six-month period commencing July 1, 1975 and reflects a net increase of .287¢ above the present Surcharge Adjustment.

Copies of the filing are being served upon the company's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 11, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.75-13995 Filed 5-28-75; 8:45 am]

[Docket No. CP75-329]

## STINGRAY PIPELINE CO.

## Application

MAY 21, 1975.

Take notice that on May 6, 1975, Stingray Pipeline Company (Stingray), P.O. Box 1642, Houston, Texas 77001, filed in Docket No. CP75-329, an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain pipeline facilities for the transportation of natural gas for Natural Gas Pipeline Company of America (Natural), Trunkline Gas Company (Trunkline), and United Gas Pipe Line Company

(United), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Stingray proposes to construct and operate approximately 5 miles of 12 3/4-inch O.D. gathering line to connect the West Cameron Block 533 Field (West Cameron Blocks 532, 533, and 534, offshore Louisiana), plus 7.1 miles of 6.5-inch O.D. pipeline to connect the East Cameron Block 322 Field (East Cameron Blocks 322 and 323, offshore Louisiana) together with related facilities for the gathering and transmission of gas through Stingray's offshore system (authorized in Commission Opinion No. 693 (51 FPC )) to the existing onshore delivery point to Natural at the terminus of Stingray's system. The total cost of the facilities applied for by Stingray is estimated to be approximately \$5,100,000 which cost is to be financed by revolving credit and term loan agreements with banks, equity contributions, and internally generated funds.

Stingray states that all of the production from the West Cameron Block 533 Field will be purchased by Natural, United, and Trunkline under various contracts with the various producers, and all of the production from the East Cameron Block 322 Field will be purchased by Natural and Trunkline. Stingray states that it will receive the production at the producers' platforms and transport it to shore pursuant to Stingray's existing transportation contracts with Natural and Trunkline (Stingray's FPC Rate Schedule T-1) and with United (Stingray's FPC Rate Schedule T-2). Stingray states that proved, probable and potential reserves for transportation approximate 130 million Mcf from the West Cameron Block 533 Field and 9 million Mcf from the East Cameron Block 322 Field.

The application indicates that the proposed facilities will be extensions of Stingray's system which will have a total capacity of 1,000,000 Mcf per day. Stingray proposes to charge a transportation rate of \$3.02 per Mcf based on a rate of return of 10.38 percent.

Stingray further requests approval of an amendment dated April 28, 1975, to its transportation contract with United dated October 2, 1973, which amendment adds the West Cameron Block 533 Field as an additional point of receipt from United without altering the daily transportation quantity.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 13, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a

proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc 75-13996 Filed 5-28-75; 8:45 am]

[Docket Nos. CI75-45, et al. CP75-330]

#### TENNECO OIL CO. ET AL. AND TRUNKLINE GAS CO.

Order Consolidating Proceedings and  
Prescribing Service of Evidence

May 16, 1975.

By order issued April 14, 1975, the Commission, inter alia, consolidated a number of proceedings in Docket No. CI75-45, et al., granted petitions to intervene, ordered a formal hearing to convene on May 19, 1975, and prescribed procedures to be followed therein.

Subsequent to the issuance of the Commission's April 14, 1975, order, Trunkline Gas Company (Trunkline) filed an application in Docket No. CP75-330, seeking a certificate of public convenience and necessity authorizing the transportation of certain volumes of gas for two groups of producers. These groups include Placid Oil Company, Hunt Industries, Hunt Petroleum Corporation, Hamilton Brothers Oil Company, Hamilton Brothers Exploration Company, Hamilton Brothers Petroleum Corporation (Placid Group) and Ashland Oil, Inc., Highland Resources, Inc. and Kewanee Oil Company (Ashland Group). This application also involves the transportation of offshore reserves from South Marsh Island Blocks 268, 269 and 281. The gas to be transported will be received in a common stream with other gas purchased by Trunkline from other producers and will be transported through facilities requested by Trunkline in Docket No. CP75-19. On May 7, 1975, Trunkline filed a motion requesting the Commission to consolidate the above referenced docket with Docket No. CP75-19.

The Commission in considering Trunkline's motion has taken note of the relationship of the issues contained in the

instant proceeding to those set forth in Docket No. CP75-19, which has been consolidated, with other dockets, into Docket No. CI75-45, et al., and has determined that a sufficiently direct relationship exists to warrant the consolidation of this docket with Docket No. CI75-45, et al.

The Commission finds. The proceeding involved in Docket No. CP75-330 contains common questions of law and fact with the proceedings in Docket No. CP75-45, et al., consequently, good cause exists to consolidate this proceeding with Docket No. CP75-45, et al.

The Commission orders. (A) The Proceeding involved in Docket No. CP75-330 is hereby consolidated with the proceedings in Docket No. CP75-45, et al., for purposes of hearing and decision.

(B) Applicants and persons in support of the application in Docket No. CP75-330 shall serve prepared testimony in support thereof, including prepared testimony of witnesses and exhibits, on the Office of the Administrative Law Judge, the Commission's Staff, and every party to this proceeding within ten days after issuance of this order.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[FR Doc 75-13997 Filed 5-28-75; 8:45 am]

[Docket Nos. RP74-48 and RP75-3 AP75-1]

#### TRANSCONTINENTAL GAS PIPE LINE CORP.

Notice of Tariff Filing

May 22, 1975.

Take notice that Transcontinental Gas Pipe Line Corporation (Transco) on May 16, 1975, tendered for filing seven revised tariff sheets to its FPC Gas Tariff, First Revised Volume No. 1 and Original Volume No. 2.

Transco states that such filing is made in accordance with the provisions of Section 6 of Article III of its Agreement as to Rates in the above dockets to track advance payments for gas not previously reflected in rates of \$32.287,081. The proposed effective date of the filing is July 1, 1975, subject to Commission approval of the Agreement.

Transco states that the revised tariff sheets included in the filing reflect an increase of 0.6¢ per Mcf in the commodity rate or delivery charge of the Company's CD, G, OG, E, PS, S-2, X-11, X-20, X-42, X-52, and X-56 rate schedules.

The company states that copies of the filing have been mailed to each of the Company's jurisdictional customers and interested State Commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 6, 1975. Protests will be considered by the Commission in determining

the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc 75-13977 Filed 5-28-75; 8:45 am]

[Docket No. CP75-337]

#### TRANSCONTINENTAL GAS PIPE LINE CORP.

Application

May 22, 1975.

Take notice that on May 13, 1975, Transcontinental Gas Pipe Line Corporation (Applicant), P.O. Box 1396, Houston, Texas 77001, filed in Docket No. CP75-337 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to transport up to 15,000 Mcf per day of natural gas on an interruptible basis for Public Service Electric and Gas Company (Public Service), an existing resale customer of Applicant, under a transportation agreement between the two companies dated April 11, 1975, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The subject gas is proposed to be delivered to Applicant at an existing point of interconnection of Applicant's system with that of Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), near Rivervale, Bergen County, New Jersey, and subsequently delivered to Public Service at existing points of delivery to that customer on Applicant's Rivervale lateral.

According to the application, Public Service will pay Applicant an initial charge of 2.8 cents per Mcf transported. No additional facilities are proposed.

Applicant states that Public Service, as one means of alleviating the shortage of natural gas on its distribution system, has arranged to purchase from its subsidiary, Energy Development Corporation (EDC), up to 15,000 Mcf of gas per day to be produced in the North Parc Perdue Field, Lafayette and Vermillion Parishes, Louisiana. The gas, according to the application is to be transported to the gasoline plant of Shell Oil Company located near Chalkley, Louisiana, by Texas Gas Transmission Corporation (Texas Gas), and thence transported to the Rivervale point of delivery to Applicant by Tennessee. Applications by Texas Gas and Tennessee to render these services are pending in Docket Nos. CP75-275 and CP75-276, respectively.

Applicant further states that EDC has been granted a small producer certificate in Docket No. CS73-296, which, Applicant claims, will permit EDC to sell the subject gas to Public Service.

Any person desiring to be heard or to make any protest with reference to said application should on or before June

12, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[Docket No. E-9447]

#### VIRGINIA ELECTRIC AND POWER CO. Contract Supplement and Delivery Point Change

May 22, 1975.

Take notice that on May 15, 1975, Virginia Electric and Power Company (Virginia), tendered for filing a Contract Supplement dated April 14, 1975, to the Agreement designated as Virginia's Rate Schedule FPC No. 93-12 between Virginia and Tideland Electric Membership Corporation (Tideland). Also, Virginia requests cancellation as of March 31, 1975, of an Agreement for the Purchase of Electricity for Resale and a supplemental agreement servicing Pamlico Power and Light Company (Pamlico). Virginia states that Pamlico's delivery point load was transferred permanently to Tideland's Fairfield Delivery Point on April 1, 1975.

Said supplement requests Commission authorization for connection of Tideland's Fairfield Delivery Point, located on and east of N.C. Route 94 and approximately 1.4 miles south of the Intracoastal Waterway, in Hyde County, North Carolina. Fairfield Delivery Point was created by the transfer, by contract and lease, of

the facilities of Pamlico Power and Light Company, and all its customers, to Tideland as of midnight March 31, 1975.

Virginia requests an effective date for the termination of the Agreement with Pamlico as of March 31, 1975, and for the connection of the Fairfield Delivery Point as of April 1, 1975, and further requests waiver of those regulations requiring timely filing and filing of cost of service data.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 12, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

#### GENERAL ACCOUNTING OFFICE REGULATORY REPORTS REVIEW

Receipt of Report Proposal

The following request for clearance of a report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO on May 27, 1975. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of the request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed report form are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed form, comments (in triplicate) must be received on or before June 16, 1975, and should be addressed to Mr. Monte Canfield, Jr., Director, Office of Special Programs, United States General Accounting Office, 425 I Street NW., Washington, D.C. 20548.

Further information may be obtained from the Regulatory Reports Review Officer, 202-376-5425.

#### FEDERAL ENERGY ADMINISTRATION

On May 21, the Federal Energy Administration submitted to GAO a proposed report form P-302-M-1 entitled, Petroleum Industry Monthly Report for Product Prices. This is a revision to Parts I-IV of the CLC-90. All refiners including gas plant operators, and those Re-

sellers and Retailers which derive \$50 million or more in annual sales or revenues from the retailing or reselling of covered products shall prepare and file this form. This form will collect information on volume and price information on sales of petroleum products, sales of products from gas plants and costs of imported products. The amount of time required to complete the report form will vary with the size of the firm, but the average number of man hours per response is estimated to be 220.

CARL F. BOGAR,  
Assistant Director,  
Regulatory Reports Review.

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (75-34)]

### ADVISORY BOARD ON AIRCRAFT FUEL CONSERVATION TECHNOLOGY

#### Meeting

The Advisory Board on Aircraft Fuel Conservation Technology will meet on June 18, 1975, at NASA Headquarters, Washington, D.C. 20546. The meeting will be held in Room 625 of Federal Office Building 10B, 600 Independence Avenue SW. Members of the public will be admitted on a first-come, first-served basis, up to the seating capacity of the room which is about 40 persons. All visitors must sign in prior to attending the meeting.

The Advisory Board on Aircraft Fuel Conservation Technology serves in an advisory capacity. Its Chairman is Dr. Raymond L. Bisplinghoff, and there are 13 members. The following list sets forth the approved agenda and schedule for the meeting of this Advisory Board on June 18, 1975. For further information, please contact the Executive Secretary, Mr. James J. Kramer, Area Code 202, 755-2403.

JUNE 18, 1975

Time	Topic
9 a.m.	Remarks by the Chairman (Purpose: To review the status of the Advisory Board Report resulting from the last Board meeting.)
9:15 a.m.	Remarks by the Associate Administrator for Aeronautics and Space Technology (Purpose: To review the actions taken on the Aircraft Fuel Conservation Technology Plan since the last meeting and outline the future steps to be taken for approval of the plan.)
9:30 a.m.	Report by the Executive Secretary (Purpose: To present the Final Aircraft Fuel Conservation Technology Plan prepared by a Task Force of NASA and other Government agency personnel.)

## NOTICES

Time	Topic
1 p.m.	Advisory Board Discussion (Purpose: To evaluate and prioritize the elements of the Aircraft Fuel Conservation Technology Plan for the purpose of presenting to NASA a recommended and endorsed list of technology programs.)
3 p.m.	Chairman's Report (Purpose: To present the consensus views of the Board on the Final Task Force Aircraft Fuel Conservation Technology Plan and an endorsed list of prioritized programs.)
4 p.m.	Consideration of Future Advisory Board Activities (Purpose: To determine what actions the Advisory Board should undertake in the future.)
4:30 p.m.	Adjournment.

DUWARD L. CROW,  
Assistant Administrator for  
DOD and Interagency Affairs,  
National Aeronautics and  
Space Administration.

MAY 22, 1975.

## NATIONAL SCIENCE FOUNDATION

### AD HOC TASK GROUP 13 OF THE ADVISORY COMMITTEE FOR RESEARCH

#### Open Meeting

A two-day meeting of Task Group 13 of the Advisory Committee for Research will be held on June 19 and 20, beginning at 9 a.m. in Rm. 543 at the National Science Foundation, 1800 G Street NW., Washington, D.C.

The purpose of the ad hoc task group of the Advisory Committee for Research is to provide the Committee with a mechanism to consider numerous issues of interest to the full Committee. The task groups are composed of members of the Advisory Committee for Research and function in accordance with the Federal Advisory Committee Act, Pub. L. 92-463.

The agenda for this meeting will be a discussion of the implications of relying more heavily upon institutions and departments to select the highest quality individual research projects. The task group will also discuss alternatives for more effectively distributing limited support for scientific research equipment.

The meeting is open to the public. Anyone who plans to attend or would like more information about the task group should contact Mr. Leonard Gardner, Executive Secretary, Advisory Committee for Research, Rm. 320, National Science Foundation, Washington, D.C. 20550, telephone 202/632-4278.

Summary minutes of this meeting may be obtained from the Committee Management Coordination Staff, Management Analysis Office, National Science Foundation, Rm. 248, Washington, D.C. 20550.

FRED K. MURAKAMI,  
Committee Management Officer.

MAY 22, 1975.

[FR Doc.75-13906 Filed 5-28-75; 8:45 am]

## NATIONAL TRANSPORTATION SAFETY BOARD

[1467A, 1432A; 1323]

### ACCIDENT REPORTS; RESPONSE TO SAFETY RECOMMENDATION

#### Notice of Availability and Receipt

The National Transportation Safety Board announces the release last week of an aviation accident report and a highway accident report which contains two safety recommendations. Also, a letter responsive to an earlier Safety Board recommendation was received.

The reports are available to the general public; single copies may be obtained without charge. A \$4.00 user-service charge will be made for the response copy, in addition to a charge of 10¢ per page for reproduction. All requests must be in writing, addressed to: Publications Unit, National Transportation Safety Board, Washington, D.C. 20594.

Multiple copies of the accident reports may be purchased from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151.

**Aviation Accident Report.** Report No. NTSB-AAR-75-7, released May 19, 1975, concerns the crash of a Trans World Airlines Boeing 707 in the Ionian Sea, September 8, 1974. The Safety Board determined that the probable cause of the accident was the "detonation of an explosive device within the aft cargo compartment of the aircraft which rendered the aircraft uncontrollable." On January 10, 1975, the Board issued four safety recommendations to the Federal Aviation Administration, aimed at increasing the security of international and domestic flights. FAA responded April 16, 1975. (40 FR 21079)

**Highway Accident Report.** Report No. NTSB-HAR-75-1, released May 22, 1975, covers the schoolbus-type bus crash at Blythe, California, January 15, 1974, which killed the driver and 18 Mexican farm laborers. The Safety Board found the probable cause of the accident to be the "failure of the driver to reduce the speed of the bus to that required to negotiate the turn, despite the presence of a turn warning/advisory speed sign. Contributing to this failure was a lack of driver alertness induced by fatigue." The Board recommended that the Riverside County Road Commission (1) survey the accident scene and insure that turn warning/advisory speed signs conform with the Federal Highway Administra-

tion's Manual on Uniform Traffic Control Devices for Streets and Highways, and (2) "provide delineation of the pathway around the turn." (Recommendations H-75-1 and -2 are contained in the report.)

**Response to safety recommendation.** The Federal Railroad Administration has again responded to Recommendation R-74-27, contained in the Board's report No. NTSB-RAR-74-3, "Collision of Missouri Pacific Railroad Company Freight Train Extra 615 South with a Standing Locomotive, Cotulla, Texas, December 1, 1973." FRA's response of May 13, 1975, was in reply to the Safety Board's answer of April 1, 1975, to an earlier FRA letter dated December 11, 1974. The recommendation to FRA required positive indications of both normal and reversed switch positions on main tracks not equipped with automatic block signals. The May 13 letter states, "After considering all of the variables involved in this accident, it was our conclusion that to require by Federal law a device (namely a switch target), which would duplicate the installation at the time of accident, would have very little impact on safety, if the other factors were not concurrently addressed."

(Secs. 304(a)(2) and 307 of the Independent Safety Board Act of 1974 (Pub. L. 93-633, 88 Stat. 2169, 2172 (40 U.S.C. 1903, 1906)))

MARGARET L. FISHER,  
Federal Register Liaison Officer.

## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-237 and 50-249]

### COMMONWEALTH EDISON CO.

#### Issuance of Amendments to Facility Licenses

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment Nos. 8 and 6 to Facility Operating License Nos. DPR-19 and DPR-25 (respectively) to the Commonwealth Edison Company (the licensee) which revised Technical Specifications for operation of the Dresden Nuclear Power Station Units 2 and 3 (the facilities) located in Grundy County, Illinois. The license amendments are effective as of their date of issuance.

The license amendments revised the Technical Specifications for the facilities to incorporate appropriate requirements for flood protection equipment and to include a change to the performance requirements for the containment cooling service water pumps in accordance with the licensee's request dated November 4, 1974.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the

## NOTICES

license amendments. Notice of Proposed Issuance of Amendments to Facility Operating Licenses in connection with this action was published in the FEDERAL REGISTER on January 28, 1975 (40 FR 4194). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

39-000—Folio 1382—31-10—5-28-75  
55230—C. F. LEONARD—(5)—Day Lino  
For further details with respect to these actions, see (1) the application for amendments dated November 4, 1974, (2) Amendment Nos. 8 and 6 to License Nos. DPR-19 and DPR-25, with Change Nos. 34 and 23, respectively, and (3) the Commission's concurrently issued related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C., and at the Morris Public Library at 604 Liberty Street in Morris, Illinois 60451. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 16th day of May 1975.

For the Nuclear Regulatory Commission.

## PHILADELPHIA ELECTRIC CO. (FULTON UNITS 1 AND 2)

### Special Prehearing Conference

Notice is hereby given that the Special Prehearing Conference previously scheduled to be held on May 21, 1975, will be held on Wednesday, June 18, 1975 at 11 a.m., at the Lancaster County Courthouse, Courtroom No. 2, at Duke and East King Streets, Lancaster, Pennsylvania.

The Conference will deal with the matters set forth in the Board's Notice of May 2, 1975, to wit, a consideration of the current status of discovery procedures in the case. The attention of the parties is specifically called again to the Board's directive that the parties consult prior to the Conference with a view toward a possible resolution of the pending objections on discovery.

It is so ordered.

Dated at Bethesda, Maryland this 22nd day of May 1975.

For the Atomic Safety and Licensing Board.

MAX D. PAGLIN,  
Chairman.

## REGULATORY GUIDE

### Issuance and Availability

The Nuclear Regulatory Commission has issued a new guide in its Regulatory Guide Series. This series has been developed to describe and make available to

the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations, and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 1.70.33, "Information for Safety Analysis Reports—Initial Test Programs," identifies information that is needed in safety analysis reports at the construction permit and operating license stages of review.

This guide is one of a number being issued in the 1.70.X series to identify information that has often been missing from applicants' safety analysis reports or to present revisions necessary to make a portion of the "Standard Format and Content of Safety Analysis Reports for Nuclear Power Plants," Revision 1, October 1972 (Regulatory Guide 1.70), consistent with the appropriate Standard Review Plan. Standard Review Plans (SRPs) are being prepared by the NRC staff for the guidance of staff reviewers who perform the detailed safety review of applications to construct or operate nuclear power plants. A primary purpose of SRPs is to improve the quality and uniformity of staff reviews and to provide a well-defined base from which to evaluate proposed changes in the scope and requirements of reviews. A complete Revision 2 of the Standard Format incorporating the changes presented in this 1.70.X series will be issued following completion of publication of the SRPs.

Comments and suggestions in connection with improvements in all published guides are encouraged at any time. Public comments on Regulatory Guide 1.70.33 will, however, be particularly useful in developing the forthcoming revision of the Standard Format if received by July 28, 1975.

Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section.

Regulatory Guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Telephone requests cannot be accommodated. Regulatory Guides are not copyrighted and Commission approval is not required to reproduce them.

(5 U.S.C. 522(a))

Dated at Rockville, Maryland this 21st day of May 1975.

For the Nuclear Regulatory Commission.

ROBERT B. MINOGUE,  
Acting Director,  
Office of Standards Development.

# OFFICE OF MANAGEMENT AND BUDGET

## CLEARANCE OF REPORTS List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on 05/23/75 (44 U.S.C. 3509). The purpose of publishing this list in the *FEDERAL REGISTER* is to inform the public. The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

Requests for extension which appear to raise no significant issues are to be approved after brief notice thru this release. Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503 (202-395-4529), or from the reviewer listed.

### NEW FORMS

#### VETERANS ADMINISTRATION

Report of Grant Expenditures, 10-5359, annually, colleges and universities, Lowry, R. L., 395-3772.

#### NATIONAL ACADEMY OF SCIENCES

Guide for Interviewing non-Research Patients, DMS-BRVA-00, single-time, VA patients, Dick Eisinger, 395-4716.

#### NATIONAL SCIENCE FOUNDATION

Agency-Industry questionnaires, single-time, nonprofit organizations and universities, Hulett, D. T., 395-4730.

#### DEPARTMENT OF AGRICULTURE

Economic Research Service, Project Statement and Survey Plans, Public Values, and Attitudes Toward Predator Control, single-time, telephone households in mainland U.S., Lowry, R. L., 395-3772.

#### DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education, Application for Admission to an Institute, Short-Term Training Program or Special Project V-E Pub. L. 90-35 (EPDA), OE 1186, annually, institute nominees, Lowry, R. L., 395-3772. Budget and Financial Report of Funds Received Under Title V-E, EPDA, Pub. L. 90-35, OE 1163, annually, directors of institutions and training programs, Lowry, R. L., 395-3772.

Office of the Secretary, Services for the Aging: Preliminary Plan for Area Planning and Social Services Program Evaluation, OE-31-75, single-time, services delivery systems members, Reese, B. P., 395-5630.

#### DEPARTMENT OF THE TREASURY

Departmental and other Bicentennial Coin Set Survey Questions, single-time, mint visitors, Caywood, D. P., 395-3443.

## NOTICES

### REVISIONS

#### VETERANS ADMINISTRATION

Certification of Loan Disbursement, 26-1876, on occasion, veteran and lender, Caywood, D. P., 395-3443.

### EXTENSIONS

#### DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service, Certification of Use or Non-Use of DDT or TDE on Tobacco, MQ-38, on occasion, Burley, Fire, Sun, Air, Cigar tobacco producers, Lowry, R. L., 395-3772. Food and Nutrition Service, Special Milk Program Agreement, FNS-826-2, on occasion, schools/service institutions, Marsha Traynham, 395-4529. National School Lunch and Milk Program Application, FNS-1, annually, nonprofit private schools, Marsha Traynham, 395-4529.

#### DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education, Application for a Stipend for Teachers Attending Institutes, OE-7213, on occasion, institute graduate nominees, Lowry, R. L., 395-3772.

#### DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Housing Production and Mortgage Credit, Home Mortgage Default Notice, FHA-2068, on occasion, Community & Veterans Affairs Division, 395-3532. Housing Management, Monthly Report for Establishing Net Income, HUD 93479, monthly, Community & Veterans Affairs Division, 395-3532.

#### DEPARTMENT OF LABOR

Manpower Administration, Area Manpower Reports, semi-annually, State employment security agencies, Strasser, A., 395-3880.

#### DEPARTMENT OF THE INTERIOR

Bureau of Mines, Distribution of Bituminous Coal and Lignite Shipments, 6-1419-Q, quarterly, Marsha Traynham, 395-4529. Crude Feldspar and Feldspar Concentrates (Production), 6-1204-A, annually, Marsha Traynham, Peterson, M. O., 395-4529. Ground Feldspar (Grinders Report), 6-1245-A, annually, Marsha Traynham, Peterson, M. O., 395-4529. Synthetic Mullite In, 1286-A, annually, Marsha Traynham, 395-4529.

#### ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

Report of Proposed Foreign Travel, AEC-290, on occasion, Userda and contractor employees, Marsha Traynham, 395-4529.

PHILLIP D. LARSEN,  
Budget and Management  
Officer.

## POSTAL RATE COMMISSION VISIT TO POSTAL FACILITY

MAY 22, 1975.

Notice is hereby given that the Chairman of the Postal Rate Commission will be visiting the Atlanta Bulk Mail Facility on May 23, 1975, for the purpose of acquiring general background knowledge of postal operations.

No particular matter at issue in contested proceedings before the Commission nor the substantive merits of a matter that is likely to become a particular matter at issue in contested proceedings before the Commission will be discussed. A report of the visit will be on file in the Commission's docket room.

By direction of the Commission.  
JAMES R. LINDSAY,  
Secretary of the Commission.

## INTERSTATE COMMERCE COMMISSION

[Notice 777]

### ASSIGNMENT OF HEARINGS

MAY 23, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

I & S 9034, Coal, Harris West Virginia to Hycos, North Carolina, now assigned July 21, 1975, at Washington, D.C. is postponed to August 25, 1975 at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 138806, James B. Chiselm Common Carrier Application, now assigned June 24, 1975 at Savannah, Georgia; will be held in Room 108 Federal Building & U.S. Courthouse, 125 Bull Street, MC 124174 Sub 100, Momen Trucking Co., now assigned July 28, 1975 at Amarillo, Texas is cancelled and transferred to Modified Procedure.

I & S 9033, Coal Transfer Charges at Lake Erie Ports, has been continued to June 24, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

AB-43 Sub 3, Illinois Central Gulf Railroad Company Abandonment Dyersburg Branch Between Roberts and Dyersburg, in Madison, Crockett, and Dyer Counties, Tennessee, now being assigned July 23, 1975 (3 days) at Alamo, Tennessee; in a hearing room to be designated later.

MC 106674 Sub 142, Schilli Motor Lines, Inc., now being assigned July 28, 1975 (1 day) at Memphis, Tennessee; in a hearing room to be designated later.

MC 107496 Sub 986, Ruan Transport Corporation, now being assigned July 29, 1975 (2 days) at Memphis, Tennessee; in a hearing room to be designated later.

MC 106497 Sub 108, Parkhill Truck Company, now being assigned July 31, 1975 (2 days) at Memphis, Tennessee; in a hearing room to be designated later.

MC 98952 Sub 31, General Transfer Company, now assigned July 7, 1975 at Indianapolis, Indiana, has been postponed indefinitely.

## NOTICES

MC 42261 Sub 120, Langer Transport Corp., now being assigned July 7, 1975 (2 days) at New York, New York; in a hearing room to be designated later.

MC 107743 Sub 28, System Transport, Inc., now assigned July 15, 1975 at Portland, Oregon, has been postponed indefinitely.

[SEAL] JOSEPH M. HARRINGTON,  
Acting Secretary.

[FR Doc.75-14028 Filed 5-28-75;8:45 am]

## FOURTH SECTION APPLICATIONS FOR RELIEF

MAY 23, 1975.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General rules of practice (49 CFR 1100.40) and filed on or before June 13, 1975.

FSA No. 42994—*Joint Water-Rail Container Rates—Japan Line, Ltd.* Filed by Japan Line, Ltd., (No. 101), for itself and interested rail carriers. Rates on general commodities, between ports in Hong Kong, Japan, Korea, The Peoples Republic of China, The Philippines, and Taiwan, and rail stations on the U.S. Atlantic and Gulf Seaboard.

Grounds for relief—Water competition.

FSA No. 42995—*Joint Water-Rail Container Rates—Seatrains International, S.A.* Filed by Seatrain International, S.A., (No. 18), for itself and interested rail carriers. Rates on general commodities, between rail terminals on the U.S. Gulf Coast, and ports in Japan, Hong Kong, Korea, and Taiwan. Grounds for relief—Water competition.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON,  
Acting Secretary.

## IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

### Elimination of Gateway Applications

MAY 23, 1975.

The following applications to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination rules (49 CFR 1065(d)(2)), and notice thereof to all interested persons is hereby given as provided in such rules.

Carriers having a genuine interest in an application may file an original and three copies of verified statements in opposition with the Interstate Commerce

Commission on or before June 30, 1975. (This procedure is outlined in the Commission's report and order in *Gateway Elimination*, 119 M.C.C. 530.) A copy of the verified statement in opposition must also be served upon applicant or its named representative. The verified statement should contain all the evidence upon which protestant relies in the application proceeding including a detailed statement of protestant's interest in the proposal. No rebuttal statements will be accepted.

No. MC 94393 (Sub-No. 6G) (Correction), filed December 17, 1974, published in the *FEDERAL REGISTER* issue of May 2, 1975, and republished as corrected this issue. Applicant: W. J. CASEY TRUCKING & RIGGING CO., INC., 184 Doremus Avenue, Newark, N.J. 07105. Applicant's representative: Robert B. Pepper, 168 Woodbridge Avenue, Highland Park, N.J. 08904. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Pumps and pump supplies, (1) from points in New Jersey and New York within 75 miles of Montclair including Montclair, those in Pennsylvania on and east of U.S. Highway 15, and points in Connecticut, to points in Virginia, Maryland, Rhode Island, New Jersey, Ohio, and West Virginia, and (2) between points in New Jersey and New York within 75 miles of Montclair including Montclair, those in Pennsylvania on and east of U.S. Highway 15, and points in Connecticut, on the one hand, and, on the other, points in Connecticut, Delaware, Massachusetts, New York, and Pennsylvania. The purpose of this filing is to eliminate the gateway of Rockaway, N.J.

NOTE.—This correction indicates the additional destination points in Ohio in (1) above, which was inadvertently omitted from the previous publication.

MAY 23, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination* Rules (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before June 9, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successfully filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 1936 (Sub-No. E6), filed May 30, 1974. Applicant: B & P MOTOR EXPRESS, INC., 720 Gross Street, Pitts-

burgh, Pa. 15224. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Commodities which because of size or weight, require the use of special equipment, between points in that part of Pennsylvania on and north of a line beginning at the Ohio-Pennsylvania State line and extending along U.S. Highway 80 to junction Pennsylvania Highway 477, thence along Pennsylvania Highway 477 to junction Pennsylvania Highway 45, thence along Pennsylvania Highway 45 to junction U.S. Highway 15, thence along U.S. Highway 15 to junction unnumbered highway, thence along unnumbered highway to junction Pennsylvania Highway 147, thence along Pennsylvania Highway 147 to junction Pennsylvania Highway 61, thence along Pennsylvania Highway 61 to junction Pennsylvania Highway 54, thence along Pennsylvania Highway 54 to junction Pennsylvania Highway 309, thence along Pennsylvania Highway 309 to junction U.S. Highway 80, thence along U.S. Highway 80 to the Pennsylvania-New Jersey State line, on the one hand, and, on the other, points in that part of West Virginia on, south and west of a line beginning at the Kentucky-West Virginia State line and extending along U.S. Highway 60 to junction U.S. Highway 119, thence along U.S. Highway 119 to the West Virginia-Kentucky State line. The purpose of this filing is to eliminate the gateways of Cuyahoga, Lake or Lorain Counties, Ohio, or points in Medina County, Ohio on and north of U.S. Highway 224.

No. MC 1936 (Sub-No. E8), filed May 30, 1974. Applicant: B & P MOTOR EXPRESS, INC., 720 Gross Street, Pittsburgh, Pa. 15224. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Commodities which because of size or weight require the use of special equipment, between points in Venango County, Pa., on the one hand, and, on the other, points in that part of New York on and north of a line beginning at the United States-Canada International Boundary line and extending along New York Highway 68 to junction New York Highway 56, thence along New York Highway 56 to junction New York Highway 3, thence along New York Highway 3 to junction New York Highway 86, thence along New York Highway 86 to junction New York Highway 73, thence along New York Highway 73 to junction New York Highway 9N, thence along New York Highway 9N to the Vermont-New York State line. The purpose of this filing is to eliminate the gateways of Cuyahoga, Lake or Lorain Counties, Ohio, or points in Medina County, Ohio on and north of U.S. Highway 224.

No. MC 1936 (Sub-No. E10), filed May 30, 1974. Applicant: B & P MOTOR EXPRESS, INC., 720 Gross Street, Pittsburgh, Pa. 15224. Applicant's representa-

tive: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities* which because of size or weight require the use of special equipment, between points in Brooke, Hancock, and Ohio Counties, W. Va., on the one hand, and, on the other, points in New York on, west and north of a line beginning at the Pennsylvania-New York State line and extending along U.S. Highway 62 to junction New York Highway 17, thence along New York Highway 17 to junction U.S. Highway 219, thence along U.S. Highway 219 to junction New York Highway 19, thence along New York Highway 19 to junction New York Highway 244, thence along New York Highway 244 to junction New York Highway 21, thence along New York Highway 21 to junction unnumbered highway at Hornell, thence along unnumbered highway to junction New York Highway 54, thence along New York Highway 54 to junction unnumbered highway near Hammondsport, thence along unnumbered highway to junction New York Highway 14, thence along New York Highway 14 to junction New York Highway 224, thence along New York Highway 224 to junction New York Highway 13, thence along New York Highway 13 to junction New York Highway 79, thence along New York Highway 79 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction New York Highway 206, thence along New York Highway 206 to junction New York Highway 7, thence along New York Highway 7 to junction New York Highway 23, thence along New York Highway 23 to the New York-Massachusetts State line. The purpose of this filing is to eliminate the gateways of Cuyahoga, Lake, or Lorain Counties, Ohio, or points in Medina County, Ohio on and north of U.S. Highway 224.

No. MC 1936 (Sub-No. E13), filed May 24, 1974. Applicant: B & P MOTOR EXPRESS, INC., 720 Gross Street, Pittsburgh, Pa. 15224. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities* which because of size or weight require the use of special equipment, between points in Pennsylvania, on the one hand, and, on the other, points in that part of Indiana on and south of a line beginning at the Ohio-Indiana State line and extending along U.S. Highway 40 to junction Indiana Highway 38, thence along Indiana Highway 38 to junction Indiana Highway 32, thence along Indiana Highway 32 to the Indiana-Illinois State line, and points in that part of Illinois on and south of a line beginning at the Indiana-Illinois State line and extending along U.S. Highway 74 to junction U.S. Highway 34, thence along U.S. Highway 34 to the Illinois-Iowa State line. The purpose of this filing is to eliminate the gateway of Belmont County, Ohio.

No. MC 1936 (Sub-No. E15), filed May 24, 1974. Applicant: B & P MOTOR EX-

PRESS, INC., 720 Gross Street, Pittsburgh, Pa. 15224. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities* which because of size or weight require the use of special equipment, between points in Brooke, Hancock, and Ohio Counties, W. Va., on the one hand, and, on the other, points in that part of Kentucky on and west of a line beginning at the Indiana-Kentucky State line and extending along U.S. Highway 31E to junction Kentucky Highway 61, thence along Kentucky Highway 61 to junction Kentucky Highway 55, thence along Kentucky Highway 55 to junction U.S. Highway 127, thence along U.S. Highway 127 to the Kentucky-Tennessee State line. The purpose of this filing is to eliminate the gateways of Cuyahoga, Lake, or Lorain Counties, Ohio, or points in Medina County on and north of U.S. Highway 224.

No. MC 1936 (Sub-No. E16) filed May 24, 1974. Applicant: B & P MOTOR EXPRESS, INC., 720 Gross Street, Pittsburgh, Pa. 15224. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pipe and pipe fittings*, which because of size or weight require the use of special equipment, from points in Illinois, Indiana, Michigan, and that part of Kentucky on and west of a line beginning at the Kentucky-Ohio State line and extending along U.S. Highway 68 to junction U.S. Highway 25, thence along U.S. Highway 25 to junction U.S. Highway 25W, thence along U.S. Highway 25W to the Kentucky-Tennessee State line, to points in New York, New Jersey, the District of Columbia, and points in Maryland on and east of U.S. Highway 520. The purpose of this filing is to eliminate the gateways of Cuyahoga, Lake, or Lorain Counties, Ohio, or points in Medina County, Ohio on and north of U.S. Highway 224, and Wheatland, Pittsburgh, or Aliquippa, Pa.

No. MC 1936 (Sub-No. E17), filed May 24, 1974. Applicant: B & P MOTOR EXPRESS, INC., 720 Gross Street, Pittsburgh, Pa. 15224. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pipe and pipe fittings*, which because of size or weight require the use of special equipment, from points in that part of Kentucky on, north and west of a line beginning at the Ohio-Kentucky State line and extending along U.S. Highway 60 to junction Kentucky Highway 7, thence along Kentucky Highway 7 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction Kentucky Highway 30, thence along Kentucky Highway 30 to junction U.S. Highway 25, thence along U.S. Highway 25 to junction U.S. Highway 25W, thence along U.S. Highway 25W to the Ken-

tucky-Tennessee State line, to points in New Jersey. The purpose of this filing is to eliminate the gateways of Cuyahoga, Lake, or Lorain Counties, Ohio, or points in Medina County, Ohio on and north of U.S. Highway 224, and Sharon, Wheatland, Pittsburgh, or Aliquippa, Pa.

No. MC 1936 (Sub-No. E18), filed May 24, 1974. Applicant: B & P MOTOR EXPRESS, INC., 720 Gross Street, Pittsburgh, Pa. 15224. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities* requiring special equipment, restricted so that the loading and/or unloading which necessitates the special equipment is performed by the consignor or consignee or both ("Twilight Zone" commodities), as described in 64 M.C.C. 229 (1955), between Canton, Ohio, on the one hand, and, on the other, points in Illinois, Indiana, Michigan, Kentucky, New York, and Pennsylvania. The purpose of this filing is to eliminate the gateway of points within 25 miles of Canton, Ohio which are on and north of U.S. Highway 224.

No. MC 1936 (Sub-No. E19), filed May 24, 1974. Applicant: B & P MOTOR EXPRESS, INC., 720 Gross Street, Pittsburgh, Pa. 15224. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pipe and pipe fittings*, which because of size or weight require the use of special equipment, from points in Kentucky to points in New York. The purpose of this filing is to eliminate the gateways of Cuyahoga, Lake, or Lorain Counties, Ohio, or points in Medina County on and north of U.S. Highway 224, and Sharon, Wheatland, Pittsburgh, or Aliquippa, Pa.

No. MC 21170 (Sub-No. E100), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52460. Applicant's representative: Gene R. Prohaski (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Food products and commodities exempt from economics regulations pursuant to the provisions of sections 203(b)(c) of the Interstate Commerce Act, in mixed loads with food products from points in Iowa on and west of a line beginning at the Minnesota-Iowa State line and extending along U.S. Highway 59 to junction Iowa Highway 7, thence along Iowa Highway 7 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Iowa Highway 175, thence Iowa Highway 175 to junction Iowa Highway 39, thence along Iowa Highway 39 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Iowa Highway 141, thence along Iowa Highway 141 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction Iowa Highway 92, thence along Iowa Highway 92 to junction Iowa Highway 5, thence along Iowa Highway 5 to junction U.S. Highway 34, thence

along U.S. Highway 34 to junction U.S. Highway 63, thence along U.S. Highway 63 to the Iowa-Missouri State line, to points in Vermont. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co. located at or near California, Mo. The authorities mentioned above were purchased by Cedar Rapids Steel Transportation Inc., pursuant to MC-F-10199.

No. MC 21170 (Sub-No. E101), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52460. Applicant's representative: Gene R. Prohaski (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Food products and commodities exempt from economic regulation pursuant to the provisions of section 203(b)(c) of the Interstate Commerce Act, in mixed loads with food products, restricted to such commodities as are dealt in by retail, wholesale, and chain grocery stores, from points in Iowa on and west of a line beginning at the Iowa-Minnesota State line and extending along U.S. Highway 59 to junction Iowa Highway 7, thence along Iowa Highway 7 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction Iowa Highway 196, thence along Iowa Highway 196 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Iowa Highway 141, thence along Iowa Highway 141 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Iowa Highway 5, thence along Iowa Highway 5 to junction Iowa Highway 92, thence along Iowa Highway 92 to junction U.S. Highway 63, thence along U.S. Highway 63 to the Iowa-Missouri State line, to points in New Hampshire. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co. located at or near California, Mo. The authorities mentioned above were purchased by Cedar Rapids Steel Transportation Inc. pursuant to MC-F-10199.

No. MC 21170 (Sub-No. E102), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52460. Applicant's representative: Gene R. Prohaski (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Food products and commodities exempt from economics regulations pursuant to the provisions of section 203(b)(c) of the Interstate Commerce Act, in mixed loads with food products, restricted to such commodities as are dealt in by retail, wholesale, and chain grocery stores, from points in Iowa on and west of a line beginning at the Minnesota-Iowa State line and extending along Iowa Highway 4 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction Iowa Highway 314, thence Iowa Highway 314 to junction Iowa Highway 7, thence along Iowa Highway 7 to junction U.S. Highway 169, thence U.S. Highway 169 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Iowa Highway 14 thence along Iowa Highway 14 to junction Iowa Highway 163, thence along Iowa Highway 163 to junction U.S. Highway 63 thence along U.S. Highway 63 to the Iowa-Missouri State line, to points in New Hampshire on, south and east of a line beginning at the Massachusetts-New Hampshire State line and extending along U.S. Highway 3 to junction U.S. Highway 202, thence along U.S. Highway 202 to the New Hampshire-Maine State line. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co. located at or near California, Mo. The authorities mentioned above were purchased by Cedar Rapids Steel Transportation Inc., pursuant to MC-F-10199.

No. MC 21170 (Sub-No. E104), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52460. Applicant's representative: Gene R. Prohaski (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Food products and commodities exempt from economic regulation pursuant to the provisions of section 203(b)(c) of the Interstate Commerce Act, in mixed loads with food products restricted to such commodities as are

tion Iowa Highway 14 thence along Iowa Highway 14 to junction Iowa Highway 163, thence along Iowa Highway 163 to junction U.S. Highway 63 thence along U.S. Highway 63 to the Iowa-Missouri State line, to points in New Hampshire on, south and east of a line beginning at the Massachusetts-New Hampshire State line and extending along U.S. Highway 3 to junction U.S. Highway 202, thence along U.S. Highway 202 to the New Hampshire-Maine State line. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co. located at or near California, Mo. The authorities mentioned above were purchased by Cedar Rapids Steel Transportation Inc., pursuant to MC-F-10199.

No. MC 21170 (Sub-No. E103), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52460. Applicant's representative: Gene R. Prohaski (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Food products and commodities exempt from economics regulation pursuant to the provisions of section 203(b)(c) of the Interstate Commerce Act in mixed loads with food products from points in Iowa south and west of a line beginning at the South Dakota-Iowa State line and extending along U.S. Highway 18 to junction U.S. Highway 59, thence along U.S. Highway 59 to the Iowa-Missouri State line, to points in Ohio, on and south of a line beginning at the Indiana-Ohio State line and extending along U.S. Highway 50 to junction Ohio Highway 264, thence along Ohio Highway 264 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Ohio Highway 131, thence along Ohio Highway 131 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Ohio Highway 41, thence along Ohio Highway 41 to junction unnumbered highway, thence along unnumbered highway to junction Ohio Highway 124 thence along Ohio Highway 124 to junction Ohio Highway 7, thence along Ohio Highway 7 to junction unnumbered highway, thence unnumbered highway Portland to the Ohio-West Virginia State line. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co. located at or near California, Mo. The authorities mentioned above were purchased by Cedar Rapids Steel Transportation Inc. pursuant to MC-F-10199.

No. MC 21170 (Sub-No. E104), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52460. Applicant's representative: Gene R. Prohaski (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Food products and commodities exempt from economic regulation pursuant to the provisions of section 203(b)(c) of the Interstate Commerce Act, in mixed loads with food products restricted to such commodities as are

dealt in by retail, wholesale, and chain grocery stores, from points in Iowa on and west of a line beginning at the Iowa-Minnesota State line and extending along U.S. Highway 75 to junction unnumbered highway at Le Mars, thence unnumbered highway to junction U.S. Highway 20, thence along U.S. Highway 20 to junction unnumbered highway at Merville, thence along unnumbered highway to junction Iowa Highway 37 at Onawa, thence along Iowa Highway 37 to junction unnumbered highway at Dunlap, thence along unnumbered highway to junction Iowa Highway 44, thence Iowa Highway 44 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Iowa Highway 92, thence along Iowa Highway 92 to junction Iowa Highway 48, thence along Iowa Highway 48 to junction unnumbered highway, thence along unnumbered highway to junction Iowa Highway 2, thence along Iowa Highway 208, thence along Iowa Highway 208 to the Iowa-Missouri State line, to points in Ohio on and south of a line beginning at the Indiana-Ohio State line and extending along Ohio Highway 121 to junction Ohio Highway 320, thence along Ohio Highway 320 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction Ohio Highway 49, thence along Ohio Highway 49 to junction U.S. Highway 35, thence along U.S. Highway 35 to junction U.S. Highway 23, thence along U.S. Highway 23 to junction Ohio Highway 159, thence along Ohio Highway 159 to junction Ohio Highway 180, thence along Ohio Highway 180 to junction Ohio Highway 56, thence along Ohio Highway 56 to junction U.S. Highway Alternate 50, thence along U.S. Highway Alternate 50 to junction Ohio Highway 7, thence along Ohio Highway 7 to the Ohio-West Virginia State line. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co. located at or near California, Mo. The authorities mentioned above were purchased by Cedar Rapids Steel Transportation Inc. pursuant to MC-F-10199.

No. MC 21170 (Sub-No. E105), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52460. Applicant's representative: Gene R. Prohaski (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Food products and commodities exempt from economics regulation pursuant to the provisions of section 203(b)(c) of the Interstate Commerce Act, in mixed loads with food products, restricted to such commodities as are dealt in by retail, wholesale, and chain grocery stores, from points in Iowa on, west and south of a line beginning at the Iowa-Minnesota State line and extending along U.S. Highway 75 to junction unnumbered highway at Le Mars, thence along unnumbered highway to junction U.S. Highway 20 near Lawton, thence along U.S. Highway 20 to junction unnumbered highway, thence along unnumbered highway to junction

Iowa Highway 37 at Onawa, thence along Iowa Highway 37 to junction Iowa Highway 183, thence along Iowa Highway 183 to junction Iowa Highway 141, thence along Iowa Highway 141 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Iowa Highway 141, thence along Iowa Highway 141 to junction Iowa Highway 161, thence along Iowa Highway 161 to junction Iowa Highway 141, thence along Iowa Highway 141 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction Iowa Highway 92, thence along Iowa Highway 92 to junction Iowa Highway 5, thence along Iowa Highway 5 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 63, thence along U.S. Highway 63 to the Iowa-Missouri State line, points in Pennsylvania on, east and south of a line beginning at the New York-Pennsylvania State line and extending along Pennsylvania Highway 191 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Pennsylvania Highway 507, thence along Pennsylvania Highway 507 to junction Pennsylvania Highway 309, thence along Pennsylvania Highway 309 to junction Pennsylvania Highway 447, thence along Pennsylvania Highway 447 to junction Pennsylvania Highway 191, thence along Pennsylvania Highway 191 to junction Pennsylvania Highway 512, thence along Pennsylvania Highway 512 to junction U.S. Highway 22, thence along U.S. Highway 22 to junction Pennsylvania Turnpike, thence along Pennsylvania Turnpike to junction U.S. Highway 222, thence along U.S. Highway 222 to junction U.S. Highway 422, thence along U.S. Highway 422 to junction U.S. Highway 322, thence along U.S. Highway 322 to junction U.S. Highway 11, thence along U.S. Highway 11 to the Pennsylvania-Maryland State line. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co., located at or near California, Mo. The authorities mentioned above were purchased by Cedar Rapids Steel Transportation Inc., pursuant to MC-F-10199.

No. MC 21170 (Sub-No. E106), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohushki (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Food products and commodities exempt from economic regulations pursuant to the provisions of section 203(b)(c) of the Interstate Commerce Act in mixed loads with food products, restricted to such commodities as are dealt in by retail, wholesale, and chain grocery stores, from points in Iowa on, west and south of a line beginning at the Iowa-South Dakota State line and extending along U.S. Highway 29 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction Highway 59, thence along U.S. Highway 59 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 69, thence along U.S. Highway 69 to the Iowa-Missouri State line, to points in Pennsylvania on, east and south of a line

beginning at the Ohio-Pennsylvania State line and extending along U.S. Highway 22 to junction Pennsylvania Highway 286, thence along Pennsylvania Highway 286 to junction U.S. Highway 422, thence along U.S. Highway 422 to junction U.S. Highway 22, thence along U.S. Highway 22 to junction Pennsylvania Highway 350, thence along Pennsylvania Highway 350 to junction U.S. Highway 220, thence along U.S. Highway 220 to the Pennsylvania-New York State line. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co., located at or near California, Mo. The authorities mentioned above were purchased by Cedar Rapids Steel Transportation Inc., pursuant to MC-F-10199.

No. MC 21170 (Sub-No. E114), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohushki (same as above). Authority sought to operate as a common carrier by motor vehicle, over irregular routes, transporting: Food products and commodities exempt from economic regulation pursuant to the provisions of section 203(b)(c) of the Interstate Commerce Act in mixed loads with food products, restricted to such commodities as are dealt in by retail, wholesale, and chain grocery stores, from points in Iowa on, west and south of a line beginning at the Iowa-Minnesota State line and extending along Iowa Highway 9 to junction Iowa Highway 182, thence along Iowa Highway 182 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction Iowa Highway 3, thence along Iowa Highway 3 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Iowa Highway 175, thence along Iowa Highway 175 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Iowa Highway 5, thence along Iowa Highway 5 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction unnumbered highway at Bloomfield, thence along unnumbered highway through Savannah to the Iowa-Missouri State line, to points in Maryland. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co., located at or near California, Mo. The authorities mentioned above were purchased by Cedar Rapids Steel Transportation Inc., pursuant to MC-F-10199.

No. MC 21170 (Sub-No. E115), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohushki (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Food products and commodities exempt from economic regulation pursuant to the provisions of section 203(b)(c) of the Interstate Commerce Act in mixed loads with food prod-

ucts, restricted to such commodities as are dealt in by retail, wholesale, and chain grocery stores, from points in Iowa on, west and south of a line beginning at the Iowa-Minnesota State line and extending along Iowa Highway 4 to junction Iowa Highway 7, thence along Iowa Highway 7 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction Iowa Highway 141, thence along Iowa Highway 141 to junction Iowa Highway 89, thence along Iowa Highway 89 to junction Iowa Highway 210, thence along Iowa Highway 210 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Iowa Highway 163, thence along Iowa Highway 163 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction unnumbered highway at Bloomfield, thence along unnumbered highway through Savannah, to the Iowa-Missouri State line, to points in Maryland on and south of a line beginning at the Maryland-Virginia State line and extending along U.S. Highway 495 to junction Maryland Highway 450, thence along Maryland Highway 450 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Maryland Highway 404, thence along Maryland Highway 404 to junction Maryland Highway 313, thence along Maryland Highway 313 to junction Maryland Highway 314, thence along Maryland Highway 314 to the Maryland-Delaware State line. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co., located at or near California, Mo. The authorities mentioned above were purchased by Cedar Rapids Steel Transportation Inc., pursuant to MC-F-10199.

No. MC 21170 (Sub-No. E116), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohushki (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Food products and commodities exempt from economic regulation pursuant to the provisions of section 203(b)(c) of the Interstate Commerce Act in mixed loads with food products, from points in Iowa on and west of a line beginning at the Iowa-Minnesota State line and extending along U.S. Highway 169 to through Lakota, Iowa to junction U.S. Highway 169 and U.S. Highway 20 near Fort Dodge, Iowa, thence along U.S. Highway 20 to junction Interstate Highway 35 at Williams, Iowa, thence along Interstate Highway 35 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 65 at Colo, Iowa, thence along U.S. Highway 65 to junction Iowa Highway 117, thence along Iowa Highway 117 to junction U.S. Highway 6 at Colfax, Iowa, thence along U.S. Highway 6 to junction Iowa Highway 14 at Newton, Iowa, thence along Iowa Highway 14 to junction Iowa Highway 163 at Monroe, Iowa, thence along Iowa Highway 163 to junction U.S. Highway 63 at Oskaloosa, Iowa, thence along U.S. Highway 63 through Ottumwa, Iowa, to junction Iowa Highway 2 at Bloomfield, Iowa,

thence along Iowa Highway 2 to junction Iowa unnumbered highway near Milton, Iowa, thence along Iowa unnumbered highway through Cantril to the Iowa-Missouri State line, to points in Maryland on and south of a line beginning at the Maryland-Virginia State line and extending along Maryland Highway 6 to junction Maryland Highway 232, thence along Maryland Highway 232 to junction Maryland Highway 231, thence along Maryland Highway 231 to junction Maryland Highway 2-4, thence along Maryland Highway 2-4 to the Chesapeake Bay, and those points in Maryland on and south of a line beginning at the Chesapeake Bay and extending along Maryland Highway 16 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Atlantic Ocean. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co., located at or near California, Mo. The authorities mentioned above were purchased by Cedar Rapids Steel Transportation Inc., pursuant to MC-F-10199.

No. MC 21170 (Sub-No. E117), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohushki (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Food products and commodities exempt from economic regulation pursuant to the provisions of section 203(b)(c) of the Interstate Commerce Act in mixed loads with food products, restricted to such commodities as are dealt in by retail, wholesale, and chain grocery stores, from points in Iowa on and east of a line beginning at the Iowa-Minnesota State line and extending along U.S. Highway 52 to junction Iowa Highway 150, thence along Iowa Highway 150 to junction U.S. Highway 151, thence along U.S. Highway 151 to junction U.S. Highway 218, thence along U.S. Highway 218 to the Iowa-Missouri State line, to points in Kansas on, south and west of a line beginning at the Kansas-Oklahoma State line and extending along U.S. Highway 56 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction Kansas Highway 1, thence along Kansas Highway 1 to the Kansas-Oklahoma State line. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co., located at or near California, Mo. The authorities mentioned above were purchased by Cedar Rapids Steel Transportation Inc., pursuant to MC-F-10199.

No. MC 21170 (Sub-No. E118), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohushki (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Food products and commodities exempt from economic regulation pursuant to the provisions of section 203(b)(c) of the Interstate Commerce Act, in mixed loads with food products, restricted to such commodities

as are dealt in by retail, wholesale, and chain grocery stores, from points in Iowa on and west of a line beginning at the Iowa-Minnesota State line and extending along U.S. Highway 169 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 35, thence along U.S. Highway 35 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction Iowa Highway 117, thence along Iowa Highway 117 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Iowa Highway 14, thence along Iowa Highway 14 to junction Iowa Highway 163, thence along Iowa Highway 163 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Iowa Highway 2, thence along Iowa Highway 2 to junction unnumbered highway near Milton, thence along unnumbered highway through Cantril to the Iowa-Missouri State line to points in Rhode Island. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co., located at or near California, Mo. The authorities mentioned above were purchased by Cedar Rapids Steel Transportation Inc., pursuant to MC-F-10199.

No. MC 21170 (Sub-No. E119), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohushki (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Food products and commodities exempt from economic regulation pursuant to the provisions of section 203(b)(c) of the Interstate Commerce Act in mixed loads with food products, restricted to such commodities as are dealt in by retail, wholesale, and chain grocery stores, from points in Iowa on and west of a line beginning at the Iowa-Minnesota State line and extending along Iowa Highway 4 to junction Iowa Highway 7, thence along Iowa Highway 7 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Iowa Highway 92, thence along Iowa Highway 92 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction unnumbered highway at Bloomfield, thence along unnumbered highway through Savannah to the Iowa-Missouri State line, to points in Connecticut. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co., located at or near California, Mo. The authorities mentioned above were purchased by Cedar Rapids Steel Transportation Inc., pursuant to MC-F-10199.

No. MC 29886 (Sub-No. E81), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Such commodities

which because of size or weight require the use of special equipment or special handling, and self-propelled articles, each weighing 15,000 pounds or more, and related machinery; tools, parts and supplies moving in connection therewith. (a) between those points in Pennsylvania on and west of a line beginning at the Pennsylvania-Maryland State line and extending along U.S. Highway 522 to junction Pennsylvania Highway 15, thence along Pennsylvania Highway 15 to junction Pennsylvania Highway 220 to the Pennsylvania-New York State line, on the one hand, and, on the other, those points in Connecticut, except those west of a line beginning at the Long Island Sound and extending along Connecticut Highway 69 to junction Interstate Highway 84, thence along Interstate Highway 84 to the Massachusetts-Connecticut State line, (b) between those points in Pennsylvania on and west of a line beginning at the Pennsylvania-New York State line and extending along Interstate Highway 79 to junction Interstate Highway 96, thence along Interstate Highway 96 to junction Pennsylvania Highway 8, thence along Pennsylvania Highway 8 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction Interstate Highway 70, thence along Interstate Highway 70 to the Pennsylvania-West Virginia State line, on the one hand, and, on the other, those points in Connecticut except those south and west of a line beginning at the Long Island Sound and extending along Connecticut Highway 58 to junction Interstate Highway 84, thence along Interstate Highway 84 to the New York-Connecticut State line, and (c) between those points in Fulton, Franklin, Adams, York, Lancaster, Lebanon, Berks, Chester, Montgomery, Delaware, Philadelphia, Bucks, Lehigh and Northampton Counties, Pa., on the one hand, and, on the other, those points in New York on and east of a line beginning at the United States-Canada International Boundary line and extending along U.S. Highway 30 to junction Interstate Highway 90, thence along Interstate Highway 90 to the New York-Massachusetts State line. The purpose of this filing is to eliminate the gateway of Massachusetts.

No. MC 29886 (Sub-No. E82), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Contractors' equipment, restricted to (1) crawler tractors, set-up, with loading and grading attachments, and (2) wheeled tractors (other than truck tractors), from those points in Iowa on and north of Interstate Highway 80, to those points in Kentucky in and east of Trimble, Henry, Shelby, Spencer, Anderson, Washington, Marion, Taylor, Green, Metcalfe, and Monroe Counties. The purpose of this filing is to eliminate the gateway of points in Michigan on and south of a line extending

## NOTICES

along the northern boundaries of Allegan, Barry, and Eaton Counties, Mich., thence along Business Route Interstate Highway 96 to Lansing, Mich., thence on and west of a line extending along U.S. Highway 127 to Jackson, Mich., thence along unnumbered highway (formerly portion U.S. Highway 127) to junction U.S. Highway 12 near Somerset Center, Mich., thence along U.S. Highway 12 to junction U.S. Highway 127 near Somerset, Mich., thence along U.S. Highway 127 to the Michigan-Ohio State line, and Churubusco, Ind.

No. MC 29886 (Sub-No. E83), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Contractors' equipment*, restricted to (1) crawler tractors, set-up, with loading and grading attachments, and (2) wheeled tractors (other than truck tractors), from those points in the Lower Peninsula of Michigan on and south of U.S. Highway 10 (except Berrien, Van Buren, and Cass Counties), to points in South Dakota, Nebraska, Wyoming, Montana, Idaho, Washington, and North Dakota (except those north and east of a line beginning at the United States-Canadian International Boundary line, and extending along North Dakota Highway 1 to junction Interstate Highway 94, thence along Interstate Highway 94 to the North Dakota-Minnesota line. The purpose of this filing is to eliminate the gateway of Churubusco, Ind.

No. MC 29886 (Sub-No. E84), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Contractors' equipment*, restricted to (1) crawler tractors, set-up, with loading and grading attachments, and (2) wheeled tractors (other than truck tractors), from those points in Iowa on and north of Interstate Highway 80, to those points in Georgia on and east of a line beginning at the Georgia-Tennessee State line and extending along Georgia Highway 5 to junction Interstate Highway 75, thence along Interstate Highway 75 to the Georgia-Florida State line. The purpose of this filing is to eliminate the gateway of points in Michigan on and south of a line extending along the northern boundaries of Allegan, Barry, and Eaton Counties, Mich., thence along Business Route Interstate Highway 96 to Lansing, Mich., thence on and west of a line extending along U.S. Highway 127 to Jackson, Mich., thence along unnumbered highway (formerly portion U.S. Highway 127) 127 near Somerset, Mich., thence along U.S. Highway 127 to the Michigan-Ohio State line, and Churubusco, Ind.

No. MC 29886 (Sub-No. E87), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Self-propelled road construction and earth moving machines and equipment*, each weighing 15,000

No. MC 29886 (Sub-No. E85), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes transporting: *Contractors' equipment*, the transportation of which because of size or weight require the use of special equipment, between points in Michigan, on the one hand, and, on the other, those points in Pennsylvania in and east of Tioga, Lycoming, Clinton, Centre, Blair, and Bedford Counties, and between points in Pennsylvania, on the one hand, and, on the other, points in Michigan (except Lenawee, Monroe, Washtenaw, Wayne, Livingston, Oakland, Macomb, Lapeer, St. Clair, and Sanilac Counties). The purpose of this filing is to eliminate the gateway of points in that part of Michigan on, south and west of a line beginning at Lake Michigan and extending along the northern boundaries of Allegan, Barry, and Eaton Counties, Mich., to junction Business Route Interstate Highway 96, thence along Business Route Interstate Highway 96 to Lansing, Mich., and thence along U.S. Highway 127 to the Michigan-Ohio State line.

No. MC 29886 (Sub-No. E86), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Self-propelled contractors' equipment*, restricted to tractors (other than truck tractors) each weighing 15,000 pounds or more, which, because of size or weight, require special handling or special equipment, from those points in New York on and west of a line beginning at Lake Ontario and extending along U.S. Highway 15 to junction New York Highway 21, thence along New York Highway 21 to the New York-Pennsylvania State line, to points in the United States (except Michigan, Wisconsin, Iowa, Missouri, Arkansas, Mississippi, Illinois, Indiana, Kentucky, Tennessee, Alabama, Georgia, South Carolina, North Carolina, Virginia, West Virginia, Ohio, Pennsylvania, Maryland, District of Columbia, Delaware, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, and Vermont), and to those in Massachusetts on and east of Interstate Highway 91. The purpose of this filing is to eliminate the gateway of Batavia, N.Y.

No. MC 29886 (Sub-No. E87), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Self-propelled road construction and earth moving machines and equipment*, each weighing 15,000

No. MC 29886 (Sub-No. E88), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Contractors' equipment* (restricted to steam shovels, cranes, crawler-type shovels and cranes, straddle trucks, fork trucks, and self-propelled building, construction and moving machinery), which because of size or weight require the use of special equipment or special handling, from those points in the Lower Peninsula of Michigan, and those in the Upper Peninsula of Michigan on and east of U.S. Highway 41 to points in Florida, Mississippi, Arkansas, Louisiana, Oklahoma, Texas, New Mexico, Utah, Arizona, Nevada, California, and Alabama (except that portion in and east of Lauderdale, Colbert, Lawrence, Cullma, Blount, Saint Clair, Talladega, Coosa, Elmore, Macon, Bullock, and Barbour Counties), and from those points in the Lower Peninsula of Michigan in and south of Mason, Newaygo, Mecosta, Montcalm, Gratiot, Saginaw, Tuscola, and Huron Counties,

pounds or more, which because of size or weight require special handling or the use of special equipment (except automobiles, trucks, buses, trailers, cabs, and chassis), from those points in Illinois on and north of U.S. Highway 30 from the Indiana-Illinois State line to junction Illinois Highway 31, thence along Illinois Highway 31 to the Wisconsin-Illinois State line, to points in Washington, Oregon, California, Nevada, Arizona, Utah, Idaho, Alabama, Florida, Georgia, South Carolina, North Carolina, Virginia, West Virginia, Maryland, Delaware, the District of Columbia, New Jersey, Pennsylvania, New York, Connecticut, Massachusetts, Rhode Island, Vermont, New Hampshire, Maine, those in Montana in and west of Powder River, Rosebud, Garfield, McCone, Roosevelt, and Daniels Counties, those in Wyoming on and west of a line beginning at the Montana-Wyoming State line and extending along Montana Highway 59 to junction Interstate Highway 25, thence along Interstate Highway 25 to the Colorado-Wyoming State line, those in Colorado on and west of Interstate Highway 25, those in Tennessee on and east of Interstate Highway 65, and the District of Columbia; and from those points in Illinois on and south of U.S. Highway 36 to Delaware, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, New Hampshire, Vermont, Maine, Pennsylvania (except those in, south and west of Mercer, Butler, Armstrong, Indiana, Cambria, Blair, Huntingdon, and Franklin Counties), those in Maryland (except Garrett, Allegany, Washington, Frederick, Montgomery, Charles, Saint Marys, Somerset, and Worcester Counties), and the District of Columbia. The purpose of this filing is to eliminate the gateway of South Bend, Ind.

No. MC 29886 (Sub-No. E88), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Contractors' equipment* (restricted to steam shovels, cranes, crawler-type shovels and cranes, straddle trucks, fork trucks, and self-propelled building, construction and moving machinery), which because of size or weight require the use of special equipment or special handling, from those points in the Lower Peninsula of Michigan, and those in the Upper Peninsula of Michigan on and east of U.S. Highway 41 to points in Florida, Mississippi, Arkansas, Louisiana, Oklahoma, Texas, New Mexico, Utah, Arizona, Nevada, California, and Alabama (except that portion in and east of Lauderdale, Colbert, Lawrence, Cullma, Blount, Saint Clair, Talladega, Coosa, Elmore, Macon, Bullock, and Barbour Counties), and from those points in the Lower Peninsula of Michigan in and south of Mason, Newaygo, Mecosta, Montcalm, Gratiot, Saginaw, Tuscola, and Huron Counties,

Mich., to points in Minnesota. The purpose of this filing is to eliminate the gateway of Benton Harbor, Mich.

No. MC 45764 (Sub-No. E1), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Sussex County, Del., on the one hand, and, on the other, points in New Jersey (except those within 75 miles of Philadelphia, Pa.). The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45764 (Sub-No. E2), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Sussex County, Del., on the one hand, and, on the other, points in New York. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45764 (Sub-No. E3), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Maryland (except those within 75 miles of Philadelphia, Pa.), on the one hand, and, on the other, points in New Jersey. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45764 (Sub-No. E4), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Maryland east of the Chesapeake Bay and the Susquehanna River (except those within 75 miles of Philadelphia, Pa.), on the one hand, and, on the other, points in New York. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45764 (Sub-No. E5), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36,

## NOTICES

Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Maryland west of Interstate Highway 81, on the one hand, and, on the other, points in New York on and east of Interstate Highway 87. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45764 (Sub-No. E13), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Pennsylvania on and east of a line beginning at the Pennsylvania-Delaware State line, and extending over U.S. Highway 202 to junction Pennsylvania Turnpike Northeast Extension, thence north over that extension to junction Interstate Highway 81, and thence north over Interstate Highway 81 to the Pennsylvania-New York State line (except those within 75 miles of Philadelphia, Pa.), on the one hand, and, on the other, points in the District of Columbia. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45764 (Sub-No. E14), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Food products and commodities exempt from economic regulation pursuant to the provisions of section 203(b)(c) of the Interstate Commerce Act, in mixed loads with food products, restricted to such commodities

as are dealt in by retail, wholesale, and chain grocery stores, from points in Iowa on and west of a line beginning at the Iowa-Minnesota State line and extending along U.S. Highway 169 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 35, thence along U.S. Highway 35 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction Iowa Highway 117, thence along Iowa Highway 117 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Iowa Highway 14, thence along Iowa Highway 14 to junction Iowa Highway 163, thence along Iowa Highway 163 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Iowa Highway 2, thence along Iowa Highway 2 to junction unnumbered highway near Milton, thence along unnumbered highway through Cantril to the Iowa-Missouri State line to points in Rhode Island. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co., located at or near California, Mo. The authorities mentioned above were purchased by Cedar Rapids Steel Transportation Inc., pursuant to MC-F-10199.

No. MC 21170 (Sub-No. E119), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohushki (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Food products and commodities exempt from economic regulation pursuant to the provisions of section 203(b)(c) of the Interstate Commerce Act in mixed loads with food products, restricted to such commodities as are dealt in by retail, wholesale, and chain grocery stores, from points in Iowa on and west of a line beginning at the Iowa-Minnesota State line and extending along Iowa Highway 4 to junction Iowa Highway 7, thence along Iowa Highway 7 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Iowa Highway 92, thence along Iowa Highway 92 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction unnumbered highway at Bloomfield, thence along unnumbered highway through Savannah to the Iowa-Missouri State line, to points in Connecticut. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co., located at or near California, Mo. The authorities mentioned above were purchased by Cedar Rapids Steel Transportation Inc., pursuant to MC-F-10199.

No. MC 29886 (Sub-No. E81), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Such commodities

which because of size or weight require the use of special equipment or special handling, and self-propelled articles, each weighing 15,000 pounds or more, and related machinery, tools, parts and supplies moving in connection therewith, (a) between those points in Pennsylvania on and west of a line beginning at the Pennsylvania-Maryland State line and extending along U.S. Highway 522 to junction Pennsylvania Highway 15, thence along Pennsylvania Highway 15 to junction Pennsylvania Highway 220, thence along Pennsylvania Highway 220 to the Pennsylvania-New York State line, on the one hand, and, on the other, those points in Connecticut, except those west of a line beginning at the Long Island Sound and extending along Connecticut Highway 69 to junction Interstate Highway 84, thence along Interstate Highway 84 to the Massachusetts-Connecticut State line, (b) between those points in Pennsylvania on and west of a line beginning at the Pennsylvania-New York State line and extending along Interstate Highway 79 to junction Interstate Highway 96, thence along Interstate Highway 96 to junction Pennsylvania Highway 8, thence along Pennsylvania Highway 8 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction Interstate Highway 70, thence along Interstate Highway 70 to the Pennsylvania-West Virginia State line, on the one hand, and, on the other, those points in Connecticut except those south and west of a line beginning at the Long Island Sound and extending along Connecticut Highway 58 to junction Interstate Highway 84, thence along Interstate Highway 84 to the New York-Connecticut State line, and (c) between those points in Fulton, Franklin, Adams, York, Lancaster, Lebanon, Berks, Chester, Montgomery, Delaware, Philadelphia, Bucks, Lehigh and Northampton Counties, Pa., on the one hand, and, on the other, those points in New York on and east of a line beginning at the United States-Canada International Boundary line and extending along U.S. Highway 30 to junction Interstate Highway 90, thence along Interstate Highway 90 to the New York-Massachusetts State line. The purpose of this filing is to eliminate the gateway of Massachusetts.

No. MC 29886 (Sub-No. E82), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Contractors' equipment, restricted to (1) crawler tractors, set-up, with loading and grading attachments, and (2) wheeled tractors (other than truck tractors), from those points in Iowa on and north of Interstate Highway 80, to those points in Kentucky in and east of Trimble, Henry, Shelby, Spencer, Anderson, Washington, Marion, Taylor, Green, Metcalfe, and Monroe Counties. The purpose of this filing is to eliminate the gateway of points in Michigan on and south of a line extending

along the northern boundaries of Allegan, Barry, and Eaton Counties, Mich., thence along Business Route Interstate Highway 96 to Lansing, Mich., thence on and west of a line extending along U.S. Highway 127 to Jackson, Mich., thence along unnumbered highway (formerly portion U.S. Highway 127) to junction U.S. Highway 12 near Somerset Center, Mich., thence along U.S. Highway 12 to junction U.S. Highway 127 near Somerset, Mich., thence along U.S. Highway 127 to the Michigan-Ohio State line, and Churubusco, Ind.

No. MC 29886 (Sub-No. E83), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Contractors' equipment*, restricted to (1) crawler tractors, set-up, with loading and grading attachments, and (2) wheeled tractors (other than truck tractors), from those points in the Lower Peninsula of Michigan on and south of U.S. Highway 10 (except Berrien, Van Buren, and Cass Counties), to points in South Dakota, Nebraska, Wyoming, Montana, Idaho, Washington, and North Dakota (except those north and east of a line beginning at the United States-Canadian International Boundary line, and extending along North Dakota Highway 1 to junction Interstate Highway 94, thence along Interstate Highway 94 to the North Dakota-Minnesota line. The purpose of this filing is to eliminate the gateway of Churubusco, Ind.

No. MC 29886 (Sub-No. E84), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Contractors' equipment*, restricted to (1) crawler tractors, set-up, with loading and grading attachments, and (2) wheeled tractors (other than truck tractors), from those points in Iowa on and north of Interstate Highway 80, to those points in Georgia on and east of a line beginning at the Georgia-Tennessee State line and extending along Georgia Highway 5 to junction Interstate Highway 75, thence along Interstate Highway 75 to the Georgia-Florida State line. The purpose of this filing is to eliminate the gateway of points in Michigan on and south of a line extending along the northern boundaries of Allegan, Barry, and Eaton Counties, Mich., thence along Business Route Interstate Highway 96 to Lansing, Mich., thence on and west of a line extending along U.S. Highway 127 to Jackson, Mich., thence along unnumbered highway (formerly portion U.S. Highway 127) 127 near Somerset, Mich., thence along U.S. Highway 127 to the Michigan-Ohio State line, and Churubusco, Ind.

No. MC 29886 (Sub-No. E85), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: *Contractors' equipment*, the transportation of which because of size or weight require the use of special equipment, between points in Michigan, on the one hand, and, on the other, those points in Pennsylvania in and east of Tioga, Lycoming, Clinton, Centre, Blair, and Bedford Counties, and between points in Pennsylvania, on the one hand, and, on the other, points in Michigan (except Lenawee, Monroe, Washtenaw, Wayne, Livingston, Oakland, Macomb, Lapeer, St. Clair, and Sanilac Counties). The purpose of this filing is to eliminate the gateway of points in that part of Michigan on, south and west of a line beginning at Lake Michigan and extending along the northern boundaries of Allegan, Barry, and Eaton Counties, Mich., to junction Business Route Interstate Highway 96, thence along Business Route Interstate Highway 96 to Lansing, Mich., and thence along U.S. Highway 127 to the Michigan-Ohio State line.

No. MC 29886 (Sub-No. E86), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled contractors' equipment*, restricted to tractors (other than truck tractors) each weighing 15,000 pounds or more, which, because of size or weight, require special handling or special equipment, from those points in New York on and west of a line beginning at Lake Ontario and extending along U.S. Highway 15 to junction New York Highway 21, thence along New York Highway 21 to the New York-Pennsylvania State line, to points in the United States (except Michigan, Wisconsin, Iowa, Missouri, Arkansas, Mississippi, Illinois, Indiana, Kentucky, Tennessee, Alabama, Georgia, South Carolina, North Carolina, Virginia, West Virginia, Ohio, Pennsylvania, Maryland, District of Columbia, Delaware, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, and Vermont), and to those in Massachusetts on and east of Interstate Highway 91. The purpose of this filing is to eliminate the gateway of Batavia, N.Y.

No. MC 29886 (Sub-No. E87), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled road construction and earth moving machines and equipment*, each weighing 15,000

pounds or more, which because of size or weight require special handling or the use of special equipment (except automobiles, trucks, buses, trailers, cabs, and chassis), from those points in Illinois on and north of U.S. Highway 30 from the Indiana-Illinois State line to junction Illinois Highway 31, thence along Illinois Highway 31 to the Wisconsin-Illinois State line, to points in Washington, Oregon, California, Nevada, Arizona, Utah, Idaho, Alabama, Florida, Georgia, South Carolina, North Carolina, Virginia, West Virginia, Maryland, Delaware, the District of Columbia, New Jersey, Pennsylvania, New York, Connecticut, Massachusetts, Rhode Island, Vermont, New Hampshire, Maine, those in Montana in and west of Powder River, Rosebud, Garfield, McCone, Roosevelt, and Daniels Counties, those in Wyoming on and west of a line beginning at the Montana-Wyoming State line and extending along Montana Highway 59 to junction Interstate Highway 25, thence along Interstate Highway 25 to the Colorado-Wyoming State line, those in Colorado on and west of Interstate Highway 25, those in Tennessee on and east of Interstate Highway 65, and the District of Columbia; and from those points in Illinois on and south of U.S. Highway 36 to Delaware, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, New Hampshire, Vermont, Maine, Pennsylvania (except those in, south and west of Mercer, Butler, Armstrong, Indiana, Cambria, Blair, Huntingdon, and Franklin Counties), those in Maryland (except Garrett, Allegany, Washington, Frederick, Montgomery, Charles, Saint Marys, Somerset, and Worcester Counties), and the District of Columbia. The purpose of this filing is to eliminate the gateway of South Bend, Ind.

No. MC 29886 (Sub-No. E88), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Contractors' equipment* (restricted to steam shovels, cranes, crawler-type shovels and cranes, straddle trucks, fork trucks, and self-propelled building, construction and moving machinery), which because of size or weight require the use of special equipment or special handling, from those points in the Lower Peninsula of Michigan, and those in the Upper Peninsula of Michigan on and east of U.S. Highway 41 to points in Florida, Mississippi, Arkansas, Louisiana, Oklahoma, Texas, New Mexico, Utah, Arizona, Nevada, California, and Alabama (except that portion in and east of Lauderdale, Colbert, Lawrence, Cullma, Blount, Saint Clair, Talladega, Coosa, Elmore, Macon, Bullock, and Barbour Counties), and from those points in the Lower Peninsula of Michigan in and south of Mason, Newaygo, Mecosta, Montcalm, Gratiot, Saginaw, Tuscola, and Huron Counties,

Mich., to points in Minnesota. The purpose of this filing is to eliminate the gateway of Benton Harbor, Mich.

No. MC 45764 (Sub-No. E1), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Sussex County, Del., on the one hand, and, on the other, points in New Jersey (except those within 75 miles of Philadelphia, Pa.). The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45764 (Sub-No. E2), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Sussex County, Del., on the one hand, and, on the other, points in New York. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45764 (Sub-No. E3), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Maryland (except those within 75 miles of Philadelphia, Pa.), on the one hand, and, on the other, points in New Jersey. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45764 (Sub-No. E4), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Maryland east of the Chesapeake Bay and the Susquehanna River (except those within 75 miles of Philadelphia, Pa.), on the one hand, and, on the other, points in New York. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45784 (Sub-No. E5), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36,

Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Maryland west of Interstate Highway 81, on the one hand, and, on the other, points in New York on and east of Interstate Highway 87. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45764 (Sub-No. E13), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Pennsylvania on and east of a line beginning at the Pennsylvania-Delaware State line, and extending over U.S. Highway 202 to junction Pennsylvania Turnpike Northeast Extension, thence north over that extension to junction Interstate Highway 81, and thence north over Interstate Highway 81 to the Pennsylvania-New York State line (except those within 75 miles of Philadelphia, Pa.), on the one hand, and, on the other, points in the District of Columbia. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45764 (Sub-No. E14), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in New York in and west of Monroe, Livingston, and Steuben Counties, on the one hand, and, on the other, points in Fairfield, New Haven, Middlesex, and New London. The purpose of this filing is to eliminate the gateway of Paterson, N.J.

No. MC 45764 (Sub-No. E15), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between New York, N.Y., and points on Long Island, N.Y., on the one hand, and, on the other, points in Massachusetts. The purpose of this filing is to eliminate the gateway of Paterson, N.J.

No. MC 45764 (Sub-No. E18), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Sussex County, N.J. (except those within 75 miles of Philadelphia), on the one hand, and, on the other, points in Massachusetts. The purpose of this filing is to eliminate the gateway of Lafayette, N.J.

No. MC 45764 (Sub-No. E19), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Delaware (except those within 75 miles of Philadelphia, Pa.), on the one hand, and, on the other, points in Connecticut. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in New York (except those west of New York Highway 19), on the one hand, and, on the other, points in South Carolina. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45764 (Sub-No. E32), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in New York on and east of a line beginning at Port Jervis, N.Y., on the New York-Pennsylvania State line and extending north over New York Highway 97 to Hankins, N.Y., thence northeast over unnumbered highway to Roscoe, N.Y., thence west over New York Highway 17 to junction New York High-

way 30, thence northeast over New York Highway 30 to New York Highway 206, thence northwest over New York Highway 206 to junction New York Highway 10, thence east and north over New York Highway 10 to junction New York Highway 28, thence north and west over New York Highway 28 to Oneonta, N.Y., thence north over New York Highway 205 to junction New York Highway 28, thence northeast over New York Highway 28 to junction New York Highway 30, and thence north over New York Highway 30 to the United States-Canadian Border line, on the one hand, and, on the other, points in Virginia. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45764 (Sub-No. E33), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in New York on and east of a line beginning at Port Jervis, N.Y., on the New York-Pennsylvania State line, and extending northeast over New York Highway 209 to junction Interstate Highway 87, thence north over Interstate Highway 87 to junction New York Highway 73, and thence east over New York Highway 73 to the New York-Vermont State line, on the one hand, and, on the other, points in West Virginia. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45764 (Sub-No. E34), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in New Jersey on and south of U.S. Highway 30, on the one hand, and, on the other, points in Rhode Island. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45764 (Sub-No. E35), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in New Jersey on and south of a line beginning at the New Jersey-Pennsylvania State line one mile north

of Phillipsburg, N.J., and extending northeast over New Jersey Highway 57 to junction U.S. Highway 46, thence east over U.S. Highway 46 to junction New Jersey Highway 15, thence northwest over New Jersey Highway 15 to junction New Jersey Highway 517, thence north over New Jersey Highway 517 to junction New Jersey Highway 23, thence southeast over New Jersey Highway 23 to junction New Jersey Highway 513, thence northeast over New Jersey Highway 513 to junction New Jersey Highway 511, and thence northeast over New Jersey Highway 511 to the New Jersey-New York State line, on the one hand, and, on the other, points in Ohio. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45764 (Sub-No. E36), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in New Jersey, on the one hand, and, on the other, points in North Carolina. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45764 (Sub-No. E37), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in New Jersey, on the one hand, and, on the other, points in South Carolina. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45764 (Sub-No. E38), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in New Jersey, on the one hand, and, on the other, points in Virginia. The purpose of this filing is to eliminate the gateway of Marcus Hook, Pa.

No. MC 45764 (Sub-No. E39), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to op-

erate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in New Jersey, on the one hand, and, on the other, points in West Virginia. The purpose of this filing is to eliminate the gateway of Marcus Hook, Pa.

No. MC 45764 (Sub-No. E40), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Delaware, on the one hand, and, on the other, points in Rhode Island. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45764 (Sub-No. E41), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Delaware, on the one hand, and, on the other, points in Ohio on and east of a line beginning at Cleveland, Ohio, and extending south over Ohio Highway 8 to Akron, Ohio, thence south over Interstate Highway 77 to junction U.S. Highway 40, thence west over U.S. Highway 40 to Columbus, Ohio, and thence southwest over Interstate Highway 71 to Cincinnati, Ohio. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45764 (Sub-No. E42), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in New Castle County, Del., north of the Chesapeake & Delaware Canal, on the one hand, and, on the other, points in North Carolina. The purpose of this filing is to eliminate the gateway of Marcus Hook, Pa.

No. MC 45764 (Sub-No. E43), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over ir-

regular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Delaware on and north of Delaware Highway 8, on the one hand, and, on the other, points in South Carolina. The purpose of this filing is to eliminate the gateway of Marcus Hook, Pa.

No. MC 45764 (Sub-No. E44), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Delaware on and north of Delaware Highway 41, on the one hand, and, on the other, points in Virginia. The purpose of this filing is to eliminate the gateway of Marcus Hook, Pa.

No. MC 45764 (Sub-No. E45), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Delaware on and north of Delaware Highway 41, on the one hand, and, on the other, points in West Virginia. The purpose of this filing is to eliminate the gateway of Marcus Hook, Pa.

No. MC 45764 (Sub-No. E46), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Delaware on and north of Delaware Highway 8, on the one hand, and, on the other, points in West Virginia on and east of a line beginning at the West Virginia-Pennsylvania State line, and extending south over West Virginia Highway 26 to junction West Virginia Highway 73, thence over West Virginia Highway 73 to Morgantown, thence over U.S. Highway 19 to junction U.S. Highway 33/119, thence over U.S. Highway 33/119 to Charleston, and thence southeast over U.S. Highway 21 to Bluefield, W. Va., on the West Virginia-Virginia State line. The purpose of this filing is to eliminate the gateway of Marcus Hook, Pa.

No. MC 45764 (Sub-No. E47), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Delaware on and north of Delaware Highway 41, on the one hand, and, on the other, points in Virginia. The purpose of this filing is to eliminate the gateway of Marcus Hook, Pa.

ter Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Maryland, on the one hand, and, on the other, points in Rhode Island. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45764 (Sub-No. E48), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Maryland, on east and north of a line beginning at the Maryland-Pennsylvania State line, and extending south over Maryland Highway 213 to junction U.S. Highway 40, thence over U.S. Highway 40 to the Maryland-Delaware State line, on the one hand, and, on the other, points in and west of Craig, Roanoke, Bedford, Campbell, Charlotte, and Mecklenburg Counties, Va. The purpose of this filing is to eliminate the gateway of Marcus Hook, Pa.

No. MC 45764 (Sub-No. E49), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Pennsylvania on and south of a line beginning at Erie, Pa., and extending southeast over Pennsylvania Highway 8 to junction U.S. Highway 6, thence east over U.S. Highway 6 to junction U.S. Highway 219, thence south over U.S. Highway 219 to junction Pennsylvania Highway 255, thence southeast over Pennsylvania Highway 255 to junction Pennsylvania Highway 555, thence east over Pennsylvania Highway 555 to junction Pennsylvania Highway 120, thence east over Pennsylvania Highway 120 to U.S. Highway 220, thence northeast over U.S. Highway 220 to junction Pennsylvania Highway 442, thence southeast over Pennsylvania Highway 555 to junction Pennsylvania Highway 42, thence south over Pennsylvania Highway 42 to junction Interstate Highway 81, thence east over Interstate Highway 81 to junction Pennsylvania Highway 93, thence southeast over Pennsylvania Highway 93 to junction U.S. Highway 209, thence south and east over U.S. Highway 209 to junction Pennsylvania Highway 248, thence east over Pennsylvania Highway 248 to junction Pennsylvania Highway 145, thence southeast over Pennsylvania Highway 309 to junction Pennsylvania

Highway 663, thence east over Pennsylvania Highway 663 to Quakertown, Pa., thence southeast over Pennsylvania Highway 313 to junction U.S. Highway 202, and thence northeast over U.S. Highway 202 to the Pennsylvania-New Jersey State line, on the one hand, and, on the other, points in Rhode Island. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45764 (Sub-No. E50), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Pennsylvania (a) on and east of a line beginning at the Pennsylvania-Delaware State line and extending northwest over Pennsylvania Highway 82 to junction Pennsylvania Highway 23, thence west over Pennsylvania Highway 23 to junction Pennsylvania Highway 10, and thence north over Pennsylvania Highway 10 to Reading, Pa., and (b) on and south of a line extending from Reading east over Pennsylvania Highway 562 to junction Pennsylvania Highway 100, thence northeast over Pennsylvania Highway 100 to junction Pennsylvania Highway 29, thence southeast over Pennsylvania Highway 29 to junction Pennsylvania Highway 663, thence east over Pennsylvania Highway 663 to junction Pennsylvania Highway 313 to Pennsylvania Highway 113, thence northeast over Pennsylvania Highway 113 to junction U.S. Highway 611, thence south over U.S. Highway 611 to Pipersville, Pa., and thence east over unnumbered highway to the Pennsylvania-New Jersey State line at Point Pleasant, Pa., on the one hand, and, on the other, points in Ohio. The purpose of this filing is to eliminate the gateway of Conshohocken, Pa.

No. MC 45764 (Sub-No. E51), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Pennsylvania on and east of a line beginning at the Pennsylvania-Maryland State line, and extending northwest over Pennsylvania Highway 472 to junction U.S. Highway 222, thence northwest over U.S. Highway 222 to Lancaster, Pa., thence northeast over U.S. Highway 222 to Allentown, Pa., and thence east over U.S. Highway 22 to the Pennsylvania-New Jersey State line, on the one hand, and, on the other, points in Ohio west of a line beginning at Lake Erie and extending south over Ohio Highway 4 to junction Ohio Highway 98, thence south over Ohio

Highway 98 to junction U.S. Highway 23, and thence south over U.S. Highway 23 to Columbus, Ohio (including Columbus) and on and west of a line extending from Columbus south over U.S. Highway 23 to the Ohio-Kentucky State line. The purpose of this filing is to eliminate the gateway of Conshohocken, Pa.

No. MC 45764 (Sub-No. E52), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Pennsylvania on and east of a line beginning at the Pennsylvania-Maryland State line, and extending northwest along the east bank of the Susquehanna River to Marietta, Pa., thence northeast over Pennsylvania Highway 141 to junction Pennsylvania Highway 501, thence north over Pennsylvania Highway 501 to junction Pennsylvania Highway 125, thence northwest over Pennsylvania Highway 125 to Shamokin, Pa., thence over Pennsylvania Highway 61 to junction Pennsylvania Highway 487, thence northeast over Pennsylvania Highway 487 to Pennsylvania Highway 42, thence north over Pennsylvania Highway 42 to junction U.S. Highway 220, and thence north over U.S. Highway 220 to the Pennsylvania-New York line, on the one hand, and, on the other, points in North Carolina. The purpose of this filing is to eliminate the gateway of Marcus Hook, Pa.

No. MC 45764 (Sub-No. E53), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Pennsylvania on and east of a line beginning at the Pennsylvania-Maryland State line, and extending northwest along the east bank of the Susquehanna River to Millersburg, Pa., thence west over unnumbered highway across the Susquehanna River to junction U.S. Highway 15, and thence north over U.S. Highway 15 to the Pennsylvania-New York State line, on the one hand, and, on the other, points in North Carolina on and east of a line beginning at the North Carolina-Virginia State line and extending south over U.S. Highway 17 to Wilmington, N.C., and thence east over unnumbered highway to Wrightsville Beach, N.C. The purpose of this filing is to eliminate the gateway of Marcus Hook, Pa.

No. MC 45764 (Sub-No. E54), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Pennsylvania on and east of a line beginning at the Pennsylvania-Maryland State line, and extending northwest along the east bank of the Susquehanna River to Millersburg, Pa., thence west over unnumbered highway across the Susquehanna River to junction U.S. Highway 15, and thence north over U.S. Highway 15 to the Pennsylvania-New York State line, on the one hand, and, on the other, points in North Carolina on and east of a line beginning at the North Carolina-Virginia State line and extending south over U.S. Highway 17 to Wilmington, N.C., and thence east over unnumbered highway to Wrightsville Beach, N.C. The purpose of this filing is to eliminate the gateway of Marcus Hook, Pa.

representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Pennsylvania on and east of a line beginning at the Pennsylvania-Maryland State line, and extending north over Interstate Highway 83 to junction U.S. Highway 15, thence north over U.S. Highway 15 to the Pennsylvania-New York State line, on the one hand, and, on the other, points in South Carolina. The purpose of this filing is to eliminate the gateway of Marcus Hook, Pa.

No. MC 73165 (Sub-No. E104), filed October 8, 1974. Applicant: EAGLE MOTOR LINES, INC., P.O. Box 11086, Birmingham, Ala. 35202. Applicant's representative: Carl U. Hurst (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Contractors' outfits and equipment* (except pipe, pipeline material, machinery, equipment, and supplies incidental to and used in connection with the construction, dismantling, and repair of pipelines), when such commodities, because of size or weight, require the use of special equipment, which is embraced in the commodities descriptions below: (1) Machinery, equipment, materials, and supplies used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products; (2) Machinery, materials, supplies, and equipment incidental to or used in the construction, development, operation, and maintenance of facilities for the discovery, mining, and milling of minerals (other than lead, zinc, iron, and coal), when (a) such activities are in connection with the drilling of water wells, the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, the completion of holes or wells drilled, the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, the injection or removal of commodities into or from holes or wells, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products, and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline right of way, or (b) commodities consist of earth drilling machinery and equipment or machinery and equipment used in or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of sulphur and its products and supplies (not including sulphur) used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of sulphur and its products, restricted to the transportation of shipments moving to or from exploration, drilling, production, job, construction, plant (including refining, manufacturing, and processing plant) sites of storage sites.

(c) Machinery, equipment, materials, and supplies used in, or in connection with, the drilling of water wells, (d) Machinery, equipment, materials, and supplies used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products, and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline right of way, (e) Earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe incidental to, used in, or in connection with (1) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (2) the completion of holes or wells drilled, (3) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (4) the injection or removal of commodities into or from holes or wells; between all points in Kansas and points in Oklahoma on and east of U.S. Highway 77 and on and north of U.S. Highway 66, including Oklahoma City, on the one hand, and, on the other, Bessemer, Ala., and points in Alabama within 100 miles of Bessemer. The purpose of this filing is to eliminate the gateways of Arkansas, Tennessee, and Ottawa County, Okla., or Cherokee, Crawford, Labette, or Montgomery Counties, Kans.

No. MC 73165 (Sub-No. E105), filed October 8, 1974. Applicant: EAGLE MOTOR LINES, INC., P.O. Box 11086, Birmingham, Ala. 35202. Applicant's representative: Carl U. Hurst (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Oilfield equipment and supplies*, the transportation of which because of size or weight requires the use of special equipment (except pipe, pipeline material, machinery, equipment, and supplies incidental to and used in connection with the construction, dismantling, and repair of pipelines), (1) between points in Texas, on the one hand, and, on the other, points in Tennessee and Kentucky, (2) between points in Louisiana, on and west of a line extending from the Arkansas-Louisiana State line along U.S. Highways 71 and 171 to Lake Charles and points in Calcasieu and Cameron Parishes, La., on the one hand, and, on the other, points in Kentucky and Tennessee. The purpose of this filing is to eliminate the gateway of Texas within 200 miles and Arkansas within 150 miles of Texarkana, Tex.

No. MC 73165 (Sub-No. E106), filed October 8, 1974. Applicant: EAGLE MOTOR LINES, INC., P.O. Box 11086, Birmingham, Ala. 35202. Applicant's representative: Carl U. Hurst (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Material handling equipment* when such commodities consist of: (A) contractors outfits and equipment (except commodities in bulk, pipe, pipeline material, machinery, equipment and supplies incidental to and used in connection with the construction, dismantling and repair of pipelines), when such commodities because of size or weight require the use of special equipment, which is embraced in the following:

(1) *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products;

(2) *Machinery, materials, supplies, and equipment* incidental to or used in the construction, development, operation and maintenance of facilities for the discovery, mining and milling of minerals (other than lead, zinc, iron and coal), when (a) such activities are in connection with the drilling of water wells; the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment; the completion of holes or wells drilled; the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites; the injection or removal of commodities into or from holes or wells; the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the

transportation of shipments moving to or from pipeline right of way; or (b) commodities consist of *earth drilling machinery and equipment* or *machinery and equipment* used in or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of sulphur and its products, and materials and supplies (not including sulphur) used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of sulphur and its products, restricted to the transportation of shipments of materials and supplies moving to or from exploration, drilling, production, job, construction, plant (including refining, manufacturing, and processing plant) sites of storage sites.

(3) Commodities the transportation of which by reason of their size or weight require the use of special equipment or special handling, when such commodities consist of (a) *Machinery, equipment, materials and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof; (b) *Machinery and equipment* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of sulphur and its products, and *materials and supplies* (not sulphur) used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of sulphur and its products, restricted to the transportation of shipments of materials and supplies moving to or from exploration, drilling, production, job, construction, plant (including refining, manufacturing and processing plant) sites of storage sites; (c) *Machinery, equipment, materials and supplies* used in, or in connection with, the drilling of water wells; (d) *Machinery, equipment, materials, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water or sewerage, restricted to the transportation of shipments moving to or from pipeline right of way; (e) *Earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe* incidental to, used in, or in connection with (1) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment; (2) the completion of holes or wells drilled; (3) the production, storage, and transmission of commodities resulting from drilling operations at well

or hole sites, and (4) the injection of removal of commodities into or from holes or wells.

between all points in Kansas and points in Oklahoma on and east of U.S. Highway 77 and on and north of U.S. Highway 66, including Oklahoma City, on the one hand, and, on the other, points in Georgia, South Carolina, Florida, and points in Alabama on or east of U.S. Highway 29.

The purpose of this filing is to eliminate the gateway of Winfield, Ala., Arkansas, Tennessee, and Ottawa County, Okla., or Cherokee, Crawford, Labette, or Montgomery Counties, Kans.

No. MC 73165 (Sub-No. E107), filed October 8, 1974. Applicant: EAGLE MOTOR LINES, INC., P.O. Box 11086, Birmingham, Ala. 35202. Applicant's representative: Carl U. Hurst (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Oilfield contractors' material handling equipment*, and parts, attachments and accessories used in connection with such commodities, (except pipe, pipeline material machinery, equipment, and supplies incidental to and used in connection with the construction, dismantling, and repair of pipelines), when the commodities described herein because of size or weight require the use of special equipment, between points in Texas on and south of U.S. Highway 70, on the one hand, and, on the other, points in Ohio and West Virginia on and north of U.S. Highway 50, points in Maryland and Delaware, and points in the United States northeast thereof. The purpose of this filing is to eliminate the gateway of Texas within 200 miles of Arkansas within 150 miles of Texarkana, Tex., and Winfield, Ala.

No. MC 73165 (Sub-No. E110), filed October 8, 1974. Applicant: EAGLE MOTOR LINES, INC., P.O. Box 11086, Birmingham, Ala. 35202. Applicant's representative: Carl U. Hurst (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Iron and steel articles (except those which because of size or weight require the use of special equipment) which consist of commodities named in (1) below: (1) *Machinery, equipment, material, and supplies* used in or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, supplies, and equipment* incidental to or used in the construction, development, operation, and maintenance of facilities for the discovery, mining and milling of lead, zinc, iron, coal, and other minerals, and *commodities* the transportation of which by reason of their size or weight require the use of special handling, when any of the commodities described in this paragraph consist of the following: (a) *Machinery, equipment, materials, and supplies* used in, or in

connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products and *machinery, materials, equipment, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof;

(b) *Machinery, equipment, materials, and supplies* used in, or in connection with, the drilling of water wells; or (c) *Machinery, equipment, materials, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline right of way, between points in that part of Montana on and east of a line beginning at the Montana-Wyoming State Line near Alzada, Montana, and extending along U.S. Highway 212 to junction U.S. Highway 312, thence along U.S. Highway 312 to Miles City, Montana, thence along Montana Highway 22 to Jordan, Montana, thence northwesterly in a straight line to Malta, Montana, and thence along Montana Highway 242 to the United States-Canada Boundary Line, points in that part of North Dakota on and west of a line beginning at the United States-Canada Boundary Line and extending along North Dakota Highway 30 to junction unnumbered highway at Lehr, North Dakota, and thence along unnumbered highway to Ashley, N. Dak., thence North Dakota Highway 3 to the South Dakota line, and points in South Dakota west of the Missouri River and on and north of U.S. Highway 14, on the one hand, and, on the other, points in Tennessee, Mississippi, Alabama, Georgia, Florida, and South Carolina. The purpose of this filing is to eliminate the gateway of Ottawa County, Okla., points on the Mississippi River in Arkansas, and, as to South Carolina, a further gateway of points in Alabama.

No. MC 73165 (Sub-No. E111), filed October 8, 1974. Applicant: EAGLE MOTOR LINES, INC., P.O. Box 11086, Birmingham, Ala. 35202. Applicant's representative: Carl U. Hurst (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *contractors outfits and equipment*, consisting of the commodities in (1) below (except pipe, pipeline material, machinery, equipment, and supplies incidental to and used in connection with the construction, dismantling and repair of pipelines) the transportation of which because of size or weight requires the use of special equipment:

(1) *Machinery, equipment, material, and supplies* used in or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, supplies, and equipment* incidental to or used in the construction, development, operation, and maintenance of facilities for the discovery, mining and milling of lead, zinc, iron, coal, and other minerals, and *commodities* the transportation of which by reason of their size or weight require the use of special handling, when any of the commodities described in this paragraph consist of the following: (a) *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribu-

tion of natural gas and petroleum and their products and by-products, and *machinery, materials, supplies, and equipment* incidental to or used in the construction, development, operation, and maintenance of facilities for the discovery, mining and milling of lead, zinc, iron, coal, and other minerals, and *commodities* the transportation of which by reason of their size or weight require the use of special equipment or special handling, when any of the commodities described in this paragraph consist of the following:

(1) *Machinery, equipment, material, and supplies* used in or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, supplies, and equipment* incidental to or used in the construction, development, operation, and maintenance of facilities for the discovery, mining and milling of lead, zinc, iron, coal, and other minerals, and *commodities* the transportation of which by reason of their size or weight require the use of special equipment or special handling, when any of the commodities described in this paragraph consist of the following:

(a) *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, supplies, and equipment* incidental to or used in the construction, development, operation, and maintenance of facilities for the discovery, mining and milling of lead, zinc, iron, coal, and other minerals, and *commodities* the transportation of which by reason of their size or weight require the use of special handling, when any of the commodities described in this paragraph consist of the following:

(a) *Machinery, equipment, materials, and supplies* used in, or in connection with, the drilling of water wells; or

(c) *Machinery, equipment, materials, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline right of way.

between points in that part of Montana on and east of a line beginning at the Montana-Wyoming State Line near Alzada, Montana, and extending along U.S. Highway 212 to junction U.S. Highway 312, thence along U.S. Highway 312 to Miles City, Montana, thence along Montana Highway 22 to Jordan, Montana, thence northwesterly in a straight line to Malta, Montana, and thence along Montana Highway 242 to the United States-Canada Boundary Line, points in that part of North Dakota on and west of a line beginning at the United States-Canada Boundary Line and extending along North Dakota Highway 30 to junction unnumbered at Lehr, North Dakota, and thence along unnumbered highway to Ashley, N. Dak., and thence along North Dakota Hwy. 3 to the South Dakota line, and points in South Dakota west of the Missouri River and on and north of U.S. Hwy. 14, on the one hand, and, on the other, Bessemer, Alabama, and points in Alabama within 100 miles of Bessemer. The purpose of this filing is to eliminate the gateway of Ottawa County, Okla., Arkansas and Tennessee.

No. MC 73165 (Sub-No. E112), filed October 8, 1974. Applicant: EAGLE MOTOR LINES, INC., P.O. Box 11086, Birmingham, Ala. 35202. Applicant's representative: Carl U. Hurst (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Contractors material handling equipment* the transportation of which because of size or weight requires the use of special equipment (except pipe, pipeline material, machinery, equipment, and supplies incidental to and used in connection with the construction, dismantling, and repair of pipelines) which consist of the commodities named in (1) below:

(1) *Machinery, equipment, material, and supplies* used in or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, supplies, and equipment* incidental to or used in the construction, development, operation, and maintenance of facilities for the discovery, mining and milling of lead, zinc, iron, coal, and other minerals, and *commodities* the transportation of which by reason of their size or weight require the use of special handling, when any of the commodities described in this paragraph consist of the following:

(1) *Machinery, equipment, material, and supplies* used in or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, supplies, and equipment* incidental to or used in the construction, development, operation, and maintenance of facilities for the discovery, mining and milling of lead, zinc, iron, coal, and other minerals, and *commodities* the transportation of which by reason of their size or weight require the use of special handling, when any of the commodities described in this paragraph consist of the following:

(a) *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products and *machinery, materials, equipment, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof.

(b) *Machinery, equipment, materials, and supplies* used in, or in connection with, the drilling of water wells; or

(c) *Machinery, equipment, materials, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline right of way.

between points in that part of Montana on and east of a line beginning at the Montana-Wyoming State Line near Alzada, Montana, and extending along U.S. Highway 212 to junction U.S. Highway 312, thence along U.S. Highway 312 to Miles City, Montana, thence along Montana Highway 22 to Jordan, Montana, thence northwesterly in a straight line to Malta, Montana, and thence along Montana Highway 242 to the United States-Canada Boundary Line, points in that part of North Dakota on and west of a line beginning at the United States-Canada Boundary Line and extending along North Dakota Highway 30 to junction unnumbered highway to Ashley, North Dakota, and thence along North Dakota Hwy. 3 to the South Dakota line, and points in South Dakota west of the Missouri River and on and north of U.S. Highway 14, on the one hand, and, on the other, all points in South Carolina, Georgia, Florida, and points in Alabama on and south of U.S.

Highway 80. The purpose of this filing is to eliminate the gateway of Infield, Ala., Ottawa County, Okla., Arkansas and Tennessee.

No. MC 95540 (Sub-No. E137), filed April 22, 1974. Applicant: WATKINS MOTOR LINES, INC. P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd. NE., Atlanta, Ga. 30342. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Frozen foods, from points in that part of California on and south of a line beginning at Eureka, thence along U.S. Highway 101 to junction California Highway 299, thence along California Highway 299 to Redding, thence along California Highway 44 to junction California Highway 36, thence along California Highway 36 to junction U.S. Highway 395, thence along U.S. Highway 395 to junction unnumbered California highway, through Wendell to the California-Nevada State line to points in that part of Virginia on, south, and east of a line beginning at Bristol, thence along U.S. Highway 11 to Staunton, thence along Interstate Highway 64 to Charlottesville, thence along U.S. Highway 29 to Culpeper, thence along U.S. Highway 15 to the Virginia-Maryland State line. The purpose of this filing is to eliminate the gateway of Tifton, Ga.

By the Commission.

[No. MC-6807 (Sub-No. 14)]

J. J. MINNEHAN, INC.  
Extension—Corn Products

MAY 23, 1975.

At a session of the Interstate Commerce Commission, Review Board Number 1, held at its office in Washington, D.C., on the 13th day of May, 1975.

It appearing, That by application filed September 13, 1973, J. J. Minnehan, Inc., of Bellefonte, Pa., seeks a permit authorizing operation, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of (1) corn products and blends of corn products with other sweeteners, in bulk, in tank vehicles, from Beverly and Boston, Mass., to points in New Hampshire, Vermont, Rhode Island, those in that part of Maine bounded by a line beginning at the New Hampshire-Maine State line and extending in an easterly direction along U.S. Highway 2 to Norridgewock, Maine, thence in a northerly direction along Alternate U.S. Highway 201 to junction U.S. Highway 201 to Bingham, Maine, thence in an easterly direction along Maine Highway 16 through Milo and La Grange, Maine, to junction Maine Highway 43, thence along the western shore of the Penobscot River and the Penobscot Bay to the Atlantic Ocean, thence in a southwesterly direc-

tion along the Atlantic Coast to the Maine-New Hampshire State line, and thence along the Maine-New Hampshire State line to the point of beginning, including points on the above-described boundary lines, and those in that part of Connecticut on and east of a line beginning at the Connecticut-Massachusetts State line and extending in a southerly direction along Connecticut Highway 159 to Hartford, Conn., thence in a southerly direction along Interstate Highway 91 to the interchange of Interstate Highway 91 and U.S. Highway 5, thence in a southerly direction along U.S. Highway 5 to New Haven, Conn.; (2) sugar and blends of sugar with other sweeteners from Beverly and Boston, Mass., to points in the destination areas described in (1) above, restricted in (1) and (2) above to a transportation service to be performed under contracts with CPC International, Inc., and the Clinton Corn Processing Co.; and (3) commodities as described in (1) and (2) above, from Boston, Mass., to Naugatuck and Watertown, Conn., restricted to a transportation service to be performed under contract with Revere Sugar Refinery.

It further appearing, That the application has been processed under the Commission's modified procedure; that applicant has filed verified statements in support of the application; that protestant P. B. Mutrie Motor Transportation, Inc., a motor common carrier, has filed verified statements in opposition to the application; and that applicant and supporting shipper CPC International, Inc., have filed rebuttal statements.

It further appearing, That Minnehan is a contract carrier currently authorized to serve three shippers; that applicant is the wholly owned subsidiary of Gleason Transportation Co., Inc., a non-carrier, which in turn is owned by Multivisions Corp. and Environmental Leasing Corp., also non-carriers; that applicant maintains a fleet of 115 suitable tank trailers which are available to perform the proposed service; that applicant submitted an operational feasibility statement and proposes to render for its supporting shipper (CPC) a "house carrier" service involving expeditious deliveries and day-and-night emergency operations; and that it also submitted appropriate financial data.

It further appearing, That CPC International, Inc., of Englewood Cliffs, N.J., sells an estimated 30 million pounds of liquid blends each year in Massachusetts, which is transported by a non-protesting carrier; that these blends, which consist

of a mixture of sugar and dextrose, initially are transported by rail from CPC's manufacturing plant at Yonkers, N.Y., to its facility at South Boston; that at this facility the blends are heated and loaded into tank vehicles; that, on the average, one shipment of blends will be transported every other month from South Boston to New England and protestant has been utilized for these movements; that in its initial verified statement, shipper stated that based on its projected studies it would be transporting its commodities throughout the involved territory and also stood a good chance of adding new customers and volume formerly of Revere Sugar Refinery, of Charlestown, Mass.; however, as shipper notes in its rebuttal statement, Revere did not go out of business as anticipated; that shipper states that Revere and Amstar Corporation, both of Charlestown, supply liquid sugar to consignees in the involved territory; that shipper is convinced it will be competitive with these manufacturers in the transportation of the involved commodities; that shipper estimated that by the end of 1974 it would have a need for the transportation of 20 million pounds of commodities each year with six million moving to Maine, six million to New Hampshire, three million to Vermont, three million to Rhode Island, and two million to Connecticut; and that at the involved origin points the liquid bulk products can be blended according to customer specifications.

It further appearing, That shipper indicates that the involved consignees have and are installing bulk facilities for warehousing the involved commodities; that these customers reduce their inventory to a minimum before replacement and therefore often place orders no more than 1 day in advance of delivery; that, therefore, an expedited timed delivery service is required encompassing transportation of the involved bulk liquid products in specialized tank vehicles; that special pumps must be installed for unloading and the trucks must be extremely clean and properly insulated; and that the evidence demonstrates that shipper requires emergency shipments during the summer and holiday seasons, since during this time demands increase between 30 and 40 percent.

It further appearing, That at the time of filing this application shipper did not blending at the involved facilities but estimated that by the end of 1974 it would be involved in some blending at its Boston facility; that shipper anticipates working closely with applicant at the above-noted facilities on such operations as cleaning the equipment and anticipates requiring applicant to station its own dispatcher on a full time basis at its Boston facility; and that while shipper will utilize protestant's service when available, it is asserted that since protestant's two competitors both utilize its service and since protestant has only two pieces of equipment available, it could not render a satisfactory service on the new tonnage.

It further appearing, That protestant Mutrie is, as pertinent, authorized to transport, over regular routes, liquid commodities between the involved origin points and points in Connecticut, Massachusetts, New Hampshire, Rhode Island, Vermont, and a described portion of Maine, and general commodities from Boston to specified points in, as pertinent, Connecticut and Rhode Island; that protestant maintains two trailers at Medford, Mass., which assertedly are not being utilized to full capacity despite the fact that protestant has been providing service for the supporting shipper from South Boston (apparently with these two trailers); that protestant attaches an abstract of shipments handled for the account of the supporting shipper from August 8, 1973 through January 4, 1974, indicating ten shipments weighing 224 tons to points in Vermont, Connecticut, and Maine which produced revenues of approximately \$2,800; and that protestant asserts that applicant is currently serving a prohibitive number of shippers and contends that in any event, it has failed to demonstrate that its proposal is one of contract carriage.

It further appearing, That in considering section 203(a) (15) of the Act we note that it does not appear from the evidence adduced that applicant intends to assign vehicles for a continuing period of time to the exclusive use of the supporting shipper; that conversely we believe that applicant has met the alternative criterion for establishing contract carriage, viz, that the proposed service is designed to meet the supporting shipper's distinct needs; that in this regard we note that the supporting shipper requires an expedited, timed delivery service encompassing deliveries performed, at a maximum, within 1 day, in specialized tank vehicles and also the performance of emergency deliveries during the summer months and various holidays; and that the evidence also demonstrates that shipper needs a "house carrier" type service since it will require applicant to clean its equipment at the various origin points and more importantly, at its Boston facility, it will require Minnehan to station dispatchers on a full time basis in order to facilitate the handling of traffic.

It further appearing, That while applicant requested that the authority sought authorized a transportation service for three named shippers, the only shipper who submitted a verified statement in support of the application was CPC International, Inc., and therefore the authority here granted will be limited to that performed under continuing contract with this firm.

It further appearing, That inasmuch as the grant of authority described in this order duplicates applicant's existing authority to a certain extent, such grant of authority and applicant's existing authority that it duplicates shall be construed as conferring only a single operating right.

It further appearing, That because it is possible that other parties, who have relied upon the notice of the application as published (which failed to indicate because of an oversight by applicant that its intended operations include service at points on the described boundary lines with respect to Connecticut as well as Maine), may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an

appropriate petition for leave to intervene in the proceeding setting forth in detail the precise manner in which it has been prejudiced.

And it further appearing, That the evidence of record establishes that applicant has suitable and available motor vehicle equipment, is experienced in the transportation of the type of commodities involved here, and is financially and otherwise fit, willing, and able properly to conduct the operation authorized; and that such evidence in all other respects amply warrants the grant of authority set forth below, which is phrased to conform to the evidence and current Commission practice.

Wherefore, and good cause appearing therefor:

We find, That operation by applicant, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of (1) corn products and blends of corn products with other sweeteners, in bulk, in tank vehicles, and (2) sugar and blends of sugar with other sweeteners, from Beverly and Boston, Mass., to points in (a) New Hampshire, Vermont, and Rhode Island, (b) that part of Maine bounded by a line beginning at the junction of U.S. Highway 2 and the Maine-New Hampshire State line and extending in an easterly direction along U.S. 2 to Norridgewock, Maine, thence in a northerly direction along Alternate U.S. Highway 201 to junction U.S. Highway 201, thence along U.S. Highway 201 to Bingham, Maine, thence in an easterly direction along Maine Highway 16 through Milo and La Grange, Maine, to junction Main Highway 43, thence along the western shore of the Penobscot River and Penobscot Bay to the Atlantic Ocean, thence in a southwesterly direction along the Atlantic Ocean to the Maine-New Hampshire State line, and thence along the Maine-New Hampshire State line to the point of beginning, including points on the described boundary line, and (c) that part of Connecticut on and east of a line beginning at the junction of Connecticut Highway 159 and the Connecticut-Massachusetts State line and extending in a southerly direction along Connecticut Highway 159 to Hartford, Conn., thence in a southerly direction along Interstate Highway 91 to the junction of Interstate Highway 91 and U.S. Highway 5, thence in a southerly direction along U.S. Highway 5 to New Haven, Conn., including points on the described boundary line, under a continuing contract or contracts with CPC International, Inc., of Englewood Cliffs, N.J., will be consistent with the public interest and the national transportation policy; that such grant and any existing authority duplicated thereby shall be construed as conferring only a single operating right; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder; that this decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental

any proper party in interest may file an

FEDERAL REGISTER, VOL. 40, NO. 104—THURSDAY, MAY 29, 1975

Policy Act of 1969; that an appropriate permit should be granted subject to the publication condition noted below; and that the application in all other respects should be denied.

*It is ordered.* That said application, except to the extent granted herein, be, and it is hereby, denied.

*It is further ordered.* That upon compliance by applicant with the requirements of sections 215, 218, and 221(c) of the Interstate Commerce Act, with the Commission's rules and regulations thereunder, and with the requirements established in *Contracts of Contract Carriers*, 1 M.C.C. 628 (49 CFR 1053), within the time specified in the next succeeding paragraph, a permit be issued to applicant authorizing the operations described, subject to prior publication in the *Federal Register* of a notice of the authority actually granted by this order.

*And it is further ordered.* That unless compliance is made by applicant with the requirements of sections 215, 218, and 221(c) of the Act within 90 days after the date of service of this order, or within such additional time as may be authorized by the Commission, the grant of authority made herein shall be considered as null and void, and the application shall stand denied in its entirety effective upon the expiration of the said compliance time.

By the Commission, Review Board Number 1.

[Notice 41]

#### MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

MAY 23, 1975.

The following publications include motor carrier, water carrier, broker, freight forwarder and rail proceedings indexed as follows: (1) Grants of authority requiring republication prior to certification; (2) notices of filing of petitions for modification of existing authorities; (3) new operating right's applications directly related to and processed on a consolidated record with finance applications filed under sections 5(2) and 212(b); (4) notices of filing of sections 5(2) and 210a(b) finance applications; and (5) notices of filing of section 212(b) transfer applications.

Each applicant (except as otherwise specifically noted) states that there will be no significant effect on the quality of the human environment resulting from approval of its application in compliance with the requirements of 49 CFR 1100.250.

Protests to the granting of the requested authority must be filed with the Commission on or before June 30, 1975 (unless otherwise specified). Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest should comply with section 247(d) or section 240(c) as appropriate of the Commis-

sion's General Rules of Practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and a detailed description of the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest (except for petitions and Finance Dockets under Rule 40 requiring the original and six (6) copies of the protest) shall be filed with the Commission, and a copy shall be served concurrently upon applicant's or petitioner's representative, or applicant or petitioner if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d) (4) or section 240(c) (4) of the special rules, and shall include the certification required therein.

No. MC 32838 (Notice of Filing of Petition To Remove Restrictions), filed May 1, 1975. Petitioner: ST. LOUIS-KANSAS CITY EXPRESS, INC., 26 East Mercury Street, Chesterfield, Mo. 63017. Petitioner's representative: Harold G. Hernly, 118 North St. Asaph Street, Alexandria, Va. 22314. Petitioner holds a motor common carrier certificate in No. MC 32838, issued November 26, 1971, authorizing transportation, as pertinent, over regular and irregular routes, of: (A) over regular routes, (1) *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving Tipton and California, Mo., as intermediate points in connection with carrier's regular route operations between Union, Mo. and Kansas City, Kans. Restriction: The service authorized above is subject to the following conditions: (a) The authority granted above and the authority now held by carrier in Section (A) herein shall not be tacked or combined for the purpose of performing through service between St. Louis and Kansas City, Mo., and (b) neither carrier's existing irregular route authority to serve Tipton and California, Mo., nor the regular route authority granted above to serve those points shall be severable by sale or otherwise; (2) *Charcoal and charcoal briquettes*, in bags or in bulk, from Meta, Mo., to Kansas City, Kans., serving no intermediate points: From Meta over Missouri Highway 133 to junction U.S. Highway 63, thence over U.S. Highway 63 to junction U.S. Highway 50, thence over U.S. Highway 50 to Kansas City, and return over the same route; (3) *General commodities* (except those of unusual

value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment) (a) serving ballistic missile and launching sites, and supply points therefor, located in Johnson, Pettis, Henry, Morgan, and Cooper Counties, Mo., as intermediate or off-route points in connection with the regular route operations authorized in Section (A) hereinbelow;

(b) Between Union, Mo., and Kansas City, Kans., serving the intermediate points of Jeffriesburg, Beaufort, Leslie, Gerald, Rosebud, Drake, Mt. Sterling, Loose Creek, Schubert, and Kansas City, Mo., and the off-route points of Bend, Bay, Cooper Hill, Hope, Frankenstein, Ryors, Taos, Freedom, Swiss, Rich Fountain, and Luystown, Mo.: From Union over U.S. Highway 50 to Kansas City, and return over the same route; (c) Between Rosebud, Mo., and Kansas City, Kans., serving the intermediate points of Owensville, Canaan, Bland, Belle, Lanes Prairie, Vichy Federal Air Port, Vienna, Freeburg, Westphalia, and Kansas City, Mo., and the off-route points of Vichy, Lindell, the plant site of the Kingsford Charcoal Co., about 5 miles south of Belle, Argyle, Koeltztown, and Loose Creek, Mo.: From Rosebud over Missouri Highway 28 to junction U.S. Highway 63, thence over U.S. Highway 63 to junction U.S. Highway 50, thence over U.S. Highway 50 to Kansas City, and return over the same route. Restriction: The authority granted in the 2 paragraphs next above and the authority otherwise granted in Section (A) hereinbelow to carrier shall not be tacked or combined for the purpose of performing through service between St. Louis and Kansas City, Mo.; (d) Between Tipton, Mo., and East St. Louis, Ill., serving the intermediate and off-route points of St. Louis, Centertown, Prairie Home, and Marion Township, Mo., points in Monticau County, Mo., and points in St. Clair County, Ill.: From Tipton over U.S. Highway 50 to junction U.S. Highway 66 at or near Gray Summit, Mo., thence over U.S. Highway 66 to East St. Louis, and return over the same route; (e) Between Loose Creek, Mo., and St. Louis, Mo., serving the intermediate point of Freedom, Mo., and the off-route points of Cooper Hill, Hope, Rich Fountain, Bonnots Mill, Frankenstein, and Luystown, Mo.: From Loose Creek over U.S. Highway 50 to St. Louis, and return over the same route; and

(f) Between Jefferson City, Mo., and National City, Ill., serving the intermediate and off-route points of Loose Creek, Linn, Mount Sterling, Drake, Rosebud, Gerald, Leslie, Beaufort, Union, Jeffriesburg, Algoa, Freedom, Westphalia, Freeburg, Vienna, Vichy, Lanes Prairie, Belle, Bland, Canaan, Owensville, St. Louis, Schubert, Useful, Taos, Ryors, Bay, Swiss, Cooper Hill, Lindell, Rich Fountain, Argyle, Koeltztown, and Bend, Mo., Hope, Osage County, Mo., and points in the St. Louis, Mo., Commercial Zone, as defined by the Commission: (1) From Jefferson City over U.S. Highway 50 via

Rosebud, Mo., to junction U.S. Highway 66 at or near Gray Summit, Mo., thence over U.S. Highway 66 to East St. Louis, Ill., and thence over city streets to National City, and return over the same route; and (2) From Jefferson City over U.S. Highway 50 to junction U.S. Highway 63, thence over U.S. Highway 63 to junction Missouri Highway 28, thence over Missouri Highway 28 to Rosebud, Mo., and thence to National City as specified above, and return over the same route; and (4) *General commodities* (except those of unusual value, classes A and B explosives, and household goods as defined by the Commission): Between Belle, Mo., and the plant site of the Kingsford Charcoal Company located approximately 6 miles southwest of Belle, Mo., serving no intermediate points: From Belle over Missouri Highway 28 to junction unnumbered highway, thence over unnumbered highway to the plant site of the Kingsford Charcoal Company, and return over the same route; and over irregular routes, (1) *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), Between Centertown, Prairie Home, and points in Marion Township, Mo., and those in Monticau County, Mo., on the one hand, and, on the other, points in Wyandotte County, Kans.;

(2) *Livestock*, Between Loose Creek, Mo., and points within 15 miles of Loose Creek, Mo., on the one hand, and, on the other, National Stockyards, Ill.; (3) *Household goods*, Between points in Marion Township, Mo., and those in Monticau County, Mo., on the one hand, and, on the other, points in Oklahoma and Iowa; and (4) *Feed and fertilizer*, From East St. Louis, Ill., to Loose Creek, Mo., and points within 15 miles of Loose Creek, Mo.

By the instant petition, petitioner seeks to remove the restrictions in the above authority preventing the performance of through service between St. Louis, Mo. and Kansas City, Mo. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition on or before June 30, 1975.

No. MC 108531 (Sub-No. 16) (Notice of Filing of Petition To Add a Destination), filed April 11, 1975. Petitioner: BLUE BIRD COACH LINES, INC., 502-504 N. Barry St., Olean, N.Y. 14760. Petitioner's representative: Ronald W. Malin, Bankers Trust Building, Jamestown, N.Y. 14701. Petitioner holds a motor common carrier certificate in No. MC 108531 (Sub-No. 16), issued December 20, 1974, authorizing transportation, over irregular routes, of *Passengers and their baggage*, in special operations, in round-trip sightseeing and pleasure tours, Beginning and ending at points in Chautauque County, N.Y., and extending to points in Arizona, Arkansas, California, Colorado, Idaho, Kansas, Min-

nesota, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wisconsin, and Wyoming. By the instant petition, petitioner seeks to add points in Iowa as a destination in the above authority. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition on or before June 30, 1975.

Nos. MC 128233 and Sub-No. 1 (Notice of Filing of Petition To Add a Contracting Shipper), filed April 30, 1975. Petitioner: OLIE M. ERICKSEN, P.O. Box 107, Transfer, Pa. 16154. Petitioner's Representative: John A. Vuono, 2310 Grant Building, Pittsburgh, Pa. 15219. Petitioner holds motor contract carrier permits in Nos. MC 128233 and Sub-No. 1, issued October 29, 1968 and June 10, 1969, respectively, authorizing transportation, over irregular routes, in MC 128233, of (1) *Scrap metals*, From points in Connecticut, Illinois, Maryland, Massachusetts, New Jersey, New York, Ohio, Rhode Island, and Wisconsin, to points in Pymatuning Township, Mercer County, Pa.; and (2) *Processed scrap metals*, From points in Pymatuning Township, Mercer County, Pa., to Baltimore, Md., Philadelphia, Pa., and points in Illinois, Massachusetts, New Jersey, New York, Ohio, and Wisconsin, under a continuing contract, or contracts with Mercer Alloys Corporation, of Greenville, Pa.; and in MC 128233 (Sub-No. 1), of (1) *Scrap metals and processed scrap metals*, Between points in Pymatuning Township, Pa., on the one hand, and, on the other, points in Alabama, California, Colorado, Connecticut, Delaware, Indiana, Louisiana, Maryland, Michigan, North Carolina, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, and West Virginia; and (2) *Alloys*, Between points in Pymatuning Township, Pa., on the one hand, and, on the other, Chicago, Ill., and points in Alabama, California, Connecticut, Delaware, Louisiana, Maryland (except alloys from Baltimore, Md.), Massachusetts, New Jersey, New York, North Carolina, Ohio (except alloys, in bulk, in dump vehicles, to and from points in Ashtabula, Cuyahoga, Lake, Summit, Muskingum, Licking, Franklin, and Wayne Counties, Ohio, and except alloys to and from points in Waterford Township, Washington County, Ohio), Oklahoma, Pennsylvania (except alloys, in dump vehicles, from Philadelphia, Pa.), Rhode Island, South Carolina, Tennessee, Texas and West Virginia under a continuing contract, or contracts, with Mercer Alloys Corp. of Greenville, Pa. By the instant petition, petitioner seeks to add National Nickel Alloy Corp. as an additional contracting shipper in the above authorities. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition on or before June 30, 1975.

No. MC 136658 (Sub-No. 2) (Notice of Filing of Petition To Add a Contracting Shipper), filed February 14, 1975. Petitioner: ARALDO C. RICHIE, doing business as A. R. TRUCKING, 12 Spurr Place, Nutley, N.J. 07110. Petitioner's Representative: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Petitioner holds a motor contract carrier permit in No. MC 136658 (Sub-No. 2), issued March 30, 1973, authorizing transportation, over irregular routes, of (1) *Such commodities* as are dealt in by a manufacturer of gas and electrical appliances and gas and electrical fixtures, from Kearney and Clifton, N.J., to points in Massachusetts, Rhode Island, Connecticut, New Jersey, Delaware, the District of Columbia, that part of New York on, south and east of a line beginning at the Massachusetts-New York State line and extending along New York Highway 2 to junction New York Highway 7, thence along New York Highway 7 to junction Interstate Highway 81, thence along Interstate Highway 81 to the New York-Pennsylvania State line, those points in Pennsylvania and Maryland on and east of Interstate Highway 81, points in that part of Virginia on, east, and north of a line beginning at the Virginia-West Virginia State line and extending along Interstate Highway 81 to junction U.S. Highway 17, thence along U.S. Highway 17 to junction U.S. Highway 301, thence along U.S. Highway 301 to the Potomac River; and (2) *Used commodities* of the same description in (1) above, From destination points in the above-described territory, to Kearny and Clifton, N.J., under a continuing contract, or contracts, with the Tappan Company. By the instant petition, petitioner seeks to add Westinghouse Electric Corporation as a contracting shipper in the above authority. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition on or before June 30, 1975.

#### APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's Special Rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 CFR 1,240).

No. MC 43963 (Sub-No. 9), filed May 5, 1975. Applicant: CHIEF TRUCK LINES, INC., 1479 Ripley Street, East Gary, Ind. 46405. Applicant's representative: James C. Hardman, 33 North La Salle Street, Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Heavy machinery and articles* requiring specialized handling or rigging because of size or weight; between Chicago, Ill. and points in Illinois and Indiana within 50 miles of Chicago, on the

NOTICES

one hand, and, on the other, Minneapolis, St. Paul, South St. Paul, and Stillwater, Minn.; (2) material handling equipment, winches, compaction and road making equipment, rollers, mobile cranes, and highway freight trailers; and parts, attachments and accessories for the commodities named; between the plantsites of Hyster Company at or near Danville, Peoria, Ind. and Kewanee, Ill., and Crawfordville, Ind. on the one hand, and, on the other, Minneapolis, St. Paul, South St. Paul, and Stillwater, Minn., restricted to the transportation of shipments originating at or destined to the above-named plantsites; (3) iron and steel angles, bars, channels, conduits, fencing, flooring, joists, lath mesh, piling, pipe, parts, rails, rods, roof bolt mats, roofing, strip, structurals, tank parts, tubing and wire in coils, from Chicago and Joliet, Ill. and Burns Harbor, Ind., to Minneapolis, St. Paul, South St. Paul, and Stillwater, Minn.

(4) Iron and steel angles, bars, channels, conduits, fencing, flooring, joists, lath mesh, piling, pipe, parts, rails, rods, roof bolt mats, roofing, strip, structurals, tank parts, tubing and wire in coils, which because of size and weight require specialized handling or rigging, between points in Will, Kankakee, Iquoquois, Ford, Vermillion, Champaign, Douglas, Edgar, Coles, Clark, Cumberland, Effingham, Jasper, Crawford, Clay, Richland, Lawrence, Wayne, Edwards, Wabash, Hamilton, White, Franklin, Williamson, Saline, Gallatin, Johnson, Pope, Hardin, Pulaski, Kendall, Grundy, Livingston, McLean, DeWitt, Platt, Macon, Moultrie, Shelby, Christian, Fayette, Bond, Marion, Clinton, Washington, Jefferson, Randolph, Perry, Jackson, Union, Alexander, and Massac Counties, Ill.; those in Kane, DuPage and Cook Counties, Ill. on and south of Illinois Highway 64; and those in Indiana on and north of U.S. Highway 40, on the one hand, and, on the other, Minneapolis, St. Paul, South St. Paul, and Stillwater, Minn.; and (5) iron and steel angles, bars, channels, conduits, fencing, flooring, joists, lath mesh, piling, pipe, parts, rails, rods, roof bolt mats, roofing, strip, structurals, tank parts, tubing and wire in coils, (except articles requiring specialized handling or rigging because of size or weight), from points in Illinois and Indiana within 40 miles of Grant Park, Chicago, Ill., to Minneapolis, St. Paul, South St. Paul, and Stillwater, Minn.

NOTE—The purpose of this filing is to eliminate the gateway of Erin Township, Wisconsin. This application is a gateway elimination request filed pursuant to the Commission's Policy Statement in Ex Parte No. 55, Sub. No. 8 notice in the FEDERAL REGISTER issue of December 9, 1974; and is directly related to a Section 5 proceeding in MC-F-12515 published in the FEDERAL REGISTER of May 14, 1975.

No. MC-F-12520. Authority sought for purchase by CONSOLIDATED FREIGHTWAYS CORPORATION OF DELAWARE, 175 Linfield Drive, Menlo Park, CA 90425, of a portion of the operating rights of De CASPER BROTHERS FREIGHT LINES, INC., P.O. Box

230, Bradford, PA 16701, and for acquisition by CONSOLIDATED FREIGHTWAYS, INC., International Bldg., 601 California St., San Francisco, CA 94108, of control of such rights through the purchase. Applicants' attorneys: Robert C. Stetson, 175 Linfield Drive, Menlo Park, CA 90425, and Eugene T. Lippfert, Suite 1100, 1660 L St., NW., Washington, DC 20036. Operating rights sought to be transferred: General commodities, excepting among others, classes A and B explosives, commodities in bulk and household goods, as a common carrier over regular routes, between Jamestown, N.Y., and Bradford, Farmers Valley and Kane, Pa. Vendee is authorized to operate as a common carrier in all of the States in the United States (except Hawaii). Application has been filed for temporary authority under section 210a(b).

No. MC-F-12521. Authority sought for purchase by RYDER TRUCK LINES, INC., 2050 Kings Road, Jacksonville, FL 32203, of a portion of the operating rights of TRANSAMERICAN FREIGHT LINES, INC., 5650 Foremost Drive, SE., Grand Rapids, MI 49506, and for acquisition by IU TRANSPORTATION SERVICES, INC., The Wilmington Tower, 1105 N. Market St., Wilmington, DE 19801, which in turn, is controlled by IU INTERNATIONAL CORPORATION, also of Wilmington, DE 19801, of control of such rights through the purchase. Applicants' attorneys: Roland Rice, 618 Perpetual Bldg., Washington, DC 20004, H. Beatty Chadwick, 1500 Walnut St., Philadelphia, PA 19102, and Charles F. Rodgers, 744 Broad St., Newark, NJ 07102. Operating rights sought to be transferred: General commodities, with certain specified exceptions, and numerous other specified commodities, as a common carrier, over regular and irregular routes, from, to, and between specified points in the States of Missouri, Texas, Oklahoma, Arkansas, Kansas, Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Virginia, West Virginia, Vermont, Indiana, Illinois, Kentucky, Michigan, Ohio, North Carolina, South Carolina, Georgia, Iowa, and the District of Columbia, with certain restrictions, serving various intermediate and off-route points, over two alternate routes for operating convenience only, as more specifically described in Docket No. MC-10761 and Sub-numbers thereunder. This notice does not purport to be a complete description of all of the operating rights of the carrier involved. The foregoing summary is believed to be sufficient for purposes of public notice regarding the nature and extent of this carrier's operating rights, without stating, in full, the entirety thereof. Vendee is authorized to operate as a common carrier in all of the States in the United States (except Alaska and Hawaii). Application has been filed for temporary authority under section 210a(b).

No. MC-F-12522. Authority sought for control by RALPH C. WILSON AGENCY,

INC., One Woodward Ave., Detroit, MI 48226, of AUTOMOBILE CARRIERS, INC., 3401 N. Dort Highway, P.O. Box 128, Flint, MI 48501, and for acquisition by RALPH C. WILSON, JR., also of Detroit, MI 48226, of control of AUTOMOBILE CARRIERS, INC., through the acquisition by RALPH C. WILSON AGENCY, INC. Applicants' attorneys: Walter N. Bleneman, 100 West Long Lake Road, Suite 102, Bloomfield Hills, MI 48013, and Jack Goodman, 39 S. La Salle St., Chicago, IL 60606. Operating rights sought to be controlled: New automobiles, new trucks, new bodies, new cabs, new chassis, and parts thereof, restricted to initial movements, in truckaway service (except that the stated restrictions do not apply to the transportation of the said bodies, cabs, and parts), as a common carrier over irregular routes, from Flint, Mich., to Lincoln, Nebr., and points in Alabama, Illinois, Georgia, Indiana, Iowa, Michigan, Missouri, Tennessee, Ohio, Wisconsin, and Kentucky, except that parts thereof of the above-specified commodities may not be transported to points in Alabama, Georgia and Tennessee, and to points in Kentucky other than those on the Ohio River; automobiles, trucks, bodies, cabs, chassis, and parts thereof, new, used, unfinished, and/or wrecked, and automobile show displays, restricted to secondary movements, in truckaway service (except that the stated restrictions do not apply to the transportation of the said bodies, cabs, and parts), between Flint, Mich., on the one hand, and, on the other, Lincoln, Nebr., and points in Alabama, Illinois, Georgia, Indiana, Iowa, Michigan, Missouri, Tennessee, Ohio, Wisconsin, and Kentucky, except that automobile show displays, and parts thereof of automobiles, trucks, bodies, cabs, and chassis may not be transported to or from points in Alabama, Georgia, and Tennessee, and to and from points in Kentucky other than those on the Ohio River; automobiles, trucks, and buses, as described in descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766, in initial movements, in truckaway service, from Janesville, Wis., to points in the Lower Peninsula of Michigan. RALPH C. WILSON AGENCY, INC., holds no authority from this Commission. However he is affiliated with MOTORCAR TRANSPORT COMPANY, 1280 Joslyn Ave., Pontiac, MI 48055 (MC-60470), which is authorized to operate as a common carrier in Illinois, Michigan, Nebraska, Alabama, Georgia, Indiana, Iowa, Missouri, Tennessee, Ohio, Wisconsin, Kentucky, Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island, Vermont, Pennsylvania, West Virginia and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-12523. Authority sought for purchase by DeFAZIO EXPRESS, INC., 1028 Springbrook Ave., Moosic, PA 18057, of the operating rights of L & L EQUIPMENT, INC., doing business as DELTA TRUCK LINES, Box 216, Newfoundland, PA 18445, and for acquisition by BENNY

DeFAZIO, JR., R. D. #3, Box 222F, Moscow, PA 18444, W. R. MARQUARD, 247 E. Morton St., Old Forge, PA 18518, and THOMAS R. MELVIN, 1721 Penn Ave., Scranton, PA 18509, of control of such rights through the purchase. Applicants' attorney: Kenneth R. Davis, 121 S. Main St., Taylor, PA 18517. Operating rights sought to be transferred: Coal, as a common carrier over regular routes, from Wilkes-Barre, Pa., to New York, N.Y., serving the intermediate point of Avoca, Pa., restricted to pick-up only; groceries and farm products, from New York, N.Y., to Wilkes-Barre, Pa., serving various intermediate and off-route points. Vendee is authorized to operate as a common carrier in Connecticut, Massachusetts, New Jersey, New York and Pennsylvania; and as a contract carrier in Connecticut, New Jersey, New York and Pennsylvania. Application has been filed for temporary authority under section 210a(b).

No. MC-F-12524. Authority sought for purchase by SILVEY REFRIGERATED CARRIERS, INC., Gifford Road, Council Bluffs, IA 51501, of a portion of the operating rights of ROAD RUNNER TRUCKING, INC., P.O. Box 37491, Omaha, NE 68137, and for acquisition by LEWIS R. CIMINO, Gifford Rd., Council Bluffs, IA 51501, of control of such rights through the purchase. Applicants' attorney: Donald L. Stern, 530 Univac Bldg., 7100 W. Center Rd., Omaha, NE 68106. Operating rights sought to be transferred: Meats, meat products, and meat by-products, and articles distributed by meat packinghouses, as described in Sections A and C of Appendix 1 to the report in Descriptions in Motor Carrier Certificates 61 M.C.C. 206 and 766 (except hides and commodities in bulk), as a common carrier over irregular routes, from the plant sites and storage facilities of Iowa Beef Processors, Inc., at Dakota City, Nebr. Vendee is authorized to operate as a common carrier in Iowa, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania and Nebraska, and as a contract carrier in Alabama, Connecticut, Kentucky, Maryland, Massachusetts, New Jersey, New York, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia, West Virginia and Ohio. Application has been filed for temporary authority under section 210a(b).

No. MC-F-12525. Authority sought for purchase by CROUSE CARTAGE COMPANY, P.O. Box 151, Carroll, IA 51401, of a portion of the operating rights and property of GROTHAUS EXPRESS, 201 E. Fourth St., Kingsley, IA 51028, and for acquisition by PAUL E. CROUSE, also of Carroll, IA 51401, of control of such rights and property through the purchase. Applicants' attorneys: William S. Rosen, 630 Osborn Bldg., St. Paul, MN 55102, and Homer Bradshaw, 1100 Des Moines Bldg., Des Moines, IA 50309. Operating rights sought to be transferred: General commodities, as a common carrier over regular routes, between Sioux City, and Schaller, Iowa, serving various intermediate and off-route points; general commodities (except classes A and

NOTICES

B explosives, commodities in bulk, in tank vehicles, and beverages), between Omaha, Nebr., and Merville, Iowa, serving (a) the intermediate points of Whitling, Sloan, Hornick, and Climbing Hill, Iowa, (b) the off-route points of Salix and Bronson, Iowa, and (c) the following off-route points, restricted to the transportation of traffic originating at or destined to such points: Oto, Anthon, Correctionville, Pierson, Kingsley, Washta, Cushing, Holstein, Quimby, Galva, and Schaller, Iowa, with restrictions; general commodities (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, those requiring special equipment and beverages), serving the facilities of Western Electric Company, Inc., at or near Underwood, Iowa, as an off-route point in connection with carrier's otherwise authorized regular route operations from and to Omaha, Nebr.; general commodities, with exceptions, from Omaha, Nebr., to Denison, Iowa, serving intermediate and off-route points within 25 miles of Denison; livestock, from Denison, Iowa to Omaha, Nebr., serving intermediate and off-route points within 25 miles of Denison; general commodities, except those of unusual value, classes A and B explosives, livestock, petroleum products in tank trucks, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, over irregular routes, between points within 20 miles of Sioux City, Iowa, including Sioux City. Vendee is authorized to operate as a common carrier in Iowa, Nebraska, Missouri, Kansas, Indiana, Kentucky, Illinois, Michigan, Ohio, Connecticut, Delaware, Maine, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, Minnesota, North Dakota, South Dakota, and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

No. MC-F-12526. Authority sought for purchase by OHIO EASTERN EXPRESS, INC., P.O. Box 2297, Sandusky, OH 44870, of the operating rights of TROGANI, 155 Club House Drive, Willingboro, NJ 08046, and for acquisition by THOMAS FEICK, 2297 W. Perkins Ave., Sandusky, OH 44870, and KENNETH TONE, 333 E. Washington St., Sandusky, OH 44870, of control of such rights through the purchase. Applicants' attorney: John P. McMahon, 100 E. Broad St., Columbus, OH 43215. Operating rights sought to be transferred: Bananas, as a common carrier over irregular routes, from New York, N.Y., to Rosenhay, N.J., and Philadelphia and Harrisburg, Pa., from Weehawken, N.J., to Rosenhay and Newark, N.J., and Philadelphia and Harrisburg, Pa., from Baltimore, Md., to New York, N.Y., and Philadelphia and Harrisburg, Pa., from Newark and Port Newark, N.J., to Philadelphia and Harrisburg, Pa., from Philadelphia, Pa., to Newark, N.J., New York, N.Y., and Baltimore, Md. Vendee is authorized to operate as a common carrier

in Delaware, Illinois, Indiana, Ohio, Kentucky, Maryland, Michigan, New York, New Jersey, Pennsylvania, West Virginia, Wisconsin and Missouri. Application has been filed for temporary authority under section 210a(b).

No. MC-F-12529. Authority sought for purchase by OZARK MOTOR LINES, INC., 27 West Illinois Street, Memphis, TN, 38106, of the operating rights and property of HAY TRUCKING CO., 954 Barton, Memphis, TN, 38106 and for acquisition by M. M. Higginbotham, 27 West Illinois Street, Memphis, TN, 38106, for control of such rights and property through the purchase. Applicants' attorney: Warren A. Goff, 2008 Clark Tower, 5100 Poplar Avenue, Memphis, TN, 38137. Operating rights sought to be transferred: General commodities, with exceptions as a common carrier over regular routes between Memphis, Tenn., and Cotton Plant, Ark., between Cotton Plant, Ark., and Des Arc, Ark., between Cotton Plant, Ark., and Augusta, Ark., between Brinkley, Ark., and Lenoire, Ark., rubber tires and tubes, between Brinkley, Ark., and Hazen, Ark. Vendee is authorized to operate as a common carrier in Arkansas, Mississippi, Missouri and Tennessee. Application has been filed for temporary authority under section 210a(b).

No. MC-F-12530. Authority sought for purchase by BUSH MOTOR FREIGHT, INC., 327 West Avenue, Lenoir, N.C., 28645, of a portion of the operating rights of INTEROCEAN SERVICE CORP., 1419 Bloomfield Street, Hoboken, N.J. 07030, and for acquisition by D. J. THURSTON, JR., 600 Johnston Rd., Charlotte, N.C. 28234, P.O. Box 10638, Charlotte, N.C. 28234, of control of such rights through the purchase. Applicants' attorney: Roland Rice, 618 Perpetual Bldg., 1111 E Street NW., Washington, D.C. 20004. Operating rights sought to be transferred: General commodities with exceptions as a common carrier over irregular routes, between Allamuchy, Dover and Trenton, N.J., New York and Suffern, N.Y., and points in that part of New Jersey bounded by a line beginning at Raritan Bay and extending along the north bank of the Raritan River to Highland Park, N.J., thence along New Jersey Highway 27 to New Brunswick, N.J., thence along New Jersey Highway 514 (formerly unnumbered highways) through Clyde, Middlebush, East Millstone, and Hamilton to Woods Tavern, N.J., thence north along U.S. Highway 206 to junction U.S. Highway 202, thence north and northeast along U.S. Highway 202 to junction U.S. Highway 46 (west of Parisippa, N.J.), thence along U.S. Highway 46 to Paterson, N.J., thence along New Jersey Highway 4 to the George Washington Bridge, thence south along the New Jersey State line to Raritan Bay, including points on the highways named, on the one hand, and, on the other, points in Massachusetts, Rhode Island and Connecticut. Paper products as a contract carrier over irregular routes from Centerville, Holmdel Township, Monmouth County, N.J.,

to points in Massachusetts, Rhode Island and Connecticut, *Rags, skids, paper and paper products, machinery, materials, and supplies* used in the manufacture of paper and paper products, between Whippany, N.J., and New York, N.Y., and points in that portion of New Jersey bounded by a line beginning at the George Washington Bridge and extending along New Jersey Highway 4 to the Saddle River, thence along the east bank of the Saddle River to the Passaic River, thence along the east bank of the Passaic River to Harrison, N.J., thence along New Jersey Highway 10 to junction New Jersey Highway 21, thence along New Jersey Highway 21 to junction U.S. Highway 1, thence along U.S. Highway 1 to junction New Jersey Highway 28, thence along New Jersey Highway 28 to the Goethals Bridge, thence north along the New Jersey State line to the George Washington Bridge, on the one hand, and, on the other, points in Massachusetts, Rhode Island and Connecticut, with restrictions. Vendee is authorized to operate as a common carrier in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York and North Carolina. Application has been filed for temporary authority under section 210a(b).

No. MC-F-12531. Authority sought for purchase by CROUCH FREIGHT SYSTEMS INC., P.O. Box 1059, St. Joseph, MO 64502, of a portion of the operating rights of INTEROCEAN SERVICE CORP., 1271 Ave., of the Americas, New York, NY 10020, and for acquisition by U T S FREIGHT SYSTEMS, O.N.C. FREIGHT SYSTEMS, both of 2800 W. Bayshore Rd., Palo Alto, CA 94303, and ROCOR INTERNATIONAL, a non-carrier holding company, and in turn by DAVID P. ROUSH AND DIANE G. ROUSH, as custodian, for their minor children, of 260 Sheridan Ave., Palo Alto, CA 94306, of control of such rights through the purchase. Applicants' attorney: Roland Rice, 1111 E St., NW, Suite 618, Washington, DC 20004. Operating rights sought to be transferred: *General commodities*, with exceptions, as a common carrier over irregular routes, between Allamuchy, Dover and Trenton, N.J., New York and Suffern, N.Y., and points in that part of New Jersey bounded by a line beginning at Raritan Bay and extending along the north bank of the Raritan River to certain specified points in New Jersey, on the one hand, and, on the other, points in Massachusetts, Rhode Island and Connecticut; and *paper products, machinery, materials, irregular routes*, from Centerville, Holmdel Township, Monmouth County, N.J., to points in Massachusetts, Rhode Island, and Connecticut; *rags, skids, paper and paper products, machinery, materials, and supplies* used in the manufacture of paper products, between Whippany, N.J., and New York, N.Y., and points in that portion of New Jersey bounded by a line beginning at the George Washington Bridge and extending along New Jersey Highway 4 to certain specified points in New Jersey, on the one hand, and, on the

other points in Massachusetts, Rhode Island and Connecticut, with restrictions. Vendee is authorized to operate as a common carrier in Missouri, Kansas, Iowa, Illinois, Nebraska, Oklahoma, Arkansas, Louisiana, Texas, Indiana, Minnesota, Wisconsin, Arkansas, Connecticut, Massachusetts, New Jersey, New York, North Dakota, and South Dakota. Application has been filed for temporary authority under section 210a(b).

By the Commission.

[SEAL] JOSEPH M. HARRINGTON,  
Acting Secretary.

[Notice 296]

#### MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

MAY 29, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before June 18, 1975. Pursuant to section 17(b) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75560. By order of May 22, 1975 the Motor Carrier Board approved the transfer to MacEvoy, Inc., Philadelphia, Pa., of the operating rights in Certificate No. MC 14126 issued January 3, 1975 to Gray Construction Co., a corporation, Morristown, N.J., authorizing the transportation of heavy machinery between points in New Jersey, on the one hand, and, on the other, points in New Jersey, New York and Pennsylvania. Alan Kahn, 1920 Two Penn Center Plaza, Philadelphia, Pa., 19102 Attorney for transferee. Alvin Altman, 1776 Broadway, New York, N.Y., 10019 Attorney for transferor.

No. MC-FC-75730. By order of May 22, 1975, the Motor Carrier Board on reconsideration approved the transfer to R & J Leasing Co., Inc., North Arlington, N.J., of that portion of the operating rights in Certificate No. MC-2455 issued September 13, 1957, to Bayard Trucking Co., Inc., Elizabeth, N.J., authorizing the transportation of general commodities, with usual exceptions, between points in Newark, N.J., and between Newark, N.J., on the one hand, and, on the other, Irvington, South Orange, Orange, West Orange, Montclair, Glen Ridge, Bloom-

field, Elizabeth, Belleville, and Jersey City, N.J. Robert B. Pepper, 168 Woodbridge Avenue, Highland Park, N.J. 08904, Registered Practitioner for applicants.

No. MC-FC-75821. By order of May 22, 1975 the Motor Carrier Board approved the transfer to J. K. Vreeland Moving & Storage, a corporation, Plainfield, N.J., of Certificate No. MC-76992 issued by the Commission January 8, 1971, to Charles Fear Co., Inc., Montclair, N.J., authorizing the transportation of household goods between points in Essex, Passaic, and Union Counties, N.J., on the one hand, and, on the other, points in New Jersey, New York, Pennsylvania, and Connecticut. Robert J. Gallagher, Esq., Brodsky, Linett and Altman, 1776 Broadway, New York, N.Y. 10019.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[Notice No. 42]

#### MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

MAY 23, 1975.

The following applications are governed by Special Rule 1100.247<sup>1</sup> of the Commission's general rules of practice (49 CFR, as amended), published in the Federal Register issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must

<sup>1</sup> Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

be filed with the Commission on or before June 30, 1975. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d) (3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d) (4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and on or before July 29, 1975, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. *Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the Federal Register of a notice that the proceeding has been assigned for oral hearing.*

Evidence respecting how equipment is expected to be returned to an origin point, as well as other data relating to operational feasibility (including the need for dead-head operations), must be presented as part of an applicant's initial evidentiary presentation (either at oral hearing or in its opening verified statement under the modified procedure) with respect to all applications filed on or after December 1, 1973.

If an applicant states in its initial evidentiary presentation that empty or partially empty vehicle movements will result upon a grant of its application,

applicant will be expected (1) to specify the extent of such empty operations, by mileages and the number of vehicles, that would be incurred, and (2) to designate where such empty vehicle operations will be conducted.

Each applicant (except as otherwise specifically noted) states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 340 (Sub-No. 34), filed April 16, 1975. Applicant: QUERNER TRUCK LINES, INC., 1131-33 Austin Street, San Antonio, Tex. 78208. Applicant's representative: M. Ward Bailey, 2412 Continental Life Building, Fort Worth, Tex. 76102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Paints, stains and varnishes and compounds* used for reducing, removing, thickening, or thinning such commodities (except commodities in bulk), from Fort Wayne, Ind., East Moline and Rockford, Ill., to points in Texas.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Dallas, Tex. or Chicago, Ill.

No. MC 1872 (Sub-No. 83), filed April 14, 1975. Applicant: ASHWORTH TRANSFER, INC., 1526 South 700 West Street, Salt Lake City, Utah 84104. Applicant's representative: C. Michael Trapp (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Aluminum articles and aluminum products*, including, but not limited to, tubing and couplers, between points in Twin Falls County, Idaho, on the one hand, and, on the other, points in Arizona, California, Colorado, Iowa, Kansas, Missouri, Montana, Nebraska, Nevada, New Mexico, Oregon, South Dakota, Utah, Washington, and Wyoming.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Salt Lake City, Utah or Twin Falls, Idaho.

No. MC 2202 (Sub-No. 484), filed April 28, 1975. Applicant: ROADWAY EXPRESS, INC., 1077 Gorge Blvd., P.O. Box 471, Akron, Ohio 44309. Applicant's representative: William O. Turney, 2001 Massachusetts Ave. NW., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving Sugar Valley, Ga., as an off-route point in connection with applicant's present regular route operations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga. or Washington, D.C.

No. MC 4963 (Sub-No. 48), filed April 25, 1975. Applicant: ALLEGHANY CORPORATION, doing business as JONES MOTOR, Bridge Street and Schuylkill Road, Spring City, Pa. 19475.

Applicant's representative: Roland Rice, Suite 618 Perpetual Bldg., 1111 E St., NW., Washington, D.C. 20004. Authority sought to operate as a common carrier by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods, as defined by the Commission, commodities in bulk, and those requiring special equipment): Serving Zayre Corporation store, at Ballwin, Mo., as an off-route point in connection with applicant's regular route operations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 5267 (Sub-No. 19), filed April 28, 1975. Applicant: ATWOOD TRUCK LINE, INC., 5001 E. 52nd Avenue, Commerce City, Colo. 80022. Applicant's representative: Leslie R. Kehl, Suite 1600, Lincoln Center Bldg., 1660 Lincoln Street, Denver, Colo. 80203. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Cement*, (1) from Laramie, Wyo., to points in Nebraska; and (2) from Boettcher, Colo., to points in Wyoming, and points in Sioux, Scotts Bluff, Banner, Kimball, Dawes, Box Butte, Morrill, Cheyenne, Deuel, Garden, and Sheridan Counties, Nebr.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 11722 (Sub-No. 42), filed April 15, 1975. Applicant: BRADER HAULING SERVICE, INC., P.O. Box 655, Zillah, Wash. 98953. Applicant's representative: Douglas A. Wilson, 303 East D Street, Suite 2, Yakima Legal Center, Yakima, Wash. 98901. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Empty containers and parts thereof* weighing less than 100 lbs. per unit, between points in Oregon, Idaho and Washington.

NOTE.—Applicant hold contract carrier authority in MC 124558 Sub 2 and 6, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Portland, Oreg. or Seattle, Wash.

No. MC 14252 (Sub-No. 26), filed April 10, 1975. Applicant: COMMERCIAL MOTOR FREIGHT, INC., 3400 Refugee Road, Columbus, Ohio 43227. Applicant's representative: William C. Buckingham (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: *General commodities* (except articles of unusual value, dangerous explosives, livestock, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, articles requiring special equipment), serving points in Ohio as off-route points in connection with carrier's authorized regular and irregular route operations under MC 14252 and subs thereunder.

NOTE.—If a hearing is deemed necessary, the applicant does not specify a location.

No. MC 20783 (Sub-No. 108), filed April 25, 1975. Applicant: TOMPKINS MOTOR LINES, INC., P.O. Box 1830, Gadsden, Ala. 35902. Applicant's representative: John P. Carlton, 903 Frank Nelson Bldg., Birmingham, Ala. 35203. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from points in Mobile County, Ala., to points in Tennessee, Kentucky, Ohio, Michigan, Indiana, Wisconsin, Illinois, Minnesota, Iowa, Missouri, Kansas, Nebraska, South Dakota, and North Dakota.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Mobile, Ala.

No. MC 29910 (Sub-No. 160), filed April 28, 1975. Applicant: ARKANSAS-BEST FREIGHT SYSTEM, INC., 301 South 11th Street, Fort Smith, Ark. 72901. Applicant's representative: Don A. Smith, P.O. Box 43, Kelley Bldg., Fort Smith, Ark. 72901. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Copper wire and cable*, from Holsington, Kans., to points in Alabama, Arkansas, Georgia, Illinois, Indiana, Kentucky, Louisiana, Michigan, Missouri, Mississippi, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, and West Virginia.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held in Kansas City, Mo., or Indianapolis, Ind.

No. MC 41951 (Sub-No. 28), filed March 27, 1975. Applicant: WHEATLEY TRUCKING, INC., Box 458, Cambridge, Md. 21613. Applicant's representative: Francis P. Desmond, 115 East 5th Street, Chester, Pa. 19013. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *General commodities* (except Classes A and B explosives, household goods, and bulk commodities), in containers, in shipments having a prior movement by water, from ports in Baltimore, Md., to Archbold and Jackson, Ohio, and Cambridge, Md.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Wilmington, Del.

No. MC 42011 (Sub-No. 16), filed April 30, 1975. Applicant: D. Q. WISE & CO., INC., 13309 E. Apache Street, P.O. Box 15125, Tulsa, Okla. 74115. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Building, Dallas, Tex. 75224. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Metal tubing and pipe*, plain or fabricated, other than oilfield, and (2) *materials and supplies* used in, or in connection with, the manufacture, fabrication or distribution of the commodities in (1) above, between Mannford and Sand Springs, Okla., on the one hand, and, on the other, points in Arkansas, Colorado, Illinois, Indiana, Kansas, Louisiana, Michigan, Missouri, Texas (except Lone Star, Tex.), and Wisconsin, restricted to shipments originat-

ing at or destined to the facilities of Southwest Tube Manufacturing Company at Mannford and Sand Springs, Okla.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Tulsa or Oklahoma City, Okla.

No. MC 43421 (Sub-No. 54), filed April 25, 1975. Applicant: DOHRN TRANSFER COMPANY, a Corporation, 4016 Ninth Street, Rock Island, Ill. 61201. Applicant's representative: David Axelrod, 39 South LaSalle Street, Chicago, Ill. 60603. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving all points in Massachusetts as intermediate and off-route points in connection with carriers authorized regular route operations between Cleveland, Ohio and Boston, Mass.

NOTE.—Applicant seeks to eliminate the gateway of Boston, Mass. If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 51146 (Sub-No. 427), filed April 28, 1975. Applicant: SCHNEIDER TRANSPORT, INC., 2661 South Broadway, Green Bay, Wis. 54304. Applicant's representative: Neil A. DuJardin, P.O. Box 2298, Green Bay, Wis. 54306. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Containers, container ends, and equipment, materials, supplies and accessories* used in the manufacture and distribution of containers and container ends when moving with containers and container ends, from Bishopville, S.C., to points in the United States (except Alaska, Hawaii, and South Carolina).

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 59367 (Sub-No. 98), filed April 28, 1975. Applicant: DECKER TRUCK LINE, INC., P.O. Box 915, Fort Dodge, Iowa 50501. Applicant's representative: William L. Fairbank, 1980 Financial Center, Des Moines, Iowa 50309. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Malt beverages*, from Peoria, Ill., to Fort Dodge, Iowa.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Des Moines, Iowa.

No. MC 82063 (Sub-No. 59), filed March 18, 1975. Applicant: KLIPSCH HAULING CO., 119 East Loughborough, St. Louis, Mo. 63110. Applicant's representative: E. Stephen Heitsley, Suite 805, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from Memphis, Tenn., to points in the United States on and east of U.S. Highway 85,

and points in Texas, New Mexico, Colorado, Wyoming, South Dakota, and North Dakota.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Memphis, Tenn.

No. MC 88161 (Sub-No. 89), filed April 18, 1975. Applicant: INLAND TRANSPORTATION CO., INC., 6737 Corson Avenue South, Seattle, Wash. 98108. Applicant's representative: Stephen A. Cole (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, in bulk, in tank vehicles, between points in Whitman County, Wash., on the one hand, and, on the other, points in Washington.

NOTE.—Applicant holds contract carrier authority in MC 128203 (Sub-No. 1), therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Portland, Oreg. or Olympia, Wash.

No. MC 106497 (Sub-No. 115), filed April 28, 1975. Applicant: PARKHILL TRUCK COMPANY, a Corporation, P.O. Box 912 (Bus. Rte. I-44 East), Joplin, Mo. 64801. Applicant's representative: A. N. Jacobs, P.O. Box 113, Joplin, Mo. 64801. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Air coolers, heaters, humidifiers, blowers and fans*; (2) *parts and accessories* of items in (1) above, from points in Arkansas County, Ark., to points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Dallas, Tex. or New Orleans, La.

No. MC 106644 (Sub-No. 202) (Correction), filed February 5, 1975, published in the FEDERAL REGISTER issue of March 6, 1975, and republished as corrected this issue. Applicant: SUPERIOR TRUCKING COMPANY, INC., 2770 Peyton Road NW., P.O. Box 916, Atlanta, Ga. 30301. Applicant's representative: W. Randall Tye, 1500 Candler Bldg., Atlanta, Ga. 30301. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (a) (1) *Lead* viz: Pigs, buttons, slabs, sheet, ingots, bars, billets, blooms, rods, rings, shapes, solder, flashing, wool, brick, wool blankets, pipe; (2) *materials and supplies* used in the processing and manufacturing of commodities in (1); and (3) *scrap copper, aluminum, brass, batteries, zinc*, for recycling and reuse; and (b) (1) commodities named in (1) and (2) between points in Louisiana, Arkansas, Missouri, Iowa, Minnesota, and points in states east thereof, and Atlanta, Ga., in a non-radial movement, (2) between points in Louisiana, Arkansas, Missouri, Iowa, Minnesota, and points east thereof on commodities in (3) above.

NOTE.—The purpose of this republication is to clarify the territorial description part (2) of this proceeding. If a hearing is deemed necessary, the applicant requests it be held at either Atlanta, Ga., or Washington, D.C.

No. MC 106644 (Sub-No. 208), filed April 28, 1975. Applicant: SUPERIOR TRUCKING COMPANY, INC., P.O. BOX 916, Atlanta, Ga. 30318. Applicant's representative: Hubert Johnson (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *self-propelled draglines, shovels and drills, and accessories, attachments, and parts*, for self-propelled draglines, shovels and drills; and (2) *material, equipment and supplies*, used or useful in the manufacture, sale or distribution of the commodities in (1) above, between points in the United States (including Alaska, but excluding Hawaii), restricted to shipments originating at or destined to the plants, warehouses, storage and other facilities owned, operated or used by Marion Power Shovel Co., Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Washington, D.C., or Atlanta, Ga.

No. MC 107403 (Sub-No. 941), filed April 25, 1975. Applicant: MATLACK, INC., Ten West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Coloring syrup*, in bulk, in tank vehicles, from Louisville, Ky., to Cedar Rapids, Iowa; and (2) *alloys, ores, cast iron borings, and alloyed cast iron*, in dump vehicles, from Dearborn, Mich., to points in Illinois, Indiana, Ohio, and Pennsylvania (except alloys, to points in Pennsylvania and Ohio within 150 miles of Monongahela, Pa.).

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 107515 (Sub-No. 982), filed April 30, 1975. Applicant: REFRIGERATED TRANSPORT CO., INC., Post Office Box 308, Forest Park, Ga. 30050. Applicant's representative: Alan E. Serby, 3379 Peachtree Road NE, Suite 375, Atlanta, Ga. 30328. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products* (except in bulk), in vehicles equipped with mechanical refrigeration, from Roswell, N. Mex., to points in Illinois, Indiana, Michigan, Ohio, Kentucky, West Virginia, Virginia, Delaware, the District of Columbia, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, Pennsylvania, Vermont, New Hampshire, Maine, Tennessee, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, and Maryland.

NOTE.—Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex.

No. MC 107743 (Sub-No. 34), filed April 25, 1975. Applicant: SYSTEM TRANSPORT, INC., P.O. Box 3456 TA, Spokane, Wash. 99220. Applicant's representative: Edward G. Rawle, (same ad-

dress as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Pre-cut log buildings*, knocked down, and *materials and supplies* used in the construction and erection thereof, from the facilities of Real Log Homes, Inc., located at or near Missoula, Mont., to points in Ohio, lower peninsula of Michigan, Indiana, Illinois, Wisconsin, Missouri, Iowa, Minnesota, Nebraska, South Dakota, North Dakota, Colorado, Wyoming, Utah, Idaho, Washington, Oregon, Nevada, and California.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Missoula, Mont.

No. MC 108207 (Sub-No. 420), filed April 28, 1975. Applicant: FROZEN FOOD EXPRESS, INC., 318 Cadiz Street, P.O. Box 5888, Dallas, Tex. 75222. Applicant's representative: J. B. Ham (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Foodstuffs, meats, meat products, and meat by-products* (except hides and commodities in bulk, in tank vehicles), in vehicles equipped with mechanical refrigeration, from points in Mobile County, Ala., to points in Arizona, Arkansas, California, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Mexico, Ohio, Oklahoma, South Dakota, Tennessee, Texas, and Wisconsin.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Mobile, Ala., or New Orleans, La.

No. MC 109397 (Sub-No. 312), filed April 25, 1975. Applicant: TRI-STATE MOTOR TRANSIT CO., P.O. Box 113 (Bus. Rte. I-44 east), Joplin, Mo. 64801. Applicant's representative: A. N. Jacobs (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Contractors' construction and mining machinery, equipment, materials, supplies, and parts* (except commodities in bulk), between Pocatello, Idaho, on the one hand, and, on the other, points in the United States (except Hawaii), restricted to traffic originating at the plantsite or warehouse facilities of Bucyrus-Erie Co., located at Pocatello, Idaho.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Salt Lake City, Utah, or Boise, Idaho.

No. MC 110525 (Sub-No. 1121), filed April 29, 1975. Applicant: CHEMICAL LEAMAN TANK LINES, INC., 520 East Lancaster Avenue, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from the plantsite of Dow Corning Corp. at Carrollton, Ky., to points in Alabama, Arizona, Arkansas, California, Florida,

Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Missouri, Mississippi, North Carolina, Ohio, Oklahoma, South Carolina, Tennessee, Texas, West Virginia, and Wisconsin, restricted to traffic originating at the above named plantsite and destined to the above destinations.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Detroit, Mich.

No. MC 111545 (Sub-No. 213), filed April 28, 1975. Applicant: HOME TRANSPORTATION COMPANY, INC., 1425 Franklin Road, Marietta, Ga. 30062. Applicant's representative: Robert E. Born, P.O. Box 6426, Station A, Marietta, Ga. 30062. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Self-propelled cranes*; (2) *material handling equipment*; and (3) *accessories, attachments, and parts* when moving in mixed loads with the commodities described in (1) and (2) above, from Shawnee, Kans., to points in the United States (except Alaska, Hawaii, and Kansas).

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Kansas City, Mo.

No. MC 112750 (Sub-No. 319), filed April 28, 1975. Applicant: PUROLATOR COURIER CORP., 2 Nevada Drive, Lake Success, N.Y. 11040. Applicant's representative: Russell S. Bernhard, 1625 K St. NW., Washington, D.C. 20006. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Commercial papers, documents, written instruments, and business papers*, (a) between Dickinson, N. Dak., on the one hand, and, on the other, points in Carter, Custer, Dawson, Fallon, Prairie, and Wibaux Counties, Mont.; and points in Butte, Campbell, Corson, Edmunds, Harding, McPherson, Perkins, and Wallowa Counties, S. Dak.; and (b) between Minot, N. Dak., on the one hand, and, on the other, points in Daniels, Richland, Roosevelt, and Sheridan Counties, Mont., under a continuing contract or contracts with American National Bank & Trust Co., at St. Paul, Minn.

NOTE.—Applicant holds motor common carrier authority in MC-111729 and suba thereunder, therefore dual operations may be involved. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at either Washington, D.C., or Minneapolis, Minn.

No. MC 112822 (Sub-No. 374), filed April 28, 1975. Applicant: BRAY LINES INCORPORATED, 1401 North Little Street, Cushing, Okla. 74023. Applicant's representative: Edward T. Lyons, Jr., Suite 1600 Lincoln Center Building, 1660 Lincoln Street, Denver, Colo. 80203. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, (1) From points in the United States (except Alaska and Hawaii), to Laramie, Wyo.; and (2) from Laramie, Wyo., to points in the United States (except Alaska and

Hawaii), restricted to the transportation of traffic moving to or from storage facilities at Laramie, Wyo.

**NOTE.**—If a hearing is deemed necessary, the applicant requests it be held on a consolidated record with the application of Denver-Albuquerque Motor Transport, Inc.

No. MC 113495 (Sub-No. 71), filed April 28, 1975. Applicant: GREGORY HEAVY HAULERS, INC., 51 Oldham Street, P.O. Box 60628, Nashville, Tenn. 37206. Applicant's representative: Wilmer B. Hill, 805 McLachlen Bank Building, 666 Eleventh Street, NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) (a) *Cranes*; and (b) *parts, attachments and accessories* for the commodities named in (a) above, between the plantsites and facilities of FMC Corporation located at or near Bowling Green, Ky., on the one hand, and, on the other, points in the United States, including Alaska, but excluding Hawaii; and (2) *materials, equipment and supplies* used in manufacture of the commodities named in (1) above (except commodities in bulk), from points in the United States, including Alaska, but excluding Hawaii, to the plantsite and facilities of FMC Corporation, at or near Bowling Green, Ky.

**NOTE.**—If a hearing is deemed necessary, the applicant requests it be held at either Nashville, Tenn. or Washington, D.C.

No. MC 113678 (Sub-No. 589), filed April 28, 1975. Applicant: CURTIS, INC., 4810 Pontiac Street, Commerce City (Denver), Colo. 80022. Applicant's representative: Richard A. Peterson, P.O. Box 81849, Lincoln, Nebr. 68501. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Margarine, mayonnaise, salad and cooking oils, and salad dressings*, from points in Alameda, San Francisco, Santa Clara, and San Mateo Counties, Calif., to points in Oregon and Washington.

**NOTE.**—If a hearing is deemed necessary, the applicant requests it be held at San Francisco, Calif.

No. MC 113678 (Sub-No. 591), filed April 28, 1975. Applicant: CURTIS, INC., 4810 Pontiac Street, Commerce City (Denver), Colo. 80022. Applicant's representative: Richard A. Peterson, P.O. Box 81849, Lincoln, Nebr. 68501. No. MC 140267 (Sub-No. 2), filed January 6, 1975. Applicant: R A TRANSPORTATION, INC., 115 Jacobus Avenue, S. Kearny, N.J. 07032. Applicant's representative: S. Michael Richards, 44 North Avenue, Webster, N.Y. 14580. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Flour*, in bags, from Buffalo, N.Y., to Perth Amboy, N.J., under a continuing contract or contracts with Metzendorf Bros., Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Newark, N.J. or New York City, N.Y.

No. MC 140255 (Sub-No. 2), filed April 30, 1975. Applicant: DELBERT DEWEY, doing business as DEWEY'S TRUCKING, 1227 F Street, Fairbury, Nebr. 68501. Applicant's representative: Duane L. Stro-

mer, P.O. Box 82028, 605 South 14th Street, Lincoln, Nebr. 68501. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Bricks and brick pavers*, from the Plantsite of Endicott Clay Products Co. at or near Endicott, Nebr., to points in Arizona, California, Nevada, New Mexico, Oregon, Texas, and Utah, under a continuing contract or contracts with Endicott Clay Products Co.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Lincoln or Omaha, Nebr.

No. MC 140492 (Sub-No. 1), filed April 22, 1975. Applicant: JACK N. WILKERSON, doing business as ANNISTON MOVING AND STORAGE COMPANY, 515 South Noble Street, Anniston, Ala. 36201. Applicant's representative: Alan F. Wohlstetter, 1700 K St., NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Used household goods*, between points in Bibb, Blount, Calhoun, Cherokee, Clay, Cleburne, Cullman, De Kalb, Etowah, Fayette, Jefferson, Lamar, Marion, Plekens, Randolph, St. Clair, Shelby, Talladega, Tuscaloosa, Walker, and Winston Counties, Ala., restricted to the transportation of traffic having a prior or subsequent movement, in containers, and further restricted to the performance of pickup and delivery service in connection with packing, crating, and containerization or unpacking, uncrating and decontainerization of such traffic.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Anniston, Ala.

No. MC 140499 (Amendment), filed December 13, 1974, published in the FEDERAL REGISTER issue of March 27, 1975, and republished as amended this issue. Applicant: RANDOLPH COUNTY HAULING CO., INC., 819 Opdyke, Chester, Ill. 62233. Applicant's representative: John R. Bauer, 424 Lebanon Avenue, Belleville, Ill. 62222. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Stone*, in bulk from points in Perry County, Mo., to points in Madison, St. Clair, Washington, Randolph, Perry, and Jackson Counties, Ill.

NOTE.—The purpose of this correction is to indicate the restrictive amendment above. If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo.

No. MC 140604 (Sub-No. 1), filed April 28, 1975. Applicant: AM-DEL-CO., INC., Suite 301 Chateau Building, 4030 Chateau, St. Louis, Mo. 63110. Applicant's representative: Whitney R. Harris, 2 Glen Creek Lane, St. Louis, Mo. 63124. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Uncrusted furniture and crated and uncrated household appliances*, between St. Louis, Mo., and points in St. Louis County, Mo., on the one hand, and, on the other, those points in Illinois on and within a line beginning at the Mississippi River at or near Moxler, Ill., and extending east along Illinois Highway 96 to junction Illinois

Highway 108, thence east along Illinois Highway 108 to junction Interstate Highway 55, thence south along Interstate Highway 55 to junction Illinois Highway 16, thence east along Illinois Highway 16 to junction Illinois Highway 127, thence south along Illinois Highway 127 to junction Illinois Highway 154, thence west along Illinois Highway 154 to junction Illinois Highway 150, thence southwest along Illinois Highway 150 to the Mississippi River at or near Chester, Ill., under a continuing contract, or contracts, with Rhodes, Inc., d.b.a. Crossroads Furniture Warehouse and Showroom.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at St. Louis, Mo.

No. MC 140628 (Sub-No. 2), filed April 24, 1975. Applicant: CHARLES R. PALS, doing business as PALS CARTAGE, 31 West 168th Street, South Holland, Ill. 60473. Applicant's representative: Charles R. Pals (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Doors and made up window units*, not boxed and shipped in trailers that are set up to handle glass and made up window units that are not boxed, from the plantsite of Dekker Brish Millwork located at or near Dolton, Ill., to points in Indiana located on and west of U.S. Highway 31 and north of U.S. Highway 24; and Twin Lakes and Silver Lakes, Wis.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 140710 (Sub-No. 2), filed April 28, 1975. Applicant: CENTRAL STORAGE & VAN COMPANY, a Corporation, 828 South 17th Street, Omaha, Nebr. 68108. Applicant's representative: William A. Watts (same address as applicant). Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Commodities, as are dealt in by retail department stores*, between the facilities of Montgomery Ward & Co., Inc., at Omaha, Nebr., and points in Monona, Crawford, Harrison, Shelby, Audubon, Pottawattamie, Cass, Mills, Montgomery, Fremont, and Page Counties, Iowa, under a continuing contract or contracts with Montgomery Ward & Co., Inc.

NOTE.—Applicant holds common carrier authority in MC 127005, Sub-No. 1, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 140792 (Sub-No. 1), filed April 25, 1975. Applicant: STANLEY E. WHITEHEAD, 1017 Third Avenue, Monroe, Wis. 53566. Applicant's representative: Wayne W. Wilson, 329 West Wilson Street, Madison, Wis. 53703. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Animal feed ingredients and bags*, between the plantsite and warehouse facilities of Milk Specialties Co., a division of Cudahy Foods Co., located at or near Dundee, Ill., on the one hand, and, on the other, the plantsite

and warehouse facilities of Milk Specialties Co., a division of Cudahy Foods Co., located at or near Browstown, Wis., restricted against the transportation of the named commodities in bulk, in tank vehicles, and further restricted to the transportation of the named commodities, under a continuing contract or contracts with Milk Specialties Co., a division of Cudahy Foods Co.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Madison or Monroe, Wis.

No. MC 140855, filed April 14, 1975. Applicant: TAB TRUCKING, INC., 3628 Syndicate Blvd., Spokane, Wash. 99202. Applicant's representative: Charles C. Flower, Suite 2, 303 East "D" Street, Yakima, Wash. 98901. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Medical, hospital, clinic, surgical and laboratory supplies, equipment, goods, wares and merchandise*, (1) from Rutherford, N.J., to points in Idaho, Montana, Washington, and Oregon, (2) from Greenwood, S.C., to points in Idaho, Montana, Washington, and Oregon, (3) from Los Angeles and Menlo Park, Calif., to points in Idaho, Montana, Washington, and Oregon; and (4) from Shey-bogan and Two Rivers, Wisc., to points in Idaho, Montana, Washington, and Oregon, under a continuing contract or contracts with Sea-Tac Medical & Scientific Supply Co.; Physicians & Surgeons Supply Co., Inc.; and Portland Medical & Scientific Supply Co.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at either Spokane, Seattle, or Portland, Ore.

No. MC 140895, filed April 14, 1975. Applicant: TANK LINES, INCORPORATED, 1325 Diamond Springs, Virginia Beach, Va. 23455. Applicant's representative: C. Roger Malbon (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Waste products for recycling or reuse*, from Moyock, N.C., to Virginia Beach and Richmond, Va.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Norfolk, Va.; Richmond, Va.; or Washington, D.C.

No. MC 140920, filed April 28, 1975. Applicant: B. T. CARTAGE CO., a Corporation, 411 Bayou Drive, Channelview, Tex. 77530. Applicant's representative: William D. Lynch, 1003 West 6th Street, P.O. Box 912, Austin, Tex. 78767. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Iron and steel articles, aluminum articles, iron and steel tanks, aluminum tanks and parts, attachments and accessories for iron and steel tanks and aluminum tanks*, between points in Liberty County, Tex., on the one hand, and, on the other, points in Louisiana, Arkansas, Oklahoma, New Mexico, Kansas, Missouri, Mississippi and Texas.

NOTE.—If a hearing is deemed necessary,

the applicant requests it be held at Houston, Tex., Birmingham, Ala., or Washington, D.C.

No. MC 140921, filed April 28, 1975. Applicant: WIN-LINE, INC., 4850 Briar-bend Drive, Houston, Tex. 77035. Applicant's representative: Basil O. Penney (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Cameras, camera equipment and supplies, copy machines, supplies and equipment*, from Clarendon, Scottsburg, Oneonta, and Morganville, N.Y.; Lavery and Du Bois, Pa.; and Dyersburg, Tenn., to points in California.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Houston, Tex., or Los Angeles, Calif.

No. MC 140923, filed April 25, 1975. Applicant: OSBORN TRANSPORTATION, INC., P.O. Box 1330, Gadsden, Ala. 35902. Applicant's representative: John P. Carlton, 903 Frank Nelson Building, Birmingham, Ala. 35203. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from points in Mobile County, Ala., to points in Colorado, Wyoming, Montana, New Mexico, Arizona, Utah, Idaho, Washington, Nevada, California, and Oregon.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Mobile, Ala.

No. MC 140936, filed April 28, 1975. Applicant: VAN FLEET MOVING & STORAGE CO., INC., 696 Harvey Road, Manchester, N.H. 03103. Applicant's representative: William A. Kerr, Jr., (same address as applicant). Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Such commodities as are sold by retail department stores*, from Manchester, N.H., to points in Vermont, under a continuing contract or contracts with Jordan Marsh Company.

NOTE.—Applicant holds common carrier authority in MC 129508 and Sub-No. 1, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Concord, N.H.

#### PASSENGER APPLICATIONS

No. MC 109780 (Sub-No. 68), filed April 23, 1975. Applicant: CONTINENTAL TRAILWAYS, INC., 315 Continental Avenue, Dallas, Tex. 75207. Applicant's representative: R. Y. Schureman, 1545 Wilshire Boulevard, Los Angeles, Calif. 90017. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, (1) in special operations, in round-trip sightseeing and pleasure tours, beginning and ending at points in Alameda, Fresno, Kern, Kings, Los Angeles, Madera, Merced, Orange, Riverside, San Bernardino, San Diego, San Francisco, San Joaquin, Stanislaus, and Tulare Counties, Calif. and extending to points in the United States including Alaska but excluding Hawaii; and (2) in special operations, in one way sightseeing and pleasure tours, beginning and ending at the points named

in (1) above, and extending to the points named in (1) above.

NOTE.—Applicant holds a Broker's license in MC 12790. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at either Los Angeles or San Francisco, Calif.

No. MC 125057 (Sub-No. 1), filed April 17, 1975. Applicant: ANTELOPE VALLEY BUS, INC., 44706 Yucca Avenue, Lancaster, Calif. 93534. Applicant's representative: James H. Lyons, 523 West 6th Street, Suite 1216, Los Angeles, Calif. 90014. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in charter and special operations, beginning and ending at points in that part of California within a line as follows: Beginning at the junction of the Los Angeles Aqueduct and the southern boundary line of Kern County, Calif., located approximately 16 miles southeast of Lebec, Calif., and extending along the Los Angeles Aqueduct to junction of Elizabeth Lake-Pine Canyon Road, located at Lake Hughes, Calif.; thence along Elizabeth Lake-Pine Canyon Road to Palmdale, Calif.; thence east from Palmdale over Avenue Q and Palmdale Boulevard to junction of California Highway 138 located near Palmdale, Calif.; thence east along California Highway 138 to the junction of the eastern boundary line of Los Angeles County located near Desert Springs, Calif.; thence north from Desert Springs along the eastern boundary line of Los Angeles County to its junction with the Kern County line located approximately 11 miles south of Boron, Calif.; thence east along the southern boundary line of Kern County to its junction with the eastern boundary line of Kern County; thence north along the eastern boundary line of Kern County to its junction with the southern boundary line of Inyo County, Calif.; located approximately 12 miles northeast of Brown, Calif.; thence west along the northern boundary of Kern County to its junction with the Los Angeles Aqueduct located approximately three miles northwest of Brown; thence south along the Los Angeles Aqueduct to the point of beginning; and extending to points in Arizona, Colorado, Idaho, Montana, New Mexico, Oregon, Utah, Washington, and Wyoming.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Lancaster or Los Angeles, Calif.

No. MC 140279 (Sub-No. 1), filed April 21, 1975. Applicant: A-1 CHARTER SERVICE, INC., 106 South Henry Street, Annawan, Ill. 61234. Applicant's representative: John H. Bickley, Jr., 77 W. Washington Street, Suite 2110, Chicago, Ill. 60602. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in special and charter operations, from points in Henry and Bureau Counties, Ill., to points in Michigan, Indiana, Kentucky, Tennessee, Missouri, Wisconsin, Iowa, Minne-

sota, and Illinois and return, restricted to traffic originating at the named counties and destined to named destinations.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

## BROKER APPLICATIONS

No. MC 130302, filed February 24, 1975. Applicant: EASTERN SKI TOURS, INC., 1700 Walnut Street, Philadelphia, Pa. 19103. Applicant's representative: M. Mark Mendel, 1620 Locust Street, Philadelphia, Pa. 19103. [I.C.C. Order No. P-3]

## SOUTHERN PACIFIC TRANSPORTATION CO.

## Passenger Train Operation

It appearing, that the National Railroad Passenger Corporation (Amtrak) has established through passenger train service between Chicago, Illinois, and Los Angeles, California; that the operation of these trains require the use of employees, tracks and other facilities of the Atchison, Topeka and Santa Fe Railway Company (ATSF); that a portion of ATSF's tracks between Barstow, California, and San Bernardino, California, are temporarily out of service due to a

freight train derailment; that an alternate route is available between Barstow and Mojave, California, on the ATSF, thence via the Southern Pacific Transportation Company from Mojave to Los Angeles, California; that its use is necessary in the interest of the public and the commerce of the people; that notice and public procedure herein are impracticable and contrary to the public interest; and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That: (a) Pursuant to the authority vested in me by order of the Commission served June 14, 1974; and of the authority vested in the Commission by section 402(c) of the Rail Passenger Service Act of 1970 (45 USC 562 (c)), the Southern Pacific Transportation Company (SP) be, and it is hereby authorized to operate trains of the National Railroad Passenger Corporation (Amtrak) between a connection with The Atchison, Topeka and Santa Fe Railway Company (ATSF) at Mojave, California, and Los Angeles, California.

(b) In executing the provisions of this order, the common carriers involved shall proceed even though no agreements or arrangements now exist between them with reference to the compensation terms and conditions applicable to said transportation. The compensation terms and conditions shall be, during the time this order remains in force, those which are voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, the compensation terms and conditions shall be as hereafter fixed by the Commission upon petition of any or all of the said carriers, in accordance with pertinent authority conferred upon it by the Interstate Commerce Act and by the Rail Passenger Service Act of 1970, as amended.

(c) Application. The provisions of this order shall apply to intrastate, interstate and foreign traffic.

(d) Effective date. This order shall become effective at 6 p.m., p.s.t., May 12, 1975.

(e) Expiration date. The provisions of this order shall expire at 11:59 p.m., p.s.t., May 13, 1975, unless otherwise modified, changed, or suspended by order of this Commission.

It is further ordered, That this order shall be served upon Southern Pacific Transportation Company and upon the National Railroad Passenger Corporation (Amtrak), and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., May 12, 1975.

INTERSTATE COMMERCE  
COMMISSION,  
LEWIS R. TEEPLE,  
Agent.

## ENVIRONMENTAL RADIATION PROTECTION FOR NUCLEAR POWER OPERATIONS

### Proposed Standards

Reorganization Plan No. 3, which became effective on December 2, 1970, transferred to the Administrator of the Environmental Protection Agency the functions of the former Atomic Energy Commission to establish "... generally applicable environmental standards for the protection of the general environment from radioactive material." The Plan defined these standards as "limits on radiation exposures or levels, or concentrations or quantities of radioactive material outside the boundaries of locations under the control of persons possessing or using radioactive material." On May 10, 1974, the Agency published an advance notice of its intent to propose standards under this authority for the uranium fuel cycle and invited public participation in the formulation of this proposed rule.

The Agency has reviewed and considered the comments received in response to that notice and proposes herein environmental radiation standards which would assure protection of the general public from unnecessary radiation exposures and radioactive materials in the general environment resulting from the normal operations of facilities comprising the uranium fuel cycle. Nuclear power generation based on recycled plutonium or on thorium is excluded from these standards because sufficient operating data and experience concerning fuel cycles utilizing these fuels are not yet available. Before any of these developing technologies becomes of potential significance to public health the need for additional generally applicable standards will be considered.

The environmental radiation standards proposed in this notice supplement existing Federal Radiation Protection Guideline limiting maximum exposure of the general public [FR Docs. 60-4539 and 61-9402] by providing more explicit public health and environmental protection from potential effects of radioactive effluents from the uranium fuel cycle during normal operation. Numerically the proposed standards are below current Federal Radiation Protection Guides. The Agency is not, at this time, proposing revisions in existing Federal Radiation Protection Guidance for the general public because of its belief that a detailed examination of each major activity contributing to public radiation exposure is required before revision of this general guidance should be considered. Existing Federal Radiation Protection Guidance for workers in the fuel cycle is also not affected by these proposed standards. In addition, since these standards are proposed under authority derived from the Atomic Energy Act of 1954, as amended, they do not apply to

radioactive materials and exposures in the general environment that are the result of effluents from mining operations because that Act does not provide authority over such effluents. Finally, since there are no planned releases from existing radioactive waste disposal sites and these sites primarily serve sources of waste other than uranium fuel cycle operations, these standards do not apply to such sites. The Agency has each of these areas of concern under continuing study.

It is the intent of the Agency to maintain a continuing review of the appropriateness of these environmental radiation standards and to formally review them at least every five years, and to revise them, if necessary, on the basis of information that develops in the interval.

**Interagency relationships.** Reorganization Plan No. 3 transferred to the Environmental Protection Agency (EPA) the broad guidance responsibilities of the former Federal Radiation Council and also transferred from the former Atomic Energy Commission (AEC) the more explicit responsibility to establish generally applicable radiation standards for the environment. However, the responsibility for the implementation and enforcement of both this guidance and these standards lies, in most cases, in agencies other than EPA as a part of their normal regulatory functions. For nuclear power operations, this responsibility, which had been vested in the AEC, is now vested in the Nuclear Regulatory Commission (NRC), which will exercise the responsibility for implementation of these generally applicable standards through the issuance and enforcement of regulations, regulatory guides, licenses, and other requirements for individual facilities.

**Basic considerations.** The Agency has concluded that environmental radiation standards for nuclear power industry operations should include consideration of: 1) the total radiation dose to populations, 2) the maximum dose to individuals, 3) the risk of health effects attributable to these doses, including the future risks arising from the release of long-lived radionuclides to the environment, and 4) the effectiveness and costs of the technology available to mitigate these risks through effluent control. The Agency also recognizes the findings of the recent study of the biological effects of low levels of ionizing radiation by the Advisory Committee on the Biological Effects of Ionizing Radiation (BEIR Committee) of the National Academy of Sciences—National Research Council. Two of the principal conclusions of the BEIR Committee were: 1) that current societal needs appear to be achievable "... with far lower average exposure and lower genetic and somatic risk than permitted by the current Radiation Protection Guide. [Thus,] to this extent, the current Guide is unnecessarily high ..." and 2) that "Guidance for the nuclear power industry should be established on the basis of cost-benefit analysis, particularly taking into account the total biological and environmental risks of

the various options available and the cost-effectiveness of reducing these risks."

For the purpose of setting radiation protection standards the most prudent basis for relating radiation dose to its possible impact on public health continues to be to assume that a potential for health effects due to ionizing radiation exists at all levels of exposure and that at the low levels of exposure characteristic of environmental levels of radiation the number of these effects will be directly proportional to the dose of radiation received (a linear non-threshold dose-effect relationship). Even under these assumptions, the range of estimates of the health risks associated with a given level of exposure derived from existing scientific data is broad. It is recognized that sufficient data are not now available to either prove or disprove these assumptions, nor is there any reasonable prospect of demonstrating their validity at the low levels of expected exposure with any high degree of certainty. However, the Agency believes that acceptance of the above prudent assumptions, even with the existence of large uncertainties, provides a sound basis for developing environmental radiation standards which provides reasonable protection of the public health and do so in a manner most meaningful for public understanding of the potential impact of the nuclear power industry. Standards developed on this basis are believed to also protect the overall ecosystem, since there is no evidence that there is any biological species sensitive enough to warrant a greater level of protection than that adequate for man.

**Radiological protection of the public from nuclear power industry operations** has been based to date on guidance which has had as its primary focus the general limitation of dose to the most exposed individual, rather than limitation of the total population dose from any specific type of activity. The proposed expanded development of the nuclear power industry requires, however, the use of a broader environmental perspective that more specifically considers the potential radiological impact on human populations of radioactive effluents from this industry, rather than just that on the most exposed individual. A number of long-lived radionuclides are now discharged from various fuel cycle operations which carry a potential for build-up of environmental levels and irreversible commitments for exposure of populations that may persist for tens, hundreds, or thousands of years. The extent of the cumulative population doses which may occur over the years following release of such radionuclides is related to their radioactive decay times, the details of their dispersion through environmental media, the period over which they remain in the biosphere, and their exposure (both internal and external) of individuals in populations. The cumulative dose resulting from releases to the environment of such materials can be termed an "environmental dose commitment," and quantitatively expressed in terms of the number of person-rem of dose committed. The proposed standards are based, to the extent that present knowledge permits, on such projections of the migration of radioactive effluents through the biosphere and estimates of the sum of potential doses to present and future populations during that migration.

Since potential effects from radiation exposure are assumed to occur at any level of exposure, it is not possible to specify solely on a health basis an acceptable level of radiation exposure for either individuals or populations; it is necessary to balance the health risks associated with any level of exposure against the costs of achieving that level. In developing the proposed standards, EPA has carefully considered, in addition to potential health effects, the available information on the effectiveness and costs of various means of reducing radioactive effluents, and therefore potential health effects, from fuel cycle operations. This consideration has included the findings of the AEC and the NRC with respect to practicability of effluent controls, as well as EPA's own continuing cognizance of the development, operating experience, and costs of control technology. Such an examination made it possible to propose the standards at levels consistent with the capabilities of control technology and at a cost judged by the Agency to be acceptable to society, as well as reasonable for the risk reduction achieved. Thus, the standards generally represent the lowest radiation levels at which the Agency has determined that the costs of control are justified by the reduction in health risk. The Agency has selected the cost-effectiveness approach as that best designed to strike a balance between the need to reduce health risks to the general population and the need for nuclear power. Such a balance is necessary in part because there is no sure way to guarantee absolute protection of public health from the effects of a non-threshold pollutant, such as radiation, other than by prohibiting outright any emissions. The Agency believes that such a course would not be in the best interests of society.

The total population impact associated with a particular level of effluent control is best assessed in terms of dose commitments to populations measured in person-rem, which are then converted into estimates of potential health impact. However, the environmental models used for deriving these assessments, while useful for making estimates of potential health impact, are not considered to be so well-defined as to allow standards for populations to be expressed directly in terms requiring their explicit use. The Agency believes that future changes and refinements in models, and thus in the person-rem assessments upon which these standards are based, will occur on a continuing basis. The standards are therefore not proposed directly in terms of person-rem, but future reviews of their adequacy will reflect any changes in

model-based assessments of population dose. Standards have also not been proposed directly in terms of person-rem because the regulatory implementation of such a requirement does not appear to be administratively feasible for the fuel cycle under existing widely varying geographical and demographic conditions and for doses that may, in some instances, be delivered over indeterminately long periods of time. The proposed standards are expressed in terms of 1) limits on individual doses to members of the public and 2) on quantities of certain long-lived radioactive materials in the general environment. On the basis of its assessments of the health risks associated with projected annual population doses and environmental dose commitments, the Agency has concluded that these two types of standards are the most appropriate choice of criteria to provide effective limitation of the potential health impact on populations of short-lived and long-lived radioactive materials, respectively.

Even though adequate protection of populations considered as a whole may be assured by standards based upon the above consideration of health risks and control costs, it may not always be the case that adequate protection is assured on this basis to some individuals in these populations who reside close to the site boundaries of nuclear facilities, because of the distribution characteristics of certain effluents. Such a situation is possible in the case of thyroid doses due to releases of radioiodines from reactors and fuel reprocessing facilities. Although the risk from such doses to nearby individuals is quite small, it is inequitable to permit doses to specific individuals that may be substantially higher than those to other members of the population from other radionuclides. Additional protection for these individuals should be provided when technology or other procedures are available for minimizing any additional potential risk at a reasonable cost. The standards proposed to limit doses to individuals reflect this additional requirement where it is appropriate to do so.

**Technical considerations.** It is convenient to consider effects of radioactive materials introduced into the environment by the uranium fuel cycle in three categories. Prior to the occurrence of nuclear fission at the reactor only naturally occurring radioactive materials are present in fuel cycle operations. This first category of materials consists principally of uranium, thorium, radium, and radon with its daughter products. Radioactive materials introduced to the environment from facilities for milling, chemical conversion, isotopic enrichment, and fabrication of fuel from uranium which has not been recycled are limited to these naturally occurring radionuclides. As a result of the power-producing fission process at the reactor a large number of new radionuclides are created as fission or activation products. These may be introduced into the general environment principally by reactors

or at fuel reprocessing and are conveniently categorized as either long-lived or short-lived fission and activation products, depending upon whether their half-lives are greater than or less than one year. Although naturally occurring radionuclides are of some concern, it is these fission and activation products which are of greatest concern from the point of view of controlling radiation doses to the public due to nuclear power operations.

Standards are proposed for the fuel cycle in two major categories. The proposed standards would limit: 1) the annual dose equivalent to the whole body to 25 millirems, to the thyroid to 75 millirems, and to any other organ to 25 millirems; and 2) the quantities of krypton-85, iodine-129, and certain long-lived transuranic radionuclides released to the environment per gigawatt-year of power produced by the entire fuel cycle to 50,000 curies, 5 millicuries, and 0.5 millicuries, respectively. The first standards are designed to limit population and individual exposures near fuel cycle operations due to short-lived fission-produced materials and naturally occurring materials, and due to transportation of any radioactive materials, while the second specifically addresses potential population exposure and buildup of environmental burdens of long-lived materials.

The proposed standard for annual whole body dose to any individual limits the combined internal and external dose equivalent from gaseous and liquid effluents as well as exposure to gamma and neutron radiation originating from all operations of the fuel cycle to 25 millirems. Such a limit is readily satisfied at all sites for which fuel cycle facilities are presently projected through the year 1985 (including any potential overlap of doses from adjacent sites) by levels of control that are cost-effective for the reduction of potential risk achieved; is in accord with the capabilities of controls anticipated by the AEC for all sites for which Environmental Statements have been filed; and, on the basis of present operating experience at existing sites, can be readily achieved in practice. The combined effect of any combinations of operations at the same location that are foreseeable for the next decade or so was also examined and is judged to be small, so that the proposed standards can readily be satisfied by use of levels of control that are similar to those required for single operations. It should be noted that this proposed standard for maximum whole body dose, which is higher than that proposed by the AEC as guidance for design objectives for light-water-cooled reactors, differs from those objectives in that it applies to the total dose received from the fuel cycle as a whole and from all pathways, including gamma radiation from onsite locations. It is also not a design objective, but a standard which limits doses to the public under conditions of actual normal operation.

The appropriate level for a standard limiting the maximum annual total dose to the thyroid of individuals is not easy

to determine. A standard for maximum total thyroid dose based on considerations limited to the same criteria as for maximum whole body dose (cost-effectiveness of reduction of total population impact and achievability) would permit unacceptably high doses to individuals near some site boundaries. The proposed standard of 75 millirems per year to the thyroid has therefore been chosen to reflect a level of biological risk comparable, to the extent that current capability for risk estimation permits, to that represented by the standard for dose to the whole body. The effluent controls required to achieve this limit have been examined extensively by EPA, AEC, and the industry, particularly in regard to the AEC's proposed Appendix I to 10 CFR 50 for light-water-cooled reactors, and, in the view of the Agency, this level of maximum annual individual dose to the thyroid can be achieved at reasonable effort and cost.

The principal potential doses to internal organs other than the thyroid are to the lung via inhalation of airborne particulates and to bone due to ingestion via water and other pathways of the naturally occurring materials processed in the several components of the fuel cycle required to convert uranium ore into reactor fuel. The impact on populations due to effluents from these operations is generally quite small (due to their predominately remote locations and lack of widespread dispersion), however, significant lung doses are possible to individuals near to these operations, particularly in the case of mills and conversion facilities. The use of well-established, efficient, and inexpensive technology for the retention and control of particulate effluents can readily achieve the levels of control required to meet the proposed standard of 25 millirems per year for limiting dose equivalent to the internal organs (other than thyroid) of individuals.

Environmental radiation exposures from transportation operations are due to direct radiation. Although average radiation doses to individuals in the general public from transportation activities are very small, situations in which individuals could receive higher doses may reasonably be postulated. It is recognized that exposures due to transportation of radioactive materials are difficult to assess and regulate because as shipments move in general commerce between sites the exposed population is constantly changing. Transportation activities should be conducted with every effort made to maintain doses to individuals as low as reasonably achievable, consistent with technical and economic feasibility. In any case, the maximum dose to any member of the general public due to uranium fuel cycle operations, including those due to shipments of radioactive materials, should not exceed the proposed standard of 25 millirems per year to the whole body of an individual. The Agency will continue to examine potential exposures due to transportation of radioactive materials

with a view to further action, if necessary.

Among the variety of long-lived radionuclides produced in the fuel cycle, tritium, carbon-14, krypton-85, iodine-129, plutonium, and certain other long-lived transuranic radionuclides are of particular significance as environmental pollutants. Environmental pathways of tritium, carbon-14, and krypton-85 are worldwide. Even though the balance of the above radionuclides may not rapidly become widely dispersed, they are significant because of their potential for extreme persistence in environmental pathways, possibly for thousands of years for plutonium and other transuranics, and for even longer periods for iodine-129.

Because of their high toxicity and long half-lives, the cumulative impact of releases of plutonium and other transuranics to the environment could be large. However, due to very large uncertainties concerning their environmental behavior over long periods of time, as well as a lack of definitive information concerning the relationship between exposure to these materials and health effects, the limits of this potential impact cannot be more than roughly estimated. Therefore prudence dictates that the environmental burden of these materials be minimized to the lowest levels reasonably achievable. Similarly, although its toxicity is less than that of the alpha-emitting transuranics, in view of the extreme persistence of iodine-129 (half-life 17 million years) and great uncertainty concerning its environmental behavior, environmental releases of this isotope should be also maintained at the lowest level reasonably achievable. The prevention of unlimited discharges of krypton-85 to the environment from fuel cycle operations is of high priority because of its potential for significant long-term public health impact over the entire world. Finally, carbon-14 and tritium, both of which rapidly enter worldwide pathways as gaseous radioactive materials, are of particular concern because carbon and hydrogen are principal constituents of the chemical structures of all life forms.

These long-lived radionuclides should only be discharged to the environment after careful consideration of the trade-offs between the societal benefits of the power generated, the current and projected health risks to populations, and the costs and effectiveness of methods available to limit their release. Since the anticipated maximum dose to any single individual from any of these materials is very small, the primary concern is the cumulative risk to population groups over long periods of time. For this reason, it is not of primary importance where or when in the fuel cycle any such materials are released, since the committed impact will be similar. What is important is to assure that any permitted discharge has been offset by a beneficial product, i.e., a quantity of electricity, and that every reasonable effort has been made to minimize it. It is also important to assure that society is not burdened with unreasonable expenditures to minimize

these risks in order to gain the necessary benefits of electric power. Fortunately the vast majority of potential health effects due to release of these radionuclides can be avoided at a reasonable cost. The Agency estimates the cost of implementing the proposed standards for these long-lived radioactive materials to be less than \$100,000 per potential case of cancer, leukemia, or serious genetic effect averted (less than \$75 per person-rem). In view of the above considerations, the Agency believes that the proposed standards, which limit the number of curies of certain of these radionuclides released to the general environment for each gigawatt-year of electricity produced by the fuel cycle, represent the most reasonable means of providing required protection of the general environment for present and future generations. The standards will assure that any environmental burdens of long-lived radioactive materials accumulate only as the necessary result of the generation of an offsetting quantity of electrical energy.

The proposed standards for long-lived materials fall into two categories: those which can be achieved using currently available methods for control of environmental releases, and those that require use of methods that have been demonstrated on a laboratory or larger scale, but have not yet achieved routine use. In the former case, exemplified by the standard of 0.5 millicuries per gigawatt-year for plutonium and other long-lived alpha-emitting transuranics, the standard limits the environmental burden to the lowest level reasonably achievable using currently available control methods. In the latter case, that of the proposed standard of 50,000 curies per gigawatt-year for krypton-85 and 5 millicuries per gigawatt-year for iodine-129, these limiting levels of environmental burdens are not those achievable by best demonstrated performance, but instead by minimum performance reasonably anticipated from introduction of these new systems into commercial operations. As experience is gained with the ability of the industry to limit fuel cycle releases of these materials to the environment, it may be appropriate to reconsider the standards limiting the maximum environmental burdens of these particular radionuclides.

Similarly, as knowledge becomes available concerning the practicability of limiting environmental releases of tritium and carbon-14, the appropriate levels of maximum environmental burdens of these radionuclides due to fuel cycle operations will be carefully considered by the Agency. However, the knowledge base now available is inadequate for such a determination, and no standards are presently proposed for these radionuclides. The potential for a long-term impact due to carbon-14 released from fuel cycle operations was not recognized until the Agency considered environmental dose commitments from the industry in the course of developing these standards; thus consideration of methods for limit-

ing its release to the general environment are only now beginning. Tritium levels in the general environment from fuel cycle operations are not expected to become significant until the late 1980's, and development programs are in existence for control of releases of this radionuclide from its principal source, fuel reprocessing operations. The Agency believes that the development and installation of controls to minimize environmental burdens of both carbon-14 and tritium are important objectives, and will carefully follow the development of new knowledge concerning both the impact and controllability of these radionuclides.

To allow adequate time for implementing the standards for krypton-85 and iodine-129 control, including the necessary testing and analysis required prior to licensing of these control systems, the effective date is proposed as January 1, 1983. Implementation by this date would result in control of these releases before any substantial potential health impact from these materials due to uranium fuel cycle operations can occur and would, in the judgment of the Agency, provide adequate protection of public health thereafter.

The proposed standard for maximum dose to organs excludes radon and its daughter products. Radon is released as a short-lived (3.8 days half-life) inert gas, mainly from tailings piles at mills, and produces its principal potential impact through deposition of its daughter products in the lung. There exists considerable uncertainty about the public health impact of existing levels of radon in the atmosphere, as well as over the best method for management of new sources of radon created by man's activities, which remove this naturally occurring material and its precursors from beneath the earth's protective crust. Radon levels in the general environment are substantial and are dominated by natural sources, except in the immediate vicinity of man-made sources. Exposures from radon and its daughters have previously been the subject of Federal Radiation Protection Guidance. In the case of underground uranium miners (FR Doc. 71-7210 and FR Doc. 71-9697), and of guidance from the Surgeon General, in the case of public exposure due to the use of uranium mill tailings in or under structures occupied by members of the general public ("Use of Uranium Mill Tailings for Construction Purposes," Hearings before the Subcommittee on Raw Materials of the Joint Committee on Atomic Energy, October 28-29, 1971, pp. 226-233). The Agency has concluded that the problems associated with radon emissions are sufficiently different from those of other radioactive materials associated with the fuel cycle to warrant separate consideration, and has under way an independent assessment of man-made sources of radon emissions and their management.

Implementation of the standards. These proposed standards are expected to be implemented for the various components of the uranium fuel cycle, operating under normal conditions, by the

Nuclear Regulatory Commission. The mechanisms by which these standards are achieved will be a matter between the NRC and the industries that are licensed to carry out various uranium fuel cycle operations, but, in general, will be based on regulations and guides for the design and operation of the various facilities. The Agency is confident that these proposed standards can be effectively implemented by such procedures.

Current rules and regulations applicable to fuel cycle operations generally contain provisions which have the effect of limiting doses to individuals, thus implementation of the proposed standards for maximum doses to individuals should be straightforward. Protection of the public from the environmental accumulation of long-lived radioactive materials may require some changes in regulatory requirements. For example, this standard limit environmental accumulations of certain radionuclides associated with the generation of a gigawatt-year of electrical energy, which is generated only at the power reactor. Since other operations in the cycle which do not generate power are more likely to discharge such materials, it may be necessary for the regulatory agency to make an appropriate allocation to each facility and to determine the emission rates required to satisfy the standard for the entire fuel cycle. This is especially the case for a radionuclide like krypton-85 which can be released either at reactors, during fuel storage, or during fuel reprocessing. The standards do not specify the time, location, or concentration of emissions of long-lived radionuclides. Once a given quantity of electrical power has been generated the specified amount of the radionuclide may be released at any time and at any rate or location that does not exceed the individual dose limitations. Demonstration of compliance with the standard requires only that the total quantity of electricity generated after the effective date of the standards be recorded to determine the maximum quantity of these long-lived radionuclides that may eventually be released.

The Agency recognizes that implementation of the standards for krypton-85 and iodine-129 by the proposed effective date of January 1, 1983, will require successful demonstration of control technology for commercial use that is now in advanced stages of development. The Agency, as stated above, intends to review all of these standards in at least five year intervals. If substantial difficulty should develop for implementing the standards for krypton-85 and iodine-129 with respect to the proposed levels, facility safety, or cost, the Agency will give these factors careful and appropriate consideration prior to the effective date.

With respect to operations associated with the supply of electrical power it is important not only to set standards which will provide satisfactory public health protection, consistent with technical and economic feasibility, but also to minimize societal impacts which may occur as the result of temporary interruptions in those fuel cycle operations

that are necessary to assure the orderly delivery of electric power. Such a twofold objective requires consideration of the question whether to impose stricter standards which achieve lower levels of radiation exposure and environmental burdens of long-lived radioactive materials, but which may force temporary shutdowns which may not be justified on a risk-benefit basis for such periods; or to establish more liberal standards which decrease the possibility of such shutdowns, but may be overly permissive with respect to public exposure and long-term environmental releases. The Agency has attempted to avoid this dilemma by proposing standards that are not permissive with respect to either public exposures or long-term environmental releases and at the same time providing a variance which allows the standards to be temporarily exceeded under unusual conditions. The use of such variances by the regulatory agency will depend to a large degree upon their value judgments concerning the necessity of the fuel cycle operation concerned to a region, overall facility safety, and the possible impact on public health. The proposed variance provides that temporary increases above the standards for normal operations are allowable when the public interest is served, such as to maintain a dependable source of continuous power or during a power crisis. The Agency anticipates that the need to use such variances will be infrequent and of short duration, and that the overall impact on population and individual radiation doses from the operations of the entire fuel cycle will be minimal.

With respect to regulatory implementation of the flexibility provided by this proposed variance provision, the Agency has carefully examined the guidance for design objectives and limiting conditions for operation of light-water-cooled nuclear power reactors as set forth recently by the NRC in Appendix I to 10 CFR 50. It is the view of the Agency that this guidance for reactors will provide an appropriate and satisfactory implementation of these proposed environmental radiation standards for the uranium fuel cycle with respect to light-water-cooled nuclear reactors utilizing uranium fuel. The various monitoring and reporting procedures required by the AEC in the past and supplemented by Appendix I are expected to provide continuing information sufficient to determine that these standards are being satisfied during the course of normal operations of the fuel cycle.

Although the Agency has attempted to limit the effect of radioactive discharges from the fuel cycle on populations and on individuals through these proposed standards, it has not attempted to specify constraints on the selection of sites for fuel cycle facilities, even though the Agency recognizes that siting is an important factor which affects the potential health impact of most planned releases from operations in the fuel cycle. The standards were developed, however, on the assumption that sound siting practices will continue to be promoted

as in the past and that facility planners will utilize remote sites with low population densities to the maximum extent feasible.

The Agency has also considered the need for special provisions for single sites containing large numbers of facilities, of single or mixed types, as exemplified by the "nuclear park" concept. Present construction projections by utilities indicate that no such sites are likely to be operational during the next ten years. In view of the need to accumulate operating experience for the new large individual facilities now under construction and the intent of the Agency to review these standards at reasonable intervals in the future, it is considered premature and unnecessary to predicate these standards on any siting configurations postulated for the next decade and beyond. The Agency will consider changes in these standards based on such considerations when they are needed and justified by experience.

It is the conclusion of the Agency that implementation of the proposed standards for normal operations of the nuclear power industry based on the uranium fuel cycle will provide society protection of its environment and the health of its citizens and that this protection is obtained without placing unreasonable financial burdens upon society. In this context, these standards are responsive to the President's energy messages of June 4, 1971, and April 18, 1973, which challenged the Nation to the twin objectives of developing sufficient new energy resources while providing adequate protection for public health and the environment.

**Request for comments.** Notice is hereby given that pursuant to the Atomic Energy Act of 1954, as amended, and Reorganization Plan No. 3 of 1970 (FR Doc. 70-13374), adoption of Part 190 of Title 40 of the Code of Federal Regulations is proposed as set forth below. All interested persons who wish to submit comments or suggestions in connection with this proposed rulemaking are invited to send them to the Director, Criteria and Standards Division (AW-560), Office of Radiation Programs, Environmental Protection Agency, Washington, D.C. 20460, on or before July 28, 1975. Within this same time period, interested parties are also invited to indicate their desire to participate in a public hearing on the proposed rulemaking to be scheduled after the comment period ends. Comments and suggestions received after July 28, 1975 period will be considered if it is practical to do so, but such assurance can only be given for comments filed within the period specified. Single copies of a Draft Environmental Statement for the proposed standards and a technical report entitled "Environmental Analysis of the Uranium Fuel Cycle" are available upon request at the above address. The above-mentioned technical documents and

comments received in response to this notice, as well as comments received in response to the Agency's advance notice of this proposed rulemaking published on May 10, 1974, and the Agency's response to these comments, constitute part of the background for this rulemaking and may be examined in the Agency's Freedom of Information Office, 401 M Street, SW., Washington, D.C. 20460.

Dated: May 23, 1975.

RUSSELL E. TRAIN,  
Administrator.

A new Part 190 is proposed to be added to Title 40, Code of Federal Regulations, as follows:

**PART 190—ENVIRONMENTAL RADIATION PROTECTION STANDARDS FOR NUCLEAR POWER OPERATIONS**

**Subpart A—General Provisions**

Sec.  
190.01 Applicability.  
190.02 Definitions.

**Subpart B—Environmental Standards for the Uranium Fuel Cycle**

190.10 Standards for normal operations.  
190.11 Variance for unusual operations.  
190.12 Effective date.

**AUTHORITY:** Atomic Energy Act of 1954, as amended; and Reorganization Plan No. 3 of 1970.

**Subpart A—General Provisions**

**§ 190.01 Applicability.**

The provisions of this part apply to radiation doses received by members of the public in the general environment and to radioactive materials introduced into the general environment as the result of operations which are part of a nuclear fuel cycle.

**§ 190.02 Definitions.**

(a) "Nuclear fuel cycle" means the operations defined to be associated with the production of electrical power for public use by any fuel cycle through utilization of nuclear energy.

(b) "Uranium fuel cycle" means all facilities conducting the operations of milling of uranium ore, chemical conversion of uranium, isotopic enrichment of uranium, fabrication of uranium fuel, generation of electricity by a light-water-cooled nuclear power plant using uranium fuel, reprocessing of spent uranium fuel, and transportation of any radioactive material in support of these operations, to the extent that these support commercial electrical power production utilizing nuclear energy, but excludes mining operations and the reuse of recovered non-uranium fissile products of the cycle.

(c) "General environment" means the total terrestrial, atmospheric and aquatic environments outside sites upon which any operation which is part of a nuclear fuel cycle is conducted.

(d) "Site" means any location, contained within a boundary across which ingress or egress of members of the general public is controlled by the person conducting activities therein, on which is conducted one or more operations covered by this part.

(e) "Radiation" means any or all of the following: alpha, beta, gamma, or x rays; neutrons; and high-energy electrons, protons, or other atomic particles; but not sound or radio waves, nor visible, infrared, or ultraviolet light.

(f) "Radioactive material" means any material which emits radiation.

(g) "Uranium ore" is any ore which contains one-twentieth of one percent (0.05 percent) or more of uranium by weight.

(h) "Curie" (Ci) means that quantity of radioactive material producing 37 billion nuclear transformations per second. (One millicurie (mCi) = 0.001 Ci.)

(i) "Dose equivalent" means the product of absorbed dose and appropriate factors to account for differences in biological effectiveness due to the quality of radiation and its spatial distribution in the body. The unit of dose equivalent is the "rem." (One millirem (mrem) = 0.001 rem.)

(j) "Organ" means any human organ exclusive of the dermis, the epidermis, or the cornea.

(k) "Gigawatt-year" refers to the quantity of electrical energy produced at the busbar of a generating station. A gigawatt is equal to one billion watts. A gigawatt-year is equivalent to the amount of energy output represented by an average electric power level of one gigawatt sustained for one year.

(l) "Member of the public" means any individual that can receive a radiation dose in the general environment, whether he may or may not also be exposed to radiation in an occupation associated with a nuclear fuel cycle. However, an individual is not considered a member of the public during any period in which he is engaged in carrying out any operation which is part of a nuclear fuel cycle.

(m) "Regulatory agency" means the government agency responsible for issuing regulations governing the use of sources of radiation or radioactive materials or emissions therefrom and carrying out inspection and enforcement activities to assure compliance with such regulations.

**Subpart B—Environmental Standards for the Uranium Fuel Cycle**

**§ 190.10 Standards for normal operations.**

(a) The annual dose equivalent shall not exceed 25 millirems to the whole body, 75 millirems to the thyroid, and 25 millirems to any other organ of any member of the public as the result of exposure to planned discharges of radioactive materials, radon and its daughters excepted, to the general environment from uranium fuel cycle operations and radiation from these operations.

(b) The total quantity of radioactive materials entering the general environment from the entire uranium fuel cycle, per gigawatt-year of electrical energy produced by the fuel cycle, shall contain less than 50,000 curies of krypton-85, 5

millicuries of iodine-129, and 0.5 millicuries combined of plutonium-239 and other alpha-emitting transuranic radionuclides with half-lives greater than one year.

**§ 190.11 Variance for unusual operations.**

The standards specified in § 190.10 may be exceeded if:

(a) The regulatory agency has granted a variance based upon its determination that a temporary and unusual operating condition exists and continued operation is necessary to protect the overall societal interest with respect to the orderly delivery of electrical power, and

(b) Information delineating the nature and basis of the variance is made a matter of public record.

**§ 190.12 Effective date.**

(a) The standards in this Subpart, excepting those for krypton-85 and iodine-129, shall be effective 24 months from the promulgation date of this rule.

(b) The standards for krypton-85 and iodine-129 shall be effective January 1, 1983.

## PART I

### HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

FATHER'S DAY—Presidential proclamation..... 23427

FLAG DAY AND NATIONAL FLAG WEEK—Presidential proclamation ..... 23431

FOREIGN ASSISTANCE FOR SPAIN—Presidential Determination ..... 23433

OIL IMPORTS—Presidential proclamation increasing license fees..... 23429

RADIATION PROTECTION STANDARDS—NRC proposes, from licensees, personnel monitoring report of estimated whole body radiation doses; comments by 7-14-75 ..... 23478

OCCUPATIONAL SAFETY AND HEALTH—Labor/OSHA sets procedures for withdrawal of approval of State plan; effective 6-30-75 ..... 23465

DEMONSTRATION CENTERS FOR EXTENSION AND CONTINUING EDUCATION PROGRAMS—HEW/OE sets final funding criteria for selection of applications; effective 5-30-75 ..... 23500  
(Continued inside)

#### PART II:

HEALTH INSURANCE PROGRAM—HEW/SSA issues schedule of limits on hospital costs; effective 7-1-75..... 23621

#### PART III:

MINIMUM WAGES—Labor/ESA publishes determination for Federal and federally assisted construction ..... 23627

#### PART IV:

ENVIRONMENT—EPA listing of Federal agency comments on impact statements and other actions ..... 23697

V 40 - 105 MAY 30 75

## reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

### Rules Going Into Effect Today

USDA/APHIS—Biological products; elimination, clarification and correction of standards for uses of viruses 18405; 4-28-75  
DOT/HMRB—ASME Boiler and pressure vessel code; updated 18788; 4-30-75  
DOT/NHTSA—Temporary exemption from standards 18789; 4-30-75  
EPA—Control of air pollution from new motor vehicles and engines; certification of new light duty diesel-powered trucks intended for initial sale at high altitude—1977 Model Year 18778; 4-30-75  
FCC—FM broadcast stations, Pa.; table of assignments 19199; 5-2-75  
FCC—Radio and cable television sponsorship identification rules 18395; 4-28-75

### List of Public Laws

NOTE: No acts approved by the President were received by the Office of the Federal Register for inclusion in today's LIST OF PUBLIC LAWS.

**ATTENTION:** Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202-523-5286. For information on obtaining extra copies, please call 202-523-5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202-523-5022.

federal register

Area Code 202

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

### Title 3—The President

PROCLAMATION 4376

### Father's Day, 1975

*By the President of the United States of America*

#### A Proclamation

Growing up has never been easy. We have all experienced moments of sorrow, disappointment, and frustration. And there have been times of joy and great satisfaction. For each of us, there have been special men along the way—men who cared.

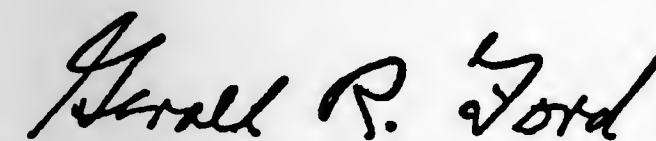

They loved us and made us feel important. They helped provide for our needs. They took time to work and to play with us. And we often modelled ourselves after them.

These men who have given so much of themselves are our natural fathers, our foster fathers, our adoptive fathers and our big brothers. It is a fitting American tradition that once a year we pay a well-deserved tribute to these fathers of America.

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, in accordance with a joint resolution of Congress (36 U.S.C. 142a), urge each American to observe Sunday, June 15, 1975, as Father's Day, with appropriate public and private expressions of the love and gratitude we bear for our fathers.

I call upon Government officials to display the flag of the United States on all Government buildings, and I invite the governments of the States and local communities to observe Father's Day with appropriate ceremonies.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-seventh day of May, in the year of our Lord nineteen hundred seventy-five, and of the Independence of the United States of America the one hundred ninety-ninth.

Proclamation 4377

May 27, 1975

**Modifying Proclamation No. 3279,<sup>1</sup> as Amended, Relating to Imports of Petroleum and Petroleum Products, and Providing for the Long-Term Control of Imports of Petroleum and Petroleum Products Through a System of License Fees**

*By the President of the United States of America*

#### A Proclamation

WHEREAS, pursuant to the authority of Section 232 of the Trade Expansion Act of 1962, Proclamation No. 3279, as amended, was modified by Proclamation No. 4341 of January 23, 1975, in order to impose a system of supplemental license fees on imported petroleum and petroleum products; and

WHEREAS, the system of supplemental license fees on imported petroleum and petroleum products was imposed pursuant to an investigation and recommendation by the Secretary of the Treasury in accordance with the provisions of Section 232 of the Trade Expansion Act of 1962; and

WHEREAS, the scheduled increases in the level of fees established by Proclamation No. 4341 were deferred by Proclamation No. 4370 of April 30, 1975, in order to afford Congress an opportunity to propose alternative programs for discouraging importation into the United States of petroleum and petroleum products in such quantities or under such circumstances as threaten to impair the national security; and

WHEREAS, such alternative programs have not been developed and are unlikely to be enacted in the near future; and

WHEREAS, I judge it necessary and consistent with the national security to reinstitute the originally scheduled increase in the supplemental fee to the level of \$2.00 per barrel; and

WHEREAS, the Administrator of the Federal Energy Administration has recommended that certain other changes in the license fee system be made;

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, acting under and by virtue of the authority vested in me by the Constitution and the laws of the United States, including Section 232 of the Trade Expansion Act of 1962, as amended, do hereby proclaim that, effective as of June 1, 1975, Proclamation No. 3279, as amended, is hereby further amended as follows:

SECTION 1. (a) Clauses (iii), (iv), and (viii) of subparagraph (1) of paragraph (a) of Section 3 are amended to read as follows:

"(iii) with respect to imports of crude oil, natural gas products, unfinished oils, and all other finished products (except ethane, propane, butanes, and asphalt) entered into the customs territory of the United States on or after February 1, 1975, there shall be a supplemental fee per barrel of \$1.00, rising to \$2.00 on imports entered on or after June 1, 1975;

"(iv) with respect to the fees imposed pursuant to paragraphs 3(a)(1)(i)-(iii), the amount of such fees shall be reduced, on a monthly basis, by an amount equal to any applicable duties paid less any draw-

backs received during the same period charged against imports made on or after February 1, 1975, except that where duty drawbacks exceed the duty paid during that period, the net differences shall be applied to subsequent periods; provided that when the duty less drawbacks exceeds the fee imposed, the Administrator may provide that any excess may be used to reduce fees payable in subsequent months, such extended period not to exceed six months;

"(viii) with respect to licenses issued pursuant to paragraph 3(a)(1)(iii) for imports other than (A) any material imported for refining that qualifies for inclusion in a refiner's crude oil runs to stills under the Old Oil Allocation Program or (B) products refined in a refinery outside of the customs territory as to which crude oil runs to stills would qualify a refiner to receive entitlements under the Old Oil Allocation Program, the Administrator may by regulation reduce the fee payable by the following amounts, or by such other amounts as he may determine to be necessary to achieve the objectives of this Proclamation and the Emergency Petroleum Allocation Act of 1973;

—for imports entered into the United States customs territory during the months of February through May, 1975, \$1.00 per barrel;

—for imports entered during the month of June, 1975, and thereafter, \$1.40 per barrel."

(b) Paragraph (b) of Section 3 is amended by redesignating the existing paragraph (b) as (b)(1), and by adding a new paragraph (2) to read as follows:

"(2) With respect to allocations and licenses issued prior to June 1, 1975, for which a bond was not required or with respect to which a bond was required in amounts less than the full amount of the fees imposed pursuant to this Proclamation, the Administrator may, by regulation, provide for such bonding procedures as he deems necessary."

Sec. 2. (a) Paragraph (c) of Section 5 is amended to read as follows:

"(c) The Administrator of the Federal Energy Administration may modify or alter the composition of the Appeals Board or abolish the Board and establish such other appellate procedures as he deems appropriate."

(b) A new paragraph (d) is added to Section 5 to read as follows:

"(d) The authority granted by this Section shall expire on April 30, 1980."

Sec. 3. Paragraph (1) of Section 11 is amended to read as follows:

"(1) The term 'imports' includes both entry for consumption and withdrawal from warehouse for consumption, but excludes unfinished oils and finished products processed in United States territories and foreign trade zones from crude oil produced in the United States."

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-seventh day of May, in the year of our Lord nineteen hundred seventy-five, and of the Independence of the United States of America the one hundred ninety-ninth.

# PROCLAMATION 4378

## Flag Day and National Flag Week, 1975

*By the President of the United States of America*

### A Proclamation

Two hundred years ago, American minutemen raised their muskets at the Old North Bridge. What Ralph Waldo Emerson called "the shot heard around the world" rang out. The American Revolution had begun. Two years later, while the outcome of the Revolutionary War remained in doubt, the Continental Congress met in Philadelphia on June 14, 1777, and approved the following resolution:

"Resolved, that the flag of the thirteen United States be thirteen stripes, alternate red and white: that the union be thirteen stars, white in a blue field, representing a new constellation."

That short and unadorned declaration gave birth to our flag. With the addition of thirty-seven stars, and after two centuries of history, the flag chosen in Philadelphia is our flag today, symbolizing our commitment as a people to freedom, equality, and independence.

To commemorate the adoption of our flag, the Congress, by a joint resolution of August 3, 1949 (63 Stat. 492, 36 U.S.C. 157), designated June 14 of each year as Flag Day and requested the President to issue annually a proclamation calling for its observance. The Congress also requested the President, by joint resolution of June 9, 1966 (80 Stat. 194, 36 U.S.C. 157a), to issue annually a proclamation designating the week in which June 14 occurs as National Flag Week and to call upon all citizens of the United States to display the flag of the United States on those days.

This year, Flag Day is an especially historic occasion, since it is also the Bicentennial birthday of the United States Army. Two hundred years ago, on June 14, 1775, the Continental Congress adopted resolutions which in effect established the military units of New England as the official national army. By this action, the Continental Army was created and the Nation's military service was born. The U.S. Navy and the U.S. Marine Corps were established later that same year by the Continental Congress.

It is appropriate, as our Nation launches its Bicentennial commemoration, that the United States flag, first flown two centuries ago, be displayed together with an ensign bearing the official American Revolution Bicentennial Symbol set on a white field, which is designated as the official Bicentennial Flag.

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, do hereby designate the week beginning June 8, 1975, as National Flag Week and I call upon the appropriate officials of the government to display the National Flag on all government buildings during that week. The heads of all government departments and agencies are also authorized and requested to provide, as they deem appropriate, for the flying of the official Bicentennial Flag, on

government buildings, military installations, naval vessels, and other places where the United States flag is flown, during that period and for the remainder of the year 1975 and the entire year 1976. I urge all Americans to observe Flag Day, June 14, and Flag Week this year by flying the Stars and Stripes from their homes and other suitable places.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-eighth day of May, in the year of our Lord nineteen hundred seventy-five, and of the Independence of the United States of America the one hundred ninety-ninth.

*Gerald R. Ford*

## THE PRESIDENT

Memorandum of May 9, 1975

**Presidential Determination Under Section 614(a) of the Foreign Assistance Act of 1961, as Amended—Spain**

[Presidential Determination No. 75-18]

Memorandum for the Secretary of State

THE WHITE HOUSE,  
Washington, May 9, 1975.

Pursuant to the authority vested in me by Section 614(a) of the Foreign Assistance Act of 1961, as amended, I hereby:

(a) Determine that the use of not to exceed \$1.6 million in FY 1975 in military assistance funds for the grant of defense services (training) to Spain, and the use of up to \$3 million in security supporting assistance funds to finance programs of non-military cooperation with Spain, without regard to Section 620(m) of the Act, is important to the security of the United States; and

(b) Authorize such use of up to \$1.6 million of military assistance funds and up to \$3 million in security supporting assistance funds, without regard to Section 620(m) of the Act.

This determination shall be published in the FEDERAL REGISTER.

*Gerald R. Ford*

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture  
CHAPTER IV—FEDERAL CROP INSURANCE CORPORATION, DEPARTMENT OF AGRICULTURE

[Amdt. 68]

PART 401—FEDERAL CROP INSURANCE  
Subpart—Regulations for the 1969 and Succeeding Crop Years

BARLEY; WYOMING

On page 14777 of the FEDERAL REGISTER of April 2, 1975, (40 FR 14777), was published a notice of proposed rule making to issue an amendment to §§ 401.103 and 401.125 of the Federal Crop Insurance Regulations for the 1969 and Succeeding Crop Years, as amended (7 CFR 401.101 et seq.).

Interested persons were given 30 days after publication of the notice in which to submit written data, views, or arguments with respect to the proposed amendment, but none have been received.

The proposed amendment, as issued in the notice, effective beginning with the 1976 Crop Year was adopted with the following additions:

- 1. A basis and purpose paragraph is added preceding the amendment.
- 2. An authority clause is added immediately following the amendment.

**Basis and purpose.** The amendment herein is issued pursuant to and in accordance with the Federal Crop Insurance Act, as amended. Section 401.103 (a) presently specifies March 31 as the closing date for the submission of applications for barley crop insurance in Wyoming. Section 401.125, the Barley Endorsement, presently provides for March 31 as the termination date for indebtedness in Wyoming. Such date is at variance with the dates for sales campaigns on other insurable crops in Wyoming. The amendment herein will change the closing date and the termination date for indebtedness to April 15 in order to make the barley program in Wyoming more administratively effective.

The subpart-Regulations for the 1969 and Succeeding Crop Years (32 FR 15911), as amended, are amended as follows:

- 1. The portion of the table relating to "Closing Dates" following paragraph (a) of § 401.103 of this chapter under the heading "Barley" is amended effective beginning with the 1976 Crop Year by striking out "and Wyoming" from the line reading "Colorado and Wyoming."
- 2. In section 6 of the Barley Endorsement shown in § 401.125 of this chapter, the table at the end thereof is amended effective beginning with the 1976 Crop Year by striking out "and Wyoming" from the line reading "Colorado and Wyoming."

(Secs. 506, 516, 52 Stat. 73, as amended, 77, as amended; 7 U.S.C. 1506, 1516)

Adopted by the Board of Directors on May 15, 1975.

[SEAL] PETER F. COLE,  
Secretary, Federal Crop Insurance Corporation.

Approved: May 27, 1975.

EARL L. BUTZ,  
Secretary.

[FR Doc.75-14077 Filed 5-29-75; 8:45 am]

[Amdt. 7]

PART 406—CALIFORNIA ORANGE CROP INSURANCE

Subpart—Regulations for the 1963 and Succeeding Crop Years

CALIFORNIA ORANGES

Pursuant to the authority contained in the Federal Crop Insurance Act, as amended, the above-identified regulations are amended effective beginning with the 1975 Crop Year in the following respects:

- 1. The heading of the California Orange Application and Policy shown in § 406.6 is amended to read as follows:

UNITED STATES DEPARTMENT OF AGRICULTURE  
Federal Crop Insurance Corporation  
APPLICATION AND POLICY FOR CALIFORNIA ORANGE CROP INSURANCE  
(For 19— and Succeeding Crop Years)

(Name of Insured)		(Contract Number)	
		(County)	(State)
(Address of Insured)	(Zip Code)	(Identification Number)	

- 2. Reference to "County Office," found in Section 1 of the California Orange Application and Policy shown in § 406.6 is amended to read "Office for the County."

- 3. Subsection 3(a) of the California Orange Application and Policy shown in § 406.6 is amended to read as follows:

3. *Insured crop.* (a) Application for insurance may be made with respect to both navel and valencia oranges, or with respect to either navel or valencia oranges, produced by the applicant on trees that have reached at least the sixth growing season after being set out, except that the applicant may, subject to approval by the Corporation, elect to insure or exclude from insurance for any crop year any definitely described and designated insurable acreage having a potential of less than 200 standard field boxes per acre. Acreage so excluded with approval of the Corporation shall be disregarded for all purposes of this contract for the crop year involved. If the insured fails to report and

designate any defined acreage, the Corporation will disregard such acreage if at least 200 standard field boxes per acre are not produced thereon. However, if the production equals or exceeds such minimum, the Corporation shall determine the percent of damage on all the insurable acreage for the unit but will not permit the percent of damage for the insurance unit to be increased by reason of the use of such unreported acreage. The potential to be used to determine the percent of damage under Section 14 shall never be less than 200 standard field boxes per acre. Except as otherwise provided herein, the insured acreage for each crop year shall be all that acreage in the county of the variety or varieties of oranges for which the insured has applied for insurance, which is shown as insurable acreage on the actuarial table and not excluded otherwise because of risk, and in which the insured has an interest on the date insurance attaches.

- 4. Section 6 of the California Orange Application and Policy shown in § 406.6 is amended to read as follows:

6. Insurance period. For each crop year insurance shall attach on October 1, except that for the first crop year if the application is submitted to the office for the county after September 30 and is accepted by the Corporation, insurance shall attach on the 10th day after the submission of the application, and as to any portion of the orange crop shall cease upon harvest, or March 31 of the following calendar year, whichever occurs first.

5. Subsection 7(b) of the California Orange Application and Policy shown in § 406.6 is amended to read as follows:

7. Annual premium. . . .  
(b) The total annual premium for the insured crop on all insurance units shall be reduced as follows for consecutive years of insurance, without a loss for which an indemnity was paid on any insurance unit immediately preceding the crop year for which the reduction is applicable (eliminating any year in which a premium was not earned):

Premium reduction	Consecutive years with no loss
5 percent after . . . . .	1.
8 percent after . . . . .	2.
10 percent after . . . . .	3.
10 percent after . . . . .	4.
15 percent after . . . . .	5.
20 percent after . . . . .	6.
25 percent after . . . . .	7 or more.

10. (Code No.) (Witness to Signature) (Signature of Applicant)  
Recommended for acceptance by: (Date) 19\_\_\_\_  
(Corporation Representative) (Date) 19\_\_\_\_

7. Section 11 of the California Orange Application and Policy shown in § 406.6 is amended to read as follows:

ADDRESS OF OFFICE FOR COUNTY	LOCATION OF HEADQUARTERS
PHONE:	PHONE:

8. Subsection 13(a) of the California Orange Application and Policy shown in § 406.6 is amended to read as follows:

13. Notice of damage or loss. (a) It shall be a condition precedent to payment of any indemnity on any insurance unit (hereinafter called "unit") hereunder that the insured report each damage to the insured crop from freeze to the office for the county immediately after such damage becomes apparent giving the date of such damage. If not so reported within seven days, the Corporation reserves the right to reject any claim arising out of such damage on the unit if it determines that it has been prejudiced by such failure to report or by failure to give notice as required in subsection (b) of this section. Notwithstanding any other provision of this section to the contrary, no insured damage shall be deemed to have occurred on any acreage damaged by freeze unless a notice of the damage thereon is given to the office for the county within 30 days after the applicable calendar date for the end of the insurance period for navel oranges and 60 days after the applicable calendar date for the end of the insurance period for valencia oranges.

9. Subsection 14(a) of the California Orange Application and Policy shown in § 406.6 is amended to read as follows:

If an insured has a loss on a crop for which an indemnity is paid, the number of such consecutive years of insurance on such crop without a loss for which an indemnity was paid shall be reduced by three years, except that, where the insured has seven or more such years, a reduction to four shall be made and where the insured has three or less such years, a reduction to zero shall be made.

If at any time the cumulative dollar amount of indemnities paid under this policy exceeds the cumulative premiums earned through the previous crop year, the discounts referred to in this section shall not thereafter be applicable until the cumulative premiums earned equal or exceed the cumulative indemnities. If there is no break in continuity of participation, any premium reduction earned hereunder shall be transferred to (1) the contract of the insured's estate or surviving spouse in case of the death of the insured, (2) the contract of the person who succeeds the insured as the insured's transferee in operating only the same farm or farms, if the Corporation finds that such transferee has previously actively participated in the farming operation involved, or (3) the contract of the same insured who stops farming in one county and starts farming in another county.

6. Section 10 of the California Orange Application and Policy shown in § 406.6 is amended to read as follows:

10. (Code No.) (Witness to Signature) (Signature of Applicant)  
Recommended for acceptance by: (Date) 19\_\_\_\_  
(Corporation Representative) (Date) 19\_\_\_\_

7. Section 11 of the California Orange Application and Policy shown in § 406.6 is amended to read as follows:

ADDRESS OF OFFICE FOR COUNTY	LOCATION OF HEADQUARTERS
PHONE:	PHONE:

14. Amount of loss and proof of loss. (a) Any claim for loss on any unit shall be submitted to the Corporation on a form prescribed by the Corporation within 60 days after harvest of the insured crop is completed on the unit but not later than the applicable date set forth below of the calendar year following the calendar year in which insurance attached.

Navel Oranges—July 31  
Valencia Oranges—September 30  
The Corporation reserves the right to provide additional time if it determines that circumstances beyond the control of either party prevent compliance with this provision.

10. Subsection 14(c) of the California Orange Application and Policy shown in § 406.6 is amended to read as follows:

14. Amount of loss and proof of loss. . . .  
(c) Oranges lost as a result of freeze shall be oranges to which damage from freeze is serious (as defined in the Agricultural Code of California) as determined by the Corporation on the basis of cuts made in the grove of representative samples of fruit. The average percent of damage to the insured crop on any unit shall be the ratio of the number of standard field boxes of the crop lost as a result of freeze to the total number of standard field boxes which would have been

produced (herein called the "potential"): Provided, That for any portion of the navel orange crop which has damage, as determined by such cuts, of 80 percent or less, the percent of damage so determined shall be increased one percentage point for each full percent of damage in excess of 30 percent; however, the total of the percent of damage determined by such cuts including such increased percentage shall be limited to a maximum of 80 percent. If the percent of damage as determined by such cuts is in excess of 80, the percent of damage so determined shall be allowed. The potential shall not be less than 200 standard field boxes per acre and shall include (1) oranges picked before the freeze occurred, (2) oranges remaining on the trees after the freeze occurred, (3) oranges lost from freeze, and (4) any other oranges not included in items (1) through (3), including oranges lost from causes not insured against other than normal dropping, "rots," and "splits." Notwithstanding the above provisions of this subsection, the Corporation shall consider (1) any portion of the insured crop which is harvested prior to the grove inspection by the Corporation as fruit undamaged, (2) any fruit which is or could be packed as fresh fruit as being undamaged, and (3) any fruit on the ground as a result of freeze which is not marketed as being damaged the greater of: 70 percent or the percent of damage determined from cuts made in the grove of representative samples of fruit on the tree, including any increased percentage in the case of navel; however, if over 90 percent of the potential production on any acreage is on the ground as a result of freeze, the percent of damage for such fruit shall be considered 90 percent.

A final grove inspection to determine the extent of serious freeze damage to unharvested fruit shall be made within 30 days after the end of the insurance period for navel oranges and 60 days after the end of the insurance period for valencia oranges or as soon thereafter as possible. The Corporation reserves the right to delay the final determination of the average percent of damage and the settlement of any loss until the insured makes available to it complete records of the marketing of the insured crop for the crop year. It shall be a condition precedent to payment of any claim that the insured (1) furnish any production records and any other information required by the Corporation regarding the manner and extent of damage and (2) hereby authorize the Corporation to examine and obtain any records pertaining to the production and/or marketing of the crop insured under this contract from the packinghouse and the Navel Orange and Valencia Orange Administrative Committees established under orders issued by the U.S. Department of Agriculture (7 CFR 907.1 et seq. and 908.1 et seq.) pursuant to the Agricultural Marketing Agreement Act of 1937, as amended.

11. Reference to "County Office" found in section 16 of the California Orange Application and Policy shown in § 406.6 is amended to read "Office for the County."

12. Subsections 22(a) and 22(b) of the California Orange Application and Policy shown in § 406.6 are amended to read as follows:

22. Meaning of terms. For purposes of insurance on oranges the terms:

(a) "County actuarial table" means the forms and related material approved by the Corporation which are on file for public inspection in the office for the county, and

which show the applicable amounts of insurance, premium rates, and related information with respect to orange crop insurance for the crop year in the county.

(b) "Office for the county" means the Corporation's office serving the county shown in this application and policy, or such office as may be designated by the Corporation from time to time.

(Secs. 506, 516, 52 Stat. 73, as amended, 77, as amended; 7 U.S.C. 1506, 1516)

This amendment will permit the Corporation to provide a revision of the current application and policy for insuring oranges in California to correct an inequity in adjusting losses. The current application and policy for insuring oranges in California uses a formula for adjustment of losses that is based on determinations made by packinghouses as to the acceptability of the oranges. Such determinations have proven to be inequitable in that, while one packinghouse may allow a certain grade of oranges to pass, another will not, thus discriminating against certain insureds. Under the terms of the proposed amendment, loss determinations will be made by Corporation personnel in the groves at the time of adjusting losses, and be based on cuts in the fruit to determine the extent of damage or loss. This would result in a program of orange crop insurance based on sounder insurance principles. The foregoing amendment also changes the designation of a blank line in the heading of the application and Policy from "State and County Code and Contract Number" to "Contract Number" and adds a blank line designated as "Identification Number." On the latter line will be entered either the insured's Social Security number or the identification number assigned by the Internal Revenue Service. These numbers will facilitate access to production data accumulated by other agencies of the Department of Agriculture. It is desirable that this amendment become effective with the 1975 Crop Year. Notice of changes must be given to insureds by July 15. As some new applications have already been taken, it is necessary to contact each new applicant and all existing policyholders to inform them of the program changes.

Under the circumstances, the Board of Directors found that it would be impracticable and contrary to the public interest to follow the procedure for notice and public participation prescribed by 5 U.S.C. 553(b) and (c), as directed by the Secretary of Agriculture in a Statement of Policy, executed July 20, 1971 (36 FR 13804), prior to its adoption. Accordingly, said amendment was adopted by the Board of Directors on May 15, 1975.

[SEAL] PETER F. COLE,  
Secretary, Federal Crop  
Insurance Corporation.

Approved: May 27, 1975.

EARL L. BUTZ,  
Secretary.

## RULES AND REGULATIONS

## CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Regulation 694]

## PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

## Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period June 1-7, 1975. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.994 Lemon Regulation 694.

(a) Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(1) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons is quite active this week in Southern and Eastern markets but less active in the Midwest due to cooler weather. Average f.o.b. price was \$6.42 per carton the week ended May 24, 1975, compared to \$6.23 per carton the previous week. Track and rolling supplies at 137 cars were up 7 cars from last week.

(1) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication

hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on May 27, 1975.

(b) Order. (1) The quantity of lemons grown in California and Arizona which may be handled during the period June 1, 1975 through June 7, 1975, is hereby fixed at 325,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: May 28, 1975.

CHARLES R. BRADER,  
Deputy Director, Fruit and  
Vegetable Division, Agricultural  
Marketing Service.

## CHAPTER X—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; MILK), DEPARTMENT OF AGRICULTURE

[Milk Order No. 126]

## PART 1126—MILK IN THE TEXAS MARKETING AREA

## Order Amending and Merging Orders

7 CFR part	Marketing Area	Docket No.
1121	South Texas . . . . .	AO-364-A-8.
1126	North Texas . . . . .	AO-231-A-11.
1127	San Antonio, Texas . . . . .	AO-232-A-27.
1128	Central West Texas . . . . .	AO-238-A-30.
1129	Austin-Waco, Texas . . . . .	AO-256-A-23.
1130	Corpus-Christi, Texas . . . . .	AO-259-A-27.

## RULES AND REGULATIONS

## FINDINGS AND DETERMINATIONS

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of each of the aforesaid orders and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings.* A public hearing was held upon certain proposed amendments to the tentative marketing agreements and to the orders regulating the handling of milk in the aforesaid marketing areas. The hearing was held pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 801 *et seq.*), and the applicable rules of practice and procedure (7 CFR Part 900).

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The Texas order, which amends and merges the aforesaid orders, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the Texas marketing area, and the minimum prices specified in the Texas order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The Texas order regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, the marketing agreements upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in the Texas order, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 4 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to milk specified in § 1126.85 of the attached order.

(b) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in section 8c (9) of the Act) of more than 50 percent of the milk, which is marketed within the Texas marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of the Texas order, which amends and merges the aforesaid orders, is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the Texas order;

(3) The issuance of the Texas order (exclusive of the Advertising and Promotion Program) is approved or favored by at least two-thirds of the producers who participated in a referendum and who during the determined representative period were engaged in the production of milk for sale in the Texas marketing area; and

(4) The issuance of the provisions constituting the Advertising and Promotion Program under the Texas order is approved or favored by at least two-thirds of the producers who participated in a separate referendum and who during the determined representative period were engaged in the production of milk for sale in the Texas marketing area.

*Order relative to handling.* It is therefore ordered that on and after the effective date hereof the orders regulating the handling of milk in the North Texas, South Texas, San Antonio, Central West Texas, Austin-Waco, and Corpus Christi marketing areas (Parts 1126, 1121, 1127, 1128, 1129, and 1130, respectively) shall be amended and merged into one order. Parts 1121, 1127, 1128, 1129, and 1130 are hereby superseded, and such vacated part designations shall be reserved for future assignment. The handling of milk in the merged marketing area, to be designated as the "Texas Marketing Area" (Part 1126), shall be in conformity to and in compliance with the terms and conditions of the following attached order:

## PART 1126—MILK IN THE TEXAS MARKETING AREA

## Subpart—Order Regulating Handling

GENERAL PROVISIONS	
Sec.	
1126.1	General provisions.
DEFINITIONS	
1126.2	Texas marketing area.
1126.3	Route disposition.
1126.4	Plant.
1126.5	[Reserved]
1126.6	[Reserved]
1126.7	Pool plant.
1126.8	Nonpool plant.
1126.9	Handler.
1126.10	Producer-handler.
1126.11	[Reserved]
1126.12	Producer.
1126.13	Producer milk.
1126.14	Other source milk.
1126.15	Fluid milk product.
1126.16	Fluid cream product.
1126.17	Filled milk.
1126.18	Cooperative association.
1126.19	Current marketing period.
HANDLER REPORTS	
1126.20	Reports of receipts and utilization.
1126.21	Payroll reports.
1126.22	Other reports.
CLASSIFICATION OF MILK	
1126.23	Classes of utilization.
1126.24	Shrinkage.
1126.25	Classification of transfers and diversions.
1126.26	General classification rules.
1126.27	Classification of producer milk.

Sec. 1126.45 Market administrator's reports and announcements concerning classification.

## CLASS PRICES

1126.50 Class prices.  
1126.51 Basic formula price.  
1126.52 Plant location adjustments for handlers.  
1126.53 Announcement of class prices.  
1126.54 Equivalent price.

## UNIFORM PRICE

1126.60 Handler's value of milk for computing uniform price.  
1126.61 Computation of uniform price.  
1126.62 Announcement of uniform price and butterfat differential.

## PAYMENTS FOR MILK

1126.70 Producer-settlement fund.  
1126.71 Payments to the producer-settlement fund.  
1126.72 [Reserved]  
1126.73 Payments to producers and to cooperative associations.  
1126.74 Butterfat differential.  
1126.75 Plant location adjustments for producers and on nonpool milk.  
1126.76 Payments by handler operating a partially regulated distributing plant.  
1126.77 Adjustment of accounts.  
1126.78 Charges on overdue accounts.

## ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

1126.85 Assessment for order administration.  
1126.86 Deduction for marketing services.

## ADVERTISING AND PROMOTION PROGRAM

1126.110 Agency.  
1126.111 Composition of Agency.  
1126.112 Term of office.  
1126.113 Selection of Agency members.  
1126.114 Agency operating procedure.  
1126.115 Powers of the Agency.  
1126.116 Duties of the Agency.  
1126.117 Advertising, Research, Education and Promotion Program.  
1126.118 Limitation of expenditures by the Agency.  
1126.119 Personal liability.  
1126.120 Procedure for requesting refunds.  
1126.121 Duties of the market administrator.  
1126.122 Liquidation.  
1126.123 Initial operating procedures under merger of orders.

AUTHORITY: Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 801-874.

## GENERAL PROVISIONS

## § 1126.1 General provisions.

The terms, definitions, and provisions in Part 1000 of this chapter are hereby incorporated by reference and made a part of this order.

## DEFINITIONS

## § 1126.2 Texas marketing area.

The "Texas marketing area," hereinafter called the "marketing area," means all territory within the boundaries of the following Texas counties, including all piers, docks, and wharves connected therewith and all craft moored thereat, and all territory occupied by government (municipal, State, or Federal) reservations, installations, institutions, or other similar establishments if any part thereof is within any of the listed counties:

ZONE 1	
Camp.	Johnson.
Coilin.	Kaufman.
Cooke.	Lamar.
Dallas.	Morris.
Delta.	Parker.
Denton.	Rains.
Ellis.	Red River.
Fannin.	Rockwall.
Franklin.	Somervell.
Grayson.	Tarrant.
Hill (Blum and Itasca divisions only).	Titus.
Hood.	Upshur.
Hopkins.	Van Zandt.
Hunt.	Wise.
	Wood.
ZONE 2	
Gregg.	Panola.
Harrison.	Rusk.
Marion.	Smith.
ZONE 3	
Anderson.	Henderson.
Bell.	Hill (except Blum and Itasca divisions).
Boesque.	Cherokee.
Comanche.	Lampasas.
Coryell.	Limestone.
Erath.	McLennan.
Falls.	Navarro.
Freestone.	
Hamilton.

## § 1126.3 Route disposition.

"Route disposition" means any delivery (including any delivery by a vendor or disposition at a plant store) of a fluid milk product classified as Class I milk, other than a delivery to a plant.

## § 1126.4 Plant.

"Plant" means the land, buildings, facilities, and equipment constituting a single operating unit or establishment at which milk or milk products (including filled milk) are received, processed, or packaged. Separate facilities without stationary storage tanks which are used only as a reload point for transferring bulk milk from one tank truck to another or separate facilities used only as a distribution point for storing packaged fluid milk products in transit for route disposition shall not be a plant under this definition.

## § 1126.5 [Reserved]

## § 1126.6 [Reserved]

## § 1126.7 Pool plant.

Except as provided in paragraph (f) of this section, "pool plant" means:

(a) Any plant that is approved by a duly constituted regulatory agency for the processing or packaging of Grade A milk and from which during the month there is:

(1) Route disposition, except filled milk, in the marketing area equal to 10 percent or more of the receipts of Grade A fluid milk products at such plant, including producer milk diverted from the plant; and

(2) Total route disposition, except filled milk, equal to 50 percent or more of the receipts of Grade A fluid milk products at such plant, including producer milk diverted from the plant. If two plants operated by the same handler each meet the performance requirement of paragraph (a) (1) of this section and such handler requests that the two plants be considered together for the purpose of meeting the total route disposition requirement, each such plant shall be deemed to have met the total disposition requirement of this subparagraph if the combined route disposition, except filled milk, of such plants is 50 percent or more of the combined receipts of Grade A fluid milk products at such plants, including producer milk diverted from the plants.

(b) Any plant, other than a plant described in paragraph (a) of this section, that is approved by a duly constituted regulatory agency for the disposition of

Grade A milk in the marketing area and from which during the month 50 percent or more of the receipts at such plant of Grade A milk from dairy farmers (including producer milk diverted from the plant but excluding milk received as diverted milk) and handlers described in § 1126.9(c) is transferred in the form of a bulk fluid milk product, except filled milk, to pool plants described in paragraph (a) of this section, except that such percentage shall be 15 percent for the months of:

(1) August, if the plant was a pool plant under this paragraph or paragraph (d) of this section during the immediately preceding month of July; and

(2) December, if the plant was a pool plant under this paragraph during the immediately preceding month of November.

(c) Any plant, other than a plant described in paragraph (a) or (b) of this section or that qualifies as a pool plant under another Federal order, from which during the month 50 percent or more of the receipts at such plant of Grade A milk from dairy farmers (including milk diverted from the plant but excluding milk received as diverted milk) and handlers described in § 1126.9(c) is transferred in the form of a bulk fluid milk product, except filled milk, to pool plants described in paragraph (a) of this section and distributing plants fully regulated under other Federal orders, if the total quality so transferred to pool plants exceeds in the case of each other order the total quantity so transferred to other order distributing plants, except that:

(1) For the following months, such percentage shall be 15 percent and shall apply only to transfers to pool plants described in paragraph (a) of this section:

(i) August, if the plant was a pool plant under this paragraph or paragraph (d) of this section during the immediately preceding month of July; and

(ii) December, if the plant was a pool plant under this paragraph during the immediately preceding month of November; and

(2) Such plant shall not be a pool plant under this paragraph in any of the months of February through July unless it was a pool plant under this paragraph in three or more of the immediately preceding months of September through January.

(d) Any plant during the months of February through July, other than a plant described in paragraph (a) of this section, that was a pool plant under paragraph (b) or (c) of this section during each of the immediately preceding months of September through January and is approved by a duly constituted regulatory agency for the disposition of Grade A milk in the marketing area, subject to the following conditions:

(1) For the months of February through July 1975, the required qualification under paragraph (b) of this section in prior months shall be deemed to have been met if the plant was a pool supply plant under the Austin-Waco, West Texas, Corpus Christi, North Texas, San Antonio, or South Texas orders (or

any combination thereof) during the months of September, October, and November 1974; and

(2) If the plant operator files with the market administrator prior to any of the months of February through July a written request for nonpool status, a plant shall not be a pool plant under this paragraph during any of such remaining months through July.

(e) Any plant located in the marketing area that is operated by a cooperative association if pool plant status under this paragraph is requested for such plant by the cooperative association and 60 percent or more of the producer milk of members of the cooperative association (excluding such milk that is received at or diverted from pool plants described in paragraphs (b), (c) and (d) of this section) is physically received during the month in the form of a bulk fluid milk product at pool plants described in paragraph (a) of this section either directly from farms or by transfer from plants of the cooperative association for which pool plant status under this paragraph has been requested, subject to the following conditions:

(1) The plant does not qualify as a pool plant under paragraph (a), (b), (c) or (d) of this section or under the provisions of another Federal order applicable to a distributing plant or a supply plant; and

(2) The plant is approved by a duly constituted regulatory agency for the disposition of Grade A milk in the marketing area.

(f) The term "pool plant" shall not apply to the following plants:

(1) A producer-handler plant;

(2) A governmental agency plant;

(3) A plant qualified pursuant to paragraph (a) of this section which also meets the pooling requirements of another Federal order and from which there is a greater quantity of route disposition, except filled milk, during the month in such other Federal order marketing area than in this marketing area, except that if such plant was subject to all the provisions of this part in the immediately preceding month, it shall continue to be subject to all the provisions of this part until the third consecutive month in which a greater proportion of its route disposition, except filled milk, is made in such other marketing area;

(4) A plant qualified pursuant to paragraph (a) of this section which also meets the pooling requirements of another Federal order on the basis of route disposition in such other marketing area and from which there is a greater quantity of route disposition, except filled milk, in this marketing area than in such other marketing area but which plant is, nevertheless, fully regulated under such other Federal order; and

(5) A plant qualified pursuant to paragraph (b) or (c) of this section which has automatic pooling status under another Federal order.

#### § 1126.8 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing, or

processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is not an other order plant, a governmental agency plant, or a producer-handler plant and from which there is route disposition in consumer-type packages or dispenser units in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant from which fluid milk products are moved to a pool plant during the month but which is not an other order plant, a governmental agency plant, or a producer-handler plant.

(e) "Governmental agency plant" means a plant operated by a governmental agency from which fluid milk products are distributed in the marketing area. Such plant shall be exempt from all provisions of this part.

#### § 1126.9 Handler.

"Handler" means:

(a) Any person in his capacity as the operator of a pool plant;

(b) Any cooperative association with respect to milk of a producer that is diverted for the account of the cooperative association from a pool plant of another handler in accordance with § 1126.13;

(c) Any cooperative association with respect to milk that it receives for its account from the farm of a producer for delivery to a pool plant of another handler in a tank truck owned and operated by, or under the control of, such cooperative association, unless both the cooperative association and the operator of the pool plant notify the market administrator prior to the time that such milk is delivered to the pool plant that the plant operator will be the handler for such milk and will purchase such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples. Milk for which the cooperative association is the handler pursuant to this paragraph shall be deemed to have been received by the cooperative association at the location of the pool plant to which such milk is delivered;

(d) Any person in his capacity as the operator of a partially regulated distributing plant;

(e) Any person who is a producer-handler; and

(f) Any person in his capacity as the operator of an other order plant described in § 1126.7(f).

#### § 1126.10 Producer-handler.

"Producer-handler" means any person:

(a) Who operates a dairy farm and a processing plant from which there is route disposition in the marketing area;

(b) Who receives no fluid milk products from sources other than his own farm production and pool plants;

(c) Whose receipts of fluid milk products during the month from pool plants do not exceed the lesser of 5 percent of his Class I disposition during the month or 10,000 pounds;

(d) Who disposes of no other source milk as Class I milk except by increasing the nonfat milk solids content of the fluid milk products received from his own farm production or pool plants; and

(e) Who provides proof satisfactory to the market administrator that the care and management of the dairy farm and other resources necessary for his own farm production of milk and the management and operation of the processing plant are the personal enterprise and risk of such person.

#### § 1126.11 (Reserved)

#### § 1126.12 Producer.

(a) Except as provided in paragraph (b) of this section, "producer" means any person who produces milk approved by a duly constituted regulatory agency for disposition in the marketing area as Grade A milk and whose milk is:

(1) Received at a pool plant directly from such person;

(2) Received by a handler described in § 1126.9(c); or

(3) Diverted from a pool plant in accordance with § 1126.13.

(b) "Producer" shall not include:

(1) A producer-handler as defined in any order (including this part) issued pursuant to the Act;

(2) A governmental agency that operates a plant exempt pursuant to § 1126.8(e);

(3) Any person with respect to milk produced by him that is diverted to a pool plant from an other order plant if the other order designates such person as a producer under that order and such milk is allocated to Class II or Class III utilization pursuant to § 1126.44(a)(8)(iii) and the corresponding step of § 1126.44(b);

(4) Any person with respect to milk produced by him that is reported as diverted to an other order plant if any portion of such person's milk so moved is assigned to Class I under the provisions of such other order; or

(5) Any person with respect to milk produced by him during the months of February through July that is caused to be delivered to a pool plant by a cooperative association or a pool plant operator if during the immediately preceding period of September through November milk from the same farm was caused by such cooperative association or pool plant operator to be delivered to plants as other than producer milk (except milk that is not producer milk as a result of a temporary loss of Grade A approval or the application of § 1126.13(e)(4) and (5)), unless such pool plant was a nonpool plant during any of such immediately preceding months: *Provided*, That from the effective date of this merged order through July 1975 the month immediately preceding such ef-

fective date shall be used rather than the months of September through November.

#### § 1126.13 Producer milk.

"Producer milk" means the skim milk and butterfat contained in milk of a producer that is:

(a) Received at a pool plant directly from such producer by the operator of the plant;

(b) Received by a handler described in § 1126.9(c);

(c) Picked up from the producer's farm tank in a tank truck owned and operated by, or under the control of, the operator of a pool plant but which is not received at a plant until the following month. Such milk shall be considered as having been received by the handler during the month in which it is picked up at the producer's farm and shall be priced at the location of the plant where it is physically received in the following month. This paragraph shall apply in like manner to milk received by the operator of a pool plant who, in accordance with § 1126.9(c), is the handler for such milk;

(d) Diverted from a pool plant described in § 1126.7(a) for the account of the handler operating such plant to a pool plant described in § 1126.7(b), (c), (d) or (e), except that milk diverted to a plant operated by a cooperative association may not be milk of the cooperative association's members. Milk so diverted shall be priced at the plant to which diverted; or

(e) Diverted from a pool plant described in § 1126.7(a), (b), (c), and (d) to a nonpool plant that is not a producer-handler plant for the account of the handler operating such pool plant or a handler described in § 1126.9(b), subject to the following conditions:

(1) Milk of a dairy farmer shall not be eligible for diversion during any month unless milk of such dairy farmer was physically received as producer milk at a pool plant under this order or the Austin-Waco, Central West Texas, Corpus Christi, North Texas, San Antonio, or South Texas orders and the dairy farmer has continuously retained producer status under any of such orders since that time. If a dairy farmer loses his producer status under this order (except as a result of a temporary loss of Grade A approval), his milk shall not be eligible for diversion until milk of such dairy farmer has been physically received as producer milk at a pool plant;

(2) The total quantity of milk so diverted during the month by a cooperative association shall not exceed one-third of the producer milk that the cooperative association causes to be delivered during the month to pool plants described in § 1126.7(a), (b), (c), and (d) and that is physically received thereat;

(3) The operator of a pool plant that is not a cooperative association may divert any milk that is not under the control of a cooperative association that diverts milk during the month pursuant to paragraph (e)(2) of this section. The total quantity of milk so diverted during the month shall not exceed one-third

of the producer milk physically received at such pool plant during the month that is eligible to be diverted by the plant operator;

(4) Any milk diverted in excess of the limits prescribed in paragraph (e)(2) and (3) of this section shall not be producer milk. If the diverting handler fails to designate the dairy farmers' deliveries that are not to be producer milk, no milk diverted by the handler during the month to a nonpool plant shall be producer milk;

(5) The quantity of milk diverted for the account of a cooperative association from a pool plant of another handler that would cause the pool plant to become a nonpool plant shall not be producer milk; and

(6) Diverted milk shall be priced at the location of the plant to which diverted.

#### § 1126.14 Other source milk.

"Other source milk" means all skim milk and butterfat contained in or represented by:

(a) Receipts of fluid milk products and bulk products specified in § 1126.40(b)(1) from any source other than producers, handlers described in § 1126.9(c), or pool plants;

(b) Receipts in packaged form from other plants of products specified in § 1126.40(b)(1);

(c) Products (other than fluid milk products, products specified in § 1126.40(b)(1), and products produced at the plant during the same month) from any source which are reprocessed, converted into, or combined with another product in the plant during the month; and

(d) Receipts of any milk product (other than a fluid milk product or a product specified in § 1126.40(b)(1)) for which the handler fails to establish a disposition.

#### § 1126.15 Fluid milk product.

(a) Except as provided in paragraph (b) of this section, "fluid milk product" means any of the following products in fluid or frozen form:

(1) Milk, skim milk, lowfat milk, milk drinks, buttermilk, filled milk, and milkshake and ice milk mixes containing less than 20 percent total solids, including any such products that are flavored, cultured, modified with added nonfat milk solids, concentrated (if in a consumer-type package), or reconstituted; and

(2) Any milk product not specified in paragraph (a)(1) of this section or in § 1126.40 (b) or (c)(1) (i) through (viii) if it contains by weight at least 80 percent water and 6.5 percent nonfat milk solids and less than 9 percent butterfat and 20 percent total solids.

(b) The term "fluid milk product" shall not include:

(1) Evaporated or condensed milk (plain or sweetened), evaporated or condensed skim milk (plain or sweetened), formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers, any product that contains by weight less than 6.5 percent nonfat milk solids, and whey; and

(2) The quantity of skim milk in any modified product specified in paragraph (a) of this section that is in excess of the quantity of skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

#### § 1126.16 Fluid cream product.

"Fluid cream product" means cream (other than plastic cream or frozen cream), sour cream, or a mixture (including a cultured mixture) of cream and milk or skim milk containing 9 percent or more butterfat, with or without the addition of other ingredients.

#### § 1126.17 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted, or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers, or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

#### § 1126.18 Cooperative association.

"Cooperative association" means any cooperative marketing association of producers which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales or marketing milk or its products for its members.

#### § 1126.19 Current marketing period.

For the purpose of terminating this order under § 608c(16)(B) of the Act, the term "current marketing period" shall mean the first month following the date on which the Secretary publicly announces his finding that the termination of the order is favored by such majority of producers under the order as is prescribed by the Act.

#### HANDLER REPORTS

#### § 1126.30 Reports of receipts and utilization.

On or before the 7th day after the end of each month, each handler shall report for such month to the market administrator, in the detail and on the forms prescribed by the market administrator, as follows:

(a) Each handler, with respect to each of his pool plants, shall report the quantities of skim milk and butterfat contained in or represented by:

(1) Receipts of producer milk, including producer milk diverted by the handler from the pool plant to other plants;

(2) Receipts of milk from handlers described in § 1126.9(c);

(3) Receipts of fluid milk products and bulk fluid cream products from other pool plants;

(4) Receipts of other source milk;

(5) Inventories at the beginning and end of the month of fluid milk products

and products specified in § 1126.40(b) (1); and

(6) The utilization or disposition of all milk, filled milk, and milk products required to be reported pursuant to this paragraph.

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. Such report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in § 1126.9 (b) and (c) shall report:

(1) The quantities of all skim milk and butterfat contained in receipts of producer milk; and

(2) The utilization or disposition of such receipts.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report with respect to his receipts and utilization of milk, filled milk, and milk products in such manner as the market administrator may prescribe.

#### § 1126.31 Payroll reports.

(a) On or before the 20th day after the end of each month, each handler who elects pursuant to § 1126.73(d) to pay producers shall report to the market administrator the following information with respect to the handler's partial and final payments for producer milk received during such month:

(1) The name and address of each producer;

(2) The amounts paid each producer; and

(3) The dates such payments were made.

(b) On or before the 20th day after the end of the month, each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1126.76(b) shall report to the market administrator with respect to milk received from each dairy farmer who would have been a producer if the plant had been fully regulated the following information for such month:

(1) The name and address of each dairy farmer;

(2) The total pounds of milk received from each dairy farmer;

(3) The average butterfat content of such milk;

(4) The amount and nature of any deductions, as authorized in writing by the dairy farmer, from the payment for such milk; and

(5) The rate of payment per hundred-weight and the net amount paid each dairy farmer.

#### § 1126.32 Other reports.

(a) On or before the 24th day of each month, each handler described in § 1126.9 (a), (b), and (c), except a cooperative association with respect to producer milk for which it elects to collect payments, shall report to the market administrator the following information

with respect to its receipts of milk during the first 18 days of the month:

(1) The name and address of each producer from whom milk was received;

(2) The total pounds of producer milk received from such producer;

(3) The amount and nature of any deductions, as authorized in writing by the producer, to be made from the partial payment for such milk;

(4) The total pounds of milk received from a handler described in § 1126.9(c); and

(5) The pounds of skim milk and butterfat in bulk fluid milk products received from a pool plant operated by a cooperative association.

(b) On or before the 6th day after the end of each month, each handler described in § 1126.9 (a), (b), and (c) shall report to the market administrator the following information with respect to its receipts of milk during such month:

(1) The name and address of each producer from whom milk was received;

(2) The total pounds of producer milk received from such producer and its average butterfat content;

(3) Except in the case of producer milk for which a cooperative association is collecting payments, the amount and nature of any deductions, as authorized in writing by the producer, to be made from the final payment for such milk;

(4) The total pounds of skim milk and butterfat received from a handler described in § 1126.9(c); and

(5) The pounds of skim milk and butterfat in bulk fluid milk products received from a pool plant operated by a cooperative association.

(c) On or before the second day prior to the reporting dates specified in paragraphs (a) and (b) of this section, each cooperative association that operates a pool plant from which bulk fluid milk products were transferred to pool plants of other handlers within the time periods described in paragraphs (a) and (b) of this section shall report to each such pool plant operator the name and location of the transferor-plant and the total pounds and butterfat content of the bulk fluid milk products transferred from the plant.

(d) In addition to the reports required pursuant to paragraphs (a) through (c) of this section and §§ 1126.30 and 1126.31, each handler shall report such other information as the market administrator deems necessary to verify or establish such handler's obligation under the order.

#### CLASSIFICATION OF MILK

##### § 1126.40 Classes of utilization.

Except as provided in § 1126.42, all skim milk and butterfat required to be reported by a handler pursuant to § 1126.30 shall be classified as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product, except as otherwise provided in paragraphs (b) and (c) of this section; and

(2) Not specifically accounted for as Class II or Class III milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid cream product, eggnog, yogurt, and any product containing 6 percent or more nonmilk fat (or oil) that resembles a fluid cream product, eggnog, or yogurt, except as otherwise provided in paragraph (c) of this section;

(2) In packaged inventory at the end of the month of the products specified in paragraph (b) (1) of this section;

(3) In bulk fluid milk products and bulk fluid cream products disposed of to any commercial food processing establishment (other than a milk or filled milk plant) at which food products (other than milk products and filled milk) are processed and from which there is no disposition of fluid milk products or fluid cream products other than those received in consumer-type packages; and

(4) Used to produce:

(i) Cottage cheese, lowfat cottage cheese, and dry curd cottage cheese;

(ii) Milkshake and ice milk mixes (or bases) containing 20 percent or more total solids, frozen desserts, and frozen dessert mixes;

(iii) Any concentrated milk product in bulk, fluid form other than that specified in paragraph (c) (1) (iv) of this section;

(iv) Plastic cream, frozen cream, and anhydrous milkfat;

(v) Custards, puddings, and pancake mixes; and

(vi) Formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat:

(1) Used to produce:

(i) Cheese (other than cottage cheese, lowfat cottage cheese, and dry curd cottage cheese);

(ii) Butter;

(iii) Any milk product in dry form;

(iv) Any concentrated milk product in bulk, fluid form that is used to produce a Class III product;

(v) Evaporated or condensed milk (plain or sweetened) in a consumer-type package and evaporated or condensed skim milk (plain or sweetened) in a consumer-type package; and

(vi) Any product not otherwise specified in this section;

(2) In inventory at the end of the month of fluid milk products in bulk or packaged form and products specified in paragraph (b) (1) of this section in bulk form;

(3) In fluid milk products and products specified in paragraph (b) (1) of this section that are disposed of by a handler for animal feed;

(4) In fluid milk products and products specified in paragraph (b) (1) of this section that are dumped by a handler if the market administrator is notified of such dumping in advance and is given the opportunity to verify such disposition;

(5) In skim milk in any modified fluid milk product that is in excess of the quantity of skim milk in such product that was included within the fluid milk product definition pursuant to § 1126.15, plus the fluid equivalent of loss of nonfat

milk solids occurring in the process of modification in any case where determination of the quantity of added nonfat milk solids disposed of in such products is based upon laboratory analysis by the market administrator, such loss allowable pursuant to this subparagraph not to exceed 2 percent of the fluid equivalent of the quantity of added nonfat milk solids so determined to be added; and

(6) In shrinkage assigned pursuant to § 1126.41(a) to the receipts specified in § 1126.41(a) (2) and in shrinkage specified in § 1126.41(b) and (c).

§ 1126.41 Shrinkage.

For purposes of classifying all skim milk and butterfat to be reported by a handler pursuant to § 1126.30, the market administrator shall determine the following:

(a) The pro rata assignment of shrinkage of skim milk and butterfat, respectively, at each pool plant to the respective quantities of skim milk and butterfat:

(1) In the receipts specified in paragraph (b) (1) through (6) of this section on which shrinkage is allowed pursuant to such paragraph; and

(2) In other source milk not specified in paragraph (b) (1) through (6) of this section which was received in the form of a bulk fluid milk product or a bulk fluid cream product;

(b) The shrinkage of skim milk and butterfat, respectively, assigned pursuant to paragraph (a) of this section to the receipts specified in paragraph (a) (1) of this section that is not in excess of:

(1) Two percent of the skim milk and butterfat, respectively, in producer milk (excluding milk diverted by the plant operator to another plant);

(2) Plus 1.5 percent of the skim milk and butterfat, respectively, in milk received from a handler described in § 1126.9(c) and in milk diverted to such plant from another pool plant, except that, in either case, if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be 2 percent;

(3) Plus 0.5 percent of the skim milk and butterfat, respectively, in producer milk diverted from such plant by the plant operator to another plant, except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be 2 percent;

(4) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other pool plants;

(5) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other order plants, excluding the quantity for which Class II or Class III classification is requested by the operators of both plants;

(6) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received from unregulated supply plants, excluding the quantity for which Class II or Class III classification is requested by the handler; and

(7) Less 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products transferred to other plants that is not in excess of the respective amounts of skim milk and butterfat to which percentages are applied in paragraph (b) (1), (2), (4), (5), and (6) of this section; and

(c) The quantity of skim milk and butterfat, respectively, in shrinkage of milk from producers for which a cooperative association is the handler pursuant to § 1126.9 (b) or (c), but not in excess of 0.5 percent of the skim milk and butterfat, respectively, in such milk. If the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this paragraph for the cooperative association shall be zero.

§ 1126.42 Classification of transfers and diversions.

(a) *Transfers and diversions to pool plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to another pool plant shall be classified as Class I milk unless both handlers request the same classification in another class. In either case, the classification of such transfers or diversions shall be subject to the following conditions:

(1) The skim milk or butterfat classified in each class shall be limited to the amount of skim milk and butterfat, respectively, remaining in such class at the transferor-plant or divortee-plant after the computations pursuant to § 1126.44 (a) (12) and the corresponding step of § 1126.44(b);

(2) If the transferor-plant or divortee-plant received during the month other source milk to be allocated pursuant to § 1126.44(a) (7) or the corresponding step of § 1126.44(b), the skim milk or butterfat so transferred or diverted shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferor-handler or divortee-handler received during the month other source milk to be allocated pursuant to § 1126.44(a) (11) or (12) or the corresponding steps of § 1126.44(b), the skim milk or butterfat so transferred or diverted, up to the total of the skim milk and butterfat, respectively, in such receipts of other source milk, shall not be classified as Class I milk to a greater extent than would be the case if the other source milk had been received at the transferor-plant or divortee-plant.

(b) *Transfers and diversions to other order plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream

product from a pool plant to an other order plant shall be classified in the following manner. Such classification shall apply only to the skim milk or butterfat that is in excess of any receipts at the pool plant from the other order plant of skim milk and butterfat, respectively, in fluid milk products and bulk fluid cream products, respectively, that are in the same category as described in paragraph (b) (1), (2), or (3) of this section:

(1) If transferred as packaged fluid milk products, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set forth in paragraph (b) (3) of this section);

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II or Class III milk to the extent of such utilization available for such classification pursuant to the allocation provisions of the other order;

(4) If information concerning the classes to which such transfers or diversions were allocated under the other order is not available to the market administrator for the purpose of establishing classification under this paragraph, classification shall be as Class I, subject to adjustment when such information is available;

(5) For purposes of this paragraph, if the other order provides for a different number of classes of utilization than is provided for under this part, skim milk or butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk or butterfat allocated to the other classes shall be classified as Class III milk; and

(6) If the form in which any fluid milk product that is transferred to an other order plant is not defined as a fluid milk product under such other order, classification under this paragraph shall be in accordance with the provisions of § 1126.40.

(c) *Transfers to producer-handlers and transfers and diversions to governmental agency plants.* Skim milk or butterfat transferred in the following forms from a pool plant to a producer-handler under this or any other Federal order or transferred or diverted from a pool plant to a governmental agency plant shall be classified:

(1) As Class I milk, if so moved in the form of a fluid milk product; and

(2) In accordance with the utilization assigned to it by the market administrator, if transferred in the form of a bulk fluid cream product. For this purpose, the transferee's utilization of skim milk and butterfat in each class, in series beginning with Class III, shall be assigned to the extent possible to its receipts of skim milk and butterfat, respectively, in bulk fluid cream products, pro rata to each source.

(d) *Transfers and diversions to other nonpool plants.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a nonpool plant that is not an other order plant, a producer-handler plant, or a governmental agency plant shall be classified:

(1) As Class I milk, if transferred in the form of a packaged fluid milk product; and

(2) As Class I milk, if transferred or diverted in the form of a bulk fluid milk product or a bulk fluid cream product, unless the following conditions apply:

(i) If the conditions described in paragraph (d)(2)(i) (a) and (b) of this section are met, transfers or diversions in bulk form shall be classified on the basis of the assignment of the nonpool plant's utilization to its receipts as set forth in paragraph (d)(2)(ii) through (viii) of this section:

(a) The transferor-handler or diverter-handler claims such classification in his report of receipts and utilization filed pursuant to § 1126.30 for the month within which such transaction occurred; and

(b) The nonpool plant operator maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available for verification purposes if requested by the market administrator;

(ii) Route disposition in the marketing area of each Federal milk order from the nonpool plant and transfers of packaged fluid milk products from such nonpool plant to plants fully regulated thereunder shall be assigned to the extent possible in the following sequence:

(a) Pro rata to receipts of packaged fluid milk products at such nonpool plant from pool plants;

(b) Pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from other order plants;

(c) Pro rata to receipts of bulk fluid milk products at such nonpool plant from pool plants; and

(d) Pro rata to any remaining unassigned receipts of bulk fluid milk products at such nonpool plant from other order plants;

(iii) Any remaining Class I disposition of packaged fluid milk products from the nonpool plant shall be assigned to the extent possible pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from pool plants and other order plants;

(iv) Transfers of bulk fluid milk products from the nonpool plant to a plant fully regulated under any Federal milk order, to the extent that such transfers to the regulated plant exceed receipts of fluid milk products from such plant and are allocated to Class I at the transferee-plant, shall be assigned to the extent possible in the following sequence:

(a) Pro rata to receipts of fluid milk products at such nonpool plant from pool plants; and

(b) Pro rata to any remaining unassigned receipts of fluid milk products at such nonpool plant from other order plants;

(v) Any remaining unassigned Class I disposition from the nonpool plant shall be assigned to the extent possible in the following sequence:

(a) To such nonpool plant's receipts from dairy farmers who the market administrator determines constitute regular sources of Grade A milk for such nonpool plant; and

(b) To such nonpool plant's receipts of Grade A milk from plants not fully regulated under any Federal milk order which the market administrator determines constitute regular sources of Grade A milk for such nonpool plant;

(vi) Any remaining unassigned receipts of bulk fluid milk products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class I utilization, then to Class III utilization, and then to Class II utilization at such nonpool plant;

(vii) Receipts of bulk fluid cream products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class III utilization, then to any remaining Class II utilization, and then to Class I utilization at such nonpool plant; and

(viii) In determining the nonpool plant's utilization for purposes of this subparagraph, any fluid milk products and bulk fluid cream products transferred from such nonpool plant to a plant not fully regulated under any Federal milk order shall be classified on the basis of the second plant's utilization using the same assignment priorities at the second plant that are set forth in this subparagraph.

(e) *Transfers by a handler described in § 1126.9(c) to pool plants.* Skim milk and butterfat transferred in the form of bulk milk by a handler described in § 1126.9(c) to another handler's pool plant shall be classified pursuant to § 1126.44 pro rata with producer milk received at the transferee-handler's plant.

#### § 1126.43 General classification rules.

In determining the classification of producer milk, the following rules shall apply:

(a) Each month the market administrator shall correct for mathematical and other obvious errors all reports filed pursuant to § 1126.30 and shall compute separately for each pool plant, and for each cooperative association with respect to milk for which it is the handler pursuant to § 1126.9(b) or (c) that was not received at a pool plant, the pounds of skim milk and butterfat, respectively, in each class in accordance with §§ 1126.40, 1126.41, and 1126.42. The combined pounds of skim milk and butterfat so determined in each class for a handler described in § 1126.9(b) or (c) shall be such handler's classification of producer milk;

(b) If any of the water contained in the milk from which a product is made is removed before the product is utilized

or disposed of by a handler, the pounds of skim milk in such product that are to be considered under this part as used or disposed of by the handler shall be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids; and

(c) The classification of producer milk for which a cooperative association is the handler pursuant to § 1126.9(b) or (c) shall be determined separately from the operations of any pool plant operated by such cooperative association.

#### § 1126.44 Classification of producer milk.

For each month the market administrator shall determine for each handler described in § 1126.9(a) for each of his pool plants separately the classification of producer milk and milk received from a handler described in § 1126.9(c), by allocating the handler's receipts of skim milk and butterfat to his utilization as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk in shrinkage specified in § 1126.41(b);

(2) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in fluid milk products received in packaged form from an other order plant, except that to be subtracted pursuant to paragraph (a)(7)(vi) of this section, as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract from the pounds of skim milk in Class II the pounds of skim milk in products specified in § 1126.40(b)(1) that were received in packaged form from other plants, but not in excess of the pounds of skim milk remaining in Class II;

(5) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in products specified in § 1126.40(b)(1) that were in inventory at the beginning of the month in packaged form, but not in excess of the pounds of skim milk remaining in Class II. This subparagraph shall apply only if the pool plant was subject to the provisions of this subparagraph or comparable provisions of another Federal milk order in the immediately preceding month;

(6) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk (except that received in the form of a

fluid milk product or a fluid cream product) that is used to produce, or added to, any product specified in § 1126.40(b), but not in excess of the pounds of skim milk remaining in Class II;

(7) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk (except that received in the form of a fluid milk product) and, if paragraph (a)(5) of this section applies, packaged inventory at the beginning of the month of products specified in § 1126.40(b)(1) that was not subtracted pursuant to paragraph (a)(4), (5), and (6) of this section;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established;

(iii) Receipts of fluid milk products from unidentified sources;

(iv) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal milk order and from a governmental agency plant;

(v) Receipts of reconstituted skim milk in filled milk from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) of this section;

(vi) Receipts of reconstituted skim milk in filled milk from an other order plant that is regulated under any Federal milk order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor-plant; and

(vii) Receipts of fluid milk products from a person described in § 1126.12(b)(5);

(8) Subtract in the order specified below from the pounds of skim milk remaining in Class II and Class III, in sequence beginning with Class III:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) and (7)(v) of this section for which the handler requests a classification other than Class I, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(ii) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) of this section which are in excess of the pounds of skim milk determined pursuant to paragraph (a)(8)(ii) (a) through (c) of this section. Should the pounds of skim milk to be subtracted from Class II and Class III combined exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in

Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount;

(a) Multiply by 1.25 the sum of the pounds of skim milk remaining in Class I at this allocation step at all pool plants of the handler (excluding any duplication of Class I utilization resulting from reported Class I transfers between pool plants of the handler);

(b) Subtract from the above result the sum of the pounds of skim milk in receipts at all pool plants of the handler of producer milk, milk from a handler described in § 1126.9(c), fluid milk products from pool plants of other handlers, and bulk fluid milk products from other order plants that were not subtracted pursuant to paragraph (a)(7)(vi) of this section; and

(c) Multiply any plus quantity resulting above by the percentage that the receipts of skim milk in fluid milk products from unregulated supply plants that remain at this pool plant is of all such receipts remaining at this allocation step at all pool plants of the handler; and

(iii) The pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) of this section, if Class II or Class III classification is requested by the operator of the other order plant and the handler, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(9) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in fluid milk products and products specified in § 1126.40(b)(1) in inventory at the beginning of the month that were not subtracted pursuant to paragraph (a)(5) and (7)(i) of this section;

(10) Add to the remaining pounds of skim milk in Class III the pounds of skim milk subtracted pursuant to paragraph (a)(1) of this section;

(11) Subject to the provisions of paragraph (a)(11)(i) and (ii) of this section, subtract from the pounds of skim milk remaining in each class at the plant, pro rata to the total pounds of skim milk remaining in Class I and in Class II and Class III combined at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler), with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, the pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) and (ii) of this section and that were not offset by transfers or diversions of fluid milk products to the same unregulated supply plant from which

fluid milk products to be allocated at this step were received:

(i) Should the pounds of skim milk to be subtracted from Class II and Class III combined pursuant to this subparagraph exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(ii) Should the pounds of skim milk to be subtracted from Class I pursuant to this subparagraph exceed the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount, beginning with the nearest plant at which Class I utilization is available;

(12) Subtract in the manner specified below from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) and (8)(iii) of this section:

(i) Subject to the provisions of paragraph (a)(12)(ii), (iii), and (iv) of this section, such subtraction shall be pro rata to the pounds of skim milk in Class I and in Class II and Class III combined, with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, with respect to whichever of the following quantities represents the lower proportion of Class I milk:

(a) The estimated utilization of skim milk of all handlers in each class as announced for the month pursuant to § 1126.45(a); or

(b) The total pounds of skim milk remaining in each class at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler);

(ii) Should the proration pursuant to paragraph (a)(12)(i) of this section result in the total pounds of skim milk at all pool plants of the handler that are to be subtracted at this allocation step from Class II and Class III combined exceeding the pounds of skim milk re-

## RULES AND REGULATIONS

maining in Class II and Class III at all such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which such other source milk was received;

(ii) Except as provided in paragraph (a) (12) (i) of this section, should the computations pursuant to paragraph (a) (12) (i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class II and Class III combined that exceeds the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II) to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(iv) Except as provided in paragraph (a) (12) (i) of this section, should the computations pursuant to paragraph (a) (12) (i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class I that exceeds the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount beginning with the nearest plant at which Class I utilization is available;

(13) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products and bulk fluid cream products from another pool plant according to the classification of such products pursuant to § 1126.42(a); and

(14) If the total pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk and milk received from a handler described in § 1126.9(c), subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) The quantity of producer milk and milk received from a handler described in § 1126.9(c) in each class shall be the combined pounds of skim milk and butterfat remaining in each class after the computations pursuant to paragraph (a) (14)

of this section and the corresponding step of paragraph (b) of this section.

#### § 1126.45 Market administrator's reports and announcements concerning classification.

The market administrator shall make the following reports and announcements concerning classification:

(a) Whenever required for the purpose of allocating receipts from other order plants pursuant to § 1126.44 (a) (12) and the corresponding step of § 1126.44(b), estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose.

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the class to which such receipts are allocated pursuant to § 1126.44 on the basis of such report, and, thereafter, any change in such allocation required to correct errors disclosed in the verification of such report.

(c) Furnish to each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to an other order plant the class to which such shipments were allocated by the market administrator of the other order on the basis of the report by the receiving handler, and, as necessary, any changes in such allocation arising from the verification of such report.

(d) On or before the 14th day after the end of each month, report to each cooperative association which so requests the amount and class utilization of milk received by each handler from producers who are members of such cooperative association. For the purpose of this report the milk so received shall be prorated to each class in the proportion that the total receipts of milk from producers by such handler were used in each class.

#### CLASS PRICES

##### § 1126.50 Class prices.

Subject to the provisions of § 1126.52, the class prices for the month per hundredweight of milk shall be as follows:

(a) *Class I price.* The Class I price shall be the basic formula price for the second preceding month plus \$2.32.

(b) *Class II price.* The Class II price shall be the basic formula price for the month plus 10 cents.

(c) *Class III price.* The Class III price shall be the basic formula price for the month.

##### § 1126.51 Basic formula price.

The "basic formula price" shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as reported by the Department for the month, adjusted to a 3.5 percent butterfat basis and rounded to the nearest cent. For such

adjustment, the butterfat differential (rounded to the nearest one-tenth cent) per one-tenth percent butterfat shall be 0.12 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month. For the purpose of computing the Class I price, the resulting price shall be not less than \$4.33.

##### § 1126.52 Plant location adjustments for handlers.

(a) For milk received at a plant from producers or a handler described in § 1126.9(c) and which is classified as Class I milk without movement in bulk form to a pool distributing plant at which a higher Class I price applies, the price specified in § 1126.50(a) shall be adjusted by the amount stated in paragraph (a) (1) through (7) of this section for the location of such plant:

(1) For a plant located within one of the zones set forth in § 1126.2, the adjustment shall be as follows:

	Adjustment per hundredweight
Zone 1.....	No adjustment.
Zone 2.....	Plus 6 cents.
Zone 3.....	Plus 15 cents.
Zone 4.....	Plus 18 cents.
Zone 5.....	Plus 20 cents.
Zone 6.....	Plus 25 cents.
Zone 7.....	Plus 30 cents.
Zone 8.....	Plus 36 cents.
Zone 9.....	Plus 42 cents.
Zone 10.....	Plus 53 cents.
Zone 11.....	Plus 66 cents.
Zone 12.....	Plus 75 cents.

(2) For a plant located in any of the following Texas counties, the adjustment shall be as follows:

Plus 10 cents.	
Bailey.	Hale.
Castro.	Hockley.
Cochran.	Lamb.
Cottle.	Lubbock.
Crosby.	Lynn.
Dickens.	Motley.
Floyd.	Parmer.
Gaines.	Terry.
Garza.	Yoakum.

(ii) Minus 7 cents.

Armstrong.	Hemphill.
Briscoe.	Hutchinson.
Carson.	Lipscomb.
Childress.	Moore.
Collingsworth.	Ochiltree.
Dallam.	Oldham.
Deaf Smith.	Potter.
Donley.	Randall.
Gray.	Roberts.
Hall.	Sherman.
Hansford.	Swisher.
Hartley.	Wheeler.

(iii) Minus 12 cents.

Archer.	Montague.
Baylor.	Wichita.
Clay.	Wilbarger.
Hardeman.	

(3) For a plant located in any of the following Oklahoma counties, the adjustment shall be as follows:

(i) Minus 24 cents.

Comanche.	Stephens.
Cotton.	Tillman.
Jefferson.	

(ii) Minus 27 cents.

Carter.	Marshall.
Love.	

(iii) Minus 28 cents.

Beckham.	Harmon.
Greer.	Jackson.

(iv) Minus 34 cents.

Caddo.	McClain.
Canadian.	Murray.
Cleveland.	Oklahoma.
Garvin.	Pontotoc.
Grady.	Pottawatomie.
Johnston.	Seminole.
Kiowa.	Washita.

(v) Minus 44 cents.

Alfalfa.	Mayes.
Beaver.	Noble.
Blaine.	Nowata.
Cimarron.	Okfuskee.
Craig.	Okmulgee.
Creek.	Osage.
Custer.	Ottawa.
Delaware.	Payne.
Dewey.	Pawnee.
Ellis.	Roger Mills.
Garfield.	Rogers.
Grant.	Texas.
Harper.	Tulsa.
Kay.	Wagoner.
Kingsfisher.	Washington.
Lincoln.	Woods.
Logan.	Woodward.
Major.	

(4) For a plant located in Bowie or Cass County, Texas, or in Little River or Miller County, Arkansas, the adjustment shall be minus 9 cents;

(5) For a plant located in the States of Louisiana or New Mexico or in El Paso County, Texas, no adjustment shall apply;

(6) For a plant located in the State of Texas but outside any area described in paragraph (a) (1) through (5) of this section, the adjustment shall be the adjustment applicable at Corpus Christi, Midland, San Angelo, or San Antonio, Texas, whichever city is nearest; and

(7) For a plant located outside the areas described in paragraph (a) (1) through (6) of this section, the adjustment shall be minus 1.5 cents per hundredweight for each 10 miles or fraction thereof that such plant is located from the Dallas, Texas, city hall, such distance to be based on the shortest hard-surfaced highway distance as determined by the market administrator.

(b) For fluid milk products transferred in bulk from a pool plant to a pool distributing plant at which a higher Class I price applies and which are classified as Class I milk, the Class I price shall be the Class I price applicable at the location of the transferee-plant subject to a location adjustment credit for the transferor-plant which shall be determined by the market administrator for skim milk and butterfat, respectively, as follows:

(1) Subtract from the pounds of skim milk remaining in Class I at the transferee-plant after the computations pursuant to § 1126.44(a) (12) an amount equal to:

(i) 95 percent of the pounds of skim milk in receipts of milk at the transferee-

## RULES AND REGULATIONS

plant from producers and handlers described in § 1126.9(c); and

(ii) The pounds of skim milk in receipts of packaged fluid milk products from other pool plants;

(2) Assign any remaining pounds of skim milk in Class I at the transferee-plant to the skim milk in receipts of bulk fluid milk products from other pool plants, first to the transferor-plants at which the highest Class I price applies and then to other plants in sequence beginning with the plant at which the next highest Class I price applies;

(3) Compute the total amount of location adjustment credits to be assigned to transferor-plants by multiplying the hundredweight of skim milk assigned pursuant to paragraph (b) (2) of this section to each transferor-plant at which the Class I price is lower than the Class I price at the transferee-plant by the difference in Class I prices applicable at the transferor-plant and transferee-plant, and add the resulting amounts;

(4) Assign the total amount of location adjustment credits computed pursuant to paragraph (b) (3) of this section to those transferor-plants that transferred fluid milk products containing skim milk classified as Class I milk pursuant to § 1126.42(a) and at which the applicable Class I price is less than the Class I price at the transferee-plant, in sequence beginning with the plant at which the highest Class I price applies. Subject to the availability of such credits, the credit assigned to each plant shall be equal to the hundredweight of such Class I skim milk multiplied by the applicable adjustment rate determined pursuant to paragraph (b) (3) of this section for such plant. If the aggregate of this computation for all plants having the same adjustment rate as determined pursuant to paragraph (b) (3) of this section exceeds the credits that are available to those plants, such credits shall be prorated to the volume of skim milk in Class I transfers from such plants; and

(5) Location adjustment credit for butterfat shall be determined in accordance with the procedure outlined for skim milk in paragraph (b) (1) through (4) of this section.

(c) The Class I price applicable to other source milk shall be adjusted by the amounts set forth in paragraph (a) of this section, except that the adjusted Class I price shall not be less than the Class III price.

##### § 1126.53 Announcement of class prices.

The market administrator shall announce publicly on or before the fifth day of each month the Class I price for the following month and the Class II and Class III prices for the preceding month.

##### § 1126.54 Equivalent price.

If for any reason a price or pricing constituent required by this part for computing class prices or for other purposes is not available as prescribed in this part, the market administrator shall use a price or pricing constituent determined by the Secretary to be equivalent to the

price or pricing constituent that is required.

#### UNIFORM PRICE

##### § 1126.60 Handler's value of milk for computing uniform price.

For the purpose of computing the uniform price, the market administrator shall determine for each month the value of milk of each handler with respect to each of his pool plants and of each handler described in § 1126.9 (b) and (c) with respect to milk that was not received at a pool plant as follows:

(a) Multiply the pounds of producer milk and milk received from a handler described in § 1126.9(c) that were classified in each class pursuant to § 1126.43 (a) and 1126.44(c) by the applicable class prices, and add the resulting amounts;

(b) Add the amounts obtained from multiplying the pounds of overage subtracted from each class pursuant to § 1126.44(a) (14) and the corresponding step of § 1126.44(b) by the respective class prices, as adjusted by the butterfat differential specified in § 1126.74, that are applicable at the location of the pool plant;

(c) Add the amount obtained from multiplying the difference between the Class III price for the preceding month and the Class I price applicable at the location of the pool plant or the Class II price, as the case may be, for the current month by the hundredweight of skim milk and butterfat subtracted from Class I and Class II pursuant to § 1126.44 (a) (9) and the corresponding step of § 1126.44(b);

(d) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1126.44(a) (7) (i) through (iv) and (vi) and the corresponding step of § 1126.44(b), excluding receipts of bulk fluid cream products from an other order plant;

(e) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the transferor-plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1126.44(a) (7) (v) and (vi) and the corresponding step of § 1126.44(b);

(f) Add the amount obtained from multiplying the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received by the pounds of skim milk and butterfat subtracted from Class I pursuant to § 1126.44(a) (11) and the corresponding step of § 1126.44(b), excluding such skim milk and butterfat in receipts of bulk fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any

## RULES AND REGULATIONS

the partially regulated distributing plant from pool plants and other order plants that are classified in the corresponding class pursuant to paragraph (b) (1) (i) of this section. Any such transfers remaining after the above allocation which are classified in Class I and for which a value is computed for the handler operating the partially regulated distributing plant pursuant to § 1126.60 shall be priced at the uniform price (or at the weighted average price if such is provided) of the respective order regulating the handling of milk at the transferee plant, with such uniform price adjusted to the location of the nonpool plant (but not to be less than the lowest class price of the respective order), except that transfers of reconstituted skim milk in filled milk shall be priced at the lowest class price of the respective order; and

(iii) If the operator of the partially regulated distributing plant so requests, the value of milk determined pursuant to § 1126.60 for such handler shall include, in lieu of the value of other source milk specified in § 1126.60(f) less the value of such other source milk specified in § 1126.71(b)(4), a value of milk determined pursuant to § 1126.60 for each nonpool plant that is not an order plant which serves as a supply plant for such partially regulated distributing plant by making shipments to the partially regulated distributing plant during the month equivalent to the requirements of § 1126.7(b) and the corresponding provisions of § 1126.7(d), subject to the following conditions:

(a) The operator of the partially regulated distributing plant submits with his reports filed pursuant to §§ 1126.30(b) and 1126.31(b) similar reports for each such nonpool supply plant;

(b) The operator of such nonpool supply plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for verification purposes; and

(c) The value of milk determined pursuant to § 1126.60 for such nonpool supply plant shall be determined in the same manner prescribed for computing the obligation of such partially regulated distributing plant; and

(2) From the partially regulated distributing plant's value of milk computed pursuant to paragraph (b) (1) of this section, subtract:

(i) The gross payments by the operator of such partially regulated distributing plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1126.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated;

(ii) If paragraph (b) (1) (iii) of this section applies, the gross payments by the operator of such nonpool supply plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1126.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated; and

(iii) The payments by the operator of the partially regulated distributing plant to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant and like payments by the operator of the nonpool supply plant if paragraph (b) (1) (iii) of this section applies.

## § 1126.77 Adjustment of accounts.

Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses adjustments to be made, for any reason, which result in monies due the market administrator from such handler, the market administrator shall promptly notify such handler of any such amount due, and payment thereof shall be made on or before the next day for making payment set forth in the provision under which such error occurred. Any monies found to be due a handler from the market administrator shall be paid promptly to such handler, except that the market administrator shall offset any monies due a handler against monies due from such handler.

## § 1126.78 Charges on overdue accounts.

Any unpaid obligation of a handler pursuant to §§ 1126.71, 1126.73(g), 1126.76, 1126.77, or 1126.85 shall be increased three-fourths of 1 percent per month beginning on the first day after the due date, and on each date of subsequent months following the day on which such type of obligation is normally due, subject to the following conditions:

(a) The amounts payable pursuant to this section shall be computed monthly on each unpaid obligation, which shall include any unpaid interest charges previously computed pursuant to this section; and

(b) For the purpose of this section, any obligation that was determined at a date later than that prescribed by the order because of a handler's failure to submit a report to the market administrator when due shall be considered to have been payable by the date it would have been due if the report had been filed when due.

## ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

## § 1126.85 Assessment for order administration.

As his pro rata share of the expense of administration of the order, each handler shall pay to the market administrator on or before the 16th day after the end of the month 4 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to:

(a) Receipts of producer milk (including such handler's own production) other than such receipts by a handler described in § 1126.9(c) that were delivered to pool plants of other handlers or held in inventory at the end of the month;

(b) Receipts from a handler described in § 1126.9(c);

(c) Other source milk allocated to Class I pursuant to § 1126.44(a) (7) and (11) and the corresponding steps of § 1126.44(b), except such other source

milk that is excluded from the computations pursuant to § 1126.60 (d) and (f); and

(d) Route disposition from a partially regulated distributing plant in the marketing area that exceeds the skim milk and butterfat specified in § 1126.76 (a) (2).

## § 1126.86 Deduction for marketing services.

(a) Except as set forth in paragraph (b) of this section, the market administrator, in making payments to producers pursuant to § 1126.73, shall deduct 5 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to the milk of such producer (except a handler's own farm production) for whom the marketing services set forth in this paragraph are not being performed by a cooperative association as determined by the Secretary. The monies shall be used by the market administrator to verify or establish weights, samples, and tests of producer milk and to provide producers with market information. The services shall be performed by the market administrator or an agent engaged by and responsible to him.

(b) In the case of producers for whom a cooperative association is actually performing the services set forth in paragraph (a) of this section, the market administrator shall make, in lieu of the deduction specified in paragraph (a) of this section, such deductions from the payments to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers and on or before the 18th day after the end of each month shall pay such deductions to the cooperative association rendering such services, accompanied by a statement showing the quantity of milk for which a deduction was computed for each such producer.

## ADVERTISING AND PROMOTION PROGRAM

## § 1126.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1126.121(b) (1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

## § 1126.111 Composition of Agency.

Subject to the conditions of paragraph (a) of this section, each cooperative association or combination of cooperative associations, as provided for under § 1126.113(b), is authorized one Agency representative for each full 5 percent of

the participating member producers it represents. Cooperative associations with less than 5 percent of the total participating producers which have elected not to combine pursuant to § 1126.113(b), and participating producers who are not members of cooperatives, are authorized to select from such group, in total, one Agency representative for each full 5 percent that such producers constitute of the total participating producers. If such group of producers in total constitutes less than 5 percent, it shall nevertheless be authorized to select from such group in total one Agency representative. For the purpose of determining the Agency's composition, all producers who have not requested refunds for the most recent calendar quarter under any order shall be considered as participating producers.

(a) If any cooperative association or combination of cooperative associations, as provided for under § 1126.113(b), has a majority of the participating producers, representation from such cooperative or group of cooperatives, as the case may be, shall be limited to the minimum number of representatives necessary to constitute a majority of the Agency representatives.

## § 1126.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

## § 1126.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1126.111 and paragraph (a) of this section.

(c) Selection of Agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required five (5) percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

## RULES AND REGULATIONS

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more Agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for Agency membership and shall conduct a referendum among the individual producers eligible to vote. The election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

## § 1126.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum and any action of the Agency shall require a majority of concurring votes of those present and voting.

## § 1126.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions within the scope of Agency authority pursuant to § 1126.110,

(b) Make rules and regulations to effectuate the purposes of Public Law 91-670;

(c) Recommend amendments to the Secretary; and

(d) With approval of the Secretary enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1126.110 and 1126.117.

## § 1126.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1126.110 and 1126.117;

(c) Keep minutes, books, and records and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

## § 1126.117 Advertising, Research, Education, and Promotion Program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

## § 1126.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1126.121(b) (1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

## § 1126.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

## § 1126.120 Procedure for requesting refunds.

Any producer may apply for refund under the procedure set forth under paragraphs (a) through (c) of this section.

(a) Refund shall be accomplished only through application filed with the market administrator in the form prescribed by the market administrator and signed by the producer. Only that information

V40-105 MAY 30 75

necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the start of the next refund notification period as specified in paragraph (b) of this section, may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such period and including the remainder of the calendar quarter involved.

#### § 1126.121 Duties of the market administrator.

Except as specified in § 1126.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program, including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1126.113(c).

(b) Set aside the amounts subtracted under § 1126.61(d) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to paragraph (b) (2) and (3) of this section, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1126.61(d).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1126.120. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1126.61(d) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to paragraph (b) (2) of this section.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1126.110 through 1126.123).

(d) Make necessary audits to establish that all Agency funds are used only for authorized purposes.

#### § 1126.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1126.70.

#### § 1126.123 Initial operating procedures under merger of orders.

Notwithstanding the provisions of §§ 1126.110 through 1126.122, the following procedures shall apply during the initial operation of the advertising and promotion program under this order amending and merging the Austin-Waco, Central West Texas, Corpus Christi, North Texas, San Antonio, and South Texas orders:

(a) During the first month in which this merged order is effective, the Agencies previously established under the advertising and promotion programs of the six above-listed orders shall continue to function as separate Agencies under this merged order. Such individual Agencies shall operate in accordance with the provisions of §§ 1126.110 through 1126.122, but subject to the following conditions:

(1) The composition of the Agencies as constituted under the six respective orders shall remain unchanged. Members serving on the respective Agencies immediately prior to the effective date of this amending order shall continue to serve on such Agencies except for any replacement of members in accordance with § 1126.113 (a) and (c) (2);

(2) The activities of the Agencies shall be limited to those programs set forth in § 1126.110 for which budgets have been approved by the Secretary and for which financial commitments were made prior to the effective date of this amending order; and

(3) The term of office of each member of each Agency shall expire at the end of the first month in which this merged order is effective;

(b) Within 30 days after the effective date of this amending order, a new single Agency shall be formed in accordance with §§ 1126.111 and 1126.113. Such Agency shall first become operative at the beginning of the second month in which this merged order is effective and at that time shall assume all advertising and promotion funds and obligations of the six individual Agencies provided for in paragraph (a) of this section;

(c) During the first month in which this merged order is effective, the monies set aside by the market administrator for advertising and promotion from proceeds of producer milk pooled in the preceding month under each of the six above-listed orders shall be disbursed to the respective Agencies provided for in paragraph (a) of this section;

(d) In making refunds of advertising and promotion assessments pursuant to

§ 1126.121(b) (3), the market administrator shall honor all valid refund requests filed under the advertising and promotion programs of the six above-listed orders;

(e) Any dairy farmer who filed a valid request for refund of advertising and promotion assessments under any of the six above-listed orders for the calendar quarter in which this merged order became effective shall be eligible without refiling for refund of assessments on his producer milk under this merged order during such quarter; and

(f) Any producer who elected to participate in the advertising and promotion program of any of the six above-listed orders for the calendar quarter in which this merged order became effective shall not be eligible to request a refund of the assessments against his deliveries of producer milk under the merged order until the next quarterly filing period.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Effective date: July 1, 1975.

Signed at Washington, D.C., on May 28, 1975.

RICHARD L. FELTNER,  
Assistant Secretary.

#### Title 9—Animals and Animal Products

#### CHAPTER III—ANIMAL AND PLANT HEALTH INSPECTION SERVICE (MEAT AND POULTRY PRODUCTS INSPECTION), DEPARTMENT OF AGRICULTURE

#### PART 331—SPECIAL PROVISIONS FOR DESIGNATED STATES AND TERRITORIES; AND FOR DESIGNATION OF ESTABLISHMENTS WHICH ENDANGER PUBLIC HEALTH AND FOR SUCH DESIGNATED ESTABLISHMENTS

##### Designation of the State of Colorado

**Statement of Considerations:** A representative of the Governor of the State of Colorado has advised this Department that the State of Colorado is no longer in a position to continue administering the State meat inspection program after June 30, 1975, and has requested the Department to assume the responsibility for carrying out the provisions of titles I and IV of the Federal Meat Inspection Act, with respect to establishments within the State at which cattle, sheep, swine, goats, or equines are slaughtered or their carcasses, or parts or products thereof, are prepared for use as human food, solely for distribution within such State, and with respect to intrastate operations and transactions concerning meat products and other articles and animals subject to the Federal Meat Inspection Act, and persons, firms, and corporations engaged therein.

The Secretary heretofore determined that the State of Colorado had developed and activated requirements at least equal to the requirements under titles I and IV of the Federal Meat Inspection Act. However, such titles contemplate a continuous, ongoing program, and in view of the termination date now applicable to the Colorado program, it is hereby de-

termined that Colorado is not effectively enforcing requirements at least equal to those imposed under titles I and IV of the Federal Meat Inspection Act. Therefore, notice is hereby given that the Secretary of Agriculture designates said State under section 301(c) (3) of the Federal Meat Inspection Act.

On July 1, 1975, the provisions of titles I and IV of the Federal Meat Inspection Act shall apply to intrastate operations and transactions in said State and to persons, firms, and corporations engaged therein, to the same extent and in the same manner as if such operations and transactions were conducted in or for "commerce," within the meaning of the Federal Meat Inspection Act, and any establishment in the State of Colorado which conducts any slaughtering or preparation of carcasses or parts or products thereof of cattle, sheep, swine, goats, horses, mules, or other equines, must have Federal inspection or cease its operations, unless it qualifies for an exemption under section 23(a) or 301(c) of the Federal Meat Inspection Act.

Therefore, the operator of each such establishment who desires to continue any such operations after designation of the State becomes effective should immediately communicate with the Regional Director for Meat and Poultry Inspection, as listed below, for information concerning the requirements and exemptions under the Act and application for inspection and survey of the establishment:

Dr. L. J. Rafoth, Director, Western Region, Meat and Poultry Inspection Program, Room 102, Building 2C, 620 Central Avenue, Alameda, California 94501 (Telephone: (415) 273-7402).

Accordingly, the table in § 331.2 of the Federal meat inspection regulations (9 CFR 331.2) is amended as follows:

1. In the "State" column, "Colorado" is added immediately above "Guam."

2. In the "Effective date of application of Federal provisions" column, "July 1, 1975" is added on the line with "Colorado."

(Secs. 21 and 301(c), 34 Stat. 1260, as amended; 21 U.S.C. 621, 661(c); 37 FR 28464, 28477)

This amendment of the Federal meat inspection regulations is necessary to reflect the determination of the Secretary of Agriculture under section 301(c) of the Federal Meat Inspection Act. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Secretary. Therefore, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that such public procedure is impracticable and unnecessary.

This amendment and the notice given hereby shall become effective July 1, 1975.

Done at Washington, D.C., on: May 23, 1975.

F. J. MULHERN,  
Administrator, Animal and Plant  
Health Inspection Service.

#### PART 331—SPECIAL PROVISIONS FOR DESIGNATED STATES AND TERRITORIES; AND FOR DESIGNATION OF ESTABLISHMENTS WHICH ENDANGER PUBLIC HEALTH AND FOR SUCH DESIGNATED ESTABLISHMENTS

##### PART 381—POULTRY PRODUCTS INSPECTION REGULATIONS

##### Designation of the State of New Jersey

**Statement of Considerations:** A representative of the Governor of the State of New Jersey has advised this Department that the State of New Jersey is no longer in a position to continue administering the State meat inspection program after June 30, 1975, and has requested the Department to assume the responsibility for carrying out the provisions of titles I and IV of the Federal Meat Inspection Act, with respect to establishments within the State at which cattle, sheep, swine, goats, or equines are slaughtered or their carcasses, or parts or products thereof are prepared for use as human food, solely for distribution within such State, and with respect to intrastate operations and transactions concerning meat products and other articles and animals subject to the Federal Meat Inspection Act, and persons, firms, and corporations engaged therein.

Also, the said representative of the Governor of the State of New Jersey has advised this Department that the State of New Jersey is no longer in a position to continue administering the State poultry inspection program after June 30, 1975, and has requested the Department to assume the responsibility for carrying out the provisions of sections 1-4, 6-10, and 12-22 of the Poultry Products Inspection Act with respect to establishments within the State at which poultry are slaughtered or poultry products are processed for use as human food, solely for distribution within such State, and with respect to intrastate operations and transactions concerning products and other articles and animals subject to the Poultry Products Inspection Act, and persons, firms, and corporations engaged therein.

The Secretary heretofore determined that the State of New Jersey had developed and activated requirements at least equal to the requirements under titles I and IV of the Federal Meat Inspection Act and sections 1-4, 6-10, and 12-22 of the Poultry Products Inspection Act. However, such titles and sections contemplate continuous, ongoing programs, and in view of the termination date now applicable to the New Jersey programs, it is hereby determined that New Jersey is not effectively enforcing requirements at least equal to those imposed under titles I and IV of the Federal Meat Inspection Act and sections 1-4, 6-10, and 12-22 of the Poultry Products Inspection Act. Therefore, notice is hereby given that the Secretary of Agriculture designates said State under section 301(c) (3) of the Federal Meat Inspection Act and 5(c) (3) of the Poultry Products Inspection Act.

On July 1, 1975, the provisions of titles I and IV of the Federal Meat Inspection Act shall apply to intrastate operations

and transactions in said State and to persons, firms, and corporations engaged therein, to the same extent and in the same manner as if such operations and transactions were conducted in or for "commerce," within the meaning of the Federal Meat Inspection Act, and any establishment in the State of New Jersey which conducts any slaughtering or preparation of carcasses or parts or products thereof of cattle, sheep, swine, goats, horses, mules, or other equines, must have Federal inspection or cease its operations, unless it qualifies for an exemption under section 23(a) or 301(c) of the Federal Meat Inspection Act.

Also, on July 1, 1975, the provisions of sections 1-4, 6-10, and 12-22 of the Poultry Products Inspection Act shall apply to intrastate operations and transactions in said State and to persons, firms, and corporations engaged therein, to the same extent and in the same manner as if such operations and transactions were conducted in or for "commerce," within the meaning of the Poultry Products Inspection Act, and any establishment in the State of New Jersey which conducts any slaughtering or processing of poultry or poultry products must have Federal inspection or cease its operations, unless it qualifies for an exemption under section 15 or 5(c) (2) of the Poultry Products Inspection Act.

Therefore, the operator of each such establishment who desires to continue any such operations after designation of the State becomes effective should immediately communicate with the Regional Director for Meat and Poultry Inspection, as listed below, for information concerning the requirements and exemptions under the Acts and application for inspection and survey of the establishment:

Dr. M. J. Hatter, Director, Northeastern Region, Meat and Poultry Inspection Program, Seventh Floor, 1421 Cherry Street, Philadelphia, PA 19102 (Telephone: 215/597-4219).

Accordingly, the table in § 331.2 of the Federal Meat inspection regulations (9 CFR 331.2) is amended as follows:

1. In the "State" column, "New Jersey" is added immediately below "Nevada."

2. In the "Effective date of application of Federal provisions" column, "July 1, 1975" is added on the line with "New Jersey."

(Secs. 21 and 301(c), 34 Stat. 1260, as amended; 21 U.S.C. 621, 661(c); 37 FR 28464, 28477)

Further, the table in § 381.221 of the poultry products inspection regulations (9 CFR 381.221) is amended as follows:

1. In the "State" column, "New Jersey" is added immediately below "Nevada."

2. In the "Effective date of application of Federal provisions" column, "July 1, 1975" is added on the line with "New Jersey."

(Secs. 5(c) and 14, 71 Stat. 441, as amended; 21 U.S.C. 454(c), 463; 37 FR 28464, 28477)

These amendments of the Federal meat inspection regulations and the poultry products inspection regulations are necessary to reflect the determina-

tion of the Secretary of Agriculture under section 301(c) of the Federal Meat Inspection Act and section 5(c) of the Poultry Products Inspection Act. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Secretary. Therefore under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that such public procedure is impracticable and unnecessary.

These amendments and the notice given hereby shall become effective July 1, 1975.

Done at Washington, D.C., on: May 23, 1975.

F. J. MULHERN,  
Administrator, Animal and Plant  
Health Inspection Service.

#### SUBCHAPTER A—MANDATORY MEAT INSPECTION

#### PART 331—SPECIAL PROVISIONS FOR DESIGNATED STATES AND TERRITORIES; AND FOR DESIGNATION OF ESTABLISHMENTS WHICH ENDANGER PUBLIC HEALTH AND FOR SUCH DESIGNATED ESTABLISHMENTS

##### SUBCHAPTER C—MANDATORY POULTRY PRODUCTS INSPECTION

#### PART 381—POULTRY PRODUCTS INSPECTION REGULATIONS

Subpart V—Special Provisions for Designated States and Territories; Criteria and Procedure for Designating Establishments With Operations Which Would Clearly Endanger the Public Health; Disposition of Poultry Products Therein

DESIGNATION OF NEW JERSEY UNDER FEDERAL MEAT AND POULTRY PRODUCTS INSPECTION ACTS FOR SPECIAL PURPOSES

*Statement of Considerations:* Sections 202, 203, and 204 of the Federal Meat Inspection Act (21 U.S.C. 642, 643, 644) provide for recordkeeping, access, and related requirements; registration requirements; and regulation of transactions involving dead, dying, disabled, or diseased livestock of specified kinds, or parts of the carcasses of such animals that died otherwise than by slaughter, with respect to operators engaged in specified classes of business in or for "commerce" as defined in the Act. Similar provisions with respect to poultry and poultry products are contained in section 11 of the Poultry Products Inspection Act (21 U.S.C. 460). Section 205 of the Federal Meat Inspection Act and section 11(e) of the Poultry Products Inspection Act (21 U.S.C. 645, 460(e)) authorize the Secretary of Agriculture to exercise the authorities under the aforesaid sections with respect to persons, firms, and corporations engaged in the specified kinds of business but not in or for "commerce" in any State or organized Territory when he determines, after consultation with an appropriate advisory committee, that the State or Territory does not have at least equal authority under its laws or is not exercising such authority in a manner to effectuate the purposes of the Acts.

Officials of the State of New Jersey have advised this Department that effective July 1, 1975, the State of New Jersey will no longer be in a position to continue administering authorities under the aforesaid sections with respect to persons, firms, and corporations engaged in the specified kinds of business but not in or for "commerce."

The Secretary heretofore determined that the State of New Jersey had developed and activated requirements at least equal to the requirements under sections 202, 203, and 204 of the Federal Meat Inspection Act and section 11 (b) and (c) of the Poultry Products Inspection Act. However, such sections contemplate continuous ongoing programs, and in view of the termination date now applicable to the New Jersey programs, the Secretary, after consultation with the appropriate advisory committee, has now determined that New Jersey is not exercising, in a manner to effectuate the purposes of said Acts, with respect to intrastate businesses, authorities at least equal to those under sections 202, 203, and 204 of the Federal Meat Inspection Act and section 11 (b) and (c) of the Poultry Products Inspection Act, including the Secretary or his representative being afforded access to such places of business and the facilities, inventories, and records thereof. Therefore, New Jersey is hereby designated under section 205 of the Federal Meat Inspection Act and section 11(e) of the Poultry Products Inspection Act for the exercise of the specified authorities with respect to intrastate businesses, and hereafter sections 202, 203, and 204 of the Federal Meat Inspection Act and section 11 (b) and (c) of the Poultry Products Inspection Act shall apply as hereinafter provided, to persons, firms, and corporations engaged in the kinds of business specified in said sections, but not in or for commerce, to the same extent and in the same manner as if they were engaged in such business in or for commerce and the transactions involved were in commerce.

Accordingly, the table in § 331.6 of the meat inspection regulations (9 CFR 331.6) is amended as follows:

1. In the "State" column, "New Jersey" is added immediately below "Nevada" in all three places.

2. In the "Effective date of designation" column, "July 1, 1975" is added on the line with "New Jersey" in all three places.

(Secs. 21 and 205, 34 Stat. 1260, as amended, 81 Stat. 584, 21 U.S.C. 621, 645; 37 FR 28464, 28477).

Further, the table in § 381.224 of the poultry products inspection regulations (9 CFR 381.224) is amended as follows:

1. In the "State" column, "New Jersey" is added immediately below "Nevada" in both places.

2. In the "Effective date" column, "July 1, 1975" is added on the line with "New Jersey" in both places.

(Secs. 11(e) and 14, 71 Stat. 441, as amended, 82 Stat. 791, 21 U.S.C. 460(e), 463; 37 FR 28464, 28477).

These amendments of the regulations are necessary to reflect the determinations of the Secretary of Agriculture under section 205 of the Federal Meat Inspection Act and section 11(e) of the Poultry Products Inspection Act, and to effectuate the purposes of the Acts by affording representatives of the Secretary of Agriculture access to places of business engaged in intrastate activities and otherwise facilitate the enforcement of the Acts. It does not appear that public participation in this rule making proceeding would make additional relevant information available to the Secretary. Therefore, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that such public procedure is impracticable and unnecessary.

These amendments and the notice given hereby shall become effective July 1, 1975.

Done at Washington, D.C., on: May 28, 1975.

HARRY C. MUSSMAN,  
Acting Administrator, Animal  
and Plant Health Inspection  
Service.

DESIGNATION OF THE STATE OF COLORADO UNDER THE FEDERAL MEAT INSPECTION ACT AND THE POULTRY PRODUCTS INSPECTION ACT FOR SPECIAL PURPOSES

*Statement of Considerations:* Sections 202 and 203 of the Federal Meat Inspection Act (21 U.S.C. 642 and 643) provide for recordkeeping, access, and related requirements, and registration requirements, with respect to operators engaged in specified classes of business in or for "commerce" as defined in the Act. Similar provisions with respect to poultry and poultry products are contained in sections 11(b) and (c) of the Poultry Products Inspection Act (21 U.S.C. 460 (b), (c)). Section 205 of the Federal Meat Inspection Act and section 11(e) of the Poultry Products Inspection Act (21 U.S.C. 645, 460(e)) authorize the Secretary of Agriculture to exercise the authorities under the aforesaid sections with respect to persons, firms, and corporations engaged in specified kinds of business but not in or for "commerce" in any State or organized Territory when he determines, after consultation with an

appropriate advisory committee, that the State or Territory does not have at least equal authority under its laws or is not exercising such authority in a manner to effectuate the purposes of the Acts.

Officials of the State of Colorado have advised this Department that effective July 1, 1975, the State of Colorado will no longer be in a position to continue administering authorities under the aforesaid sections with respect to persons, firms, and corporations engaged in the specified kinds of business but not in or for "commerce."

The Secretary heretofore determined that the State of Colorado had developed and activated requirements at least equal to the requirements under sections 202 and 203 of the Federal Meat Inspection Act, and section 11 (b) and (c) of the Poultry Products Inspection Act. However, such sections contemplate continuous ongoing programs, and in view of the termination date now applicable to the Colorado programs, the Secretary, after consultation with the appropriate advisory committee, has now determined that Colorado is not exercising, in a manner to effectuate the purposes of said Acts, with respect to intrastate businesses, authorities at least equal to those under sections 202 and 203 of the Federal Meat Inspection Act and section 11 (b) and (c) of the Poultry Products Inspection Act, including the Secretary or his representative being afforded access to such places of business and the facilities, inventories, and records thereof. Therefore, Colorado is hereby designated under section 205 of the Federal Meat Inspection Act and section 11(e) of the Poultry Products Inspection Act for the exercise of the specified authorities with respect to intrastate businesses, and hereafter sections 202 and 203 of the Federal Meat Inspection Act and section 11 (b) and (c) of the Poultry Products Inspection Act shall apply as hereinafter provided, to persons, firms, and corporations engaged in the kinds of business specified in said sections, but not in or for commerce, to the same extent and in the same manner as if they were engaged in such business in or for commerce and the transactions involved were in commerce.

Accordingly, the table in § 331.6 of the meat inspection regulations (9 CFR 331.6) is amended as follows:

1. In the "State" column, Colorado is added in alphabetical order to the list of States in which the provisions of sections 202 and 203 of the Federal Meat Inspection Act and related regulations are applicable.

2. In the "Effective date of designation" column, "July 1, 1975," is added on the line with Colorado in both places.

(Secs. 21 and 205, 34 Stat. 1260, as amended, 81 Stat. 584, 21 U.S.C. 621, 645; 37 FR 28464, 28477).

Further, the table in § 381.224 of the poultry products inspection regulations (9 CFR 381.224) is amended as follows:

1. "Colorado" is added in alphabetical order to the list of States in which the

provisions of sections 11 (b) and (c) of the Poultry Products Inspection Act and related regulations are applicable.

2. In the "Effective date" column, "July 1, 1975," is added on the line with Colorado in both places.

(Secs. 11(e) and 14, 71 Stat. 441, as amended, 82 Stat. 791, 21 U.S.C. 460(e), 463; 37 FR 28464, 28477).

These amendments of the regulations are necessary to reflect the determinations of the Secretary of Agriculture under section 205 of the Federal Meat Inspection Act and section 11(e) of the Poultry Products Inspection Act, and to effectuate the purposes of the Acts by affording representatives of the Secretary of Agriculture access to places of business engaged in intrastate activities and otherwise facilitate the enforcement of the Acts. It does not appear that public participation in this rule making proceeding would make additional relevant information available to the Secretary. Therefore, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that such public procedure is impracticable and unnecessary.

These amendments and the notice given hereby shall become effective July 1, 1975.

Done at Washington, D.C., on: May 28, 1975.

HARRY C. MUSSMAN,  
Acting Administrator, Animal  
and Plant Health Inspection  
Service.

#### Title 12—Banks and Banking

#### CHAPTER VII—NATIONAL CREDIT UNION ADMINISTRATION

#### PART 701—ORGANIZATION AND OPERATION OF FEDERAL CREDIT UNIONS

#### PART 745—CLARIFICATION AND DEFINITION OF ACCOUNT INSURANCE COVERAGE

##### Public Unit Accounts

On pages 8967-8968 of the March 4, 1975, edition of the FEDERAL REGISTER (40 FR 8967-8968) there was published a proposal to amend Parts 701 (12 CFR Part 701) and 745 (12 CFR Part 745). The purpose of the amendment is to implement the provisions of Public Law 93-495 which (1) amend the Federal Credit Union Act (12 U.S.C. 1751, et seq.) to permit Federal credit unions to accept public unit funds, (2) provide for insurance protection of such funds, and (3) limit the aggregate amount of funds that may be invested or deposited in federally-insured credit unions. Interested persons were given until April 4, 1975, to submit written comments, suggestions and objections regarding the proposed revision. As a result of the comments, the following change has been made:

Section 701.32(b) is revised. Accordingly, with the above change, the proposed §§ 701 and 745 are adopted as set forth below, effective immediately.

(Sec. 120, 73 Stat. 635 (12 U.S.C. 1766) and Sec. 209, 84 Stat. 1014 (12 U.S.C. 1789))

HERMAN NICKERSON, JR.,  
Administrator.

MAY 22, 1975.

1. Part 701 of the rules and regulations relating to organization and operation of Federal credit unions is amended by adding a new § 701.32 to read as follows:

§ 701.32 Payments on shares by public units.

(a) A Federal credit union may receive payments on shares from the following member or nonmember units of Federal, state or local governments:

(1) An officer, employee, or agent of the United States having official custody of public funds and lawfully investing such funds in a Federal credit union;

(2) An officer, employee, or agent of any state of the United States or of any county, municipality, or political subdivision thereof having official custody of public funds and lawfully investing the same in a Federal credit union;

(3) An officer, employee, or agent of the District of Columbia having official custody of public funds and lawfully investing the same in a Federal credit union; or

(4) An officer, employee, or agent of the Commonwealth of Puerto Rico, of the Panama Canal Zone, or of any territory or possession of the United States, or of any county, municipality, or political subdivision thereof having official custody of public funds and lawfully investing the same in a Federal credit union.

(b) Withdrawal of shares held in public unit accounts may be subject to a requirement providing for written notice, not to exceed 60 days, of intention to withdraw the whole or any portion of such shares. In the event notice is required, the Federal credit union shall communicate such requirement to the party having official custody of the funds prior to the acceptance of such funds by the Federal credit union.

(c) The maximum amount of each account established pursuant to this section shall not exceed 5 per centum of the total assets of the Federal credit union at the time of the share payment and no share payments shall be accepted in an amount which would cause the aggregate amount of all such accounts to exceed 20 per centum of the total assets of the Federal credit union.

(d) The term "public unit" means the United States, any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Panama Canal Zone, any territory or possession of the United States, any county, any municipality, or political subdivision thereof.

(e) The term "political subdivision" includes any subdivision or principal department of a public unit, (1) the creation of which subdivision or department has been expressly authorized by state statute, (2) to which some functions of

government have been delegated by state statute, and (3) to which funds have been allocated by statute or ordinance for its exclusive use and control. It also includes drainage, irrigation, navigation, improvement, levee, sanitary, school or power districts, and bridge or port authorities and other special districts created by state statute or compacts between the states. Excluded from the term are subordinate or nonautonomous divisions, agencies, or boards within principal departments.

2. Part 745 of the rules and regulations relating to clarification and definition of account insurance coverage is amended by redesignating §§ 745.10, 745.11, and 745.12 as 745.11, 745.12, and 745.13, respectively, and by adding a new § 745.10 to read as follows:

**§ 745.10 Public unit accounts.**

(a) Public funds invested in Federal credit unions and federally-insured state credit unions authorized to accept such investments shall be insured as follows:

(1) Each official custodian of funds of the United States lawfully investing the same in a federally-insured credit union shall be separately insured up to \$100,000;

(2) Each official custodian of funds of any state of the United States or any county, municipality, or political subdivision thereof lawfully investing the same in a federally-insured credit union in the same state shall be separately insured up to \$100,000;

(3) Each official custodian of funds of the District of Columbia lawfully investing the same in a federally-insured credit union in the District of Columbia shall be separately insured up to \$100,000;

(4) Each official custodian of funds of the Commonwealth of Puerto Rico, the Panama Canal Zone, or any territory or possession of the United States, or any county, municipality, or political subdivision thereof lawfully investing the same in a federally-insured credit union in Puerto Rico, the Panama Canal Zone, or any such territory or possession, respectively, shall be separately insured up to \$100,000;

(5) Each official custodian referred to in subsections (a) (2), (3), and (4) of this section lawfully investing such funds in a federally-insured credit union outside their respective jurisdictions shall be separately insured up to \$40,000; and

(6) For purposes of this section, if the same person is an official custodian of more than one public unit, he shall be separately insured with respect to the public funds held by him for each such unit, but he shall not be separately insured with respect to all public funds of the same public unit by virtue of holding different offices in such unit or by holding such funds for different purposes.

(b) With respect to public funds invested in federally-insured state credit unions, the maximum amount of each account shall not exceed 5 per centum of the total assets of the credit union at the time of the investment and no investment shall be accepted in an amount which would cause the aggregate amount

of all such accounts to exceed 20 per centum of the total assets of the credit union.

(c) For the purposes of this section, the terms "public unit" and "political subdivision" have the same meaning as that stated in § 701.32(d) and (e), respectively.

[FR Doc.75-14177 Filed 5-29-75;8:45 am]

**Title 14—Aeronautics and Space**

**CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION**

[Docket No. 72-CE-30-AD; Amdt. 39-2222]

**PART 39—AIRWORTHINESS DIRECTIVES**

**Beech Model 18 Airplanes**

Amendment 39-1632, AD 72-20-5, published in the FEDERAL REGISTER on May 7, 1973 (38 FR 11340 and 11341), was an amendment to Amendment 39-1526. In part it required the installation of approved straps or reinforcements on the basic wing carry-through structure within 2,000 hours' time in service after May 7, 1973, but in any case by no later than May 1, 1975. Subsequent to the issuance of this amendment a detailed review of the fatigue characteristics of the Model 18 wing has uncovered a seriously foreshortened fatigue life. As a result, the FAA issued notice of proposed rulemaking 75-CE-12-AD as well as AD 75-09-18 on April 17, 1975. Until such time as the FAA has had an opportunity to consider the comments and evaluate the action proposed by that notice of proposed rulemaking, it has been determined that it is in the public interest to extend the May 1, 1975, deadline for compliance with Paragraph D(4) of AD 72-20-5.

During this interim, in order to provide an adequate level of safety, AD 72-20-5 is being amended to provide that airplanes which have not been modified in accordance with Paragraph D(4) may continue to be operated only if the x-ray plates required by ADs 72-20-5 and 73-18-4 have been transmitted to the FAA and the airplanes are reinspected in accordance with Paragraphs B, C, E, and F of AD 75-09-18 every 500 hours' time in service. In addition, airplanes which have accumulated more than 500 hours' time in service since the last x-ray inspection must be reinspected before further flight in accordance with AD 75-09-18.

Since this amendment is relieving in nature and is in the interest of safety, it imposes no additional burden on any person. Consequently, notice and public procedure hereon are impracticable and good cause exists for making the amendment effective in less than thirty (30) days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator 14 CFR 11.89 (31 FR 13697), § 39.13 of Part 39, Amendment 39-1632 (38 FR 11340 and 11341), AD 72-20-5, is amended in the following respect:

Add Paragraph (H):

(H) Those airplanes which have not been modified in accordance with Paragraph D(4) as of the effective date of this amendment are exempt from the requirements of that subparagraph until October 15, 1975, and may continue to be operated, provided they meet the following requirements:

(1) The x-ray plates required to be transmitted to the FAA by this AD and AD 73-18-4 have been so transmitted.

(2) For airplanes that have accumulated 500 or more hours' time in service since the last x-ray inspection of the wings and for which x-ray plates have been submitted to the FAA or Beech Aircraft Corporation, reinspect in accordance with Paragraphs B, C, E and F of AD 75-09-18 before further flight.

(3) For airplanes which have accumulated less than 500 hours' time in service since the last x-ray inspection of the wings and for which x-ray plates have been submitted to the FAA or Beech Aircraft Corporation, prior to the accumulation of 500 hours' time in service and thereafter at 500 hour intervals, reinspect in accordance with Paragraphs B, C, E and F of AD 75-09-18.

This amendment becomes effective June 3, 1975.

(Secs. 313(a), 601 and 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421 and 1423), and of sec. 8(c), Department of Transportation Act (49 U.S.C. 1655(c))).

Issued in Kansas City, Missouri, on May 13, 1975.

C. F. MELUGIN, Jr.,  
Director, Central Region.

[FR Doc.75-14043 Filed 5-29-75;8:45 am]

[Docket 74-EA-91, Amdt. 39-2220]

**PART 39—AIRWORTHINESS DIRECTIVES**  
**Canadair Aircraft**

On page 8568 of the FEDERAL REGISTER for February 28, 1975, the Federal Aviation Administration published a proposed amendment applicable to Canadair CL-215-1A10 airplanes.

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received.

In view of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 FR 13697) § 39.13 of the Federal Aviation Regulations is amended hereby and the airworthiness directive adopted as published.

This amendment is effective May 30, 1975.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1421, 1423); sec. 8(c), Department of Transportation Act (49 U.S.C. 1655(c))).

Issued in Jamaica, N.Y., on May 15, 1975.

JAMES BISPO,  
Acting Director, Eastern Region.

CANADAIR—Applies to Canadair CL-215-1A10 airplanes certificated in all categories.

Compliance required with the next twenty-five hours' time in service after the effective date of this AD unless already accomplished.

To preclude the possibility of incorrect connection being made to the engine fire bottles, accomplish the following:

Modify the routing of the wire harness to the engine fire bottles in accordance with Canadair Service Information Circular No. 86-CL-215, Revision A, dated August 13, 1974, or an equivalent modification approved by Chief, Engineering and Manufacturing Branch, FAA, Eastern Region.

[Airspace Docket No. 75-RM-9]

**PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS**

**Revocation of VOR Federal Airway**

On April 9, 1975, a notice of proposed rulemaking (NPRM) was published in the FEDERAL REGISTER (40 FR 16089) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would revoke VOR Federal Airway No. 148 between Denver, Colo., and Kiowa, Colo.

Interested persons were afforded an opportunity to participate in the proposed rulemaking through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 9:01 a.m. G.m.t., August 14, 1975, as hereinafter set forth. Section 71.123 (40 FR 307) is amended as follows:

In V-148: All before "Thurman, Colo." is deleted and "From Kiowa, Colo.," is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))).

Issued in Washington, D.C., on May 23, 1975.

F. L. CUNNINGHAM,  
Acting Chief, Airspace and  
Air Traffic Rules Division.

[FR Doc.75-14044 Filed 5-29-75;8:45 am]

[Airspace Docket No. 75-SW-10]

**PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS**

**PART 73—SPECIAL USE AIRSPACE**

**Designation of Temporary Restricted Areas**

On March 17, 1975, a notice of proposed rulemaking (NPRM) was published in the FEDERAL REGISTER (40 FR 12110) stating that the Federal Aviation Administration (FAA) was considering amendments to Parts 71 and 73 of the Federal Aviation Regulations that would designate temporary restricted areas adjacent to Fort Hood, Tex. The restricted areas would be used to contain a joint military exercise "BRAVE SHIELD XII" which is scheduled from August 21 through August 24, 1975. Those areas with airspace at or above 14,500 feet MSL

would also be included in the continental control area for the duration of their time of designation.

Interested persons were afforded an opportunity to participate in the proposed rulemaking through the submission of comments. No comments were received.

In consideration of the foregoing, Parts 71 and 73 of the Federal Aviation Regulations are amended, effective 9:01 G.m.t., August 14, 1975, as hereinafter set forth.

1. In § 71.151 (40 FR 343) the following restricted areas are included for the duration of their time of designation from 0001 CDT, August 21, 1975, through 2400 CDT, August 24, 1975:

a. R-6315A Brave Shield XII, Tex.

b. R-6315B Brave Shield XII, Tex.

2. In § 73.63 (40 FR 694) the following restricted areas are added:

a. R-6315A Brave Shield XII, Tex.

**BOUNDARIES**

Beginning at Lat. 32°00'00" N., Long. 97°50'00" W.; to Lat. 32°10'00" N., Long. 98°32'00" W.; to Lat. 31°36'00" N., Long. 99°00'00" W.; to Lat. 31°00'00" N., Long. 99°00'00" W.; to Lat. 30°47'00" N., Long. 98°03'00" W.; to Lat. 30°50'00" N., Long. 97°44'00" W.; to Lat. 31°06'00" N., Long. 97°32'42" W.; to Lat. 31°13'45" N., Long. 97°32'35" W.; to Lat. 31°50'00" N., Long. 97°46'00" W.; to point of beginning excluding that airspace beginning at Lat. 31°00'00" N., Long. 97°37'00" W.; to Lat. 31°00'30" N., Long. 97°41'00" W.; thence clockwise via the arc of a 5-mile radius circle centered on the Killeen, Tex., Airport (Lat. 31°05'10" N., Long. 97°41'05" W.) to Lat. 31°09'00" N., Long. 97°40'20" W.; to Lat. 31°08'08" N., Long. 97°32'42" W.; to point of beginning from 500 feet AGL to and including 4,000 feet MSL, and excluding that airspace from 500 feet AGL to and including 800 feet AGL within a 3-mile radius of the following airports:

City-County Airport, Gatesville, Tex. (Lat. 31°25'16" N., Long. 97°47'48" W.).

Beginning at Lat. 32°10'00" N., Long. 98°32'00" W.; to Lat. 32°10'00" N., Long. 99°30'00" W.; to Lat. 31°10'00" N., Long. 99°30'00" W.; to Lat. 31°00'00" N., Long. 99°00'00" W.; to Lat. 30°47'00" N., Long. 98°03'00" W.; to Lat. 31°05'00" N., Long. 97°47'00" W.; to Lat. 31°50'00" N., Long. 97°46'00" W.; to Lat. 32°00'00" N., Long. 97°50'00" W.; to point of beginning. Designated altitudes. FL 180 to and including FL 280.

Time of designation. Continuous, 0001 CDT August 21 through 2400 CDT August 24, 1975.

Controlling agency. Federal Aviation Administration Houston ARTC Center.

Using agency. U.S. Air Force Tactical Air Command/USAF Readiness Command (TAC/USAFRED), Langley Air Force Base, Va. 23665.

c. R-6315C Brave Shield XII, Tex.

**BOUNDARIES**

Beginning at Lat. 30°47'00" N., Long. 98°03'00" W.; to Lat. 31°02'00" N., Long. 98°11'00" W.; to Lat. 31°27'00" N., Long. 98°11'00" W.; to Lat. 31°24'00" N., Long. 97°43'00" W.; to Lat. 31°22'33" N., Long. 97°42'45" W.; to Lat. 31°20'48" N., Long. 97°40'32" W.; to Lat. 31°19'37" N., Long. 97°40'32" W.; to Lat. 31°13'45" N., Long. 97°32'35" W.; to Lat. 31°08'06" N., Long. 97°32'42" W.; to Lat. 31°09'00" N., Long. 97°40'20" W.; thence counterclockwise via the arc of a 5-mile radius circle centered on the Killeen, Tex., Airport (Lat. 31°05'10" N., Long. 97°41'05" W.) to Lat. 31°05'10" N., Long. 97°41'05" W.; to point of beginning from 500 feet AGL to and including 4,000 feet MSL, and excluding that airspace from 500 feet AGL to and including 800 feet AGL within a 3-mile radius of the following airports:

City-County Airport, Gatesville, Tex. (Lat. 31°25'16" N., Long. 97°47'48" W.).  
Lampasas Airport, Lampasas, Tex. (Lat. 31°08'27" N., Long. 98°11'45" W.).

Designated altitudes. 100 feet AGL to and including 500 feet AGL.

Time of designation. Continuous, 0001 CDT August 21 through 2400 CDT August 24, 1975.

Controlling agency. Federal Aviation Administration, Houston ARTC Center.

Using agency. U.S. Air Force Tactical Air Command/USAF Readiness Command (TAC/USAFRED), Langley Air Force Base, Va. 23665.

As stated in the original notice, the users of the temporary restricted areas designated herein understand that they are obligated to observe the minimum safe altitudes prescribed in § 91.79 of the Federal Aviation Regulations that are applicable to all nonparticipating persons and property on the surface.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 8(c), Department of Transportation Act (49 U.S.C. 1655(c))).

Issued in Washington, D.C., on May 23, 1975.

F. L. CUNNINGHAM,  
Acting Chief, Airspace and  
Air Traffic Rules Division.

[FR Doc.75-14048 Filed 5-29-75;8:45 am]

[Airspace Docket No. 75-WA-8]

**PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS****PART 73—SPECIAL USE AIRSPACE**  
**Revocation of Restricted Areas**

The purpose of these amendments to Parts 71 and 73 of the Federal Aviation Regulations is to revoke Restricted Areas R-6303A Matagorda Island, Tex., and R-6303B Matagorda Island, Tex.

Revocation of R-6303A and R-6303B is appropriate because the Department of the Air Force has determined that it no longer requires the restricted areas.

Since these amendments make available for public use airspace from which the public was previously restricted, thereby relieving a restriction upon the public, they are minor matters in which the public would have no particular interest and notice and public procedure thereon are unnecessary. Moreover, since they relieve a restriction, they may become effective immediately.

In consideration of the foregoing, Parts 71 and 73 of the Federal Aviation Regulations are amended, effective May 30, 1975 as hereinafter set forth.

1. In § 71.151 (40 FR 343) "R-6303 Matagorda Island, Tex." is deleted.

2. In § 73.63 (40 FR 694) Restricted Areas R-6303A Matagorda Island, Tex., and R-6303B Matagorda Island, Tex., are revoked.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c), Department of Transportation Act (49 U.S.C. 1655 (c)).)

Issued in Washington, D.C., on May 23, 1975.

F. L. CUNNINGHAM,  
Acting Chief, Airspace and  
Air Traffic Rules Division.

[FR Doc. 75-14047 Filed 5-29-75; 8:45 am]

[Airspace Docket No. 75-WA-9]

**PART 73—SPECIAL USE AIRSPACE**  
**Alteration of Restricted Area**

The purpose of this amendment to Part 73 of the Federal Aviation Regulations is to reduce the time of designation for Restricted Area R-2403A Little Rock, Ark.

A review of Restricted Area R-2403A indicates that the time of designation from September 1 through April 30 is incorrect. The current time of designation omits an activation by NOTAM at least 24 hours in advance provision. The time of designation during this period should be from 7 am Saturday to 5 pm Sunday, September 1 through April 30 to be activated by NOTAM at least 24 hours in advance. The using agency concurs in the redesignation.

This amendment relieves a restriction upon the public and it is a minor amendment upon which the public should have no particular reason to comment. Therefore, notice and public procedure thereon are deemed unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective more than 30 days after publication.

**RULES AND REGULATIONS**

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective 9:01 a.m., August 14, 1975, as hereinafter set forth.

In § 73.24 (40 FR 659) the time of designation for R-2403A Little Rock, Ark., is amended to read as follows:

Time of designation. Daily 0700 to 2100 May 1 through August 31, to be activated by NOTAM 48 hours in advance. Other times, 0700 Saturday to 1700 Sunday, September 1 through April 30, to be activated by NOTAM at least 24 hours in advance. All times local.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Washington, D.C., on May 23, 1975.

F. L. CUNNINGHAM,  
Acting Chief, Airspace and  
Air Traffic Rules Division.

[FR Doc. 75-14045 Filed 5-29-75; 8:45 am]

**Title 19—Customs Duties****CHAPTER I—UNITED STATES CUSTOMS SERVICE, DEPARTMENT OF THE TREASURY**

[T.D. 75-121]

**PART 151—EXAMINATION, SAMPLING, AND TESTING OF MERCHANDISE****Documents To Be Filed With Entry of Wool or Hair**

On September 16, 1974, a notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 33227) which proposed to amend §§ 151.64, 151.71(b) and 151.72(b) of the Customs Regulations (19 CFR 151.64, 151.71(b), 151.72(b)). The proposed amendments would require the importer of wool or hair to submit his name and address on Customs Form 6451, Notice of Percentage Clean Yield and Grade of Wool or Hair, with the entry of wool or hair. In addition, the proposal provided for the subsequent use of that form by Customs to notify the importer of the percentage clean yield of the wool or hair. In those cases where a laboratory analysis of the imported wool or hair is made and the district director receives a copy of the Laboratory Report, Customs Form 6415, the proposed amendments provided that a copy of the report would be forwarded to the importer with the notification of percentage clean yield.

No comments were received in response to the notice of proposed rulemaking.

Accordingly, Part 151 of the Customs Regulations (19 CFR Part 151) is amended as set forth below.

**Effective date.** This amendment shall become effective June 30, 1975.

VERNON D. ACREE,  
Commissioner of Customs.

Approved: May 16, 1975.

DAVID R. MACDONALD,  
Assistant Secretary  
of the Treasury.

1. Section 151.64, including the heading thereof, is amended to read as follows:

**§ 151.64 Additional documents.**

(a) *Notice of percentage clean yield and grade of wool or hair.* Customs Form 6451, Notice of Percentage Clean Yield and Grade of Wool or Hair, containing the name and address of the importer, shall be filed in duplicate with each entry covering wool or hair.

(b) *Extra copy of entry.* One copy of each entry covering wool or hair subject to duty at a rate per clean pound shall be filed in addition to the copies otherwise required.

2. Paragraph (b) of § 151.71 is amended to read as follows:

**§ 151.71 Laboratory testing for clean yield.**

(b) *Notification to importer.* The district director shall promptly notify the importer by mail on Customs Form 6451, Notice of Percentage Clean Yield and Grade of Wool or Hair, of the percentage clean yield found by him. Where samples of wool or hair have been tested in a Customs Laboratory and the district director has received a copy of the Laboratory Report, Customs Form 6415, a copy of that report shall accompany the notification to the importer.

3. Paragraph (b) of § 151.72 is amended to read as follows:

**§ 151.72 Estimation of clean yield by nonlaboratory method.**

(b) *Notification to importer.* The district director shall promptly notify the importer by mail on Customs Form 6451, Notice of Percentage Clean Yield and Grade of Wool or Hair, of the percentage clean yield estimated by the appropriate Customs officer.

(R.S. 251, as amended, sec. 624, 46 Stat. 759 (19 U.S.C. 66, 1624))

[FR Doc. 75-14072 Filed 5-29-75; 8:45 am]

**Title 21—Food and Drugs****CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE****PART 701—COSMETIC LABELING****Designation of Ingredients; Warning Statements; Confirmation of Effective Dates**

The Commissioner of Food and Drugs is confirming the effective date of amendments to the cosmetic ingredient labeling requirements in § 701.3 *Designation of Ingredients* (21 CFR 701.3) to provide alternative methods for the declaration of ingredients; one alternative method is stayed pending a public hearing. In addition, the partial stay of § 701.3 is being terminated, so as to place the requirements for ingredient declaration fully into effect. The effective dates of those regulations dealing with warning statements on aerosol products and feminine deodorant sprays are confirmed and coordinated with the

effective dates for cosmetic ingredient designation.

On October 17, 1973, a final order establishing the requirement for declaration of ingredients on cosmetic product packages was published in the FEDERAL REGISTER (38 FR 28912). In an order published in the FEDERAL REGISTER of March 3, 1975 (40 FR 8918), the Commissioner amended that requirement by adding paragraphs (f) through (q) to § 701.3 so as to create certain exemptions from the general requirement for ingredient declaration and to permit alternative methods of declaring ingredients. A period of 30 days was provided for the filing of objections and requests for hearing. Objections were filed by Italian Labs, Ltd.; Evelyn Marshall Cosmetics, Ltd.; the Independent Cosmetic Manufacturers and Distributors; the Cosmetic, Toilet and Fragrance Association, Inc. Each objection was accompanied by a request for hearing.

A. A number of objections opposed the requirement in § 701.3(a) for ingredient declaration on cosmetic products. Italian Labs, Ltd., objected to the requirement that ingredients of color blends be declared. Evelyn Marshall Cosmetics, Ltd., objected to the requirement that ingredients be listed in descending order of predominance. The Independent Cosmetic Manufacturers and Distributors (ICMAD) objected "totally to the concept of ingredient labeling on cosmetics." Shorell Products, Inc., adopted the ICMAD objection by reference.

The Commissioner notes that nothing in the regulations published March 3, 1975, requires the declaration of ingredients on cosmetic products. That requirement was issued under § 701.3(a) in the order published in the FEDERAL REGISTER of October 17, 1973, at which time a period of 30 days was provided for the filing of objections and requests for hearing. Consequently, the objections to provisions of § 701.3(a) received in response to the announcement of March 3, 1975, are untimely, and the requests for hearing on those provisions are denied.

B. The Independent Cosmetic Manufacturers and Distributors (and Shorell Products, by reference) filed a "legal objection" on the ground that the Commissioner failed to cite evidence demonstrating that the listing of ingredients on cosmetics is necessary to prevent consumer deception or facilitate value comparisons, which is the standard under the Fair Packaging and Labeling Act.

The Commissioner notes that the question whether a particular regulation prevents consumer deception or facilitates value comparisons is a question of fact, not a question of law. Full opportunity to object and request a hearing on the ground that ingredient declaration does not prevent consumer deception or facilitate value comparisons was offered at the time of publication of the order on October 17, 1973. Had objections and a request for hearing been made at that time, the Commissioner would have placed any

**RULES AND REGULATIONS**

appropriate additional evidence in the record at such a hearing, demonstrating that ingredient declaration prevents consumer deception and facilitates value comparisons. The Commissioner concludes, therefore, that the objection presented is not timely and the request for hearing is denied.

C. A number of objections purported to object to the amendments in paragraphs (f) through (q) by requesting that additional exemptions and alternative methods of declaring ingredients be permitted.

Evelyn Marshall Cosmetics, Ltd., objected to all the amendments, but stated specific grounds in respect to only two paragraphs of the amendments. Objection was made to paragraph (f) of the regulation, on the ground that it should be revised to permit alphabetical listing of all ingredients. Objection was also made to paragraph (i) of the regulation on the ground that it fails to permit a manufacturer to place ingredient lists inside small packages of cosmetics.

The Independent Cosmetic Manufacturers and Distributors (and Shorell Products, by reference) objected to all the amendments on the ground that the alternatives "in fact give no relief from the adverse effects of § 701.3(a)." The objection proposed as alternatives to listing ingredients in descending order of predominance, as is required by § 701.3(a), that ingredients be permitted to be listed alphabetically, or that only "known allergens" be declared, or that color ingredients not be specifically named. In addition, objection was made to the provisions of paragraphs (j), (k), and (l), which permit off-package labeling for cosmetics held for sale in tightly compartmented trays or racks. The objection demanded that the exemption permitting off-package labeling be extended to include all cosmetic products. Objection was also made to paragraph (i) on the ground that it should be extended to apply to cosmetics in cartons.

The Cosmetic, Toilet and Fragrance Association, Inc., objected to paragraph (p) "to the extent that section 701.3(p) limits the availability of the option of 1/2 inch type size to packages having an available labeling area of less than 12 square inches rather than to packages having an area of the principal display panel not exceeding 5 square inches."

The Commissioner concludes that none of these objections to the amendments is valid. Although styled as an "objection" to the promulgated amendments, each is in fact a request that additional exemptions be granted or alternative methods of labeling be permitted. None of the objections raises questions about the exemptions that have been granted. None of the objections identifies any factual issue, the outcome of which at a hearing would determine the legality of any amendment. Under the Fair Packaging and Labeling Act, which incorporates by reference the provisions of section 701(e) of the Federal Food, Drug, and Cosmetic Act, the proper procedure for requesting an additional exemption is not through objection to

exemptions granted, but through a petition to amend the regulation imposing the requirement. Section 701(e)(1) of the Federal Food, Drug, and Cosmetic Act requires the publication of any proposal made by petition of an interested person showing reasonable grounds. The act clearly contemplates that proposed amendments should be considered by the agency in an orderly manner and not raised for the first time at a public hearing. Since the objections do not state a valid basis for a hearing, the requests for hearing are denied.

D. Objection was made by the Independent Cosmetic Manufacturers and Distributors (and Shorell Products, Inc. by reference) to the provisions of paragraph (f) which permit ingredients, other than color additives, present at a concentration of less than one percent to be listed without respect to order of predominance. The objection stated that either all noncolor ingredients should be listed in order of predominance or none should. The ground for the objection was that under the regulation some manufacturers "will be able to 'scramble' essentially all important ingredients, and thus protect their formulas, while others will be required to divulge the relative quantities of essentially all ingredients." The objection stated that, at a hearing, the objector "will adduce evidence that there is no benefit to the consumer in such a requirement."

Since this objection opposes the provisions of paragraph (f) which permit ingredients present at a low concentration to be listed without respect to order of predominance, the Commissioner concludes that it constitutes a valid objection and is properly the subject of a public hearing. Although the objection is ambiguous as to the precise grounds of objection, the Commissioner states the issue for hearing presented by the objection as follows: "Whether it is reasonable to establish a level of concentration below which cosmetic ingredients need not be listed in descending order of predominance, and if so, whether it is reasonable that that level be 1 percent." A notice will be published later in the FEDERAL REGISTER announcing the time and place for the hearing to be held on this issue.

In accordance with section 701(e)(2) of the Federal Food, Drug, and Cosmetic Act, the filing of this objection stays the effectiveness of 21 CFR 701.3(f)(1) and (2). However, pending the outcome of the hearing on the issue presented by the objection, the Commissioner will not take regulatory action against products labeled in accordance with § 701.3(f)(1) and (2).

Because of the interest shown by some manufacturers in additional exemptions to the requirements for ingredient declaration in § 701.3(a) through (e), the Commissioner has concluded to treat those objections calling for additional exemptions as if they were petitions under section 701(e)(1) of the Federal Food, Drug, and Cosmetic Act. The Commissioner notes, however, that section 701(e)(1) of the act requires that peti-

tions show reasonable grounds for requested amendments prior to their being published as proposals. The Commissioner concludes that the objections consist exclusively of conclusory and unsupported statements that do not constitute reasonable grounds within the meaning of section 701(e)(1) of the act. Therefore, elsewhere in this issue of the FEDERAL REGISTER a notice is published inviting all interested persons to submit data and other information in support of the additional exemptions sought by the objections.

Portions of § 701.3 (a) through (e), published in the FEDERAL REGISTER of October 17, 1973, were stayed by the filing of objections, in accordance with section 701(e)(2) of the Federal Food, Drug, and Cosmetic Act. The stay was announced in an order published in the FEDERAL REGISTER of March 3, 1975 (40 FR 8924), together with the order amending paragraphs (f) through (q). It was noted in the preamble to the amendments that, "It is the Commissioner's belief that these additional provisions will satisfy the objections submitted in response to the October 1973 order that have resulted in portions of that order being stayed by the order published elsewhere in this issue of the FEDERAL REGISTER. The Commissioner anticipates that upon publication of these additional provisions, the four objectors who requested a hearing in response to the original order will withdraw their objections, permitting the entire order to be placed into effect."

As anticipated, the four objections have been withdrawn conditioned upon the Commissioner's determining that all or substantially all of the amendments adopted as § 701.3 (f) through (q) can be placed into effect and that no significant portions of the amendments are stayed. Since that condition has been met, the stay of portions of the order of October 17, 1973 is being terminated, and the provisions of § 701.3 (a) through (q) are being placed fully into effect, with the exception of § 701.3 (f) (1) and (f) (2).

Because the filing of objections to the amendments in paragraphs (f) through (q) has created uncertainty as to the final form of the requirements for ingredient labeling, the Commissioner recognizes that manufacturers have been unable to begin useful planning for labeling changes. Consequently, the Commissioner has concluded that the announced effective dates should be set back by the amount of time that has passed since publication of the March 3, 1975 order. In addition, the effective dates of those regulations (published in the same issue of the FEDERAL REGISTER (39 FR 8912, 8926)) which had been coordinated with the effective dates of ingredient declaration are being similarly adjusted. Those regulations deal with warnings on aerosol products, feminine deodorant sprays, and cosmetics not adequately substantiated for safety.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201(n), 402, 403, 501, 502, 601,

602, 701, 52 Stat. 1041, 1046-1051 as amended, 1054-1056 as amended (21 U.S.C. 321(n), 342, 343, 351, 352, 361, 362, 371)) and the Fair Packaging and Labeling Act (sec. 5(c), 6(a), 80 Stat. 1298, 1299 (15 U.S.C. 1454, 1455)), and under authority delegated to him (21 CFR 2.120), the Commissioner hereby orders as follows:

1. The partial stay of § 701.3, which was announced in the FEDERAL REGISTER of March 3, 1975, (40 FR 8924, 8926), is revoked.

2. The effectiveness of § 701.3 (f) (1) and (f) (2) is stayed pending the outcome of a hearing on those provisions. Pending the outcome of that hearing, regulatory action will not be taken against products labeled in accordance with the provisions of § 701.3 (f) (1) and (f) (2).

3. All labeling for cosmetic products ordered after May 31, 1976 and all cosmetic product packages labeled after November 30, 1976 shall comply with the requirements of § 701.3.

4. The effective date of the regulations announced in FR Doc. 75-5328 (pertaining to warnings on aerosol products and on cosmetic products not adequately substantiated for safety) published in the FEDERAL REGISTER of March 3, 1975 (40 FR 8912) and in FR Doc. 75-5329 (pertaining to warning statements on feminine deodorant sprays) published in the FEDERAL REGISTER of March 3, 1975 (40 FR 8926) is revised as follows:

All labeling ordered after May 31, 1976, all products labeled after November 30, 1976, and all products initially introduced into interstate commerce after November 30, 1977, shall comply with these regulations.

Dated: May 25, 1975.

A. M. SCHMIDT,  
Commissioner of Food and Drugs.

**Title 24—Housing and Urban Development**  
**CHAPTER X—FEDERAL INSURANCE ADMINISTRATION**  
**SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM**

**PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS**

**Arlington, Tex.; Correction**

On July 23, 1971, in 36 FR 13675, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Insurance Rate Maps were available for public inspection. This list included the City of Arlington, Texas, as an eligible community and included Map No. H 485454 16 which indicates that Lot No. 26, Block No. 2, Oak Creek Estates (present address: 4608 Ramsgate Court), Arlington, Texas, as recorded in Volume 388-73, Page 19 in the office of the Clerk of the County Court of Tarrant County, Texas, in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration,

after further technical review of the above map in light of additional, recently acquired flood information, that the above property is within Zone C, and not within the Special Flood Hazard Area. Accordingly, effective July 23, 1971, Map No. H 485454 16 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: April 30, 1975.

J. ROBERT HUNTER,  
Acting Federal Insurance  
Administrator.

[FR Doc. 75-14123 Filed 5-29-75; 8:45 am]

**PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS**

**Arlington, Tex.; Correction**

On July 23, 1971, in 36 FR 13676, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Insurance Rate Maps were available for public inspection. This list included the City of Arlington, Texas, as an eligible community and included Map No. H 485454 17 which indicates that Block No. 1, Lots No. 1 through 4; Block No. 2, Lots No. 1 through 5, and 10 through 16; and Block No. 3, Lots No. 11 through 18, Stoneridge West Addition, Arlington, Texas, as recorded in Plat Record Volume 388-76, Page 6 in the records of the Clerk of Tarrant County, Texas, are in their entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the above property is not within the Special Flood Hazard Area. Block No. 1, Lots No. 2 through 4, and Block No. 2, Lots No. 3 through 5, and 10 through 12 are located in Zone B. Block No. 1, Lot No. 1; Block No. 2, Lots No. 1, 2, and 13 through 16; and Block No. 3, Lots No. 11 through 18 are located within Zone C. Accordingly, effective August 7, 1970, Map No. H 485454 17 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: April 29, 1975.

**PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS**

**Columbus, Ohio; Correction**

On August 21, 1974, in 39 FR 30122, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Hazard Boundary Maps were available for public inspection. This list included the City of Columbus, Ohio, as an eligible community and included Map No. H 390170 55 which indicates that Lots No. 14 through 19, 21 through 25, 53 through 57, 85 through 94, 99 through 102, 107 through 110, 118 through 147, 150 through 158, 194 through 198, 230, 263, 268 through 283, and 339, Three Rivers Project, Columbus, Ohio, as recorded in Book 48, Pages 36 through 37 in the office of the Recorder of Franklin County, Ohio, are in their entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the above property is not within the Special Flood Hazard Area. Accordingly, effective August 9, 1974, Map No. H 390170 55 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: May 13, 1975.

J. ROBERT HUNTER,  
Acting Federal Insurance  
Administrator.

#### PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

Davenport, Iowa; Correction

On July 12, 1974, in 39 FR 25649, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Hazard Boundary Maps were available for public inspection. This list included the City of Davenport, Iowa, as an eligible community and included Map No. H 190242 10 which indicates that Lots No. 1 through 27, Hickory Hill 8th Addition, Davenport, Iowa, as recorded in Plat Book 0-21-4 in the records of Scott County, Iowa, are in their entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical

review of the above map in light of additional, recently acquired flood information, that the above property is not within the Special Flood Hazard Area. Accordingly, effective June 21, 1974, Map No. H 190242 10 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: April 30, 1975.

#### PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

Davenport, Iowa; Correction

On July 12, 1974, in 39 FR 25649, the Federal Insurance Administrator pub-

lished a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Hazard Boundary Maps were available for public inspection. This list included the City of Davenport, Iowa, as an eligible community and included Map No. H 190242 10 which indicates that Lots No. 10 through 14 and 20, Cedar Vista Annex First Addition, Davenport, Iowa, subject to the conditions of the Iowa Natural Resources Council No. 70 through 142, July 7, 1970, specifying minimum elevations for construction, and recorded in Davenport Book A-1 NW  $\frac{1}{4}$  NW  $\frac{1}{4}$  22-78-3, in the Office of the Scott County Auditor, Davenport, Iowa, are in their entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the above property is not within the Special Flood Hazard Area. Accordingly, effective June 21, 1974, Map No. H 190242 10 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: May 13, 1975.

#### PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

Denville, N.J.; Correction

On June 26, 1971, in 36 FR 12171, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Insurance Rate Maps were available for public inspection. This list included the Township of Denville, New Jersey, as an eligible community and included Map No. H 345292 04, which indicates that property located at 51 Lakewood Drive, Denville, New Jersey, as recorded in Deed Book 2137, Page 497, in the office of the County Clerk of Morris County, New Jersey, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the above mentioned property is within Zone C, and is not within the Special Flood Hazard Area. Accordingly, effective July 11, 1970, Map No. H 345292 04 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended 42

U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: May 1, 1975.

#### PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

Fairfax County, Va.; Correction

On January 8, 1972, in 37 FR 281, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Insurance Rate Maps were available for public inspection. This list included Fairfax County, Virginia, as an eligible community and included Map No. H 515525 18 which indicates that Lot No. 550 of Canterbury Woods, Section 8, Fairfax County, Virginia, (present address: 4801 Tabard Place, Annandale, Virginia), as recorded in Deed Book 3320, at pages 14 through 16, and Lot 589 of Canterbury Woods, Section 9, Fairfax County, Virginia (present address: Tabard Place, Annandale, Virginia), as recorded in Deed Book 3321 at pages 530 through 533 in the Office of the Clerk of the Court, Fairfax County, Virginia, are in their entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that Lot No. 589, Section 9 and the structure on Lot No. 550, Section 8 are within Zone C, and not within the Special Flood Hazard Area. Accordingly, effective June 17, 1970, Map No. H 515525 18 is hereby corrected to reflect that the above properties are not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: April 17, 1975.

#### PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

Fort Smith, Ark.; Correction

On August 28, 1971, in 36 FR 17335, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Insur-

ance Rate Maps were available for public inspection. This list included the city of Fort Smith, Arkansas, as an eligible community and included Map No. H 055013 13 which indicates that Lot No. 113, Village Harbor, Phase II, Fort Smith, Arkansas, as recorded in Volume 342, Page 2002 in the Office of the Circuit Clerk of Sebastian County, Arkansas, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional recently acquired flood information, that the above property is within Zone C, and not within the Special Flood Hazard Area. Accordingly, effective December 29, 1970, Map No. H 055013 13 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: April 23, 1975.

#### PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

Mobile County, Ala.; Correction

On January 8, 1972, in 37 FR 281, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Insurance Rate Maps were available for public inspection. This list included Mobile County, Alabama, as an eligible community and included Map No. H 015008 25 which indicates that Lots No. 5 through 25, and 37 through 58, Pine Run Subdivision, Unit One, Mobile, Alabama, as recorded in Book 24, Page 63, in the office of the Judge of Probate, Mobile County, Alabama, are in their entirety within the Special Flood

Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the property is not within the Special Flood Hazard Area. The structure on Lot No. 5 is within Zone B, and Lots No. 6 through 25, and 37 through 58 are within Zone C. Accordingly, effective December 15, 1970, Map No. H 015008 25 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: April 16, 1975.

#### PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

##### Wheeling, Ill.; Correction

On May 17, 1973, in 38 FR 12916, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Hazard

Boundary Maps were available for public inspection. This list included the Village of Wheeling, Illinois, as an eligible community and included Map No. H 170173 01 which indicates that Cluster 3, Lots 1 through 7, Cluster 4, Lots 1 through 5, Cluster 5, Lots 1, 2, and 4 through 7, Cluster 6, Lots 1 through 10, Cluster 7, Lots 1 through 9, Cluster 12, Lots 1 through 4, Phase I, Shadow Bend Subdivision, Wheeling, Illinois, registered as LR 2690975 and recorded as Document No. 22320783 on May 10, 1973, and amended by an affidavit of correction, registered as LR 2699912, and recorded as Document No. 22372158 on June 22, 1973, in the office of the Registrar of Cook County, Illinois; and Cluster 15, Lots 1 through 6, Cluster 16, Lots 1 through 6, Cluster 17, Lots 1 through 5, Cluster 18, Lots 1 through 5, Cluster 19, Lot 7, Cluster 33, Lots 2 through 4, Cluster 34, Lots 1 through 5, Cluster 37, Lots 3 through 5, Cluster 38, Lots 1 through 8, Phase III, Shadow Bend Subdivision, Wheeling, Illinois, registered as LR 2690976 and recorded as Document No. 22320784 on May 10, 1973, and amended by an affidavit of correction, registered as LR 2699913, and recorded as Document No. 22372159 on June 22, 1973, in the office of the Registrar of Cook County, Illinois, are in their entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the above property is not within the Special Flood Hazard Area. Accordingly, effective May 25, 1973, Map No. H 170173 01 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: May 13, 1975.

J. ROBERT HUNTER,  
Acting Federal Insurance  
Administrator.

#### PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

##### Winston-Salem, N.C.; Correction

On August 31, 1972, in 37 FR 17704, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Insurance Rate Maps were available for public inspection. This list included Winston-Salem, North Carolina, as an eligible community and included Map No. H 375360 10 which indicates that Lot No. 2 of Sherwood Forest Subdivision, Section 9A, Winston-Salem, North Carolina, as recorded in Plat Book 25, at Page 53 in the Office of the Register

#### RULES AND REGULATIONS

of Deeds, Forsyth County, North Carolina, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the above property is within Zone C, and not within the Special Flood Hazard Area. Accordingly, effective March 24, 1971, Map No. H 375360 10 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: May 9, 1975.

J. ROBERT HUNTER,  
Acting Federal Insurance  
Administrator.

#### Title 29—Labor

#### CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION

#### PART 1902—STATE PLANS FOR THE DEVELOPMENT AND ENFORCEMENT OF STATE STANDARDS

#### PART 1955—PROCEDURES FOR WITHDRAWAL OF APPROVAL OF STATE PLANS

##### Notice of Final Rulemaking

1. *Background.* On November 12, 1974, a notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 39891) concerning regulations under section 18(f) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter called the Act) setting forth the policies and procedures by which approval of a State plan under section 18 of the Act could be withdrawn. After consideration of the relevant material which has been submitted by interested persons, the proposal is hereby adopted with some changes.

2. *Public comments.* Contemporaneously with its submission for public comment, the proposal was submitted to the Advisory Commission on Intergovernmental Relations. Public comments were received from the States of California, Michigan, New York, and Washington; the American Federation of Labor-Congress of Industrial Organizations (AFL-CIO); the National Electrical Manufacturers Association; the National Newspaper Association; and the Air Transport Association of America.

The comments primarily requested that additional clarifications be added to the regulations particularly with regard to the requirement for a State to show cause why a withdrawal proceeding should not be initiated, the time limits set in the regulations, and the examples of situations that would constitute grounds for withdrawal. The comments also indicated some confusion as to the nature of a withdrawal proceeding, how

the State could request a hearing on withdrawal, and whether the right to a hearing could be waived.

3. *Discussion of changes.* Several substantive and organizational changes were made in the regulations as follows:

(a) Definitions were added in § 1955.2 for "developmental step"; "commencement of a case" as used in section 19(f) of the Act in determining the scope of State jurisdiction following withdrawal of plan approval; and "separable portion of a plan" for purposes of withdrawal of approval (Michigan).

(b) The examples for the circumstances for withdrawal of approval in § 1955.3 were revised to clarify the impact of a failure to enact enabling legislation on the finding of reasonable expectations for completion of developmental steps (New York), and to add several items that could constitute failure to comply substantially with any provision of the plan including any assurances. Those items added were (1) failure to comply with the assurances on a sufficient number of qualified personnel and adequate resources for administration and enforcement, (AFL-CIO), and (2) where, on the basis of actual operations, the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) determines that the criteria in section 18(c) of the Act are not being met, that the period of concurrent authority under section 18(e) of the Act should not be extended, and final approval under section 18(e) of the Act should not be given.

(c) The regulations created some confusion as to the various types of notices mentioned and the effects of certain actions taken by, or required of, the States (Washington). Therefore, the general definition of a notice of withdrawal of approval, § 1955.2, was deleted and particular references were included in the relevant sections as to what constituted notice of withdrawal. Accordingly, where a State voluntarily withdraws its approved plan, § 1955.3(b), the Assistant Secretary shall publish a notice of withdrawal of approval in the Federal Register (see Montana notice 39 FR 23261, June 27, 1974). A similar type of notice would be published in the Federal Register by the Assistant Secretary where a State fails to show cause why a withdrawal proceeding should not be initiated, § 1955.10(a), or where a State fails to respond to the Assistant Secretary's notice of proposed withdrawal, § 1955.10 (b) and (c). In both these circumstances the State will be deemed to have waived its right to a formal proceeding. Where a State has not either voluntarily withdrawn its plan or waived its right to a formal proceeding as described above, the formal proceeding commences. That proceeding, as described in paragraph (d) below, may or may not result in a hearing. Consequently, there is no one point at which a State must request a hearing but rather several points, e.g. the request to show cause, where the State may opt to either withdraw its plan or go forward to a formal proceeding.

(d) The use of the word "hearing" to describe the withdrawal proceeding also resulted in some confusion that necessitated clarification (Washington). Therefore, the regulations were revised to refer to a "formal proceeding" rather than a hearing. By using this terminology and by rearranging the subparts to place those referring to a hearing after the provisions for settlements and summary decisions, the regulations should be clear that a hearing is only one part of the entire proceeding. For example, where there are no genuine issues of material fact in dispute, the proceeding could be resolved by a summary decision without a hearing (see Subpart C) or, revisions may be made to the program thereby settling the case before a hearing is held (see Subpart C).

(e) The provision for submission of substantive written comments by persons not parties to the proceedings was revised to substitute submission to the Assistant Secretary or the State rather than the administrative law judge since only a party, not the administrative law judge, could introduce these comments into evidence. One State (California) mentioned the criteria for admissibility of these comments. The basic criteria for admission of evidence are contained in § 1955.40(b) (1). Under these criteria, as well as under § 1955.21(a) (2) on motions for summary decisions, affidavits may be necessary but should not be required.

(f) The provision in § 1955.10(a) for the Assistant Secretary to provide the State an opportunity to show cause why a withdrawal proceeding should not be initiated was made mandatory (California, Michigan).

(g) A specific reference was added to § 1955.44 on the authority of an administrative agency to stay its final decision pending judicial review. An automatic stay of the Secretary of Labor's (hereinafter called the Secretary) decision pending judicial review was not added (California, Michigan) because it would unduly restrict his discretion in very serious cases. It should be noted that under Rule 18 of the Federal Rules of Appellate Procedure, the circuit court can also stay an administrative decision.

4. Discussion of provisions that were not changed. Changes to the proposed regulations were not considered necessary or appropriate in the following cases:

(a) The nature of the continuing commitment required by section 18(c) of the Act is for a standard-setting and enforcement program which will continue to be at least as effective as the on-going Federal program and it is not limited only to those provisions in the State plan at the time of approval. One State, (New York) questioned the scope of this commitment insofar as failure to meet Federal program changes initiated subsequent to plan approval may result in a withdrawal proceeding. The examples given were unilateral changes in field enforcement techniques or minor revisions to Federal procedures. Regulations governing the type of Federal program changes included in each State's com-

mitment to continue to provide an "at least as effective" enforcement program are set out in 29 CFR Part 1953, Subpart C, (39 FR 32905, September 12, 1974). These regulations adequately describe the types of Federal program changes required of the States and also provide an opportunity for the State to show cause why a change need not be submitted to maintain an "at least as effective as" program. No further delineation is considered necessary in Part 1955.

(b) Several States objected to the time periods in the regulations, more specifically, the 45 day period to show cause in § 1955.10(a) (California, 60 days), the five (5) day period for State publication in § 1955.10(b) (2) (California 10 days; Michigan, 30 days), and the 30 day period for filing a response in § 1955.10 (b) and (c) (Michigan, 60 days). These time periods are consistent with those contained in other State plan regulations (see 29 CFR 1902.11(a) on publication of State notices and 29 CFR Part 1953 which has 30 day requirements for State action in general). It should also be noted that, except for the 45 day requirement to show cause, which can be extended by the Assistant Secretary, the State may ask the administrative law judge for an extension of time under § 1955.12(a) (5). Because of the absence of any difficulty with these time limits in either the Virginia (39 FR 27844) or New Mexico (39 FR 42726) rejection proceedings and due to the serious implication of a withdrawal proceeding on the full and adequate protection of employees, the time periods have not been revised.

(c) The regulations clearly distinguish between the responsibility of the Assistant Secretary and the Secretary and through these regulations the Secretary reserves the right and obligation to make the final decision on the Assistant Secretary's proposed withdrawal where the administrative law judge's decision is appealed. These regulations are consistent with Secretary's Order 12-71, 36 FR 8554 and do not necessitate a further statement on delegation (Washington).

(d) Several States (e.g. California and Michigan) suggested that some changes were necessary in the provision for petitions for withdrawal of approval under § 1955.5. The provision as proposed outlined a number of steps that might be taken in response to a petition. These included public comment, discussions with the State, and/or informal hearings.

In all instances, the State will have an opportunity to respond fully to the petition and its response will be part of the public record. Where a petition is found to constitute sufficient grounds for proposed withdrawal of approval, § 1955.10 (b) (1) provides for the Assistant Secretary to publish a notice of proposed withdrawal. The provision that "any interested person" may file a petition merely reflects the language of the Administrative Procedure Act, 5 U.S.C. 553 (e) which gives any interested person the right to petition an agency.

(e) One comment raised the question of the scope of "official notice" in § 1955.40(c) and also the meaning of the

phrase "extra record fact" in § 1955.44 (California). The latter phrase was deleted as unnecessary. The section on official notice is analogous to judicial notice in a court proceeding. It is authorized by the Administrative Procedure Act, 5 U.S.C. 556(e) and as stated in § 1955.40(c) a party has the opportunity to show the contrary based on facts or other information available to it as well as because of its expertise in the area.

(f) No definition of the term "good cause" as used in § 1955.3(a) (3) (iii) was added (Michigan) because the reasons why a State may not need to change its program and therefore can show "good cause" vary greatly depending on the State and the change involved (see 29 CFR Part 1953).

(g) One State (Michigan) raised the issue of continued funding of public employer and consultation programs after plan withdrawal. While the subject of funding is not within the scope of these procedural regulations, it should be noted that where a plan approval is withdrawn, funding under section 23(g) of the Act is no longer available. However, where only a portion of a plan is withdrawn, then section 23(g) funding would generally be available for the remaining program which may include public employers and consultation. In addition, some limited consultation money may be available under section 7(c) (1) of the Act.

(h) The Assistant Secretary has the burden of proof in a withdrawal proceeding and he has available to him all the factual material developed during evaluations of State plans. This does not appear to place any undue restriction on the State in supporting its case. In addition, the regulations § 1955.32 specifically provide for discovery of facts for use in the proceedings (Michigan).

(i) The regulations, § 1955.3(a) (3), require compliance with all plan provisions. It would be impossible to spell out each and every commitment. The commitment that States not adopt product standards unless they meet the criteria in section 18(c) (2) of the Act is contained in every approved State plan and failure to meet it may be a factor in withdrawal proceeding. (National Electrical Manufacturers Association).

(j) The National Newspaper Association suggested that the "reasonable notice" requirement for State publication in § 1955.10(b) (2) could only be met by newspaper publication. While newspaper publication may be used by most States, it has never been a requirement. Indeed, several States use legal journals as well as general circulation newspapers while others have publications similar to the Federal Register. Each approved plan has a procedure for public notice for promulgation of standards, rules and regulations, (29 CFR 1902.4(b) (2) (iii)) and compliance with these procedures would generally be considered reasonable notice.

In accordance with the above, Chapter XVII of Title 29 Code of Federal Regulations is hereby amended by adding a new Part 1955 effective June 30, 1975.

1. Subpart E of 29 CFR Part 1902—"Procedures for Withdrawal of Plan Approval (Reserved)"—is hereby deleted, effective June 30, 1975.

2. The new Part 1955 reads as follows:

#### Subpart A—General

Sec.  
1955.1 Purpose and scope.  
1955.2 Definitions.  
1955.3 General policy.  
1955.4 Effect of withdrawal of approval.  
1955.5 Petitions for withdrawal of approval.

#### Subpart B—Notice of Formal Proceeding

1955.10 Publication of notice of formal proceeding.  
1955.11 Contents of notice of formal proceeding.  
1955.12 Administrative law judge; powers and duties.  
1955.13 Disqualification.  
1955.14 Ex parte communications.  
1955.15 Manner of service and filing.  
1955.16 Time.  
1955.17 Determination of parties.  
1955.18 Provision for written comments.

#### Subpart C—Consent Findings and Summary Decisions

1955.20 Consent findings and orders.  
1955.21 Motion for a summary decision.  
1955.22 Summary decision.

#### Subpart D—Preliminary Conference and Discovery

1955.30 Submission of documentary evidence.  
1955.31 Preliminary conference.  
1955.32 Discovery.  
1955.33 Sanctions for failure to comply with orders.  
1955.34 Fees of witnesses.

#### Subpart E—Hearing and Decision

1955.40 Hearings.  
1955.41 Decision of the administrative law judge.  
1955.42 Exceptions.  
1955.43 Transmission of the record.  
1955.44 Final decision.  
1955.45 Effect of appeal of administrative law judge's decision.  
1955.46 Finality for purposes of judicial review.  
1955.47 Judicial review.

AUTHORITY: Secs. 8(g) (2), 18, 84 Stat. 1598, 1608 (29 U.S.C. 657(g) (2), 667).

#### Subpart A—General

§ 1955.1 Purpose and scope.

(a) This part contains rules of practice and procedure for formal administrative proceedings on the withdrawal of initial or final approval of State plans in accordance with section 18(f) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667).

(b) These rules shall be construed to secure a prompt and just conclusion of the proceedings subject thereto.

§ 1955.2 Definitions.

(a) As used in this part unless the context clearly requires otherwise:

(1) "Act" means the Occupational Safety and Health Act of 1970;

(2) "Assistant Secretary" means Assistant Secretary of Labor for Occupational Safety and Health;

(3) "Commencement of a case" under section 18(f) of the Act means, for the purpose of determining State jurisdiction following a final decision withdraw-

ing approval of a plan, the issuance of a citation.

(4) "Developmental step" includes, but is not limited to, those items listed in the published developmental schedule, or any revisions thereto, for each plan contained in 29 CFR Part 1952. A developmental step also includes those items in the plan as approved under section 18(c) of the Act, as well as those items in the approval decision which are subject to evaluations (see e.g., approval of Michigan plan), which were deemed necessary to make the State program at least as effective as the Federal program within the 3 year developmental period. (see 29 CFR 1953.10(a)).

(5) "Final approval" means approval of the State plan, or any modification thereof under section 18(e) of the Act and Subpart D of 29 CFR Part 1902.

(6) "Initial approval" means approval of a State plan, or any modification thereof under section 18(c) of the Act and Subpart C of 29 CFR Part 1902;

(7) "Party" includes the State agency or agencies designated to administer and enforce the State plan that is the subject of withdrawal proceedings, the Department of Labor, Occupational Safety and Health Administration (hereinafter called OSHA), represented by the Office of the Solicitor and any person participating in the proceedings pursuant to § 1955.17;

(8) "Person" means an individual, partnership, association, corporation, business trust, legal representative, an organized group of individuals, or an agency, authority, or instrumentality of the United States or of a State;

(9) "Secretary" means Secretary of Labor;

(10) "Separable portion of a plan" for purposes of withdrawal of approval generally means an issue as defined in 29 CFR 1902.2(c), i.e. "an industrial, occupational or hazard grouping which is at least as comprehensive as a corresponding grouping contained in (i) one or more sections in Subparts B or R of Part 1910 of this chapter, or (ii) one or more of the remaining subparts of Part 1910". Provided, That wherever the Assistant Secretary has determined that other industrial, occupational or hazard groupings are administratively practicable, such groupings shall be considered separable portions of a plan.

§ 1955.3 General policy.

(a) The following circumstances shall be cause for initiation of proceedings under this part for withdrawal of approval of a State plan, or any portion thereof.

(1) Whenever the Assistant Secretary determines that under § 1902.2(b) of this chapter a State has not substantially completed the developmental steps of its plan at the end of three years from the date of commencement of operations as defined in § 1953.10(b) of this chapter, a withdrawal proceeding shall be instituted. Examples of a lack of substantial completion of developmental steps include but are not limited to the following:

(i) a failure to develop the necessary regulations and administrative guidelines

for an "at least as effective" enforcement program; (ii) failure to promulgate all or a majority of the occupational safety and health standards in an issue covered by the plan; or (iii) failure to enact the required enabling legislation.

(2) Whenever the Assistant Secretary determines that there is no longer a reasonable expectation that a State plan will meet the criteria of § 1902.3 of this chapter involving the completion of developmental steps within the three year period immediately following commencement of operations as defined in § 1953.10 (b) of this chapter, a withdrawal proceeding shall be instituted. Examples of a lack of reasonable expectation include but are not limited to the following: (i) a failure to enact enabling legislation in the first two years following commencement of operations where the remaining developmental steps are dependent on the passage of enabling legislation and cannot be completed within one year; or (ii) repeal or substantial amendment of the enabling legislation by the State legislature so that the State program fails to meet the criteria in § 1902.3 of this chapter; or (iii) inability to complete the developmental steps within the indicated three year period.

(3) Whenever the Assistant Secretary determines that in the operation or administration of a State plan, or as a result of any modifications to a plan, there is a failure to comply substantially with any provision of the plan, including assurances contained in the plan, a withdrawal proceeding shall be instituted in a State which has received final approval under section 18(e) of the Act, and may be instituted in a State which has received initial approval under section 18(c) of the Act. Examples of a lack of substantial compliance include but are not limited to the following: (i) where a State over a period of time consistently fails to provide effective enforcement of standards; (ii) where the rights of employees are circumscribed in such a manner as to diminish the effectiveness of the program; (iii) where a State, without good cause, fails to continue to maintain its program in accordance with the appropriate changes in the Federal program; (iv) where a State fails to comply with the required assurances on a sufficient number of qualified personnel and/or adequate resources for administration and enforcement of the program; or (v) where, on the basis of actual operations, the Assistant Secretary determines that the criteria in section 18(c) of the Act are not being met, that the period of concurrent authority under section 18(e) of the Act should not be extended, and that final approval under section 18(e) of the Act should not be given.

(b) A State may, at any time both before or after a determination under section 18(e) of the Act, voluntarily withdraw its plan, or any portion thereof, by notifying the Assistant Secretary in writing setting forth the reasons for such withdrawal. Such notification shall be accompanied by a letter terminating the application for related grants authorized

under section 23(g) of the Act in accordance with 29 CFR 1951.25(d). Upon receipt of the State notice the Assistant Secretary shall cause to be published in the *FEDERAL REGISTER* a notice of withdrawal of approval of the State plan or portion thereof (see Montana notice 39 FR 2361, June 27, 1974).

(c) Approval of a portion of a plan may be withdrawn under any of the paragraphs in this section when it is determined that that portion is reasonably separable from the remainder of the plan in a manner consistent with the provisions in § 1902.2(c) of this chapter defining the scope of a State plan. As an example, such a partial withdrawal of approval would be considered appropriate where a State fails to adopt, without good cause shown, Federal standards within a separable issue, such as occupational health.

#### § 1955.4 Effect of withdrawal of approval.

(a) After receipt of notice of withdrawal of approval of a State plan, such plan, or any part thereof, shall cease to be in effect and the provisions of the Federal Act shall apply within that State. But the State, in accordance with section 18(f) of the Act, may retain jurisdiction in any case commenced before receipt of the notice of withdrawal of approval of the plan, in order to enforce standards under the plan, whenever the issues involved in the case or cases pending do not relate to the reasons for withdrawal of the plan.

(b) Such notice of withdrawal of approval shall operate constructively as notice of termination of all related grants authorized under section 23(g) of the Act in accordance with 29 CFR 1951.25(c).

#### § 1955.5 Petitions for withdrawal of approval.

(a) At any time following the initial approval of a State plan under section 18(c) of the Act, any interested person may petition the Assistant Secretary in writing to initiate proceedings for withdrawal of approval of the plan under section 18(f) of the Act and this part. The petition shall contain a statement of the grounds for initiating a withdrawal proceeding, including facts to support the petition.

(b)(1) The Assistant Secretary may request the petitioner for additional facts and may take such other actions as are considered appropriate such as: (i) publishing the petition for public comment; (ii) holding informal discussion on the issues raised by the petition with the State and other persons affected; or (iii) holding an informal hearing in accordance with § 1902.13 of this chapter.

(2) Any such petition shall be considered and acted upon within a reasonable time. Prompt notice shall be given of the denial in whole or in part of any petition and the notice shall be accompanied by a brief statement of the grounds for the denial. A denial of a petition does not preclude future action on those issues or any other issues raised regarding a State plan.

#### Subpart B—Notice of Formal Proceeding

##### § 1955.10 Publication of notice of formal proceeding.

(a) The Assistant Secretary, prior to any notice of a formal proceeding under this subpart, shall by letter, provide the State with an opportunity to show cause within 45 days why a proceeding should not be instituted for withdrawal of approval of a plan or any portion thereof. When a State fails to show cause why a formal proceeding for withdrawal of approval should not be instituted, the State shall be deemed to have waived its right to a formal proceeding under paragraph (b) of this section and the Assistant Secretary shall cause to be published in the *FEDERAL REGISTER* a notice of withdrawal of approval of the State plan.

(b)(1) Whenever the Assistant Secretary, on the basis of a petition under § 1955.5 of this part or on his own initiative, determines that approval of a State plan or any portion thereof should be withdrawn, and the State has not waived its right under § 1955.3(b) of this part or paragraph (a) of this section to a formal proceeding, he shall publish a notice of proposed withdrawal in the *FEDERAL REGISTER* as set out in § 1955.11 of this part and cause such notice, in the form of a complaint, to be served on the State in accordance with § 1955.15 of this part.

(2) Not later than 5 days following the publication of the notice in the *FEDERAL REGISTER*, the State agency shall publish, or cause to be published, within the State reasonable notice containing a summary of the information in the Federal notice, as well as the location or locations where a copy of the full notice is available for inspection and public copying.

(3) Two copies of such notice shall be served on the Assistant Secretary in accordance with § 1955.15 of this part.

(c) Not less than 30 days following publication of the notice in the *FEDERAL REGISTER*, the State shall submit a statement of those items in the notice which are being contested and a brief statement of the facts relied upon, including whether the use of witnesses is intended. This statement shall be served on the Assistant Secretary in accordance with § 1955.15 of this part. When a State fails to respond to the notice of proposed withdrawal under paragraph (b)(1) of this section, the State shall be deemed to have waived its right to a formal proceeding and the Assistant Secretary shall cause to be published in the *FEDERAL REGISTER* a notice of withdrawal of approval.

##### § 1955.11 Contents of notice of formal proceeding.

(a) A notice of a formal proceeding published under § 1955.10 of this part shall include:

(1) A statement on the nature of the proceeding and addresses for filing all papers;

(2) The legal authority under which the proceeding is to be held;

(3) A description of the issues and the grounds for the Assistant Secretary's proposed withdrawal of approval;

(4) A specified period, generally not less than 30 days after publication of the notice in the *FEDERAL REGISTER*, for the State to submit a response to the statement of issues in the notice;

(5) A provision for designation of an administrative law judge under 5 U.S.C. 3105 to preside over the proceeding.

(b) A copy of the notice of the proceeding stating the basis for the Assistant Secretary's determination that approval of the plan, or any portion thereof, should be withdrawn shall be referred to the administrative law judge.

##### § 1955.12 Administrative law judge: powers and duties.

(a) The administrative law judge appointed under 5 U.S.C. 3105 and designated by the Chief Administrative Law Judge to preside over a proceeding shall have all powers necessary and appropriate to conduct a fair, full, and impartial proceeding, including the following:

(1) To administer oaths and affirmations;

(2) To rule upon offers of proof and receive relevant evidence;

(3) To provide for discovery, including the issuance of subpoenas authorized by section 8(b) of the Act and 5 U.S.C. 555 (d) and 556(c)(2), and to determine the scope and time limits of the discovery;

(4) To regulate the course of the proceeding and the conduct of the parties and their counsel;

(5) To consider and rule upon procedural requests, e.g. motions for extension of time;

(6) To hold preliminary conferences for the settlement or simplification of issues;

(7) To take official notice of material facts not appearing in the evidence in the record in accordance with § 1955.40 (c) of this part;

(8) To render an initial decision;

(9) To examine and cross-examine witnesses;

(10) To take any other appropriate action authorized by the Act, the implementing regulations, or the Administrative Procedure Act, 5 U.S.C. 554-557 (hereinafter called the APA).

(b) On any procedural question not otherwise regulated by this part, the Act, or the APA, the administrative law judge shall be guided to the extent practicable by the pertinent provisions of the Federal Rules of Civil Procedure.

##### § 1955.13 Disqualification.

(a) If an administrative law judge deems himself disqualified to preside over a particular proceeding, he shall withdraw by notice on the record directed to the Chief Administrative Law Judge. Any party who deems an administrative law judge, for any reason, to be disqualified to preside, or to continue to preside, over a particular proceeding may file a motion to disqualify and remove the administrative law judge, provided the motion is filed prior to the time the administrative law judge files his decision. Such motion must be supported by affidavits setting forth the alleged ground for disqualification. The Chief Administrative Law Judge shall rule upon the motion.

(b) Contumacious conduct at any proceeding before the administrative law judge shall be ground for summary exclusion from the proceeding. If a witness or party refuses to answer a question after being so directed, or refuses to obey an order to provide or permit discovery, the administrative law judge may make such orders with regard to the refusal as are just and proper, including the striking of all testimony previously given by such witness on related matters.

##### § 1955.14 Ex parte communications.

(a) Except to the extent required for the disposition of *ex parte* matters, the administrative law judge shall not consult any interested person or party or their representative on any fact in issue or on the merits of any matter before him except upon notice and opportunity for all parties to participate.

(b)(1) Written or oral communications from interested persons outside the Department of Labor involving any substantive or procedural issues in a proceeding directed to the administrative law judge, the Secretary of Labor, the Assistant Secretary, the Associate Assistant Secretary for Regional Programs, the Solicitor of Labor, or the Associate Solicitor for Occupational Safety and Health, or their staffs shall be deemed *ex parte* communications and are not to be considered part of any record or the basis for any official decision, unless the communication is made by motion to the administrative law judge and served upon all the parties.

(2) To facilitate implementation of this requirement, the above-mentioned offices shall keep a log of such communications which shall be made available to the public and which may, by motion, be entered into the record.

(c) No employee or agent of the Department of Labor engaged in the investigation or presentation of the withdrawal proceeding governed by this part shall participate or advise in the initial or final decision, except as a witness or counsel in the proceeding.

##### § 1955.15 Manner of service and filing.

(a) Service of any document upon any party may be made by personal delivery of, or by mailing a copy of the document by certified mail, to the last known address of the party or his representative. The person serving the document shall certify to the manner and date of service.

(b) In addition to serving a copy of any documents upon the parties, the original and two copies of each document shall be filed with the administrative law judge. With respect to exhibits and transcripts, only originals or certified copies need be filed.

##### § 1955.16 Time.

Computation of any period of time under these rules shall begin with the first business day following that on which the act, event or development initiating such period of time shall have occurred. When the last day of the period so computed is a Saturday, Sunday, or national holiday, or other day on

which the Department of Labor is closed, the period shall run until the end of the next following business day. When such period of time is 7 days or less, each of the Saturdays, Sundays, and such holidays shall be excluded from the computation.

##### § 1955.17 Determination of parties.

(a) The designated State agency or agencies and the Department of Labor, OSHA, shall be the initial parties to the proceedings. Other interested persons may, at the discretion of the administrative law judge, be granted the right to participate as parties if he determines that the final decision could substantially affect them or the class they represent or that they may contribute materially to the disposition of the proceedings.

(b)(1) Any person wishing to participate in any proceeding as a party under paragraph (a) of this section shall submit a petition to the administrative law judge within 30 days after the notice of such proceeding has been published in the *FEDERAL REGISTER*. The petition shall also be served upon the other parties. Such petition shall concisely state: (i) petitioner's interest in the proceeding; (ii) how his participation as a party will contribute materially to the disposition of the proceeding; (iii) who will appear for petitioner; (iv) the issue or issues as set out in the notice published under § 1955.10 of this part on which petitioner wishes to participate; and (v) whether petitioner intends to present witnesses.

(2) The administrative law judge shall, within 5 days of receipt of the petition, ascertain what objections, if any, there are to the petition. He shall then determine whether the petitioner is qualified in his judgment to be a party in the proceedings and shall permit or deny participation accordingly. The administrative law judge shall give each petitioner written notice of the decision on his petition promptly. If the petition is denied, the notice shall briefly state the grounds for denial. Persons whose petition for party participation is denied may appeal the decision to the Secretary within 5 days of receipt of the notice of denial. The Secretary will make the final decision to grant or deny the petition no later than 20 days following receipt of the appeal.

(3) Where the petitions to participate as parties are made by individuals or groups with common interests, the administrative law judge may require all such petitioners to designate a single representative, or he may recognize one or more of such petitioners to represent all such petitioners.

##### § 1955.18 Provision for written comments.

Any person who is not a party may submit a written statement of position with 4 copies to either the Assistant Secretary or the State at any time during the proceeding which statement shall be made available to all parties and may be introduced into evidence by a party. Mere statements of approval or opposi-

tion to the plan without any documentary support shall not be considered as falling within this provision.

#### Subpart C—Consent Findings and Summary Decisions

##### § 1955.20 Consent findings and orders.

(a)(1) At any time during the proceeding a reasonable opportunity may be afforded to permit negotiation by the parties of an agreement containing consent findings and a rule or order disposing of the whole or any part of the proceeding. The allowance of such opportunity and the duration thereof shall be in the discretion of the administrative law judge, after consideration of the requirements of section 18 of the Act, the nature of the proceeding, the requirements of the public interest, the representations of the parties, and the probability of an agreement which will result in a just disposition of the issues.

(2) Any agreement containing consent findings and a rule or order disposing of a proceeding shall also provide: (i) that the rule or order shall have the same force and effect as if made after a full hearing; (ii) a waiver of any further procedural steps before the administrative law judge and the Secretary; and (iii) a waiver of any right to challenge or contest the validity of the findings and of the rule or order made in accordance with the agreement.

(b)(1) On or before the expiration of the time granted for negotiations, the parties or their counsel may: (i) submit the proposed agreement to the administrative law judge for his consideration; or (ii) inform the administrative law judge that agreement cannot be reached.

(2) In the event an agreement containing consent findings and a rule or order is submitted within the time allowed therefor, the administrative law judge may accept such agreement by issuing his decision based upon the agreed findings. Such decision shall be published in the *FEDERAL REGISTER*.

##### § 1955.21 Motion for a summary decision.

(a)(1) Any party may move, with or without supporting affidavits, for a summary decision on all or any part of the proceeding. Any other party may, within 10 days after service of the motion, serve opposing affidavits or file a cross motion for summary decision. The administrative law judge may, in his discretion, set the matter for argument and call for submission of briefs. The filing of any documents under this section shall be with the administrative law judge and copies of any such document shall be served on all the parties.

(2) The administrative law judge may grant such motion if the pleadings, affidavits, material obtained by discovery or otherwise obtained, or matters officially noticed, show that there is no genuine issue as to any material fact and that a party is entitled to summary decision. Affidavits shall set forth such facts as would be admissible in evidence in the hearing and shall show affirmatively that the affiant is competent to testify to the

matters stated therein. When a motion for summary decision is made and supported as provided in paragraph (a) (1) of this section, the party opposing the motion may not rest upon the mere allegations or denials of his pleading; his response must set forth specific facts showing that there is a genuine issue of fact for the hearing.

(3) Should it appear from the affidavits of a party opposing the motion that he cannot, for reasons stated, present by affidavit facts essential to justify his opposition, the administrative law judge may refuse the application for summary decision or may order a continuance to permit affidavits to be obtained, or depositions to be taken, or discovery to be had, or may make such other order as is just.

(b) (1) The denial of all or any part of a motion or cross motion for summary decision by the administrative law judge shall not be subject to interlocutory appeal to the Secretary unless the administrative law judge certifies in writing: (i) that the ruling involves an important question of law or policy as to which there is substantial ground for difference of opinion; and (ii) that an immediate appeal from the ruling may materially advance the ultimate termination of the proceedings.

(2) The allowance of such an interlocutory appeal shall not stay the proceeding before the administrative law judge unless the Secretary so orders.

#### § 1955.22 Summary decision.

(a) (1) Where no genuine issue of material fact is found to have been raised, the administrative law judge shall issue an initial decision to become final 30 days after service thereof upon each party unless, within those 30 days, any party has filed written exceptions to the decision with the Secretary. Requests for extension of time to file exceptions may be granted if the requests are received by the Secretary no later than 25 days after service of the decision.

(2) If any timely exceptions are filed, the Secretary may set a time for filing any response to the exceptions with supporting reasons. All exceptions and responses thereto shall be served on all the parties.

(b) (1) The Secretary, after consideration of the decision, the exceptions, and any supporting briefs filed therewith and any responses to the exceptions with supporting reasons, shall issue a final decision.

(2) An initial decision and a final decision under this section shall include a statement of: (i) findings of fact and conclusions of law and the reasons and bases therefor on all issues presented; (ii) reference to any material fact based on official notice; and (iii) the terms and conditions of the rule or order made. The final decision shall be published in the FEDERAL REGISTER and served on all the parties.

(c) Where a genuine material question of fact is raised, the administrative law judge shall, and in any other case may, set the case for an evidentiary hearing.

A notice of such hearing shall be published in the FEDERAL REGISTER at least 30 days prior to the hearing date.

#### Subpart D—Preliminary Conference and Discovery

##### § 1955.30 Submission of documentary evidence.

(a) Where there has been no consent finding or summary decision under Subpart C of this part and a formal hearing is necessary, the administrative law judge shall set a date by which all documentary evidence, which is to be offered during the hearing, shall be submitted to the administrative law judge and served on the other parties. Such submission date shall be sufficiently in advance of the hearing as to permit study and preparation for cross-examination and rebuttal evidence. Documentary evidence not submitted in advance may be received into evidence upon a clear showing that the offering party had good cause for failure to produce the evidence sooner.

(b) The authenticity of all documents submitted in advance shall be deemed admitted unless written objections are filed prior to the hearing, except that a party will be permitted to challenge such authenticity at a later date upon clear showing of good cause for failure to have filed such written objections.

##### § 1955.31 Preliminary conference.

(a) Upon his own motion, or the motion of a party, the administrative law judge may direct the parties to meet with him for a conference or conferences to consider: (1) simplification of the issues; (2) the necessity or desirability of amendments to documents for purposes of clarification, simplification, or limitation; (3) stipulations of fact, and of the authenticity, of the contents of documents; (4) limitations on the number of parties and of witnesses; (5) scope of participation of petitioners under § 1955.17 of this part; (6) establishment of dates for discovery; and (7) such other matters as may tend to expedite the disposition of the proceedings, and to assure a just conclusion thereof.

(b) The administrative law judge shall enter an order which recites the action taken at the conference, the amendments allowed to any documents which have been filed, and the agreements made between the parties as to any of the matters considered. Such order shall limit the issues for hearing to those not disposed of by admissions or agreements, and control the subsequent course of the hearing, unless modified at the hearing to prevent manifest injustice.

##### § 1955.32 Discovery.

(a) (1) At any time after the commencement of a proceeding under this part, but generally before the preliminary conference, if any, a party may request of any other party admissions that relate to statements or opinions of fact, or of the application of law to fact, including the genuineness of any document described in the request. Copies of documents shall be served with the re-

quest unless they have been or are otherwise furnished or made available for inspection or copying. The matter shall be deemed admitted unless within 30 days after service of the request, or within such shorter or longer time as the administrative law judge may prescribe, the party to whom the request is directed serves upon the party requesting the admission a specific written response.

(2) If objection is made, the reasons therefor shall be stated. The answer shall specifically deny the matter or set forth in detail the reasons why the answering party cannot truthfully admit or deny the matter. A denial shall fairly meet the substance of the requested admission and when good faith requires that a party qualify his answer or deny only a part of the matter on which an admission is requested, he shall specify so much of it as is true and qualify or deny the remainder. An answering party may not give lack of information or knowledge as the reason for failure to admit or deny unless he states that he has made reasonable inquiry and that the information known or readily obtainable by him is insufficient to enable him to admit or deny.

(3) The party who has requested the admission may move to determine the sufficiency of the answers or objections. Unless the administrative law judge determines that an objection is justified, he may order either that the matter is admitted or that an amended answer be served. The administrative law judge may, in lieu of these orders, determine that final disposition of the requests be made at a preliminary conference, or at a designated time prior to the hearing. Any matter admitted under this section is conclusively established unless the administrative law judge on motion permits withdrawal or amendment of the admission. Copies of all requests and responses shall be served on all parties and filed with the administrative law judge.

(b) (1) The testimony of any witness may be taken by deposition. Depositions may be taken orally or upon written interrogatories before any person designated by the administrative law judge or having power to administer oaths.

(2) Any party desiring to take the deposition of a witness may make application in writing to the administrative law judge setting forth: (i) the time when, the place where, and the name and post office address of the person before whom the deposition is to be taken; (ii) the name and address of each witness; and (iii) the subject matter concerning which each witness is expected to testify.

(3) Such notice as the administrative law judge may order shall be given by the party taking the deposition to every other party.

(c) (1) Each witness testifying upon deposition shall be sworn, and the parties not calling him shall have the right to cross-examine him. The questions propounded and the answers thereto, together with all objections made, shall be reduced to writing and shall be read to or by the witness unless such exami-

nation and reading are waived by the witness and the parties. Any changes in form or substance which the witness desires to make shall be entered upon the deposition by the officer with a statement of the reasons given by the witness for making them. The deposition shall then be signed by the witness and certified by the officer before whom the deposition was taken. Thereafter, the officer shall seal the deposition, with copies thereof, in an envelope and mail the same by registered or certified mail to the administrative law judge.

(2) Subject to such objections to the questions and answers as were noted at the time of taking the deposition, and to the provisions in § 1955.40(b) (1) of this part, any part or all of a deposition may be offered into evidence by the party taking it as against any party who was present, represented at the taking of the deposition, or who had due notice thereof.

(d) Whenever appropriate to a just disposition of any issue in the proceeding the administrative law judge may allow discovery by any other appropriate procedure, such as by interrogatories upon a party or request for production of documents by a party.

(e) Upon motion by a party or by the person from whom discovery is sought, and for good cause shown, the administrative law judge may make any order which justice requires to limit or condition discovery in order to protect a party or person from annoyance, embarrassment, oppression, or undue burden or expense.

##### § 1955.33 Sanctions for failure to comply with orders.

(a) If a party or an official or agent of a party fails, without good cause, to comply with an order including, but not limited to, an order for the taking of a deposition, written interrogatories, the production of documents, or an order to comply with a subpoena, the administrative law judge or the Secretary or both, for the purpose of permitting resolution of relevant issues and disposition of the proceeding without unnecessary delay despite such failure, may take such action as is just, including but not limited to the following:

(1) Infer that the admission, testimony, documents, or other evidence would have been adverse to the party;

(2) Rule that for the purposes of the proceeding, the matter or matters concerning which the order or subpoena was issued be taken as established adversely to the party;

(3) Rule that the party may not introduce into evidence or otherwise rely, in support of any claim or defense, upon testimony by such party, officer or agent, or the documents or other evidence;

(4) Rule that the party may not be heard to object to introduction and use of secondary evidence to show what the withheld admission, testimony, documents, or other evidence would have shown;

(5) Rule that a pleading, or part of a pleading, on a motion or other submis-

sion by the party, concerning which the order or subpoena was issued, be stricken or that decision on the pleading be rendered against the party, or both.

(b) Any such action may be taken by written or oral order issued in the course of the proceeding or by inclusion in the initial decision of the administrative law judge or an order or opinion of the Secretary. The parties may seek, and the administrative law judge may grant, such of the foregoing means of relief or other appropriate relief as may be sufficient to compensate for the lack of withheld testimony, documents, or other evidence.

##### § 1955.34 Fees of witnesses.

Witnesses, including witnesses for depositions, shall be paid the same fees and mileage that are paid witnesses in the courts of the United States. Fees shall be paid by the party at whose instance the witness appears, and the person taking a deposition shall be paid by the party at whose instance the deposition is taken.

#### Subpart E—Hearing and Decision

##### § 1955.40 Hearings.

(a) (1) Except as may be ordered otherwise by the administrative law judge, the Department of Labor shall proceed first at the hearing.

(2) The Department of Labor shall have the burden of proof to sustain the contentions alleged in the notice of proposed withdrawal, published under § 1955.10(b) (1) but the proponent of any factual proposition shall be required to sustain the burden of proof with respect thereto.

(b) (1) A party shall be entitled to present his case or defense by oral or documentary evidence, to submit rebuttal evidence, and to conduct such cross-examination as may be required for a full and true disclosure of the facts. Any oral or documentary evidence may be received, but the administrative law judge shall exclude evidence which is irrelevant, immaterial, or unduly repetitious.

(2) The testimony of a witness shall be upon oath or affirmation administered by the administrative law judge.

(3) If a party objects to the admission or rejection of any evidence, or to the limitation of the scope of any examination or cross-examination, or to the failure to limit such scope, he shall state briefly the grounds for such objection. Rulings on all objections shall appear in the record. Only objections made before the administrative law judge may be relied upon subsequently in the proceeding.

(4) Formal exception to an adverse ruling is not required.

(c) Official notice may be taken of any material fact not appearing in evidence in the record, which is among the traditional matters of judicial notice, or concerning which the Department of Labor by reason of its functions is presumed to be expert: Provided, that the parties shall be given adequate notice, at the hearing or by reference in the admin-

istrative law judge's and the Secretary's decision of the matters so noticed and shall be given adequate opportunity to show the contrary.

(d) When an objection to a question propounded to a witness is sustained, the examining party may make a specific offer of proof of what the party expects to prove by the answer of the witness orally or in writing. Written offers of proof, adequately marked for identification, shall be retained in the record so as to be available for consideration by any reviewing authority.

(e) Hearings shall be stenographically reported. Copies of the transcript may be obtained by the parties and the public upon payment of the actual cost of duplication to the Department of Labor in accordance with 29 CFR 70.62(c).

(f) Corrections of the official transcript may be made only when they involve errors affecting substance and then only in the manner herein provided. Corrections may be ordered by the administrative law judge or agreed to in a written stipulation by all parties or their representatives. Where the parties are in disagreement, the administrative law judge shall determine the corrections to be made and so order. Corrections may be interlined in the official transcript so as not to obliterate the original text.

##### § 1955.41 Decision of the administrative law judge.

(a) Within 30 days after receipt of notice that the transcript of the testimony has been filed with the administrative law judge, or such additional time as the administrative law judge may allow, each party may file with the administrative law judge proposed findings of fact, conclusions of law, and rules or orders, together with a supporting brief expressing the reasons for such proposals. Such proposals and brief shall be served on all other parties and shall refer to all portions of the record and to all authorities relied upon in support of each proposal.

(b) (1) Within a reasonable time after the time allowed for the filing of proposed findings of fact, conclusions of law, and rules or orders, the administrative law judge shall make and serve upon each party his initial decision which shall become final upon the 30th day after service thereof unless exceptions are filed thereto.

(2) The decision of the administrative law judge shall be based solely upon substantial evidence on the record as a whole and shall state all facts officially noticed and relied upon. The decision of the administrative law judge shall include: (i) a statement of the findings of fact and conclusions of law, with reasons and bases therefor upon each material issue of fact, law, or discretion presented on the record; (ii) reference to any material fact based on official notice; and (iii) the appropriate rule, order, relief, or denial thereof.

##### § 1955.42 Exceptions.

(a) Within 30 days after service of the decision of the administrative law judge, any party may file with the Secretary

written exceptions thereto with supporting reasons. Such exceptions shall refer to the specific findings of fact, conclusions of law, or terms of the rule or order excepted to; and shall suggest corrected findings of fact, conclusions of law, or terms of the rule or order referencing the specific pages of the transcript relevant to the suggestions. Requests for extension of time to file exceptions may be granted if the requests are received by the Secretary no later than 25 days after service of the decision.

(b) If any timely exceptions are filed, the Secretary may set a time for filing any response to the exceptions with supporting reasons. All exceptions and responses thereto shall be served on all the parties.

#### § 1955.43 Transmission of the record.

If exceptions are filed, the Secretary shall request the administrative law judge to transmit the record of the proceeding to the Secretary for review. The record shall include the State plan; a copy of the Assistant Secretary's notice of proposed withdrawal; the State's statement of items in contention; the notice of the hearing if any; any motions and requests filed in written form and rulings thereon; the transcript of the testimony taken at the hearing, together with any documents or papers filed in connection with the preliminary conference and the hearing itself; such proposed findings of fact, conclusions of law, rules or orders, and supporting reasons as may have been filed; the administrative law judge's decision; and such exceptions, responses, and briefs in support thereof as may have been filed in the proceedings.

#### § 1955.44 Final decision.

(a) After review of any exceptions, together with the record references and authorities cited in support thereof, the Secretary shall issue a final decision ruling upon each exception and objection filed. The final decision may affirm, modify, or set aside in whole or in part the findings, conclusions, and the rule or order contained in the decision of the administrative law judge. The final decision shall also include reference to any material fact based on official notice.

(b) The Secretary's final decision shall be served upon all the parties and shall become final upon the 30th day after service thereof unless the Secretary grants a stay pending judicial review.

#### § 1955.45 Effect of appeal of administrative law judge's decision.

An administrative law judge's decision shall be stayed pending a decision on appeal to the Secretary. If there are no exceptions filed to the decisions of the administrative law judge, the administrative law judge's decision shall be published in the *Federal Register* as a final decision and served upon the parties.

#### § 1955.46 Finality for purposes of judicial review.

Only a final decision by the Secretary under § 1955.44 of this subpart shall be

deemed final agency action for purposes of judicial review. A decision of an administrative law judge which becomes final for lack of appeal is not deemed final agency action for purposes of 5 U.S.C. 704.

#### § 1955.47 Judicial review.

The State may obtain judicial review of a decision by the Secretary in accordance with section 18(g) of the Act.

Signed at Washington, D.C., this 23rd day of May 1975.

JOHN T. DUNLOP,  
Secretary of Labor.

#### SUBCHAPTER B—LAND RESOURCE MANAGEMENT (2000)

[Circular No. 2369]

#### PART 2920—SPECIAL LAND USE PERMITS

##### Subpart 2920—Principles and Procedures, General

##### REVISED PROCEDURES FOR ISSUING PERMITS FOR CERTAIN USES

On pages 2818 and 2819 of the *Federal Register* of January 16, 1975, there was published a notice and text of a proposed amendment to Subpart 2920 of Title 43, Code of Federal Regulations. The purposes of the amendment are to: (1) Provide an abbreviated permit process for uses that will have little environmental impact and will continue for less than 90 days duration; (2) exempt applicants for and holders of such permits from the payment of application fees and rentals; (3) clarify authority of the authorized officers to terminate special land use permits in accordance with a recent court decision.

Pursuant to regulations presently found at Subpart 2920, applicants for special land use permits must complete a lengthy application form and pay a \$10 filing fee. In addition, the permittee must pay a fair market rental for use of lands. The rental may not be less than \$10. Under the revised procedures, applicants for special land use permits other than those permitted under 43 CFR 2920.7 will still be required to comply with present application procedures and pay filing fees and rentals. Applicants for permits to use lands under 43 CFR 2920.7 will be allowed to use the new simpler procedures if the authorized officer determines that such use will not alter the character of the land or its resources and does not involve the construction or erection of improvements or structures.

The rule found at § 2920.3(a) states that the special land use permits will be revocable in the discretion of the authorized officer at any time, upon notice, if in his judgment the lands should be devoted to another use, or the conditions of the permit have been breached. This provision has been revised to state that the special land use permits are revocable in the discretion of the authorized officer at any time and upon notice to the permittee. In *Wilderness Society vs. Morton*, 479 F. 2d 842 (D.C. Cir. 1973), the court ruled that special land use permits are intended to be used for temporary uses and are revocable without condition. The court ruling makes the criteria for revocation in present § 2920.3(a) inapplicable and unnecessary.

Interested persons were allowed until February 21, 1975, to submit comments, suggestions or objections to the proposed amendment. Only three comments were received. One writer endorsed the regulations and suggested no changes. The other two argued against changing the provision on revocation of permits. In

the light of the court decision this recommendation has not been accepted. There is little reason to retain the language of the present regulations when its effect has been determined to be meaningless.

Additionally, one writer recommended that low impact recreational uses be exempted from the requirement for special land use permits. Special land use permits are not issued for recreational uses. Rules for recreational uses and permits are found at Part 18 and Group 6000 of Title 43, Code of Federal Regulations. Special land use permits are not issued where there are specific provisions in law governing the intended use of the lands. Recreation permits and fees are established pursuant to section 4, Land and Water Conservation Fund Act of 1965 (16 U.S.C.A. 4601-6a (Supp., 1974)), as amended by Pub. L. 93-303; and section 3, Act of July 11, 1972, (86 Stat. 461).

The proposed amendment is hereby adopted without change, and is set forth below. This amendment shall become effective July 1, 1975.

Dated: May 27, 1975.

JACK O. HORTON,  
Assistant Secretary of the Interior.

Subpart 2920 of Chapter II is amended as follows:

1. Section 2920.2 is revised to read as follows:

#### § 2920.2 Fees.

Each application for a special land-use permit or a renewal thereof, except those under § 2920.7 for which no service charge is required, must be accompanied by a nonrefundable application service fee of \$10. However, no charges will be made for applications by agencies of the

Federal Government or agencies of the States and political subdivisions thereof.

2. Paragraph 2920.3(a)(1) is revised to read as follows:

#### § 2920.3 Terms.

(a) *General.* (1) A special land-use permit is revocable in the discretion of the authorized officer at any time upon notice to the permittee.

3. Paragraph 2920.4(a) is revised to read as follows:

#### § 2920.4 Rental charges.

(a) Except as to permits issued under § 2920.7, for which no rentals are required, each permittee will be required to pay to the Bureau of Land Management, in advance, a rental determined by the authorized officer as the fair market value of the privileges granted. The authorized officer will determine whether payments will be annual or otherwise; he may adjust the rental at the end of each payment period. In no case will the minimum rental charge be fixed at less than \$10 per payment.

4. A new § 2920.7 is added to read as follows:

#### § 2920.7 Short form.

The authorized officer may issue a short form special land use permit for temporary use of the public lands not to exceed 90 days where the proposed use of these lands does not involve construction or the erection of improvements or structures, and in the opinion of the authorized officer will not alter the character of the land or its resources.

[FR Doc. 75-14382 Filed 5-29-75; 10:51 am]

## proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

### DEPARTMENT OF THE INTERIOR

#### Fish and Wildlife Service

##### [ 50 CFR Part 32 ]

#### NUNIVAK NATIONAL WILDLIFE REFUGE

##### Hunting

Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by the National Wildlife Refuge System Administration Act of 1966 (80 Stat. 927 as amended; 16 U.S.C., 666dd), as delegated to the Director, U.S. Fish and Wildlife Service by Chapter 2, Part 242 of the Departmental Manual, it is proposed to amend 50 CFR 32 by the addition of Nunivak National Wildlife Refuge, Alaska, to the list of areas open to hunting of big game (muskox).

The proposed hunting of muskox is one phase of the management program required to reduce the population of muskox on the Nunivak National Wildlife Refuge to the carrying capacity of the winter range. A maximum of 25 bulls are proposed to be taken in each of two seasons, established between September 1 and October 31, 1975, and February 1 and March 30, 1976.

An assessment of the environmental impact of this proposed herd management program has been made and it has been determined that it will not significantly affect the quality of the human environment, and that it is not a major Federal action under the National Environmental Policy Act and the guidelines of the Council on Environmental Quality. The environmental assessment is available for public inspection during normal business hours at the following locations:

Director  
U.S. Fish and Wildlife Service  
18th and C Streets, NW.  
Washington, D.C. 20240  
Alaska Area Office  
U.S. Fish and Wildlife Service  
813 "D" Street  
Anchorage, Alaska 99501  
Clarence Rhode National Wildlife Range  
U.S. Fish and Wildlife Service  
P.O. Box 346  
Bethel, Alaska 99559

Public Hearings will be held in accordance with Part 453, Chapter I, of the Departmental Manual. The dates, times and places of the hearings are as follows:

Date: July 1, 1975  
Place: Wood Center, University of Alaska, Fairbanks, Alaska  
Time: 7 P.M.  
Date: July 2, 1975  
Place: KVNA Building, Bethel, Alaska  
Time: 7:30 P.M.

Persons wishing to make an oral presentation or to submit their views in writing at any of these hearings should deliver a notice to that effect to the Area Director, Alaska Area Office, U.S. Fish and Wildlife Service, 813 "D" Street, An-

chorage, Alaska 99501, no less than five working days before the date of the hearing at which the testimony is to be presented. A time limit of 10 minutes per witness is imposed in the case of oral testimony, although additional time may be granted in advance at the discretion of the Presiding Officer.

Accordingly, it is proposed that Section 32.11, List of open areas; big game, be amended by the following addition:

#### ALASKA

##### NUNIVAK NATIONAL WILDLIFE REFUGE

E. V. SCHMIDT,  
Acting Director,  
U.S. Fish and Wildlife Service.

MAY 28, 1975.

### DEPARTMENT OF AGRICULTURE

#### Agricultural Marketing Service

##### [ 7 CFR Part 1139 ]

[Docket No. AO-374-A3]

#### MILK IN LAKE MEAD MARKETING AREA

##### Extension of Time for Filing Exceptions to Recommended Decision on Proposed Amendments to Tentative Marketing Agreement and to Order

Notice is hereby given that the time for filing exceptions to the recommended decision with respect to the proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Lake Mead marketing area, which was issued on May 9, 1975, (40 FR 21034) is hereby extended to June 14, 1975.

This notice is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

Signed at Washington, D.C., on May 23, 1975.

E. L. PETERSON,  
Administrator,  
Agricultural Marketing Service.

### DEPARTMENT OF TRANSPORTATION

#### Federal Aviation Administration

##### [ 14 CFR Parts 23, 25, 27, 29, and 91 ]

[Docket No. 14623; Notice No. 75-22]

#### AIRCRAFT FUELING

##### Notice of Proposed Rulemaking

##### Correction

In FR Doc. 75-13524 appearing at page 22554 in the issue of Friday, May 23, 1975,

§ 91.31(e) (1) on page 22556 is incorrect. It should read as follows:

§ 91.31 Civil aircraft operating limitations and marking requirements.

(c) . . .

(1) For aircraft powered by engines that use aviation gasoline, a solid red circle, 12 inches in diameter, and bordered with a 2-inch white band.

##### [ 14 CFR Part 71 ]

[Airspace Docket No. 75-NW-9]

#### ALTERATION OF ADDITIONAL CONTROL AREA

##### Notice of Proposed Rulemaking

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Omak, Wash., Additional Control Area.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Northwest Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, FAA Building, Boeing Field, Seattle, Wash. 98108. All communications received on or before June 30, 1975 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendment would alter the description of the Omak, Wash., Additional Control Area contained in § 71.163 as follows:

#### OMAK, WASHINGTON

That airspace extending upward from 5500' MSL within 5 miles each side of a line extending from the Omak RBN to the Ephrata VOR; that airspace extending upward from 5500' MSL bounded on the north by the U.S./Canadian border, on the east by Longitude 119°00' W., on the south by Latitude 48°00' N., and on the west by a line from Latitude 48°00' N., Longitude 120°30' W., to Latitude 49°00' N., Longitude 120°00' W., excluding that airspace below 1,200 feet AGL.

The U.S. Air Force has a requirement to conduct training missions within con-

trolled airspace below Area Positive Control. Alteration of the Omak, Wash., Additional Control Area is necessary to provide the controlled airspace required by the U.S. Air Force for these training missions.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on May 23, 1975.

F. L. CUNNINGHAM,  
Acting Chief, Airspace and  
Air Traffic Rules Division.

[FR Doc.75-14048 Filed 5-29-75;8:45 am]

##### [ 14 CFR Part 71 ]

[Airspace Docket No. 75-WA-6]

#### FEDERAL AIRWAY

##### Proposed Designation

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would designate the United States' portion of an airway between Spokane, Wash., and Castlegar, British Columbia, Canada.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Northwest Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, FAA Building, Boeing Field, Seattle, Wash. 98108. All communications received on or before June 30, 1975 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendment would designate the United States' portion of an airway from Spokane VORTAC to Castlegar Low Frequency Radio Range. This airway would provide controlled airspace and a route identifier for flights now operating between Spokane and Castlegar.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on May 23, 1975.

F. L. CUNNINGHAM,  
Acting Chief, Airspace and  
Air Traffic Rules Division.

[FR Doc.75-14049 Filed 5-29-75;8:45 am]

### PROPOSED RULES

##### [ 14 CFR Part 75 ]

[Airspace Docket No. 75-WE-4]

#### JET ROUTE

##### Proposed Alteration

The Federal Aviation Administration (FAA) is considering an amendment to Part 75 of the Federal Aviation Regulations that would realign a segment of J-88 from Los Angeles, Calif., via direct radials to Santa Barbara, Calif.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Western Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 1500 Aviation Boulevard, P.O. Box 92007, Worldway Postal Center, Los Angeles, Calif. 90009. All communications received on or before June 30, 1975, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendment would eliminate the bend in J-88 between Los Angeles and Santa Barbara, creating a shorter, more economical operation for its users.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on May 23, 1975.

F. L. CUNNINGHAM,  
Acting Chief, Airspace and  
Air Traffic Rules Division.

[FR Doc.75-14050 Filed 5-29-75;8:45 am]

### FEDERAL COMMUNICATIONS COMMISSION

##### [ 47 CFR Part 73 ]

[Docket No. 20488; RM-2356; RM-2397]

#### FM BROADCAST STATIONS; ARCADIA, FLORIDA TO LAKE PLACID, FLORIDA

##### Reassignment

In the matter of amendment of § 73.202(b), table of assignments, FM Broadcast Stations, (Arcadia, Lake Placid and Englewood, Florida).

1. On April 1, 1974, Mr. Russell G. Salter, licensee of FM Station WKKD-FM, Aurora, Illinois, filed a petition requesting the reassignment of FM Channel 252A from Arcadia, Florida, to Lake Placid, Florida. No replacement for Channel 252A at Arcadia, the sole FM

channel assigned to that community, is proposed or appears available. His petition (RM-2356), a petition related to it (RM-2397), and pleadings and comments generated will be discussed below.

2. Arcadia, Florida (pop. 5,658<sup>1</sup>) is located in De Soto County (pop. 13,060). Arcadia has one AM station, WAPG, a daytime-only service, licensed to Arcadia-Punta Gorda Broadcasting Co., Inc. (Arcadia-Punta Gorda). FM Channel 252A was assigned to Arcadia in our Third Report, Memorandum Opinion and Order in Docket No. 14185 adopted July 25, 1963, FCC 63-735, 28 Fed. Reg. 8077.

3. Highlands County, Florida (pop. 29,507), contains the small community of Lake Placid (pop. 656). There is no FM channel assignment at Lake Placid nor is there any standard broadcast station located there.

4. Mr. Salter's petition suggests that the Lake Placid market is growing rapidly with 30,000 persons residing in a ten-mile radius of the town. Petitioner maintains that there is no primary FM signal in southern Highlands County and that Lake Placid requires a first local radio service. In describing the community Mr. Salter states:

Lake Placid is in the heart of the southern Florida Citrus belt. The entire area produces much of the nation's and the world supply of Citrus fruits. Citrus and Avocados represent the largest industry of the area, which includes sorting and packing plants, processing plants and transporting the products to market by truck and railroad. More and more Citrus groves are being planted in this area as demands increase.

The second most important product of the area is cattle. Florida is fast becoming a top producer of beef cattle and Lake Placid is near the center of this business. One friend operates a cattle ranch of over 40 thousand acres and ships about 65 thousand head of cattle per year. This is truly big business.

The petition also contains a description of other local businesses and of residential developments near Lake Placid and the area's school system.

5. Morgan Broadcasting Company through its owner, Mr. Harry J. Morgan (Morgan Broadcasting), licensee of Class IV AM Station WSEB and FM Station WSKP-FM, both at Sebring, Highlands County, Florida, 15 miles distant from Lake Placid, filed an opposition to Mr. Salter's petition in letter form. Community Enterprises Inc. through its president, Mr. C. Wesley Ward (Community Enterprises), licensee of daytime-only AM Station WJCM, Sebring, Florida, also filed an opposition to Mr. Salter's petition in letter form. Both Morgan Broadcasting and Community Enterprises suggest, in sum, that their three stations along with WAPG, a daytime-only AM service, licensed to Electronics Services, Inc. at Avon Park, Florida, 23 miles distant from Lake Placid, serve Lake Placid and derive vital economic support from it. It is

<sup>1</sup> All population figures cited are from the 1970 U.S. Census unless otherwise specified.

## PROPOSED RULES

maintained that if an FM service is added to Lake Placid that station would drain advertising revenue from the existing services in the area to the extent of preventing them from providing appropriate programming or possibly, to the extent of forcing them off the air. On this point we note only that it has long been Commission policy not to consider *Carroll* issues in rule making proceedings. We will follow that policy in this matter while noting that a *Carroll* issue may appropriately be raised at the time of application for a construction permit for any new station at Lake Placid if a channel assignment is made there.

6. On June 10, 1974, Sarasota-Charlotte Broadcasting Corporation (S-C Corp.), licensee of daytime-only AM Station WENG, Englewood, Florida, filed a petition (RM-2397) acknowledging the above-described petition of Mr. Salter, concurring in it and asking that Channel 252A be deleted from Arcadia not only to reassign it to Lake Placid but also to reassign it to Englewood, Florida. If Channel 252A is deleted from Arcadia our minimum mileage separation requirements will permit its assignment to both Lake Placid and Englewood.

7. Englewood, Florida, with 5,182 residents, is located in Charlotte and Sarasota Counties (respective populations 27,559 and 120,413). S-C Corp. is the licensee of the community's only local aural service, daytime-only AM Station WENG. There is no FM channel assigned to Englewood.

8. S-C Corp. describes Englewood as a rapidly growing Florida community which is not adequately described by citing U.S. Census figures. It is said that Englewood is an unincorporated community on Florida's southern Gulf Coast extending from Manasota Road on the north of Pam Marina Gulf Blvd., on the south on 775, and east from San Casa Drive on 776 to Lemon Bay and Manasota Key on the west. A compilation of statistics indicates that the 1974 population of Englewood is 18,500 persons with projected 1979 and 1984 populations of 37,000 and 74,000, respectively. It is asserted that from 1950 to 1970 the population of Charlotte County increased over 500 percent while the population of Sarasota County increased over 300 percent. S-C Corp. points to various indices of local growth such as substantial increases in local bank assets and school enrollment.

9. In a response to S-C Corp.'s petition Mr. Salter agrees to its point that it would be in the public interest to delete Channel 252A from Arcadia in order to assign it to the two communities of Lake Placid and Englewood.<sup>1</sup>

10. A brief informal comment opposing both Mr. Salter's and S-C Corp.'s peti-

tions was filed by Mr. Albert G. Erickson on July 16, 1974. Mr. Erickson expressed his intention to apply for the use of Channel 252A at Arcadia.

11. An admittedly late filing (on August 12, 1974) of Arcadia-Punta Gorda responded to both Mr. Salter's and S-C Corp.'s petitions by announcing an intention to apply for the use of Channel 252A at Arcadia. Objections to the late filing were made by both Mr. Salter and S-C Corp. on the basis of its lateness. We acknowledge that Mr. Salter and S-C Corp. are clearly correct with respect to the undesirability of accepting a late filing in a rule making proceeding. Hence, we are not accepting Arcadia-Punta Gorda's late filing of August 12, 1974, in this matter. However, we do note Mr. Erickson's statement of intention to file for the use of Channel 252A at Arcadia which was timely filed (see paragraph 10, *supra*) and we take official notice of the fact that Arcadia-Punta Gorda filed an application for the use of Channel 252A at Arcadia on August 27, 1974, BPH-9148.

12. Our engineering study indicates that preclusion as a result of both the Englewood and Lake Placid proposals occurs only on Channel 252A. The six channels adjacent to Channel 252A are, in both cases, already precluded by existing assignments, not including the Arcadia assignment. Co-channel preclusion occurring under the Lake Placid proposal affects only a small area of 30 square miles in addition to that occurring from the existing Arcadia assignment. This area extends between Immokalee and Lake Okeechobee, Florida, and contains no communities with populations greater than 1,000 persons. Co-channel preclusion occurring under the Englewood proposal affects a similarly small area of 39 square miles in addition to that present as a result of the existing Arcadia assignment. This area is north of Naples, Florida. Naples appears to have ample local radio service. S-C Corp.'s engineering statement notes that deletion of the Arcadia assignment of Channel 252A and its reassignment to Lake Placid and/or Englewood will permit the additional use of Channel 252A in a formerly precluded 101.5 square-mile area around Immokalee, Florida. We find this technically accurate as to the size of the new area but not telling because the only community existing within that area is Immokalee and Channel 252A is not presently excluded from assignment to Immokalee by our rules notwithstanding its assignment at Arcadia.

13. As an aid in determining what course of action better reflects the public interest, the Commission requests S-C Corp., Russell G. Salter, and Arcadia-Punta Gorda to furnish, for Englewood, Lake Placid, and Arcadia, respectively, a *Roanoke Rapids-Goldsboro, N.C.* showing, 9 F.C.C. 2d 672 (1967). This showing should, of course, assume

<sup>1</sup> Our study indicates that should Channel 252A be deleted at Arcadia it can be assigned to both Englewood and Lake Placid. In order for the channel to be available at both communities the antenna site for the Lake Placid assignment must be 6.7 miles north-northwest of the community and the Englewood antenna site must be approximately 1 mile west of that community.

<sup>2</sup> This comment was timely filed in connection with S-C Corp.'s petition, Public Notice of which was given on June 21, 1974.

the operation of both existing stations and channel assignments with either existing operating facilities or those set forth in the *Roanoke Rapids* decision depending upon which is greater.

14. We propose for consideration the following alternative amendments to § 73.202(b) of our rules with respect to the cities listed below:

City	Channel No.	
	Present	Proposed
Alternative I		
Arcadia, Fla.	252A	252A
Lake Placid, Fla.		
Englewood, Fla.		
Alternative II		
Arcadia, Fla.	252A	
Lake Placid, Fla.		252A
Englewood, Fla.		252A

15. Comments in this proceeding must be filed on or before July 7, 1975, and reply comments must be filed on or before July 28, 1975.

16. Authority for the institution of this rule making proceeding and the procedural rules and regulations governing it are set out and/or cited in the attached Appendix.

Adopted: May 13, 1975.

Released: May 21, 1975.

FEDERAL COMMUNICATIONS COMMISSION,  
[SEAL] WALLACE E. JOHNSON,  
Chief, Broadcast Bureau.

APPENDIX  
1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and section 0.281(b)(6) of the Commission's rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are

filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in sections 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b), and (c) of the Commission rules.)

5. *Number of copies.* In accordance with the provisions of section 1.419 of the Commission's rules and regulations, an original and fourteen copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW, Washington, D.C.

[FR Doc. 75-13924 Filed 5-29-75; 8:45 am]

## [ 47 CFR Part 73 ]

[Docket No. 20483; RM-2422]

FM BROADCAST STATIONS;  
CHARLOTTESVILLE, VIRGINIA  
Table of Assignments

In the matter of amendment of § 73.202(b), table of assignments, FM Broadcast Stations. (Charlottesville, Virginia.)

1. *Petitioner, proposal and comments.* Petitioner, WUVA, Inc., a non-profit, non-stock, membership corporation organized under the laws of Virginia. Its membership is composed entirely of students of the University of Virginia and it states that it has operated carrier-current radio Station WUVA since 1947.<sup>1</sup>

*Proposal.* Assign Channel 224A to Charlottesville, Virginia. This proposal can be adopted without affecting existing FM assignments elsewhere.

*Comments.* In objection to the WUVA proposal, Clay Realty Co. (Clay), licensee of Stations WCHV and WCCV-FM, Charlottesville, contends, among other things, that there are sufficient aural services currently available to fill the university-related needs of the Charlottesville community. Clay correctly points out that the service needs of Charlottesville, not the University of Virginia, should form the basis for our consideration. However, WUVA does not disagree. It seeks a commercial FM assignment to serve Charlottesville. That its membership is composed entirely of students is not relevant at the rule making level.

<sup>1</sup> Carrier-current stations operate under Part 15 of the Commission Rules without individual license.

## PROPOSED RULES

2. *Location, population, and present aural service.*

*Location.* Charlottesville is the seat of Albemarle County and is located approximately 65 miles northwest of Richmond, Virginia.

*Population.* Charlottesville—38,880; Albemarle County—37,780 (county figure does not include Charlottesville City population). All population figures are from the 1970 U.S. Census.

*Present aural service.* Charlottesville transmission services include: FM Stations WCCV-FM (Channel 248) and WQMC (Channel 237A); noncommercial educational FM Station WTJU (Channel 217A); and full-time AM Stations WCHV, WINA, and WELK.

3. *Preclusion considerations.*

We are told that no new preclusions would result to Channels 222, 223, 226, and 227; that the preclusion area that would occur for Channel 221A contains only 2,655 persons in a 62 square mile area and contains no communities listed in the U.S. Census; and that the preclusion that would occur for Channel 225 would be to a 26 square mile area on the eastern slopes of the Blue Ridge Mountains containing approximately 1,000 persons. The following cities are within the Channel 224A preclusion area: Staunton (pop. 24,504), Waynesboro (pop. 16,707), Crozet (pop. 1,434) and Monterey (pop. 223). Staunton has one full-time AM station (WTON), one daytime-only AM station (WAFB), and one FM station (WQMC). Waynesboro has two full-time AM stations (WANV and WAYB). Crozet has a daytime-only AM station and Monterey has no local aural service. WUVA believes that other channels are available for assignment to Waynesboro and Staunton<sup>2</sup> and says that, pending final calculations, it will submit them in this rule making proceeding. WUVA should also indicate whether other channels are available for assignment to Crozet but due to its size need not do so for Monterey.

4. *Comments.* Ordinarily, two FM transmission services are considered adequate for a com-

<sup>2</sup> Waynesboro and Staunton are located in the West Virginia Quiet Zone (Commission Rule § 73.215(a)) which was established to protect the work of the National Radio Astronomy Observatory and the Naval Radio Research Observatory from harmful interference. Channel 224A was at one time assigned to Waynesboro and applications were filed for its use. However, no agreement concerning the technical aspects of the proposed operations was reached between the applicants and both observatories. In order to avoid the impression that Channel 224A was available on the same basis as other channels listed in the FM Table of Assignments, the Commission deleted it from the Table indicating that it would consider reassigning it there if a petitioner and the observatories reach an agreement as to the proposal's technical feasibility. A channel assignment was also deleted from Staunton (6 F.C.C. 2d 793 (1967)). Under these circumstances, consideration will be given to the fact that the Commission has received no petitions seeking assignments for Staunton or Waynesboro since channels were deleted from there seven years ago.

munally of Charlottesville's size and population. However, we have made assignments in excess of our general guidelines when the petitioner has shown that a need for such an assignment exists and that it would not adversely affect future assignments to the area. Therefore, WUVA should address itself to these points in its comments. We believe that WUVA has made a sufficient showing to merit further consideration of its proposal in a rule making proceeding.

5. Accordingly, the Commission proposes to amend § 73.202(b) of the Commission's rules, the FM Table of Assignments as follows:

City	Channel No.	
	Present	Proposed
Charlottesville, Va.	237A, 248	224A, 237A, 248

6. The Commission's authority to institute rule making proceedings; showings required; cut-off procedures; and filing requirements are contained in the attached Appendix and are incorporated into this *Notice of Proposed Rule Making*.

7. Interested parties may file comments on or before July 7, 1975, and reply comments on or before July 28, 1975.

Adopted: May 13, 1975.

Released: May 21, 1975.

FEDERAL COMMUNICATIONS COMMISSION,  
[SEAL] WALLACE E. JOHNSON,  
Chief, Broadcast Bureau.

## APPENDIX

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and section 0.281(b)(6) of the Commission's rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and public notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If filed later than

that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in sections 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the Notice of Proposed Rule Making to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission rules.)

5. *Number of copies.* In accordance with the provisions of section 1.419 of the Commission's rules and regulations, an original and fourteen copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

[FR Doc. 75-13925 Filed 5-29-75; 8:45 am]

## INTERNATIONAL TRADE COMMISSION

[19 CFR Part 201]

### INFORMATION AVAILABLE TO THE PUBLIC

#### Fee Schedule; Proposed Amendment

The Commission is considering an amendment to Title 19, Part 201, of the Code of Federal Regulations that would revise subparagraph (a) to § 201.20 concerning the schedule of fees for searches and related services rendered under the Freedom of Information Act, as amended (5 U.S.C. 552).

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted to the Office of the Secretary, United States International Trade Commission, Washington, D.C. 20436. All communications received on or before June 30, 1975, will be considered before action is taken on the proposed amendment. Comments received will be available for public examination in the Office of the Secretary.

The Commission's proposed changes would reflect both the recent experience of the agency with requests for records not filed centrally within the Office of the Secretary and recent analyses of the distribution of Commission personnel at the GS grade levels 2 through 18. The proposed charges reflect the average weighted salary for all Commission employees at GS-2 through GS-10 who could be called upon to perform searches and the average weighted salary for all Commission employees at GS-11 through GS-18 who could be called upon to perform searches. In the proposed amendment the charges for the direct costs of other services, presently described in general terms only, allows a charge for

nonroutine types of services in response to requests, such as computer costs.

§ 201.20(a) of the Code of Federal Regulations is proposed to be revised to read as follows:

#### § 201.20 Fees.

(a) Search for records—(1) The charge will be computed at the rate of \$5.35 per hour for actual search time spent by agency personnel in salary grades GS-2 through GS-10 and at the rate of \$11.65 per hour for actual search time by agency personnel in salary grades GS-11 through GS-18; provided, however, that no charge will be made for any search of only one-half hour or less. (2) When no specific fee has been established for a service performed for a requester, other than searches provided for above, the Secretary is authorized to charge as the fee actual costs to the agency within the meaning of 5 U.S.C. 552(a) (4) (A). An example of a service covered by this latter provision is when the search involves computer time.

By order of the Commission.

Issued: May 27, 1975.

KENNETH R. MASON,  
Secretary.

[FR Doc. 75-14088 Filed 5-29-75; 8:45 am]

## NUCLEAR REGULATORY COMMISSION

[10 CFR Part 20]

### STANDARDS FOR PROTECTION AGAINST RADIATION

#### Personnel Monitoring Reports

The Nuclear Regulatory Commission has under consideration proposed amendments to 10 CFR Part 20. The proposed amendments would extend to all NRC specific licensees the requirements of § 20.407 for the submission of an annual statistical summary report of estimated whole body radiation doses.

The amendments proposed in this notice do not involve any changes in requirements for the provision and use of personnel monitoring equipment or the records of personnel monitoring data that must be kept. The changes relate solely to the reporting of the data.

On December 19, 1968 (33 FR 18926), amendments to 10 CFR Part 20 were published by the Atomic Energy Commission (licensing and related regulatory functions of the AEC were transferred to the NRC pursuant to section 201 of the Energy Reorganization Act of 1974) incorporating into the Commission's regulations requirements for the annual reporting of personnel monitoring information by four categories of licensed activities. The four categories of licensees identified in § 20.407(a) are those that were considered to involve the greatest potential for significant occupational radiation doses.

At the same time, reports by the four categories of licensees were required pursuant to § 20.408 on the exposure of individuals to radiation and radioactive

material upon their termination of employment or work assignment in a licensee's facility. This requirement was justified, primarily, as a means of evaluating the likelihood of significant multiple doses being received by a so called "transient worker".

On January 4, 1974 (39 FR 1000), AEC published an amendment to § 20.407 to require the annual reporting of only a statistical summary of the estimated whole body exposures, rather than the actual estimated exposures to any body part of a named individual that exceeded in a year the applicable quarterly limit. This amendment provides additional data in that it requires submission of a statistical summary of all of the exposures estimated to have been received by individuals who are required to be monitored pursuant to §§ 20.202(a) or 34.33(a). Further, some licensees choose to include data on individuals who were provided personnel monitoring equipment as part of good health physics practice even though it could have been shown that such monitoring was not required.

The Commission considers the information obtained pursuant to the required reports to be essential to the evaluation of the risk of radiation exposure associated with the related activities. The data permit a meaningful comparison of current exposure experience among types of licensees and among licensees within each type. The data are being used in the identification of situations to be studied further in order that guidance can be developed on action that should be taken to keep occupational radiation exposures "as low as practicable". However, it should be noted that the personnel monitoring data do not permit evaluation of what occupational exposures are "as low as practicable". Such evaluation requires study of the specific factors associated with a specific facility and activity.

Therefore, in order to permit comparable evaluation of the occupational radiation exposure risks associated with all categories of licensed activities, the proposed amendment to § 20.407 that follows, would extend the reporting requirements of that section to all activities specifically licensed by the NRC.

Section 20.408 would be amended only to include specification of the four categories of licensees that continue to be required to submit reports of individual exposure to radiation and radioactive material upon termination of individual employment or work assignment in their facilities. Those categories are currently set out in § 20.407 and incorporated in § 20.408 by reference.

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, and section 553 of title 5 of the United States Code, notice is hereby given that adoption of the following amendments to 10 CFR Part 20 is contemplated. All interested persons who desire to submit written comments or suggestions for consideration in connection with the proposed amendments should send them to the

Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section by July 14, 1975. Copies of the comments on the proposed amendments may be examined at the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C.

1. Section 20.407 of 10 CFR Part 20 is revised to read as follows:

#### § 20.407 Personnel monitoring reports.

Each person specifically licensed by the Commission shall, within the first quarter of each calendar year, submit to the Executive Director for Operations, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, the following reports covering the preceding calendar year:

(a) A report of either (1) the total number of individuals for whom personnel monitoring was required under §§ 20.202(a) or 34.33(a) of this chapter during the calendar year; or (2) the total number of individuals for whom personnel monitoring was provided during the calendar year: *Provided*, that such total includes at least the number of individuals required to be reported under paragraph (a) (1) of this section. The report shall indicate whether it is submitted in accordance with paragraph (a) (1) or (a) (2) of this section. If personnel monitoring was not required to be provided to any individual by the licensee under §§ 20.202(a) or 34.33(a) of this chapter during the calendar year, the licensee shall submit a negative report indicating that such personnel monitoring was not required.

(b) A statistical summary report of the personnel monitoring information recorded by the licensee for individuals for whom personnel monitoring was either required or provided, as described in paragraph (a) of this section, indicating the number of individuals whose total whole body exposure recorded during the previous calendar year was in each of the following estimated exposure ranges:

Estimated whole body exposure range (Rems): <sup>1</sup>	Number of individuals in each range
No measurable exposure.....	
Measurable exposure less than 0.1.....	
0.1 to 0.25.....	
0.25 to 0.5.....	
0.5 to 0.75.....	
0.75 to 1.....	
1 to 2.....	
2 to 3.....	
3 to 4.....	
4 to 5.....	
5 to 6.....	
6 to 7.....	
7 to 8.....	
8 to 9.....	
9 to 10.....	
10 to 11.....	
11 to 12.....	
12+.....	

<sup>1</sup>Individual values exactly equal to the values separating Exposure Ranges shall be reported in the higher range.

The low exposure range data are required in order to obtain better information about the exposures actually recorded. This section does not require improved measurements.

2. Section 20.408, 10 CFR Part 20, is revised to read as follows:

#### § 20.408 Reports of personnel monitoring on termination of employment or work.

(a) This section applies to each person licensed by the Commission to:

(1) Operate a nuclear reactor designed to produce electrical or heat energy pursuant to §§ 50.21(b) or 50.22 of this chapter or a testing facility as defined in § 50.2(r) of this chapter;

(2) Possess or use byproduct material for purposes of radiography pursuant to Parts 30 and 34 of this chapter;

(3) Possess or use at any one time, for purposes of fuel processing fabrication, or reprocessing, special nuclear material in a quantity exceeding 5,000 grams of contained uranium-235, uranium-233, or plutonium or any combination thereof pursuant to Part 70 of this chapter; or

(4) Possess or use at any one time, for processing or manufacturing for distribution pursuant to Part 30, 32, or 33 of this chapter, byproduct material in quantities exceeding any one of the following quantities:

Radionuclide: <sup>2</sup>	Quantity in curies
Cesium-137.....	1
Cobalt-60.....	1
Gold-198.....	100
Iodine-131.....	1
Iridium-192.....	10
Krypton-85.....	1,000
Promethium-147.....	10
Technetium-99m.....	1,000

<sup>2</sup>The Commission may require, as a license condition, or by rule, regulation or order pursuant to § 20.502, reports from licensees who are licensed to use radionuclides not on this list, in quantities sufficient to cause comparable radiation levels.

(b) When an individual terminates employment with a licensee described in paragraph (a) of this section, or an individual assigned to work in such a licensee's facility but not employed by the licensee, completes his work assignment in the licensee's facility, the licensee shall furnish to the Executive Director for Operations, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, a report of the individual's exposure to radiation and radioactive material, incurred during the period of employment or work assignment in the licensee's facility, containing information recorded by the licensee pursuant to §§ 20.401(a) and 20.108. Such report shall be furnished within 30 days after the exposure of the individual has been determined by the licensee or 90 days after the date of termination of employment or work assignment, whichever is earlier.

(Sec. 161, Pub. L. 83-703, 68 Stat. 948 (42 U.S.C. 2201); sec. 201, Pub. L. 93-438, 88 Stat. 1242 (42 U.S.C. 5841))

Dated at Washington, D.C. this 23rd day of May 1975.

For the Nuclear Regulatory Commission.

SAMUEL J. CHILK,  
Secretary of the Commission.

[FR Doc. 75-14061 Filed 5-29-75; 8:45 am]

## DEPARTMENT OF LABOR

Office of the Secretary

[29 CFR Part 4]

### LABOR STANDARDS FOR FEDERAL SERVICE CONTRACTS

#### Public Hearing

On April 9, 1975, the Wage and Hour Division, Employment Standards Administration, published proposed amendments to Part 4 in the FEDERAL REGISTER (40 FR 16082), and written data, views or arguments concerning the amendments were invited. The proposed amendments resulted from a study by an inter-agency working group of the administration of the Service Contract Act, as amended (41 U.S.C. 351, et seq.).

The following is a summary of the changes in the rules which were proposed in 40 FR 16082 and which should be consulted for details:

(1) The obligations of an employer under a "successor" contract for work previously under contract, to pay not less than the wages and fringe benefits of his predecessor where they were reflected in a collective bargaining agreement, will apply only where substantially the same services will be performed at the same place as the previous contract.

(2) A cut-off date is established for collective bargaining agreements which create the "successorship" obligation, and for requests for hearings to determine whether such agreements are substantially at variance with wages prevailing in the locality of the place of performance.

(3) Where the place of performance is unknown at the time bids are solicited, the wage and fringe benefit determinations will reflect rates applicable to the ultimate place of contract performance.

(4) A prospective bidder who has a collective bargaining agreement will be allowed to bid solely on the basis of that agreement under section 2(a) of the Act.

As a result of the comments received, it has been determined that an informal hearing is desirable. Accordingly it will be held on Monday, June 23, 1975, in the Department of Labor Auditorium, New Department of Labor Building, 200 Constitution Avenue NW., Washington, D.C., at which time and place interested persons may testify on the proposed amendments to Part 4, as outlined above, and the procurement problems which prompted the proposed amendments.

Beginning at 9:30 a.m. e.d.t. on June 23, 1975, the presiding Administrative Law Judge will hold a pre-hearing conference in order to establish the order and time for the presentations, and in order to settle any other matters relating to the proceedings. All persons intending to make presentations should attend the pre-hearing conference, which is open to the public. The public hearing will imme-

diately follow the pre-hearing conference, and will be continued on June 24, 1975, if necessary.

Persons desiring to appear at the hearing must file a written notice of intention to appear along with four duplicate copies with Mr. Warren D. Landis, Acting Administrator, Wage and Hour Division, 200 Constitution Avenue, NW, Room S-3502, U.S. Department of Labor, Washington, D.C. 20210. In order to facilitate scheduling the appearances, such notices should be filed before Monday, June 16, 1975.

The notice should state the name and address of the person wishing to appear, the capacity in which he will appear, and the approximate amount of time required for the presentation. The notice should also include, or be accompanied by, a brief statement of the presentation to be made.

The oral proceedings shall be reported verbatim. The use of prepared statements by witnesses is encouraged. An original and four copies of all documents to be used should be submitted at the hearing.

Persons who wish to submit data, views, or arguments, but who do not wish to attend the hearing, may mail such written comments along with four duplicate copies to Mr. Warren D. Landis at the above address by June 23, 1975. Such comments will be submitted to the Administrative Law Judge for inclusion in the hearing record, together with all comments already received in response to the proposed amendments to Part 4.

The Administrative Law Judge shall have all the powers necessary or appropriate to conduct a fair and full informal hearing, including the powers:

- To regulate the course of the hearing;
- To dispose of procedural requests, objections, and comparable matters;
- To confine the presentations to matters pertinent to the requested information;
- To regulate the conduct of those present at the hearing by appropriate means;

(e) In his discretion, to keep the record open for a reasonable stated time to receive written data from any person who has participated in the oral proceeding.

Following the close of the hearing, the presiding Administrative Law Judge shall certify the record thereof to the Acting Administrator of the Wage and Hour Division for transmittal to the Assistant Secretary for Employment Standards.

A copy of the record will be available for public inspection and examination at the Office of Warren D. Landis, Acting Administrator, Room S-3502, New Department of Labor Building, 200 Constitution Avenue, NW., Washington, D.C. The entire record or any part thereof may be purchased as provided in 29 CFR 70.62(c) at the actual cost of duplication as computed pursuant to the fee schedule in 29 CFR 70.62(b).

Signed at Washington, D.C. on this 28th day of May, 1975.

BERNARD E. DELURY,  
Assistant Secretary for  
Employment Standards.

#### INTERSTATE COMMERCE COMMISSION

[49 CFR Parts 1241, 1249, 1250, 1251]  
[No. 36126]

#### CONFIDENTIAL ANNUAL REPORT SUPPLEMENT FOR CERTAIN CARRIERS AND REVISION TO RAILROAD ANNUAL REPORT

##### Revision; Correction

This is to correct the notice of proposed rulemaking and order decided on April 4, 1975, served May 9, 1975, and published in the FEDERAL REGISTER May 22, 1975 (40 FR 22466), for the following inadvertent errors:

- The title is changed by deleting the references to class I carriers because the proposed rules would also apply to certain carriers designated as class A and other carriers for which there is no class designation.

2. Appendices F through O of the notice are sample reports designed to apply to each particular mode of carrier under the jurisdiction of this Commission. However, each appendix in the first sentence of page 2 contains this description: "... all Class I carriers subject to the provisions of Part I and Part II of the Interstate Commerce Act ...". The references to class I carriers and the Part of the Act are replaced by the following to specify the particular mode and part which correspond to each Appendix.

Appendix	As corrected
F-----	Class I railroad companies subject to part I.
G-----	Refrigerator car lines with annual operating revenues of \$1,000,000 or more subject to part I.
H-----	Maritime carriers with annual operating revenues of \$1,000,000 or more subject to part III.
I-----	Pipeline companies with annual operating revenues of \$1,000,000 or more subject to part I.
J-----	Express companies with annual operating revenues of \$1,000,000 or more subject to part I.
K-----	Class A freight forwarders subject to part IV.
L-----	Class I electric railways subject to part I.
M-----	Class I motor carriers of property subject to part II.
N-----	Class I motor carriers of passengers subject to part II.
O-----	Class A inland and coastal waterways carriers subject to part III.

3. The decision date is corrected to April 4, 1975.

Service of this notice does not change the date on which written statements shall be filed.

[SEAL] JOSEPH M. HARRINGTON,  
Acting Secretary.

[FR Doc.75-14204 Filed 5-29-75;8:45 am]

## notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

#### DEPARTMENT OF THE TREASURY

[Public Debt Series No. 17-75]

##### Office of the Secretary

#### TREASURY NOTES OF SERIES O-1976

##### Interest Rate

May 23, 1975.

The Secretary of the Treasury announced on May 22, 1975, that the interest rate on the notes described in Department Circular—Public Debt Series—No. 17-75, dated May 16, 1975, will be 6½ percent per annum. Accordingly, the notes are hereby redesignated 6½ percent Treasury Notes of Series O-1976. Interest on the notes will be payable at the rate of 6½ percent per annum.

JOHN K. CARLOCK,  
Fiscal Assistant Secretary.

##### Office of the Secretary

#### DOD ADVISORY GROUP ON ELECTRON DEVICES

##### Advisory Committee Meeting

Working Group A (Mainly Microwave Devices) of the DOD Advisory Group on Electron Devices (AGED) will meet in closed session at 201 Varick Street, 9th Floor, New York, NY 10014 on June 23, 1975.

The purpose of the Advisory Group is to provide the Director of Defense Research and Engineering, the Director, Defense Advanced Research Projects Agency and the Military Departments with technical advice on the conduct of economical and effective research and development programs in the area of electron devices.

The Working Group A meeting will be limited to review of research and development programs which the Military Departments propose to initiate with industry, universities or in their laboratories. The microwave area includes programs on developments and research related to microwave tubes, solid state microwave, electronic warfare devices, millimeter wave devices, and passive devices. The review will include classified program details and will result in advice or recommendations to government research and development agencies preliminary to decisions or actions, the preliminary disclosure of which would interfere with the orderly conduct of government.

In accordance with section 10(d) of Appendix I, Title 5, United States Code, it has been determined that this Advisory Group meeting concerns matters listed in section 552(b) of Title 5 of the United States Code, specifically subparagraphs

(1) and (5) thereof, and that accordingly this meeting will be closed to the public.

MAURICE W. ROCHE,  
Director, Correspondence and  
Directives, OASD (Comptroller).

#### NEW MEXICO Notice of Applications

MAY 21, 1975.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), Natural Gas Pipeline Company of America has applied for a 4 inch and two 6 inch natural gas pipeline and 3 meter site rights-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 19 S., R. 25 E.  
Sec. 34, W $\frac{1}{2}$ NW $\frac{1}{4}$  and SE $\frac{1}{4}$ NW $\frac{1}{4}$ .  
T. 20 S., R. 25 E.  
Sec. 21, NW $\frac{1}{4}$ SW $\frac{1}{4}$ .  
Sec. 29, NW $\frac{1}{4}$ NE $\frac{1}{4}$ , SE $\frac{1}{4}$ NW $\frac{1}{4}$ , E $\frac{1}{2}$ SW $\frac{1}{4}$ , and SW $\frac{1}{4}$ SW $\frac{1}{4}$ .

These pipelines will convey natural gas across 1.465 miles and .05 acres of national resource lands in Eddy County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the applications should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1397, Roswell, NM 88201.

FRED E. PADILLA,  
Chief, Branch of Lands  
and Minerals Operations.

[Wyoming 51007]

#### WYOMING Application

MAY 22, 1975.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), Stauffer Chemical Company of Wyoming has applied for a natural gas pipeline right-of-way across the following lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 20 N., R. 101 W.  
Sec. 4, SW $\frac{1}{4}$ SW $\frac{1}{4}$ .  
Sec. 8, SE $\frac{1}{4}$ SE $\frac{1}{4}$ .

The pipeline will convey natural gas from the Champlin 195 Amoco "A" Well No. 1 in the SE $\frac{1}{4}$ , sec. 5 and the Champlin 172 Amoco No. 1 Well in the NW $\frac{1}{4}$ , sec. 9, to an existing pipeline in the NE $\frac{1}{4}$ , sec. 17, all in T. 20 N., R. 101 W., Sweetwater County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1869, Rock Springs, WY 82901.

PHILIP C. HAMILTON,  
Chief, Branch of Lands  
and Minerals Operations.

#### WYOMING Application

MAY 22, 1975.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), Western Transmission Corporation has applied for natural gas pipeline rights-of-way across the following lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 14 N., R. 91 W.  
secs. 12 and 13.  
T. 16 N., R. 91 W.  
secs. 21, 22, 28 and 29.

The pipeline will convey natural gas from wells located in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ , sec. 13, T. 14 N., R. 91 W. and SW $\frac{1}{4}$ SW $\frac{1}{4}$ , sec. 22, T. 16 N., R. 91 W. to existing pipelines in Carbon County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether

the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should send their name and address to the District Manager, Bureau of Land Management, P.O. Box 670, Rawlins, WY 82301.

PHILIP C. HAMILTON,  
Chief, Branch of Lands  
and Minerals Operations.

8. CERTIFIED CHECK OR MONEY ORDER (If applicable) PAYABLE TO THE U.S. FISH AND WILDLIFE SERVICE ENCLOSED IN AMOUNT OF: \$ NA		9. IF REQUIRED BY ANY STATE OR FOREIGN GOVERNMENT, DO YOU HAVE THEIR APPROVAL TO CONDUCT THE ACTIVITY YOU PROPOSE? <input type="checkbox"/> YES <input checked="" type="checkbox"/> NO (If yes, list jurisdictions and type of documents): Our Fisheries Biologist, Dr. James E. Johnson, has applied for a Colorado collecting permit.	
10. DESIRED EFFECTIVE DATE: May 1, 1975		11. DURATION NEEDED: Dec. 31, 1977	
12. ATTACHMENTS. THE SPECIFIC INFORMATION REQUIRED FOR THE TYPE OF LICENSE/PERMIT REQUESTED (SEE 50 CFR 22.151) MUST BE ATTACHED. IT CONSTITUTES AN INTEGRAL PART OF THIS APPLICATION. LIST SECTIONS OF 50 CFR UNDER WHICH ATTACHMENTS ARE PROVIDED: _____			
CERTIFICATION I HEREBY CERTIFY THAT I HAVE READ AND AM FAMILIAR WITH THE REGULATIONS CONTAINED IN TITLE 50, PART 13, OF THE CODE OF FEDERAL REGULATIONS AND THE OTHER APPLICABLE PARTS IN SUBCHAPTER B OF CHAPTER 1 OF TITLE 50, AND I FURTHER CERTIFY THAT THE INFORMATION SUBMITTED IN THIS APPLICATION FOR A LICENSE/PERMIT IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE AND BELIEF. I UNDERSTAND THAT ANY FALSE STATEMENT HEREIN MAY SUBJECT ME TO THE CRIMINAL PENALTIES OF 18 U.S.C. 1001.			
SIGNATURE (If individual) 		DATE 4-11-75	

The Bureau of Land Management is presently developing a fisheries management program in the State of Colorado. One aspect of these plans is management of National Resource Lands to perpetuate Threatened and Endangered species of fish. This will include maintenance and enhancement of habitat in the known range of species designated as Threatened or Endangered by the Secretary of the Interior and the Colorado Division of Wildlife. We also hope to expand the greatly reduced distribution of these species by locating suitable habitat in their historic range, reintroducing the species and managing specifically for them.

Those fish species on the Federal Endangered Species list presently found in Colorado are: (1) *Salmo clarki stomias* (Greenback cutthroat trout); (2) *Gila cypha* (Humpback chub); (3) *Ptychocheilus lucius* (Colorado squawfish).

Those species presently recognized by the Colorado Division of Wildlife as endangered are: (1) *Gila cypha* (Humpback chub); (2) *Gila elegans* (Bonytail chub); (3) *Ptychocheilus lucius* (Colorado squawfish); (4) *Xyrauchen texanus* (Razorback sucker). Their threatened species list for fish includes: (5) *Salmo clarki stomias* (Greenback cutthroat trout); (6) *Salmo clarki virginalis* (Rio Grande cutthroat trout); (7) *Salmo clarki pleuriticus* (Colorado cutthroat trout); (8) *Hybopsis aestivalis tetrane-mos* (Arkansas River speckled chub); (9) *Etheostoma cragini* (Arkansas darter); (10) *E. nigrum nigrum* (Central johnny darter); (11) *E. spectabile pulchellum* (Plains orange throat darter).

Because of the diversity of these species and only partial knowledge of their existing range, specific collecting localities are not included in this permit request. It seems better to suggest entire drainage systems within the state until more refined distribution knowledge is available. Enclosed is an Information Memo from this office (CSO 75-12) describing somewhat more specifically the areas presently thought to contain the endangered species of fish and preliminary management plans for them (Attachment 2).

Our fisheries biologist, Dr. James E. Johnson, became a staff member in January, 1975. As part of his duties he is charged with initiating and developing the above programs. His expertise in fisheries biology and ichthyology are documented in the enclosed publication list (Attachment 3). Dr. Johnson received his Ph. D. in zoology from Arizona State University where he worked with introduced and native fish of the Colorado River drainage. In the past he has held state collecting permits in Arizona, Texas, Florida, Massachusetts and Virginia, and has presently applied for one in Colorado. Dr. Johnson has also been nominated as BLM's representative to the Colorado Squawfish Recovery Team presently being formed. He is a member

of the American Fisheries Society, American Society of Ichthyology and Herpetology, American Institute of Fisheries Research Biologists, American Society of Limnology and Oceanography, Southwestern Association of Naturalists, Sigma Xi, and is certified a professional fisheries biologist by AFS.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), U.S. Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. All relevant comments received on or before June 30, 1975 will be considered.

Dated: May 23, 1975.

C. R. BAVIN,  
Chief, Division of Law Enforcement,  
U.S. Fish and Wildlife Service.

<sup>1</sup> RFBC—Rare feline breeding compound.

A written contract or other agreement was not contracted.

The specimens purchased would be primarily involved in captive behavior research and propagation at the center. The female clouded leopard is earmarked to join the sole male in order to attempt breeding of this very rare species. The two pair of lemurs will join the existing breeding group of lemurs already in collection.

The Zoo Safari Costa Brava is in a stage of completion at the time of this writing. It is located on the Costa Brava in Spain. The developer and owner of this park is a physician from Casa Blanca, Morocco who has many years experience in veterinarian work on exotic cats and primates. This park was designed to provide European zoological, scientific and research institutions with captive born specimens of wild fauna. The address of this facility is as mentioned above.

All specimens have been captive bred at the Rare Feline Breeding Compound for

#### ENDANGERED SPECIES PERMIT Receipt of Application

Notice is hereby given that the following application for a permit is deemed to have been received under section 10 of the Endangered Species Act of 1973 (Pub. L. 93-205).

Applicant: Robert E. Baudy, Rare Feline Breeding Compound, Post Office Box 132, Center Hill, Florida 33514.

Director, Bureau of Sport Fisheries and Wildlife, United States Department of the Interior, Washington, D.C. 20240.

FEBRUARY 6, 1975.

DEAR SIR: This attachment is to provide additional information to my request for exportation of animals to: Dr. Leon Barbier, Zoo Safari Costa Brava, Centro Para Cria Y Reproduccion De Animales Salvajes (Center of Reproduction for Exotic Animals), Barcelona-11, Spain.

Dr. Leon Barbier has recently made a new trip to my breeding farm and has purchased additional animals to the ones that we have applied for in the past.

In compliance with 17.23: The common and scientific names of the species, number, age and sex of the wildlife to be covered in this permit are as follows:

several generations with the exception of the female black jaguar and kodiak bears. Such a resume is not necessary due to the fact that this application is for an exportation permit.

Live wildlife is not to be imported.

I hereby certify that I have read and am familiar with the regulations contained in Title 50, Part 13, of the Code of Federal Regulations and the other applicable parts in Subchapter B of Chapter 1 of Title 50, and I further certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief.

I understand that any false statement hereon may subject me to the criminal penalties of 18 U.S.C. 1001.

Sincerely yours,

ROBERT E. BAUDY,  
Owner, Rare Feline  
Breeding Compound.

## NOTICES

ENDANGERED SPECIES PERMIT  
Receipt of Application

Notice is hereby given that the following application for a permit is deemed to have been received under section 10

of the Endangered Species Act of 1973 (Pub. L. 93-205).

Applicant: Denver Wildlife Research Center, U.S. Fish and Wildlife Service, Federal Center, Building 16, Denver, Colorado 80225. Dr. Thomas G. Scott, Director.

 <b>DEPARTMENT OF THE INTERIOR U.S. FISH AND WILDLIFE SERVICE FEDERAL FISH AND WILDLIFE LICENSE/PERMIT APPLICATION</b>		1. APPLICATION FOR (Indicate only one) <input type="checkbox"/> IMPORT OR EXPORT LICENSE <input checked="" type="checkbox"/> PERMIT
3. APPLICANT (Name, complete address and phone number of individual, business, agency, or institution for which permit is requested) Denver Wildlife Research Center U.S. Fish and Wildlife Service Bldg. 16, Federal Center Denver, Colorado 80225 Phone: (303) 234-2283		2. BRIEF DESCRIPTION OF ACTIVITY FOR WHICH REQUESTED LICENSE OR PERMIT IS NEEDED. See Attachment A
4. IF "APPLICANT" IS AN INDIVIDUAL, COMPLETE THE FOLLOWING: <input type="checkbox"/> MR. <input type="checkbox"/> MRS. <input type="checkbox"/> MISS <input type="checkbox"/> MS. HEIGHT: 5'10" WEIGHT: 165 lbs DATE OF BIRTH: Oct. 5, 1947 COLOR HAIR: brown COLOR EYES: blue PHONE NUMBER WHERE EMPLOYED: 493-4992 SOCIAL SECURITY NUMBER: 522-66-6571 OCCUPATION: Manager-Western Peregrine Falcon Breeding Program for Cornell University ANY BUSINESS, AGENCY, OR INSTITUTIONAL AFFILIATION HAVING TO DO WITH THE WILDLIFE TO BE COVERED BY THIS LICENSE/PERMIT: NONE		5. IF "APPLICANT" IS A BUSINESS, CORPORATION, PUBLIC AGENCY, OR INSTITUTION, COMPLETE THE FOLLOWING: EXPLAIN TYPE OR KIND OF BUSINESS, AGENCY, OR INSTITUTION: The Denver Wildlife Research Center is a major research center of the U.S. Fish and Wildlife Service. From Denver, biologists conduct wildlife investigations throughout the nation. NAME, TITLE, AND PHONE NUMBER OF PRESIDENT, PRINCIPAL OFFICER, DIRECTOR, ETC.: Dr. T. G. Scott, Director 234-2283 IF "APPLICANT" IS A CORPORATION, INDICATE STATE IN WHICH INCORPORATED:

12. ATTACHMENTS. THE SPECIFIC INFORMATION REQUIRED FOR THE TYPE OF LICENSE/PERMIT REQUESTED (SEE 50 CFR 17.12(a)) MUST BE ATTACHED. IT CONSTITUTES AN INTEGRAL PART OF THIS APPLICATION. LIST SECTIONS OF 50 CFR UNDER WHICH ATTACHMENTS ARE PROVIDED: See Attachment D		
CERTIFICATION I HEREBY CERTIFY THAT I HAVE READ AND AM FAMILIAR WITH THE REGULATIONS CONTAINED IN TITLE 50, PART 17, OF THE CODE OF FEDERAL REGULATIONS AND THE OTHER APPLICABLE PARTS IN SUBCHAPTER B OF CHAPTER I OF TITLE 50, AND I FURTHER CERTIFY THAT THE INFORMATION SUBMITTED IN THIS APPLICATION FOR A LICENSE/PERMIT IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE AND BELIEF. I UNDERSTAND THAT ANY FALSE STATEMENT HEREIN MAY SUBJECT ME TO THE CRIMINAL PENALTIES OF 18 U.S.C. 1001. SIGNATURE (in ink): <i>Thomas G. Scott</i> DATE: 3-3-75		

This is an application for a permit to continue research on an endangered species, the brown pelican (*Pelecanus occidentalis*).

Relevant sections include:  
 Part 13 13.12  
 Part 14 Interstate transportation of wildlife.  
 Part 17 Endangered Wildlife.  
 Part 21 21.22, 21.23, 21.27.

## ATTACHMENT A

The Denver Wildlife Research Center wishes to engage in the following activities:

1. Visit breeding colonies and assess productivity of brown pelicans on Anacapa and Santa Cruz Islands, California; Carroll and Pelican Islands, Texas; and other colonies that may be occupied between February and August each year.

2. Collect inviable eggs and dead young in numbers as present at colonies for pesticide residue analysis.

3. Band young birds produced in colonies with U.S. Fish and Wildlife Service bands and mark young with plastic streamers attached to their legs.

4. Retrieve carcasses of brown pelicans in numbers as found dead on the Pacific and Gulf Coasts in order to analyze them from pesticide residues.

5. Transport or ship eggs and body tissues from their point of collection to offices in Victoria, Texas (Federal Bldg.), and David, California (Pedrick and Tremont Roads), and to the Denver Wildlife Research Center.

6. Hold eggshells, skins, skulls and body parts at those locations.

7. Hold up to ten live pelicans in captivity in order to rehabilitate sick and wounded birds and to study growth rates and plumage and molt sequences.

## ATTACHMENT B

The Denver Wildlife Research Center holds the following federal wildlife permits: PRT 6-8-I, PRT 6-26-C, PRT 2-11-I-75Z, 6-SP-117, 8565, 6568, 8567.

## ATTACHMENT C

AMENDMENT NUMBER ONE, SCIENTIFIC PERMIT  
 NUMBER 12, KIRKE A. KING

FEBRUARY 14, 1975.

Scientific Permit Number 12 issued to KIRKE A. KING, Wildlife Biologist, U.S. Fish and Wildlife Service, P.O. Box 2506, Victoria, Texas 77901, is hereby amended to permit Mr. King to salvage brown pelicans found dead and to salvage their nests and eggs where the nests have been abandoned or destroyed.

All other provisions of this permit shall remain the same.

TED L. CLARK,  
 Director of Wildlife.

KIRKE A. KING,  
 Signature of Permittee.

MEMORANDUM OF UNDERSTANDING BY AND BETWEEN U.S. FISH AND WILDLIFE SERVICE AND DEPARTMENT OF FISH AND GAME RELATING TO THE STUDY OF ENDANGERED AND RARE SPECIES

This Memorandum of Understanding is made and entered into this 24th day of October, 1974, by and between the U.S. Fish and Wildlife Service, hereinafter called the Service, and the Department of Fish and Game, Sacramento, California, hereinafter called Department.

## WITNESSETH:

Whereas, the Secretary of the Interior has declared 23 animals occurring in California endangered and the California Fish and Game Commission has designated 40 animals native to California endangered or rare, and

Whereas, the Service and the Department has expressed interest in conducting studies of these animals, and

Whereas, the Department is highly desirous that continuing research be done to better understand the nature and habitat needs of endangered and rare species and measures necessary to ensure their survival, and

Whereas, the parties hereto desire to coordinate studies by means of this written Memorandum of Understanding,

Now, therefore, it is mutually agreed and understood as follows:

1. The Service and Department may use the services of employees, universities and colleges, students, or graduate students to perform field and laboratory studies on endangered and rare species, including but not limited to observing, feeding, trapping, marking, banding, and releasing of live specimens.

2. It is further mutually agreed and understood that the employees, universities and colleges, students or graduate students working on endangered or rare animals shall be only authorized to do so by the Regional Director of the Service or by the Director of the Department.

3. It is mutually agreed that the Service and the Department are the only parties that can dispose of any captive endangered or rare species or parts thereof.

4. It is further mutually agreed and understood that names, of all persons authorized by the Service or Department to conduct studies on endangered or rare species, shall be provided the parties to this Memorandum of Understanding and that those persons will be provided written statements indicating that they are granted such authorization.

5. During the term hereof the Service and the Department shall confer semiannually or

more frequently, when necessary, to develop and revise coordinated programs for study of endangered or rare species. The Service and Department shall review all study proposals and shall require those authorized to conduct studies to submit written progress reports every six months. Upon termination of any major phase of study or the study itself, a progress or completion report shall be prepared and submitted to the Service and Department. It is also mutually understood that there will be a free exchange of data and information during the period covered by this agreement.

6. Unless terminated sooner by either party of this understanding, giving thirty days prior written notice of earlier termination, this agreement shall commence on the date hereof.

This Memorandum of Understanding has been executed by and on behalf of the parties hereto as of the day and year first above written.

R. KAHLER MARTINSON,  
 Regional Director,  
 U.S. Fish and Wildlife Service.

G. RAY ARNETT,  
 Director, Department of Fish and  
 Game, State of California.

## ATTACHMENT D

This permit is necessary to continue certain activities in our investigations of the relationships between pesticides and the population status of the brown pelican on the Pacific and Gulf Coasts of North America. These studies have been underway since 1969. There has been some improvement in reproductive success in California in recent years, but overall productivity there, as in Texas, remains too low to maintain the population of the species. The evaluations must be continued, at least through 1976. Our biologists are highly qualified to conduct research on pesticide-wildlife relations and are experienced in studying brown pelicans. Laboratories at the Center are well equipped with facilities and staff to perform residue analyses. Tissues and egg contents of brown pelicans will be destroyed after laboratory work is completed. Skins, skulls, and eggshells will be maintained in our museum collections.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), U.S. Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. All relevant comments received on or before June 30, 1975 will be considered.

Dated: May 23, 1975.

C. R. BAVIN,  
 Chief, Division of Law Enforcement,  
 U.S. Fish and Wildlife  
 Service.

CERTIFICATION I HEREBY CERTIFY THAT I HAVE READ AND AM FAMILIAR WITH THE REGULATIONS CONTAINED IN TITLE 50, PART 17, OF THE CODE OF FEDERAL REGULATIONS AND THE OTHER APPLICABLE PARTS IN SUBCHAPTER B OF CHAPTER I OF TITLE 50, AND I FURTHER CERTIFY THAT THE INFORMATION SUBMITTED IN THIS APPLICATION FOR A LICENSE/PERMIT IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE AND BELIEF. I UNDERSTAND THAT ANY FALSE STATEMENT HEREIN MAY SUBJECT ME TO THE CRIMINAL PENALTIES OF 18 U.S.C. 1001. SIGNATURE (in ink): <i>William A. Burnham</i> DATE: 4/17/75		

1424 NORTHEAST FRONTAGE ROAD  
 FORT COLLINS, COLORADO 80521  
 April 18, 1975.

Director, FWS-LE, U.S. Fish and Wildlife Service, Washington, D.C.

DEAR SIR: The information within is that requested in section 22.22 of the Federal Register, Vol. 39, No. 3—January 4, 1974.

21.11(a) (1) The banding permit I presently possess allows for the banding of Peregrine Falcons and other raptors except eagles or other endangered species.

(2) The purpose of the banding would be to mark all captive raised Peregrine Falcons being placed in the wild and to also band all nestlings located while selecting sites for or during the reintroducing of captive produced falcons. I also trap and band migrating falcons for John Smith and the Texas Game and Fish Department. Obviously the reason for all the above activity is to gain information relating to the Peregrine Falcon's movement and survival.

(3) My present permit authorizes me to band in Utah, Texas, Wyoming, Idaho, Montana, Nevada, Colorado, New Mexico and Arizona. These are states which peregrines may be reintroduced and studied in.

(4) No salvage specimens are anticipated but Cornell University in Ithaca, New York, would be the recipient of such specimens.

Comment: Presently I am authorized to use plastic leg bands on Peregrine Falcons in coordination with F. Prescott Ward, #9448, Edgewood Arsenal, Maryland. The authorization allows for orange leg bands w/bk numerals in Texas; light blue leg bands w/bk numerals in Utah, Wyoming, Idaho, Montana, Nevada, Colorado, New Mexico and Arizona. I would very much like to maintain this authorization as it is extremely valuable for identifying the falcons at a distance.

Thank you for your consideration.

Sincerely yours,  
 WILLIAM BURNHAM.

## National Park Service

CAPE HATTERAS NATIONAL SEASHORE  
Intention To Issue a Concession Permit

Pursuant to the provisions of section 5, of the Act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20) public notice is hereby given that thirty (30) days after the date of publication of this notice, the Department of the Interior, through the Superintendent, Cape Hatteras National Seashore, proposes to issue a concession permit to W. Brantley Twiford (dba) Manteo Flying Service authorizing him to continue to provide concession facilities and services for the public at Wright Brothers National Memorial for a period of five years from January 1, 1975, through December 31, 1979.

An analysis of the environmental impact of this proposed action has been made and it has been determined that it will not significantly affect the quality of the human environment, and that it is not a major Federal action under the National Environmental Policy Act and the guidelines of the Council on Environmental Quality. The environmental analysis may be reviewed in the Office of the Superintendent, Cape Hatteras National Seashore.

The foregoing concessioner has performed his obligations under a prior permit to the satisfaction of the National Park Service and, therefore, pursuant to the Act cited above, is entitled to be given preference in the renewal of the permit and in the negotiation of a new permit. However, under the Act cited above, the National Park Service is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted on or before June 30, 1975.

Interested parties should contact the Superintendent, Cape Hatteras National Seashore, Post Office Box 457, Manteo, North Carolina 27954, for information as to the requirements of the proposed permit.

DAVID D. THOMPSON, Jr.,  
Regional Director,  
Southeast Region.

APRIL 9, 1975.

## PROPOSED FOLK ART CENTER, BLUE RIDGE PARKWAY, NORTH CAROLINA

## Negative Declaration

After making an environmental review of the proposal of a private concessioner to develop a Folk Art Center on Blue Ridge Parkway land near Asheville, North Carolina, the National Park Service has decided not to prepare an environmental impact statement. When completed, the center would serve parkway travelers from all parts of the United States as well as the metropolitan population of Asheville. A visitor center would be included in the Folk Art Center and would be staffed on a year-round basis by National Park Service personnel.

An environmental assessment and review are on file and available for inspection at the Southeast Regional Office of the National Park Service, 3401 Whipple Avenue, Atlanta, Georgia 30344 or the Office of the Superintendent, Blue Ridge Parkway, P.O. Box 7606, Asheville, North Carolina 28807, upon request. The assessment considers the nature of the resource, available alternatives, their impacts, mitigating measures, adverse effects and additional considerations providing a basis for the conclusion that the project is not a major Federal action having a significant effect on the human environment, and that an environmental impact statement is not required.

The National Park Service intends to proceed with the project in 30 days.

DAVID D. THOMPSON, Jr.,  
Regional Director,  
Southeast Region.

[FR Doc.75-14053 Filed 5-29-75; 8:45 am]

## SOUTHEAST REGIONAL ADVISORY COMMITTEE

## Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Southeast Regional Advisory Committee will be held at 9 a.m., e.d.t., on June 17 and 18, 1975, at the Pisgah Inn, Mile Post 408, Blue Ridge Parkway, North Carolina.

The purpose of the Southeast Regional Advisory Committee is to provide for the free exchange of ideas between the National Park Service and the public and to facilitate the solicitation of advice or other counsel from members of the public on problems and programs pertinent to the Southeast Region of the National Park Service.

The members of the Advisory Committee are as follows:

Mrs. Ann Smith Bedsole (Chairman), Mobile, Alabama  
Mr. T. S. Bradford, Maryville, Tennessee  
Mr. Robert Gable, Frankfort, Kentucky  
The Very Reverend Monsignor Michael V. Gannon, Gainesville, Florida  
Mr. Alfredo Heres Gonzalez, Santurce, Puerto Rico  
Honorable Donald Kincaid, Lenoir, North Carolina  
Dr. John King, Jackson, Mississippi  
Mr. Charles Edward Lee, Columbia, South Carolina  
Mrs. Jane Hurt Yarn, Atlanta, Georgia

The matters to be discussed at this meeting include: (1) Status of Blue Ridge Parkway planning, (2) Cumberland Island National Seashore planning and operations, (3) Wilderness Program status and, (4) Establishment of Canaveral National Seashore and Tuskegee Institute National Historic Site.

The meeting will be open to the public. However, facilities and space for accommodating members of the public are limited and it is expected that not more than 25 persons will be able to attend. Any member of the public may file with the committee a written statement concerning the matters to be discussed.

Persons wishing further information concerning this meeting or who wish to submit written statements, may contact Paul C. Swartz, Chief, Cooperative Activities Division, Southeast Regional Office, at 404/526-7560. Minutes of the meeting will be available for public inspection approximately 4 weeks after the meeting at the office of the Southeast Region, 3401 Whipple Avenue, Atlanta, Georgia.

Dated: May 15, 1975.

PAUL C. SWARTZ,  
Chief, Cooperative Activities  
Division, Southeast Region,  
National Park Service.

## NOTICES

23489

HONKER DIVIDE MANAGEMENT UNIT  
Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Honker Divide Management Unit, USDA-FS-DES(Adm) (R-10-75-08).

This environmental statement is for the land use plan for the Honker Divide Management Unit, Prince of Wales Island, on the Tongass National Forest. Recreation, fish, wildlife, and timber are all key resources in the Unit. This plan proposes managing the Snakey Lakes and Thorne River-Hatchery Creek water travel route in a natural-appearing environment. The remainder of this management unit would be managed to optimize the fish, wildlife, timber, water, and recreation resources. The primary action having impact on the land is timber harvest, although increased recreation use and harvest of fish and game will also affect the ecosystem.

This draft environmental statement was transmitted to CEQ on May 22, 1975.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service  
South Agriculture Bldg., Room 3231  
12th St. & Independence Avenue, SW  
Washington, D.C. 20250  
USDA, Forest Service  
Alaska Region  
Federal Office Building  
Juneau, Alaska 99802  
Forest Supervisor, Chatham Area

Ketchikan, Alaska 99901  
Forest Supervisor  
Chugach National Forest  
121 W. Fireweed Lane, Suite 205  
Anchorage, Alaska 99503

A limited number of single copies are available upon request to James S. Watson, Forest Supervisor, Ketchikan Area, Tongass National Forest, Box 2278, Ketchikan, Alaska 99901.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ guidelines.

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to James S. Watson, Forest Supervisor, Ketchikan Area, Tongass National Forest, Box 2278, Ketchikan, Alaska 99901. Comments

must be received by August 5, 1975 in order to be considered in the preparation of the final environmental statement.

C. A. YATES,  
Regional Forester,  
Alaska Region.

## UMATILLA NATIONAL FOREST GRAZING ADVISORY BOARD

## Meeting

The Umatilla National Forest Grazing Advisory Board will meet at 1 p.m., June 16, 1975, in the Umatilla National Forest Conference Room, 2517 S.W. Halley Avenue, Pendleton, Oregon 97801.

The purpose of the meeting is as follows: Report on Board's status and previous Board minutes; election of new officers; Forest Service Report, i.e., present status of allotments, appeal procedures, items of current interest (commensurability, Red Meat Policy, range improvements, grazing fees, land use planning, coordinated ranch planning, administrative direction), unauthorized grazing problems; new business; public participation; Board discussion and recommendations; adjournment.

The meeting will be open to the public. Persons who wish to attend should notify Walter V. Johnson, 2517 S.W. Halley Avenue, Pendleton, Oregon 97801, or call 1-503-276-3811, extension 419. Written statements may be filed with the committee before or after the meeting.

Dated: May 21, 1975.

J. S. TIXIER,  
Assistant Director of Range  
Management Forest Service,  
Department of Agriculture.

## FEDERAL CROP INSURANCE CORPORATION

## Organization, Functions, and Procedures

Subpart A of the Statement of Organization, Functions, and Procedures of the Federal Crop Insurance Corporation, as amended (36 FR 23325), is amended in the following respects:

1. Items 1, 2, 3 and 4 of section 5(2) (1) are amended to read as follows:

1. North Central Regional Underwriting Office, Room 106, U.S. Post Office and Courthouse, Springfield, Illinois 62701—serving Illinois, Indiana, Iowa, Michigan, Minnesota, Ohio, Pennsylvania, Wisconsin, and New York.

2. Southeast Regional Underwriting Office, Room M-116, U.S. Post Office and Federal Building, 401 North Patterson Street, Valdosta, Georgia 31601—serving Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, North Carolina, South Carolina, Tennessee, and Virginia.

3. Southwest Regional Underwriting Office, 50th & N Pennsylvania, Suite 1210, 50 Penn Place, Oklahoma City, Oklahoma

73118—serving Arizona, California, Colorado, Kansas, Missouri, New Mexico, Oklahoma, and Texas.

4. Northwest Regional Underwriting Office, Plaza West Building, 1537 Avenue D, Billings, Montana 59102—serving Idaho, Montana, Nebraska, North Dakota, Oregon, South Dakota, Washington, Wyoming, and Utah.

2. The list of Contract Service Centers with the territories which they serve appearing at the end of section 5(3)(1)(a) is amended to read as follows:

North Dakota. Room 234, Federal Building, 220 East Rosser Avenue, Bismarck, North Dakota 58501.

Texas, Oklahoma, New Mexico. USDA Building, College Station, Texas 77840.

Georgia, Florida, South Carolina and the following Alabama counties: Baldwin, Barbour, Coffee, Conecuh, Covington, Crenshaw, Dale, Escambia, Geneva, Henry, Houston, Pike, Room 303, 240 Stoneridge Drive, One Greystone West Building, Columbia, South Carolina 29210.

Iowa and the following Missouri counties: Adair, Andrew, Atchison, Audrain, Boone, Buchanan, Caldwell, Callaway, Carroll, Cass, Chariton, Clark, Clinton, Cooper, Daviess, De Kalb, Franklin, Gentry, Grundy, Harrison, Henry, Holt, Howard, Jackson, Johnson, Knox, Lafayette, Lewis, Lincoln, Linn, Livingston, Macon, Marion, Mercer, Monroe, Montgomery, Nodaway, Pettis, Pike, Platte, Ralls, Randolph, Ray, St. Charles, Saline, Scotland, Shelby, Sullivan, Worth. Federal Building, 210 Walnut Street, Des Moines, Iowa 50309.

Arizona and the following California counties: Fresno, Imperial, Kern, Kings, Madera, Merced, Riverside, San Joaquin, Stanislaus, Tulare. Room 4110, Federal Building, U.S. Courthouse, 1130 O Street, Fresno, California 93721.

Mississippi, Arkansas, Louisiana and the following Alabama counties: Blount, Cherokee, Chilton, Colbert, Cullman, Dallas, DeKalb, Etowah, Hale, Jackson, Lauderdale, Lawrence, Limestone, Madison, Marshall, Morgan, Pickens, Shelby, Talladega, Tuscaloosa. Room 610 Milner Building, 200 South Lamar Street, Jackson, Mississippi 39201.

Montana and the following Wyoming counties: Big Horn, Park, Washakie. 613 Northeast Main Street, Lewistown, Montana 59457.

Nebraska, South Dakota and the following Wyoming counties: Goshen, Laramie, Platte. Room 303, Federal Building, Lincoln, Nebraska 68508.

Kansas, Colorado and the following Missouri counties: Barton, Bates, Dade, Jasper, Lawrence, Vernon. 2601 Anderson Avenue, Manhattan, Kansas 66502.

Tennessee, Kentucky, the following Missouri counties: Butler, Cape Girardeau, Dunklin, Mississippi, New Madrid, Pemiscot, Scott, Stoddard; and the following Virginia counties: Lee, Russell, Scott, Smyth, Washington. U.S. Courthouse, Room 508, Nashville, Tennessee 37203.

North Carolina, Delaware, Maryland, the following Pennsylvania counties: Adams, Chester, Cumberland, Dauphin, Franklin, Lancaster, Lebanon, Perry, York; and the following Virginia counties: Amelia, Appomattox, Brunswick, Campbell, Charlotte, Cumberland, Dinwiddie, Franklin, Greensville, Halifax, Isle of Wight, Lunenburg, Mecklenburg, Nansemond, Nottingham, Pittsylvania, Prince Edward, Prince George, Southampton, Surry, Sussex. Room 612

Federal Office Building, 310 New Bern Avenue, Raleigh, North Carolina 27601.

Illinois, Michigan, Ohio, Indiana, New York and Erie County in Pennsylvania. Atkinson Square West, Suite 1501, 5610 Crawfordville Road, Indianapolis, Indiana 46224.

Washington, Oregon, Idaho, Utah and Modoc County in California. Room 369, U.S. Courthouse, West 920 Riverside Avenue, Spokane, Washington 99201.

Minnesota and Wisconsin. Room 222, Federal Building and U.S. Courthouse, 316 Robert Street, St. Paul, Minnesota 55101.

Approved by the Board of Directors on May 15, 1975.

[SEAL] PETER F. COLE,  
Secretary, Federal Crop  
Insurance Corporation.

Issued this 27th day of May 1975.

EARL L. BUTZ,  
Secretary.

#### WHEAT, FEED GRAINS AND SOYBEANS Renewal of Advisory Committee on Grains

Notice is hereby given that the Secretary of Agriculture has renewed the Advisory Committee on Grains—Wheat, Feed Grains and Soybeans, for the purpose of advising the Secretary and other officials on domestic and export requirements for grains and soybeans, production adjustment and stabilization programs, and other matters relating to these commodities. The Secretary has determined that renewal of this Committee is in the public interest in connection with the duties imposed on the Department by law.

The chairman of this committee is the Assistant Secretary for International Affairs and Commodity Programs, U.S. Department of Agriculture, Washington, D.C. 20250.

This notice is given in compliance with Pub. L. 92-463.

Signed at Washington, D.C. on May 27, 1975.

JOSEPH R. WRIGHT, Jr.,  
Assistant Secretary for  
Administration.

#### Soil Conservation Service AQUILLA-HACKBERRY CREEK WATERSHED PROJECT, TEX.

##### Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Aquilla-Hackberry Creek Watershed Project, Hill and Johnson Counties, Texas.

The environmental assessment of this federal action indicates that the project

will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. Edward E. Thomas, State Conservationist, Soil Conservation Service, USDA, First National Bank Building, Temple, Texas 76501, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection and flood prevention. The remaining planned works of improvement as described in the negative declaration include conservation land treatment supplemented by 10 single purpose floodwater retarding structures and 18 grade stabilization structures.

The environmental assessment file is available for inspection during regular working hours at the following location: Soil Conservation Service, USDA, First National Bank Building, Temple, Texas 76501.

Requests for the negative declaration should be sent to the above address.

No administrative action on implementation of the proposal will be taken until June 16, 1975.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services.)

WM. B. DAVEY,  
Deputy Administrator for Water  
Resources, Soil Conservation  
Service.

#### BROWNWOOD LATERALS WATERSHED PROJECT, TEX.

##### Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Brownwood Laterals Watershed Project, Brown and Mills Counties, Texas.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. Edward E. Thomas, State Conservationist, Soil Conservation Service, USDA, First National Bank Building, Temple, Texas 76501, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection and flood prevention. The remaining planned works of improvement as described in the negative

declaration include conservation land treatment supplemented by four single purpose floodwater retarding structures.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA, First National Bank Building, Temple, Texas 76501.

Requests for the negative declaration should be sent to the above address.

No administrative action on implementation of the proposal will be taken until June 16, 1975.

#### BUTTONWILLOW WATER MANAGEMENT PROJECT, CALIF.

##### Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Buttonwillow Water Management Project, Kern County, California.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. George H. Stone, State Conservationist, Soil Conservation Service, USDA, P.O. Box 1019, Davis, California 95616, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection and agricultural water management. The remaining planned works of improvement as described in the negative declaration include conservation land treatment supplemented by two water control structures, concrete pipeline and lined and unlined irrigation ditches.

The environmental assessment file is available for inspection during the regular working hours at the following locations:

Soil Conservation Service, USDA, 800 Truxtun Avenue, Room 231, Bakersfield, California 93301.

Soil Conservation Service, USDA, 2828 Chiles Road, Davis, California 95616.

Single copy requests for the negative declaration should be sent to one of the above addresses.

#### CYPRESS-BLACK BAYOU WATERSHED PROJECT, LA.

##### Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Cypress-Black Bayou Watershed Project, Bossier Parish, Louisiana.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. Alton Mangum, State Conservationist, Soil Conservation Service, USDA, 3737 Government Street, Alexandria, Louisiana 71301, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection and flood prevention. The remaining planned works of improvement as described in the negative declaration include conservation land treatment supplemented by two multiple-purpose structures and four structures for water control and 55 miles of flood prevention, drainage, and irrigation water distribution channel rehabilitation. There are 48 miles of man-made or previously modified channel and 7 miles of newly constructed channel. Intermittent flow occurs in 32 miles and ephemeral flow occurs in 33 miles of the channel under consideration.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA, 3737 Government Street, Alexandria, Louisiana 71301.

Requests for the negative declaration should be sent to the above address.

No administrative action on implementation of the proposal will be taken until June 16, 1975.

#### CHUNKY RIVER WATERSHED, MISS. Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, and part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Chunky River Watershed, Newton and Neshoba Counties, Mississippi.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. W. L. Heard, State Conservationist, Soil Conservation Service, Room 590, Milner Building, P.O. Box 610, Jackson, Mississippi 39205, has determined that the preparation and review of an environmental impact statement is not needed at this time for this project.

The project concerns a plan for watershed protection, flood prevention, and recreation. The remaining planned works of improvement as described in the negative declaration include conservation land treatment supplemented by three floodwater retarding structures and one multiple purpose structure with basic recreation facilities.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA, Room 590, Milner Building, P.O. Box 610, Jackson, Mississippi 39205.

The negative declaration is available for single copy requests at the above address.

No administrative action on implementation of the proposal will be taken until June 16, 1975.

## NOTICES

650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Indian Creek-Bobo Bayou Watershed, Panola, Tunica, and Quitman Counties, Mississippi.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. W. L. Heard, State Conservationist, Soil Conservation Service, Room 590, Milner Building, P.O. Box 610, Jackson, Mississippi 39205, has determined that the preparation and review of an environmental impact statement is not needed at this time for this project.

The project concerns a plan for watershed protection and flood prevention. The remaining planned works of improvement as described in the Negative Declaration include conservation land treatment supplemented by one floodwater retarding structure, one sediment and grade control structure, and approximately 21 miles of channel work. About three miles of this channel work is on intermittent altered streams with the remaining 18 miles on ephemeral altered streams.

The environmental assessment file is available for inspection during regular working hours at the following location: Soil Conservation Service, USDA, Room 590, Milner Building, P.O. Box 610, Jackson, Mississippi 39205.

The Negative Declaration is available for single copy requests at the above address.

No administrative action on implementation of the proposal will be taken until June 16, 1975.

#### HARMON CREEK WATERSHED, PENN.

##### Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Harmon Creek Watershed, Washington County, Pennsylvania.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. Benny Martin, State Conservationist, Soil Conservation Service, USDA, Box 985, Federal Square Station, Harrisburg, Pennsylvania 17108, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection, flood prevention, fish and wildlife development and water supply. The remaining planned works of improvement as described in the negative declaration include conservation land treatment supplemented by three floodwater retarding structures and one multiple purpose reservoir.

The environmental assessment file is available for inspection during regular working hours at the following location: Soil Conservation Service, USDA, Box 985, Federal Square Station, Federal Building, Harrisburg, Pennsylvania 17108.

Requests for the negative declaration should be sent to the above address.

No administrative action on implementation of the proposal will be taken until June 16, 1975.

#### LOWER TALLAHATCHIE RIVER WATERSHED, MISS.

##### Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, and part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973, and Part 650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Lower Tallahatchie River Watershed, Panola County, Mississippi.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. W. L. Heard, State Conservationist, Soil Conservation Service, Room 590, Milner Building, P.O. Box 610, Jackson, Mississippi 39205, has determined that the preparation and review of an environ-

mental impact statement is not needed at this time for this project.

The project concerns a plan for watershed protection and flood prevention. The remaining planned works of improvement as described in the Negative Declaration include conservation land treatment supplemented by five floodwater retarding structures, five sediment and grade control structures, and 11.7 miles of channel work. All of this channel work is on intermittent altered streams.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA, Room 590, Milner Building, P.O. Box 610, Jackson, Mississippi 39205.

The Negative Declaration is available for single copy requests at the above address.

#### MUSTANG CREEK, CALIF.

##### Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, and part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for Mustang Creek Watershed Project, Stanislaus and Merced Counties, California.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. G. H. Stone, State Conservationist, Soil Conservation Service, USDA, P.O. Box 1019, Davis, California 95616, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for flood prevention. The remaining planned works of improvement as described in the negative declaration include 4.9 miles of channel modification. There are 1.8 miles of natural, 2.8 miles of man-made and 0.3 of no-defined channel; all have ephemeral flow.

#### NEWMAN WATERSHED PROJECT, CALIF.

##### Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement for the Newman Watershed Project, Stanislaus County, California, USDA-SCS-EIS-WS-(ADM)-75-2-(D)-CA.

The environmental impact statement concerns a plan for watershed protection and drainage. The planned works of improvement include conservation land treatment, supplemented by about 10.5 miles of subsurface drains and about 0.9 mile of channel work. The channel work will involve excavation of a new channel to carry outflow from the subsurface drains to the San Joaquin River. The project will lower a high groundwater table affecting an area of about 3,000 acres, including about 2,930 acres of cropland and pasture.

A limited supply of copies is available at the following location to fill single copy requests:

Soil Conservation Service, USDA, P.O. Box 1019, Davis, California 95616.

Copies of the draft environmental impact statement have been sent for comment to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to G. H. Stone, State Conservationist, Soil Conservation Service, P.O. Box 1019, Davis, California 95616.

Comments must be received on or before July 21, 1975, in order to be considered in the preparation of the final environmental impact statement.

#### RICHLAND CREEK WATERSHED, MISS.

##### Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, and part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Richland Creek Watershed, Rankin County, Mississippi.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. W. L. Heard, State Conservationist, Soil Conservation Service, Room 590, Milner Building, P.O. Box 610, Jackson, Mississippi 39205, has determined that the preparation and review of an environmental impact statement is not needed at this time for this project.

The project concerns a plan for watershed protection and flood prevention. The remaining planned works of improvement as described in the negative declaration include conservation land treatment supplemented by 3.2 miles of channel work. All of this channel work is on ephemeral altered streams.

The environmental assessment file is available for inspection during regular working hours at the following location: Soil Conservation Service, USDA, Room 590, Milner Building, P.O. Box 610, Jackson, Mississippi 39205.

The negative declaration is available for single copy requests at the above address.

No administrative action on implementation of the proposal will be taken until June 16, 1975.

#### UPPER DUCK CREEK RESOURCE CONSERVATION AND DEVELOPMENT (RC&D) MEASURE, KANS.

##### Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and Part 650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for Upper Duck Creek RC&D Measure, Elk, Wilson and Montgomery Counties, Kansas.

## NOTICES

The environmental assessment of this federal action indicates that the measure will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the measure. As a result of these findings, Mr. Robert K. Griffin, State Conservationist, Soil Conservation Service, 760 S. Broadway, Salina, Kansas 67401, has determined that the preparation and review of an environmental impact statement is not needed for this measure.

The measure plan concerns land treatment and construction of four floodwater retarding structures. All structures will be earth dams with vegetated or rock emergency spillways.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA, 760 S. Broadway, Salina, Kansas 67401.

The negative declaration is available for single copy requests from the above address.

No administrative action on implementation of the proposal will be taken until June 16, 1975.

#### UPPER PECAN BAYOU WATERSHED PROJECT, TEX.

##### Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8 (b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Upper Pecan Bayou Watershed Project, Brown, Callahan, Coleman, Eastland, and Taylor Counties, Texas.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. Edward E. Thomas, State Conservationist, Soil Conservation Service, USDA, First National Bank Building, Temple, Texas 76701, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection and flood prevention. The remaining planned works of improvement as described in the negative

declaration include conservation land treatment supplemented by one single-purpose floodwater retarding structure.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA, First National Bank Building, Temple, Texas 76701.

Requests for the negative declaration should be sent to the above address.

No administrative action on implementation of the proposal will be taken until June 16, 1975.

(Catalog of Federal Domestic Assistance Program No. 10.904 National Archives Reference Services.)

WILLIAM B. DAVEY,  
Deputy Administrator for  
Water Resources, Soil Conservation Service.

#### UPPER PETIT JEAN WATERSHED, ARK.

##### Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8 (b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Upper Petit Jean Watershed Project, Logan, Scott, and Sebastian Counties, Arkansas.

The environmental assessment of the federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. M. J. Spears, State Conservationist, Soil Conservation Service, USDA, 5404 Federal Office Building, Post Office Box 2323, Little Rock, Arkansas 72203, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection, flood prevention, and municipal and industrial water supply. The remaining planned works of improvement as described in the negative declaration include conservation land treatment supplemented by eight floodwater retarding structures, and one multiple purpose structure for flood prevention and municipal and industrial water.

The environmental assessment file is available for inspection during regular working hours and copies of the negative declaration are available to fill single copy requests at the following location:

Soil Conservation Service, USDA, 5404 Federal Office Building, P.O. Box 2323, Little Rock, Arkansas 72203.

No administrative action on implementation of the proposal will be taken until June 16, 1975.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services.)

WILLIAM B. DAVEY,  
Deputy Administrator for Water  
Resources, Soil Conservation  
Service.

MAY 16, 1975.

#### WATERSHED PLANNING

##### Authorization

This provides notice of authorization dated May 22, 1975, to concerned state conservationists of the Soil Conservation Service to provide planning assistance to specified local organizations for the indicated watersheds. The state conservationist may now proceed with investigations and surveys as necessary to develop watershed plans under authority of the Watershed Protection and Flood Prevention Act (Pub. L. 83-566), as amended.

Environmental assessments will be made during the planning process. Environmental impact statements or negative declarations will be made available to the general public, filed with the Council on Environmental Quality, and the notice of availability published in the FEDERAL REGISTER.

Persons interested in any of these projects may contact the local organizations or the concerned state conservationist as indicated below:

Colorado: *Amity Watershed*; 63,290 acres; Bent, Kiowa, and Prowers Counties.

Sponsors—Bent Soil Conservation District, Kiowa County Soil Conservation District, Prowers Soil Conservation District, Amity Mutual Irrigation Company, Prowers County Board of Commissioners, Northeast Prowers Soil Conservation District, and State Soil Conservation Board.

State Conservationist—Mr. Merritt D. Burdick, Soil Conservation Service, P.O. Box 17107, Denver, Colorado 80217.

Connecticut: *Neck River Watershed*; 912 acres; New Haven County.

Sponsors—Town of Madison Flood and Erosion Board and New Haven County Soil and Water Conservation District.

State Conservationist—Mr. Robert G. Halstead, Soil Conservation Service, Mansfield Professional Park, Route 44A, Storrs, Connecticut 06268.

Illinois: *Long Point Slough Watershed*; 40,890 acres; Macon, Sangamon, Christian, and Logan Counties.

Sponsors—Long Point Slough Soil and Water Conservation Subdistrict, Macon County Soil and Water Conservation District, Sangamon County Soil and Water Conservation District, Niantic Drainage District #1, Village of Niantic, and Village of Illinois.

State Conservationist—Mr. Daniel E. Holmes, Soil Conservation Service, Federal Building, 200 West Church Street P.O. Box 678, Champaign, Illinois 61820.

Indiana: *Bailey-Cox-Newton Watershed*; 11,500 acres; Starke County.

Sponsors—Starke County Soil and Water Conservation District and Starke County Drainage Board.

State Conservationist—Mr. Cletus J. Gillman, Soil Conservation Service, Atkinson Square-West, Suite 2200, 5610 Crawfordsville Road, Indianapolis, Indiana 46224.

## NOTICES

23495

Kentucky: *Chamberlain Branch Watershed*; 334 acres; Estill County.

Sponsors—Estill County Conservation District, Estill County Fiscal Court, City of Raveenna, and City of Irvine.

*Stewart Creek Watershed*; 5,000 acres; Hopkins County.

Sponsors—Hopkins County Conservation District and City of Earlington.

State Conservationist—Mr. Glen E. Murray, Soil Conservation Service, 333 Waller Avenue, Lexington, Kentucky 40504.

Minnesota: *Burnham Creek Watershed*; 161,000 acres; Polk County.

Sponsors—Polk County Board of Commissioners, East Polk Soil and Water Conservation District, and West Polk Soil and Water Conservation District.

*Tyler Creek Watershed*; 32,800 acres; Lincoln, Lyon, and Pipestone Counties.

Sponsors—Lincoln County Board of Commissioners, Lyon County Board of Commissioners, Lincoln Soil and Water Conservation District, Lyon Soil and Water Conservation District and Pipestone Soil and Water Conservation District.

State Conservationist—Mr. Harry M. Major, Soil Conservation Service, 200 Federal Building and U.S. Courthouse, 316 North Robert Street, St. Paul, Minnesota 55101.

Oklahoma: *Sand-Hogshooter Creeks Watershed*; 242,560 acres; Osage, Washington, and Nowata Counties.

Sponsors—Caney Valley Conservation District, Osage County Conservation District, Nowata County Conservation District, and Oklahoma Conservation District No. 26.

*Turkey Creek Watershed*; 239,000 acres; Garfield, Alfalfa, Major, and Kingfisher Counties.

Sponsors—Garfield County Conservation District, Alfalfa County Conservation District, Major County Conservation District, Kingfisher County Conservation District, and Turkey Creek Conservancy District No. 28.

State Conservationist—Mr. Hampton Burns, Soil Conservation Service, Agricultural Center Office Building, Farm Road and Brumley Street, Stillwater, Oklahoma 74074.

#### DEPARTMENT OF COMMERCE

##### Domestic and International Business Administration

##### BATTELLE MEM. INST.

##### Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (40 FR 12253 et seq., 15 CFR 701, 1974.)

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00296-75-77000. Applicant: Battelle Memorial Institute,

Pacific Northwest Laboratories, PO Box 999, Richland, WA 99352. Article: Fast Neutron Spectrometer, Model LC-7 and Preamplified Ortec Model 120-3F and accessories. Manufacturer: Technion Research & Development Foundation, Ltd., Israel. Intended use of article: The article is intended to be used to measure the energy spectra of neutrons emitted from certain fission products called delayed-neutron emitters.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides a guaranteed resolution of less than 12.5 kiloelectronvolts (keV). The most closely comparable domestic instrument is the Model 9341 fast neutron spectrometer manufactured by Texas Nuclear Division, Austin, Texas which provide a guaranteed resolution of about 40 keV. NBS advises in its memorandum dated April 29, 1975 that the best resolution available is pertinent to the applicant's intended use. NBS also advises that it knows of no domestic instruments of equivalent scientific value to the foreign article for the applicant's intended use.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

#### PETER BENT BRIGHAM

##### Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (40 FR 12253 et seq., 15 CFR 701, 1974.)

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00355-33-19095. Applicant: Peter Bent Brigham Hospital, 721 Huntington Avenue, Boston, Mass. 02114. Article: Videovolumeter. Manufacturer: Saab-Scania AB, Sweden. Intended use of article: The article is intended to be used to perform videodensitometric analysis of video signals from tape recordings and integrate the signal to a real time measure of contrast changes in the image. The article will also be used to measure the total amount of contrast agent in an organ whether the contrast agent is homogeneously distributed or not. The article will be used regularly in the teaching of fellows and residents in Cardiovascular Radiology and Cardiology and also to some degree to teaching of medical students. The article's use in teaching will be integrated with the teaching in Cardiovascular Radiology. It will be used to determine changes in function and blood flow in various organs and to demonstrate changes in these volumes and flows following various therapeutic interventions.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides the capability for video analysis adapted to blood flow measurement from x-ray images. The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated May 9, 1975 that the capability described above is pertinent to the applicant's intended purposes. HEW also advises that it knows of no domestic instrument of equivalent scientific value to the foreign article for such purposes as the article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides a resonant frequency as low as 62.5 kilohertz and measurements may be made in fields as low as 5.7 millitesla. The National Bureau of Standards (NBS) advises in its memorandum dated May 15, 1975 that the specification described above is pertinent to the applicant's intended use in very low temperature research. NBS also advises that it knows of no domestic instrument of equivalent scientific value to the foreign article for the applicant's intended use.

#### INDIANA STATE DEPARTMENT OF MENTAL HEALTH, ET AL

##### Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before June 20, 1975.

Amended regulations issued under cited Act, as published in the March 18, 1975 issue of the *FEDERAL REGISTER*, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00501-01-11000. Applicant: Indiana State Department of Mental Health, 3989 Meadows Drive, Suite 1, Indianapolis, IN 46205. Article: Gas Chromatograph-Mass Spectrometer, Model LKB 9000S. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used in investigations relating to: (1) cause of mental and physical retardation which are genetically determined in children; (2) causes of unexplained ketoacidosis in the newborn; (3) investigation of jaundice in the newborn and the metabolism of bilirubin, and (4) study of the neurochem-

istry and therapy of seizure disorders. The article will also be used for education at the graduate level. Students preparing themselves for careers in analytical biochemistry with emphasis on intermediary metabolism or on drug metabolism will use the article in carrying out their major research projects. In addition, the article will be used by Research Fellows, graduate students and a number of medical students for various phases of work in mass-spectrometry. Application received by Commissioner of Customs: May 6, 1975.

Docket Number: 75-00502-00-43000. Applicant: University of South Carolina, Geology Department, Columbia, S.C. 29208. Article: High Temperature Spinner & Furnace and Horizontal Core Attachment. Manufacturer: Digico Ltd., United Kingdom. Intended use of article: The article is an integral part of a Digico System that spins rock segments (which are weak magnets) within a series of coils, thereby, generating an electrical current. This electrical current is metered for determination of the ancient magnetic field recorded in the rock. Application received by Commissioner of Customs: May 6, 1975.

Docket Number: 75-00503-33-46040. Applicant: Wayne State University, School of Medicine, 450 Canfield, Detroit, Michigan 48201. Article: Electron Microscope, Model EM 201C with goniometer stage. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used to examine normal and pathologic processes, cell parts, and products of biological samples obtained from a variety of animals as well as from human samples obtained in clinical settings. Experiments to be conducted include observation of normal metabolism as well as physical and/or chemical manipulation of living systems including destruction or selective removal of all or part of a given system. Ultrastructural observations of normal systems will be compared with manipulated or altered systems. Biological systems to be studied include the central nervous system; the visual system including retina, lens and cornea; reproductive system with particular emphasis on spermatozoa. The article will also be used in the courses Cell and Tissue Ultrastructure and Advanced Histochemistry in which graduate students, medical students and faculty members will have an opportunity to become familiar with techniques and procedures of fine structure investigation when and as these skills become pertinent. Application received by Commissioner of Customs: May 6, 1975.

Docket Number: 75-00504-33-41700. Applicant: University of Southern California, Center for Laser Studies, University Park, Los Angeles CA 90007. Article: Sharpian 791 Carbon Dioxide Laser. Manufacturer: Laser Industries Ltd., Israel. Intended use of article: The article is intended to be used as a medical-surgical tool for excision of third

degree burns, excision of malignant tumors, and surgery of highly vascular organs. Application received by Commissioner of Customs: May 6, 1975.

Docket Number: 75-00505-65-80200. Applicant: University of California, Department of Geology & Geophysics, Berkeley, California 94720. Article: Microthermometry Apparatus. Manufacturer: CHAIXMECA Company, France. Intended use of article: The article is intended to be used to study fluid inclusions in rocks and minerals. Data pertaining to the temperature of crystallization, salinity of the aqueous phase, and composition of included gases will be combined with petrochemical data regarding the surrounding crystalline phases to determine with the aid of thermodynamic calculations, the equilibrium properties of the geochemical system. The article will be employed in conjunction with a petrographic microscope to observe the phenomena described above. Application received by Commissioner of Customs: May 6, 1975.

Docket Number: 75-00506-33-90000. Applicant: Scripps Clinic and Research Foundation, 476 Prospect Street, La Jolla, CA 92037. Article: EMI Scanner with Magnetic Tape System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used for research purposes relative to clinical evaluation of any disease process involving the brain structure. In addition, the scanner could be used to evaluate therapeutic response in the treatment of brain tumors either with chemotherapy or radiation therapy. The article is also useful in evaluating cerebral vascular insufficiency or subdural hematomas. Application received by Commissioner of Customs: May 6, 1975.

Docket Number: 75-00507-33-90000. Applicant: St. Paul Hospital, 5909 Harry Hines Blvd., Dallas, Texas 75235. Article: EMI Scanner with Magnetic Tape Storage System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used in experiments required to better define problems related to the equipment and patient in order to better evaluate central nervous system diseases, including any intracranial process. The experiments to be conducted will include methods and devices to eliminate patient motion while in the head holder, various experiments to eliminate artifacts related to the equipment, readability of contrast enhancement either routinely or on a selective basis, possible applications of the equipment to areas other than head, results of the diagnosed studies compared with other modalities such as nuclear scanning encephalography and carotid angiography and its role in the investigation of acute injuries to the head. The article will also be used to educate the young physicians in a method of examining the skull and its contents which is non-invasive and does not require patient hospitalization. Application received by Commissioner of Customs: May 6, 1975.

Docket Number: 75-00508-33-90000. Applicant: Dominican Santa Cruz Hospital, 1555 Soquel Drive, Santa Cruz, California 95965. Article: EMI Scanner System with high Definition Display Unit. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used in the study of uptake contrast material by neural tissue with diagnostic absorption values demonstrated by the article. Additional research will include quantitating the standardized absorption values of the article and comparing results with more expensive and hazardous techniques already available, such as angiography and pneumoencephalography, as well as nuclear brain scanning, with respect to accuracy in diagnosis of brain tumors, cerebral infarct, cerebral trauma, dementia, cerebral aneurysms, "idiopathic" epilepsy and hydrocephalus. The article will also be used in the training of radiologists, radiologic technologists, nurses and pharmacy residents in the use of this computerized modality in upgrading their skills. Application received by Commissioner of Customs: May 8, 1975.

Docket Number: 75-00509-33-90000. Applicant: Harris Hospital, 1300 West Cannon, Fort Worth, Texas 76104. Article: EMI Scanner System with Magnetic Tape. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used in the comparison of the relative accuracy of computerized axial tomographic units with radio nuclide scans and with pneumoencephalography and arteriography. The linear attenuation co-efficient of different intracranial densities will be studied in relation to the possibilities of delineating tumor formation, blood clot formation and fluid containing spaces in the brain. Application received by Commissioner of Customs: May 8, 1975.

Docket Number: 75-00510-33-90000. Applicant: Columbia University, Department of Biological Sciences, 659 Schermerhorn, New York, New York 10027. Article: 6KW Rotating Anode System. Manufacturer: Rigaku, Japan. Intended use of article: The article is intended to be used to provide a very high intensity X-ray source that is concentrated in a very fine focal spot in an experimental program entitled: "Structure and Function of Blood Proteins." Application received by Commissioner of Customs: May 8, 1975.

##### Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural

Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (40 FR 12253 et seq., 15 CFR 701, 1974.)

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00366-33-90000. Applicant: The Johns Hopkins University, Department of Biophysics, Rm. 308, Charles & 34th Streets, Baltimore, Md. 21218. Article: Rotating Anode X-ray Diffraction Generator, Model GX-6 w/ microfocus Cathode, Model RA2. Manufacturer: Elliott, United Kingdom. Intended use of article: The article is intended to be used in the study of human myeloma proteins from cancer patients. Experiments will be conducted to obtain X-ray diffraction patterns from these materials to determine their three-dimensional structure to atomic resolution.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides a focused spot of minimal size (1 x .1 millimeter) and a rotating target for maximum x-ray power. The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated May 9, 1975 that both of the characteristics described above are pertinent to the applicant's research studies. HEW further advises that it knows of no comparable domestic instrument that provides both of the pertinent characteristics.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

##### Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (40 FR 12253 et seq., 15 CFR 701, 1974.)

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the

Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00352-35-45000. Applicant: University of Florida College of Medicine, North Florida Eye Bank, Department of Ophthalmology, J. Hillis Miller Health Ctr., Box 733, Gainesville, Fla. 32610. Article: Slitlamp Microphotometer. Manufacturer: Hamamatsu Co. Ltd., Japan. Intended use of article: The article is intended to be used to quantitatively measure the amount of inflammation within the eye and also measure certain types of compounds in the eye. In addition, the article will be used in the Ophthalmology Training Program to instruct resident ophthalmologists about the effects of drugs on the inflammation in the eye.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides the capabilities for proper optical filtering, compatibility with an integrated slit lamp, and quantitative reading. The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated May 9, 1975 that the capabilities described above are pertinent to the applicant's use in measuring the degree of inflammation in the intact living eye in a study to assess the efficacy of various treatments and in the teaching and training of ophthalmologists. HEW also advises that it knows of no domestic instrument of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

##### U.S. MERCHANT MARINE ACADEMY ADVISORY BOARD

##### Public Meeting

Notice is hereby given of a meeting of the U.S. Merchant Marine Academy Advisory Board (the Board) on June 25, 1975, at 10 a.m. in the Board Room of U.S. Lines, 1 Broadway, New York, New York.

The Advisory Board to the United States Merchant Marine Academy was established by the Secretary of Commerce under the authority of 46 U.S.C. 1126d to examine the course of instruction and the overall management of the

## NOTICES

U.S. Merchant Marine Academy (the Academy) and advise the Assistant Secretary of Commerce for Maritime Affairs with respect thereto.

The Board consists of not more than seven members appointed by the Secretary of Commerce, selected from segments of the Maritime industry, labor educational institutions and other fields relating to the objectives of the Academy.

The names of the Board, Agenda and other information pertaining to the meeting may be obtained from Kathleen A. Shetler, Special Assistant to the Assistant Secretary of Commerce for Maritime Affairs, Department of Commerce, Maritime Administration, 14th & E Streets, NW., Washington, D.C. 20235, Room 3731, Telephone No. Area Code 202/967-2851.

So ordered by Assistant Secretary of Commerce for Maritime Affairs, Maritime Administration.

Dated: May 23, 1975.

JAMES S. DAWSON, JR.,  
Secretary.

#### National Oceanic and Atmospheric Administration

[Docket No. B-500]

#### Notice of Application for Transfer of Fishery

EUGENE ARMSTRONG

MAY 22, 1975.

Eugene Armstrong, 43 Hudson Avenue, Port Monmouth, New Jersey 07758, owner of the "Eastern Welder" purchased with the aid of a Fisheries Loan to engage in the fishery for lobsters has requested permission to extend his fishing operations to engage in the fishery for lobsters and whiting.

Notice is hereby given, pursuant to the provisions of 16 U.S.C. 142c, "Fisheries Loan Fund Procedures" (50 CFR Part 250, as revised), and Reorganization Plan No. 4 of 1970, that the above entitled application is being considered by the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce, Washington, D.C. 20235. Any person desiring to submit evidence that the contemplated operation of such vessel will cause economic hardship or injury to efficient vessel operators already operating in that fishery must submit such evidence in writing to the Director, National Marine Fisheries Service, by June 30, 1975. If such evidence is received it will be evaluated along with such other evidence as may be available before making a determination that the contemplated operation of the vessel will or will not cause such economic hardship or injury.

JOSEPH W. SLAVIN,  
Associate Director for  
Resource Utilization.

#### National Technical Information Service NOTICE OF PRICING POLICY Weekly Government Abstracts

Notice is hereby given of the following pricing schedule adopted by the National Technical Information Service (NTIS). The NTIS provides government and public availability of federally sponsored business, economic, scientific and technical reports.

Effective June 1, 1975 the selling price for the WGA categories reflect the following schedule:

Category No.	Category title	Domestic	Foreign
70	Administration.....	\$40	\$50
98	Agriculture and Food.....	40	50
92	Behavior and Society.....	40	50
95	Biomedical Technology and Engineering.....	40	50
89	Building Technology.....	40	50
96	Business and Economics.....	40	50
99	Chemistry.....	40	50
50	Civil and Structural Engineering.....	40	50
45	Communication.....	45	60
62	Computers, Control and Information Theory.....	40	50
49	Electrotechnology.....	40	50
57	Energy.....	40	50
68	Environmental Pollution and Control.....	40	50
90	Government Inventions for Licensing.....	105	220
94	Industrial and Mechanical Engineering.....	40	50
88	Library and Information Sciences.....	30	40
71	Materials Sciences.....	40	50
57	Medicine and Biology.....	45	60
93	NASA Earth Resources Survey Program.....	40	50
48	Natural Resources.....	40	50
47	Ocean Technology and Engineering.....	40	50
45	Physics.....	45	60
85	Transportation.....	40	50
91	Urban Technology.....	40	50

There will be a discount of \$5.00 for each additional subscription sent to the same address.

#### Office of the Secretary INDUSTRY ADVISORY COMMITTEES FOR MULTILATERAL TRADE NEGOTIATIONS Reestablishment

Pursuant to the authority contained in subsection 135(c) of the Trade Act of 1974 (Pub. L. 93-618) and delegated to the Special Representative for Trade Negotiations, acting in conjunction with the Secretary of Commerce, in Executive Order 11846 of March 27, 1975, it has been determined by such officials that:

(i) The Industry Policy Advisory Committee for Multilateral Trade Negotiations established on February 6, 1974 (FR 39, No. 6—January 9, 1974) shall be reestablished under its same name as an advisory committee under the provisions of section 135(c)(1) of the Trade Act of 1974; and

(ii) The 26 Industry Sector Advisory Committees for Multilateral Trade Negotiations, listed below, established on

April 2, 1974 (FR 39, No. 42—March 1, 1974) shall be reestablished under their same names as advisory committees under the provisions of section 135(c)(2) of the Trade Act of 1974.

Accordingly, revisions to the charters formally reestablishing the aforesaid advisory committees under the provisions of section 135(c) of the Trade Act of 1974 are being filed in accordance with law.

The aforementioned 26 Industry Sector Advisory Committees for Multilateral Trade Negotiations include the following:

Food and Kindred Products  
Textiles and Apparel  
Lumber and Wood Products  
Paper and Products  
Industrial Chemicals and Fertilizers  
Drugs, Soaps, Cleaners, and Toilet Preparations  
Paints, Gum and Wood Chemicals, and Miscellaneous Chemical Products  
Rubber and Plastics Materials  
Leather and Products  
Stone, Clay, and Glass Products  
Ferrous Metals and Products  
Nonferrous Metals and Products  
Hand Tools, Cutlery, and Tableware  
Other Fabricated Metal Products  
Construction, Mining, Agricultural, and Oil Field Machinery and Equipment  
Office and Computing Equipment  
Machine Tools—Other Metalworking Equipment, and Other Nonelectrical Machinery  
Electrical Machinery, Power Boilers, Nuclear Reactors, and Engines and Turbines  
Consumer Electronic Products and Household Appliances  
Scientific and Controlling Instruments  
Photographic Equipment and Supplies  
Communication Equipment and Non-Consumer Electronic Equipment  
Railroad Equipment and Miscellaneous Transportation Equipment  
Aerospace Equipment  
Automotive Equipment  
Miscellaneous Manufactures, Toys, Musical Instruments, Furniture, etc.

Dated: May 27, 1975.

G. W. CHAMBERLIN, JR.,  
Acting Assistant Secretary  
for Administration.

KENNETH A. GUNTHER,  
Acting Deputy Special Representative for Trade Negotiations.

[Docket No. DIBA-19-74]

#### INFORMATION MAGNETICS CORP. AND INFORMATION MAGNETICS, LTD.

##### Decision

In the matter of Information Magnetism Corporation and Information Magnetism, Ltd. (formerly Gresham-Informag, Ltd.); Docket No. DIBA-1974.

Appearance for Appellant:

Mr. James R. Kaler and Mr. Sherwood B. Smith, Jr., Kaler, Worsley, Daniel & Holliman, 710 Ring Building, 1200 Eighteenth Street, NW., Washington, D.C., 20036.

#### Appearance for Government:

Mr. Wilbert L. Whitsett and Mr. Norman B. Smith, Office of General Counsel, U.S. Department of Commerce, Washington, D.C., 20230.

The Appeals Board Panel consisting of Calvin Brooks, Louis J. Phillips and Francis J. Boucher met on May 9, 1975, at a formal hearing to receive oral testimony from both appellants and government counsel in the matter of an appeal to the Appeals Board of the United States Department of Commerce from the denial by the Hearing Commissioner for the Department's Bureau of East-West Trade of Appellants' motion to vacate a temporary denial order promulgated pursuant to the Export Administration Act of 1969, as amended, 50 App. U.S.C. 2401 *et seq.* The Denial Order was promulgated on December 2, 1974, and extended on January 30, 1975, and March 27, 1975.

Preliminary to oral arguments on the appeal, itself, counsel for the appellants and government reviewed a list of "Documents and Materials Requested by the Appellee for Designation in the Appeals Board Record." Counsel for both parties concurred in the removal of Items 8, 9, and 23, all of which were voluntarily withdrawn by government counsel. Item 7, "Government's Memorandum of December 3, 1974, with enclosure of Laird statement," was objected to by counsel for the appellants. Government counsel argued that it should be included in the Appeal Record. The Panel ruled in favor of the appellants and Item 7 was ordered removed.

The Appeal to Vacate the Temporary Denial Order—Upon careful consideration of the oral arguments of counsel and the written briefs filed by both parties, the Appeals Panel denies the appeal to vacate the Temporary Denial Order. The appeal was brought in accordance with the procedures of § 388.13 of the Export Administration Regulations (hereinafter referred to as "the Regulations") on the grounds that prejudicial error of law was committed by the Office of Export Administration in extending the Temporary Denial Order and failing to grant appellants' Motion to Vacate, and that the provisions of the Order, and the manner in which it was issued and has been administered and maintained, are arbitrary and capricious.

In its written brief and in oral argument, counsel for the appellants argued four principal points:

(1) OEA's action was unauthorized and unlawful.

(2) OEA's action was arbitrary and capricious, and an invasion of constitutionally-protected rights and a deprivation of property without due process of law.

(3) The Order was and is causing serious and irreparable injury to appellants.

(4) Vacation of the Order would not be harmful to the public interest.

In articulating its principal points, counsel concentrated on the first two items above. Counsel maintained that

## NOTICES

OEA's action was unauthorized and unlawful for the following reasons: (a) The Act grants authority for only a limited program of export controls; (b) the limited export-control authority granted by the Act does not include the power to control exports generally; (c) OEA's general rule-making authority under the Act does not include implicit power to suspend all export privileges; and (d) in no event may OEA by prohibitory order restrain actions unrelated to proved or alleged violations.

Counsel held that OEA's action was arbitrary and capricious and an invasion of constitutionally-protected rights for the following reasons: (a) absent a compelling public interest, the Government may not take a person's property without prior notice and opportunity for hearing; (b) no compelling public interest required depriving Infomag of an opportunity to be heard on the issuance of the Temporary Denial Order; (c) the scope of the Order exceeded any legitimate purpose or need; (d) OEA's subsequent actions in administering and enforcing the Order have also been arbitrary and capricious; and (e) the terms of the Denial Order are so broad and so loosely drafted as to defy reasonable construction and render the Order enforceable.

Government counsel in its written brief and oral presentation, argued that the Export Administration Regulations, insofar as they provide for denial orders, are within the authority granted to the President under the Export Administration Act and delegated to the Office of Export Administration. In support of this view, counsel cited the Act's statutory and regulatory framework; a Constitutional perspective on such sanctions; the legislative history of the Act; and the extent of OEA's authority. The second major point addressed by government counsel was its position that the issues and extensions of a Temporary Denial Order to protect the public interest in this case were not arbitrary, capricious or an abuse of discretion.

The Appeals Board Panel in hearing and weighing the arguments presented was guided by the Grounds and Conditions for Appeal in § 388.13 of the regulations, specifically (i) that the findings of violation are not supported by any substantial evidence; (ii) that prejudicial error of law was committed; or (iii) that the provisions of the Order are arbitrary, capricious, or an abuse of discretion.

In reaching its decision, the Appeals Panel was particularly cognizant of § 388.13, (c) Matters Considered on Appeal. In the last sentence of that paragraph is the following language:

The Appeals Board shall not consider facts or arguments affecting the merits of the policy embodied in rules or regulations alleged to have been violated.

It is ordered by this Panel that the Temporary Denial Order now in effect, be continued in effect, including any and all modifications to such Order as rendered by the Office of Export Ad-

ministration, and the matter is hereby remanded to the Hearing Commissioner.

CALVIN BROOKS,  
Chairman.

Concurring.

FRANCIS J. BOUCHER,  
Member.

LOUIS J. PHILLIPS,  
Member.

#### DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

#### Center for Disease Control COAL MINE HEALTH RESEARCH ADVISORY COMMITTEE

##### Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Center for Disease Control announces the following National Institute for Occupational Safety and Health Committee meeting:

Name: Coal Mine Health Research Advisory Committee.

Date: June 27, 1975.

Place: Conference Room G, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20852.

Time: 9 a.m.

Type of Meeting: Open: 9 a.m. to 3 p.m. Closed: Remainder of meeting.

Contact Person: Jack Butler, M.D., Interim Executive Secretary, Park Building, Room 3-30, NIOSH, 5600 Fishers Lane, Rockville, Maryland 20852. Phone: 301-443-6437.

Purpose: The Committee is charged with advising the Secretary, Department of Health, Education, and Welfare on matters involving or relating to coal mine health research, including grants and contracts for such research.

Agenda: Agenda items for the open portion of the meeting will include announcements, consideration of minutes of previous meeting, administrative and staff reports, presentation of certificates to retiring members, and a discussion concerning preliminary results of the second round of medical examinations of coal miners and the classification system for lung pathology in coal workers' pneumoconiosis (CWP). During the closed session beginning at 3 p.m., the Committee will be performing the final review of coal research grant applications for Federal assistance, and will not be open to the public, in accordance with the provisions set forth in section 552(b)(4), (5), and (6), Title 5, U.S. Code, and the Determination by the Director, Center for Disease Control, pursuant to Pub. L. 92-463.

Agenda items are subject to change as priorities dictate.

The portion of the meeting so indicated is open to the public for observation and participation. A roster of members and other relevant information regarding the meeting may be obtained from the contact person listed above.

Dated: May 23, 1975.

H. BRUCE DULL,  
Acting Director,  
Center for Disease Control.

## Office of Education

## DEMONSTRATION CENTERS FOR EXTENSION AND CONTINUING EDUCATION

Criteria for Funding of Applications for the Planning of Demonstration Centers for Extension and Continuing Education Programs for Fiscal Year 1975

On pages 14349 and 14350 of the FEDERAL REGISTER of March 31, 1975, there were published Proposed Criteria for Funding of Applications for Demonstration Centers for Extension and Continuing Education Programs for Fiscal Year 1975. Interested persons were given 30 days in which to submit written comments, suggestions, or objections regarding the proposed criteria.

No objections have been received and the proposed criteria are hereby adopted without change and are set forth below.

**Effective date.** The Notice of Proposed Rule Making was transmitted to Congress on March 26, 1975 pursuant to section 431(d) of the General Education Provisions Act. (20 U.S.C. 1232(d)). The time period set forth therein for congressional action has expired without such action having been taken.

Therefore these criteria shall become effective on the date of their publication in the FEDERAL REGISTER.

(Catalog of Federal Domestic Assistance Number 13.557B Planning Continuing Education Centers)

Dated: May 10, 1975

T. H. BELL,  
U.S. Commissioner of Education.

Approved: May 27, 1975.

CASPAR W. WEINBERGER,  
Secretary of Health,  
Education, and Welfare.

The Second Supplemental Appropriation Act of 1974 (Pub. L. 93-305) appropriated funds for the Commissioner to make three grants to institutions of higher education to plan demonstration centers for extension and continuing education.

In keeping with the demonstration nature of this appropriation and in order to promote a variety of approaches to extension and continuing education, the Commissioner will make one grant in each of the following categories:

- Planning for a State-wide center.
- Planning for a center serving a sub-State region or an interstate region.
- Planning for a community or neighborhood center.

In addition to evaluation on the basis of the criteria set forth in the General Provisions for Office of Education Programs, at 45 CFR 100a.26, the Commissioner will select applications to be funded under Title VII, Part A, of the Higher Education Act of 1965, on the basis of the following criteria:

**I. General criteria.** The extent to which the application contains specific data and other information evidencing the institution's commitment to extension and continuing education in terms of:

(a) Existing or proposed programs, personnel, and participation by the public served or to be served;

(b) The need for an intended use of the center for continuing education purposes (based on current programs and how the center would expand and improve present offerings);

(c) How the project is expected to complement and advance current programs, investigations, or experiments in continuing education;

(d) How the proposed facility will serve the extension and continuing education contemplated and how it will complement and make maximum use of any existing or contemplated facilities and resources;

(e) Adequate resources (including the grant) to complete the proposed planning;

(f) The extent to which the planning undertaken will be programmatically useful for replication or adaptation by other institutions of higher education.

**II. Specific criteria.** In addition to being evaluated on the degree of compliance with the general criteria, an application for grant funds hereunder must specify which of the following categories it proposes to plan for, and the application will be further evaluated on the basis of the criteria applicable to such category as follows:

**1. State-wide center.** (a) The extent to which such center would serve as a focus and aid for carrying out a comprehensive state plan for community service and continuing education.

(b) The extent to which such center, by providing short term residential capability for new groups and important combinations of groups, would increase the State-wide impact of the university's teaching capabilities.

(c) The extent to which such center, serving as the centralized agency for other public and private educational institutions, would provide a new dimension to experimental and demonstration methods of expanding extension and continuing education for adults, as for example, educational television, home study courses, etc.

**2. Regional center.** (a) The extent to which such center, by providing a focus for involving extension and continuing education students in determining the nature and extent of regional problems and in arriving at solutions for them, proposes to serve a region within a state or an interstate region.

(b) The extent to which the center may be viewed as a public service center through which the institution, by means of its faculty, or by means either of credit or of credit-free classes, serves as consultant and renders technical assistance to area agencies and organizations.

**3. Community center.** (a) The extent to which the center makes readily available to the part-time adult student (the housewife, the worker, the elderly citizen) both cultural and vocational courses, and provides necessary auxiliary services to enable such part-time students to take advantage of such courses,

e.g. day-care assistance, food services, laboratory and shop capability.

(b) The extent to which the center, in addition to educational services, provides a wide range of community services, such as counseling, civic information, or technical advice, to local agencies and organizations, so that the center becomes a visible presence locally and underscores the role of the institution as a citizen and neighbor.

Inasmuch as the funds made available by Pub. L. 93-305 for planning grants for demonstration centers for extension and continuing education, are, by the language of Pub. L. 93-305, expressly exempted from the other provisions of Title VII of the Higher Education Act of 1965, as amended, the regulations for that Act set forth at 45 CFR Part 170 are not applicable. Grants will, however, be subject to the General Provisions regulations (45 CFR, Part 100).

Each application filed hereunder shall contain an assurance that a copy of the application was forwarded to the State Agency for the Community Service and Continuing Education Program or to the State Higher Education Facilities Commission, whichever is the lead agency, and that ten days have elapsed before the application was filed with the Office of Education in order to allow such State agency to comment on it.

[FR Doc.75-14141 Filed 5-29-75;8:45 am]

Food and Drug Administration  
CARDIAC PACEMAKERS

## Open Public Meeting Regarding Pacemaker Interference by Antitheft Devices

The Commissioner of Food and Drugs announces an open public meeting to be held on June 25, 1975, at 9 a.m. in Conference Rm. M, Parklawn Bldg., 5600 Fishers Lane, Rockville, MD 20852, to allow all interested persons an opportunity to present data, technical information, and views concerning the possible interference with cardiac pacemakers by antitheft devices.

The Food and Drug Administration is aware of two reported instances of interference with cardiac pacemakers by antitheft devices. The growing use of these devices in the future may present additional interference problems. The antitheft devices in question are those being used increasingly in retail outlets to detect shoplifting. Such devices typically create an electromagnetic field, which when disturbed by a special tag attached to a piece of merchandise, will trigger the device and alert the retail outlet personnel to possible shoplifting or theft. Similar devices are used in libraries, museums, and places of business to detect unauthorized removal of articles from the premises.

It is apparent that pacemaker manufacturers are unaware of the existence and electromagnetic field characteristics of the antitheft devices and have not tested their product for interference with pacemakers. Since antitheft devices use

a wide variety of frequencies, power levels, and modulation characteristics, the Commissioner feels that further exploration of the possibilities of cardiac pacemaker interference may be necessary.

Therefore, the Commissioner believes that this meeting will serve to bring together manufacturers of cardiac pacemakers and manufacturers of antitheft devices, as well as other interested parties, to discuss possible pacemaker interference problems and to develop courses of action that will eliminate or reduce the likelihood of such interference.

Since cardiac pacemakers are medical devices subject to the Food, Drug, and Cosmetic Act, and since antitheft devices are electronic products that emit radiation and are, therefore, subject to the Radiation Control for Health and Safety Act of 1968 (42 U.S.C. 263b et seq.), the open public meeting is being sponsored by the Bureau of Medical Devices and Diagnostic Products and the Bureau of Radiological Health, pursuant to 21 CFR 2.15(b) published in the FEDERAL REGISTER of May 27, 1975 (40 FR 22949). In the interest of adequate preparation, interested persons representing pacemaker manufacturers and antitheft device manufacturers, or any other interested persons who plan to attend this meeting, are requested to notify Mr. James Veale (HFK-400), Bureau of Medical Devices and Diagnostic Products, Division of Classification and Scientific Evaluation, 5600 Fishers Lane, Rockville, MD 20852, (301) 443-3550, and advise him, by close of business of June 12, 1975, of their intent to attend.

A transcript of the meeting will be made available to those persons attending the open meeting; any submissions of written data, technical information, and views will also be made available for public review in the office of the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852.

Dated: May 27, 1975.

SAM D. FINE,  
Associate Commissioner  
for Compliance.

[FR Doc.75-14281 Filed 5-29-75;8:45 am]

## COSMETIC LABELING; DESIGNATION OF INGREDIENTS

## Request for Data and Information

The Commissioner of Food and Drugs is requesting the submission by July 29, 1975, of data and information in support of exemptions and alternatives sought by objections to a recent order on cosmetic labeling; the Commissioner will issue as a proposal any exemption for which reasonable grounds are submitted.

Elsewhere in this issue of the FEDERAL REGISTER a notice is published confirming the effective date of the requirement that the labeling of cosmetic products contain a declaration of ingredients under § 701.3 (21 CFR 701.3). The basic re-

quirement for declaration of ingredients was established in a regulation published in the FEDERAL REGISTER on October 17, 1973 (38 FR 28912). In an order published in the FEDERAL REGISTER of March 3, 1975 (40 FR 8918), the Commissioner amended that requirement by creating certain exemptions and permitting certain alternative methods for declaring ingredients. In response to those amendments, a number of objections requested additional exemptions or other alternative methods for declaring ingredients. Under section 6 of the Fair Packaging and Labeling Act (15 U.S.C. 1455), which incorporates by reference section 701(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 371(e)), the proper procedure for requesting amendment of a regulation is "by petition of any interested persons, showing reasonable grounds therefor, filed with the Secretary." However, the objections requesting additional exemptions and alternative methods of ingredient declaration did not present sufficient information in support of the requests, and the Commissioner concludes that reasonable grounds for the requested actions have not been demonstrated.

Because of the considerable interest on the part of some manufacturers in having available additional exemptions and alternative methods of declaration, the Commissioner concludes that the petitions should not simply be denied for the failure to present reasonable grounds. Instead the Commissioner hereby invites all interested persons to submit data and other information in support of the additional exemptions and alternatives sought by the objections. The exemptions and alternatives sought are as follows:

- Permission to list all ingredients in alphabetical order.
- Permission to declare only "known allergens."
- Permission to list color ingredients by the term "color" instead of by specific name.
- Permission to place ingredient declarations inside small packages of cosmetics.
- Permission to declare the ingredients for all products by means of off-package labeling.
- Permission to use off-package labeling for products sold in outer containers.
- Permission to use 1/2 inch type on packages having a principal display panel not exceeding 5 square inches.

In accordance with section 701(e) (1) of the act, the Commissioner will issue as a proposal in the FEDERAL REGISTER any exemption or alternative for which reasonable grounds are shown. Information constituting reasonable grounds in support of these exemptions and alternatives shall be submitted by July 29, 1975, to the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852.

Dated: May 25, 1975.

A. M. SCHMIDT,  
Commissioner of Food and Drugs.

[FR Doc.75-14282 Filed 5-29-75;8:45 am]

[DESI 7358; Docket No. FDC-D-520; NDA 11-065, 11-323]

## CERTAIN NITROFURAN DRUGS: TRICOFURON VAGINAL POWDER AND SUPPOSITORIES AND FUROXONE LIQUID

Opportunity for Hearing on Proposal to Withdraw Approval of New Drug Applications

In the FEDERAL REGISTER of March 29, 1973 (38 FR 8186), the Commissioner of Food and Drugs proposed to issue an order under the provisions of section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of new drug application numbers 11-065 and 11-323 for Tricofuron Vaginal Powder and Suppositories (furazolidone and nifuroxime) and Furoxone Liquid (furazolidone, kaolin, and pectin) held by Norwich Pharmacal Company, Division of Norwich Products, Inc., 13-27 Eaton Avenue, Norwich, NY 13815 (hereafter Norwich). The reasons for the proposed order were that the drugs lacked substantial evidence of effectiveness for their labeled claims, and that the drugs had not been shown to be safe. The products have been used to treat various infections. The notice had not specifically referred to the policy for fixed combination prescription drugs for humans, 21 CFR 300.50. The notice of March 29, 1973 is now being amended in that regard. Other drugs included in the March 29, 1973 FEDERAL REGISTER notice are not affected by this notice, but are covered by another notice published elsewhere in this issue of the FEDERAL REGISTER.<sup>1</sup>

In response to the March 29, 1973 FEDERAL REGISTER notice Norwich requested a hearing on the proposed withdrawal of approval and submitted a number of articles and other data in an attempt to support the safety and effectiveness of Tricofuron and Furoxone Liquid; Norwich's submissions did not, however, address themselves to or provide any evidence meeting the requirements for fixed combination drugs for humans 21 CFR 300.50. Therefore, in the interest of fairness and before proceeding further with his review, the Director, Bureau of Drugs has decided to notify Norwich of its failure and give it an opportunity to submit data meeting the requirements of 21 CFR 300.50.

Accordingly, the notice of March 29, 1973 is herewith amended to notify Norwich that Tricofuron (furazolidone and nifuroxime) Vaginal Powder and Suppositories and Furoxone Liquid (furazolidone, kaolin, and pectin) are combination products within the meaning of 21 CFR 300.50 in which no evidence of effectiveness for their labeled indications has been submitted as required by 21 CFR 300.50 Fixed Combination Prescription Drugs for Humans.

Inasmuch as no interested person other than the applicant filed a written appearance concerning these or identical,

<sup>1</sup> See FR Doc. 14070 *infra*.

related, or similar products in response to the March 29, 1973 notice and since their failure to file an appearance constitutes an election by such persons not to avail themselves of an opportunity for a hearing, 21 CFR 314.200, the opportunity provided by this notice is applicable only to Norwich.

Therefore, notice is given to Norwich that the Director of the Bureau of Drugs proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)), withdrawing approval of the new drug applications and all amendments and supplements thereto on the grounds (1) that new information before him with respect to the drug products, evaluated together with the evidence available to him at the time of approval of the applications, shows that there are no adequate and well-controlled clinical investigations, conducted by experts qualified by scientific training and experience, meeting the requirements of section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and 21 CFR 314.111(a) (5) and 21 CFR 300.50 demonstrating the effectiveness of the drug and (2) that tests by methods not deemed reasonably applicable when such applications were approved, evaluated together with evidence available when the applications were approved, show that such drugs containing furazolidone for human use, are not shown to be safe for use under the conditions of use upon the basis of which the applications were approved. Specifically, the oral administration of furazolidone has been shown to induce mammary neoplasia in rats. None of the furazolidone-containing drugs have been adequately tested for absorption in humans. Inadequate animal data exist on topical use. A serious question of safety regarding the use of furazolidone in humans is therefore raised. Other equally effective drugs having less potential risk are available. The subject drugs are not specific for use in life-threatening or other important medical uses. Accordingly, the Food and Drug Administration concludes that, because of the unfavorable benefit-to-risk ratio, associated with use of these drug products, there is a lack of proof of safety.

In addition to the grounds for the proposed withdrawal of approval stated above, this notice of opportunity for hearing encompasses all issues relating to the legal status of the drug products subject to it, e.g., any contention that any such product is not a new drug because it is generally recognized as safe and effective within the meaning of section 201(p) of the act or because it is exempt from part or all of the new drug provisions of the act pursuant to the exemption for products marketed prior to June 25, 1938, contained in section 201(p) of the act, or pursuant to section 107(e) of the Drug Amendments of 1962; or for any other reason.

In accordance with the provisions of section 505 of the act (21 U.S.C. 355) and the regulations promulgated thereunder

(21 CFR 310.314), the applicant is hereby given an opportunity to submit additional data to show why approval of the new drug applications should not be withdrawn and an opportunity to raise, for administrative determination, all issues relating to the legal status of the drug products named above.

If Norwich elects to avail itself of the opportunity to submit additional data, it shall file on or before June 30, 1975, the data, information, and analyses on which it relies to justify a hearing, as specified in 21 CFR 314.200. The procedures and requirements governing this notice of opportunity for hearing, submission of data, information, and analyses to justify a hearing, other comments, and a grant or denial of hearing, are contained in 21 CFR 130.14 as published and discussed in detail in the FEDERAL REGISTER of March 13, 1974 (39 FR 9750), recodified as 21 CFR 314.200 on March 29, 1974 (39 FR 11680).

Any additional submissions may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. At the end of the thirty day period, the submissions will be evaluated. If it conclusively appears from the face of the data, information, and factual analyses in the request for the hearing that there is no genuine and substantial issue of fact which precludes the withdrawal of approval of the applications, or if the data are not submitted in the required format or with the required analyses, the Commissioner will enter summary judgment against Norwich, making findings and conclusions, denying a hearing.

All submissions pursuant to this notice shall be filed in quintuplicate with the Hearing Clerk, Food and Drug Administration (HFC-20), Room 4-65, 5600 Fishers Lane, Rockville, MD 20852.

All submissions pursuant to this notice, except for data and information prohibited from public disclosure pursuant to 21 U.S.C. 331(j) or 18 U.S.C. 1905, may be seen in the office of the Hearing Clerk during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 505, 52 Stat. 1052-53, as amended; 21 U.S.C. 355), and under authority delegated to the Director of the Bureau of Drugs (21 CFR 2.121).

Dated: May 23, 1975.

J. RICHARD CROUT,  
Director, Bureau of Drugs.

[DESI 7358; DOCKET NO. FDC-D-520;  
NDA 5-795, ETC.]

#### FURACIN VAGINAL SUPPOSITORIES Denial of Hearing and Withdrawal of New Drug Application

The Commissioner of Food and Drugs denies hearing and withdraws approval for that part of the new drug applica-

tion (NDA 5-795) which provides for Furacin Vaginal Suppositories, effective June 9, 1975.

A notice was published in the FEDERAL REGISTER of March 29, 1973 (38 FR 8186), in which the Food and Drug Administration announced an opportunity for hearing on a proposal to withdraw approval of new drug applications or pertinent parts thereof, of the following nitrofurantoin drugs: Furacin Nasal Drops (NDA 7-358), Furacin Otic Drops (NDA 12-403), Furacin Vaginal Suppositories (NDA 5-795), Furacin Ear Solution (NDA 5-795), Tricofuron Vaginal Powder and Suppositories (NDA 11-065), Furoxone Tablets (NDA 11-270), and Furoxone Liquid (NDA 11-323), all new drug applications held by Norwich Pharmaceutical Co., Division of Morton-Norwich Products, Inc., 13-27 Eaton Ave., Norwich, NY 13815 (hereafter Norwich).

The announcement stated that, with the exception of Furacin Ear Solution, Nasal Drops and Otic Drops, the National Academy of Sciences-National Research Council (NAS/NRC), Drug Efficacy Study Group, had reviewed the drug products listed above and classified them as less than effective. The announcement further stated that the Commissioner proposed to initiate action to withdraw approval of these new drug applications on the grounds that (1) new information with respect to the drugs, evaluated together with the evidence available at the time of approval of the applications, shows that there is a lack of substantial evidence that the drugs will have all the effects they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in their labeling, and (2) tests by methods not deemed reasonably applicable when such applications were approved, evaluated together with the evidence available when the applications were approved, show that drugs for human use containing nitrofurazone or furazolidone are not shown to be safe for use under the conditions of use upon the basis of which the applications were approved. The Food and Drug Administration also concluded that there was a lack of proof of safety on the grounds, inter alia, that the oral administration of nitrofurazone and furazolidone had been shown to induce mammary neoplasia in rats.

Prior to initiating such action, the Commissioner invited holder(s) of the new drug applications and any other interested persons, including those marketing identical, related, or similar drugs, to submit, by April 30, 1973, a written notice electing whether or not to avail himself of the opportunity for a hearing. Applicants or other persons requesting a hearing were advised to include a well-organized and full factual analysis of the clinical and other investigational data they were prepared to prove in support of the opposition to the proposed withdrawals.

On April 30, 1973 in response to the notice, Norwich filed separate requests for a hearing for each of the six nitro-

furan new drug applications listed above. Each request raised a single legal objection, denied the factual findings of the Commissioner, and stated that further supplemental submissions in support of the requests for hearing would be made.

On June 6, 1973, Norwich submitted medical data and proposed revised labeling for Furoxone Tablets and reformulated Furoxone Liquid (NDA 11-270 and NDA 11-323). The original labeling reviewed by the NAS/NRC, Drug Efficacy Study Group, recommended Furoxone for the treatment of bacterial or protozoal diarrhea and enteritis. The proposed revised labeling would limit use of Furoxone solely for typhoid fever, cholera, and *Giardia lamblia*. Since the new labeling is more restrictive than that reviewed by the NAS/NRC, Drug Efficacy Study Group, and since the only data submitted were in support of the safety and efficacy of the revised claims, the request for a hearing on Furoxone Tablets will be the subject of a separate FEDERAL REGISTER notice when review of the data has been completed; a notice covering Furoxone Liquid (old formulations) is published elsewhere in this issue of the FEDERAL REGISTER.<sup>1</sup>

On June 21 and November 16, 1973, in an attempt to support the safety and efficacy of Furacin Vaginal Suppositories (NDA 5-795) and Tricofuron Vaginal Powder and Suppositories (NDA 11-065), Norwich submitted additional safety data, marketing data, testimonial letters and affidavits, clinical efficacy studies, and numerous references to the medical literature. In its June 21, 1973 submission, Norwich proposed to relabel Furacin Vaginal Suppositories and requested approval to reformulate and relabel Tricofuron Vaginal Powder and Suppositories. The proposed reformulation of Tricofuron would replace the nifuroxime with nystatin; the proposed relabeling of Tricofuron would restrict the recommended use to treatment of specific mixed infections of the vagina shown to be resistant to other agents. Subsequently, on December 20, 1973, Norwich notified the Food and Drug Administration that the lists of references attached to the affidavits submitted on November 16, 1973, were incorrect. To correct the errors, Norwich submitted new lists of medical references together with copies of the articles referred to therein.

The Tricofuron Vaginal Suppositories and Powder, as presently labeled and formulated, are covered in a separate notice elsewhere in this issue of the FEDERAL REGISTER.<sup>2</sup> The Director of the Bureau of Drugs will notify Norwich when he decides whether or not to approve the reformulated and relabeled tricofuron products.

On September 5, 1974 and October 4, 1974, Norwich withdrew its requests for a hearing for Furacin Otic Drops (NDA 12-403), Furacin Nasal Drops (NDA 7-358) and Furacin Ear Solution (NDA 5-795). These drugs are the subject of a separate FEDERAL REGISTER notice.

<sup>1</sup> See FR Doc. 14071 *supra*.

<sup>2</sup> See FR Doc. ...

The Commissioner has considered all of the material submitted by Norwich in support of its request for a hearing on the proposed withdrawal of the new drug application for that part of NDA 5-795 covering Furacin Vaginal Suppositories and concludes that there is no genuine issue of material fact requiring a hearing and that the legal objections offered are insubstantial; a full discussion follows:

#### I. THE DRUG

Furacin Vaginal Suppositories contain 0.3 percent nitrofurazone in a water-miscible base composed of glyceryl monolaurate and polyoxyethylene (4) sorbitan monostearate.

#### II. RECOMMENDED USES

Furacin Vaginal Suppositories labeling reviewed by the NAS/NRC, Drug Efficacy Study Group, recommends this drug for treatment of bacterial vaginitis and cervicitis and resulting leukorrhea and malodor, prevention of infection before and after cervicovaginal surgery and electrosurgery and before and after radiation therapy of pelvic neoplasms. The proposed labeling included with the June 21, 1973 submission recommends the product for treatment of bacterial vaginitis (due to *Haemophilus vaginalis* and other organisms shown to be unresponsive to different agents) and for use before and following radiation therapy to prevent or treat malodor and discharge caused by bacterial growth in necrotic debris.

#### III. THE DATA SUBMITTED TO SUPPORT CLAIMS OF EFFECTIVENESS OF FURACIN VAGINAL SUPPOSITORIES

A. Medical Literature References Submitted. 1. Keith, Louis, Bash, I. M., Dravineks, A., and Krotosynski, B. K., "Changes of Vaginal Odors of 6 Patients Under Nitrofurazone Treatment," *Journal of Reproductive Medicine*, 4(4): pp. 69-76, April 1970. In this study, six patients with disorders of the genital urinary tract or the vagina and uterus were treated with Furacin Vaginal Suppositories. Two of the six patients were designated as "treatment controls" and were diagnosed as having hematuria, cause unknown, and stress incontinence, respectively. Neither was reported to have malodor. Of the remaining four patients, one was diagnosed as having bacterial vaginitis, and three as having postpartum endometritis. All four were reported to have malodor. A seventh patient, with a urinary tract infection, was designated as a "normal control." Vaginal vapors were collected before treatment and were compared by using gas chromatographic and odor dilution techniques with vapors collected after treatment. The before and after intervals varied from 4 hours to 24 hours among the various patients.

The study is not an adequate and well-controlled investigation of Furacin Vaginal Suppositories for the labeled indications for the following reasons:

The study subjects included only one with a condition for which the product is, or is proposed to be indicated (bacterial vaginitis with accompanying malodor).

That subject was treated with the test drug. It is impossible to have a well-controlled study of a product for its labeled indications when only one subject with such an indication is studied; without, as here, a subject who has the specified indication and is not treated with the test drug, it is impossible to determine whether any effect observed in the test subject was due to the test drug or to other factors, such as the natural history of the condition being treated. Accordingly, the study does not purport to provide for comparison of the results of treatment of the drug for its labeled indications with the results in an appropriate control group, as required by 21 CFR 314.111(a) (5) (ii) (a) (4).

Three out of four of the test subjects with malodor did not have malodor associated with a condition for which the test drug is labeled (they had malodor associated with endometritis, which is not mentioned among the drug's indications). No meaningful comparison can be made between results in the treatment group (here, the four subjects with malodor) with the results in an appropriate control (here, the two "treatment controls" and the one "normal control"), as required by 21 CFR 314.111(a) (5) (ii) (a) (4), because, first, none of the three patients designated as "controls" was reported to have malodor, and second, the two patients designated as "treatment controls" were themselves treated with the very drug being tested. Effectiveness of a drug for a given condition cannot be demonstrated by observing what happens when the drug is given to patients who lack that condition in the first instance. And effectiveness of a drug for a given condition cannot be demonstrated by administering the drug to two groups of patients, a procedure which results in two uncontrolled tests, not a controlled study.

Since the method of selecting study subjects did not, on its face, attempt to identify patients with conditions which Furacin Vaginal Suppositories is intended to treat (only one of six had such a condition), the study also lacks a method of selection of subjects which provides any assurance that they were suitable for the purpose of a study aimed at providing evidence of the effectiveness of the drug for its intended uses, as required by 21 CFR 314.111(a) (5) (ii) (a) (2) (i). Further, since subjects were knowingly assigned to groups in such a way that one group contained all patients with malodor and another contained all patients lacking malodor, the study, on its face, failed to assure that the test groups were comparable with respect to a critical variable, i.e., the condition for which the drug is intended as treatment, as required by 21 CFR 314.111(a) (5) (ii) (a) (2) (iii).

With respect to the test results concerning reduction of malodor, results in the one test subject having malodor associated with a condition specified in the drug's labeling (bacterial vaginitis) is no more than an isolated case report, which is unacceptable as the sole basis for approval of claims of effectiveness (21 CFR 314.111(a) (5) (ii) (c)). Results in the

three patients with postpartum endometritis are not pertinent to effectiveness of Furacin Vaginal Suppositories for its labeled indications (current or proposed), which do not include malodor associated with that condition.

The methods used to quantitate "improvement" in malodor are questionable. "Improvement" noted in the two treatment controls was 2 to 20 times greater than that observed in the four subjects with malodor. Since the treatment controls did not have malodor to begin with, it is apparent that the meanings of "improvement," "malodor," or both, employed in the study have no necessary correspondence to the meanings those words have in the clinical context of treating malodor associated with the pathological conditions specified in the labeling for Furacin Vaginal Suppositories. The authors' observations and conclusions respecting "improvement" in any of the conditions involved in the study, thus, do not constitute "quantitative evaluation" within the meaning of 21 CFR 314.111(a)(5)(ii)(a)(4).

2. Gardner, H. L., and Dukes, C. D., "Haemophilus Vaginalis Vaginitis, A Newly Defined Specific Infection Previously Classified, Nonspecific Vaginitis," *American Journal of Obstetrics & Gynecology* Vol. 69:962-976, 1955. This was a study to classify and describe a previously unclassified type of bacterial vaginitis. While the authors mention in passing that the organism under study may be sensitive to certain antibiotics, no effort was made to evaluate the effectiveness of any antibiotic, or of Furacin or any other drug containing nitrofurazone. Hence, the study is not an adequate and well-controlled clinical investigation of the effectiveness of Furacin within the meaning of section 505(d) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(d)) and 21 CFR 314.111(a)(5)(ii)(a)(4).

3. Edmunds, P. N., "Haemophilus Vaginalis, Its Association with Puerperal Pyrexia and Leucorrhoea," *Journal of Obstetrics and Gynaecology British Empire*, 66:917-926, 1959. This study was to describe the diagnosis and incidence of the *H. vaginalis* bacterium in various clinical groups and its relation to other vaginal flora. Like the previous study, the author notes that the organism is sensitive to antibiotics, but no effort was made to evaluate the effectiveness of Furacin Vaginal Suppositories or any other product containing nitrofurazone. Hence, the study is not an adequate and well-controlled clinical investigation of the effectiveness of Furacin within the meaning of section 505(d) of the act (21 U.S.C. 355(d)) and 21 CFR 314.111(a)(5)(ii)(a)(4).

4. Gardner, H. L., and Kaufman, R. H., "Benign Diseases of the Vulva and Vagina," C. V. Mosley Co., 1969. The authors treat Furacin only peripherally and the portions of the text relating to Furacin do not purport to describe an adequate and well-controlled clinical investigation of furacin within the meaning of section 505(d) of the act (21 U.S.C. 355(d)) and 21 CFR 314.111(a)(5)(ii)(a)(4), since they do no more than state, in three sentences,

that Furacin gives results comparable to the sulfonamides. Absent any details which permit scientific evaluation, it is no more than a testimonial, which is unacceptable as the sole basis for the approval of claims of effectiveness (21 CFR 314.111(a)(5)(ii)(c)).

5. Moore, Richard M., "An Evaluation of Various Methods of Vaginal Asepsis," *American Journal of Obstetrics and Gynecology* 64(2), August 1952. This study was to evaluate the comparative effectiveness of a representative agent of each major family of antibacterials then currently used in the vaginal preparation of the patient for gynecologic surgery. In this study, 325 unselected gynecologic patients were divided into seven groups (six groups of 50, including one "no vaginal medication" group, and one group of 25 who received Furacin Vaginal Suppositories). Vaginal cultures were taken from all patients upon admission for gynecologic surgery before any type of medication was given. All vaginal preparations were administered in the afternoon before surgery and at 5 a.m. on the day of surgery. Patients receiving suppositories were given only one as indicated. Preoperative cultures were obtained just before the patient was sent to the operating room. Postoperative cultures were taken on the fourth day on most, but not all, of the patients.

The results of preoperative preparation were compared with results upon admission in terms of (1) negative cultures, (2) less than admission cultures, and (3) greater than admission cultures. This comparison was made with all groups, including that receiving Furacin Vaginal Suppositories.

The results of postoperative treatment were compared in a similar manner, but were restricted to three groups. The first of these were patients who had received no postoperative medication. The second group included patients who had received penicillin and streptomycin suppositories or penicillin suppositories prior to surgery but who had received no medication postoperatively. The third group included patients who had received postoperative medication of penicillin and streptomycin or penicillin suppositories. There is no group identified in the postoperative culture summary information as having received Furacin Vaginal Suppositories.

The author draws no conclusions regarding the effectiveness of Furacin Vaginal Suppositories in the preoperative vaginal preparation of gynecological patients. The author's conclusions are limited to the penicillin and streptomycin vaginal suppositories and to the penicillin vaginal suppositories, which he claims to be the most effective antibacterial agents used in the study in the preoperative preparation of gynecological patients. With respect to Furacin, the reported results indicate that Furacin is no more effective than a placebo. Thus, of the 50 patients who received "no vaginal medication" prior to surgery, 24 percent were classified by the author as having "less than admission cultures." The response among the 25 patients who received Furacin Vaginal

Suppositories prior to surgery was identical, i.e., 24 percent were classified as having "less than admission cultures." Similarly, these two groups showed almost identical results for the percentages of patients classified by the author as having "greater than admission cultures" (48 and 44 percent, respectively).

With respect to postoperative results of the agents tested, the author concluded that the penicillin and streptomycin vaginal suppositories and penicillin vaginal suppositories, administered postoperatively, maintained a relatively sterile field to promote postoperative healing. There is, as mentioned, no indication in the study report that postoperative cultures were obtained and analyzed from the Furacin subjects, and the author makes no conclusion concerning the results of Furacin in the postoperative context.

The author did note that no patient in the Furacin group had a morbid postoperative course in the study. The author states, however, that the size of each of the groups considered was too small for postoperative morbidity to be of any comparative significance. He further states that it was evident that basic surgical technique is of primary importance in the incidence of postoperative morbidity.

The study, therefore, provides no evidence of the effectiveness of Furacin Vaginal Suppositories for the prevention of infection either before or after surgery, or for any other indication.

Further, the study is not adequate and well-controlled within the meaning of 21 CFR 314.111(a)(5)(ii) for the following reasons:

There was no explanation of how the patients were assigned to the test groups to assure the comparability in test and control groups of pertinent variables (21 CFR 314.111(a)(5)(ii)(a)(2)(iii)). Assignment of patients in a study like this must, in addition to considering the agents being studied, also assure that the surgery employed on each group is representative of the surgical procedures which were involved. The author identifies the surgical procedures only as "major cases" and "minor cases." There is thus no assurance of the comparability of test and control groups of pertinent variables, that is, the surgical procedures to which the patients were subjected.

The study does not purport to provide a comparison of the results of postoperative treatment with Furacin with the control or "no vaginal medication" groups in such a fashion as to permit quantitative evaluation (21 CFR 314.111(a)(5)(ii)(a)(4)). There is no record of any postoperative cultures taken from women who had received Furacin Vaginal Suppositories.

Only postoperative morbidity of the Furacin-treated patients was discussed, and then only in terms of its incidence in the seven groups (i.e., no scientific comparison is made, and no conclusions are drawn based on the incidences of morbidity). The criteria for defining morbidity and the method or methods for determining morbidity are not explained

by the author (21 CFR 314.111(a)(5)(ii)(a)(3)). The results with respect to morbidity are thus inconclusive (as stated by the author) and, in any case, Furacin is not indicated for prevention or treatment of that condition.

6. Lang, Warren R., "Experiences in a Vaginitis Clinic," *Journal of the American Medical Association* 174(14):122-125, December 1960 and Lang, Warren, Fritz, Mary Ann, and Menduke, Hyman, "The Bacteriologic Diagnosis of Trichomonal Candidal, and Combined Infections," *Obstetrics and Gynecology* 20(6), December 1962. In the first paper, Dr. Lang summarizes his experiences with vaginitis over a 13-year period; there is no indication that he conducted an adequate and well-controlled clinical investigation, nor does he represent his views to be the product of such an investigation. Although he states, in one sentence, that bacterial vaginitis responds well to Furacin, among other drugs, he presents no data or details to support that conclusion. The reference does not purport to be an adequate and well-controlled clinical investigation of the effectiveness of Furacin within the meaning of section 505(d) of the act (21 U.S.C. 355(d)) and 21 CFR 314.111(a)(5)(ii); it is, rather, a testimonial and is unacceptable as the sole basis for a claim of effectiveness (21 CFR 314.111(a)(5)(ii)(c)).

The second paper, an extension of the first, is concerned exclusively with the diagnosis and grading of vaginal bacteria and in no way attempts to assess the effectiveness of any drug product. Furacin is nowhere mentioned. It is thus not an adequate and well-controlled clinical investigation of the effectiveness of Furacin within the meaning of section 505(d) of the act (21 U.S.C. 355(d)) and 21 CFR 314.111(a)(5)(ii).

7. Capraro, Vincent J., "Pediatric Vulvovaginitis," *Journal Newark City Hospital* 2:15-25, 1965. This paper presents a very general discussion of various aspects of pediatric gynecology, including how to conduct gynecological examinations (without traumatizing younger patients), etiology, experience of the author, and, finally, treatment. Only one sentence in the paper refers to Furacin. It summarily states that Furacin may be used with satisfactory results in some cases of mixed bacterial vulvovaginitis. No data and no report of a controlled study are offered to support the claim. The report does not purport to be an adequate and well-controlled clinical investigation of the effectiveness of Furacin within the meaning of section 505(d) of the act (21 U.S.C. 355(d)) and 21 CFR 314.111(a)(5)(ii), but is, rather, a testimonial, and is unacceptable as the sole basis for a claim of effectiveness (21 CFR 314.111(a)(5)(ii)(c)).

8. Robins, Spottswood, "Office Gynecology in Private Practice," *Virginia Medical Monthly* 89:637-641, November 1962. This is another general discussion of office procedure to be followed by practicing gynecologists. Although the author states that Furacin is indicated following electrocauterization, he offers no data or details either to support his

conclusion or to permit scientific evaluation. The report does not purport to be an adequate and well-controlled clinical investigation of the effectiveness of Furacin within the meaning of section 505(d) of the act (21 U.S.C. 355(d)) and 21 CFR 314.111(a)(5)(ii); it is, rather, a testimonial and is unacceptable as the sole basis for a claim of effectiveness (21 CFR 314.111(a)(5)(ii)(c)).

9. Grimes, Hugh G., and Geiger, Clyde J., "Furacin (Nitrofurazone) Vaginal Suppositories in Operative Gynecology," *American Journal of Obstetrics and Gynecology* 79(3):441-450, March 1960. This is a study of the effectiveness of Furacin Vaginal Suppositories on postoperative morbidity, healing, vaginal bacterial flora, and pH in 137 patients undergoing gynecologic procedures of varying seriousness. The patients were divided into three major groups: a "control group," an "early treatment group," and a "later treatment group." The "later treatment group" was subdivided into two groups based upon the strength of Furacin Vaginal Suppository used (0.2 percent Furacin or 0.3 percent Furacin). The patients were examined upon admission, preoperatively and postoperatively; the results were then compared. The operative preparation, consisting of a thorough cleansing of the perineum and vagina with soap and water without any specific antiseptic, was the same for all groups. The "early treatment group" (35 patients) received a single Furacin Vaginal Suppository 14 to 16 hours preoperatively, and one suppository per day for 5 days postoperatively beginning on the first postoperative day. The "later treatment group" was subdivided as indicated above. All subjects in this group received a single Furacin suppository preoperatively. Postoperatively, the suppositories were administered twice daily to the respective subgroups beginning on Day 1.

The study offers no evidence of the effect of Furacin Vaginal Suppositories on the vaginal bacterial flora when the suppository was given preoperatively. The authors stated that "The suppository given preoperatively did not alter bacterial flora qualitatively or quantitatively in the second preoperative specimen in 84 of 88 patients (95 percent)." The authors concluded that there was no statistically significant difference in postoperative morbidity. Further, the authors pointed out that morbidity is influenced by multiple factors, "including the all-important basic surgical principles," and discussed the test results concerning morbidity only after the qualifying introductory clause, "Presuming these to be constant in our series . . ." The authors noted that early healing was a completely unsatisfactory observation as a basis for comparison of effectiveness of treatment and control groups because all patients had a relatively consistent appearance of the 6-day-old vaginal wound. The study states that late healing was enhanced by Furacin Vaginal Suppositories, and that that observation is statistically significant. Finally, the study states that "Diminu-

tion of the amount and odor of discharge was noted in these patients with satisfactory late healing," but that "This [observation] is certainly subjective in nature," and makes no attempt to support the statement by reference to specific data. The study thus purports to provide meaningful information with respect only to Furacin's effect on late healing. Late healing is not an indication for Furacin under either its currently approved or proposed labeling. The study thus provides no information to support the effectiveness of the product for its labeled indications.

Further, the study is not an adequate and well-controlled clinical investigation within the meaning of 21 CFR 314.111(a)(5)(ii) for the following reasons: The authors do not describe the method of assigning the subjects to test groups in a way which assures comparability in test and control groups of pertinent variables (21 CFR 314.111(a)(5)(ii)(a)(2)(iii)). Control of variables such as surgical skill, hemostasis, and particular surgical procedure involved, is critical to any study attempting to assess differences in morbidity and wound healing. Also, the authors state that antibiotics were administered on specific indication only, but they do not indicate to which patients or consider whether the administration of antibiotics was comparable in the treatment and control groups (21 CFR 314.111(a)(5)(ii)(a)(2)(iii)).

The authors failed to take steps to minimize observer bias, as required by 21 CFR 314.111(a)(5)(ii)(a)(3). Such steps cannot be omitted when subjective clinical observations such as the rate of postoperative healing or vaginal healing are to be assessed. When subjective clinical observations such as postoperative healing or vaginal odor are to be assessed, a placebo suppository should be used (21 CFR 314.111(a)(5)(ii)(a)(4)(ii)).

With respect to diminution of amount and odor of discharge, the authors admittedly made no attempt to subject this condition to rigorous clinical study, cite no specific data in connection with it, and do not represent that their conclusion, that the amount and odor of discharge were diminished, is other than a "subjective" impression, e.g., the methods of observation and recording of those "results" are not stated, as required by 21 CFR 314.111(a)(5)(ii)(a)(3). The study thus does not purport to provide substantial evidence as defined in 21 CFR 314.111(a)(5)(ii), in support of the effectiveness of Furacin in treating odor and discharge from any cause.

10. Schwartz, Jerome, and Nardello, Vincent, "Furacin Vaginal Suppositories: Their Use With Radiation Therapy for Malignant Pelvic Neoplasms," *American Journal of Obstetrics and Gynecology* 65(5):1069-1072, May 1953. The authors state that previous results with Furacin Vaginal Suppositories in the pre- and post-operative treatment of the cervix and vagina prompted this further study for the drug's use for the postirradiation therapy of the female pelvis. The authors refer to a total of 26 cases in the

report, although they indicate that six of those patients had been previously reported in a separate article. In the discussion of the results, however, the authors combine these six and discuss their results in terms of a total of 26 women undergoing X-ray or radium therapy to the pelvis for some type of malignant pelvic neoplasm (i.e., carcinoma of the cervix or vagina) and pelvic recurrences of adenocarcinoma of the ovary.

The authors indicate that at the inception of radiation therapy, or shortly thereafter, all patients were instructed to douche twice daily with vinegar douches and to then insert a Furacin Vaginal Suppository. The authors indicate that some patients were treated with suppositories which contained all of the ingredients except Furacin. After a trial period on the placebo suppositories, these patients were placed on Furacin Vaginal Suppositories. Patients originally receiving Furacin Vaginal Suppositories were thereafter given the placebo suppositories. The effects on the amount and odor of discharge were compared in the patients under both conditions of treatment. The authors state that the control cases treated with the placebo suppositories had minimal diminution in the character, amount, and odor of the vaginal discharge. When these patients were placed on Furacin Vaginal Suppositories, a marked decrease in the amount and odor of the discharge is reported to have occurred. Patients who had begun on the Furacin Vaginal Suppositories and who were subsequently given the control product "... invariably commented upon the increase in both the amount and odor of the discharge."

The results of the study are irrelevant to the currently approved labeling indication for Furacin Vaginal Suppositories in the context of radiation therapy because they provide no support for the effectiveness of the product in the treatment and prevention of cervicovaginal infections before and after radiation therapy for cervical and pelvic neoplasms in women. The authors provide no data relating to the presence of identification of microorganisms present before or after radiation. Neither is there any information relating to the effect of Furacin Vaginal Suppositories upon the bacterial flora of the vagina of the patients. The study thus is not, and does not purport to be, an adequate and well-controlled clinical investigation of the effectiveness of the product for its currently approved radiation therapy-related indications (21 CFR 314.111(a)(5)(ii)), nor were the patients selected on the basis of diagnostic criteria designed to assure that they had a condition (cervicovaginal infections before and after radiation therapy) for which the drug is approved, as required by 21 CFR 314.111(a)(5)(ii)(a)(2)(i).

The study does, however, relate to malodor and discharge associated with radiation therapy by reason of bacterial growth in necrotic debris, indications which the NDA-holder proposes for inclusion in new labeling for Furacin Va-

ginal Suppositories. With respect to these indications, the study is not adequate and well-controlled within the meaning of 21 CFR 314.111(a)(5)(ii) for the following reasons:

The entire substance of the results relating to the effectiveness of the product in controlling malodor and discharge is set forth in a cursory recitation only several lines longer than the brief closing summary. This recitation contains no meaningful attempt to explain the methods of observation and recording of results, as required by 21 CFR 314.111(a)(5)(ii)(a)(3). Specifically, there are no explanations of the following:

a. How the results of the treatment were observed or recorded. The statement is made that there "was a marked diminution in the amount and odor of the vaginal discharge in every patient within 48 to 96 hours." This conclusory statement, as with similar flat assertions in the recitation of results, is unsupported by any description of the manner in which the underlying information was obtained, i.e., by uncritical acceptance of the subjects' impressions, by direct examination performed by the authors, or by combining the subjects' impressions with medical verification by the authors in accordance with objective criteria. Whichever of these methods was employed, the description of the results is further deficient in failing to specify the criteria by which the "results" were identified (i.e., if the subjects' impressions were used, the standards they were given on the basis of which they could reliably report to the investigators that there was in fact a diminution in either malodor or discharge; and if the authors observed the results, or verified the results as reported by the subjects, the criteria they used to measure them). Without explanation of the standards used to gauge the existence or extent of diminution in odor or discharge, the report cannot be considered "adequate" within the meaning of the regulation because it is incapable of scientific evaluation.

b. The method of quantitation, if any, employed in the study. The only terms in the recitation of results which imply magnitude are "marked diminution," "minimal diminution," "marked decrease," and "the increase." Without knowing with some precision what these terms mean, or how they were understood by those reporting and/or observing the results, there is no way of either independently evaluating the results or of verifying the validity of the authors' evaluation of them.

c. The manner in which the investigators assessed the subjects' responses. As mentioned, it is possible that the subjects' responses were assessed solely on the basis of the subjects' own interpretation of events, which could constitute a critical defect in the study rendering it less than adequate and well-controlled. This possibility is a real one, given use in the report of phrases like "the patient at no time noted," "the individuals so treated reported," and "[t]hese patients invariably commented upon." It is not possible to determine whether a study is

in fact "adequate and well-controlled" unless the basis for assessing the subjects' responses is stated in, or is reasonably apparent from, the text of the study report. Here, it is not.

d. The steps taken to minimize bias on the part of the subject and observer. The significant variables in this study concern the degree of diminution of odor and amount of discharge. There is no indication that changes in these variables were measured against objective criteria, and the text of the study strongly implies that, on the contrary, they were based solely on gross sensory impressions, thus raising the problem of possible bias. It is, therefore, important to know what steps were taken to minimize subject and, more important in this case, observer bias as a basis for determining whether the study was adequate and well-controlled. The report of the study is completely silent in this respect. There is no indication in the report that the subjects (who were also, apparently, observers of their own conditions) were not told whether they were receiving the active treatment or the placebo, or whether the investigators (assuming, since the report does not say, that they made independent observations) knew when they interviewed or examined the subjects whether the subjects had been given the product under study or the placebo. The study does not explain how, or whether, these potentialities for bias were minimized.

For the reasons above, this study is not adequate and well-controlled within the meaning of 21 CFR 314.111(a)(5)(ii)(a)(3). Even if submitted as a corroborative study under 21 CFR 314.111(a)(5)(ii)(c), this study would not be considered, for it lacks the details which permit scientific evaluation.

11. McClanahan, H. L., and Woodward, H. B., Jr., "The Postpartum Cervix," *Obstetrics and Gynecology*, 14(5), November 1959. In this study, 400 recently delivered women were divided into two equal groups. Two hundred were instructed to insert Furacin Vaginal Suppositories every night for 18 days beginning on the seventh postpartum day. The remaining 200 were not given any medication. All 400 were told to refrain from sexual activity and douches. Evaluation of effect was made at the sixth postpartum week by tabulating the incidence of cervical diseases in the 400 women.

The study is not adequate and well-controlled within the meaning of 21 CFR 314.111(a)(5)(ii) for the following reasons:

It fails to set forth what steps, if any, were taken to minimize observer and patient bias, as required by 21 CFR 314.111(a)(5)(ii)(a)(3). In particular, the study does not state whether the investigators were aware at the time of interviewing and/or examining the subjects whether the subjects were in the treatment or control group. Presence or absence of such knowledge is a significant factor in determining whether a study is "adequate and well-controlled" in view of the possibility of bias on the part of an observer called upon, as here, to diagnose the existence of conditions on the

basis of medical judgment, rather than of objective laboratory measurements.

The study report indicates that test subjects were selected solely on the basis of having been recently delivered. Thus, the study does not include a method of selection which assures that the patients were suitable for the purposes of the study, as required by 21 CFR 314.111(a)(5)(ii)(a)(2)(i). The report includes several statements to the effect that pathological conditions of the cervix are so common among recently delivered women that it can be assumed that all such women have such conditions. No basis for this assumption is stated other than the authors' clinical impressions. Unsubstantiated assertions that all women who have recently delivered babies also have pathological conditions of the cervix cannot substitute for clinical diagnosis that the test subjects do in fact have such conditions. Further, Furacin Vaginal Suppositories is not indicated for use in all pathological conditions of the cervix from which recently delivered women might suffer. Thus, even if the authors of this study provided a basis for the initial assumption that all such women have pathological cervical conditions, the study nevertheless fails to provide a method for selecting test subjects suitable for a study of the effectiveness of the conditions for which Furacin is indicated in its labeling.

The authors state that some of the patients resumed sexual relations (with possible reinfection resulting), and that 15 percent had resumed douching before the evaluation was made. Thus the study, on its face, did not employ a method to assure that the test and control groups were comparable with respect to pertinent variables, as required by 21 CFR 314.111(a)(5)(ii)(a)(2)(iii). It is thus impossible to compare the results of therapy with results in an appropriate control (21 CFR 314.111(a)(5)(ii)(a)(4)).

12. Schwartz, Jerome, "Furacin Vaginal Suppositories in Pre- and Post-operative Treatment of Cervix and Vagina," *American Journal of Obstetrics and Gynecology*, 63(2):579-582, March 1952. This report assesses the effects of Furacin on wound healing, infection, and amount and odor of vaginal discharge in the post operative cervix of 90 patients. Both Furacin and vinegar douches were administered to all patients. The report concludes that Furacin promoted healing, reduced infection and malodorous discharge, and had other favorable results in all pathological contexts included in the study, i.e., post-electrosurgical treatment of the cervix, vaginal operations, total abdominal hysterectomy, and postirradiation treatment of carcinoma of the cervix.

The study is not an adequate and well-controlled clinical investigation within the meaning of 21 CFR 314.111(a)(5)(ii) for the following reasons:

The method of assignment of the subjects for inclusion into the test group or control group is not specified (21 CFR 314.111(a)(5)(ii)(a)(2)). Thus, there is no way to determine how the subjects

were assigned to the groups, or whether there was assurance of the comparability of test and control groups.

The author does not explain the methods of observation and recording of results, including the variables measured, quantitation, assessment of any subject's response, and steps taken to minimize bias on the part of the subject and observer (21 CFR 314.111(a)(5)(ii)(a)(3)). Illustrative of this defect is the fact that no explanation is given of the standards employed by the investigators to gauge the extent of the results of treatment with Furacin Vaginal Suppositories. Thus, the conclusion is offered in connection with use of Furacin in post-radiation situations that "there was a remarkable reduction in the amount of vaginal discharge which was practically odorless." Nothing in the report gives content to the term "remarkable reduction." Nothing in the report defines "odorless." Another example of failure to comply with this provision of the regulations is that there is no indication that any measures were taken to minimize subject and observer bias. The study deals with clinical effects (e.g., rate of healing, amount and odor of discharge) which depend on the exercise of medical judgment for their identification and assessment, and so the possibility of bias on the part of the observer must be taken into account in some way to make the study scientifically meaningful. The study report is silent on this point.

Although a table in the study report refers to "control group," the text nowhere discusses or even mentions the existence of such controls, and there is no explanation of what that term means in this study, nor of the results observed in the controls. The only results which are discussed are those observed in subjects who received Furacin Vaginal Suppositories. Statements such as "healing time was accelerated," and "decreased postoperative infection" are made without reference to any discernible objective standard, much less to the results in an appropriate control. Thus, on its face, the study contains no comparison of the results in treated subjects with the results in a control group, as required by 21 CFR 314.111(a)(5)(ii)(a)(4).

Interpretation of results is obscured by the vinegar douches used by all patients. There is no way to tell whether the observed effects were due to Furacin or to the vinegar douches, and thus even if the study utilized an untreated control group, the study would not provide a comparison of the results of Furacin-treated patients with the results in a control group, as required by 21 CFR 314.111(a)(5)(ii)(a)(4), because no patients received only Furacin.

13. Kanter, A. E., "Infection Following Gynecological Surgery," *Clinical Obstetrics and Gynecology*, 2:564-581, June 1959. This paper discusses complications following pelvic surgery. It makes no attempt to study the efficacy of any drug product. Furacin is mentioned in a single sentence along with other vaginal suppositories. The paper does not purport to

describe an adequate and well-controlled clinical investigation of the effectiveness of furacin within the meaning of section 505(d) of the act (21 U.S.C. 355(d)) and 21 CFR 314.111(a)(5)(ii). It is at best a testimonial, which is unacceptable as the sole basis for a claim of effectiveness (21 CFR 314.111(a)(5)(ii)(c)).

B. *Affidavits, Testimonial Letters and Marketing Data.* The affidavits and testimonial letters from practicing physicians and marketing data submitted by Norwich do not provide substantial evidence of the effectiveness of furacin. *Weinberger v. Hynson, Westcott and Dunning, Inc.*, 412 U.S. 609 (1973); *Weinberger v. Bentex Pharmaceuticals, Inc.*, 412 U.S. 645 (1973); *Upjohn Co. v. Finch*, 422 F.2d 944, 951-954 (C.A. 6, 1970); *PMA v. Richardson*, 318 F.Supp. 301, 309-310 (D. Del., 1970). Such material, which lacks details which permit scientific evaluation, is not considered in evaluating whether substantial evidence exists supporting the effectiveness of a drug (21 CFR 314.111(a)(5)(ii)(c)).

C. *Proposed Revised Labeling of Furacin Vaginal Suppositories.* As part of its submission in response to the Notice of Opportunity for Hearing, Norwich, on June 21, 1973, proposed new labeling for Furacin Vaginal Suppositories. The data submitted by Norwich in support of its request for hearing have been specifically reviewed with respect to currently approved labeling. Necessarily, the analysis of the studies, in relation to the criteria for adequate and well-controlled investigations, also applies to the proposed relabeling described in the June 1973 supplement, and this has been so indicated where relevant. It has been determined that the cited studies are not adequate and well-controlled. Results of these studies, therefore, do not provide substantial evidence in support of the effectiveness of Furacin Vaginal Suppositories for currently approved indications. The question of whether the evidence submitted supports the effectiveness of the product for proposed labeling obviously has no bearing on whether a hearing is justified in relation to evidence submitted to support currently approved labeling. In view of his analysis, the Commissioner does not believe that a hearing could be justified in connection with the proposed new labeling on the basis of the data cited by the applicant. In any event, for those indications proposed in the June 21, 1973 submission, the Commissioner concludes that the applicant must submit a new drug application establishing the safety of Furacin Vaginal Suppositories and containing substantial evidence of its effectiveness under those conditions of use for which Norwich wishes to market the product.

#### IV. THE DATA SUBMITTED TO SUPPORT CLAIMS OF SAFETY

Norwich has submitted a number of animal studies to establish the safety of the products under consideration here and in support of certain animal drugs which also contain nitrofurazone. The Commissioner has not yet completed his

## NOTICES

review of this material. However, since the Commissioner has concluded that Norwich has failed to support the claimed efficacy of these drugs with evidence meeting the statutory standard of "adequate and well-controlled clinical investigations," under section 505(d) of the act (21 U.S.C. 355(d)) and 21 CFR 314.111(a)(5)(ii), it is not necessary to await the Commissioner's evaluation of the safety data. The lack of substantial evidence of effectiveness requires denial of a hearing for these products (21 U.S.C. 355(c); 21 CFR 314.115; *E. R. Squibb & Sons, Inc. v. Weinberger*, 483 F.2d 1382, 1386 (C.A.3, 1973)).

## V. LEGAL ARGUMENTS

In its hearing request for the product above, Norwich states that the new drug issue cannot be decided in an administrative proceeding to withdraw approval of a new drug application. After submission of the request, the Supreme Court held that the Food and Drug Administration has jurisdiction in an administrative proceeding to determine whether a drug product is a "new drug" within the meaning of the Federal Food, Drug, and Cosmetic Act. *Weinberger v. Hynson, Wescott & Dunning, supra*; *Weinberger v. Bentez Pharmaceuticals, Inc., supra*; *CIBA Corp. v. Weinberger*, 412 U.S. 640 (1973).

Norwich also states that its November 16, 1973 submission, consisting of affidavits from three experts, establishes a genuine issue of fact which requires a hearing. However, each of Norwich's affidavits bases his opinion on the studies previously submitted by Norwich, his own personal experience, and "pertinent reports included on the list of references" attached to each of their affidavits, none of which, as shown above, constitutes substantial evidence within the meaning of section 505(d) of the act (21 U.S.C. 355(d)) and 21 CFR 314.111(a)(5)(ii). Norwich's affidavits are testimonials and do not raise an issue of fact requiring a hearing.

## VI. FINDINGS

On review of the documentation and legal arguments offered to support the claims of effectiveness for Furacin Vaginal Suppositories and the necessity for an evidentiary hearing, the Commissioner finds that Norwich has failed to set forth specific facts showing that there is a genuine and substantial issue of fact requiring a hearing, that the legal arguments offered are insufficient to justify an evidentiary hearing, and that there is a lack of substantial evidence that this drug has the effects it is represented to have under the conditions of use prescribed, recommended, or suggested in its labeling.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505(e), 52 Stat. 1052, as

amended (21 U.S.C. 355(e))) and under authority delegated to the Commissioner (21 CFR 2.120), the hearing is denied and the approval for that part of the new drug application (NDA 5-795) providing for Furacin Vaginal Suppositories, and all amendments and supplements thereto, is hereby withdrawn, effective June 10, 1975.

Dated: May 15, 1975.

A. M. SCHMIDT,  
Commissioner of Food and Drugs.  
[FR Doc.75-14070 Filed 5-29-75; 8:45 am]

Committee name	Date, time, place	Type of meeting and contact person
Cardiovascular and Renal Advisory Committee.	June 10, 9 a.m., Conference Room L, Parklawn Bldg., 5000 Fishers Lane, Rockville, Md.	Open—Joan C. Standaert (HFD-110), 5000 Fishers Lane, Rockville, Md. 20852, 301-413-4730.

**Purpose.** Reviews and evaluates all available data concerning the safety and effectiveness of presently marketed and new prescription drug products proposed for marketing for use in the treatment of cardiovascular and renal disorders.

**Agenda.** Discussion of NDA 12-151 Spironolactone (Aldactone) and NDA 12-616 Spironolactone Hydrochlorothiazide (Aldactazide). Following routine committee business, a discussion relative to the toxicity of Spironolactone will ensue. A recent study of 78 weeks in the rat revealed a dose related increase in tumors of the thyroid and testes. Earlier studies of 52 weeks in monkeys and 104 weeks in rats utilizing lower doses will be reviewed in light of the new data. There will, in addition, be a discussion of possible liver involvement.

The Committee will review these findings and deliberate upon their relevance to the continued marketing and/or labeling of Spironolactone and Spironolactone/Hydrochlorothiazide and their indications for use.

Agenda items are subject to change as priorities dictate.

Dated: May 22, 1975.

**Public Health Service  
HEALTH SERVICES ADMINISTRATION  
Delegation of Authority**

On May 1, 1975 the Assistant Secretary for Health made the following delegations of authority to the Executive Officer, Public Health Service, and to the Administrator, Health Services Administration:

Under the authority delegated to me by the Secretary on July 29, 1974, I hereby delegate to the Executive Officer, Public Health Service, the authority to perform all functions of the Secretary in connection with the bringing of civil

**CARDIOVASCULAR AND RENAL  
ADVISORY COMMITTEE**

**Notice of Meeting**

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Pub. L. 92-463, 86 Stat. 770-776 (5 U.S.C. App. 1)), the Food and Drug Administration announces the following public advisory committee meeting and other required information in accordance with provisions set forth in section 10(a) (1) and (2) of the act:

Committee name	Date, time, place	Type of meeting and contact person
Cardiovascular and Renal Advisory Committee.	June 10, 9 a.m., Conference Room L, Parklawn Bldg., 5000 Fishers Lane, Rockville, Md.	Open—Joan C. Standaert (HFD-110), 5000 Fishers Lane, Rockville, Md. 20852, 301-413-4730.

actions under section 1312, Public Health Service Act (42 U.S.C. 300e-11), and the authority to direct and supervise the implementation of section 1312. These authorities may not be further redelegated.

I hereby delegate to the Administrator, Health Services Administration, the authority to monitor and investigate the compliance of entities with applicable requirements of Title XIII, PHS Act, with regulations issued thereunder, and with assurances which they provided thereunder, and as may be necessary for the proper implementation of section 1312 of the Act, and the authority to pursue such remedies as may be available with respect to such entities, other than the authority to bring civil actions under section 1312, Public Health Service Act. These authorities may be redelegated.

In addition, I hereby delegate to the Administrator, Health Services Administration, the authority to perform all functions of the Secretary, under section 1310, Public Health Service Act (42 U.S.C. 300e-9). This authority may be redelegated.

These delegations are effective immediately.

R. MOURE,  
Executive Officer,  
Public Health Service.

**Office of the Secretary  
NATIONAL COMMISSION FOR THE PROTECTION OF HUMAN SUBJECTS OF BIOMEDICAL AND BEHAVIORAL RESEARCH  
Meeting**

Notice is hereby given that the National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research will meet on June 20 and 21, 1975, in Conference Room 5, B Wing, Building 31, National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20014. The meeting will convene at 9 a.m. each day and will be open

to the public, subject to the limitations of available space.

The agenda will include discussion of issues identified in the legislative mandate to the Commission under P.L. 93-348 and planning of studies to be undertaken by the Commission.

Requests for information should be directed to Ms. Anne Ballard (301-498-7776), Room 125, Westwood Building, 5333 Westbard Avenue, Bethesda, Maryland 20016.

CHARLES U. LOWE,  
Executive Director, National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research.

**DEPARTMENT OF HOUSING AND  
URBAN DEVELOPMENT**

**Office of Interstate Land Sales Registration**

[Docket No. N-75-368; OILSR No. 0-3543-11-8; Docket No. Y-646]

**BIRCH HARBOR ESTATES**

**Order of Suspension**

Notice is hereby given that: On or about November 15, 1974, the Department of Housing and Urban Development, Office of Interstate Land Sales Registration, mailed by certified mail to Kachemak Bay Development Corp., 1101 W. Fireweed Lane, Suite 2, Anchorage, Alaska, a letter requesting certain documents and that the return receipt requested was returned showing delivery had been made; that the requested documents were not furnished and on or about February 7, 1975, the Department attempted to serve upon Mel Tipton, President, Kachemak Bay Development Corporation, an Order of Suspension by certified mail and service of process was not possible. Accordingly, pursuant to 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), the Order of Suspension is being issued as follows:

**ORDER OF SUSPENSION**

1. The Developer, having filed a Statement of Record for the above captioned subdivision pursuant to the provisions of the Interstate Land Sales Full Disclosure Act, 15 U.S.C. 1701 et seq. and the Rules and Regulations lawfully promulgated thereto pursuant to 15 U.S.C. 1718, had its Statement of Record become effective pursuant to 24 CFR 1710.21 of the Interstate Land Sales Regulations. Said Statement is still in effect.

2. As authorized by 15 U.S.C. 1715, the authority and responsibility for administration of the Interstate Land Sales Full Disclosure Act has been delegated to the Interstate Land Sales Administrator.

3. Pursuant to 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), the Interstate Land Sales Administrator may make an examination to determine whether a Suspension Order should be issued under 15 U.S.C. 1706(d), and if a developer or any agents thereof shall fail to cooperate,

or shall obstruct or refuse to permit the making of an examination, such conduct shall be proper ground for the issuance of an order suspending the Statement of Record.

4. Under the authority of 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), a letter dated on or about November 15, 1974, was sent to the Developer, the body of said letter being in the form and substance of the form letter attached hereto and made part hereof as Exhibit A. The Developer has failed to comply with the request for the documents referred to in the third paragraph of said letter.

5. Therefore, pursuant to the provisions of 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), the Statement of Record filed by the Developer covering its subdivision is hereby suspended, effective as of the date of the receipt of this Order of Suspension by the Said Developer. This Order of Suspension shall remain in full force and effect until the Developer has complied with the requirements of the order.

6. If the Developer desires a hearing in this matter, he shall file a request for hearing accompanied by an answer and three copies thereof within fifteen days after service of this order pursuant to 24 CFR 1720.145 and 24 CFR 1720.165. Any request for hearing, answer, motion, amendment to pleading, offer of settlement or correspondence during the pendency of this proceeding shall be filed with the General Counsel's Clerk for Administrative Proceedings, Room 10150, HUD Building, 451 Seventh Street, SW., Washington, D.C. 20410. All such papers shall clearly identify the subdivision, the type of matter and the docket number as set forth in this order.

Issued in Washington, D.C.

By the Secretary.

JOHN R. McDOWELL,  
Interstate Land Sales  
Administrator (Acting).

**EXHIBIT A**

DEPARTMENT OF HOUSING  
AND URBAN DEVELOPMENT,  
OFFICE OF INTERSTATE  
LAND SALES REGISTRATION,  
Washington, D.C. 20410.

Subject: Submission of Property Reports and Contracts.

GENTLEMEN: On or about September 12, 1974, you were advised by letter from this Office of the necessity for mailing to us, not later than midnight, October 20, 1974, revised Property Report cover pages and lot sales or lease contract revisions. The revisions were, as explained in that letter, caused by the amendments by Congress to Section 1404(b) of the Interstate Land Sales Full Disclosure Act which extended the 48 hour rescission period to 3 business days and also abolished the provisions for waiver of this time by purchasers. These amendments were signed into law August 22 and became effective October 21, 1974. They apply to all sales or leases made on or after that date.

As of today the required revisions to your Property Report and contracts have not been received by us as required by the above referenced letter and the amended Regulations, published October 29, 1974, in the FEDERAL

REGISTER on pages 38098-38101. Therefore, we are conducting an examination to determine what further action is warranted by us pursuant to Section 1407(e) of the Interstate Land Sales Full Disclosure Act. You will note that Section 1407(e) also provides "If the developer or any agents shall fail to cooperate, or shall obstruct or refuse to permit the making of an examination, such conduct shall be proper ground for the issuing of an order suspending the Statement of Record."

You are hereby requested to send to this Office, within 15 days of the receipt of this letter (1) a copy of the Property Report or Reports presently on file in your office and used in your lot sales or leasing program, and (2) a copy of the sales or lease contract or agreement presently on file in your office and used in your lot sales or leasing program. Failure to respond as requested will result in issuance of an order suspending your Statement or Statements of Record with our Office under the authority of Section 1407(e) of the Interstate Land Sales Full Disclosure Act (15 USC 1706(e)).

In your response, please put your OILSR file number or numbers on your letter and copies of the Property Report and contract.

Sincerely,

GEORGE K. BERNSTEIN,  
Interstate Land Sales  
Administrator.

[FR Doc.75-14095 Filed 5-29-75; 8:45 am]

[Docket No. N-75-365; OILSR No. 0-2914-29-135; Docket No. Y-705]

**CORAL FOUNTAIN ESTATES, INC.**

**Order of Suspension**

Notice is hereby given that: On or about November 15, 1974, the Department of Housing and Urban Development, Office of Interstate Land Sales Registration, mailed by certified mail to J. L. Croffard and Melba J. Croffard, Golden, Missouri, a letter requesting certain documents and that the return receipt requested was returned showing delivery had been made; that the requested documents were not furnished and on or about February 12, 1975, the Department attempted to serve upon J. L. and Melba J. Croffard, Coral Fountain Estates, Inc., an Order of Suspension by certified mail and service of process was not possible. Accordingly, pursuant to 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), the Order of Suspension is being issued as follows:

**ORDER OF SUSPENSION**

1. The Developer, having filed a Statement of Record for the above captioned subdivision pursuant to the provisions of the Interstate Land Sales Full Disclosure Act, 15 U.S.C. 1701 et seq. and the Rules and Regulations lawfully promulgated thereto pursuant to 15 U.S.C. 1718, had its Statement of Record become effective pursuant to 24 CFR 1710.21 of the Interstate Land Sales Regulations. Said Statement is still in effect.

2. As authorized by 15 U.S.C. 1715, the authority and responsibility for administration of the Interstate Land Sales Full Disclosure Act has been delegated to the Interstate Land Sales Administrator.

## NOTICES

3. Pursuant to 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), the Interstate Land Sales Administrator may make an examination to determine whether a Suspension Order should be issued under 15 U.S.C. 1706(d), and if a developer or any agents thereof shall fail to cooperate, or shall obstruct or refuse to permit the making of an examination, such conduct shall be proper ground for the issuance of an order suspending the Statement of Record.

4. Under the authority of 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), a letter dated on or about November 15, 1974, was sent to the Developer, the body of said letter being in the form and substance of the form letter attached hereto and made part hereof as Exhibit A. The Developer has failed to comply with the request for the documents referred to in the third paragraph of said letter.

5. Therefore, pursuant to the provisions of 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), the Statement of Record filed by the Developer covering its subdivision is hereby suspended, effective as of the date of the receipt of this Order of Suspension by the Said Developer. This Order of Suspension shall remain in full force and effect until the Developer has complied with the requirements of the order.

6. If the Developer desires a hearing in this matter, he shall file a request for hearing accompanied by an answer and three copies thereof within fifteen days after service of this order pursuant to 24 CFR 1720.145 and 24 CFR 1720.165. Any request for hearing, answer, motion, amendment to pleading, offer of settlement or correspondence during the pendency of this proceeding shall be filed with the General Counsel's Clerk for Administrative Proceedings, Room 10150, HUD Building, 451 Seventh Street SW., Washington, D.C. 20410. All such papers shall clearly identify the subdivision, the type of matter and the docket number as set forth in this order.

OFFICE OF INTERSTATE  
LAND SALES REGISTRATION,  
WASHINGTON, D.C. 20410.

Subject: Submission of Property Reports and Contracts.

GENTLEMEN: On or about September 12, 1974, you were advised by letter from this Office of the necessity for mailing to us, not later than midnight, October 20, 1974, revised Property Report cover pages and lot sales or lease contract revisions. The revisions were, as explained in that letter, caused by the amendments by Congress to Section 1404 (b) of the Interstate Land Sales Full Disclosure Act which extended the 48 hour rescission period to 3 business days and also abolished the provisions for waiver of this time by purchasers. These amendments were signed into law August 22 and became effective

October 21, 1974. They apply to all sales or leases made on or after that date.

As of today the required revisions to your Property Report and contracts have not been received by us as required by the above referenced letter and the amended Regulations, published October 29, 1974, in the FEDERAL REGISTER on pages 38098-38101. Therefore, we are conducting an examination to determine what further action is warranted by us pursuant to Section 1407(e) of the Interstate Land Sales Full Disclosure Act. You will note that Section 1407(e) also provides "If the developer or any agents shall fail to cooperate, or shall obstruct or refuse to permit the making of an examination, such conduct shall be proper ground for the issuance of an order suspending the Statement of Record."

You are hereby requested to send to this Office, within 15 days of the receipt of this letter (1) a copy of the Property Report or Reports presently on file in your office and used in your lot sales or leasing program, and (2) a copy of the sales or lease contract or agreement presently on file in your office and used in your lot sales or leasing program.

Failure to respond as requested will result in issuance of an order suspending your Statement or Statements of Record with our Office under the authority of Section 1407(e) of the Interstate Land Sales Full Disclosure Act (15 USC 1706(e)).

In your response, please put your OILSR file number or numbers on your letter and copies of the Property Report and contract.

Sincerely,

GEORGE K. BERNSTEIN,  
Interstate Land Sales  
Administrator.

[Docket No. N-75-366; OILSR No. O-2727-42-31; Docket No. Y-740]

#### THE LAKES, UNIT I & II Order of Suspension

Notice is hereby given that: On or about November 15, 1974, the Department of Housing and Urban Development, Office of Interstate Land Sales Registration, mailed by certified mail to Oklahoma Acceptance Corp., 7430 S.E. 15th St., Midwest City, Oklahoma, a letter requesting certain documents and that the return receipt requested was returned showing delivery had been made; that the requested documents were not furnished and on or about February 18, 1975, the Department attempted to serve upon Robert Gunnison, Vice President, Oklahoma Acceptance Corporation, an Order of Suspension by certified mail and service of process was not possible. Accordingly, pursuant to 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), the Order of Suspension is being issued as follows:

#### ORDER OF SUSPENSION

1. The Developer, having filed a Statement of Record for the above captioned subdivision pursuant to the provisions of the Interstate Land Sales Full Disclosure Act, 15 U.S.C. 1701 et seq. and the Rules and Regulations lawfully promulgated thereto pursuant to 15 U.S.C. 1718, had its Statement of Record become effective pursuant to 24 CFR 1710.21 of the Interstate Land Sales Regulations. Said Statement is still in effect.

2. As authorized by 15 U.S.C. 1715, the authority and responsibility for admin-

istration of the Interstate Land Sales Full Disclosure Act has been delegated to the Interstate Land Sales Administrator.

3. Pursuant to 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), the Interstate Land Sales Administrator may make an examination to determine whether a Suspension Order should be issued under 15 U.S.C. 1706(d), and if a developer or any agents thereof shall fail to cooperate, or shall obstruct or refuse to permit the making of an examination, such conduct shall be proper ground for the issuance of an order suspending the Statement of Record.

4. Under the authority of 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), a letter dated on or about November 15, 1974, was sent to the Developer, the body of said letter being in the form and substance of the form letter attached hereto and made part hereof as Exhibit A. The Developer has failed to comply with the request for the documents referred to in the third paragraph of said letter.

5. Therefore, pursuant to the provisions of 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), the Statement of Record filed by the Developer covering its subdivision is hereby suspended, effective as of the date of the receipt of this Order of Suspension by the Said Developer. This Order of Suspension shall remain in full force and effect until the Developer has complied with the requirements of the order.

6. If the Developer desires a hearing in this matter, he shall file a request for hearing accompanied by an answer and three copies thereof within fifteen days after service of this order pursuant to 24 CFR 1720.145 and 24 CFR 1720.165. Any request for hearing, answer, motion, amendment to pleading, offer of settlement or correspondence during the pendency of this proceeding shall be filed with the General Counsel's Clerk for Administrative Proceedings, Room 10150, HUD Building, 451 Seventh Street SW., Washington, D.C. 20410. All such papers shall clearly identify the subdivision, the type of matter and the docket number as set forth in this order.

#### PORT DUNCAN OF MONKEY ISLAND Order of Suspension

Notice is hereby given that: On or about November 15, 1974, the Department of Housing and Urban Development, Office of Interstate Land Sales Registration, mailed by certified mail to Timber Ridge Estates, Inc. 6900 N. Classen, Oklahoma City, Okla., 73116, a letter requesting certain documents and that the return receipt requested was returned showing delivery had been made; that the requested documents were not furnished and on or about February 14, 1975, the Department attempted to serve upon Paul E. Beavers, President, Timber Ridge Estates, Inc. an Order of Suspension by certified mail and service of process was not possible. Accordingly, pursuant to 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), the Order of Suspension is being issued as follows:

#### ORDER OF SUSPENSION

1. The Developer, having filed a Statement of Record for the above captioned subdivision pursuant to the provisions of the Interstate Land Sales Full Disclosure Act, 15 U.S.C. 1701 et seq. and the Rules and Regulations lawfully promulgated thereto pursuant to 15 U.S.C. 1718, had its Statement of Record become effective

pursuant to 24 CFR 1710.21 of the Interstate Land Sales Regulations. Said Statement is still in effect.

2. As authorized by 15 U.S.C. 1715, the authority and responsibility for administration of the Interstate Land Sales Full Disclosure Act has been delegated to the Interstate Land Sales Administrator.

3. Pursuant to 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), the Interstate Land Sales Administrator may make an examination to determine whether a Suspension Order should be issued under 15 U.S.C. 1706(d), and if a developer or any agents thereof shall fail to cooperate, or shall obstruct or refuse to permit the making of an examination, such conduct shall be proper ground for the issuance of an order suspending the Statement of Record.

4. Under the authority of 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), a letter dated on or about November 15, 1974, was sent to the Developer, the body of said letter being in the form and substance of the form letter attached hereto and made part hereof as Exhibit A. The Developer has failed to comply with the request for the documents referred to in the third paragraph of said letter.

5. Therefore, pursuant to the provisions of 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), the Statement of Record filed by the Developer covering its subdivision is hereby suspended, effective as of the date of the receipt of this Order of Suspension by the Said Developer. This Order of Suspension shall remain in full force and effect until the Developer has complied with the requirements of the order.

6. If the Developer desires a hearing in this matter, he shall file a request for hearing accompanied by an answer and three copies thereof within fifteen days after service of this order pursuant to 24 CFR 1720.145 and 24 CFR 1720.165. Any request for hearing, answer, motion, amendment to pleading, offer of settlement or correspondence during the pendency of this proceeding shall be filed with the General Counsel's Clerk for Administrative Proceedings, Room 10150, HUD Building, 451 Seventh Street, SW, Washington, D.C. 20410. All such papers shall clearly identify the subdivision, the type of matter and the docket number as set forth in this order.

#### SPORTING RESORT & RECREATIONAL COMMUNITY

#### Order of Suspension

Notice is hereby given that: On or about November 15, 1974, the Department of Housing and Urban Development, Office of Interstate Land Sales Registration, mailed by certified mail to Sporting Properties, Inc., 1002 Hatch Street, Cincinnati, Ohio 45202, a letter requesting certain documents and that the return receipt requested was returned showing delivery had been made; that the requested documents were not furnished and on or about February 7, 1975, the Department attempted to serve upon Dale B. Finfrock, Jr., President, Sporting Properties, Inc. an Order of Suspension by certified mail and service of process was not possible. Accordingly, pursuant to 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), the Order of Suspension is being issued as follows:

#### ORDER OF SUSPENSION

1. The Developer, having filed a Statement of Record for the above captioned subdivision pursuant to the provisions of the Interstate Land Sales Full Dis-

## NOTICES

closure Act, 15 U.S.C. 1701 et seq. and the Rules and Regulations lawfully promulgated thereto pursuant to 15 U.S.C. 1718, had its Statement of Record become effective pursuant to 24 CFR 1710.21 of the Interstate Land Sales Regulations. Said Statement is still in effect.

2. As authorized by 15 U.S.C. 1715, the authority and responsibility for administration of the Interstate Land Sales Full Disclosure Act has been delegated to the Interstate Land Sales Administrator.

3. Pursuant to 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), the Interstate Land Sales Administrator may make an examination to determine whether a Suspension Order should be issued under 15 U.S.C. 1706(d), and if a developer or any agents thereof shall fail to cooperate, or shall obstruct or refuse to permit the making of an examination, such conduct shall be proper ground for the issuance of an order suspending the Statement of Record.

4. Under the authority of 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), a letter dated on or about November 15, 1974, was sent to the Developer, the body of said letter being in the form and substance of the form letter attached hereto and made part hereof as Exhibit A. The Developer has failed to comply with the request for the documents referred to in the third paragraph of said letter.

5. Therefore, pursuant to the provisions of 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), the Statement of Record filed by the Developer covering its subdivision is hereby suspended, effective as of the date of the receipt of this Order of Suspension by the Said Developer. This Order of Suspension shall remain in full force and effect until the Developer has complied with the requirements of the order.

6. If the Developer desires a hearing in this matter, he shall file a request for hearing accompanied by an answer and three copies thereof within fifteen days after service of this order pursuant to 24 CFR 1720.145 and 24 CFR 1720.165. Any request for hearing, answer, motion, amendment to pleading, offer of settlement or correspondence during the pendency of this proceeding shall be filed with the General Counsel's Clerk for Administrative Proceedings, Room 10150, HUD Building, 451 Seventh Street SW, Washington, D.C. 20410. All such papers shall clearly identify the subdivision, the type of matter and the docket number as set forth in this order.

## VARENNES

## Order of Suspension

Notice is hereby given that: On or about November 15, 1974, the Department of Housing and Urban Development, Office of Interstate Land Sales Registration, mailed by certified mail to American Industrial Research Corp., Suite 410—2080 Alymer, Quebec, Montreal, Canada, a letter requesting certain documents and that the return receipt requested was returned showing delivery had been made; that the requested documents were not furnished and on or

about February 18, 1975, the Department attempted to serve upon Michael H. Hart, President, American Industrial Research Corporation, an Order of Suspension by certified mail and service of process was not possible. Accordingly, pursuant to U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), the Order of Suspension is being issued as follows:

## ORDER OF SUSPENSION

1. The Developer, having filed a Statement of Record for the above captioned subdivision pursuant to the provisions of the Interstate Land Sales Full Disclosure Act, 15 U.S.C. 1701 et seq. and the Rules and Regulations lawfully promulgated thereto pursuant to 15 U.S.C. 1718, had its Statement of Record become effective pursuant to 24 CFR 1710.21 of the Interstate Land Sales Regulations. Said Statement is still in effect.

2. As authorized by 15 U.S.C. 1715, the authority and responsibility for administration of the Interstate Land Sales Full Disclosure Act has been delegated to the Interstate Land Sales Administrator.

3. Pursuant to 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), the Interstate Land Sales Administrator may make an examination to determine whether a Suspension Order should be issued under 15 U.S.C. 1706(d), and if a developer or any agents thereof shall fail to cooperate, or shall obstruct or refuse to permit the making of an examination, such conduct shall be proper ground for the issuance of an order suspending the Statement of Record.

4. Under the authority of 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), a letter dated on or about November 15, 1974, was sent to the Developer, the body of said letter being in the form and substance of the form letter attached hereto and made part hereof as Exhibit A. The Developer has failed to comply with the request for the documents referred to in the third paragraph of said letter.

5. Therefore, pursuant to the provisions of 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), the Statement of Record filed by the Developer covering its subdivision is hereby suspended, effective as of the date of the receipt of this Order of Suspension by the Said Developer. This Order of Suspension shall remain in full force and effect until the Developer has complied with the requirements of the order.

6. If the Developer desires a hearing in this matter, he shall file a request for hearing accompanied by an answer and three copies thereof within fifteen days after service of this order pursuant to 24 CFR 1720.145 and 24 CFR 1720.165. Any request for hearing, answer, motion, amendment to pleading, offer of settlement or correspondence during the pendency of this proceeding shall be filed with the General Counsel's Clerk for Administrative Proceedings, Room 10150, HUD Building, 451 Seventh Street, S.W., Washington, D.C. 20410. All such papers shall clearly identify the subdivision, the

type of matter and the docket number as set forth in this order.

Accordingly, pursuant to 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), the Order of Suspension is being issued as follows:

## ORDER OF SUSPENSION

1. The Developer, having filed a Statement of Record for the above captioned subdivision pursuant to the provisions of the Interstate Land Sales Full Disclosure Act, 15 U.S.C. 1701 et seq. and the Rules and Regulations lawfully promulgated thereto pursuant to 15 U.S.C. 1718, had its Statement of Record become effective pursuant to 24 CFR 1710.21 of the Interstate Land Sales Regulations. Said Statement is still in effect.

2. As authorized by 15 U.S.C. 1715, the authority and responsibility for administration of the Interstate Land Sales Full Disclosure Act has been delegated to the Interstate Land Sales Administrator.

3. Pursuant to 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), the Interstate Land Sales Administrator may make an examination to determine whether a Suspension Order should be issued under 15 U.S.C. 1706(d), and if a developer or any agents thereof shall fail to cooperate, or shall obstruct or refuse to permit the making of an examination, such conduct shall be proper ground for the issuance of an order suspending the Statement of Record.

4. Under the authority of 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), a letter dated on or about November 15, 1974, was sent to the Developer, the body of said letter being in the form and substance of the form letter attached hereto and made part hereof as Exhibit A. The Developer has failed to comply with the request for the documents referred to in the third paragraph of said letter.

5. Therefore, pursuant to the provisions of 15 U.S.C. 1706(e) and 24 CFR 1710.45(b)(2), the Statement of Record filed by the Developer covering its subdivision is hereby suspended, effective as of the date of the receipt of this Order of Suspension by the Said Developer. This Order of Suspension shall remain in full force and effect until the Developer has complied with the requirements of the order.

6. If the Developer desires a hearing in this matter, he shall file a request for hearing accompanied by an answer and three copies thereof within fifteen days after service of this order pursuant to 24 CFR 1720.145 and 24 CFR 1720.165. Any request for hearing, answer, motion,

amendment to pleading, offer of settlement or correspondence during the pendency of this proceeding shall be filed with the General Counsel's Clerk for Administrative Proceedings, Room 10150, HUD Building, 451 Seventh Street, S.W., Washington, D.C. 20410. All such papers shall clearly identify the subdivision, the type of matter and the docket number as set forth in this order.

Issued in Washington, D.C.

By the Secretary.

JOHN R. McDOWELL,  
Interstate Land Sales  
Administrator (Acting).

EXHIBIT A

DEPARTMENT OF HOUSING  
AND URBAN DEVELOPMENT,  
OFFICE OF INTERSTATE  
LAND SALES REGISTRATION,  
Washington, D.C. 20410.

Subject: Submission of Property Reports and Contracts.

GENTLEMEN: On or about September 12, 1974, you were advised by letter from this Office of the necessity for mailing to us, not later than midnight, October 20, 1974, revised Property Report cover pages and lot sales or lease contract revisions. The revisions were, as explained in that letter, caused by the amendments by Congress to Section 1404(b) of the Interstate Land Sales Full Disclosure Act which extended the 48 hour rescission period to 3 business days and also abolished the provisions for waiver of this time by purchasers. These amendments were signed into law August 22 and became effective October 21, 1974. They apply to all sales or leases made on or after that date.

As of today the required revisions to your Property Report and contracts have not been received by us as required by the above referenced letter and the amended Regulations, published October 29, 1974, in the FEDERAL REGISTER on pages 38098-38101. Therefore, we are conducting an examination to determine what further action is warranted by us pursuant to Section 1407(e) of the Interstate Land Sales Full Disclosure Act. You will note that Section 1407(e) also provides "If the developer or any agents shall fail to cooperate, or shall obstruct or refuse to permit the making of an examination, such conduct shall be proper ground for the issuance of an order suspending the Statement of Record."

You are hereby requested to send to this Office, within 15 days of the receipt of this letter (1) a copy of the Property Report or Reports presently on file in your office and used in your lot sales or leasing program, and (2) a copy of the sales or lease contract or agreement presently on file in your office and used in your lot sales or leasing program. Failure to respond as requested will result in issuance of an order suspending your Statement or Statements of Record with our Office under the authority of Section 1407(e) of the Interstate Land Sales Full Disclosure Act (15 USC 1706(e)).

In your response, please put your OILSR file number or numbers on your letter and copies of the Property Report and contract.

Sincerely,

GEORGE K. BERNSTEIN,  
Interstate Land  
Sales Administrator.

# DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration  
AIR TRAFFIC CONTROL TOWER,  
GALESBURG, ILL.  
Commissioning as FAA Facility

Notice is hereby given that on June 24, 1975, the Airport Traffic Control Tower at Galesburg Municipal Airport, Galesburg, Illinois, will be commissioned as an FAA facility. This information will be reflected in the FAA organization statement the next time it is issued. Communications to the tower should be as follows:

Federal Aviation Administration  
Airport Traffic Control Tower  
Galesburg Municipal Airport  
RR #2  
Galesburg, Illinois 61401

Issued in Des Plaines, Illinois, on  
May 20, 1975.

R. O. ZIEGLER,  
Director,  
Great Lakes Region.

[FR Doc. 75-14052 Filed 5-29-75; 8:45 am]

## SOUTHERN REGION AIR TRAFFIC CONTROL ADVISORY COMMITTEE Establishment

Notice is hereby given of the establishment of the Southern Region Air Traffic Control Advisory Committee. The Air Traffic Division of the FAA Southern Region is sponsor of the committee. The committee is composed of representatives of the military services, the Federal Aviation Administration and civil users of the air traffic control system. Any civil users of the system may request membership on this committee. The committee provides a forum for discussion of mutual air traffic control problems, programs and ideas and provides advice and recommendations regarding service problems or solutions to current air traffic problems within the geographical boundaries of the Southern Region. The chairman of the committee is designated by the Director, FAA Southern Regional Office.

The Secretary of Transportation has determined that the formation and use of this Advisory Committee are necessary in the public interest in connection with the performance of duties imposed on the Federal Aviation Administration by law. Meetings of the committee will be open to the public.

Issued in East Point, Georgia on May 7, 1975.

PHILLIP M. SWATEK,  
Director,  
Southern Region.

[FR Doc. 75-14051 Filed 5-29-75; 8:45 am]

## National Highway Traffic Safety Administration PETITIONS TO COMMENCE RULEMAKING Denials

This notice sets forth the reasons for denial of four petitions for rulemaking to

initiate or amend Federal motor vehicle safety standards promulgated under authority of § 103 of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1391 et seq.). This notice is published in accordance with § 124 of the Act, which provides that the National Highway Traffic Safety Administration must grant or deny such petitions within 120 days, and "If the Secretary denies such petition he shall publish in the FEDERAL REGISTER his reasons for such denial" (Section 124(d)).

**Chrysler Corporation** (February 4, 1975). Petition to rescind Standard No. 105-75, Hydraulic brake systems, immediately without benefit of a rulemaking proposal. Chrysler's petition was denied. The Administrative Procedure Act requires notice of rulemaking to provide interested persons with an opportunity to comment on anticipated regulations. NHTSA undertook that action in a proposal published March 6, 1975 (49 FR 10483).

**Truck Body and Equipment Association** (January 31, 1975), **Truck Equipment and Body Distributors Association** (February 6, 1975), **Blue Bird Body Company** (February 10, 1975). Petition for delay in applicability of Standard No. 121, Air brake systems, to multistage vehicles or final-stage manufacturers. Petition for deferral of brake actuation and release requirements. The petitions of TBDA, TEBDA, and Blue Bird were denied because they would not achieve the objectives of final-stage manufacturers. Since the standard applies only to completed vehicles, it could not be suspended with respect to completed vehicles with the chassis still required to comply. Even if this were possible, it might cause anomalous and even hazardous results, since the final-stage manufacturers could disregard any design cautions of the chassis manufacturers, and could remove or disable portions of the chassis brake systems. Even a complete delay in the standard with respect to the chassis of vehicles with which the petitions are concerned would not be helpful, since the chassis manufacturers could not be expected to produce chassis conforming to the standard, with accompanying documentation, during the period of delay.

**Standard Forge and Axle Company** (March 28, 1975). Petition to revoke Standard No. 121, Air brake systems, for failure to satisfy criterion of the Vehicle Safety Act that pre-standard air brake systems present an "unreasonable risk of accidents" and an "unreasonable risk of death or injury to persons in the event accidents do occur" (§ 102(1)). Standard Forge's petition was denied on grounds that, where a substantial number of deaths and injuries are occurring with the involvement of a particular category of motor vehicles, and the technological means is readily available for an improvement in the accident avoidance performance of that category of vehicles, and that technology is not being widely utilized by manufacturers, those vehicles present an unreasonable risk of accidents, and of death or injury, within the meaning of section 102 of the National

Traffic and Motor Vehicle Safety Act (15 U.S.C. 1391).

(Sec. 103, 119, Pub. L. 89-563, 80 Stat. 718 (15 U.S.C. 1392, 1407); Sec. 106 Pub. L. 93-492, 88 Stat. 1482 (15 U.S.C. 1410); delegations of authority at 49 CFR 1.51 and 49 CFR 501.8)

Issued on May 23, 1975.

ROBERT L. CARTER,  
Associate Administrator,  
Motor Vehicle Programs.

[FR Doc. 75-14200 Filed 5-29-75; 8:45 am]

## YOUTH HIGHWAY SAFETY ADVISORY COMMITTEE Public Meeting

On June 20-21, 1975, the Youth Highway Safety Advisory Committee will hold an open meeting at the DOT Headquarters Building, 400 Seventh Street, SW, Room 5332-5334, Washington, D.C. The Committee is composed of persons appointed by the National Highway Traffic Safety Administrator to consult with and advise him concerning programs and activities to attract and sustain the participation of young people in the national effort to combat highway deaths and injuries.

The meeting will be in session from 9 a.m. to 4 p.m. on June 20, 1975 and from 9 a.m. to 12 noon on June 21, 1975. The agenda is as follows:

1. Presentation on Driver Education.
  2. Discussion on Alcohol Research Project.
  3. Briefing on K thru 12 program.
  4. Discussion on plans for National Workshop resolutions on youthful drinking driver.
  5. Presentation on Driver Excellence programs by Region IV personnel.
  6. Discussion on Resolutions passed at March 1-2, 1975 meeting.
  7. Discussion on Resolutions tabled at March meeting.
  8. Future plans.
- For further information, contact Executive Secretariat, Room 5215, 400 Seventh Street, SW, Washington, D.C., telephone 202 426-2872.

This notice is given pursuant to section 10(a)(2) of Pub. L. 92-463, Federal Advisory Committee Act (FACA), effective January 5, 1973.

Issued on May 27, 1975.

WM. H. MARSH,  
Executive Secretary.

## CIVIL AERONAUTICS BOARD

[Docket 27780; Order 75-5-104]

### CHINOOK AIR LTD.

#### Approval of Transfer of Foreign Air Carrier Permit

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 27th day of May, 1975.

On April 28, 1975, Chinook Air Ltd. filed in Docket 27780 an application for approval of the transfer to it of the foreign

air carrier permit held by Chinook Flying Service Ltd.

No answers to the application have been received.

**Background**—Chinook Flying Service Ltd. is a holder of a foreign air carrier permit reissued pursuant to Order 75-4-25, effective April 8, 1975. This permit grants authority to operate charter flights with respect to persons and their accompanied baggage, and plane-load charter flights with respect to property, between any point or points in Canada and any point or points in the United States. The authority is limited to operations by small aircraft as defined in Annex A(I)(A) of the Nonscheduled Air Service Agreement between the United States and Canada, signed May 8, 1974. According to Article III of that agreement, each contracting party has the right to designate by diplomatic note a carrier or carriers to operate the non-scheduled service provided in the agreement.

On April 22, 1975, the Government of Canada, by Note 141, informed the Department of State that it was withdrawing its previous designation of Chinook Flying Service Ltd. and would designate Chinook Air Ltd. in lieu thereof.

**Ownership and Control**—The current permit holder, Chinook Flying Service Ltd., was incorporated in 1945 in the Province of Alberta, Canada. In 1972, a foreign air carrier permit was issued to the carrier pursuant to Order 72-6-114.

On March 1, 1974, the assets of Chinook Flying Service Ltd. were purchased by Hillcrest Aviation Ltd., a company incorporated in the Province of Alberta, Canada. The purchase was approved by the Air Transport Committee of the Canadian Transport Commission on August 26, 1974. Subsequently, Hillcrest Aviation Ltd. merged with West Air Executive Services Ltd., also a corporate body registered in the Province of Alberta, Canada, to form a new corporation named Chinook Air Ltd. This merger was approved by the Air Transport Committee of the Canadian Transport Commission on December 4, 1974. Since that time, Chinook Air Ltd. has continued the operations previously conducted by Chinook Flying Service Ltd.

In addition to ownership, the management continues to remain in the control of Canadian nationals. All four officers of the company are Canadian citizens. Thus, it is tentatively concluded that effective control over both day-to-day operations and policy decisions is vested in nationals of Canada.

**Financial and Operational Fitness**—Chinook Air Ltd. possesses, in all material respects, the attributes of Chinook Flying Service Ltd., which was found by the Board three years ago to be fit, willing and able to perform the foreign air transportation in issue. In terms of management experience, flight personnel, equipment, and service facilities, it is essentially the same organization which

- 1 Exhibit No. 1.
- 2 Exhibit No. 2.
- 3 Exhibit No. 4.

## NOTICES

23515

has been in continuous operation since 1945, utilizing the trade name, "Chinook."

Furthermore, by requesting this transfer, the applicant is voluntarily accepting the limits of passenger liability and the terms governing such limits as are set forth in CAB Agreement 18900, approved by the Board in Order E-23680, May 13, 1966. Thus, it is tentatively concluded that all of the fitness requirements of section 402 of the Act are met by the applicant.

**Public Interest**—In April of this year, the Board found that it was in the public interest to renew the permit held by Chinook Flying Service Ltd. Issuance of a permit to its successor company to perform the identical foreign air transportation is supported by the same considerations. As noted above, the Government of Canada has designated Chinook Air Ltd. under the bilateral agreement in lieu of the current permit holder. Therefore, it is tentatively concluded that grant of the relief requested is in the public interest.

On the basis of the foregoing, it is tentatively found and concluded that:

(a) Chinook Air Ltd. is fit, willing and able properly to perform the air transportation proposed in its application and to conform to the provisions of the Act and the rules, regulations and requirements of the Board thereunder;

(b) Chinook Air Ltd. is substantially owned and effectively controlled by nationals of Canada;

(c) Chinook Air Ltd. should be subject to all of the terms, conditions and limitations set forth in the attached specimen foreign air carrier permit;

(d) Chinook Air Ltd. has been designated by the Government of Canada under the Nonscheduled Air Service Agreement with the intention that it take over all the services of Chinook Flying Service Ltd. thereunder;

(e) A hearing on the application of Chinook Air Ltd. is not required in the public interest; and

(f) The transfer to Chinook Air Ltd. of the permit held by Chinook Flying Service Ltd. is in the public interest.

Accordingly, we have decided to issue an order directing interested persons to show cause why the Board should not approve the transfer of Chinook Flying Service Ltd.'s permit to Chinook Air Ltd.

All interested persons will be given 30 days following the adoption of this order to show cause why the tentative findings and conclusions set forth herein should not be made final. We expect such persons to direct their objections, if any, to specific issues, and to support such objections with detailed analyses. If an evidentiary hearing is requested, the objectors should name the specific markets or other issues with respect to which a hearing is requested and should state, in detail, why such a hearing is

\* Order 75-4-25, April 4, 1975, issued under delegated authority and applying to those carriers designated by the Government of Canada under the bilateral agreement.

necessary and what relevant and material facts he would expect to establish through such a hearing. Vague, general, or unsupported objections will not be entertained.

Accordingly, it is ordered that: 1. All interested persons be and they hereby are directed to show cause why the Board should not make final the tentative findings and conclusions herein and why an order should not be issued, subject to approval by the President pursuant to section 801 of the Act, transferring and reissuing the permit held by Chinook Flying Service Ltd. to Chinook Air Ltd., and canceling the permit issued by Order 75-4-25 to Chinook Flying Service Ltd.;

2. Any interested persons having objections to the issuance of an order making final the tentative findings and conclusions herein and transferring the said permit shall, within 30 days after adoption of this order, file with the Board and serve on the persons named in paragraph 5 a statement of objections specifying the part or parts of the tentative findings or conclusions objected to, together with a summary of testimony, statistical data and such evidence expected to be relied upon to support the statement of objections;

3. If timely and properly supported objections hereto are filed, full consideration will be accorded the matters or issues raised therein before further action is taken by the Board; *Provided*, That the Board may proceed to enter an order in accordance with the tentative findings and conclusions herein if it determines that there are no factual issues presented that warrant the holding of an evidentiary hearing;

4. In the event no objections are filed to this order, all further procedural steps will be deemed to have been waived and the Board may proceed to enter an order in accordance with the tentative findings and conclusions herein; and

5. This order shall be served upon Chinook Air Ltd. and the Ambassador of Canada.

This order shall be published in the FEDERAL REGISTER, and transmitted to the President.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,  
Secretary.

PERMIT TO FOREIGN AIR CARRIER FOR SMALL  
AIRCRAFT OPERATIONS

Chinook Air Ltd. is hereby authorized, subject to the provisions hereinafter set forth, the provisions of the Federal Aviation Act of 1958 and the orders, rules, and regulations issued thereunder, to engage in charter foreign air transportation as follows:

Charter flights with respect to persons and their accompanied baggage, and plane-load charter flights with respect to property, between any point or points in Canada and any point or points in the United States.

The holder shall be authorized to perform those types of charters originating in Canada as are now, or may hereafter be, prescribed

\* Since provision is made for the filing of objections to this order, petitions for reconsideration will not be entertained.

for carriage by small aircraft in Annex B (III)(B) of the Nonscheduled Air Service Agreement between the United States and Canada, signed May 8, 1974, including any amendments, supplements, reservations, or supersessions to that Agreement: *Provided*, That any such charters may be performed only to the extent authorized by the Air Carrier Regulations of the Canadian Transport Commission applicable to operations by small aircraft, and the authority of the holder to perform such charters shall be subject to those Regulations. The authority of the holder to perform United States-originating charters shall, in accordance with Annex B(III)(A) of such Nonscheduled Air Service Agreement, be limited to commercial air transportation of passengers and their accompanied baggage, and property, on a time, mileage or trip basis, where the entire plane-load capacity of one or more aircraft has been engaged by a person for his own use or by a person for the transportation of a group of persons and/or their property, as agent or representative of such group, or such small aircraft operations as may be authorized pursuant to any amendment, supplement, reservation or supersession to that Agreement.

This permit shall be subject to the following terms, conditions, and limitations:

(1) In the performance of the charter operations authorized by this permit, the holder shall not use "large aircraft" as defined in Annex A(I)(A) of the Nonscheduled Air Service Agreement between the United States and Canada, signed May 8, 1974, including amendments, supplements, reservations, or supersessions to that Agreement.

(2) The holder shall not engage in foreign air transportation between the United States and any point or points, other than a point or points in Canada, or transport any property or persons whose journey, includes a prior, subsequent, or intervening movement by air (except for the movement of passengers independently of any group) to or from a point not in the United States or Canada: *Provided*, That the Board may, upon application by the holder, or by regulation, authorize the performance of charters where such movements are involved.

(3) The holder shall not perform United States-originating charter flights which at the end of any calendar quarter would result in the aggregate number of all United States-originating charter flights performed by the holder on or after May 8, 1974 exceeding by more than one-third the aggregate number of all Canadian-originating charter flights performed by the holder on or after May 8, 1974: *Provided*, That the Board may authorize the performance of charters not meeting the requirements set forth. For the purpose of making such computation the following shall apply:

(a) A charter shall be considered to originate in the United States (or Canada) if the passengers or property are first taken on board in that country, and shall be considered as one flight whether the charter be one-way, round-trip, circle tour, or open jaw, even if a separate contract is entered into for a return portion of the charter trip from Canada (or the United States).

(b) The computation shall be made separately for (1) "small aircraft" flights of per-

sons; and (2) "small aircraft" flights of property.

(c) In the case of a lease of aircraft with crew for the performance of a charter flight on behalf and under the authority of another carrier, the flight shall be included in the computation if the holder is the lessee, and shall not be included if the holder is the lessor.

(d) There shall be excluded from the computation:

(1) flights utilizing aircraft having a maximum authorized takeoff weight on wheels (as determined by Canadian Transport Commission Regulations) not greater than 18,000 pounds; and

(2) flights originating at a United States terminal point of a route authorized pursuant to the Air Transport Services Agreement between the United States and Canada, signed January 17, 1968, as amended, or any agreement which may supersede it, or any supplementary agreement thereto which establishes obligations or privileges thereunder (If, pursuant to any such agreement, the holder also holds a foreign air carrier permit authorizing individually ticketed or individually waybilled service over such route, and provides some scheduled service on any route pursuant to any such agreement), when such flights serve either (a) a Canadian terminal point on such route, or (b) any Canadian intermediate point authorized for service on such route by such foreign air carrier permit.

(4) The holder may grant stopover privileges at any point or points in the United States only to passengers and their accompanied baggage moving on a Canadian-originating flight operating under a contract for round-trip charter transportation to be provided solely by the holder and as to which the same aircraft stays with the passengers throughout the journey; *Provided*, That the Board may authorize the performance of charters not meeting the requirements set forth.

(5) The Board, by order or regulation and without hearing, may require advance approval of individual charter trips conducted by the holder pursuant to the authority granted by this permit, if it finds such action to be required in the public interest.

(6) The holder shall conform to the airworthiness and airman competency requirements prescribed by the Government of Canada for Canadian international air service.

(7) This permit shall be subject to all applicable provisions of any treaty, convention, or agreement affecting international air transportation now in effect, or that may become effective during the period this permit remains in effect, to which the United States and Canada shall be parties.

(8) This permit shall be subject to the condition that the holder shall keep on deposit with the Board a signed counterpart of CAB Agreement 18900, an agreement relating to liability limitations of the Warsaw Convention and the Hague Protocol approved by Board Order E-23680, May 13, 1966, and a signed counterpart of any amendment or amendments to such agreement which may be approved by the Board and to which the holder becomes a party.

(9) The holder (1) shall not provide foreign air transportation under this permit unless there is in effect third-party liability insurance in the amount of \$1,000,000 or more to meet potential liability claims which may arise in connection with its operations under this permit, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the third-party liability insurance provided, and (2) shall not provide foreign air transportation with respect to persons unless there is in effect liability insurance sufficient to cover the obligations assumed in

CAB Agreement 18900, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the passenger liability insurance provided. Upon request, the Board may authorize the holder to supply the name and address of an insurance syndicate in lieu of the names and addresses of the member insurers.

(10) By accepting this permit, the holder waives any right it may possess to assert any defense of sovereign immunity from suit in any action or proceeding instituted against the holder in any court or other tribunal in the United States (or its territories or possessions) based upon any claim arising out of operations by the holder under this permit.

The exercise of the privileges granted by this permit shall be subject to such other reasonable terms, conditions, and limitations required by the public interest as may from time to time be prescribed by the Board.

This permit shall become effective on \_\_\_\_\_ Unless otherwise terminated at an earlier date pursuant to the terms of any applicable treaty, convention, or agreement, this permit shall terminate (1) upon the effective date of any treaty, convention, or agreement, or amendment thereto, which shall have the effect of eliminating the charter foreign air transportation hereby authorized from the transportation which may be operated by carriers designated by the Government of Canada (or in the event of the elimination of part of the charter foreign air transportation hereby authorized, the authority granted herein shall be terminated to the extent of such elimination), or (2) upon the effective date of any permit granted by the Board to any other carrier designated by the Government of Canada in lieu of the holder hereof, or (3) upon the termination or expiration of the Nonscheduled Air Service Agreement between the United States and Canada, signed May 8, 1974: *Provided*, however, That clause (3) of this paragraph shall not apply if, prior to the occurrence of the event specified in clause (3), the operation of the foreign air transportation herein authorized becomes the subject of any treaty, convention, or agreement to which the United States and Canada are or shall become parties.

In witness whereof, the Civil Aeronautics Board has caused this permit to be executed by the Secretary of the Board, and the seal of the Board to be affixed hereto, on the \_\_\_\_\_

[SEAL] Secretary.

Issuance of this permit to the holder approved by the President of the United States on \_\_\_\_\_ in \_\_\_\_\_

[Docket 25280; Agreement C.A.B. 25071; Order 75-5-101]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Specific Commodity Rates

Issued under delegated authority May 23, 1975.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers and other carriers, embodied in the resolutions of the Joint Traffic Conferences of the International Air Transport Association (IATA). The

agreement was adopted at the 19th meeting of the Joint Specific Commodity Rates Board held in Geneva on March 4-7, 1975 and has been assigned the above C.A.B. agreement number.

With respect to air transportation as defined by the Act, the agreement proposes revisions to the specific commodity rates structures applicable on the North Atlantic, North/Central Pacific and South Pacific market areas. These revisions are outlined in the attachments hereto, and reflect reductions from otherwise applicable general cargo rates.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14, it is not found that the subject agreement is adverse to the public interest or in violation of the Act, provided that approval is subject to the conditions hereinafter ordered.

Accordingly, it is ordered that: Agreement C.A.B. 25071 be and hereby is approved, provided that approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publications; provided further that tariff filings shall be marked to become effective on not less than 30 days' notice from the date of filing.

Persons entitled to petition the Board for review of this order, pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

[SEAL] EDWIN Z. HOLLAND, Secretary.

[FR Doc.75-14196 Filed 5-29-75; 8:45 am]

[Docket 27882; Order 75-5-103]

TRANS WORLD AIRLINES, INC.

Order of Suspension and Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 27th day of May, 1975.

By tariff revision<sup>1</sup> filed April 23 and marked to become effective May 28, 1975, Trans World Airlines, Inc. (TWA) proposes to establish a surcharge of \$3.25 per shipment of restricted articles as de-

<sup>1</sup> Attachments filed as part of the original document.

<sup>2</sup> Revision to Airline Tariff Publishing Company, Agent, Tariff C.A.B. No. 98. While the original filing (marked for May 23 effectiveness) set the surcharge at the \$3.00 level, the carrier's justification and the complaints were all directed to a \$3.25 surcharge. The carrier subsequently revised the tariff page to reflect a \$3.25 surcharge, for May 28 effectiveness, and withdrew the original filing. The Board will consider the support, complaints, and answer in the context of the \$3.25 surcharge.

fined in the Restricted Articles Tariff, C.A.B. No. 82.

In support of its proposal and in answer to the complaints, TWA contends, *inter alia*, that (1) the proposed surcharge will offset additional handling and administrative costs associated with the acceptance of shipments of restricted articles; (2) the results of an in-house man-minute survey of station labor costs and estimated overhead justify setting the surcharge at the \$3.25 level; and (3) an additional \$234,000 in annual revenue will result from the proposal, with no traffic loss expected.

Complaints were filed against the proposal by Shulman Air Freight, Inc. (Shulman) and the Council for Safe Transportation of Hazardous Articles (COSTHA). Shulman's complaint requests suspension and investigation of the proposal, and alleges, *inter alia*, that (1) a great many commodities subject to a wide range of restrictions commonly moving in air transportation would be subject to the surcharge; (2) radioactive pharmaceutical shipments often must be broken down and moved on many single airbills at minimum charges, and would accordingly be subject to multiple surcharges;<sup>3</sup> (3) surveys of a variety of motor carrier and ocean freight tariffs reveal no comparable surcharges; (4) the surcharge is not cost-justified; and (5) the proposal appears to be a step toward nonacceptance of restricted articles, which is in derogation of TWA's responsibilities to provide transportation as a common carrier.

The COSTHA complaint requests rejection, or alternatively, suspension and investigation. The request for rejection is grounded, among other things, on the assertion that TWA has failed to provide adequate information upon which to assess the accuracy and validity of the results of the man-minute study submitted in its justification. The request for suspension and investigation contends, *inter alia*, that (1) the additional costs should be documented in a fashion that permits review by the Board and by interested shippers; (2) the additional claims must be proven attributable to regulatory burdens and not incompetence; and (3) TWA must prove that safety precautions purportedly taken and paid for are truly performed.

TWA has essentially met the requirements of the Board's Economic Regulations on filing tariffs (14 CFR 221). We find no basis for rejection.

Upon consideration of all relevant matters, the Board finds that TWA's proposal may be unjust, unreasonable, unjustly discriminatory, unduly preferen-

<sup>3</sup> It is not clearly understood as to why a shipper may be required to tender the parts of a large volume of hazardous materials consigned from one origin to one destination via the same carrier on many airbills at minimum charges. We find no such restriction in any of TWA's applicable tariffs as to quantity limitations per airbill as distinguished from quantity limitations imposed upon hazardous material in a single package or that which may be carried in a single aircraft or inaccessible cargo bin.

tial, unduly prejudicial, or otherwise unlawful, and should be investigated. The Board further concludes that the proposal should be suspended pending investigation.

In support of its assertion that restricted articles require additional services peculiar to such articles, TWA submits the results of a man-minute study that indicates that each shipment requires an additional 25 man-minutes at a cost of \$3.182 and presents estimates of additional overhead costs, including management overhead and "other overhead costs such as training programs," amounting to \$0.07 per shipment.

All that has been presented to us are the conclusions of the study. There is no indication of the time period involved, the number of stations surveyed, or the adequacy of the sample in the study. The services and functions are not described; only the additional time purportedly required and its cost are presented. A further defect resulting from a flat surcharge is a failure to reflect costs that vary with the number of pieces per shipment or the total weight of a shipment. In the instant proposal, TWA calculates all additional costs on a per-shipment basis. Thus, we are unable to conclude that TWA's proposal has been adequately justified.

The suspension action ordered herein is consistent with our actions in Orders 73-12-116, 74-1-100, 74-12-71, and 75-1-123.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered that: 1. An investigation is instituted to determine whether the provision reading "(Applicable to TW only)" in Rule No. 51 and the charge and provisions in Rule No. 51(c) on 9th Revised Page 18-C of Airline Tariff Publishing Company, Agent, tariff C.A.B. No. 96, and rules, regulations, and practices affecting such provisions, are or will be unjust or unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful provisions, and rules, regulations, or practices affecting such provisions;

2. Pending hearing and decision by the Board, the provision reading "(Applicable to TW only)" in Rule No. 51 and the charge and provisions in Rule No. 51(c) on 9th Revised Page 18-C of Airline Tariff Publishing Company, Agent, tariff C.A.B. No. 96, are suspended and their use deferred to and including August 25, 1975, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The proceeding herein designated Docket 27882, be assigned to hearing before an Administrative Law Judge of the Board at a time and place hereafter to be designated;

4. Except to the extent granted herein, the complaints of Shulman Air Freight, Inc. in Docket 27803 and the Council for

Safe Transportation of Hazardous Articles in Docket 27807 are dismissed; and

5. Copies of this order shall be filed with the tariff and served upon Trans World Airlines, Inc., Shulman Air Freight, Inc., and the Council for Safe Transportation of Hazardous Articles, which are hereby made parties to Docket 27882.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,  
Secretary.

# COUNCIL ON ENVIRONMENTAL QUALITY ENVIRONMENTAL IMPACT STATEMENTS List of Statements Received

Environmental impact statements received by the Council on Environmental Quality from May 19, through May 23, 1975. The date of receipt for each statement is noted in the statement summary. Under Council Guidelines the minimum period for public review and comment on draft environmental impact statements in forty-five (45) days from this FEDERAL REGISTER notice of availability. (July 15, 1975) The thirty (30) day period for each final statement begins on the day the statement is made available to the Council and to commenting parties.

Copies of individual statements are available for review from the originating agency. Back copies will also be available at cost from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

## DEPARTMENT OF AGRICULTURE

Contact: David Ward, Acting Coordinator, Environmental Quality Activities, Office of the Secretary, U.S. Department of Agriculture, Room 331-E, Administration Building, Washington, D.C. 20250, (202) 447-3853.

## Draft

Black Pine Planning Unit, Sawtooth National Forest, Cassia County, Idaho, May 21: The proposed land use plan for the Black Pine Planning Unit, Sawtooth National Forest, closely parallels present management with these major changes: harvesting of six million board feet of sawtimber, partial development of the 51,566-acre roadless area, prescribed burning on 7,000-10,000 acres to thin juniper trees and increase livestock forage, and provide for an increase in winter forage for deer. Unavoidable adverse effects include reduction of both juniper- and sagebrush-dependent species and increased harvesting of deer during hunting season (due to improved access). (ELR order No. 50735.)

## FOREST SERVICE

## Draft

Weyerhaeuser Co.-Gifford Pinchot National Forest (Supplement), several counties, Washington, May 22: Proposed is the exchange of 16,155 acres of National Forest lands for 13,673.61 acres of land owned by the Weyerhaeuser Company. The plan would consolidate public and private lands, thus increasing the number of land management alternatives, reduce management costs, and provide the opportunity for several thousand acres to be studied as wilderness, scenic, or roadless areas. Adverse impacts of the action include net loss of harvestable timber that may be as high as 5.3 million board

feet and forfeiture of Forest Service identity along two miles of South Coldwater Creek, 2.5 miles of Coldwater Creek, and 1.1 miles of the Green River within the National Forest boundary. (ELR order No. 50744.)

## Final

Herbicide Use on National Forests of Alaska, May 21: The action proposed involves vegetation management with the use of herbicides around forest airfields and on road, railroad, and powerline rights-of-way in Tongass and Chugach National Forests, Alaska. The herbicides proposed for use include 2,4-D, picloram, amitrole, sodium metaborate, sodium chlorate, and bromacil. The program may adversely affect non-target species. Comments made by: DOC, EPA, DOI, AHP, State agencies and concerned citizens. (ELR order No. 50734.)

Aspen-Horsethief Timber Sales, Sierra National Forest, Fresno County, Calif., May 19: The statement refers to the Aspen-Horsethief Timber Sales proposed within the Kaiser Roadless Area. The proposal is continue preparation of the timber to be advertised and awarded to the highest bidder. The Aspen-Horsethief Study Area would be removed from roadless status and placed under long-term multiple use management which included production of timber resources. Adverse impacts include: possible loss of wilderness classification; negative on-site aesthetic impacts; short-term noise increase, and temporary soil erosion and water sedimentation. Comments made by: USDA, FPC, DOT, COE, EPA, DOI, AHP, State agencies and concerned citizens. (ELR order No. 50725.)

Eightmile-Blue Creek Units, Six Rivers National Forest, Humboldt and Del Norte Counties, Calif., May 22: The statement refers to the proposed land use management plans for the Eightmile and Blue Creek Units of the Six Rivers National Forest in Del Norte and Humboldt Counties. The land use plans apply to 94,000 acres of National Forest lands, of which 59,800 acres have been inventoried as roadless. Management would include timber harvesting on 33,600 acres. Off-road vehicle closures are proposed in 7,800 acres. Adverse impacts include: loss of wilderness values; change in overall visual quality, temporary degradation of water quality and air quality; increased noise; and slight reduction in stream habitats. Comments made by: COE, FPC, HEW, AHP, USDA, State and local agencies. (ELR order No. 50743.)

Alpine Lakes, Snoqualmie and Wenatchee National Forests, several counties, Washington, May 21: The statement refers to a proposed land use management plan for portions of the two Forests, including the Alpine Lakes Area Wilderness, in Chelan, King, Kittitas, and Snohomish Counties. Implementation of the plan will result in reductions in the immediate availability of some resource commodities and increased restrictions upon the recreating public. Comments made by: USDA, COE, DOC, EPA, FPC, HEW, HUD, DOI, DOT, AHP, State and local agencies. (ELR order No. 50739.)

## SOIL CONSERVATION SERVICE

## Draft

Diamond Brook Watershed Project, Norfolk County, Mass., May 22: Proposed is a project for watershed protection, flood prevention, and improvement of fish and wildlife habitat consisting of conservation land treatment, a multiple-purpose reservoir structure, and about 1,180 feet of channel work on a perennially flowing and previously modified stream. About 58 acres of land will be required to install the dam and channel work. The project will result in decreased wildlife habitat and increased structural measures. (ELR order No. 50711.)

## Final

West Upper Maple River Watershed, Michigan, Clinton and Gratiot Counties, Mich., May 19: Proposed is a watershed protection and flood prevention project for 4,300 acres of the West Upper Maple River Watershed. Project measures include: 9.5 miles of levee; 9.2 miles of collection channels and 2 pumps; 1.8 miles of channel work; land treatment measures; and recreational facilities. Fourteen acres of land will be inundated; 310 acres of wildlife habitat will be converted to crop production. There will be adverse impacts from recreational uses. Comments made by: COE, HEW, DOI, DOT, EPA, AHP, and State agencies. (ELR order No. 50723.)

Stoney Creek Watershed, Wayne County, N.C., May 21: Proposed is a project for watershed protection and flood prevention. The project proposes conservation land treatment over the watershed, supplemented by three dams with multiple-purpose storage (flood prevention—recreation) and 10,840 ft. of channel clearing and debris removal. Adverse impacts are temporarily increased sedimentation during construction, and limitation on the use of 319 acres in the detention pools of the 3 structures. Comment made by: HEW, DOT, EPA, AHP, and State agencies. (ELR order No. 50740.)

## DEPARTMENT OF DEFENSE

## ARMY CORPS

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs, Attn: DAEN-PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1600 Independence Avenue SW., Washington, D.C. 20314, (202) 693-6831.

## Draft

Harbors and Rivers in the Territory of Guam, May 19: The proposed improvement is a combination of levee and channel improvements with pumping facilities for localized drainage near the Saylor Street-Agana River crossing in Guam. Replacement of the existing river bed by a lined channel would adversely affect the estuarine habitat near the mouth; the loss of 12.5 acres of unique and scarce wetland habitat is another adverse impact of the project. Temporary construction disruption will also occur (ELR order No. 50728.)

West Contra Costa Sanitary Landfill Project, Contra Costa County, Calif., May 19: This statement involves a regulatory permit application for confirmation and approval of all existing dikes and embankments at the West Contra Costa Sanitary Landfill Project, including rehabilitation, completion and permanent maintenance of these structures and validation of the placement of all existing fill and material behind the structures. Permission to continue sanitary landfill operations is also sought. The adverse impacts of the fill project include loss of a waterfowl resting area and some modified marsh habitat, decreased aesthetics, noise and air pollution due to truck traffic, and restricted use of the landfill area. (San Francisco District.) (ELR order No. 50729.)

Springfield Flood Control Project (2), Union County, N.J., May 21: The statement is a revised draft of an EIS filed on 9 September 1974. The project consists of the construction of a flood control project in Springfield, New Jersey consisting of channel modification, levees, and ponding areas along Van Winkles Brook and the Rahway River. Long term adverse impacts include dislocation of wildlife and aquatic life, decreased aesthetics, loss of commercial and recreational land, relocation of a home, loss of vegetation, an increased flood potential south of project area, and temporary construction disruption. (New York District.) (ELR order No. 50737.)

## Final

Tombigbee River and Tributaries, Alabama and Mississippi, May 22: The statement refers to the proposed flood control project on Luxapallia Creek. Involved in the project is channel excavation and the clearing of the banks along a total of 19.9 miles of the creek beginning at the mouth. Adverse impacts include the loss of 1,258 acres of stream bank habitat for wildlife, loss of 19.9 miles of natural aquatic habitat, loss of recreational resource, probable loss of walleye population in Luxapallia Creek, and a slight reduction in water quality. (Mobile District.) Comments made by: DOI, HUD, DOT, USDA, EPA, and State agencies. (ELR order No. 50741.)

Channel Rehabilitation Project, Coal River Basin, W. Va., May 21: The statement refers to the channel shaping and restoration and/or debris removal and selective bank clearing in four areas in the Coal River Basin: Sylvester-Whitesville area, Danville-Madison area, Van-Clinton area, and the Greenview-Sharples area. Adverse impacts are the loss of some vegetation and wildlife habitat, temporarily increased air and noise pollution, and stream turbidity. (Huntington District.) Comments made by: EPA, DOI, USDA, AHP, State agencies and individuals. (ELR order No. 50738.)

## ENVIRONMENTAL PROTECTION AGENCY

Contact: Mr. Sheldon Meyers, Director, Office of Federal Activities, Room 3630 Waterside Mall, Washington, D.C. 20460, (202) 755-0940.

## Final

O'Hare Wastewater Conveyance System, Cook County, Ill., May 23: The statement concerns a system of conveyance tunnels and drop shafts to intercept and convey wastewater from a 65.2 square mile service area in the Northwest region of the Metropolitan Sanitary District of Greater Chicago to the proposed O'Hare Water Reclamation Plant. Occasional exfiltration into groundwater aquifers might occur, and a groundwater well monitoring program is planned to discover any problems which may develop. Comments made by: USDA, HUD, COE, AHP, State and local agencies, public groups and citizens. (ELR order No. 50745.)

O'Hare Water Reclamation Plant, Cook County, Ill., May 23: Proposed is the construction of the O'Hare Water Reclamation Plant for the O'Hare Service Area. The plant will treat sewage in a two stage process, discharging effluent into Higgins Creek. Process solids remaining would be transported via a pipeline to the MSDGC Salt Creek Water Reclamation Plant for further treatment. Occasional odors and temporary construction disruption will result. Comments made by: AHP, COE, USDA, HUD, State and local agencies. (ELR order No. 50747.)

## FEDERAL POWER COMMISSION

Contact: Dr. Richard F. Hill, Acting Advisor on Environmental Quality, 441 G Street NW., Washington, D.C. 20426, (202) 386-6084.

## Final

Mystic Lake Project No. 2301, Stillwater and Carbon Counties, Mont., May 19: The statement refers to the proposed relicensing of Montana Power Company's Mystic Lake Project No. 2301. The existing facilities of the project would be altered by the construction of a regulating dam, which will allow year round operation and an increase in plant capacity from 5,000 kw to 11,500 kw. Comments made by: COE, DOI, USDA, HEW, EPA, AHP, State agencies and the applicant. (ELR order No. 50724.)

## DEPARTMENT OF HUD

Contact: Mr. Richard H. Broun, Director, Office of Environmental Quality, Room 7258, 451 7th Street, SW., Washington, D.C. 20410, (202) 755-6308.

## Final

Potter Urban Renewal Project, Middlesex County, N.J., May 19: The Township of Edison Housing Authority proposes to erect 866 units of low and moderate income housing on a 177 acre vacant, wooded site in North Edison, adjacent to an existing 90 unit Public Housing Project. The project would result in removal of vegetation and reduction of air and water quality. Comments made by: USDA, COE, DOC, ERDA, EPA, DOI, DOT, State and local agencies. (ELR order No. 50722.)

Church-Musser Urban Renewal Program, Lancaster County, Pa., May 23: The statement concerns the redevelopment of 120.2 acres of land containing 1,261 structures (1,132 residential) and 1,402 dwelling units. Of these, clearance is planned for 443 structures, and rehabilitation for 82% of the remaining 818. Adverse impacts include the temporary or permanent relocation of families and businesses and possible damage through demolition to adjacent properties. Comments made by: EPA, DOT, DOI, State and local agencies. (ELR order No. 50746.)

## SECTION 104 (I)

## Draft

Drainage Way Cleaning, Carbondale, Ill., Jackson County, Ill., May 19: The City of Carbondale has proposed the cleaning of brush, stones, debris, and siltation from segments of Piles Fork and Little Crab Orchard Creeks and tributary ditches in the northeast and western areas of the City to provide improved surface drainage. Project activity will include some bank shaping along limited segments of the creeks and ditches. Adverse impacts include greater flows of water downstream, increased flow landings on downstream bottlenecks, and construction disruption. (ELR order No. 50727.)

## DEPARTMENT OF INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 7260, Department of the Interior, Washington, D.C. 20240, (202) 343-3891.

## BUREAU OF RECLAMATION

## Draft

Tehama-Colusa Canal (Supplement), several counties, California, May 20: The statement is a supplement to a final EIS filed with CEQ 14 June 1972. Proposed is the construction of Funks Dam and Reservoir, a dual-purpose wasteway between the Tehama-Colusa Canal and the Glenn-Colusa Canal, and 13 water distribution systems and/or water service contracts. Seven hundred fifteen acres, including 684 acres for Funks Reservoir and 31 acres for the dual-purpose wasteway, would be committed to the project and two archeological sites would be inundated. (ELR order No. 50731.)

## DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Conviser, Director, Office of Environmental Affairs, 400 7th Street SW., Washington, D.C. 20590, (202) 426-4357.

## FEDERAL AVIATION ADMINISTRATION

## Final

San Jose Municipal Airport Land Acquisition, Santa Clara County, Calif., May 19: The statement concerns the acquisition of

117 acres containing 454 single family residences, 141 duplexes, and 15 multi-unit apartment houses to clear the approach area south of the San Jose Municipal Airport. The buildings will be demolished. Adverse impacts include displacement of families and businesses and inflation of the present housing market as a result of relocation. Comments made by: DOT, EPA, DOI, and DOC. (ELR order No. 50720.)

The Syracuse Hancock International Airport, New York, May 19: The project involves the extension of a runway 1,020 feet to the southeast. The extension will be 150 feet wide and will include the widening of 600 feet of existing taxiway and the construction of a parallel taxiway 75 feet wide and 2,200 feet long. Also included is the installation of related runway and taxiway lights. Adverse impacts include the rise in noise pollution in some areas, and an expected increase in air pollution with additional air traffic in the future. (30 pages.) Comments made by: COE, USDA, FPC, DOT, and HEW. (ELR order No. 50721.)

## FEDERAL HIGHWAY ADMINISTRATION

## Draft

Widening of DeRenne Avenue, Savannah, Ga., Chatham County, Ga., May 19: This project consists of widening from two to four or five lanes of approximately two miles of DeRenne Avenue between Abercorn Street and Skidaway Road in Savannah. Adverse impacts include increased noise levels, increased carbon monoxide levels, loss of trees, runoff of pollutants into the Vernon River marsh which will affect marine organisms, and erosion and siltation during construction. (ELR order No. 50695.)

I-380, Cedar Rapids, Iowa, May 21: The proposed project involves the construction of a 4 to 8 lane, divided-highway segment of I-380, beginning at I-80 and ending at Freeway Route 518. The total project length is 2.5 miles. Major adverse impacts would be the displacement of 37 homes and 110 people, increased noise and air pollution, and a temporary increase in sediment load in McCloud Run due to erosion during construction. (64 pages.) (ELR order No. 50736.)

U.S. 78, De Soto, Marshall, Benton, and Union Counties, several counties, Mississippi, May 19: The proposed project entails the construction of a four-lane, divided, controlled-access highway to replace approximately 46 miles of existing U.S. 78 in De Soto, Marshall, Benton, and Union Counties. The project will result in the acquisition of 1670 acres of land, 100 of which belong to the DeSoto National Forest. Acquisition of the forest land will result in the loss of potential timberland and game habitat. Other adverse effects include long-term noise impact of three residences and temporary construction noise and disruption. (ELR order No. 50726.)

I-215 Southeast Belt Route, Salt Lake City, Salt Lake County, Utah, May 20: The statement proposes the construction of 6.5 miles of controlled access, six-lane freeway to complete I-215, the beltway around Salt Lake City. Adverse impacts would be the displacement of 12 to 36 residences and 0 to 20 businesses, substantial noise impact to some adjacent locations, long-term visual impact, removal of existing vegetation within the project corridor and resulting decreased water quality due to added roadway runoff, and temporary construction disruption. (ELR order No. 50732.)

## Final

California Route 84, Contra Costa and Sacramento Counties, Calif., May 19: The project involves construction of a 3.6 mile

long, four-lane access controlled highway in Contra-Costa and Sacramento Counties. The principal feature of the project will be a 9,100 ft., four-lane bridge over the San Joaquin River. Adverse impacts are that 44 acres currently used for agriculture and wildlife habitat will be converted to highway use. The river bottom will be disturbed during construction of the bridge. Comments made by: DOI, USDA, USCG, and EPA. (ELR order No. 50730.)

S.R. 912, Lake County, Ind., May 22: Proposed is the construction of 5.5 miles of six-lane S.R. 912 from I-80-94 to U.S. 12. The proposed improvement would carry the route on a relocated freeway facility northwesterly from Columbus Drive and extend westerly through Hammond to the Indiana Toll Road (I-90). The road will be 70% elevated and will include five interchanges. An unspecified number of families and businesses will be displaced. Comments made by: DOI, USDA, EPA, HEW, DOT, State and local agencies. (ELR order No. 50742.)

U.S. 50 and WVA 29, Clarksburg, Harrison County, W. Va., May 21: The statement refers to the construction of U.S. 50, which is a part of Corridor "D" of the Appalachian Development Highway system. Included in the study is connector route, Alternate W. Va. 20. Relocated U.S. 50 is to be a 4-lane, divided highway beginning in Clarksburg and running 2.31 miles terminating at the western ramps of the I-79-U.S. 50 interchange. Alternate W. Va. 20 will be designed as a two-lane highway except through the interchange area, where a left-turn lane will be provided. The total length of Alternate W. Va. 20 will be 0.22 mile. Adverse impacts are acquisitions of land, and an unspecified number of displaced families and businesses. Comments made by: DOT, FPC, COE, EPA, DOC, USDA, and HEW. (ELR order No. 50733.)

GARY L. WIDMAN,  
General Counsel.

[FR Doc.75-14079 Filed 5-29-75; 8:45 am]

#### DELAWARE RIVER BASIN COMMISSION PUBLIC HEARING

Notice is hereby given that the Delaware River Basin Commission (609) 883-9500, will hold a public hearing on Tuesday, June 17, 1975, commencing at 2 p.m. The hearing will be held in Room 1600 of the Municipal Services Bldg., 15th and Kennedy Blvd., Philadelphia. The subjects of the hearing will be as follows:

A. Applications for approval of the projects listed below. The Commission will consider these applications as proposed amendments to the Comprehensive Plan pursuant to Article 11 of the Compact, and/or as project approvals pursuant to Section 3.8 of the Compact.

1. *Berks County (D-75-63 CP)*. A sewage treatment plant to serve the Welfare area in Bern Township, Berks County, Pa. The treatment plant will provide removal of 90 percent of BOD5 from a sewage flow of 420,000 gallons per day. Treated effluent will discharge to Tulpehocken Creek, a tributary of the Schuylkill River.

2. *Harding Woods, Inc. (D-74-124 CP)*. A sewage treatment plant to serve the Harding Woods mobile home park in Pittsgrove Township, Salem County, N.J. The treatment plant will provide removal of 90 percent of BOD5 and sus-

pended solids from a sewage flow of 50,000 gallons per day. Treated wastewater will discharge to on-site disposal beds.

3. *New Castle County Dept. of Public Works (D-72-210 CP)*. A sewage treatment plant to serve Delaware City and the Governor Bacon Health Center in New Castle County, Del. The treatment plant will provide removal of 96 percent of BOD5 from a sewage flow of 500,000 gallons per day. Discharge will be to the Delaware River.

4. *Honey Brook Borough and Township (D-74-63 CP)*. A sewage treatment plant to serve Honey Brook Borough and Honey Brook Township, Chester County, Pa. The new facility will provide removal of 93 percent of BOD, and 92 percent of suspended solids from a sewage flow of 600,000 gallons per day. Treated effluent will discharge to the West Branch Brandywine Creek.

5. *Waymart Water (D-75-73 CP)*. A well water supply project to augment public water supplies in Waymart Borough, Wayne County, Pa. Designated as Well No. 4, the new facility is expected to yield 288,000 gallons per day.

6. *Artesian Water Co. (D-74-97 CP)*. A well water supply project to augment public water supplies in the company's service area adjacent to the City of Wilmington, New Castle County, Del. Designated as Fairwinds Well No. 7, the new facility is expected to yield 720,000 gallons per day.

7. *Borough of Paulsboro (D-72-67 CP)*. A well water supply project to augment public water supplies in Paulsboro Borough, Gloucester County, N.J. Designated as Well No. 6, the new facility is expected to yield 1.4 million gallons per day.

8. *Red Hill Water Authority (D-74-141 CP)*. A well (No. 2) to meet public water supply needs in the Borough of Red Hill, Montgomery County, Pa. The new facility is expected to yield 230,000 gallons per day.

9. *Cherry Hill Township (D-75-59 CP)*. An interim upgrading of the existing Colwick sewage treatment plant in Cherry Hill Township, Camden County, N.J. The improved facility will provide removal of 90 percent of BOD, from a sewage flow of 150,000 gallons per day. Treated effluent will discharge to the South Branch Pennsauken Creek. The treatment facility will be phased out when a regional system becomes available.

10. *Cherry Hill Township (D-75-60 CP)*. An interim upgrading of the existing Cooper River sewage treatment plant in Cherry Hill Township, Camden County, N.J. The improved facility will provide removal of 90 percent of BOD, from a sewage flow of 2 million gallons per day. Treated effluent will discharge to the Cooper River. The treatment facility will be phased out when a regional system becomes available.

11. *Delmarva Power & Light Co. (D-73-123 CP)*. A nuclear-fueled generating plant, designated the Summit station, in the vicinity of the Chesapeake and Delaware Canal in New Castle County, Del. Two high temperature gas-cooled reactors will be constructed, each having

a capacity of 761 megawatts. Makeup water will be withdrawn from the C&D Canal at a maximum rate of about 31.3 million gallons per day.

12. *Cargill, Inc. (D-74-136)*. An industrial cooling water project at the company's Chemical Products Division in Philadelphia, Pa. About 440,000 gallons per day of river water and 23,000 gallons per day from the City of Philadelphia water system will be used for cooling and processing purposes, respectively. Cooling water will be returned to the river and contaminated wastewater will be conveyed to the City of Philadelphia sewerage system for treatment.

13. *Carpenter Technology Corp. (D-75-69)*. Modification of an industrial wastewater treatment facility at the company's plant in the City of Reading, Berks County, Pa. A higher level of chromium removal will be provided to a treated wastewater and cooling water discharge of 2.6 million gallons per day. Treated wastewater will discharge to Bernharts Creek and the Schuylkill River.

14. *Swift Dairy and Poultry Co. (D-75-75)*. An industrial wastewater discharge at the company's plant in Exeter Township, Berks County, Pa. The treatment facility will provide removal of 94 percent of BOD, and 90 percent of suspended solids from a wastewater flow of 194,000 gallons per day. Treated effluent will discharge to an unnamed tributary of the Schuylkill River.

15. *Mack Trucks, Inc. (D-75-63)*. A well water supply project to provide water for use at the company's plant site in Lower Macungie Township, Lehigh County, Pa. Two new wells are expected to have a combined yield of 432,000 gallons per day.

B. Applications for water quality certifications pursuant to Section 401 of the Federal Water Pollution Control Act:

1. *Pennsylvania Dept. of Transportation*. Four Schuylkill River bridge crossings on U.S. Route 209 between Pottsville and Tamaqua, Schuylkill County, Pa.

2. *Pennsylvania Power & Light Co.* Outfall structure at the Martins Creek generating station in Lower Mt. Bethel Township, Northampton County, Pa.

Documents relating to the items on this hearing notice may be examined at the Commission's offices. Persons wishing to testify are requested to notify the Secretary prior to the hearing.

W. BRINTON WHITALL,  
Secretary.

MAY 23, 1975.

#### ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

##### ERDA/NSF SEMINAR ON INTERNATIONAL ENERGY ANALYSIS

###### Notice of Meeting

The Division of International Security Affairs of the Energy Research and Development Administration and the Office of Systems Integration and Analysis of the National Science Foundation are

convening an International Energy Analysis Seminar on June 9 and 10, 1975 at the Ramada Inn in Rosslyn, Virginia. The meeting will begin at 1 p.m. on June 9 and at 9 a.m. on June 10 and will adjourn at 5 p.m. on both days. The purpose of this seminar is to provide a forum for discussion and exchange of information among government representatives and government and non-government analysts and information specialists dealing with international energy issues. No conclusions or recommendations will be made.

While this ad hoc informal seminar is not considered to be a meeting of an "advisory committee" as that term is defined in section 3 of the Federal Advisory Committee Act (P.L. 92-463), this seminar is believed to be of sufficient importance and interest to the general public to be announced in the Federal Register as a meeting open for public attendance.

The agenda consists of three sessions. Practical considerations may require changes in the agenda or schedule.

June 9, 1:00 p.m.—Policy issues of concern to government decision makers

June 10, 9:00 a.m.—Analytical capabilities

June 10, 2:00 p.m.—Information needs and availability

The Seminar will be chaired by Mr. Ray E. Chapman, Assistant Director for Studies and Analyses, Division of International Security Affairs, U.S. Energy Research and Development Administration. The Chairman is empowered to conduct the seminar in a manner that in his judgment will facilitate the orderly conduct of business.

With respect to public participation in agenda items scheduled above, the following requirements shall apply:

(a) Persons wishing to submit written statements on those agenda items may do so by mailing 25 copies thereof, deposited, if possible, no later than June 1, 1975, to Mr. Ray Chapman, Mail Stop C-111, Energy Research and Development Administration, Washington, D.C. 20545. Minutes of the meeting will be kept open for 30 days for receipt of written statements for the record.

(b) Those persons submitting a written statement in accordance with (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement, and shall set forth reasons justifying the need for such oral statements and their usefulness to the seminar. To the extent that the time available for the meeting permits, the seminar will receive oral statements during a period of not more than 30 minutes at an appropriate time, chosen by the Chairman.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Seminar, who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid

telephone call to Mrs. Barbara Moyers at 301-973-3138.

(e) Seating for the public will be made available on a first-come, first-served basis, subject to space limitations.

(f) Copies of minutes of the sessions will be made available for copying, at the Energy Research and Development Administration's Public Document Room, 1717 H Street, NW., Washington, D.C., upon payment of all charges required by law.

Individuals who wish to attend the Seminar should inform Mrs. Barbara Moyers, ERDA/ISA, by phone (301-973-3138) or by mail (Mail Stop C-111, Energy Research and Development Administration, Washington, D.C. 20545).

JAMES G. POOR,  
Director, Division of International  
Security Affairs.

[FR Doc.75-14265 Filed 5-29-75; 8:45 am]

#### FEDERAL COMMUNICATIONS COMMISSION

##### RADIO TECHNICAL COMMISSION FOR MARINE SCIENCES

###### Meetings

In accordance with Pub. L. 92-463, "Federal Advisory Committee Act," Radio Technical Commission for Marine Services (RTCM) meetings scheduled for the future are as follows:

Special Committee No. 66, "Receiver Standards for the Maritime Mobile Service", Notice of 32nd Meeting, Wednesday, June 17 & 18, 1975—9:30 a.m. (All-day meetings), Conference Room A205, 1229—20th Street, NW., Washington, D.C.

###### AGENDA

1. Call to Order; Chairman's report.  
2. Adoption of Agenda.  
3. Acceptance of Summary Records.  
4. Reports on Work Assignments.  
5. Continue preparation of SSB receiver standards.  
6. Discussion of problem areas.  
7. Solicitation of Work Assignments.  
8. Other business.  
9. Establishment of next meeting date.

H. R. Smith, Chairman, SC-66, ITT Mackay Marine, 441 U.S. Highway #1, Elizabeth, N.J. 07202. Phone: (201) 527-0300.

[SC-65]

###### SHIP RADAR

Members of Special Committee No. 65, "Ship Radar", Notice of 38th Meeting, Wednesday, June 18, 1975, 1:30 p.m., Conference Room 8210, 2025 M Street, NW., Washington, D.C.

Formal meeting schedule for SC-65 working groups, to be held at 8085 M Street NW., Washington, D.C.

Working group	Room	Date	Time
Collision avoidance (all day)	8210	June 17	9:30 a.m.
Reliability	8210	June 18	9:30 a.m.

\* If other working group meetings are scheduled, group members will be notified.

NOTE: Meeting room location is subject to change. Check at room 8210 first.

FEDERAL REGISTER, VOL. 40, NO. 105—FRIDAY, MAY 30, 1975

###### AGENDA

1. Call to Order; Chairman's Report; Adoption of Agenda.
2. Acceptance of SC-65 Summary Records; Appointment of Rapporteur. 14 May 1975; Paper 82-75/SC 65-188.
3. Progress Reports of Working Groups on: a. Collision Avoidance Systems; b. Reliability.
4. Organization of Working Group on Small Boat Radar Specifications (less than 150 gross tons).
5. Other business.
6. Establishment of next meeting date (Proposed July 16, 1975).
7. Transponder Specifications—Paper 109-74/SC 65-168.

Irvin Hurwitz, Chairman, SC-65, Federal Communications Commission, Washington, D.C. 20554. Phone: (202) 632-7197.

###### RTCM EXECUTIVE COMMITTEE

Notice of June Meeting, Thursday, June 19, 1975; 1:45 p.m., Conference Room 847, 1919 M Street, NW., Washington, D.C.

###### AGENDA

1. Call to Order; Chairman's Report.
2. Introduction of Attendees; Adoption of Agenda.
3. Approval of Minutes.
4. Committee Reports.
5. Status Reports on Other Committees.
6. Review of Terms of Reference for Special Committees.
7. Report on maritime satellite communications developments.
8. Report of Finance Committee.
9. Summary Reports and Announcements.
10. New business.
11. Establishment of next meeting date.

Agendas, working papers, and other appropriate documentation for each meeting are available at that meeting. Those desiring more specific information may contact either the designated Chairman or the RTCM Secretariat. (Phone: (202) 632-6490)

The RTCM has acted as a coordinator for maritime telecommunications since its establishment in 1947. Problems are studied by Special Committees and the final reports are approved by the RTCM Executive Committee. All RTCM meetings are open to the public.

To comply with the advance meeting notice requirements of Pub. L. 92-463, a comparatively long interval of time occurs between publication of this notice and the actual meetings. Consequently, there is no absolute certainty that the listed meeting room will be available on the day of the meeting. Those planning to attend any of the preceding listed meetings should report to the room listed in the notice. If a room substitution has been made, the new meeting room location will be posted at the room listed in this notice.

###### FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] VINCENT J. MULLINS,  
Secretary.

[FR Doc.75-14162 Filed 5-29-75; 8:45 am]

**FEDERAL ENERGY ADMINISTRATION  
ENERGY SUPPLY AND ENVIRONMENTAL COORDINATION ACT  
Intention To Issue Prohibition Orders to Certain Powerplants**

The Federal Energy Administration ("FEA") hereby gives notice of its intention to issue prohibition orders, pursuant to the authorities granted it by section 2 of the Energy Supply and Environmental Coordination Act of 1974 (ESECA) and in accordance with 10 CFR Parts 303 and 305, to the following powerplants:

Docket No.	Owner	Powerplant No.	Generating station	Location
OFU-052	Atlantic City Electric Co.	1	R. L. England	Beesleys Point, N.J.
OFU-053	do	2	do	do
OFU-054	Central Hudson Gas & Electric Corp.	3	Panaskammer	Roseton, N.Y.
OFU-055	do	1	do	do
OFU-056	Niagara Mohawk Power Co.	1	Albany	Bethlehem, N.Y.
OFU-057	do	2	do	do
OFU-058	do	3	do	do
OFU-059	do	1	do	do

FEA hereby also gives notice of the opportunity for oral and written presentation of data, views, and arguments on these proposed prohibition orders.

The proposed orders would prohibit the powerplants listed above from burning natural gas or petroleum products as their primary energy source.

Prior to issuance of a prohibition order to a powerplant, section 2 of ESECA requires that FEA make certain findings. FEA's initial conclusions with respect to, and rationale in support of, these findings are set out, with respect to each of the powerplants, at the conclusion of this notice. These findings and rationales may be amended as a result of written or oral comments received by FEA pursuant to this notice and other information available to FEA. The findings will be included, with any amendments, in a prohibition order when it is issued.

Upon conclusion of the proceedings described in this notice, FEA may determine to issue prohibition orders to some or all of the powerplants listed above. These prohibition orders will not become effective, however, (1) until either, (a) the Administrator of the Environmental Protection Agency ("EPA") notifies the FEA, in accordance with section 119(d) (1)(B) of the Clean Air Act, that the powerplant will be able on and after July 1, 1975, to burn coal and to comply with all applicable air pollution requirements without a compliance date extension under section 119, or (b) if no notification is given by EPA, the date that the Administrator of EPA certifies pursuant to section 119(d) (1)(B) of the Clean Air Act is the earliest date that the powerplant will be able to comply with all applicable air pollution requirements of section 119 of that Act; and (2) until FEA has considered the environmental impact of such order pursuant to § 305.9 of the FEA regulations that implement section 2 of ESECA and has served the affected powerplant a Notice of Effectiveness, as provided in §§ 303.10(b) and 303.37(b) of those regulations. The date the prohibition order will be effective will be stated in the Notice of Effectiveness.

The Notice of Effectiveness will contain a compliance schedule to insure that the powerplant will be able to comply with the prohibition of the burning of

natural gas or petroleum products as a primary energy source on the date the order becomes effective.

Public comment on the proposals to issue prohibition orders to the powerplants listed above is invited in the form of written and oral presentation of data, views and arguments. Comments should relate to individual docket numbers and should make clear to which docket number the individual comment is addressed.

Comments should address (1) the adequacy and validity of each of the proposed findings and the rationale in support of the findings; (2) the identification of any site-specific environmental impacts resulting from the proposed prohibition orders that were not identified or described in the Environmental Impact Statement (FES 75-1, dated April 25, 1975) for the FEA program to implement section 2 of ESECA; and (3) any other relevant aspects or impacts of the proposed prohibition order. With respect to comments regarding any impact on air quality that might result from a proposed prohibition order, however, it should be recognized that ESECA has assigned to EPA the primary responsibility for analyzing the effect of any such order on the Nation's air quality, and for determining the applicable air pollution requirements that apply to the powerplant that has been issued an order. It is expected that in almost every case, a powerplant to which a prohibition order is issued will be eligible to apply to EPA for a compliance date extension. In connection with that application, EPA must also provide an opportunity for written comment and oral presentation of data, views and arguments by interested persons. In addition, FEA will make a site-specific environmental analysis after the issuance of each order, but prior to service of the Notice of Effectiveness, and there will be an opportunity for public comment if the analysis indicates that significant site-specific impacts are likely to result from a prohibition order.

If oral presentation is to be made, it is requested that any detailed, technical data, views, and arguments be made in written comments submitted in support of the oral presentation, and that the oral presentation itself be a summary of those more detailed comments.

A public hearing on the proposed prohibition orders will be held beginning at 9:00 a.m., e.d.t., on June 10, 1975, in Room 305, 26 Federal Plaza, Duane and Broadway, New York, New York 10007, to receive oral presentation of data, views and arguments from interested persons. Any person who has an interest in the subject of the hearing, or who is a representative of a group or class or persons which has an interest in the subject of the hearing, may make a written request, or a verbal request if confirmed in writing, for an opportunity to make oral presentation. That request should be directed to Clifford Tomaszewski, Federal Energy Administration, Region II, 26 Federal Plaza, Room 3200, New York, New York 10007 (212) 264-4834 and must be received before 4:30 p.m. e.d.t., June 5, 1975. The request may be hand-delivered to Clifford Tomaszewski, FEA Region II, 26 Federal Plaza, Room 3200, New York, New York 10007 between the hours of 8:00 a.m. and 4:30 p.m. e.d.t., Monday through Friday. The person making the request should be prepared to describe the interest concerned; if appropriate, to state why he or she is a proper representative of a group or class of persons which has such an interest; and to give a concise summary of the proposed oral presentation and a phone number where he or she may be contacted through June 9, 1975. Each person selected to be heard will be so notified by the FEA by 4:30 p.m. e.d.t., June 6, 1975 and must submit a minimum of 20 copies of the statement to Clifford Tomaszewski, 26 Federal Plaza, Room 3200, New York, New York 10007 before 4:30 p.m., June 9, 1975.

The FEA reserves the right to limit the number of representatives of a particular group or class of persons to be heard at the hearing, to schedule their or other persons' presentations, and to establish the procedures governing the conduct of the hearing. The length of time allocated to each presentation may be limited, based on the number of persons requesting to be heard.

An FEA official will be designated to preside at the hearing. It will not be a judicial or evidentiary-type hearing. During an oral presentation, questions may be asked only by those conducting the hearing, and there will be no cross-examination of persons making oral presentations. At the conclusion of all initial oral presentations, each person who has made an oral statement will be given the opportunity, if he or she so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Any interested person may submit questions to be asked of any person making an oral presentation at the hearing to FEA Region II, Clifford Tomaszewski, 26 Federal Plaza, Room 3200, New York, New York 10007 before 9 a.m. e.d.t., June 10, 1975. Any person who makes an oral statement or any other person who wishes to ask a question at

the hearing may submit the questions, in writing, to the presiding officer. The FEA, or the presiding officer if the question is submitted at the hearing, will determine whether the question is relevant, and whether time limitations permit it to be presented for answer.

Any further procedural rules necessary for the proper conduct of the hearing will be announced by the presiding officer.

A transcript of the hearing will be made and the entire record of the hearing, including the transcript will be retained by the FEA and made available for inspection at the FEA Region II, Public Reading Room, Room 3200, 26 Federal Plaza, New York, New York 10007, and FEA Administrator's Reception Area, Room 3400, Federal Building, 12th and Pennsylvania Avenue, NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. Anyone may purchase a copy of the transcript from the reporter.

Interested persons are invited to submit written comments consisting of data, views or arguments with respect to the proposed prohibition order to Executive Communications, Federal Energy Administration, Box DD, Washington, D.C. 20461.

Comments should be identified on the outside of the envelope in which they are transmitted and on other documents submitted to FEA Executive Communications with the designation "Proposed Prohibition Order for the \_\_\_\_\_ Powerplant." Fifteen copies should be submitted.

All written comments received by 4:30 p.m., e.d.t., June 12, 1975, all oral presentations and all other relevant information submitted to or otherwise available to FEA will be considered by FEA prior to issuance of any prohibition order.

**Supplemental Comment Period.** To facilitate the submission of data, views and arguments to supplement either the oral presentation or written comments, FEA shall keep the record of the public hearing open for a period of 10 days from the first day of the public hearing. Such supplementary written data, views or arguments shall be filed with Executive Communications, Federal Energy Administration, Box DD, Washington, D.C. 20461. In the event that such supplementary data, views or argument can only be submitted by oral presentation, a verbal request for a conference, in accordance with 10 CFR § 303.171, shall be submitted to Clifford Tomaszewski, FEA Region II, 26 Federal Plaza, Room 3200, New York, New York 10007 (212) 264-4834. To ensure that FEA receives the transcript of such oral presentation before the record closes, any oral presentation must be made within 8 days from the first day of the public hearing.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, one copy only.

The FEA reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

## NOTICES

23523

The sections of ESECA that are relevant to the proposed prohibition orders are stated below:

**Sec. 1. Short-Title; Purpose.**

(b) The purposes of this Act are (1) to provide for a means to assist in meeting the essential needs of the United States for fuels, in a manner which is consistent, to the fullest extent practicable, with existing national commitments to protect and improve the environment . . . .

**Sec. 2. Coal Conversion and Allocation.**

(a) The Federal Energy Administrator:

(1) shall by order, prohibit any powerplant, and

(2) may, by order, prohibit any major fuel burning installation, other than a powerplant, from burning natural gas or petroleum products as its primary energy source, if the Federal Energy Administrator determines such powerplant or installation on the date of enactment of this Act [June 22, 1974] has the capability and necessary plant equipment to burn coal, and if the requirements of subsection (b) are met.

(b) The requirements referred to in subsection (a) are as follows:

(1) An order under subsection (a) may not be issued with respect to a powerplant or installation unless the Federal Energy Administrator finds (A) that the burning of coal by such plant or installation, in lieu of petroleum products or natural gas, is practicable and consistent with the purposes of this Act, (B) that coal and coal transportation facilities will be available during the period the order is in effect, and (C) in the case of a powerplant, that the prohibition under subsection (a) will not impair the reliability of service in the area served by such plant. Such an order shall be rescinded or modified to the extent the Federal Energy Administrator determines that any requirement described in subparagraph (A), (B), or (C) of this paragraph is no longer met; and such an order may at any time be modified if the Federal Energy Administrator determines that such order, as modified, complies with the requirements of this section.

(3) (A) Before issuing an order under subsection (a) which is applicable to a powerplant or installation after June 30, 1975 (or modifying an order to which paragraph (2) applies, so as to apply such order to a powerplant or installation after such date), the Federal Energy Administrator shall give notice to the public and afford interested persons an opportunity for oral and written presentations of data, views, and arguments.

(B) An order (or modification thereof) described in subparagraph (A) of this paragraph shall not become effective until (i) the Administrator of the Environmental Protection Agency notifies the Federal Energy Administrator under section 119(d) (1)(B) of the Clean Air Act that such plant or installation will be able on and after July 1, 1975, to burn coal and to comply with all applicable air pollution requirements without a compliance date extension under section 119 (c) of such Act, or (ii) if such notification is not given, the date which the Administrator of the Environmental Protection Agency certifies pursuant to section 119(d) (1)(B) of such Act is the earliest date that such plant or installation will be able to comply with all applicable requirements of such section 119. Such order (or modification) shall not be effective during any period certified by the Administrator of the Environmental Protection Agency under section 119(d) (3) (B) of such Act.

(e) For purposes of this section:

(1) The term "powerplant" means a fossil-fuel fired electric generating unit which produces electric power for purposes of sale or exchange.

(2) The term "coal" includes coal derivatives.

(f) (1) Authority to issue orders or rules under subsections (a) through (d) of this section shall expire at midnight, June 30, 1975. Such a rule or order may take effect at any time before January 1, 1979.

(2) Authority to amend, repeal, rescind, modify, or enforce such rules or orders shall expire at midnight, December 31, 1978; but the expiration of such authority shall not affect any administrative or judicial proceeding which relates to any act or omission which occurred prior to January 1, 1979.

Copies of the FEA regulations implementing section 2 of ESECA (10 CFR, Parts 303, 305 and 307) are available from the FEA Regional Office, 26 Federal Plaza, Room 3200, New York, New York 10007, (212) 264-4834.

Any questions regarding this notice should be directed to Clifford Tomaszewski, FEA Region II, 26 Federal Plaza, Room 3200, New York, New York 10007, (212) 264-4834.

(Energy Supply and Environmental Coordination Act of 1974 (Pub. L. 93-319); Federal Energy Administration Act of 1974 (Pub. L. 93-275); EO 11790 (39 FR 23185))

Issued in Washington, D.C., May 23, 1975.

ROBERT E. MONTGOMERY, Jr.,  
General Counsel,  
Federal Energy Administration.

1. OFU-052, 053, Atlantic City Electric Company, Powerplants 1 and 2, Generating Station—B.L. England, Beesleys Point, New Jersey—(a) Proposed findings and rationale for findings:

1. *Capability and Necessary Plant Equipment Finding.* Based on an analysis of the information submitted to or otherwise available to FEA, FEA proposes to find that on June 22, 1974, these powerplants had the capability and necessary plant equipment to burn coal. This proposed finding is based on facts, interpretations and assumptions stated below:

(A) These powerplants had in place on June 22, 1974, a boiler that was capable of burning coal, in that such boiler had been designed and constructed, or had been modified to enable it to burn coal as its primary energy source, or to burn coal and another fossil fuel interchangeably as its primary energy source, notwithstanding the fact that on June 22, 1974, such powerplants may not have been burning coal as its primary energy source.

(B) Based on information filed with FEA on April 10, 1975 by the Atlantic City Electric Company, the following significant equipment or facilities would have to be acquired or substantially refurbished:

1. Thawing shed system;
2. Sludge water system;
3. Slag pond.

FEA assumes that on June 22, 1974, these powerplants had all other significant equipment and facilities associated with the burning of coal.

(C) Within the meaning of ESECA and the regulations promulgated pursuant thereto, the equipment and facilities listed in paragraph (b) do not individually or in combination constitute a lack of capability and necessary plant equipment to burn coal as of June 22, 1974.

(ii) *Burning of coal in lieu of natural gas or petroleum products is practicable and consistent with the purposes of ESECA.* Based on an analysis of the information submitted or otherwise available to FEA, FEA proposes to find that the burning of coal by the powerplants, in lieu of petroleum products or natural gas, is practicable and consistent with the purposes of ESECA. This proposed finding is based on the facts, interpretations and assumptions stated below.

(A) (1) *Revenue Requirements.* (a) The investments costs that result from the acquisition and refurbishment of equipment and facilities associated with the burning of coal by the powerplants are estimated to be approximately \$3,240,000. This estimate is based on existing FEA information and on information filed with the FEA by the company concerning items of equipment and facilities that would have to be acquired or refurbished and the costs of such acquisition or refurbishment.

(i) Costs of acquisition or refurbishing equipment are allocated as follows:

(A) \$3,000,000 to comply with air pollution control requirements of the Clean Air Act.

(B) \$240,000 to make those technical plant and equipment adjustments associated with the burning of coal, as well as to comply with environmental requirements other than those imposed by the Clean Air Act.

(b) The increase in operating costs other than fuel costs that result from the burning of coal are estimated to be approximately \$814,000 per year.

(c) (i) The price of petroleum products available to the powerplants is approximately \$2.10 to \$2.20 per million Btus. The price of coal of the type used by the powerplants is approximately \$1.25 to \$1.35 per million Btus. The burning of coal by the powerplants will result in a reduction of \$.75 to \$.95 per million Btus or \$11 million to \$14 million per year.

(ii) The New Jersey Public Utility Commission permits the inclusion of increased fuel costs in the rate base through a fuel adjustment clause and, if there is a decrease in the cost of fuel as a result of burning coal, there will be a decrease in such rate base.

(d) The total annual incremental increase in revenue requirements resulting from costs associated with burning coal as opposed to oil is \$1,513,000.

(2) *Financial Capabilities.* (a) Based on the most recent financial statements and capital expenditure programs of the Atlantic City Electric Company, as well as other information available to FEA, it has been determined that the prohibition order for the company is practicable. This financial assessment included an evaluation of generally accepted finan-

cial ratios; effects on capitalization as a result of the costs of burning of coal; impact on current and future construction programs; and possible impacts on rates. This assessment incorporated, but was not limited to, consideration of: the \$3.2 million investment requirement (or .6%) in relation to net property and plant of the company of \$523 million and 1975-1977 construction budget of the company of \$185 million (or 1.8%); the total capitalization of the company of \$517 million; the change in 1974 to 1975 construction budgets of \$60.5 million to \$50 million and the 24 years remaining useful life of the plant. These assessments, the above findings, and other evaluations of the general financial health of the company were the basis of this finding.

(B) Because of this prohibition order will discourage the use of natural gas or petroleum products and encourage the increased use of coal, FEA proposed to find that its issuance will be consistent with the purpose of ESECA "to provide a means to assist in meeting the essential needs of the United States for fuels." Further, on the basis of the environmental analyses conducted by FEA, the analyses of air quality impacts which EPA is required to conduct prior to effectiveness of a prohibition order, as well as the necessity for the powerplants to comply with the Clean Air Act and other applicable environmental protection requirements, FEA proposes to find that the prohibition order is also consistent with the purpose of ESECA to provide for a means to meet the Nation's essential fuel needs "in a manner which is consistent, to the fullest extent practicable, with existing national commitments to protect and improve the environment."

(iii) *Coal and coal transportation facilities will be available during the period the prohibition order is in effect.* Based on an analysis of the information submitted to or otherwise available to FEA, FEA proposes to find that coal and coal transportation facilities will be available to these powerplants during the period until December 31, 1978. The period until December 31, 1978 is the period during all or part of which the prohibition order to which these findings relate will be in effect. This proposed finding is based upon the following facts, interpretations and assumptions:

A(1) It is estimated that it will be practicable to produce coal nationally as follows:

Year:	Production (million tons)
1975	662
1976	679
1977	707
1978	735

(2) The estimated national demand, excluding any increased demand resulting from FEA action under the authority of section 2 of ESECA, is as follows:

Year:	Demand (million tons)
1975	640
1976	664
1977	688
1978	716

(3) The estimated additional national demand for coal resulting from the prohibition order to which this finding relates, and from FEA actions under authority of section 2 of ESECA, will be as follows:

Year:	Demand (million tons)
1975	0.7
1976	4.0
1977	13.6
1978	16.2

(4) Coal of the specific type required for use by this powerplant has been identified in the reserves of the Northern and Southern Appalachian coal supply regions, which consist of Bureau of Mines Districts 1 through 8 and 13.

(5) It is estimated that it will be practicable to produce coal from the Northern and Southern Appalachian coal supply regions as follows:

Year:	Production (million tons)
1975	406
1976	402
1977	407
1978	412

(6) The regional and national production estimates stated in items (1) and (5) assume a surge capacity, or ability to increase production over normal levels, of approximately 4%. A 1975 study by the Bureau of Mines of the Department of the Interior indicates a national surge capacity of approximately 6%. In response to an industry survey in late 1974, the coal industry itself indicated that it had a surge capacity of up to 8%. By comparison, the increased national demand for coal resulting from the prohibition order to which this finding relates and other FEA actions under section 2 of ESECA, is less than one tenth of a percent in 1975, increasing to a maximum of 2.3% in 1978 of estimated national demand stated in item (2). A market survey of traditional coal suppliers to FEA Region II consumers indicates that there is ample production capability to support increased demand for coal from this region resulting from the prohibition order to which this finding relates and other FEA actions under section 2 of ESECA.

(7) No State or local laws or policies which would limit the extraction of this coal have been found by FEA or brought to FEA's attention.

(8) The estimated demand for coal from these supply regions, excluding any increased demand resulting from FEA actions under the authority of section 2 of ESECA, is as follows:

Year:	Demand (million tons)
1975	390
1976	394
1977	395
1978	398

(9) The estimated additional demand for coal from these supply regions resulting from the prohibition order to which this finding relates and from other FEA orders under section 2 of ESECA, will be as follows:

Year:	Demand (million tons)
1975	0.4
1976	2.5
1977	10.2
1978	12.4

(10) On the basis of the above information, FEA proposes to find that the estimated production of coal of the specific type required for use by this powerplant exceeds the estimated demand for such coal by amounts adequate to support a conclusion that such coal will be available to these powerplants during the period until December 31, 1978.

B(1) Adequate rail facilities exist between these coal supply regions and the powerplants to transport the coal that will be used by such powerplants pursuant to this order.

(2) There is a spur line which will be able to deliver this coal from the main rail line to these powerplants.

(3) Sufficient rolling stock will be available to the Pennsylvania Reading Seashore Lines for transporting this coal during the period until December 31, 1978.

(iv) *The prohibition of the burning of natural gas or petroleum products as its primary energy source will not impair the reliability of service in the area served by the affected powerplants.* Based on an analysis of the information submitted to or otherwise available to FEA, and after consultation with the Federal Power Commission, FEA hereby proposes to find that the prohibition of the B. L. England Station #1 and #2 powerplants of the Atlantic City Electric Company from burning natural gas or petroleum products as their primary energy source will not impair the reliability of service in the area served by these powerplants. This finding will be based on the facts, assumptions and interpretation stated below:

(A) (1) *Interconnections and Power Dispatching.* (a) The England Station powerplants are within the geographical area of the Mid-Atlantic Area Council (MAAC) regional electrical reliability council.

(b) They are interconnected with and their operations and planning are coordinated with the Pennsylvania-New Jersey-Maryland (PJM) power pool.

(c) Dispatching of electric power is controlled by PJM.

(2) The subject powerplants now use coal on a regular basis.

(3) No reconversion or outage time for reconversion is necessary.

(B) For the reasons set forth above, the FEA finds that the burning of coal by England Station #1 and #2 powerplants in lieu of petroleum products or natural gas will not result in the impairment of the reliability of service in the meaning of ESECA in the area served by the powerplants.

2. OFU-054, 055, Central Hudson Gas and Electric Corporation, Powerplants 3 and 4, Generating Station—Danskammer, Roseton, New York.—(a) Proposed findings and rationale for findings:

1. *Capability and Necessary Plant Equipment Finding.* Based on an analysis of the information submitted to or

otherwise available to FEA, FEA proposes to find that on June 22, 1974, these powerplants had the capability and necessary plant equipment to burn coal. This proposed finding is based on facts, interpretations and assumptions stated below:

(A) These powerplants had in place on June 22, 1974, a boiler that was capable of burning coal, in that such boiler had been designed and constructed, or had been modified to enable it to burn coal as its primary energy source, or to burn coal and another fossil fuel interchangeably as its primary energy source, notwithstanding the fact that on June 22, 1974, such powerplants may not have been burning coal as their primary energy source.

(B) Based on information filed with FEA on April 11, 1975 by the Central Hudson Gas and Electric Corporation, the following significant equipment or facilities would have to be acquired or substantially refurbished:

1. Coal handling system;
2. Boiler auxiliaries;
3. Instruments and controls;
4. Ash handling system;
5. Electrical equipment.

FEA assumes that on June 22, 1974, these powerplants had all other significant equipment and facilities associated with the burning of coal.

(C) Within the meaning of ESECA and the regulations promulgated pursuant thereto, the equipment and facilities listed in paragraph (b) do not individually or in combination constitute a lack of capability and necessary plant equipment to burn coal as of June 22, 1974.

(ii) *Burning of coal in lieu of natural gas or petroleum products is practicable and consistent with the purposes of ESECA.* Based on an analysis of the information submitted or otherwise available to FEA, FEA proposes to find that the burning of coal by the powerplants, in lieu of petroleum products or natural gas, is practicable and consistent with the purposes of ESECA. This proposed finding is based on the facts, interpretations and assumptions stated below.

(A) (1) *Revenue Requirements.* (a) The investment costs that result from the acquisition and refurbishment of equipment and facilities associated with the burning of coal by the powerplants are estimated to be approximately \$20,000,000. This estimate is based on existing FEA information and on information filed with the FEA by the powerplant concerning items of equipment and facilities that would have to be acquired or refurbished and the costs of such acquisition or refurbishment.

(i) Costs of acquisition or refurbishing equipment are allocated as follows:

(A) \$6,280,000 to comply with air pollution control requirements of the Clean Air Act.

(B) \$13,720,000 to make those technical plant and equipment adjustments associated with the burning of coal, as well as to comply with environmental requirements other than those imposed by the Clean Air Act.

(b) The increase in operating costs other than fuel costs that result from

the burning of coal are estimated to be approximately \$100,000 per year.

(c) (i) The price of petroleum products available to the powerplants is approximately \$1.85 to \$1.95 per million BTUs. The price of coal of the type used by the powerplants is approximately \$1.75 to \$1.85 per million BTUs. The burning of coal by the powerplants will result in a reduction of \$.00 to \$.20 per million BTUs or 0 to \$1.5 million per year.

(ii) The New York Public Utility Commission permits the inclusion of increased fuel costs in the rate base through a fuel adjustment clause and, if there is a decrease in the cost of fuel as a result of burning coal, there will be a decrease in such rate base.

(d) The total annual incremental increase in revenue requirements resulting from costs associated with burning coal as opposed to oil is \$5,086,000.

(2) *Financial Capabilities.* (a) Based on the most recent financial statements and capital expenditure programs of Central Hudson Gas and Electric Corporation, as well as other information available to FEA, it has been determined that the prohibition order for the powerplants is practicable. This financial assessment included an evaluation of generally accepted financial ratios; effects on capitalization as a result of the costs of burning coal; impact on current and future construction programs; and possible impacts on rates. This assessment incorporated, but was not limited to, consideration of: the \$20 million investment requirement (or 6.2%) in relation to net property and plant of the company of \$324 million and 1975-1977 construction budget of the company of \$50 million (or 40%); the total capitalization of the company of \$306 million; the change in 1974 to 1975 construction budgets of \$23.8 million to \$14 million and the 11 years remaining useful life of the plant. These assessments, the above findings, and other evaluations of the general financial health of the company were the basis of this finding.

(B) Because this prohibition order will discourage the use of natural gas or petroleum products and encourage the increased use of coal, FEA proposes to find that its issuance will be consistent with the purpose of ESECA "to provide a means to assist in meeting the essential needs of the United States for fuels."

Further, on the basis of the environmental analyses conducted by FEA, the analyses of air quality impacts which EPA is required to conduct prior to effectiveness of a prohibition order, as well as the necessity for the powerplants to comply with the Clean Air Act and other applicable environmental protection requirements, FEA proposes to find that the prohibition order is also consistent with the purpose of ESECA to provide for a means to meet the nation's essential fuel needs "in a manner which is consistent, to the fullest extent practicable, with existing national commitments to protect and improve the environment."

(iii) *Coal and coal transportation facilities will be available during the period the prohibition order is in effect.* Based on an analysis of the information sub-

mitted to or otherwise available to FEA. FEA proposes to find that coal and coal transportation facilities will be available to these powerplants during the period until December 31, 1978. The period until December 31, 1978 is the period during all or part of which the prohibition order to which these findings relate will be in effect. This proposed finding is based upon the following facts, interpretations and assumptions:

(A) It is estimated that it will be practicable to produce coal nationally as follows:

Year:	Production (million tons)
1975	682
1976	679
1977	707
1978	735

(2) The estimated national demand, excluding any increased demand resulting from FEA action under the authority of section 2 of ESECA, is as follows:

Year:	Demand (million tons)
1975	640
1976	664
1977	688
1978	716

(3) The estimated additional national demand for coal resulting from the prohibition order to which this finding relates, and from FEA actions under authority of section 2 of ESECA, will be as follows:

Year:	Demand (million tons)
1975	0.7
1976	4.0
1977	13.6
1978	16.2

(4) Coal of the specific type required for use by this powerplant has been identified in the reserves of the Northern and Southern Appalachian coal supply regions, which consist of Bureau of Mines Districts 1 through 8 and 13.

(5) It is estimated that it will be practicable to produce coal from the Northern and Southern Appalachian coal supply regions as follows:

Year:	Production (million tons)
1975	406
1976	402
1977	407
1978	412

(6) The regional and national production estimates stated in items (1) and (5) assume a surge capacity, or ability to increase production over normal levels, of approximately 4%. A 1975 study by the Bureau of Mines of the Department of the Interior indicates a national surge capacity of approximately 6%. In response to an industry survey in late 1974, the coal industry itself indicated that it had a surge capacity of up to 8%. By comparison, the increased national demand for coal resulting from the prohibition order to which this finding relates and other FEA actions under section 2 of ESECA, is less than one tenth of a percent in 1975, increasing to a maximum of 2.3% in 1978 of estimated national demand stated in item (2). A

market survey of traditional coal suppliers to FEA Region II consumers indicates that there is ample production capability to support increased demand for coal from this region resulting from the prohibition order to which this finding relates and other FEA actions under section 2 of ESECA.

(7) No State or local laws or policies which would limit the extraction of this coal have been found by FEA or brought to FEA's attention.

(8) The estimated demand for coal from these supply regions, excluding any increased demand resulting from FEA actions under the authority of section 2 of ESECA, is as follows:

Year:	Demand (million tons)
1975	390
1976	394
1977	395
1978	398

(9) The estimated additional demand for coal from these supply regions resulting from the prohibition order to which this finding relates and from other FEA orders under section 2 of ESECA, will be as follows:

Year:	Demand (million tons)
1975	0.4
1976	2.5
1977	10.2
1978	12.4

(10) On the basis of the above information, FEA proposes to find that the estimated production of coal of the specific type required for use by this powerplant exceeds the estimated demand for such coal by amounts adequate to support a conclusion that such coal will be available to these powerplants during the period until December 31, 1978.

(B) Adequate rail facilities exist between these coal supply regions and the powerplants to transport the coal that will be used by such powerplants pursuant to this order.

(2) The main rail line will be able to deliver this coal to these powerplants.

(3) Sufficient rolling stock will be available to the Penn Central for transporting this coal during the period until December 31, 1978.

(iv) The prohibition of the burning of natural gas or petroleum products as its primary energy source will not impair the reliability of service in the area served by the affected powerplants. Based on an analysis of the information sub-

mitted to or otherwise available to FEA, and after consultation with the Federal Power Commission, FEA hereby proposes to find that the prohibition of the Danskammer Units #3 and #4 powerplants of the Central Hudson Gas and Electric Corporation from burning natural gas or petroleum products as their primary energy source will not impair the reliability of service in the area served by such powerplants. Such finding will be based on the facts, assumptions and interpretations stated below:

(A) (1) *Interconnections and Power Dispatching.* (a) The Danskammer Units are within the geographical area of the Northeast Power Coordinating Council (NPCC) regional electrical reliability council.

(b) They are interconnected with and their operations and planning are coordinated with the New York Power Pool.

(c) Dispatching of electric power is controlled by New York Power Pool.

(d) "Dispatching system" as used later in this finding means New York Power Pool.

(2) *Forecast Peak Loads.* (a) Forecast of peak loads for the dispatching system during the 15 months in which the Central Hudson Gas and Electric Corporation is expected to be implementing the proposed prohibition order is as follows:

Year:	Demand (million tons)
1975	0.4
1976	2.5
1977	10.2
1978	12.4

(b) The peak loads forecast have been compared with peak loads in previous similar periods and the compound load growth rate for these forecasts is 5%, which is considered reasonable.

(3) *Capacity.* (a) The present net dependable capacity of all powerplants of the dispatching system that now are engaged in the sale or exchange of electric power is 28099 MWe.

(b) Additions, retirements, and powerplant reratings during the period in which Central Hudson Gas and Electric Corporation will be implementing the proposed prohibition order, as listed below, will cause the following changes in net dependable capacity of such dispatching system:

Powerplant designation	Fuel	Type of change	Capacity change	Status and effective date
Indian Point No. 3	Nuclear	Addition	+873	Under construction, commercial operation January 1976.
Oswego No. 5	Oil	do	+500	Under construction, commercial operation July 1976.
Asteria No. 6	do	do	+500	Under construction, commercial operation August 1976.
Waterside (No. 10 No. 13)	do	Derating	-100 Summer	Dec. 31, 1976.
Hudson Avenue (No. 2 and No. 3)	do	do	-34 Winter	Dec. 31, 1976.
Indian Point No. 1	Nuclear	Rerating	+257 Summer	May 1977.
Northport No. 4	Oil	Addition	+386	Under construction, commercial operation May 1977.
Homer City No. 3	Coal	do	+328	Under construction, commercial operation November 1977.

(4) *Scheduled Outages.* (a) A scheduled outage of 2 months for Unit #4 commencing September 1, 1976 and 12 months for Unit #3 commencing December 1, 1976 is estimated to be required to make any modification, installation or other physical adjustment associated with cessation of the burning of natural gas or petroleum products as the powerplant's primary energy source. Immediately following modification during on-line testing and adjustment, the powerplant will be less than fully dependable. This period should not exceed 30 days.

Modifications are forecast to commence approximately September 1, 1976, and to be complete and fully tested by January 1, 1978.

(b) Planned maintenance of other powerplants rated 100 MWe or higher and nuclear plant refueling during the period the powerplant will be implementing the proposed prohibition order within the dispatching system will result in the loss of generating capability which is expected to average the listed values during the specified load periods.

Fall, 2400 MWe  
Winter, 1780 MWe  
Spring, 3740 MWe  
Summer, 540 MWe

(5) *Net Dependable Capacity.* The forecast net dependable capacity for the dispatching system during the period (shown as quarter years) in which the powerplant is expected to be implementing the proposed prohibition order.

Fall 1976, 31032 MWe  
Winter 1976-77, 31028 MWe  
Spring 1977, 31536 MWe  
Summer 1977, 31235 MWe  
Fall 1977, 31658 MWe

(6) *Gross Reserve Margin-Dispatching System.* (a) The expected minimum gross reserve margin (difference between net system capability and peak load in percent of peak load) of the dispatching system for the load periods specified are as follows:

Fall 1976, 44.9%  
Winter 1976-77, 54.4%  
Spring 1977, 68.1%  
Summer 1977, 33.9%  
Fall 1977, 41.2%

(b) After deducting the net capacity of units scheduled for maintenance or refueling during these same load periods, the expected minimum reserve margins are:

Fall 1976, 33.7%  
Winter 1976-77, 45.6%  
Spring 1977, 48.2%  
Summer 1977, 31.6%  
Fall 1977, 30.5%

(7) *Derating.* There will be no derating of the powerplant when using coal as the primary energy source.

(8) *System Stability.* Available information regarding system stability for the dispatching system has been evaluated for each of the load periods stated in paragraph (5) and the issuance of a prohibition order to the powerplant will not cause a significant system stability problem.

(B) *Reliability of Service.* (1) The estimated gross reserve margin of the

dispatching system during the implementation period associated with the commencement of the burning of coal as a primary energy source is forecast to range between 30.5% and 48.2%, depending upon the date of the period of powerplant outage. The Federal Power Commission considers these to be acceptable reserve margins.

(2) If dispatching system conditions at the time of the implementation period are as presently forecast by FEA in this finding, there will be no impairment of reliability of service, within the meaning of ESECA and the regulations promulgated thereunder, in the area served by Central Hudson Gas and Electric Corporation.

(3) Existing transmission system interconnections with other utilities are presently scheduled to transfer approximately 100 megawatts into the dispatching system; with the capacity to transfer approximately 1000 additional megawatts of power into the dispatching system. This capacity will provide an emergency resource of electric power during the implementation period and will enhance the reliability of service.

3. OFU-056-059, Niagara Mohawk Power Company, Powerplants 1, 2, 3, and 4, Generating Station-Albany, Bethlehem, New York.—(a) Proposed findings and rationale for findings:

1. *Capability and Necessary Plant Equipment Finding.* Based on an analysis of the information submitted to or otherwise available to FEA, FEA proposes to find that on June 22, 1974, these powerplants had the capability and necessary plant equipment to burn coal. This proposed finding is based on facts, interpretations and assumptions stated below:

(A) These powerplants had in place on June 22, 1974, a boiler that was capable of burning coal, in that such boiler had been designed and constructed, or had been modified to enable it to burn coal as its primary energy source, or to burn coal and another fossil fuel interchangeably as its primary energy source, notwithstanding the fact that on June 22, 1974, such powerplants may not have been burning coal as its primary energy source.

(B) Based on information filed with FEA on April 10, 1975 by the Niagara Mohawk Power Corporation, the following significant equipment or facilities would have to be acquired or substantially refurbished:

1. Car dumper;
2. Bradford breaker;
3. Coal scale belts;
4. Coal gates to scales;
5. Yard railroad;
6. Boiler air heater elements;
7. Slag lines—ash handling;
8. Bulldozer.

FEA assumes that on June 22, 1974, these powerplants had all other significant equipment and facilities associated with the burning of coal.

(C) Within the meaning of ESECA and the regulations promulgated pursuant thereto the equipment and facilities listed in paragraph (b) do not in-

dividually or in combination constitute a lack of capability and necessary plant equipment to burn coal as of June 22, 1974.

(ii) *Burning of coal in lieu of natural gas or petroleum products is practicable and consistent with the purposes of ESECA.* Based on an analysis of the information submitted or otherwise available to FEA, FEA proposes to find that the burning of coal by the powerplants, in lieu of petroleum products or natural gas, is practicable and consistent with the purposes of ESECA. This proposed finding is based on the facts, interpretations and assumptions stated below.

(A) (1) *Revenue Requirements.* (a) The investment costs that result from the acquisition and refurbishment of equipment and facilities associated with the burning of coal by the powerplants are estimated to be approximately \$9,000,000. This estimate is based on existing FEA information and on information filed with the FEA by the company concerning items of equipment and facilities that would have to be acquired or refurbished and the costs of such acquisition or refurbishment.

(i) Costs of acquisition or refurbishment equipment are allocated as follows:

(A) \$8,000,000 to comply with air pollution control requirements of the Clean Air Act.

(B) \$1,000,000 to make those technical plant and equipment adjustments associated with the burning of coal, as well as to comply with environmental requirements other than those imposed by the Clean Air Act.

(b) The increase in operating costs other than fuel costs that result from the burning of coal are estimated to be approximately \$730,000 per year.

(c) (i) The price of petroleum products available to the powerplants is approximately \$1.60 to \$1.70 per million Btus. The price of coal of the type used by the powerplants is approximately \$1.60 to \$1.70 per million Btus. The burning of coal by the powerplants will result in no net change in their annual fuel costs.

(ii) The New York Public Utility Commission permits the inclusion of increased fuel costs in the rate base through a fuel adjustment clause and, if there is a decrease in the cost of fuel as a result of burning coal, there will be a decrease in such rate base.

(d) The total annual incremental increase in revenue requirements resulting from costs associated with burning coal as opposed to oil is \$3,141,000.

(2) *Financial Capabilities.* (a) Based on the most recent financial statements and capital expenditure programs of the Niagara Mohawk Power Corporation, as well as other information available to FEA, it has been determined that the prohibition order for the company is practicable. This financial assessment included an evaluation of generally accepted financial ratios; effects on capitalization as a result of the costs of burning of coals; impact on current and future construction programs; and possible impacts on rates. This assessment incorporated, but was not limited to,

consideration of: the \$9 million investment requirement (or 4%) in relation to net property and plant of the company of \$2.27 billion and 1975-1977 construction budget of the company of \$1 billion (or 9%); the total capitalization of the company of \$2.1 billion; the change in 1974 to 1975 construction budgets of \$267 to \$208 million and the 14 years remaining useful life of the plant. These assessments, the above findings, and other evaluations of the general financial health of the company were the basis of this finding.

(B) Because this prohibition order will discourage the use of natural gas or petroleum products and encourage the increased use of coal, FEA proposed to find that its issuance will be consistent with the purpose of ESECA "to provide a means to assist in meeting the essential needs of the United States for fuels." Further, on the basis of the environmental analyses conducted by FEA, the analyses of air quality impacts which EPA is required to conduct prior to effectiveness of a prohibition order, as well as the necessity for the powerplants to comply with the Clean Air Act and other applicable environmental protection requirements, FEA proposes to find that the prohibition order is also consistent with the purpose of ESECA to provide for a means to meet the Nation's essential fuel needs "in a manner which is consistent, to the fullest extent practicable, with existing national commitments to protect and improve the environment."

(iii) Coal and coal transportation facilities will be available during the period the prohibition order is in effect. Based on an analysis of the information submitted to or otherwise available to FEA, FEA proposes to find that coal and coal transportation facilities will be available to these powerplants during the period until December 31, 1978. The period until December 31, 1978 is the period during all or part of which the prohibition order to which these findings relate will be in effect. This proposed finding is based upon the following facts, interpretations and assumptions:

A(1) It is estimated that it will be practicable to produce coal nationally as

Year:	Production (million tons)
1975	682
1976	679
1977	707
1978	735

(2) The estimated national demand, excluding any increased demand resulting from FEA action under the authority of section 2 of ESECA, is as follows:

Year:	Demand (million tons)
1975	640
1976	664
1977	688
1978	716

(3) The estimated additional national demand for coal resulting from the prohibition order to which this finding relates, and from FEA actions under authority of section 2 of ESECA, will be as follows:

Year:	Demand (million tons)
1975	0.7
1976	4.0
1977	13.6
1978	16.2

(4) Coal of the specific type required for use by this powerplant has been identified in the reserves of the Northern and Southern Appalachian Coal supply regions, which consist of Bureau of Mines Districts 1 through 8 and 13.

(5) It is estimated that it will be practicable to produce coal from the Northern and Southern Appalachian coal supply regions as follows:

Year:	Production (million tons)
1975	406
1976	402
1977	407
1978	412

(6) The regional and national production estimates stated in items (1) and (5) assume a surge capacity, or ability to increase production over normal levels, of approximately 4%. A 1975 study by the Bureau of Mines of the Department of the Interior indicate a national surge capacity of approximately 6%. In response to an industry survey in late 1974, the coal industry itself indicated that it had a surge capacity of up to 8%. By comparison, the increased national demand for coal resulting from the prohibition order to which this finding relates and other FEA actions under section 2 of ESECA, is less than one tenth of a percent in 1975, increasing to a maximum of 2.3% in 1978 of estimated national demand stated in item (2). A market survey of traditional coal suppliers to FEA Region II consumers indicates that there is ample production capability to support increased demand for coal from this region resulting from the prohibition order to which this finding relates and other FEA actions under section 2 of ESECA.

(7) No State or local laws or policies which would limit the extraction of this coal have been found by FEA or brought to FEA's attention.

(8) The estimated demand for coal from these supply regions, excluding any increased demand resulting from FEA actions under the authority of section 2 of ESECA, is as follows:

Year:	Demand (million tons)
1975	390
1976	394
1977	395
1978	398

(9) The estimated additional demand for coal from these supply regions resulting from the prohibition order to which this finding relates and from other FEA orders under section 2 of ESECA, will be as follows:

Year:	Demand (million tons)
1975	0.4
1976	2.5
1977	10.2
1978	12.4

(10) On the basis of the above information, FEA proposes to find that the

estimated production of coal of the specific type required for use by this powerplant exceeds the estimated demand for such coal by amounts adequate to support a conclusion that such coal will be available to these powerplants during the period until December 31, 1978.

B(1) Adequate rail facilities exist between these coal supply regions and the powerplants to transport the coal that will be used by such powerplants pursuant to this order.

(2) There is a spur line which will be able to deliver this coal from the main rail line to these powerplants.

(3) Sufficient rolling stock will be available to the Monongahela Connecting Railroad Company, Baltimore & Ohio Railroad, the Penn Central, the Pittsburgh & Shawmut Railroad, the Louisville & Nashville Railroad, or the Norfolk and Western Railway for transporting this coal during the period until December 31, 1978.

(iv) The prohibition of the burning of natural gas or petroleum products as its primary energy source will not impair the reliability of service in the area served by the affected powerplants. Based on an analysis of the information submitted to or otherwise available to FEA, and after consultation with the Federal Power Commission FEA proposes to find that the prohibition of the Albany #1, #2, #3 and #4 powerplants of the Niagara-Mohawk Power Company from burning natural gas or petroleum products as their primary energy source will not impair the reliability of service in the area served by such powerplants. Such finding will be based on the facts, assumptions and interpretations stated below:

(A) (1) *Interconnections and Power Dispatching.* (a) The Albany Units are within the geographical area of the Northeast Power Coordinating Council (NPCC) regional electric reliability council.

(b) They are interconnected with and their operations and planning are coordinated with the New York Power Pool.

(c) Dispatching of electric power is controlled by New York Power Pool.

(d) "Dispatching system" as used later in this finding means New York Power Pool.

(2) *Forecast Peak Loads.* (a) Forecast of peak loads for the dispatching system during the year in which the Niagara-Mohawk Power Company is expected to be implementing the proposed prohibition order is as follows:

Winter Load Period (Dec.-Feb.) 1975-76, Peak 19130 MWe Dec.  
Spring Load Period (March-May) 1976, Peak 17940 MWe May  
Summer Load Period (June-Aug.) 1976, Peak 22180 MWe July  
Fall Load Period (Sept.-Nov.) 1976, Peak 21410 MWe Sept.

(b) The peak loads forecast have been compared with peak loads in previous similar periods and the compound load growth rate for these forecasts is 5%, which is considered reasonable.

(3) *Capacity.* (a) The present net dependable capacity of all powerplants of the dispatching system that now are engaged in the sale or exchange of electric power is 28099 MWe.

(b) Additions, retirements, and power-

plant reratings during the period in which Niagara-Mohawk Power Company will be implementing the proposed prohibition order, as listed below, will cause the following changes in net dependable capacity of such dispatching system:

Powerplant designation	Fuel	Type of change	MWe capacity change	Status and effective date
Indian Point No. 3	Nuclear	Addition	+873	Under construction, commercial operation January 1976.
Oswego No. 5	Oil	do	+200	Under construction, commercial operation July 1976.
Astoria No. 6	do	do	+800	Under construction, commercial operation August 1976.

(4) *Scheduled Outages.* (a) A scheduled outage of 3 weeks for Unit #1, 2 weeks for Unit #2, 2 weeks for Unit #3, and 2 weeks for Unit #4 is estimated to be required to make any modification, installation or other physical adjustment associated with cessation of the burning of natural gas or petroleum products as the powerplants primary energy source. Immediately following modification during on-line testing and adjustment, each powerplant will be less than fully dependable. This period should not exceed 30 days.

Modifications are forecast to commence approximately February 1, 1976, and to be complete and fully tested by August 1, 1976.

(b) Planned maintenance of other powerplants and nuclear plant refueling during the period the powerplants will be implementing the proposed prohibition order within the dispatching system will result in the loss of generation capability which is expected to average the listed values during the specified load periods:

Winter Load Period, 2000 MWe  
Spring Load Period, 3400 MWe  
Summer Load Period, 500 MWe

(5) *Net Dependable Capacity.* The forecast net dependable capacity for the dispatching system during the period (shown as quarter years) in which the powerplants are expected to be implementing the proposed prohibition order and the next quarter following is:

Winter 1975-76, 30032 MWe  
Spring 1976, 30032 MWe  
Summer 1976, 29966 MWe

(6) *Gross Reserve Margin-Dispatching System.* (a) The expected minimum gross reserve margin (difference between net system capability and peak load in percent of peak load) of the dispatching system for the load periods specified are as follows:

Winter 1975-76, 57.0%  
Spring 1976, 67.4%  
Summer 1976, 35.1%

(b) After deducting the net capacity of units scheduled for maintenance or re-

fueling during these same load periods, the expected minimum reserve margins are:

Winter 1975-76, 46.5%  
Spring 1976, 48.5%  
Summer 1976, 32.8%

(7) *Derating.* There will be no derating of the powerplant when using coal as the primary energy source.

(8) *System Stability.* Available information regarding system stability for the dispatching system has been evaluated for each of the load periods stated in paragraph 151 and the issuance of a prohibition order to the powerplant will not cause a significant system stability problem.

(B) *Reliability of Service.* (1) The estimated gross reserve margin of the dispatching system during the implementation period associated with the commencement of the burning of coal as a primary energy source is forecast to range between 32.8% and 48.5%, depending upon the date of the period of powerplant outage. By scheduling the implementation period during the winter and spring load period, the estimated gross dispatching system's reserve margin will be above 46.5%, and the Federal Power Commission considers this to be an acceptable reserve margin.

(2) If dispatching system conditions at the time of the implementation period are as presently forecast by FEA in this finding, there will be no impairment of reliability of service, within the meaning of ESECA and the regulations promulgated thereunder, in the area served by Niagara-Mohawk Power Company.

(3) Existing transmission system interconnections with other utilities are presently scheduled to transfer approximately 100 megawatts from the dispatching system; with the capacity to transfer approximately 1000 megawatts of power into the dispatching system. This capacity will provide emergency resource of electric power during the implementation period and will enhance the reliability of service.

[FR Doc.75-13975 Filed 5-27-75; 8:45 am]

# ENERGY SUPPLY AND ENVIRONMENTAL COORDINATION ACT

## Intention To Issue Prohibition Orders to Certain Powerplants

The Federal Energy Administration ("FEA") hereby gives notice of its intention to issue prohibition orders, pursuant to the authorities granted it by section 2 of the Energy Supply and Environmental Coordination Act of 1974 (ESECA) and in accordance with 10 CFR Parts 303 and 305, to the following powerplants:

Docket No.	Owner	Powerplant No.	Generating station	Location
OFU-001	Alabama Electric Cooperative Inc.	3	McWilliams	Gantt, Ala.
OFU-002	Carolina Power & Light Co.	1	Sutton	Wilmington, N.C.
OFU-003	do	2	do	do
OFU-004	Carolina Power & Light Co.	3	do	do
OFU-005	Florida Power Corp.	1	Crystal River	Red Level, Fla.
OFU-006	do	2	do	do
OFU-007	Georgia Power Co.	1	McManus	Brunswick, Ga.
OFU-008	do	2	do	do
OFU-009	Savannah Electric & Power Co.	1	Port Wentworth	Port Wentworth, Ga.
OFU-010	do	2	do	do
OFU-011	do	3	do	do

FEA hereby also gives notice of the opportunity for oral and written presentation of data, views, and arguments on these proposed prohibition orders.

The proposed orders would prohibit the powerplants listed above from burning natural gas or petroleum products as their primary energy source.

Prior to issuance of a prohibition order to a powerplant, section 2 of ESECA requires that FEA make certain findings. FEA's initial conclusions with respect to, and rationale in support of, these findings are set out, with respect to each of the powerplants, at the conclusion of this notice. These findings and rationales may be amended as a result of written or oral comments received by FEA pursuant to this notice and other information available to FEA. The findings will be included, with any amendments, in a prohibition order when it is issued.

Upon conclusion of the proceedings described in this notice, FEA may determine to issue prohibition orders to some or all of the powerplants listed above. These prohibition orders will not become effective, however, (1) until either, (a) the Administrator of the Environmental Protection Agency ("EPA") notifies the FEA, in accordance with section 119(d) (1)(B) of the Clean Air Act, that the powerplant will be able on and after July 1, 1975, to burn coal and to comply with all applicable air pollution requirements without a compliance date extension under section 119, or (b) if no notification is given by EPA, the date that the Administrator of EPA certifies pursuant to section 119(d) (1)(B) of the Clean Air Act is the earliest date that the powerplant will be able to comply with all applicable air pollution requirements of section 119 of that Act; and (2) until FEA has considered the environmental impact of such order pursuant to § 305.9 of the FEA regulations that implement section 2 of ESECA and has served the affected powerplant a Notice of Effectiveness, as provided in §§ 303.10(b) and 303.37(b) of those regulations. The date the prohibition order will be effective will be stated in the Notice of Effectiveness.

The Notice of Effectiveness will contain a compliance schedule to insure that the powerplant will be able to comply with the prohibition of the burning of natural gas or petroleum products as a primary energy source on the date the order becomes effective.

Public comment on the proposals to issue prohibition orders to the powerplants listed above is invited in the form of written and oral presentation of data, views and arguments. Comments should relate to individual docket numbers and should make clear to which docket number the individual comment is addressed.

Comments should address (1) the adequacy and validity of each of the proposed findings and the rationale in support of the findings; (2) the identification of any site-specific environmental impacts resulting from the proposed prohibition orders that were not identified or described in the Environmental Impact Statement (EIS 75-1, dated April 25, 1975) for the FEA program to implement section 2 of ESECA; and (3) any other relevant aspects or impacts of the proposed prohibition order. With respect to comments regarding any impact on air quality that might result from a proposed prohibition order, however, it should be recognized that ESECA has assigned to EPA the primary responsibility for analyzing the effect of any such order on the Nation's air quality, and for determining the applicable air pollution requirements that apply to the powerplant that has been issued an order. It is expected that in almost every case, a powerplant to which a prohibition order is issued will be eligible to apply to EPA for a compliance date extension. In connection with that application, EPA must also provide an opportunity for written comment and oral presentation of data, views and arguments by interested persons. In addition, FEA will make a site-specific environmental analysis after the issuance of each order, but prior to service of the Notice of Effectiveness, and there will be an opportunity for public comment if the analysis indicates that significant site-specific impacts are likely to result from a prohibition order.

If oral presentation is to be made, it is requested that any detailed, technical data, views, and arguments be made in written comments submitted in support of the oral presentation, and that the oral presentation itself be a summary of those more detailed comments.

A public hearing on the proposed prohibition orders will be held beginning at 9 a.m., e.d.t., on June 10, 1975 on the Fifth Floor, 1655 Peachtree Street, Atlanta, Georgia 30309, to receive oral presentation of data, views and arguments from interested persons. Any person who has an interest in the subject of the hearing, or who is a representative of a group or class of persons which has an interest in the subject of the hearing, may make a written request, or a verbal request if confirmed in writing, for an opportunity to make oral presentation. That request should be directed to Warren Zurn, Federal Energy Administration, Region IV, 1655 Peachtree Street, Atlanta, Georgia 30309, (404) 526-6821 and must be received before 4:30 p.m., e.d.t., June 5, 1975. The request may be hand-delivered to Warren Zurn, FEA Region IV, 1655 Peachtree Street, Atlanta, Georgia 30309 between the hours of 8 a.m. and 4:30 p.m., e.d.t., Monday through Friday. The person making the request should be prepared to describe the interest concerned; if appropriate, to state why he or she is a proper representative of a group or class of persons which has such an interest; and to give a concise summary of the proposed oral presentation and a phone number where he or she may be contacted through June 9, 1975. Each person selected to be heard will be so notified by the FEA by 4:30 p.m., e.d.t., June 6, 1975 and must submit a minimum of 20 copies of the statement to Warren Zurn, FEA Region IV, 1655 Peachtree Street, Atlanta, Georgia 30309 before 4:30 p.m., June 9, 1975.

The FEA reserves the right to limit the number of representatives of a particular group or class of persons to be heard at the hearing, to schedule their or other persons' presentations, and to establish the procedures governing the conduct of the hearing. The length of time allocated to each presentation may be limited, based on the number of persons requesting to be heard.

An FEA official will be designated to preside at the hearing. It will not be a judicial or evidentiary-type hearing. During an oral presentation, questions may be asked only by those conducting the hearing, and there will be no cross-examination of persons making oral presentations. At the conclusion of all initial oral presentations, each person who has made an oral statement will be given the opportunity, if he or she so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Any interested person may submit questions to be asked of any person making oral presentation at the hearing to FEA Region IV, Warren Zurn, 1655 Peachtree Street, Atlanta, Georgia before 9 a.m., e.d.t., June 10, 1975. Any person who makes an oral statement or any other person who wishes to ask a question at the hearing may submit the questions, in writing, to the presiding officer. The FEA, or the presiding officer if the question is submitted at the hearing, will determine whether the question is relevant, and whether time limitations permit it to be presented for answer.

Any further procedural rules necessary for the proper conduct of the hearing will be announced by the presiding officer.

A transcript of the hearing will be made and the entire record of the hearing, including the transcript will be retained by the FEA and made available for inspection at the FEA Region IV, Seventh floor, 1655 Peachtree Street, Atlanta, Georgia 30309, and FEA Administrator's Reception Area, Room 3400, Federal Building, 12th and Pennsylvania Avenue NW, Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. Anyone may purchase a copy of the transcript from the reporter.

Interested persons are invited to submit written comments consisting of data, views or arguments with respect to the proposed prohibition order to Executive Communications, Federal Energy Administration, Box DD, Washington, D.C. 20461.

Comments should be identified on the outside of the envelope in which they are transmitted and on other documents submitted to FEA Executive Communications with the designation "Proposed Prohibition Order for the \_\_\_\_\_ Powerplant." Fifteen copies should be submitted.

All written comments received by 4:30 p.m., e.d.t., June 12, 1975, all oral presentations and all other relevant information submitted to or otherwise available to FEA will be considered by FEA prior to issuance of any prohibition order.

**Supplemental Comment Period.** To facilitate the submission of data, views and arguments to supplement either the oral presentation or written comments, FEA shall keep the record of the public hearing open for a period of 10 days from the first day of the public hearing. Such supplementary written data, views or argument shall be filed with Executive Communications, Federal Energy Administration, Box DD, Washington, D.C. 20461. In the event that such supplementary data, views or arguments can only be submitted by oral presentation, a verbal request for a conference, in accordance with 10 CFR § 303.171, shall be submitted to Warren Zurn, FEA Region IV, 1655 Peachtree Street, Atlanta, Georgia 30309, (404) 526-6821. To ensure that FEA receives the transcript of such oral presentation before the record closes, any oral presentation must be made within 8 days from the first day of the public hearing.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, one copy only.

The FEA reserves the right to determine the confidential status of the information or data and to treat it accordingly to its determination.

The sections of ESECA that are relevant to the proposed prohibition orders are stated below:

### Sec. 1. Short-Title; Purpose.

(b) The purposes of this Act are (1) to provide for a means to assist in meeting the essential needs of the United States for fuels, in a manner which is consistent, to the fullest extent practicable, with existing national commitments to protect and improve the environment . . .

(2) Authority to amend, repeal, rescind, modify, or enforce such rules or orders shall expire at midnight, December 31, 1978; but the expiration of such authority shall not affect any administrative or judicial proceeding which relates to any act or omission which occurred prior to January 1, 1979.

Sec. 2. Coal Conversion and Allocation.  
(a) The Federal Energy Administrator—  
(1) shall by order, prohibit any powerplant, and  
(2) may, by order, prohibit any major fuel burning installation, other than a powerplant, from burning natural gas or petroleum products as its primary energy source, if the Federal Energy Administrator determines such powerplant or installation on the date of enactment of this Act (June 22, 1974) has the capability and necessary plant equipment to burn coal, and if the requirements of subsection (b) are met.

(b) The requirements referred to in subsection (a) are as follows:  
(1) An order under subsection (a) may not be issued with respect to a powerplant or installation unless the Federal Energy Administrator finds (A) that the burning of coal by such plant or installation, in lieu of petroleum products or natural gas, is practicable and consistent with the purposes of this Act, (B) that coal transportation facilities will be available during the period the order is in effect, and (C) in the case of a powerplant, that the prohibition under subsection (a) will not impair the reliability of service in the area served by such plant. Such an order shall be rescinded or modified to the extent the Federal Energy Administrator determines that any requirement described in subparagraph (A), (B), or (C) of this paragraph is no longer met; and such an order may at any time be modified if the Federal Energy Administrator determines that such order, as modified, complies with the requirements of this section.

(3) (A) Before issuing an order under subsection (a) which is applicable to a powerplant or installation after June 30, 1975 (or modifying an order to which paragraph (2) applies, so as to apply such order to a powerplant or installation after such date), the Federal Energy Administrator shall give notice to the public and afford interested persons an opportunity for oral and written presentations of data, views, and arguments.  
(B) An order (or modification thereof) described in subparagraph (A) of this paragraph shall not become effective until (1) the Administrator of the Environmental Protection Agency notifies the Federal Energy Administrator under section 119(d) (1)(B) that such plant or installation will be able on and after July 1, 1975, to burn coal and to comply with all applicable air pollution requirements without a compliance date extension under section 119(c) of such Act, or (2) if such notification is not given, the date which the Administrator of the Environmental Protection Agency certifies pursuant to section 119(d) (1)(B) of such Act is the earliest date that such plant or installation will be able to comply with all applicable requirements of such section 119. Such order (or modification) shall not be effective during any period certified by the Administrator of the Environmental Protection Agency under section 119(d) (3) (B) of such Act.

(e) For purposes of this section:  
(1) The term "powerplant" means a fossil-fuel fired electric generating unit which produces electric power for purposes of sale or exchange.  
(2) The term "coal" includes coal derivatives.

(f) (1) Authority to issue orders or rules under subsections (a) through (d) of this section shall expire at midnight, June 30, 1975. Such a rule or order may take effect at any time before January 1, 1979.  
(2) Authority to amend, repeal, rescind, modify, or enforce such rules or orders shall expire at midnight, December 31, 1978; but the expiration of such authority shall not affect any administrative or judicial proceeding which relates to any act or omission which occurred prior to January 1, 1979.

Copies of the FEA regulations implementing section 2 of ESECA (10 CFR, Parts 303, 305 and 307) are available from the FEA Regional Office, 1655 Peachtree Street, Atlanta, Georgia 30309, (404) 526-6821.

Any questions regarding this notice should be directed to Warren Zurn, FEA Region IV, 1655 Peachtree Street, Atlanta, Georgia 30309 (404) 526-6821.

(Energy Supply and Environmental Coordination Act of 1974 (Pub. L. 93-319); Federal Energy Administration Act of 1974 (Pub. L. 93-275); E.O. 11790 (39 FR 23185))

Issued in Washington, D.C., May 23, 1975.

ROBERT E. MONTGOMERY, JR.,  
General Counsel,  
Federal Energy Administration.

1. OFU-160, Alabama Electric Cooperative, Inc., Powerplant 3, Generating Station—McWilliams, Gantt, Alabama. (a) Proposed findings and rationale for findings:

1. Capability and Necessary Plant Equipment Finding. Based on an analysis of the information submitted to or otherwise available to FEA, FEA proposes to find that on June 22, 1974, this powerplant had the capability and necessary plant equipment to burn coal. This proposed finding is based on facts, interpretations and assumptions stated below:

(A) This powerplant had in place on June 22, 1974, a boiler that was capable of burning coal, in that such boiler had been designed and constructed, or had been modified to enable it to burn coal as its primary energy source, or to burn coal and another fossil fuel interchangeably as its primary energy source, notwithstanding the fact that on June 22, 1974, such powerplant may not have been burning coal as its primary energy source.

(B) Based on information filed with FEA on March 11, 1975 by the Alabama Electric Cooperative, Inc., the following significant equipment or facilities would have to be acquired or substantially refurbished:

1. Coal Handling:
  - a. Caterpillar D-6 Tractor—refurbish track,
  - b. Acquisition of new 11 yd. capacity scraper,
  - c. Rail Siding—refurbish.
2. Enlarge coal storage area;
3. Boilers:
  - a. Replace burner tile,
  - b. Repair refractory in ash hopper;
4. Ash Handling & Ponding:
  - a. Refurbish Ash Handling Pump,
  - b. Perform necessary modification to ash ponding area to include installation of waste water treatment plant.

FEA assumes that on June 22, 1974, this powerplant had all other significant equipment and facilities associated with the burning of coal.

(C) Within the meaning of ESECA and the regulations promulgated pursuant thereto, the equipment and facilities listed in paragraph (b) do not individually or in combination constitute a lack of capability and necessary plant equipment to burn coal as of June 22, 1974.

(ii) *Burning of coal in lieu of natural gas or petroleum products is practicable and consistent with the purposes of ESECA.* Based on an analysis of the information submitted or otherwise available to FEA, FEA proposes to find that the burning of coal by the powerplant, in lieu of petroleum products or natural gas, is practicable and consistent with the purposes of ESECA. This proposed finding is based on the facts, interpretations and assumptions stated below.

(A) (1) *Revenue Requirements.* (a) The investment costs that result from the acquisition and refurbishment of equipment and facilities associated with the burning of coal by the powerplant are estimated to be approximately \$115,700. This estimate is based on existing FEA information and on information filed with the FEA by the powerplant concerning items of equipment and facilities that would have to be acquired or refurbished and the costs of such acquisition or refurbishment.

(i) Costs of acquisition or refurbishing equipment are allocated as follows:

(A) \$0 to comply with air pollution control requirements of the Clean Air Act.

(B) \$115,700 to make those technical plant and equipment adjustments associated with the burning of coal, as well as to comply with environment requirements other than those imposed by the Clean Air Act.

(b) The increase in operating costs other than fuel costs that result from the burning of coal are estimated to be approximately \$51,736 per year.

(c) (i) The price of petroleum products available to the powerplant is approximately \$.45 to \$.55 per million Btus. The price of coal of the type used by the powerplant is approximately \$.85 to \$.95 per million Btus. The burning of coal by the powerplant will result in an increase of \$.30 to \$.50 per million Btus or \$475,000 to \$625,000 per year.

(ii) The Alabama Public Utility Commission permits the inclusion of increased fuel costs in the rate base through a fuel adjustment clause and, if there is a decrease in the cost of fuel as a result of burning coal, there will be a decrease in such rate base.

(d) The total annual incremental increase in revenue requirements resulting from costs associated with burning coal as opposed to oil is \$61,000.

(2) *Financial Capabilities.* (a) Based on the most recent financial statements and capital expenditure programs of Alabama Electric Cooperative Inc., as well as other information available to FEA, it has been determined that the prohibition order for the powerplant is practicable. This financial assessment included an evaluation of generally accepted financial ratios; effects on cap-

italization as a result of the costs of burning of coal; impact on current and future construction programs; and possible impacts on rates. This assessment incorporated, but was not limited to, consideration of: the \$115,700 investment requirement (or 3%) in relation to net property and plant of the company of \$41 million and 1975-1977 construction budget of the company of \$38 million (or 3%); the total capitalization of the company of \$48.9 million; the change in 1974 to 1975 construction budgets of \$7.9 million to \$0 and the 14 years remaining useful life of the plant. These assessments, the above findings, and other evaluations of the general financial health of the company were the basis of this finding.

(B) Because this prohibition order will discourage the use of natural gas or petroleum products and encourage the increased use of coal, FEA proposes to find that its issuance will be consistent with the purpose of ESECA "to provide a means to assist in meeting the essential needs of the United States for fuels." Further, on the basis of the environmental analyses conducted by FEA, the analyses of air quality impacts which EPA is required to conduct prior to effectiveness of a prohibition order, as well as the necessity for the powerplant to comply with the Clean Air Act and other applicable environmental protection requirements, FEA proposes to find that the prohibition order is also consistent with the purpose of ESECA to provide for a means to meet the Nation's essential fuel needs "in a manner which is consistent, to the fullest extent practicable, with existing national commitments to protect and improve the environment."

(iii) *Coal and coal transportation facilities will be available during the period the prohibition order is in effect.* Based on an analysis of the information submitted to or otherwise available to FEA, FEA proposes to find that coal and coal transportation facilities will be available to these powerplants during the period until December 31, 1978. The period until December 31, 1978 is the period during all or part of which the prohibition order to which these findings relate will be in effect. This proposed finding is based upon the following facts, interpretations and assumptions:

A (1) It is estimated that it will be practicable to produce coal nationally as follows:

Year:	Production (million tons)
1975	662
1976	679
1977	707
1978	735

(2) The estimated national demand, excluding any increased demand resulting from FEA action under the authority of section 2 of ESECA, is as follows:

Year:	Demand (million tons)
1975	640
1976	664
1977	688
1978	716

(3) The estimated additional national demand for coal resulting from the prohibition order to which this finding relates, and from FEA actions under authority of section 2 of ESECA, will be as follows:

Year:	Demand (million tons)
1975	0.7
1976	4.0
1977	13.6
1978	16.2

(4) Coal of the specific type required for use by this powerplant has been identified in the reserves of the Northern and Southern Appalachian Coal supply regions, which consist of Bureau of Mines Districts 1 through 8 and 13.

(5) It is estimated that it will be practicable to produce coal from the Northern and Southern Appalachian coal supply regions as follows:

Year:	Production (million tons)
1975	406
1976	402
1977	407
1978	412

(6) The regional and national production estimates stated in items (1) and (5) assume a surge capacity, or ability to increase production over normal levels, of approximately 4%. A 1975 study by the Bureau of Mines of the Department of the Interior indicates a national surge capacity of approximately 6%. In response to an industry survey in late 1974, the coal industry itself indicated that it had a surge capacity of up to 8%. By comparison, the increased national demand for coal resulting from the prohibition order to which this finding relates and other FEA actions under section 2 of ESECA, is less than one tenth of a percent in 1975, increasing to a maximum of 2.3% in 1978 of estimated national demand stated in item (2). A market survey of traditional coal suppliers to FEA Region IV consumers indicates that there is ample production capability to support increased demand for coal from this region resulting from the prohibition order to which this finding relates and other FEA actions under section 2 of ESECA.

(7) No State or local laws or policies which would limit the extraction of this coal have been found by FEA or brought to FEA's attention.

(8) The estimated demand for coal from these supply regions, excluding any increased demand resulting from FEA actions under the authority of section 2 of ESECA, is as follows:

Year:	Demand (million tons)
1975	390
1976	394
1977	395
1978	398

(9) The estimated additional demand for coal from these supply regions resulting from the prohibition order to which this finding relates and from other FEA orders under section 2 of ESECA, will be as follows:

Year:	Demand (million tons)
1975	0.4
1976	2.5
1977	10.2
1978	12.4

(10) On the basis of the above information, FEA proposes to find that the estimated production of coal of the specific type required for use by this powerplant exceeds the estimated demand for such coal by amounts adequate to support a conclusion that such coal will be available to these powerplants during the period until December 31, 1978.

B(1) Adequate rail facilities exist between these coal supply regions and the powerplant to transport the coal that will be used by such powerplant pursuant to this order.

(2) There is a spur line which will be able to deliver this coal from the main rail line to this powerplant.

(3) Sufficient rolling stock will be available to the Southern Railway System for transporting this coal during the period until December 31, 1978.

(iv) *The prohibition of the burning of natural gas or petroleum products as its primary energy source will not impair the reliability of service in the area served by the affected powerplant.* Based on an analysis of the information submitted to or otherwise available to FEA, and after consultation with the Federal Power Commission, FEA hereby proposes to find that the prohibition of the McWilliams Unit #3 powerplant of the Alabama Electric Cooperative, Inc. from burning natural gas or petroleum products as its primary energy source will not impair the reliability of service in the area served by such powerplant. Such finding will be based on the facts, assumptions and interpretations stated below:

(A) (1) *Interconnections and Power Dispatching.* (a) The McWilliams Unit #3 is within the geographical area of the Southeastern Electric Reliability Council (SERC) regional electric reliability council.

(b) It is interconnected with and its operations and planning are coordinated with the Southern Companies subregion of SERC power pool.

(c) Dispatching of electric power is controlled by Alabama Electric Cooperative, Inc.

(d) "Dispatching system" as used later in this finding means Alabama Electric Cooperative, Inc.

(2) *Forecast Peak Loads.* (a) Forecast of peak loads for the dispatching system during the year in which the Alabama Electric Cooperative, Inc. is expected to be implementing the proposed prohibition order is as follows:

Winter Load Period (Dec.-Feb.) 1975-76, Peak 232 MWe Jan.
Spring Load Period (March-May) 1976, Peak 191 MWe May.
Summer Load Period (June-Aug.) 1976, Peak 280 MWe Aug.
Fall Load Period (Sept.-Nov.) 1976, Peak 221 MWe Sept.

(b) The peak loads forecast have been compared with peak loads in previous

similar periods and the compound load growth rate for these forecasts is 7%, which is considered reasonable.

(3) *Capacity.* (a) The present net dependable capacity of all powerplants of the dispatching system that now are engaged in the sale or exchange of electric power is 262 MWe.

(b) No additions, retirements, or powerplant reratings are planned during the period in which Alabama Electric Cooperative, Inc. will be implementing the proposed prohibition order.

(4) *Scheduled Outage.* (a) A scheduled outage of 4 months is estimated to be required to make any modification, installation or other physical adjustment associated with cessation of the burning of natural gas or petroleum products as the powerplant primary energy source. Immediately following modification during on-line testing and adjustment, the powerplant will be less than fully dependable. This period should not exceed 30 days.

Modifications are forecast to commence approximately February 1, 1976, and to be complete and fully tested by July 1, 1976.

(b) No maintenance of other powerplants is planned within the dispatching system during the period the powerplant will be implementing the proposed prohibition order.

(5) *Net Dependable Capacity.* The forecast net dependable capacity for the dispatching system during the period (shown as quarter years) in which the powerplant is expected to be implementing the proposed prohibition order and the next quarter following is:

Winter 1975-76, 262 MWe
Spring 1976, 262 MWe
Summer 1976, 262 MWe

(6) *Gross Reserve Margin-Dispatching System.* (a) The expected minimum gross reserve margin (difference between net system capability and peak load in percent of peak load) of the dispatching system for the load periods specified are as follows:

Winter 1975-76, 13%
Spring 1976, 37%
Summer 1976, -6.4%

(b) Implementation of the proposed prohibition order will not affect the forecast reserve margin for the summer of 1976. Alabama Electric Cooperative, Inc. will purchase power as needed.

(7) *Derating.* There will be no derating of the powerplant when using coal as the primary energy source.

(8) *System Stability.* Available information regarding system stability for the dispatching system has been evaluated for each of the load periods stated in paragraph (5) and the issuance of a prohibition order to the powerplant will not cause a significant system stability problem.

(B) *Reliability of Service.* (1) The estimated gross reserve margin of the dispatching system during the implementation period associated with the commencement of the burning of coal as a primary energy source is forecast to range between -6.4% and 37%, depend-

ing upon the date of the period of powerplant outage. By scheduling the implementation period during the February through May load period, the estimated gross dispatching system's reserve margin will be above 31%, and the Federal Power Commission considers this to be an acceptable reserve margin.

(2) If dispatching system conditions at the time of the implementation period are as presently forecast by FEA in this finding, there will be no impairment of reliability of service, within the meaning of ESECA and the regulations promulgated thereunder, in the area served by Alabama Electric Cooperative, Inc.

(3) Existing transmission system interconnections with other utilities are presently scheduled to transfer approximately 128 megawatts into the dispatching system; with the capacity to transfer approximately 100 additional megawatts of power into the dispatching system. This capacity will provide emergency resources of electric power during the implementation period and will enhance the reliability of service.

2. OFU-061-063, Carolina Power and Light Company, Powerplants 1, 2 and 3, Generating Station-Sutton, Wilmington, North Carolina.

(a) Proposed findings and rationale for findings:

1. *Capability and Necessary Plant Equipment Finding.* Based on an analysis of the information submitted to or otherwise available to FEA, FEA proposes to find that on June 22, 1974, these powerplants had the capability and necessary plant equipment to burn coal. This proposed finding is based on facts, interpretations and assumptions stated below:

(A) These powerplants had in place on June 22, 1974, a boiler that was capable of burning coal, in that such boiler had been designed and constructed, or had been modified to enable it to burn coal as its primary energy source, or to burn coal and another fossil fuel interchangeably as its primary energy source, notwithstanding the fact that on June 22, 1974, such powerplant may not have been burning coal as its primary energy source.

(B) Based on information filed with FEA on April 29, 1975, by the Carolina Power and Light Company, no significant equipment or facilities would have to be acquired or substantially refurbished.

II. Based on an analysis of the information submitted to or otherwise available to FEA, FEA hereby finds that the burning of coal by the powerplants in lieu of petroleum products or natural gas is practicable and consistent with the purposes of ESECA. This finding is based on the facts, interpretations and assumptions stated below.

(a) The powerplants have acquired or modified, or are currently acquiring or modifying the equipment and facilities necessary for the burning of coal as their primary energy source, and such actions are not being undertaken as a result of (or in contemplation of) the issuance of a prohibition order. These acquisitions or modifications include those necessary for

compliance with the requirements of Clean Air Act.

(b) The costs associated with the acquisitions or modifications necessary for the burning of coal are identified in the company's current and prospective budgetary plans.

(c) (1) FEA assumes that the decision by the company to acquire or modify such equipment and facilities in order to burn coal as a primary energy source was based on an analysis of the financial capability of such powerplants to assume such costs (including the requirement to obtain a rate increase) and, therefore the conclusion by such powerplant that the burning of coal in lieu of petroleum products is practicable.

(2) If the powerplant has found that the burning of coal in lieu of petroleum products or natural gas is practicable, FEA therefore concludes that the burning of coal by such powerplant is practicable within the meaning of ESECA and the regulations promulgated thereunder.

(d) The issuance of this prohibition order will discourage the use of natural gas or petroleum products and encourage the increased use of coal, and such order is a means that, by virtue of the necessity for the powerplant to comply with the Clean Air Act and other applicable environmental protection requirements, is consistent, to the fullest extent practicable, with existing national commitments to protect and improve the environment.

(iii) Coal and coal transportation facilities will be available during the period the prohibition order is in effect. Based on an analysis of the information submitted to or otherwise available to FEA, FEA proposes to find that coal and coal transportation facilities will be available to these powerplants during the period until December 31, 1978. The period until December 31, 1978 is the period during all or part of which the prohibition order to which these findings relate will be in effect. This proposed finding is based upon the following facts, interpretations and assumptions:

(A) (1) It is estimated that it will be practicable to produce coal nationally as follows:

Year:	Production (million tons)
1975	682
1976	679
1977	707
1978	735

(2) The estimated national demand, excluding any increased demand resulting from FEA action under the authority of section 2 of ESECA, is as follows:

Year:	Demand (million tons)
1975	640
1976	664
1977	688
1978	716

(3) The estimated additional national demand for coal resulting from the prohibition order to which this finding relates, and from FEA actions under authority of section 2 of ESECA, will be as follows:

Year:	Demand (million tons)
1975	0.7
1976	4.0
1977	13.6
1978	16.2

(4) Coal of the specific type required for use by this powerplant has been identified in the reserves of the Northern and Southern Appalachian Coal supply regions, which consist of Bureau of Mines Districts 1 through 8 and 13.

(5) It is estimated that it will be practicable to produce coal from the Northern and Southern Appalachian coal supply regions as follows:

Year:	Production (million tons)
1975	406
1976	402
1977	407
1978	412

(6) The regional and national production estimates stated in items (1) and (5) assume a surge capacity, or ability to increase production over normal levels, of approximately 4%. A 1975 study by the Bureau of Mines of the Department of the Interior indicates a national surge capacity of approximately 6%. In response to an industry survey in late 1974, the coal industry itself indicated that it had a surge capacity of up to 8%. By comparison, the increased national demand for coal resulting from the prohibition order to which this finding relates and other FEA actions under section 2 of ESECA, is less than one tenth of a percent in 1975, increasing to a maximum of 2.3% in 1978 of estimated national demand stated in item (2). A market survey of traditional coal suppliers to FEA Region IV consumers indicates that there is ample production capability to support increased demand for coal from this region resulting from the prohibition order to which this finding relates and other FEA actions under section 2 of ESECA.

(7) No State or local laws or policies which would limit the extraction of this coal have been found by FEA or brought to FEA's attention.

(8) The estimated demand for coal from these supply regions, excluding any increased demand resulting from FEA actions under the authority of section 2 of ESECA, is as follows:

Year:	Demand (million tons)
1975	390
1976	394
1977	395
1978	398

(9) The estimated additional demand for coal from these supply regions resulting from the prohibition order to which this finding relates and from other FEA orders under section 2 of ESECA, will be as follows:

Year:	Demand (million tons)
1975	0.4
1976	2.5
1977	10.2
1978	12.4

(10) On the basis of the above information, FEA proposes to find that the estimated production of coal of the specific type required for use by this powerplant exceeds the estimated demand for such coal by amounts adequate to support a conclusion that such coal will be available to these powerplants during the period until December 31, 1978.

B(1) Adequate rail facilities exist between these coal supply regions and the powerplants to transport the coal that will be used by such powerplants pursuant to this order.

(2) There is a spur line which will be able to deliver this coal from the main rail line to these powerplants.

(3) Sufficient rolling stock will be available to the Norfolk and Western Railway, the Chesapeake & Ohio Railway, the Seaboard Coast Line Railroad, or the Southern Railway System for transporting this coal during the period until December 31, 1978.

(iv) The prohibition of the burning of natural gas or petroleum products as its primary energy source will not impair the reliability of service in the area served by the affected powerplants. Based on an analysis of the information submitted to or otherwise available to FEA, and after consultation with the Federal Power Commission, FEA hereby proposes to find that the prohibition of the Sutton Units #1, #2, and #3 powerplants of the Carolina Power and Light Company from burning natural gas or petroleum products as their primary energy source will not impair the reliability of service in the area served by these powerplants. This finding will be based on the facts, assumptions, and interpretations stated below:

(A) (1) Interconnections and Power Dispatching. (a) The Sutton Units are within the geographical area of the Southeast Electric Reliability Council (SERC) regional electric reliability council.

(b) They are interconnected with and their operations and planning are coordinated with the VACAR subregion of SERC. The reserve capacity of the interconnected systems will provide emergency back-up and enhances the reliability of service.

(c) Dispatching of electric power is controlled by Carolina Power and Light Company.

(2) The subject powerplant now uses coal on a regular basis.

(3) No reconversion or outage time for reconversion is necessary.

(B) For the reasons set forth above, the FEA finds that the burning of coal by Sutton #1, #2, and #3 powerplants in lieu of petroleum products or natural gas will not result in an impairment of the reliability of service in the meaning of ESECA in the area served by the powerplant.

3. OFU-064, 065, Florida Power Corporation, Powerplants 1, 2, Generating Station—Crystal River, Red Level, Florida.

(a) Proposed findings and rationale:

1. Capability and Necessary Plant Equipment Finding. Based on an analysis

of the information submitted to or otherwise available to FEA, FEA proposes to find that on June 22, 1974, these powerplants had the capability and necessary plant equipment to burn coal. This proposed finding is based on facts, interpretations and assumptions stated below:

(A) These powerplants had in place on June 22, 1974, a boiler that was capable of burning coal, in that such boiler had been designed and constructed, or had been modified to enable it to burn coal as its primary energy source, or to burn coal and another fossil fuel interchangeably as its primary energy source, notwithstanding the fact that on June 22, 1974, such powerplant may not have been burning coal as its primary energy source.

(B) Based on information filed with FEA on April 10, 1975 by the Florida Power Corporation, the following significant equipment or facilities would have to be acquired or substantially refurbished:

1. Additional coal conveyors;
2. Air tempering coils;
3. Relocate and add slag blowers with necessary piping valves, access platforms and bent tube sections;
4. Extensive revisions to the instrumentation for coal burning;
5. Purchase and install new bottom ash and fly ash handling systems;
6. Provide for new ash ponds;
7. Coal handling equipment.

FEA assumes that on June 22, 1974, these powerplants had all other significant equipment and facilities associated with the burning of coal.

(C) Within the meaning of ESECA and the regulations promulgated pursuant thereto, the equipment and facilities listed in paragraph (b) do not individually or in combination constitute a lack of capability and necessary plant equipment to burn coal as of June 22, 1974.

(ii) Burning of coal in lieu of natural gas or petroleum products is practicable and consistent with the purposes of ESECA. Based on an analysis of the information submitted or otherwise available to FEA, FEA proposes to find that the burning of coal by the powerplants in lieu of petroleum products or natural gas, is practicable and consistent with the purposes of ESECA. This proposed finding is based on the facts, interpretations and assumptions stated below.

(A) (1) Revenue Requirements. (a) The investment costs that result from the acquisition and refurbishment of equipment and facilities associated with the burning of coal by the powerplants are estimated to be approximately \$31,940,000. This estimate is based on existing FEA information and on information filed with the FEA by the powerplants concerning items of equipment and facilities that would have to be acquired or refurbished and the costs of such acquisition of refurbishment.

(b) Costs of acquisition or refurbishment equipment are allocated as follows:

(A) \$16,940,000 to comply with air pollution control requirements of the Clean Air Act.

(B) \$15,000,000 to make those technical plant and equipment adjustments associated with the burning of coal, as well as to comply with environmental requirements other than those imposed by the Clean Air Act.

(b) The increase in operating costs other than fuel costs that result from the burning of coal are estimated to be approximately \$1,500,000 per year.

(c) (i) The price of petroleum products available to the power plant is approximately \$1.70 to \$1.80 per million BTU's. The price of coal of the type used by the power plant is approximately \$1.70 to \$1.80 per million BTU's. The burning of coal by the power plant will result in no net change in their annual fuel costs.

(ii) The Florida Public Utility Commission permits the inclusion of increased fuel costs in the rate base through a fuel adjustment clause and, if there is a decrease in the cost of fuel as a result of burning coal, there will be a decrease in such rate base.

(d) The total annual incremental increase in revenue requirements resulting from costs associated with burning coal as opposed to oil is \$7,495,000.

(2) Financial Capabilities. (a) Based on the most recent financial statements and capital expenditure programs of Florida Power Corporation, as well as other information available to FEA, it has been determined that the prohibition order for the powerplants is practicable. This financial assessment included an evaluation of generally accepted financial ratios; effects on capitalization as a result of the costs of burning of coal; impact on current and future construction programs; and possible impacts on rates. This assessment incorporated, but was not limited to, consideration of: the \$31.9 million investment requirement (or 2.4%) in relation to net property and plant of the company of \$1.3 billion and 1975-1977 construction budget of the company of \$362 million (or 8.8%); the total capitalization of the company of \$1.1 billion; the change in 1974 to 1975 construction budgets of \$228 million to \$100 million and the 28 years remaining useful life of the plant. These assessments, the above findings, and other evaluations of the general financial health of the company were the basis of this finding.

(B) Because this prohibition order will discourage the use of natural gas or petroleum products and encourage the increased use of coal, FEA proposed to find that its issuance will be consistent with the purpose of ESECA "to provide a means to assist in meeting the essential needs of the United States for Fuels."

Further, on the basis of the environmental analyses conducted by FEA, the analyses of air quality impacts which EPA is required to conduct prior to effectiveness of a prohibition order, as well as the necessity for the powerplants to comply with the Clean Air Act and other applicable environmental protection requirements, FEA proposes to find that the prohibition order is also consistent with the purpose of ESECA to provide

for a means to meet the Nation's essential fuel needs "in a manner which is consistent, to the fullest extent practicable, with existing national commitments to protect and improve the environment."

(iii) Coal and coal transportation facilities will be available during the period the prohibition order is in effect. Based on an analysis of the information submitted to or otherwise available to FEA, FEA proposes to find that coal and coal transportation facilities will be available to these powerplants during the period until December 31, 1978. The period until December 31, 1978 is the period during all or part of which the prohibition order to which these findings relate will be in effect. This proposed finding is based upon the following facts, interpretations and assumptions:

(A) (1) It is estimated that it will be practicable to produce coal nationally as follows:

Year:	Production (million tons)
1975	662
1976	679
1977	707
1978	735

(2) The estimated national demand, excluding any increased demand resulting from FEA action under the authority of section 2 of ESECA, is as follows:

Year:	Demand (million tons)
1975	640
1976	664
1977	688
1978	716

(3) The estimated additional national demand for coal resulting from the prohibition order to which this finding relates, and from FEA actions under authority of section 2 of ESECA, will be as follows:

Year:	Demand (million tons)
1975	0.7
1976	4.0
1977	13.6
1978	16.2

(4) Coal of the specific type required for use by this powerplant has been identified in the reserves of the Northern and Southern Appalachian Coal supply regions, which consist of Bureau of Mines Districts 1 through 8 and 13.

(5) It is estimated that it will be practicable to produce coal from the Northern and Southern Appalachian coal supply regions as follows:

Year:	Production (million tons)
1975	406
1976	402
1977	407
1978	412

(6) The regional and national production estimates stated in items (1) and (5) assume a surge capacity, or ability to increase production over normal levels, of approximately 4%. A 1975 study by the Bureau of Mines of the Department of the Interior indicates a national surge capacity of approximately 6%. In response to an industry survey in late 1974, the coal industry itself indicated that it had a surge capacity of up to 8%.

By comparison, the increased national demand for coal resulting from the prohibition order to which this finding relates and other FEA actions under section 2 of ESECA, is less than one tenth of a percent in 1975, increasing to a maximum of 2.3% in 1978 of estimated national demand stated in item (2). A market survey of traditional coal suppliers to FEA Region IV consumers indicates that there is ample production capability to support increased demand for coal from this region resulting from the prohibition order to which this finding relates and other FEA actions under section 2 of ESECA.

(7) No State or local laws or policies which would limit the extraction of this coal have been found by FEA or brought to FEA's attention.

(8) The estimated demand for coal from these supply regions, excluding any increased demand resulting from FEA actions under the authority of section 2 of ESECA, is as follows:

Year:	Demand (million tons)
1975	390
1976	394
1977	395
1978	398

(9) The estimated additional demand for coal from these supply regions resulting from the prohibition order to which this finding relates and from other FEA orders under section 2 of ESECA, will be as follows:

Year:	Demand (million tons)
1975	0.4
1976	2.5
1977	10.2
1978	12.4

(10) On the basis of the above information, FEA proposes to find that the estimated production of coal of the specific type required for use by this powerplant exceeds the estimated demand for such coal by amounts adequate to support a conclusion that such coal will be available to these powerplants during the period until December 31, 1978.

B(1) Adequate rail or barge facilities exist between these coal supply regions and the powerplants to transport the coal that will be used by such powerplants pursuant to this order.

(2) There is a spur line or waterway which will be able to deliver this coal from these supply regions to these powerplants.

(3) Sufficient rolling stock will be available to the Seaboard Coast Line Railroad and sufficient barges will be available to the Gulf Coast Transit for transporting this coal during the period until December 31, 1978.

(iv) The prohibition of the burning of natural gas or petroleum products as its primary energy source will not impair the reliability of service in the area served by the affected powerplants. Based on an analysis of the information submitted to or otherwise available to FEA, and after consultation with the Federal Power Commission, FEA hereby proposes to find that the prohibition

of the Crystal River Units #1 and #2 powerplants of the Florida Power Corporation from burning natural gas or petroleum products as their primary energy source will not impair the reliability of service in the area served by these powerplants. Such finding will be based on the facts, assumptions, and interpretations stated below:

(A) (1) *Interconnections and Power Dispatching.* (a) The Crystal River Units are within the geographical area of the Southeastern Electric Reliability Council (SERC) regional electric reliability council.

(b) They are interconnected with and their operations and planning are coordinated with the Florida Subregion of SERC.

(c) Dispatching of electric power is controlled by Florida Power Corporation.

(d) "Dispatching system" as used later in this finding means Florida Power Corporation.

(2) *Forecast Peak Loads.* (a) Forecast of peak loads for the dispatching system during the year in which the

Powerplant designation	Fuel	Type of change	Capacity change	Status and effective date
Debarry No. 1-3	Oil	Addition	+150	December 1975.
Debarry No. 4	do	do	+50	January 1976.
Debarry No. 5	do	do	+50	February 1976.
Debarry No. 6	do	do	+50	Do.
Turner No. 2	do	Retire	-28	March 1976.
Crystal River No. 3	Nuclear	Addition	+825	September 1976.
Anclote No. 2	Oil	do	+515	July 1977.

(4) *Scheduled Outages.* (a) A scheduled outage of 6 weeks for each unit is estimated to be required to make any modifications, installation or other physical adjustment associated with cessation of the burning of natural gas or petroleum products as the powerplants primary energy source. Immediately following modification during on-line testing and adjustment, the powerplants will be less than fully dependable. This period should not exceed 30 days.

Modifications are forecast to commence approximately March 1, 1977, and to be complete and fully tested by July 1, 1977.

(b) Planned maintenance of other powerplants rated 100 MWe or higher and nuclear plant refueling during the period the powerplant will be implementing the herein prohibition order within the dispatching system will result in the loss of generating capability which is expected to average the listed values during the specified load periods.

Spring, 45 MWe  
Summer, 45 MWe

(5) *Net Dependable Capacity.* The forecast net dependable capacity for the dispatching system during the period (shown as quarter years) in which the powerplants are expected to be implementing the proposed prohibition order and the next quarter following is:

Spring 1977, 4701 MWe  
Summer 1977, 5216 MWe

(6) *Gross Reserve Margin-Dispatching System.* (a) The expected minimum gross

Florida Power Corporation is expected to be implementing the proposed prohibition order is as follows:

Summer Load Period (May-Sept.) 1977 Peak 3486 MWe August

Fall Load Period (Oct.-Nov.) 1976, Peak 2404 MWe October

Winter Load Period (Dec.-Feb.) 1976-77, Peak 3836 MWe Jan.

Spring Load Period (March-April) 1977, Peak 2789 MWe May

(b) The peak loads forecast have been compared with peak loads in previous similar periods and the compound load growth rate for these forecasts is 8%, which is considered reasonable.

(3) *Capacity.* (a) The present net dependable capacity of all powerplants of the dispatching system that now are engaged in the sale or exchange of electric power is 3604 MWe.

(b) Additions, retirements, and powerplant reratings during the period in which Florida Power Corporation will be implementing the proposed prohibition order, as listed below, will cause the following changes in net dependable capacity of such dispatching system:

reserve margin (difference between net system capability and peak load in percent of peak load) of the dispatching system for the load periods specified are as follows:

Spring 1977, 68.7%  
Summer 1977, 49.6%

(b) After deducting the net capacity of units scheduled for maintenance or refueling during these same load periods, the expected minimum reserve margins are:

Spring 1977, 65.0%  
Summer 1977, 48.3%

(7) *Derating.* There will be no derating of the powerplant when using coal as the primary energy source.

(8) *System Stability.* Available information regarding system stability for the dispatching system has been evaluated for each of the load periods stated in paragraph (5) and the issuance of a prohibition order to the powerplants will not cause a significant system stability problem.

(B) *Reliability of Service.* (1) The estimated gross reserve margin of the dispatching system during the implementation period associated with the commencement of the burning of coal as a primary energy source is forecast to range between 48.3% and 65.0%, depending upon the date of the period of powerplant outage. By scheduling the implementation period during the months of March and April 1977 load period, the estimated gross dispatching system's reserve margin will be above 65%, and the

Federal Power Commission considers this to be an acceptable reserve margin.

(2) If dispatching system conditions at the time of the implementation period are as presently forecast by FEA in this finding, there will be no impairment of reliability of service, within the meaning of ESECA and the regulations promulgated thereunder, in the area served by Florida Power Corporation.

(3) Existing transmission system interconnections with other utilities are presently scheduled to transfer approximately 210 megawatts into the dispatching system; with the capacity to transfer approximately 800 additional megawatts of power into the dispatching system. This capacity will provide an emergency resource of electric power during the implementation period and will enhance the reliability of service.

4. OFU-066, 067, Georgia Power Company, Powerplants 1, 2, Generating Station—McManus, Brunswick, Georgia.

(a) Proposed findings and rationale for findings:

1. *Capability and Necessary Plant Equipment Finding.* Based on an analysis of the information submitted to or otherwise available to FEA, FEA proposes to find that on June 22, 1974, these powerplants had the capability and necessary plant equipment to burn coal. This proposed finding is based on facts, interpretations and assumptions stated below:

(A) These powerplants had in place on June 22, 1974, a boiler that was capable of burning coal, in that such boiler had been designed and constructed, or had been modified to enable it to burn coal as its primary energy source, or to burn coal and another fossil fuel interchangeably as its primary energy source, notwithstanding the fact that on June 22, 1974, such powerplant may not have been burning coal as its primary energy source.

(B) Based on information filed with FEA on April 10, 1975 by the Georgia Power Company, the following significant equipment or facilities would have to be acquired or substantially refurbished:

- Two tractors;
- One car shaker;
- Ash piping and valves;
- Boiler work;
- Ash pond.

FEA assumes that on June 22, 1974, these powerplants had all other significant equipment and facilities associated with the burning of coal.

(C) Within the meaning of ESECA and the regulations promulgated pursuant thereto, the equipment and facilities listed in paragraph (b) do not individually or in combination constitute a lack of capability and necessary plant equipment to burn coal as of June 22, 1974.

(ii) *Burning of coal in lieu of natural gas or petroleum products is practicable and consistent with the purposes of ESECA.* Based on an analysis of the information submitted or otherwise available to FEA, FEA proposes to find that the burning of coal by the powerplants, in lieu of petroleum products or natural gas, is practicable and consistent with the purposes of ESECA. This proposed

finding is based on the facts, interpretations and assumptions stated below.

(A) (1) *Revenue Requirements.* (a) The investment costs that result from the acquisition and refurbishment of equipment and facilities associated with the burning of coal by the powerplants are estimated to be approximately \$30,975,000. This estimate is based on existing FEA information and on information filed with the FEA by the powerplant concerning items of equipment and facilities that would have to be acquired or refurbished and the costs of such acquisition or refurbishment.

(i) Costs of acquisition or refurbishing equipment are allocated as follows:

(A) \$28,380,000 to comply with air pollution control requirements of the Clean Air Act.

(B) \$2,595,000 to make those technical plant and equipment adjustments associated with the burning of coal, as well as to comply with environmental requirements other than those imposed by the Clean Air Act.

(b) The increase in operating costs other than fuel costs that result from the burning of coal are estimated to be approximately \$219,982 per year.

(c) (i) The price of petroleum products available to the powerplants is approximately \$1.75 to \$1.85 per million Btus. The price of coal of the type used by the powerplants is approximately \$1.45 to \$1.55 per million Btus. The burning of coal by the powerplants will result in a reduction of \$.20 to \$.40 per million Btus or \$1.2 million to \$2.8 million per year.

(ii) The Georgia Public Utility Commission permits the inclusion of increased fuel costs in the rate base through a fuel adjustment clause and, if there is a decrease in the cost of fuel as a result of burning coal, there will be a decrease in such rate base.

(d) The total annual incremental increase in revenue requirements resulting from costs associated with burning coal as opposed to oil is \$6,667,000.

(2) *Financial Capabilities.* (a) Based on the most recent financial statements and capital expenditure programs of the Georgia Power Company, as well as other information available to FEA, it has been determined that the prohibition order for the powerplants is practicable. This financial assessment included an evaluation of generally accepted financial ratios; effects on capitalization as a result of the costs of burning of coal; impact on current and future construction programs; and possible impacts on rates. This assessment incorporated, but was not limited to, consideration of: the \$30.9 million investment requirement (or 1%) in relation to net property and plant of the company of \$3.2 billion and 1975-1977 construction budget of the company of \$475 million (or 2%); the total capitalization of the company of \$2.6 billion; the change in 1974 to 1975 construction budgets of \$662 million to \$475 million and the 16 years remaining useful life of the plant. These assessments, the above findings, and other evaluations of

the general financial health of the company were the basis of this finding.

(B) Because this prohibition order will discourage the use of natural gas or petroleum products and encourage the increased use of coal, FEA proposes to find that its issuance will be consistent with the purpose of ESECA "to provide a means to assist in meeting the essential needs of the United States for fuels." Further, on the basis of the environmental analyses conducted by FEA, the analyses of air quality impacts which EPA is required to conduct prior to effectiveness of a prohibition order, as well as the necessity for the powerplants to comply with the Clean Air Act and other applicable environmental protection requirements, FEA proposes to find that the prohibition order is also consistent with the purpose of ESECA to provide for a means to meet the Nation's essential fuel needs "in a manner which is consistent, to the fullest extent practicable, with existing national commitments to protect and improve the environment."

(iii) *Coal and coal transportation facilities will be available during the period the prohibition order is in effect.* Based on an analysis of the information submitted to or otherwise available to FEA, FEA proposes to find that coal and coal transportation facilities will be available to these powerplants during the period until December 31, 1978. The period until December 31, 1978 is the period during all or part of which the prohibition order to which these findings relate will be in effect. This proposed finding is based upon the following facts, interpretations and assumptions:

A(1) It is estimated that it will be practicable to produce coal nationally as follows:

Year:	Production (million tons)
1975	662
1976	679
1977	707
1978	735

(2) The estimated national demand, excluding any increased demand resulting from FEA action under the authority of section 2 of ESECA, is as follows:

Year:	Demand (million tons)
1975	640
1976	664
1977	688
1978	716

(3) The estimated additional national demand for coal resulting from the prohibition order to which this finding relates, and from FEA actions under authority of section 2 of ESECA, will be as follows:

Year:	Demand (million tons)
1975	0.7
1976	4.0
1977	13.6
1978	16.2

(4) Coal of the specific type required for use by this powerplant has been identified in the reserves of the Northern and Southern Appalachian Coal supply regions, which consist of Bureau of Mines Districts 1 through 8 and 13.

V  
4  
0  
1  
0  
5  
M  
A  
Y  
3  
0  
7  
5

(5) It is estimated that it will be practicable to produce coal from the Northern and Southern Appalachian coal supply regions as follows:

Year:	Production (million tons)
1975	406
1976	402
1977	407
1978	412

(6) The regional and national production estimates stated in items (1) and (5) assume a surge capacity, or ability to increase production over normal levels, of approximately 4%. A 1975 study by the Bureau of Mines of the Department of the Interior indicates a national surge capacity of approximately 6%. In response to an industry survey in late 1974, the coal industry itself indicated that it had a surge capacity of up to 8%. By comparison, the increased national demand for coal resulting from the prohibition order to which this finding relates and other FEA actions under section 2 of ESECA, is less than one tenth of a percent in 1975, increasing to a maximum of 2.3% in 1978 of estimated national demand stated in item (2). A market survey of traditional coal suppliers to FEA Region IV consumers indicates that there is ample production capability to support increased demand for coal from this region resulting from the prohibition order to which this finding relates and other FEA actions under section 2 of ESECA.

(7) No State or local laws or policies which would limit the extraction of this coal have been found by FEA or brought to FEA's attention.

(8) The estimated demand for coal from these supply regions, excluding any increased demand resulting from FEA actions under the authority of section 2 of ESECA, is as follows:

Year:	Demand (million tons)
1975	390
1976	394
1977	395
1978	398

(9) The estimated additional demand for coal from these supply regions resulting from the prohibition order to which this finding relates and from other FEA orders under section 2 of ESECA, will be as follows:

Year:	Demand (million tons)
1975	0.4
1976	2.5
1977	10.2
1978	12.4

(10) On the basis of the above information, FEA proposes to find that the estimated production of coal of the specific type required for use by this powerplant exceeds the estimated demand for such coal by amounts adequate to support a conclusion that such coal will be available to these powerplants during the period until December 31, 1978.

B(1) Adequate rail facilities exist between these coal supply regions and the

powerplants to transport the coal that will be used by such powerplants pursuant to this order.

(2) There is a spur line which will be able to deliver this coal from the main rail line to these powerplants.

(3) Sufficient rolling stock will be available to the Seaboard Coast Line Railroad or the Southern Railway System for transporting this coal during the period until December 31, 1978.

(iv) *The prohibition of the burning of natural gas or petroleum products as its primary energy source will not impair the reliability of service in the area served by the affected powerplants.* Based on an analysis of the information submitted to or otherwise available to FEA, and after consultation with the Federal Power Commission, FEA hereby proposes to find that the prohibition of the McManus Units #1 and #2 powerplants of the Georgia Power Company from burning natural gas or petroleum products as their primary energy source will not impair the reliability of service in the area served by such powerplants. Such finding will be based on the facts, assumptions and interpretations stated below:

(A) (1) *Interconnections and Power Dispatching.* (a) The McManus Units are within the geographical area of the Southern Company subregion of the Southeastern Electric Reliability Council (SERC) regional electric reliability council.

(b) They are interconnected with and their operations and planning are coordinated with a power pool consisting of the four companies making up the

Powerplant designation	Fuel	Type of change	Megawatts capacity change	Status and effective date
Bowen No. 4	Coal	Addition	+910	Under construction, commercial operation August 1975
Farley No. 1	Nuclear	do	+834	Under construction, commercial operation, July 1976
Wansley No. 1	Coal	do	+806	Under construction, commercial operation, April 1976
Jackson County No. 1	Oil	do	+518	Under construction, commercial operation, June 1976

(4) *Scheduled Outages.* (a) A scheduled outage of 3 weeks for each unit is estimated to be required to make any modification, installation or other physical adjustment associated with cessation of the burning of natural gas or petroleum products as the powerplants primary energy source. Immediately following modification during on-line testing and adjustment, the powerplants will be less than fully dependable. This period should not exceed 30 days.

Modifications are forecast to commence approximately October 1, 1976 and to be complete and fully tested by December 15, 1976.

(b) Planned maintenance of other powerplants rated 100 MWe or higher and nuclear plant refueling during the period the powerplant will be implementing the proposed prohibition order within the dispatching system will result in the loss of generating capability which is

Southern Company (Alabama Power Company, Georgia Power Company, Gulf Power Company, and Mississippi Power Company) plus Southeastern Power Administration.

(c) Dispatching of electric power is controlled by The Southern Company.

(d) "Dispatching system" as used later in this finding means The Southern Company dispatching system.

(2) *Forecast Peak Loads.* (a) Forecast of peak loads for the dispatching system during the year in which the Georgia Power Company is expected to be implementing the proposed prohibition order is as follows:

Fall Load Period (Sept.-Nov.) 1976, Peak 19430 MWe Sept.
Winter Load Period (Dec.-Feb.) 1976-77, Peak 16220 MWe Jan.
Spring Load Period (March-May) 1977, Peak 17760 MWe May
Summer Load Period (June-Aug.) 1977, Peak 21920 MWe Aug.

(b) The peak loads forecast have been compared with peak loads in previous similar periods and the compound load growth rate for these forecasts is 9%, which is considered reasonable.

(3) *Capacity.* (a) The present net dependable capacity of all powerplants of the dispatching system that now are engaged in the sale or exchange of electric power is 20849 MWe.

(b) Additions, retirements, and powerplant reratings during the period in which the Georgia Power Company will be implementing the proposed prohibition order, as listed below, will cause the following changes in net dependable capacity of such dispatching systems:

Powerplant designation	Fuel	Type of change	Megawatts capacity change	Status and effective date
Bowen No. 4	Coal	Addition	+910	Under construction, commercial operation August 1975
Farley No. 1	Nuclear	do	+834	Under construction, commercial operation, July 1976
Wansley No. 1	Coal	do	+806	Under construction, commercial operation, April 1976
Jackson County No. 1	Oil	do	+518	Under construction, commercial operation, June 1976

expected to average the listed values during the specified load periods

Fall, none
Winter, 3490 MWe

(5) *Net Dependable Capacity.* The forecast net dependable capacity for the dispatching system during the period (shown as quarter years) in which the powerplants are expected to be implementing the proposed prohibition order and the next quarter following is:

Fall 1976, 22520 MWe
Winter 1976-77, 22520 MWe

(6) *Gross Reserve Margin-Dispatching System.* (a) The expected minimum gross reserve margin (difference between net system capability and peak load in percent of peak load) of the dispatching system for the load periods specified are as follows:

Fall 1976, 15.9%
Winter 1976-77, 38.8%

(b) After deducting the net capacity of units scheduled for maintenance or refueling during these same load periods, the expected minimum reserve margins are:

Fall 1976, 15.9%
Winter 1976-77, 17.3%

(7) *Derating.* There will be no derating of the powerplant when using coal as the primary energy source.

(8) *System Stability.* Available information regarding system stability for the dispatching system has been evaluated for each of the load periods stated in paragraph (5) and the issuance of a prohibition order to the powerplants will not cause a significant system stability problem.

(B) *Reliability of Service.* (1) The estimated gross reserve margin of the dispatching system during the implementation period associated with the commencement of the burning of coal as a primary energy source is forecast to range between 15.9% and 17.3%, depending upon the date of the period of powerplant outage. By scheduling the implementation period during the Fall & Winter load period, the estimated gross dispatching system's reserve margin will be above 15.9% and the Federal Power Commission considers this to be an acceptable reserve margin.

(2) If dispatching system conditions at the time of the implementation period are as presently forecast by FEA in this finding, there will be no impairment of reliability of service, within the meaning of ESECA and the regulations promulgated thereunder, in the area served by the Georgia Power Company.

(3) Existing transmission system interconnections with other utilities are presently scheduled to transfer approximately 100 megawatts from the dispatching system; with the capacity to transfer approximately 1100 additional megawatts of power into the dispatching system. This capacity will provide emergency resources of electric power during the implementation period and will enhance the reliability of service.

5. OFU-068-070, Savannah Electric and Power Company, Powerplants 1, 2, 3, Generating Station—Port Wentworth, Port Wentworth, Georgia.

(a) Proposed findings and rationale for findings:

i. *Capability and Necessary Plant Equipment Finding.* Based on an analysis of the information submitted to or otherwise available to FEA, FEA proposes to find that on June 22, 1974, these powerplants had the capability and necessary plant equipment to burn coal. This proposed finding is based on facts, interpretations and assumptions stated below:

(A) These powerplants had in place on June 22, 1974, a boiler that was capable of burning coal, in that such boiler had been designed and constructed, or had been modified to enable it to burn coal as its primary energy source, or to burn coal and another fossil fuel interchangeably as its primary energy source, notwithstanding the fact that on June 22, 1974, such powerplant may not have

been burning coal as its primary energy source.

(B) Based on information filed with FEA on April 11, 1975 by the Savannah Electric and Power Company, the following significant equipment or facilities would have to be acquired or substantially refurbished:

1. Bulk coal handling system:
  - a. Railroad spur track,
  - b. Trackmobile,
  - c. Bulldozer,
  - d. Track unloading hopper,
  - e. Belt conveyor system,
  - f. Coal crusher,
  - g. Coal crusher bypass duct,
  - h. Stock-out conveyor,
  - i. Reclaim hoppers,
  - j. Belt scale,
  - k. Coal sampling, preparation, and testing equipment;
2. Equipment, coal bunker to coal burner nozzles:
  - a. Feed pipe, bunker to feed device,
  - b. Coal feeder device,
  - c. Coal feeder device to pulverizer,
  - d. Pulverizers,
  - e. Pulverizers to coal burner nozzles,
  - f. Coal burner nozzles;
  3. Furnace bottom ash removal;
  4. Ash sluice transport system and pond:

- a. Cast iron sluice line,
- b. Ash sluice pump,
- c. Ash pond;
5. Flyash systems:
  - a. Duct A.P.H. to dust collector inlet,
  - b. Ash hoppers below A.P.H.,
  - c. Dust collector ash hoppers and cyclone housing,
  - d. Dust collector outlet to stack base;
  6. Flyash handling system:
    - a. Ash hoppers to conveyor pipe,
    - b. Common conveyor pipe to silo or ash sluice line,
    - c. Ash silo;
    7. Furnace:
      - a. Sootblowers,
      - b. Superheater;
      8. Coal burning controls and instruments.

FEA assumes that on June 22, 1974, these powerplants had all other significant equipment and facilities associated with the burning of coal.

(C) Within the meaning of ESECA and the regulations promulgated pursuant thereto, the equipment and facilities listed in paragraph (b) do not individually or in combination constitute a lack of capability and necessary plant equipment to burn coal as of June 22, 1974.

(ii) *Burning of coal in lieu of natural gas or petroleum products is practicable and consistent with the purposes of ESECA.* Based on an analysis of the information submitted or otherwise available to FEA, FEA proposes to find that the burning of coal by the powerplants in lieu of petroleum products or natural gas, is practicable and consistent with the purposes of ESECA. This proposed finding is based on the facts, interpretations and assumptions stated below.

(A) (1) *Revenue Requirements.* (a) The investment costs that result from the acquisition and refurbishment of

equipment and facilities associated with the burning of coal by the powerplants are estimated to be approximately \$5,511,000. This estimate is based on existing FEA information and on information filed with the FEA by the company concerning items of equipment and facilities that would have to be acquired or refurbished and the costs of such acquisition or refurbishment.

(i) Costs of acquisition or refurbishing equipment are allocated as follows:

(A) \$4,140,000 to comply with air pollution control requirements of the Clean Air Act.

(B) \$1,371,000 to make those technical plant and equipment adjustments associated with the burning of coal, as well as to comply with environmental requirements other than those imposed by the Clean Air Act.

(b) The increase in operations costs other than fuel costs that result from the burning of coal are estimated to be approximately \$100,000 per year.

(c) (i) The price of petroleum products available to the power plants is approximately \$1.72 to \$1.82 per million BTUs. The price of coal of the type used by the power plants is approximately \$1.20 to \$1.30 per million BTUs. The burning of coal by the powerplants will result in a reduction of \$.47 to \$.57 per million BTUs or \$.45 to \$.65 per year.

(ii) The Georgia Public Utility Commission permits the inclusion of increased fuel costs in the rate base through a fuel adjustment clause and, if there is a decrease in the cost of fuel as a result of burning coal, there will be a decrease in such rate base.

(d) The total annual incremental increase in revenue requirements resulting from costs associated with burning coal as opposed to oil is \$1,507,000.

(2) *Financial Capabilities.* (a) Based on the most recent financial statements and capital expenditure programs of Savannah Electric and Power Company, as well as other information available to FEA, it has been determined that the prohibition order for the power plants is practicable. This financial assessment included an evaluation of generally accepted financial ratios; effects on capitalization as a result of the costs of burning of coal; impact on current and future construction programs; and possible impacts on rates. This assessment incorporated, but was not limited to, consideration of: the \$5.5 million investment requirement (or 3.5%) in relation to net property and plant of the company of \$156 million and 1975-1977 construction budget of the company of \$65 million (or 8.5%); the total capitalization of the company of \$92 million; the change in 1974 to 1975 construction budgets of \$16 million to \$17 million and the 21 years remaining useful life of the plant. These assessments, the above findings, and other evaluations of the general financial health of the company were the basis of this finding.

(B) Because this prohibition order will discourage the use of natural gas or petroleum products and encourage the increased use of coal, FEA proposes to find

that its issuance will be consistent with the purpose of ESECA "to provide a means to assist in meeting the essential needs of the United States for fuels." Further, on the basis of the environmental analyses conducted by FEA the analyses of air quality impacts which EPA is required to conduct prior to effectiveness of a prohibition order, as well as the necessity for the power plants to comply with the Clean Air Act and other applicable environmental protection requirements, FEA proposed to find that the prohibition order is also consistent with the purpose of ESECA to provide for a means to meet the Nation's essential fuel needs "in a manner which is consistent, to the fullest extent practicable, with existing national commitments to protect and improve the environment."

(iii) Coal and coal transportation facilities will be available during the period the prohibition order is in effect. Based on an analysis of the information submitted to or otherwise available to FEA, FEA proposes to find that coal and coal transportation facilities will be available to these powerplants during the period until December 31, 1978. The period until December 31, 1978 is the period during all or part of which the prohibition order to which these findings relate will be in effect. This proposed finding is based upon the following facts, interpretations and assumptions:

A(1) It is estimated that it will be practicable to produce coal nationally as follows:

Year:	Production (million tons)
1975	662
1976	679
1977	707
1978	735

(2) The estimated national demand, excluding any increased demand resulting from FEA action under the authority of section 2 of ESECA, is as follows:

Year:	Demand (million tons)
1975	640
1976	664
1977	688
1978	716

(3) The estimated additional national demand for coal resulting from the prohibition order to which this finding relates, and from FEA actions under authority of section 2 of ESECA, will be as follows:

Year:	Demand (million tons)
1975	0.7
1976	4.0
1977	13.6
1978	16.2

(4) Coal of the specific type required for use by this powerplant has been identified in the reserves of the Northern and Southern Appalachian Coal supply regions, which consist of Bureau of Mines Districts 1 through 8 and 13.

(5) It is estimated that it will be practicable to produce coal from the North-

ern and Southern Appalachian coal supply regions as follows:

Year:	Production (million tons)
1975	406
1976	402
1977	407
1978	412

(6) The regional and national production estimates stated in items (1) and (5) assume a surge capacity, or ability to increase production over normal levels, of approximately 4%. A 1975 study by the Bureau of Mines of the Department of the Interior indicates a national surge capacity of approximately 6%. In response to an industry survey in late 1974, the coal industry itself indicated that it had a surge capacity of up to 8%. By comparison, the increased national demand for coal resulting from the prohibition order to which this finding relates and other FEA actions under section 2 of ESECA, is less than one tenth of a percent in 1975, increasing to a maximum of 2.3% in 1978 of estimated national demand stated in item (2). A market survey of traditional coal suppliers to FEA Region IV consumers indicates that there is ample production capability to support increased demand for coal from this region resulting from the prohibition order to which this finding relates and other FEA actions under section 2 of ESECA.

(7) No State or local laws or policies which would limit the extraction of this coal have been found by FEA or brought to FEA's attention.

(8) The estimated demand for coal from these supply regions, excluding any increased demand resulting from FEA actions under the authority of section 2 of ESECA, is as follows:

Year:	Demand (million tons)
1975	390
1976	394
1977	395
1978	398

(9) The estimated additional demand for coal from these supply regions resulting from the prohibition order to which this finding relates and from other FEA orders under section 2 of ESECA, will be as follows:

Year:	Demand (million tons)
1975	0.4
1976	2.5
1977	10.2
1978	12.4

(10) On the basis of the above information, FEA proposes to find that the estimated production of coal of the specific type required for use by this powerplant exceeds the estimated demand for such coal by amounts adequate to support a conclusion that such coal will be available to these powerplants during the period until December 31, 1978.

B(1) Adequate rail facilities exist between these coal supply regions and the powerplants to transport the coal that

will be used by such powerplants pursuant to this order.

(2) There is a spur line which will be able to deliver this coal from the main rail line to these powerplants. Sufficient rolling stock will be available to the Southern Railway System for transporting this coal during the period until December 31, 1978.

(iv) The prohibition of the burning of natural gas or petroleum products as its primary energy source will not impair the reliability of service in the area served by the affected powerplants. Based on an analysis of the information submitted to or otherwise available to FEA, and after consultation with the Federal Power Commission, FEA hereby proposes to find that the prohibition of the Port Wentworth Units #1, #2, and #3 powerplants of the Savannah Electric and Power Company from burning natural gas or petroleum products as their primary energy source will not impair the reliability of service in the area served by these powerplants. Such finding will be based on the facts, assumptions and interpretations stated below:

(A)(1) Interconnections and Power Dispatching. (a) The Port Wentworth Units are within the geographical area of the Southeastern Electric Reliability Council (SERC) regional electric reliability council.

(b) They are interconnected with and their operations and planning are coordinated with the Southern Companies Subregion of SERC.

(c) Dispatching of electric power is controlled by Savannah Electric and Power Company.

(d) "Dispatching system" as used later in this finding means Savannah Electric and Power Company.

(2) Forecast Peak Loads. (a) Forecast of peak loads for the dispatching system during the year in which the Savannah Electric and Power Company is expected to be implementing the proposed prohibition order is as follows:

Spring Load Period (March-May) 1977, Peak 410 MWe May.
Summer Load Period (June-Aug.) 1977, Peak 442 MWe Aug.
Fall Load Period (Sept.-Nov.) 1977, Peak 405 MWe Sept.
Winter Load Period (Dec.-Feb.) 1977-78, Peak 379 MWe Jan.

(b) The peak loads forecast have been compared with peak loads in previous similar periods and the compound load growth rate for these forecasts is 4%, which is considered reasonable.

(3) Capacity. (a) The present net dependable capacity of all powerplants of the dispatching system that now are engaged in the sale or exchange of electric power is 489 MWe.

(b) Additions, retirements, and powerplant reratings during the period in which Savannah Electric and Power Company will be implementing the proposed prohibition order, as listed below, will cause the following changes in net dependable capacity of such dispatching system:

Powerplant designation	Fuel	Type of change	Megawatts capacity change	Status and effective date
Ettingham No. 1	Oil	Addition	+170	Under construction, commercial operation March 1977.

(4) Scheduled Outages. (a) A scheduled outage of 14 days is estimated to be required to make any modification, installation or other physical adjustment associated with cessation of the burning of natural gas or petroleum products as the powerplant primary energy source. Immediately following modification during on-line testing and adjustment, the powerplants will be less than fully dependable. This period should not exceed 30 days.

Modifications are forecast to commence approximately October 1, 1977, and to be complete and fully tested by January 15, 1978.

(b) No maintenance of other powerplants is planned within the dispatching system during the period the powerplants will be implementing the proposed prohibition order.

(5) Net Dependable Capacity. The forecast net dependable capacity for the dispatching system during the period (shown as quarter years) in which the powerplants are expected to be implementing the proposed prohibition order and the next quarter following is:

Fall 1977, 659 MWe
Winter 1977-78, 659 MWe

(6) Gross Reserve Margin-Dispatching System. (a) The expected minimum gross reserve margin (difference between net system capability and peak load in percent of peak load) of the dispatching system for the load periods specified are as follows:

Fall 1977, 62.7%
Winter 1977-78, 73.9%

(7) Derating. There will be no derating of the powerplant when using coal as the primary energy source.

(8) System Stability. Available information regarding system stability for the dispatching system has been evaluated for each of the load periods stated in paragraph (5) and the issuance of a prohibition order to the powerplants will not cause a significant system stability problem.

(b) Reliability of Service. (1) The estimated gross reserve margin of the dispatching system during the implementation period associated with the commencement of the burning of coal as a primary energy source is forecast to range between 62.7% and 73.9%, depending upon the date of the period of powerplant outage. By scheduling the implementation period during the Fall and Winter load period, the estimated gross dispatching system's reserve margin will be above 62% and the Federal Power Commission considers this to be an acceptable reserve margin.

(2) If dispatching system conditions at the time of the implementation period are as presently forecast by FEA in this finding, there will be no impairment of reliability of service, within the mean-

ing of ESECA and the regulations promulgated thereunder, in the area served by the Savannah Electric and Power Company.

(3) Existing transmission system interconnections with other utilities are presently scheduled to transfer no power into the dispatching system; with the capacity to transfer approximately 100 megawatts of power into the dispatching system. This capacity will provide emergency resources of electric power during the implementation period and will enhance the reliability of service.

#### FEDERAL MARITIME COMMISSION BARCO INTERNATIONAL CORP. AND FRITZ MANAGEMENT CORP.

##### Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, by June 19, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

##### BARCO INTERNATIONAL CORP. AND FRITZ MANAGEMENT CORPORATION

Notice of Agreement Filed for Approval by: Arthur J. Fritz, Jr., Fritz Management Corporation, 142 Sansome Street, San Francisco, California 94104.

Agreement No. FF 75-1 between Barco International Corp. (Barco) (FMC No. 293) and Fritz Management Corporation (Fritz) the holding company of Arthur J. Fritz & Co. and its affiliates (FMC No. 275) provides that, among other things, Fritz would acquire

Barco as well as its wholly owned subsidiary Export Shipping Service Corp. (Export) (FMC No. 643) and would continue to operate both firms under their respective present name and number. The qualifying officer of Barco will be retained.

A non-compete clause provides that for a period of six (6) years after the closing, Gerald Papkoff and Louis Irizarry, sole stockholders and sellers of Barco and its subsidiary, Export, will not in any manner, directly or indirectly, compete with or become interested in any competitor of Barco and Export in Dade, Broward and Monroe Counties, Florida.

By Order of the Federal Maritime Commission.

Dated: May 27, 1975.

FRANCIS C. HURNEY,  
Secretary.

[Independent Ocean Freight Forwarder License No. 865-R]

#### BARNETT/NOVO INTERNATIONAL CORP. Order of Revocation

On May 8, 1975, Barnett/Novo International Corp., 733 Third Avenue, New York, New York 10017 voluntarily surrendered its Independent Ocean Freight Forwarder License No. 865-R for revocation.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 1 (revised) Section 7.04(f) (dated 9/15/73):

It is ordered, That Independent Ocean Freight Forwarder License No. 865-R of Barnett/Novo International Corp. be and is hereby revoked effective May 8, 1975, without prejudice to reapply for a license at a later date.

It is further ordered, That a copy of this Order be published in the FEDERAL REGISTER and served upon Barnett/Novo International Corp.

ROBERT S. HOPE,  
Managing Director.

[FR Doc.75-14192 Filed 5-29-75;8:45 am]

[Independent Ocean Freight Forwarder License No. 417]

#### CANADIAN GULF LINE OF FLORIDA, INC. Order of Revocation

By letter dated April 14, 1975, Canadian Gulf Line of Florida, Inc., P.O. Box 4301, Miami, Florida 33101 was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder License No. 417 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission on or before May 10, 1975.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4, further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

Canadian Gulf Line of Florida, Inc. has failed to furnish a valid surety bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 1 (revised) Section 7.04(g) (dated 9/15/73):

It is ordered, That Independent Ocean Freight Forwarder License No. 417 be returned to the Commission for cancellation.

It is further ordered, That Independent Ocean Freight Forwarder License No. 417 of Canadian Gulf Line of Florida, Inc. be and is hereby revoked effective May 10, 1975.

It is further ordered, That a copy of this Order be published in the FEDERAL REGISTER and served upon Canadian Gulf Line of Florida, Inc.

ROBERT S. HOPE,  
Managing Director.

### FEDERAL POWER COMMISSION

[Docket No. CP75-332]

### ALGONQUIN GAS TRANSMISSION CO. Application

MAY 20, 1975.

Take notice that on May 8, 1975, Algonquin Gas Transmission Company (Applicant), 1284 Soldiers Field Road, Boston, Massachusetts 02135, filed in Docket No. CP75-332 an application pursuant to section 7(c) of the Natural Gas Act for authorization to receive gas from certain participating resale customers of Applicant, deliver such gas through the facilities of Texas Eastern Transmission Corporation (Texas Eastern) to Consolidated Gas Supply Corporation (Consolidated) for storage, and redeliver such gas to the participating customers, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

The proposed storage arrangements are the result of a three-year agreement between Applicant and Consolidated which provides for the execution in each of the years 1974, 1975, and 1976 of supplemental agreements specifying for each then current year a volume of gas to be stored by Consolidated for Applicant, a volume of gas for sale to Consolidated and a volume of gas to be returned to Applicant. In 1974, according to Applicant, Consolidated did not call upon Applicant to sell gas to Consolidated.

The application states that Consolidated has advised it will have available the same storage capacity which was made available during the 1974-1975 summer and winter periods for use during the 1975-1976 and 1976-1977 injection and withdrawal seasons and that Consolidated has stated that it will not request any volumes of gas to be made available for sale to Consolidated because of increased curtailments in deliveries by natural gas pipeline suppliers to the participants in the storage program. In addition to this Basic Storage Service, Applicant states, Consolidated has advised of a Supplemental Storage Service capability also for use during the next two input and withdrawal seasons. Applicant further states that Consolidated has stated that the charges for both services will be in accordance with the rates contained in Consolidated's effective Rate Schedule GSS.

Applicant states that Consolidated's part in the storage arrangement is the subject of Consolidated's application in Docket No. CP73-206. The terms of the proposed storage service are as follows: Applicant will receive from participating customers, on a best-efforts basis, during each of the next two input storage seasons, a volume of gas under the Basic Storage Service, which will provide a Basic Storage Volume of up to 1,122,000 Mcf, and a volume of gas under the Supplemental Storage Service, which will provide a Supplemental Storage Volume of up to 3,200,000 Mcf. The Basic Storage Volumes are to be returned by Applicant on a firm basis and the Supplemental Storage Volumes are to be returned on an interruptible basis during each of the next two withdrawal seasons. Each customer may request that up to 50 percent of the stored volumes under both services be carried over from the first season to the second season. The deliveries of the return gas by Consolidated to Applicant and its customers will be effected through the facilities of Texas Eastern and shall be made at a daily volume not to exceed the Basic and Supplemental Daily Demands.

Applicant intends to charge its customers \$1.15 per 1,000,000 Btu equivalent of natural gas delivered for the Basic Storage Service and \$1.00 per 1,000,000 Btu equivalent of natural gas delivered for the Supplemental Storage Service. The minimum bill shall be the sum of each of Applicant's customer's Basic Storage Volume for each 12-month period multiplied by the \$1.15 charge and the Supplemental Storage Volume for each customer multiplied by the \$1.00 charge. The minimum bill shall be reduced for the first 12-month period by the carryover volume multiplied by 50 cents per 1,000,000 Btu equivalent of natural gas.

The Basic and Supplemental Storage Volumes (Btu equivalent) provided by Applicant for its customers and the Basic and Supplemental Daily Demand Volumes (Btu equivalent) are as follows:

Buyer	Million Btu	
	Basic storage capacity	Basic storage demand
Bay State Gas Co.	91,617	1,499

Any person desiring to be heard or to make any protest with reference to said application should on or before June 11, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.75-13900 Filed 5-29-75; 8:45 am]

### FEDERAL RESERVE SYSTEM

#### CENTRAL BANCORPORATION, INC.

#### Proposed Acquisition of The Shawnee Life Insurance Company

The Central Bancorporation, Inc., Cincinnati, Ohio, has applied, pursuant to section 4(c) (8) of the Bank Holding Company Act (12 U.S.C. 1843(c) (8)) and § 225.4(b) (2) of the Board's Regulation Y, for permission to acquire voting shares of The Shawnee Life Insurance Company, Phoenix, Arizona. Notice of the application was published on April 1, 1975 in the Arizona Weekly Gazette, a newspaper circulated in Phoenix, Arizona; and on March 20, 1975 in The Cincinnati Enquirer, a newspaper circulated in Cincinnati, Ohio.

Applicant states that the proposed subsidiary would engage in the activities of acting as underwriter for credit life and credit accident and health insurance which is directly related to extensions of credit by the bank holding company system. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Cleveland.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than June 18, 1975.

Board of Governors of the Federal Reserve System, May 19, 1975.

[SEAL] ROBERT SMITH, III,  
Assistant Secretary of the Board.

[FR Doc.75-14163 Filed 5-29-75; 8:45 am]

### CITIBANC GROUP, INC.

#### Order Approving Acquisition of Bank

Citibanc Group, Inc., Alexander City, Alabama, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a) (3) of the Act (12 U.S.C. 1842(a) (3)) to acquire 51 per cent or more of the voting shares of Peoples Bank, Anniston, Alabama.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in § 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the eighth largest of nine multibank holding companies in Alabama, controls five banks with aggregate deposits of \$57.7 million, representing .7 of one per cent of total deposits in commercial banks in the State. Acquisition of Bank (deposits of \$1.7 million) would increase Applicant's share of deposits by .02 of one per cent and would not result in a significant increase in the concentration of banking resources in Alabama.

Bank is the smallest of 12 commercial banking organizations in the Calhoun County banking market (approximated by Calhoun County, plus the city of Heflin) and controls less than 1 percent of the total commercial bank deposits in the market. Three of the State's four largest multibank holding companies are already represented in the market with one bank each, and together they control approximately 49 percent of market deposits. Applicant's closest subsidiary is located approximately 34 miles from Bank in a separate banking market. There does not appear to be any significant existing competition between Bank and any of Applicant's banking or non-banking subsidiaries. Furthermore, it does not appear that any significant competition between Applicant's banks and Bank is likely to develop due to Alabama's restrictive branching laws. Nor does the record indicate that it is likely that Applicant would enter this market *de novo*. Therefore, on the basis of the facts of record, the Board concludes that consummation of the proposal would not have significant adverse effects on existing or potential competition in any relevant area, and that the competitive considerations are consistent with approval of the application.

The financial and managerial resources and future prospects of Applicant, its subsidiaries and Bank are considered generally satisfactory. In its Order of December 22, 1972, approving the formation of Applicant as a bank

<sup>1</sup> All banking data are as of June 30, 1974 and reflect bank holding company formations and acquisitions approved through March 1, 1975.

holding company, the Board noted that a substantial debt was being assumed by a principal of Applicant and the Board viewed the proposal as if the debt was in fact being assumed by Applicant since the funds required to service the debt would be derived primarily from Applicant. The principal of Applicant has made some efforts in reducing this debt; however, the Board expects that additional measures will be instituted promptly to assure that the debt is retired in a timely manner. In connection with this proposal, Applicant will be incurring acquisition debt directly. It appears that the projected earnings of Applicant are sufficient to service this debt without impairing the financial condition of Applicant, its present subsidiaries, and Bank. Accordingly, the Board is of the view that considerations relating to the banking factors are consistent with approval of the application.

With respect to convenience and needs considerations, affiliation with Applicant will make available to Bank the expertise of Applicant's subsidiaries in the areas of specialized loans and investment portfolio analysis, and such services should benefit the residents of the relevant market. These considerations relating to convenience and needs are consistent with approval of the application. It is the Board's judgment that the proposed transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,<sup>2</sup> effective May 19, 1975.

[SEAL] GRIFFITH L. GARWOOD,  
Assistant Secretary of the Board.

[FR Doc.75-14164 Filed 5-29-75; 8:45 am]

### FIRST INTERNATIONAL BANCSHARES, INC.

#### Acquisition of Bank

First International Bancshares, Inc., Dallas, Texas, has applied for the Board's approval under section 3(a) (3) of the Bank Holding Company Act (12 U.S.C. 1842(a) (3)) to acquire 100 per cent of the voting shares (less directors' qualifying shares) of First International Bank in El Paso, National Association, El Paso, Texas. The factors that are considered in acting on the application are set forth in

<sup>2</sup> Voting for this action: Vice Chairman Mitchell and Governors Bucher, Holland and Coldwell. Absent and not voting: Chairman Burns and Governors Sheehan and Wallach.

## NOTICES

section 3(c) of the Act (12 U.S.C. 1842 (c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than June 18, 1975.

Board of Governors of the Federal Reserve System, May 19, 1975.

#### TEXAS COMMERCE BANCSHARES, INC. Acquisition of Bank

Texas Commerce Bancshares, Inc., Houston, Texas, has applied for the Board's approval under section 3(a) (3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire indirectly through its wholly owned subsidiary, Texas Commerce Shareholders Company, Houston, Texas, 2,100 additional voting shares of First National Bank of Stafford, Harris County, Texas. Applicant's proposal to acquire these additional shares of a new issue of stock by First National Bank of Stafford, through the exercise of stock purchase rights acquired as a present shareholder of 24.7 percent of the bank stock, will not increase Applicant's percentage of present ownership. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than June 18, 1975.

Board of Governors of the Federal Reserve System, May 19, 1975.

[SEAL] ROBERT SMITH, III,  
Assistant Secretary of the Board.  
[FR Doc. 75-14168 Filed 5-29-75; 8:45 am]

#### TORONTO-DOMINION BANK Proposed Retention of Bank Trust Company

The Toronto-Dominion Bank, Toronto, Ontario, Canada, has applied, pursuant to section 4(c) (8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b) (2) of the Board's Regulation Y, for permission to retain voting shares of The Toronto-Dominion Bank Trust Company, New York, New York. Notice of the application was published on March 21, 1975, in The New York Times, a newspaper circulated in New York, New York.

Applicant states that the proposed subsidiary would engage in the activities of a trust company, such as the performance of services as paying agent, co-paying agent, transfer agent, custodian, registrar, dividend disbursing agent, de-

pository and related functions for public and private issuers of securities. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of New York.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than June 17, 1975.

Board of Governors of the Federal Reserve System, May 16, 1975.

[SEAL] ROBERT SMITH, III,  
Assistant Secretary of the Board.  
[FR Doc. 75-14169 Filed 5-29-75; 8:45 am]

#### VICI BANCORP.

##### Order Approving Formation of Bank Holding Company

Vici Bancorporation, Vici, Oklahoma, has applied for the Board's approval under section 3(a) (1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 80 per cent or more of the voting shares of the Bank of Vici, Vici, Oklahoma.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant is a non-operating corporation organized for the purpose of becoming a bank holding company through the acquisition of Bank, Bank (deposits of \$5.5 million),<sup>1</sup> the only bank in Vici, is the second largest of five banks in the

<sup>1</sup> Banking data are as of June 30, 1974.

relevant market area, approximated by Dewey County, and holds 20.6 per cent of total deposits in the County. Dewey County (population of approximately 6,000) is a predominantly agricultural area in northwestern Oklahoma approximately 120 miles northwest of Oklahoma City. Inasmuch as the proposed formation of the bank holding company represents merely a transfer of control of Bank from individuals to a corporation owned essentially by the same individuals, consummation of the transaction would not eliminate any existing or potential competition nor would it increase the concentration of banking resources in any relevant area. Accordingly, the Board concludes that competitive considerations are consistent with approval of the application to acquire Bank.

The financial and managerial resources and future prospects of Applicant are dependent upon these same factors in Bank and are regarded as generally satisfactory and consistent with approval of the application. Although consummation of the transaction is not expected to produce any immediate changes in Bank's operations nor immediate benefits to the public, considerations relating to the convenience and needs of the community to be served are consistent with the approval of the application. It is the Board's judgment that consummation of the holding company formation would be consistent with the public interest, and that the application to acquire Bank should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Kansas City pursuant to delegated authority.

By order of the Board of Governors, effective May 16, 1975.

[SEAL] GRIFFITH L. GARWOOD,  
Assistant Secretary of the Board.  
[FR Doc. 75-14170 Filed 5-29-75; 8:45 am]

#### GENERAL ACCOUNTING OFFICE REGULATORY REPORTS REVIEW

##### Notice of Receipt of Report Proposal

The following request for clearance of a report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO on May 23, 1975. See 44 U.S.C. 3512 (c) & (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of the request received; the name of the agency sponsoring the proposed collection of in-

<sup>2</sup> Voting for this action: Chairman Burns and Governors Mitchell, Bucher, Holland and Coldwell. Absent and not voting: Governors Sheehan and Wallich.

## NOTICES

formation; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed report form are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed form, comments (in triplicate) must be received on or before June 17, 1975, and should be addressed to Mr. Monte Canfield, Jr., Director, Office of Special Programs, United States General Accounting Office, 425 I Street NW., Washington, D.C. 20548.

Further information may be obtained from the Regulatory Reports Review Officer, 202-376-5425.

#### FEDERAL ENERGY ADMINISTRATION

Request clearance of a new FEA Form, U317-S-O entitled, Utility Survey of Household Energy Use. This is a voluntary survey of utilities to obtain electricity and gas usage by households. This utility survey is to support a voluntary household survey of energy usage, in which the respondent is asked to authorize the FEA to obtain information on actual usage and cost from their utility companies.

Approximately 125 utility companies are expected to participate in the survey, processing an estimated 4,000 authorizations. Respondent burden is estimated to total about 2½ hours per respondent.

CARL F. BOGAR,  
Assistant Director,  
Regulatory Reports Review.

#### NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 75-35]

#### NASA SPACE PROGRAM ADVISORY COUNCIL (SPAC) APPLICATIONS COMMITTEE

##### Meeting

The NASA SPAC Applications Committee will meet on June 13, 1975, at the Lyndon B. Johnson Space Center of the National Aeronautics and Space Administration. The meeting will be held in room 720 of Building Number 1, Lyndon B. Johnson Space Center, Houston, Texas 77058. Members of the public will be admitted to the meeting beginning at 9 a.m., on a first come first served basis up to the seating capacity of the room, which can accommodate about 40 persons. The approved agenda for the meeting is noted below:

The NASA SPAC Applications Committee serves in an advisory capacity only. It is concerned with the total range of applications of space-derived, space-related technology including communications, meteorology, earth resources survey (includes agriculture/forestry, cartography, geography, geology/hydrology, oceanography), earth and ocean physics,

solar energy conversion, space processing, and other technology applications. Currently, the Committee comprises 11 members, and a recording secretary, Louis B. C. Fong, who can be contacted for further information at (202) 755-8620.

The following is the approved agenda and schedule for the June 13, 1975, meeting of the SPAC Applications Committee:

Time	Topic
9 a.m.-----	Chairman's Remarks. Minutes of Mar. 13, 1975, meeting. Report on meeting with SPAC, Mar. 25-26, 1975, action items.
9:30 a.m.-----	Status of Solar Heating and Cooling Activities. With the establishment of the Energy Research and Development Administration (ERDA) the Committee members are interested in keeping abreast of the status of the NASA-HUD-NSF Solar Heating and Cooling Program now that it is under ERDA management.
10:15 a.m.-----	FY 1977 Applications Program-Issues and New Start Priorities. At the Space Program Advisory Council (SPAC) meeting on March 25-26, 1975, a number of issues were identified in the FY 1977 Applications Program Budget. As a consequence, the Applications Committee was tasked to address the Applications Program issues and the FY 1977 new start priorities. The Committee will discuss the issues and attempt to reach conclusions and recommendations for presentation at the next SPAC meeting in July 1975.
1 p.m.-----	Comments and Recommendations Regarding FY 1977 Issues and New Start Priorities.
4:30 p.m.-----	Adjourn.
	DUWARD L. CROW, Assistant Administrator for the Office of DOD and Inter-agency Affairs, National Aeronautics and Space Administration.

#### NUCLEAR REGULATORY COMMISSION

##### ADVISORY COMMITTEE ON REACTOR SAFEGUARDS' WORKING GROUP ON HYPOTHETICAL CORE DISRUPTIVE ACCIDENT (HCDA)

##### Change of Time of Meeting

The meeting of the ACRS' Working Group on Hypothetical Core Disruptive Accident scheduled for June 3, 1975, notice of which was published at 40 FR

21793, May 19, 1975 has been changed as follows:

That portion of the meeting open to the public will commence at 10:30 a.m. All other matters pertaining to the meeting remain unchanged.

JOHN C. HOYLE,  
Advisory Committee  
Management Officer.

MAY 27, 1975.

[FR Doc. 75-14264 Filed 5-29-75; 8:45 am]

#### REGULATORY GUIDE Issuance and Availability

The Nuclear Regulatory Commission has issued a new guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 5.52, "Standard Format and Content for the Physical Protection Section of a License Application (For Facilities Other Than Nuclear Power Plants)," describes the information required in the physical protection section of an application and prescribes a standard format for presenting the information in an orderly arrangement.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed (listed below) or (2) improvements in all published guides are encouraged at any time. Public comments on Regulatory Guide 5.52 will, however, be particularly useful in evaluating the need for an early revision if received by July 24, 1975.

Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section.

Regulatory Guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Telephone requests cannot be accommodated. Regulatory Guides are not copyrighted and Commission approval is not required to reproduce them.

Other Division 5 Regulatory Guides

currently being developed include the following:

Mass Calibration Techniques for Nuclear Material Control  
Calibration and Error Estimation Methods for Nondestructive Assay  
Management Review of Materials and Plant Protection Programs and Activities  
Protection of Nuclear Power Plants Against Industrial Sabotage  
Measurement Control Program for Special Nuclear Material Control and Accounting  
Monitoring Transfers of Special Nuclear Material

Considerations for Determining the Systematic Error of Special Nuclear Material Accounting Measurement  
Interior Intrusion Alarm Systems  
Preparation of Uranyl Nitrate Solution as a Working Standard  
Shipping and Receiving Control of Special Nuclear Materials  
Barrier Design and Placement  
Nondestructive Assay of U-235 Content of Unpoisoned Low-Enrichment Uranium Fuel Rods  
Methods for the Accountability of Uranium Dioxide  
Internal Security Audit Procedures  
Nondestructive Assay of Plutonium-Bearing Fuel Rods  
Training and Qualifying Personnel for Performing Measurement Associated with the Control and Accounting of Special Nuclear Material

Auditing of Measurement Control Program Reconciliation of Statistically Significant Shipper-Receiver Differences  
Prior Measurement Verification  
Verification of Prior Measurements by NDA  
Nondestructive Assay of High-Enrichment Uranium Scrap by Active Neutron Interrogation  
Control and Accounting for Highly Enriched Uranium in Waste  
Considerations for Determining the Random Error of Special Nuclear Material Accounting Measurement  
Use of Closed Circuit TV for Area Surveillance  
Preparation of Working Calibration and Test Materials for Analytical Laboratory Measurement Control Programs—Part I: Plutonium Nitrate Solutions

(5 U.S.C. 552(a))

Dated at Rockville, Maryland this 19th day of May 1975.

For the Nuclear Regulatory Commission.

ROBERT B. MINOGUE,  
Acting Director,  
Office of Standards Development.

#### TRADE POLICY STAFF COMMITTEE Schedule and Locations of Hearings

Schedule and locations of public hearings relating to International Trade Negotiations and to the Generalized System of Preferences:

TUESDAY, JUNE 3

Washington, D.C., 1:30 p.m., New Executive Office Building (entrance on 17th Street between Pennsylvania Ave. & H Street NW), Room 2008.

WEDNESDAY, JUNE 4, P.M.

Hartford, CT, 1 p.m., U.S. Post Office Building, Room 201, 135 High Street.

THURSDAY, JUNE 5 A.M. & P.M.

Hartford, CT, 10 a.m.

FRIDAY, JUNE 6 A.M. & P.M.

Rochester, New York, 10 a.m., Federal Building and Court House, Room 402, 100 State Street.

SATURDAY, JUNE 7

Rochester, New York, 10 a.m.

The addresses and times for the hearings to be held in the cities listed below will be announced shortly in the FEDERAL REGISTER.

Monday, June 9.....	Chicago.
Tuesday, June 10.....	Chicago.
Wednesday, June 11.....	Wichita.
Thursday, June 12.....	Dallas.
Friday, June 13.....	Dallas.
Monday, June 16.....	New Orleans.
Tuesday, June 17.....	New Orleans.
Thursday, June 19.....	Atlanta.
Friday, June 20.....	Atlanta.
Monday, June 23.....	Minneapolis.
Tuesday, June 24.....	Minneapolis.
Wednesday, June 25.....	Portland.
Thursday, June 26.....	Portland.
Friday, June 27.....	San Francisco.
Monday, June 30.....	San Francisco.
Tuesday, July 1.....	Phoenix.
Tuesday, July 8.....	Philadelphia.
Monday, July 14 and thereafter.	Washington.

Additional hearings in other cities may be added later, at the discretion of the chairman of the Trade Policy Staff Committee.

#### EXTENDED DEADLINES

I. Requests to present oral testimony and related briefs should be received at least 48 hours before testimony is to be given.

II. Briefs not related to requests to present oral testimony may be submitted at any time, but should be submitted prior to July 15 in order to receive adequate consideration.

III. The requirement that briefs be submitted in 20 copies, and the requirement that one copy be made under oath or affirmation, are hereby waived.

1. *Requirements waivable.* The requirement stated in I above, and the requirement that a brief be submitted as a prerequisite to presenting oral testimony, may be waived by the Special Rep-

resentative for Trade Negotiations, a Deputy Special Representative for Trade Negotiations, or the Chairman of the Committee. In the scheduling of witnesses priority will be given to those who meet the procedural requirements of the public notices.

2. *Previous Public Notice.* In the FEDERAL REGISTER of May 1, 1975 (40 FR 19045), it was announced that pursuant to sections 133 and 503(a) of the Trade Act of 1974 (Pub. L. 93-618, 38 Stat. 1978) and to § 2002.2(b) for the Regulations regarding the Office of the Special Representative for Trade Negotiations (40 FR 18419, April 28, 1975), the Trade Policy Staff Committee chaired by the Office of the Special Representative for Trade Negotiations would hold public hearings concerning, *inter alia*, (1) the Notice of International Trade Negotiations and of Articles which may be Affected by such Negotiations, published in the FEDERAL REGISTER of January 14, 1975 (40 FR 2659), (2) the Notice of Articles which will be considered for Designation as Eligible Articles for Pur-

poses of the Generalized System of Preferences, published in the FEDERAL REGISTER of March 26, 1975 (40 FR 13457), (3) reductions in rates of duty or in other trade barriers which the United States should seek from other nations in negotiations, and (4) nontariff barriers of the United States and other countries which should be eliminated, reduced or harmonized in negotiations.

3. *Subject Matter of Public Hearings.* The terms or reference for these public hearings are set forth in section 133 of the Trade Act of 1974. That section provides that in connection with any proposed trade agreement under chapter 1 or section 123 or 124 of the Trade Act of 1974, the President shall afford an opportunity for any interested person to present his views concerning (i) any article which has been listed as being under consideration for modification or continuance of United States duties, continuation of United States duty-free or excise treatment, or additional duties, (ii) any article which should be so listed, or (iii) any other matter relevant to proposed trade agreements. The President also is to afford an opportunity for any interested person to present such views with respect to articles which have been listed as being under consideration for designation as eligible articles for purposes of the United States Generalized System of Preferences.

The lists of articles to which the preceding paragraph refers have been published. Articles which are being considered for inclusion in international trade negotiations were listed in the notice published in the FEDERAL REGISTER of January 14, 1975, referred to in section 2 above. Articles which are being considered for designation as eligible articles for purposes of the Generalized System of Preferences were listed in the notice published in the FEDERAL REGISTER of March 26, 1975, also referred to in section 2 above.

The Trade Policy Staff Committee will receive briefs and testimony on any mat-

ter relevant to the international negotiations or the Generalized System of Preferences. However, to avoid duplication and to provide interested parties with guidance as to the materials that will be most useful to the Committee, it is suggested that persons appearing before the Committee or submitting briefs devote particular attention to the following:

(a) Reductions in rates of duty or in other trade barriers which the United States should seek from other nations participating in the negotiations.

(b) Articles which the United States should consider for modifications, eliminations, reductions or continuances of present rates of duty in the negotiations.

(c) Nontariff barriers of the United States and other countries which should be eliminated, modified, continued, or harmonized, including international product standards, government procurement practices, quantitative restrictions upon imports, and customs valuation practices, or

(d) Any matter relevant to the generalized system of preferences.

The International Trade Commission, in accordance with sections 131(b) and 503(a) of the Trade Act, will advise the President of its judgment as to the probable economic effects on domestic industries producing like or directly competitive products and on consumers of modifications or continuances of U.S. duties, and of the provision of duty-free treatment for eligible articles from designated beneficiary developing countries pursuant to the Generalized Systems of Preferences. The Commission has held public hearings to assist it in the preparation of its advice to the President. Since briefs and testimony presented to the International Trade Commission for this purpose will be made available to the Trade Policy Staff Committee, the same material need not be submitted to the Committee.

4. *Requests to Present Oral Testimony.* Requests to present oral testimony should be sent to the Secretary, Trade Policy Staff Committee, Room 729, 1800 G Street NW., Washington, D.C. 20506. Requests to present oral testimony must state briefly the interest of the applicant in the subject matter and the position to be taken by the applicant.

In addition, requests to present oral testimony should include the following information:

(a) The name, address, telephone number, and official position (if applicable) of the party submitting the request.

(b) The description and, if possible, the tariff item number(s), whether foreign or domestic, of the commodity or commodities in which the party has an interest.

(c) The subject or subjects to be dealt with in the proposed testimony, listed individually and, in the case of import restrictions other than duties, described with sufficient particularity to identify the restriction to be discussed.

(d) The name, address, and telephone number of the person (or persons) who will present oral testimony.

(e) The amount of time requested for the presentation of oral testimony, and if more than 15 minutes is requested, the reasons therefore.

Each person scheduled to appear before the Committee will be notified of the date and the amount of time allotted for his presentation. If such time is inconvenient to the person requesting appearance, the Committee will consider rescheduling that person. The Committee reserves the right to restrict the time allotted for oral presentation and to deny requests when it determines that the proposed testimony is not relevant to the hearings.

5. *Suggestions on the Preparation of Written Briefs and Oral Testimony.* The Committee suggests that those preparing testimony or briefs for submission to the Committee include the following points in their submission.

(a) An introductory summary statement indicating the interest of the witness or person on whose behalf the brief is submitted.

(b) A description of the product(s) of interest, including where possible the name of the product (both trade and generic), its material content, and its use unless such facts are obvious to the average person. Brochures and advertising material frequently serve these purposes.

(c) The numerical identification of the product in the various nomenclatures of tariffs and statistical systems such as the Tariff Schedules of the United States (TSUS), the Brussels Tariff Nomenclature (BTN), the Standard Industrial Classification (SIC), the Standard International Trade Classification (SITC), the Schedule B (Statistical Classification of Domestic and Foreign Commodities Exported From the United States), and any other relevant numbers which would help in the identification of the product.

(d) If a foreign tariff or other type of trade restriction is involved, the countries of interest should be identified.

(e) The Committee is interested in views on whether the form of a duty (U.S. or foreign) should be changed. For example, should a specific rate of duty, such as 4 cents per pound, be converted to an ad valorem rate, or vice versa.

(f) If possible, submissions should contain information on the characteristics of the foreign market, such as data for several recent years on consumption, production, imports and exports of the product in the foreign country concerned; how the petitioner sells his product (i.e., through a middleman, or directly to the consumer) and a description of present sales efforts and problems encountered; the extent of competition in export markets from domestic producers and other foreign suppliers, including comparative delivered prices and competition from similar but not identical products; and any other relevant

information which might appear to be useful to U.S. negotiators.

(g) The Committee would find it useful for briefs to include suggestions of possible solutions to the trade barrier of concern. Such suggested solutions should, if possible, take into account circumstances and conditions in the United States or foreign country which the United States will have to deal with in negotiations.

(h) An assessment or judgment and basis therefor of the increase in imports or exports which could be anticipated under foreseeable economic and commercial conditions if the suggested solution to the barrier could be negotiated.

(i) While the Committee welcomes the full presentation of oral testimony, it is preferable that such testimony not duplicate material submitted in writing since both will be reviewed by the Committee. Instead, oral presentations should emphasize the salient points of the briefs submitted, expand upon their contents when necessary, cover any developments since the briefs were submitted, or emphasize materials not easily susceptible of explanation in writing. Extensive statistical material to be presented should accompany briefs.

In general, witnesses should confine their presentations to factual information pertinent to the specific matters under consideration and their interpretations and conclusions therefrom.

6. *Rebuttal Briefs.* In order to assure parties the opportunity to contest the information provided by other interested parties, the Committee will entertain rebuttal briefs filed by any party within one month after the close of the hearings. Rebuttal briefs must conform, in form and number, to the regulations of the Committee and the provisions of this notice applicable to written briefs. Rebuttal briefs should be limited to demonstrating errors of fact or analysis not pointed out in the briefs or hearings, and should be as concise as possible.

7. *Information Exempt from Public Inspection.* Parties are referred to § 2003.6 of the Committee's regulations, published in the *FEDERAL REGISTER* of April 28, 1975 (40 FR 18419), for the rules concerning information labelled "Business Confidential" and exempt from public inspection.

Oral testimony should contain no confidential information. Any business confidential information should be attached to briefs and be easily separable. If the Committee determines that it cannot accord confidential treatment to information submitted, that material will be returned to the party who submitted it.

8. *Public Inspection of Written Materials.* Subject to the regulations of the Committee all written materials filed with the Committee in connection with these hearings will be open to public inspection, by appointment, at the office of the Trade Policy Staff Committee, Room 729, 1800 G Street NW., Washington, D.C. 20506.

9. *Transcripts of the Hearings.* All oral testimony before the Committee will be recorded and transcribed. Persons giv-

ing testimony before the Committee may correct errors of form or expression in their testimony, but may not change substance. All corrections must be approved by the Secretary of the Committee. The cost of making such corrections will be the responsibility of the person requesting the corrections.

Transcripts of the hearings will be available for inspection or purchase.

10. *Attendance at the Hearings.* The hearings will be open to the public. Heavy or disruptive equipment, such as television equipment, will not be admitted to the hearings without the permission of the Chairman.

11. *Communications.* All communications with regard to these hearings should be addressed to: Secretary, Trade Policy Staff Committee, Office of the Special Representative for Trade Negotiations, 1800 G Street NW., Room 729, Washington, D.C. 20506. The telephone number of the Secretary of the Committee is (202) 395-3395.

ALLEN H. GARLAND,  
Chairman.

#### POSTAL RATE COMMISSION

[Docket No. R74-1; Order No. 63]

#### POSTAL RATE AND FEE INCREASES, 1973

#### Order Establishing Procedure Subsequent To Presiding Judge's Initial Decision

MAY 23, 1975.

Anticipating the issuance of the Presiding Judge's initial decision, the Commission hereby adopts certain procedures to facilitate the decisional process.

*The Commission orders:* (1) Within 20 days after the date of issuance of the Presiding Judge's initial decision, any participant in this proceeding may file with the Commission a brief on exceptions to that initial decision. Within 10 days after the final date for the filing of briefs on exceptions, any participant may file a response to briefs on exceptions. Notwithstanding any other provision of the Commission's rules of practice, participants shall file an original and 32 fully conformed copies of their briefs on exceptions and their responses to briefs on exceptions.

(2) Briefs on exceptions and responses to briefs on exceptions shall be governed by the Commission's rules of practice. The contents of such briefs shall conform particularly to the requirements of section 40(b) of the rules of practice, including the requirement that the discussion of evidence, reasons, and authorities shall be specifically directed to the findings, conclusions, and recommendations in the initial decision to which exception is taken. In addition, the briefs shall also be governed by the following rules:

(a) When exception is taken to a statement of fact contained in the initial decision, reference also must be made to the page, exhibit, or part of the record relied upon to support the exception;

(b) The Commission will disregard any portion of a brief on exceptions,

which fails to comply with section 34(c) of the rules of practice, requiring that briefs be completely self-contained and prohibiting incorporation by reference of any portion of any other brief, pleading, or document.<sup>1</sup> This provision shall not be construed as a waiver of the Commission's right to disregard any portion of a brief for failure to comply with any other requirement of its rules of practice or of this order. (c) The number of pages for a brief on exceptions or a brief in response to briefs on exceptions is limited as follows:

- (i) For the Postal Service, 100 pages.
- (ii) For the Officer of the Commission, 100 pages.
- (iii) For any other participant, 75 pages.

(3) Oral argument shall commence before the Commission at 9 a.m., July 7, 1975, in the Commission's hearing room. Any participant who wishes to present oral argument to the Commission shall notify the Secretary, in writing, of the amount of time desired on or before the final date for the filing of briefs on exceptions. In requesting oral argument, parties with substantially like interests are encouraged to group themselves for a single presentation.

(4) The Secretary shall allocate time for oral argument and promptly notify the participants of the allocation. For this purpose, the Secretary may group parties with substantially like interests so that oral argument will proceed expeditiously.

By the Commission.

[SEAL] JAMES R. LINDSAY,  
Secretary.

#### SECURITIES AND EXCHANGE COMMISSION

[Files No. 500-1]

#### AMERICAN AGRONOMICS CORP.

#### Suspension of Trading

MAY 22, 1975.

The common stock of American Agronomics Corp. being traded on the American Stock Exchange pursuant to provisions of the Securities Exchange Act of 1934 and all other securities of American

<sup>1</sup> In his Notice of Briefing Schedule dated December 2, 1974, the CALJ stated: "I am authorized by the Commission to state that it does not plan to allow a substantial period of time for briefs on exceptions, expecting them to state the exception and to rely on the arguments set forth in initial briefs, except where a wholly new matter is raised." Some clarification of this language may be in order. Participants may, of course, restate in briefs and reply briefs on exceptions arguments (verbatim, if they wish) set forth in briefs to the CALJ in support of exceptions or in opposition to exceptions taken by others, but they are not expected to advance new arguments unrelated to the initial decision. The Commission did not intend, in the quoted language, that the requirements of section 34(c) be dispensed with in briefs and reply briefs on exceptions.

Agronomics Corp. being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such exchange and otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to sections 19(a) (4) and 15(c) (5) of the Securities Exchange Act of 1934, trading in such securities on the above mentioned exchange and otherwise than on a national securities exchange is suspended, for the period from May 23, 1975 through June 1, 1975.

By the Commission.

[70-5668]

#### GENERAL PUBLIC UTILITIES CORP.

#### Proposed Issue and Sale of Common Stock to Shareholders Pursuant to Dividend Reinvestment Plan

MAY 22, 1975.

Notice is hereby given that General Public Utilities Corporation ("GPU"), 80 Pine Street, New York, New York 10005, a registered holding company, has filed a declaration and amendments

thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a) and 7 of the Act and Rule 50(a) (1) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, as amended, which is summarized below, for a complete statement of the proposed transactions.

GPU proposes to issue and sell common stock to its common stockholders pursuant to an "Automatic Dividend Reinvestment Plan" ("Plan"), which will be administered by Hartford National Bank and Trust Company of Hartford, Connecticut, as "Agent" for the participating shareholders. Under the Plan, a holder of GPU common stock may elect to have his dividends automatically invested in additional common stock of GPU. Dividends to be so invested will also include dividends received on the shares held by the Agent for the participant's account. The price of the shares to be issued by GPU to the participants on any dividend payment date will be the average of the high and low sales price for such shares on the New York Stock Exchange on the dividend payment date or, if the New York Stock Exchange is closed on the dividend payment date, the next preceding day on which it is open. The shares purchased through the Agent will be held for the exclusive benefit of the participants in the Plan.

A participant may at any time withdraw full shares in his account under the Plan without terminating his participation in the Plan. Fractional share interests will be paid in cash, based on the then current market price of GPU common shares on the New York Stock Exchange at the time of the sale of such fractional share. A participating stockholder must affirmatively terminate his enrollment in the Plan to end his participation and he may do so on a dividend payment date if his instructions to do so are received by the Agent's Dividend Reinvestment Section on or before the tenth day after the dividend payment date. If the instructions are received after the tenth day, the dividend payment for that quarter will be reinvested. The participant's entire account will then be terminated under the Plan, and certificates for whole shares credited to his account under the Plan will be issued and cash payment will be made for any fractions of shares.

If a participant disposes of all shares of common stock registered in his name, the Agent will request instructions regarding the disposition of the shares held

for his account under the Plan. Pending instructions in such a case, the Agent will continue to reinvest the dividends on the shares credited to his account until otherwise notified. A quarterly statement will be issued to each participating stockholder indicating the status of his stock interest in the Plan.

There are no out-of-pocket expenses to participating stockholders upon entry into the Plan or for participation therein. GPU will pay the expenses in connection with the offering and administration of the Plan.

Common stock purchased under the Plan will be registered in the name of the Agent's nominee for participants in the Plan. The participants will have the same rights and privileges with respect to shares purchased under the Plan as they do with respect to shares acquired in any other manner. Any shares held in the Plan for participants will be voted only as the stockholders direct. Voting rights include fractions of a share.

GPU proposes initially to offer up to 5,341,998 shares under the Plan. It proposes to apply annually for authorization to continue the Plan. Upon written notice to the participants, GPU's board of directors may wholly or partially amend, modify or discontinue the Plan.

The proceeds realized from the sale of the common stock under the Plan will be used by GPU for additional investment in its subsidiaries, to reimburse its treasury for investments theretofore made and/or to repay a portion of GPU's short-term indebtedness as may be outstanding from time to time. As of March 31, 1975, GPU had \$77,500,000 outstanding in notes payable to banks, due within one year.

It is stated that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions. The fees and expenses to be incurred in connection with the proposed transactions are estimated at \$430,000, including legal fees of \$45,000, printing fees of \$150,000, and a dividend reinvestment agent fee of \$85,000.

Notice is further given that any interested person may, not later than June 16, 1975, request in writing that a hearing be held on such matter stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Wash-

## NOTICES

ington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the declaration, as amended or as it may be further amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

## Suspension of Trading

MAY 22, 1975.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock of Winner Industries, Inc. being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to section 15(c) (5) of the Securities Exchange Act of 1934, trading in such securities otherwise than on a national securities exchange is suspended, for the period from May 23, 1975 through June 1, 1975.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,  
Secretary.

DEPARTMENT OF LABOR  
Manpower Administration  
EMPLOYMENT TRANSFER AND BUSINESS  
COMPETITION DETERMINATIONS UNDER  
THE RURAL DEVELOPMENT ACT

## Applications

The organizations listed in the attachment have applied to the Secretary of Agriculture for financial assistance in the form of grants, loans, or loan guarantees in order to establish or improve facilities at the locations listed for the purposes given in the attached list. The financial assistance would be authorized by the Consolidated Farm and Rural Development Act, as amended, 7 USC 1924 (b), 1932, or 1942 (b).

The Act requires the Secretary of Labor to determine whether such Federal assistance is calculated to or is likely to result in the transfer from one area to another of any employment or business activity provided by operations of the applicant. It is permissible to assist the establishment of a new branch, affiliate or subsidiary, only if this will not result in increased unemployment in the place of present operations and there is no reason to believe the new facility is being established with the intention of closing down an operating facility.

The Act also prohibits such assistance if the Secretary of Labor determines that it is calculated to or is likely to result in an increase in the production of goods, materials, or commodities, or the availability of services or facilities in the area, when there is not sufficient demand for such goods, materials, commodities, services, or facilities to employ the efficient capacity of existing competitive commercial or industrial enterprises, unless such financial or other assistance will not have an adverse effect upon existing competitive enterprises in the area.

The Secretary of Labor's review and certification procedures are set forth at 29 CFR Part 75, published January 29, 1975 (40 FR 4393). In determining whether the applications should be approved or denied, the Secretary will take into consideration the following factors:

1. The overall employment and unemployment situation in the local area in which the proposed facility will be located.
2. Employment trends in the same industry in the local area.
3. The potential effect of the new facility upon the local labor market, with particular emphasis upon its potential impact upon competitive enterprises in the same area.
4. The competitive effect upon other facilities in the same industry located in other areas (where such competition is a factor).
5. In the case of applications involving the establishment of branch plants or facilities, the potential effect of such new facilities on other existing plants or facilities operated by the applicant.

All persons wishing to bring to the attention of the Secretary of Labor any information pertinent to the determina-

tions which must be made regarding these applications are invited to submit such information in writing on or before June 13, 1975 to: Deputy Assistant Secretary for Manpower, 601 D Street NW., Washington, D.C. 20213.

Signed at Washington, D.C. this 27th day of May, 1975.

BEN BURDETSKY,  
Deputy Assistant Secretary  
for Manpower.

Applications received during the week ending May 25, 1975

Name of applicant	Location of enterprise	Principal product or activity
Island Creek Coal Co. (Tenant of city of Paintsville).	Paintsville, Ky. ....	Coal mining supplies and equipment.

Occupational Safety and Health  
Administration  
[V-75-6]

FIRESTONE PLASTICS COMPANY  
Application for Variance and Interim Order;  
Grant of Interim Order

I. *Notice of application.* Notice is hereby given that Firestone Plastics Company, A Division of the Firestone Tire and Rubber Co., P.O. Box 699, Pottstown, Pa. 19464 has made application pursuant to section 6(b) (6) (A) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1594; 29 U.S.C. 655) and 29 CFR 1905.10 for a variance and interim order pending a decision on the application for a variance, from the standards prescribed in 29 CFR 1910.1017(g) (4) (formerly § 1910.93q; see 40 FR 23072) concerning respirators and § 1910.1017(g) (6) (ii) concerning continuous monitoring and alarm system required for protection from vinyl chloride.

The addresses of the places of employment that will be affected by the application are as follows:

Firestone Plastics Co.  
Pottstown Pilot Plant  
Pottstown Chemical Plant  
Box 699  
Pottstown, Pa. 19464  
Firestone Plastics Co.  
Plants No. 1 and No. 2  
Box 98  
Perryville, Md. 21903

The applicant certifies that employees who would be affected by the variance have been notified of the application by giving a copy of it to their authorized employee representative, and by posting a copy at all places where notices to employees are normally posted. Employees have also been informed of their right to petition the Assistant Secretary for a hearing.

Regarding the merits of the application, the applicant contends that it is unable to comply by the effective date with the requirements of § 1910.1017(g) (4) which sets respirator requirements for different levels of exposure and with § 1910.1017(g) (6) (ii) which requires a

continuous monitoring and alarm system where exposures might reasonably exceed concentrations allowable for the devices in use.

All of Firestone Plastics Company's facilities are in compliance with the respiratory requirements of § 1910.1017(g) (4) (v) for exposures to 25 ppm.

The pressure demand air line respirators and accessories which have been ordered for exposures of 25-100 ppm at the Pottstown Chemical Plant are scheduled for delivery May 31, 1975. The Pottstown Pilot Plant and both Perryville Plants are in compliance with the respiratory requirements to 100 ppm. In order to provide protection for exposure levels of 100-3600 ppm, 174 pressure demand air line respirators with auxiliary air supplies and accessories have been ordered. The promised delivery date for these respirators is June 27, 1975. In order to provide protection at exposure levels of 3600 to 36,000 ppm, 37 self-contained breathing units have been received. Kits to convert additional self-contained breathing units to the type required by the standard have been ordered with a promised delivery date of May 31, 1975.

In the meantime the applicant will protect its employees by providing all who may be exposed to vinyl chloride up to 25 ppm with gas masks complying with § 1910.1017(g) (4) (v) (B). The applicant also proposes to comply with the requirements contained in the Emergency Temporary Standard of April 5, 1974 (39 FR 12342). Among other things, this standard requires that where sampling shows vinyl chloride over 50 ppm, or an accident indicates the likelihood of such a reading, all employees in the area shall be evacuated and shall not be permitted to return unless equipped with either self-contained breathing apparatus or Type C air supplied respirators or until concentrations are reduced.

Concerning the continuous monitoring and alarm systems required under § 1910.1017(g) (6) (ii) in areas where concentrations might exceed permissible limits for the devices being used, the applicant states as follows:

High level (3600-36,000 ppm) continuous sequential monitoring systems have been purchased for the Pottstown Pilot Plant and Pottstown Chemical Plant. These will be installed and operational by July 31, 1975. A combined high and low level (1-36,000 ppm) continuous sequential monitoring system has been ordered for the Perryville Plant #2. This system will be installed and operational by October 31, 1975. The alarm portion of the monitoring system will be operational in both Pottstown Plants and in Perryville Plant #1 by September 30, 1975. The alarm system will be operational in both Pottstown Plants and in Perryville Plant #1 by September 30, 1975. The alarm system will be operational in the Perryville Plant #2 by August 31, 1975.

In the interim the employees will be protected by the low level (1-100 ppm) continuous sequential monitoring systems which are presently operational in both Pottstown Plants and in Perryville Plant #1, and by a high level (3600-36,000 ppm) system in Perryville Plant #1. In addition, personnel monitoring through the use of suitable devices worn by employees shall be continued on a routine basis.

A copy of the application will be made available for inspection and copying upon request at the Office of Compliance Programming, U.S. Department of Labor, 200 Constitution Avenue, NW., Room N-3603, Washington, D.C. 20210, and at the following Regional and Area Offices:

## REGIONAL OFFICE

U.S. Department of Labor, Occupational Safety and Health Administration, Gateway Building, Suite 15220, 3535 Market Street, Philadelphia, Pennsylvania 19104.

## AREA OFFICES

U.S. Department of Labor, Occupational Safety and Health Administration, Federal Building, Room 1110A, Charles Center, 31 Hopkins Plaza, Baltimore, Maryland 21201.

U.S. Department of Labor, Occupational Safety and Health Administration, Room 4456, William J. Green Jr., Federal Building, 600 Arch Street, Philadelphia, Pennsylvania 19106.

All interested persons, including employers and employees, who believe they would be affected by the grant or denial of the application for a variance are invited to submit written data, views and arguments relating to the pertinent application no later than June 30, 1975.

In addition, employers and employees who believe they would be affected by a grant or denial of the variance may request a hearing on the application no later than June 30, 1975 in conformity with the requirements of 29 CFR 1905.15. Submission of written comments and requests for a hearing should be in quadruplicate, and must be addressed to the Office of Compliance Programming at the above address.

II. *Interim Order.* It appears from the application for a variance and interim order, that an interim order is necessary

to prevent undue hardship to the applicant and its employees pending a decision on the variance. Therefore it is ordered, pursuant to authority in section 6(b) (6) (A) of the Williams-Steiger Occupational Safety and Health Act of 1970, and 29 CFR 1905.10(c) that Firestone Plastics Company be, and it is hereby, authorized to operate its plants utilizing personnel monitoring and the presently installed continuous sequential monitoring systems pending the installation of the remainder of the systems meeting the monitoring and alarm requirements of § 1910.1017(g) (6) (ii); and to utilize the presently available respirators until such time as the respirators required by the standard have been delivered, provided that an evacuation plan is in effect.

Firestone Plastics Company had originally proposed to comply with the Emergency Temporary Standard by evacuating the employees when vinyl chloride levels reach 50 ppm. This was found to be unacceptable in that employees would not be adequately protected. Contact was made with the applicant and it was agreed that evacuation would occur when levels reached 25 ppm. The authorized employee representative had objected to granting the variance. They were informed of the agreement to evacuate employees at 25 ppm and found this acceptable. It has been determined that the availability of sufficient respirators for exposures to 25 ppm and the evacuation of employees when levels exceed 25 ppm will provide protection to employees.

Firestone Plastics Company shall comply with the following conditions:

1. Sufficient respirators for use to 100 ppm shall be available at the Pottstown Chemical Plant on May 31, 1975, sufficient respirators for use to 3600 ppm at all plants shall be available June 27, 1975, sufficient respirators for use to 36,000 ppm shall be available May 31, 1975.

2. The high level monitoring system shall be operational at the 2 Pottstown plants by July 31, 1975; the high and low level monitoring system shall be operational at Perryville Plant #2 by October 31, 1975; the alarm systems shall be operational in both Pottstown Plants and in Perryville Plant #1 by September 30, 1975 and in Perryville Plant #2 by August 31, 1975.

3. All employees who are not properly protected shall be evacuated when exposure levels exceed, or are likely to exceed 25 ppm. A written evacuation plan shall be posted and employees trained in its implementation.

Firestone Plastics Company shall give notice of this interim order to employees affected thereby, by the same means required to be used to inform them of the application for a variance.

*Effective date.* This interim order shall be effective as of May 30, 1975, and shall remain in effect until a decision is rendered on the application for variance.

Signed at Washington, D.C., this 23rd day of May, 1975.

JOHN STENDER,  
Assistant Secretary of Labor.

## INTERSTATE COMMERCE COMMISSION

[Notice No. 778]

## ASSIGNMENT OF HEARINGS

MAY 27, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 124078 Sub 619, Schwerman Trucking Co., now assigned September 16, 1975 at Columbus, Ohio is cancelled and transferred to Modified Procedure.

MC 139775 (Sub-No. 1), Cities Transit, Inc., now being assigned September 10, 1975 (3 days) at Tampa, Florida; in a hearing room to be designated later.

MC 80430 Sub 154, Gateway Transportation Co., Inc., now being assigned September 15, 1975 (1 week) at Orlando, Florida; in a hearing room to be designated later.

MC 107107 Sub 440, Alterman Transport Lines, Inc., now assigned June 20, 1975 at Miami, Florida will be held in Room 228 Federal Building, 51 S.W. 1st Street.

I & S No. 9046, Increased Fares on Passenger and Vehicles, Lake Michigan, now being assigned July 22, 1975 (4 days) at Milwaukee, Wis., in a hearing room to be later designated.

MC 114457 Sub 217, Dart Transit Company, May 27, 1975 dismissal order vacated.

MC 127042 Sub 155, Hagen, Inc., now being assigned June 6, 1975 (1 day), in the Moot Court Room, Northwestern University, 360 East Superior, Chicago, Illinois.

[SEAL] JOSEPH M. HARRINGTON,  
Acting Secretary.

[Ex Parte No. 241; Second Revised Exemption No. 89]

## EXEMPTION UNDER MANDATORY CAR SERVICE RULES

To all U.S. railroads: *It appearing,* That the U.S. railroads own numerous 40-ft. plain boxcars; that under present conditions there are substantial surpluses of these cars on the lines of the car owners; that return of these cars to the car owners would result in their being stored idle on these lines; that such cars can be used by other carriers for transporting traffic offered for shipments to points remote from the car owners; and that compliance with Car Service Rules 1 and 2 prevents such use of plain boxcars, resulting in unnecessary loss of utilization of such cars.

*It is ordered,* That pursuant to the authority vested in me by Car Service Rule 19, plain boxcars of railroad ownership described in the Official Railway Equipment Register, I.C.C. R.E.R. No. 395, is-

sued by W. J. Trezise, or successive issues thereof, as having mechanical designation XM, with inside length 44 ft. 6 in. or less, and bearing reporting marks assigned to U.S. railroads, shall be exempt from the provisions of Car Service Rules 1(a), 2(a), and 2(b). (See Exceptions 1 and 2)

*Exception No. 1.* This exemption does not supersede United States customs regulations applicable to cars owned by Canadian or Mexican railroads.

*Exception No. 2.* This exemption shall not apply to cars subject to service orders issued by the Interstate Commerce Commission or to Directives issued by the Car Service Division of the Association of American Railroads, restricting the use of designated cars.

*Effective May 21, 1975.*

*Expires June 30 1975.*

Issued at Washington, D.C. May 21, 1975.

INTERSTATE COMMERCE COMMISSION,  
[SEAL] R. D. PFAHLER,  
Agent.

[FR Doc.75-14205 Filed 5-29-75; 8:45 am]

[I.C.C. Order No. 143 under Revised Service Order No. 994]

## ERIE LACKAWANNA RAILWAY CO.

## Rerouting Traffic

To all railroads: In the opinion of R. D. Pfahler, Agent, the Erie Lackawanna Railway Company (EL) is unable to transport traffic over portions of its line between DM Junction, New York, and Dunkirk, New York, because of track conditions.

*It is ordered,* That: (a) The EL being unable to transport traffic over portions of its line between DM Junction, New York, and Dunkirk, New York, because of track conditions is hereby authorized to reroute or divert such traffic via any available route. Traffic necessarily diverted by authority of this order shall be rerouted so as to preserve as nearly as possible the participation and revenues of other carriers provided in the original routing.

(b) *Concurrence of receiving roads to be obtained.* The railroad desiring to divert or reroute traffic under this order shall receive the concurrence of other railroads to which such traffic is to be diverted or rerouted, before the rerouting or diversion is ordered.

(c) *Notification to shippers.* Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic is deemed to be due to carrier disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided

for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic. Divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) *Effective date.* This order shall become effective at 5:00 p.m., May 16, 1975.

(g) *Expiration date.* This order shall expire at 11:59 p.m., June 15, 1975, unless otherwise modified, changed or suspended.

*It is further ordered,* That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., May 16, 1975.

INTERSTATE COMMERCE COMMISSION,  
[SEAL] R. D. PFAHLER,  
Agent.

[Ex Parte No. 241; Eleventh Revised Exemption No. 91]

## EXEMPTION UNDER PROVISION OF RULE 19 OF THE MANDATORY CAR SERVICE RULES ORDERED

To all railroads: *It appearing,* That the United States railroads own numerous plain 50-ft. boxcars; that under present conditions, there is virtually no demand for these cars on the lines of the car owners; that return of these cars to the car owners would result in their being stored idle on these lines; that such cars can be used by other carriers for transporting traffic offered for shipments to points remote from the car owners; and that compliance with Car Service Rules 1 and 2 prevents such use of plain boxcars owned by the United States railroads, resulting in unnecessary loss of utilization of such cars.

*It is ordered,* That pursuant to the authority vested in me by Car Service Rule 19, plain 50-ft. boxcars described in the Official Railway Equipment Register, I.C.C. R.E.R. No. 395, issued by W. J. Trezise, or successive issues thereof, as having mechanical designation XM, and bearing all reporting marks assigned to the United States railroads, shall be exempt from the provisions of Car Service Rules 1(a), 2(a) and 2(b). (See Exception)

*Exception.* This exemption shall not apply to 50-ft. plain boxcars owned by the railroads named below:

Atlanta and West Point Railroad Company

Reporting Marks: AWP

Bangor and Aroostook Railroad Company

Reporting Marks: BAR

Burlington Northern Inc.

## IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

## Elimination of Gateway Letter Notices

MAY 27, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination Rules* (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before June 9, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successfully filed letter-notices of the same carrier under these rules will be

\*\*\*Maine Central Railroad Company eliminated.

numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 531 (Sub-No. E5), filed May 22, 1974. Applicant: YOUNGER BROTHERS, INC., P.O. Box 14048, Houston, Tex. 77021. Applicant's representative: Wray E. Hughes (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Synthetic resins* (dry and in bulk), from Baton Rouge, La., to points in Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming. The purpose of this filing is to eliminate the gateway of Orange, Tex.

No. MC 21170 (Sub-No. E90), filed June 4, 1975. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohuski (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food products and commodities* exempt from economic regulation pursuant to the provisions of Section 203(b)(c) of the Interstate Commerce Act, in mixed loads, with food products, restricted to such commodities as are dealt in by retail, wholesale and chain grocery stores, from points in that part of Iowa on and east of a line beginning at the Minnesota-Iowa State line extending along US Highway 65 to junction Iowa Highway 134, thence along Iowa Highway 134 to junction unnumbered highway at Geneva, thence along unnumbered highway to junction Iowa Highway 118, thence along Iowa Highway 118 to junction Iowa Highway 175, thence along Iowa Highway 175 to junction Iowa Highway 215, thence along Iowa Highway 215 to junction Iowa Highway 234, thence along Iowa Highway 234 to junction Iowa Highway 330, thence along Iowa Highway 330 to junction unnumbered highway, thence along unnumbered highway to junction Iowa Highway 223 at Baxter, thence along Iowa Highway 223 to junction Iowa Highway 14, thence along Iowa Highway 14 to junction Iowa Highway 5, thence along Iowa Highway 5 to the Missouri-Iowa State line, to points in that part of Indiana on and south of Indiana Highway 64. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co., located at or near California, Mo.

NOTE.—The authorities mentioned above were purchased by Cedar Rapids Steel Transportation Co. pursuant to No. MC-F-10199.

No. MC 45764 (Sub-No. E55), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment between

points in Pennsylvania on east, and south of a line beginning at the Pennsylvania-Delaware State line, and extending north over Pennsylvania Highway 100 to West Chester, Pa., thence northwest over U.S. Highway 322 to Downingtown, Pa., thence northeast over Pennsylvania Highway 113 to junction Pennsylvania Highway 100, thence north over Pennsylvania Highway 100 to Pottstown, thence northeast over Pennsylvania Highway 663 to junction Pennsylvania Highway 73, thence southeast over Pennsylvania Highway 73 to junction Pennsylvania Highway 363, thence northeast over Pennsylvania Highway 363 to junction Pennsylvania Highway 463, thence southeast over Pennsylvania Highway 463 to junction U.S. Highway 202, and thence northeast over U.S. Highway 202 to the Pennsylvania-New Jersey State line, on the one hand, and, on the other, points in Virginia. The purpose of this filing is to eliminate the gateway of Marcus Hook, Pa.

No. MC 45764 (Sub-No. E56), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Pennsylvania on east and south of a line beginning at the Pennsylvania-Delaware State line, and extending north over Pennsylvania Highway 100 to West Chester, Pa., thence northwest over U.S. Highway 322 to Downingtown, Pa., thence northeast over Pennsylvania Highway 113 to junction Pennsylvania Highway 100, thence north over Pennsylvania Highway 100 to Pottstown, Pa., thence northeast over Pennsylvania Highway 663 to junction Pennsylvania Highway 73, thence southeast over Pennsylvania Highway 73 to junction Pennsylvania Highway 363, thence northeast over Pennsylvania Highway 363 to junction Pennsylvania Highway 463, thence southeast over Pennsylvania Highway 463 to junction U.S. Highway 202, and thence northeast over U.S. Highway 202 to the Pennsylvania-New Jersey State line, on the one hand, and, on the other, points in West Virginia. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45764 (Sub-No. E57), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in the District of Columbia, on the one

hand, and, on the other, points in Rhode Island. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45764 (Sub-No. E58), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Massachusetts, on the one hand, and, on the other, points in Ohio on and south of a line beginning at the Ohio-Pennsylvania State line, and extending west over Ohio Highway 82 to Warren, Oh., thence southwest over Ohio Highway 5 to junction Ohio Highway 44, thence south over Ohio Highway 44 to junction Interstate Highway 76, thence west over Interstate Highway 76 to junction U.S. Highway 42, thence west and south over U.S. Highway 42 to junction U.S. Highway 224, thence west over U.S. Highway 224 to junction U.S. Highway 23, thence north over U.S. Highway 23 to junction Ohio Highway 199, thence northwest over Ohio Highway 199 to junction U.S. Highway 6, thence west over U.S. Highway 6 to junction Ohio Highway 34, and thence west over Ohio Highway 34 to the Ohio-Indiana State line. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 45764 (Sub-No. E59), filed May 12, 1974. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. No. MC 83745 (Sub-No. E32), filed June 4, 1974. Applicant: BOND TRANSPORT, INC., 4620 Rolling Road, Pittsburgh, Pa. 15236. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such commodities as require specialized handling and rigging because of size or weight, restricted so that the loading and/or unloading which necessitates the special handling and rigging is performed by the consignor or consignee, or both, between points in Lawrence County, Pa., within 25 miles of Pittsburgh, Pa., on the one hand, and, on the other, points in Ohio on, west and south of a line beginning at Lake Erie and extending along U.S. Highway 250 to junction Interstate Highway 77, thence along Interstate Highway 77 to the Ohio-West Virginia State line. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.*

No. MC 83745 (Sub-No. E33), filed June 4, 1974. Applicant: BOND TRANSPORT, INC., 4620 Rolling Road, Pittsburgh, Pa. 15236. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such commodities as require specialized handling and rigging because of size or weight, restricted so that the loading and/or unloading which necessitates the special handling and rigging is performed by the consignor or consignee, or both, between points in Washington County, Pa., within 25 miles of Pittsburgh, Pa., on the one hand, and, on the other, points in West Virginia on and south of a line beginning at the Ohio-West Virginia State line, and extending along U.S. Highway 33 to Elkins, thence along U.S. Highway 219 to the West Virginia-Maryland State line. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.*

No. MC 100666 (Sub-No. E120) (Correction), filed May 25, 1974, published in the FEDERAL REGISTER September 12, 1974. Applicant: MELTON TRUCK LINES, INC., P.O. Box 7666, Shreveport, La. 71107. Applicant's representative: Richard W. May (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Lumber and creosoted posts, poles, piling and cross-ties* (except cross-ties to Colorado and New Mexico), (a) from points in Louisiana to points in Iowa, Minnesota, Nebraska, North Dakota, South Dakota, and Wisconsin (points in Arkansas)\*, points in New Mexico (points in Oklahoma)\*,

and points in Arizona (Texarkana, Tex.)\*; (b) from points in Louisiana within 250 miles of Texarkana, Tex., to points in Colorado (Duke, Okla.)\*; (2) *lumber and cross-ties* (except cross-ties to destinations shown in (B) and (C)), (a) from points in Louisiana to points in Illinois, Indiana, Michigan, Ohio, and Pennsylvania (points in Arkansas)\*, (b) from points in Louisiana on and north of a line from the Texas-Louisiana State line along U.S. Highway 190 to the junction of Interstate Highway 55, thence along Interstate Highway 55 to the Louisiana-Mississippi State line to points in Georgia, West Virginia, and Steelwood, Stockton, Mobile, Mt. Vernon, Greenville, Chapman, and Selma, Ala. (Urania, La.)\*, (c) from points in Louisiana over 250 miles from Texarkana, Tex., to points in Kansas, Texas, and Oklahoma in excess of 250 miles from Texarkana, Tex. (points in Texas and points in Texas within 250 miles of Texarkana, Tex.)\*; and points in Colorado (points in Texas within 250 miles of Texarkana, Tex., and Duke, Okla.)\*; (3) *plywood*, from points in Louisiana within 250 miles of Texarkana, Tex., to points in California in and north of Inyo, Tulare, Kern, and San Luis Obispo Counties, and points in Idaho, Montana, Nevada, Oregon, Utah, and Washington (Pittsburg, Kans.)\*;

(4) *lumber and creosoted posts, poles, piling and cross-ties* (except cross-ties to Colorado and New Mexico), (a) from points in Arkansas to points in Arizona (Texarkana, Tex.)\*, points in Colorado (except from points in Arkansas north of Interstate Highway 40 to points in Colorado east of U.S. Highway 85), and points in New Mexico (points in Oklahoma and Duke, Okla.)\*, (b) from points in Arkansas in, west and south of Sebastian, Scott, Yell, Garland, Hot Spring, Dallas, Cleveland, Drew, and Ashley Counties, to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island, Vermont, and the District of Columbia (Texarkana, Tex.)\*; (5) *plywood*, from points in Arkansas within 250 miles of Texarkana, Tex., to points in California, Idaho, Montana, Nevada, Oregon, Utah, and Washington (Pittsburg, Kans.)\*; (6) *lumber and creosoted post, poles, piling and cross-ties* (except cross-ties to Colorado and New Mexico) (a) from points in Tennessee within 250 miles of Texarkana, Tex., to points in Alabama, Florida, Georgia, Illinois (except lumber), Indiana, Iowa, Kentucky, Michigan, Minnesota, Mississippi, Nebraska, North Carolina, North Dakota, Ohio, Pennsylvania, South Carolina, South Dakota, Tennessee (except Memphis, Virginia, West Virginia, and Wisconsin (points in Arkansas)\*), points in Arizona, Colorado, and New Mexico (points in Oklahoma)\*, Duke, Okla., and Texarkana, Tex.)\*; (7) *plywood*, from points in Tennessee within 250 miles of Texarkana, Tex., to points in Illinois (points in Arkansas and Covington, Tenn.)\*, and points in California, Idaho, Montana, Nevada, Oregon, Utah, and Washington (Pittsburg, Kans.)\*;

(8) *lumber and creosoted posts, poles, piling and cross-ties* (except cross-ties to described Louisiana and New Mexico points), (a) from points in Missouri to points in Florida, Georgia (except from points in Missouri east of U.S. Highway 63 to points in Georgia north of a line from the Alabama-Georgia State line along U.S. Highway 80 to junction Georgia Highway 56, thence along Georgia Highway 56 to the Georgia-North Carolina State line), points in North Carolina (except from points in Missouri east of U.S. Highway 63 to points in North Carolina west of Interstate Highway 95), and points in South Carolina (except from points in Missouri east of U.S. Highway 63 to points in South Carolina west of U.S. Highway 1) (points in Arkansas)\*, points in New Mexico (except from points in Missouri west of Interstate Highway 35 to points in New Mexico east and north of U.S. Highway 84), (points in Oklahoma)\*, points in Alabama (points in Texas within 250 miles of Texarkana, Tex.)\*, points in Mississippi (except from points in Missouri east of a line from the Arkansas-Missouri State line along U.S. Highway 67 to the Mississippi River at Crystal Springs to points in Mississippi east and north of U.S. Highway 73), (points in Arkansas)\*, (b) from points in Missouri on and south of a line from the Missouri-Kansas State line along U.S. Highway 66 to junction U.S. Highway 60, thence along U.S. Highway 60 to the Missouri-Illinois State line to points in North Dakota (points in Arkansas)\*, (c) from points in Missouri over 250 miles from Texarkana, Tex., to points in Louisiana over 250 miles from Texarkana, Tex. (points in Tennessee within 250 miles of Texarkana, Tex., and points in Mississippi)\*, (d) from points in Missouri on, east and south of a line from the Arkansas-Missouri State line along U.S. Highway 65 to junction U.S. Highway 66, thence along U.S. Highway 66 to Crawford County, thence Crawford, Washington, and Jefferson County to points in Arizona (Texarkana, Tex.)\*;

(9) (a) *lumber*, from points in Missouri over 250 miles from Texarkana, Tex., to points in Texas over 250 miles from Texarkana, Tex., and south of a line from the Texas-New Mexico State line along U.S. Highway 82 to junction U.S. Highway 281, thence along U.S. Highway 281 to the Texas-Oklahoma State line (parts in Texas within 250 miles of Texarkana, Tex.)\*; (9) (b) *plywood*, from points in Missouri within 250 miles of Texarkana, Tex., to points in California, Idaho, Montana, Nevada, Oregon, Utah, and Washington (Pittsburg, Kans.)\*; (10) *lumber and creosoted posts, poles, piling and cross-ties*, (a) from points in Kansas to points in Florida, Georgia, North Carolina, South Carolina, and Virginia (points in Arkansas)\*, to points in Arkansas over 250 miles from Texarkana, Tex., and points in Mississippi north of Interstate Highway 20 (points in Tennessee within 250 miles of Texarkana, Tex.)\*, points in Mississippi on and south of Interstate Highway 20 (except cross-ties), points in Louisiana within 250 miles of Texarkana, Tex.)\*, points in Alabama,

points in Kentucky on and south of a line from Paducah along U.S. Highway 45 to the junction of Kentucky Highway 80, thence along Kentucky Highway 80 to the junction of Interstate Highway 75, thence along Interstate Highway 75 to the Virginia-Tennessee State line, and points in Tennessee (except Memphis), (points in Arkansas within 250 miles of Texarkana, Tex.)\*, (b) from points in Kansas on and south of a line from the Colorado-Kansas State line along Interstate Highway 70 to the junction Interstate Highway 35, thence along Interstate Highway 35 to McPherson County, thence in and south of McPherson, Marion, Chase, Lyon, Coffey, Anderson, and Linn Counties to points in Pennsylvania and West Virginia (points in Arkansas within 250 miles of Texarkana, Tex.)\*; (11) *lumber*, from points in Kansas to points in Louisiana over 250 miles from Texarkana, Tex., and to points in Texas over 250 miles from Texarkana, Tex., and on and east of U.S. Highway 277 (points in Texas within 250 miles of Texarkana, Tex.)\*;

(12) *lumber and creosoted posts, poles and piling and cross-ties*, (a) from points in Oklahoma to points in Illinois, Indiana, the Lower Peninsula of Michigan, Ohio, Pennsylvania, West Virginia, and points in Wisconsin (except from points in Oklahoma in and west of Beaver County), points in North Carolina, South Carolina, Virginia, Iowa, Minnesota, Nebraska, North Dakota, South Dakota, Florida, Georgia, Alabama, Kentucky, and Tennessee (except Memphis), (points in Arkansas)\*, points in Mississippi on and south of Interstate Highway 20 (except cross-ties), (points in Louisiana)\*, and points in Mississippi north of Interstate Highway 20 (points in Tennessee within 250 miles of Texarkana, Tex.)\*, (b) from points in Oklahoma (except points in and west of Beaver County), to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island, Vermont, and the District of Columbia (Texarkana, Tex.)\*, (c) from points in Oklahoma within 250 miles of Texarkana, Tex., and south of Interstate Highway 40 to points in Colorado (except cross-ties), (Duke, Okla.)\*, (d) from points in Oklahoma in, south and east of Bryan, Atoka, Pittsburg, Haskell, and Sequoyah Counties, to points in Arizona (Texarkana, Tex.)\*, (e) from points in Oklahoma over 250 miles of Texarkana, Tex., to points in Arkansas over 250 miles from Texarkana, Tex. (points in Tennessee within 250 miles from Texarkana, Tex.)\*; (13) *lumber*, (a) from points in Oklahoma over 250 miles from Texarkana, Tex., to points in Louisiana over 250 miles from Texarkana, Tex. (points in Texas within 250 miles of Texarkana, Tex.)\*, (b) from points in Oklahoma over 250 miles from Texarkana, Tex. (except points in and west of Beaver County), to points in Texas over 250 miles from Texarkana, Tex., and on and east of U.S. Highway 277 (points in Texas within 250 miles of Texarkana, Tex.)\*;

(14) *plywood*, from points in Oklahoma within 250 miles of Texarkana, Tex., to points in California in and north of Marin, Solano, Sacramento, and El Dorado Counties, points in Idaho and Montana, points in Nevada on and north of U.S. Highway 40, and points in Oregon and Washington (Pittsburg, Kans.)\*;

(15) *lumber and creosoted posts, poles, piling, and cross-ties* (except cross-ties to Alabama, Colorado, Florida, Georgia, Mississippi and New Mexico), (a) from points in Texas to points in North Carolina, South Carolina, Virginia, West Virginia, Indiana, Illinois, Michigan, Ohio, Wisconsin, Pennsylvania, Kentucky, and Tennessee (except Memphis), (points in Arkansas)\*, points in Florida and Georgia (Urania, La., and points in Louisiana and Mississippi)\*, points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island, Vermont, and the District of Columbia (Texarkana, Tex.)\*, points in Alabama (points in Louisiana and Mississippi)\*, and points in Mississippi (points in Louisiana)\*, (b) from points in Texas on and east of a line from the Oklahoma-Texas State line along Texas Highway 34 to junction U.S. Highway 77, thence along U.S. Highway 77 to Brownsville, Tex., to points in Iowa, Minnesota, Nebraska, North Dakota, and South Dakota (points in Arkansas)\*, (c) from points in Texas on and east of a line from the Texas-Oklahoma State line along U.S. Highway 271 to junction of Texas Highway 19, thence along Texas Highway 19 to junction Interstate Highway 45, thence along Interstate Highway 45 to the Gulf of Mexico, points in Arizona (Beaumont and Texarkana, Tex.)\*; (d) from points in Texas within 250 miles of Texarkana, Tex., to points in Colorado and New Mexico (Acme, Tex., and the plant site of the Celotex Corporation at or near Hamlin, Tex.)\*, (e) from points in Texas over 250 miles from Texarkana, Tex., to points in Arkansas over 250 miles from Texarkana, Tex. (points in Tennessee within 250 miles of Texarkana, Tex.)\*; and (16) *plywood*, from points in Texas within 250 miles of Texarkana, Tex., to points in California in and north of Nevada, Yuba, Sutter, Colusa, Lake, and Mendocino Counties, points in Idaho and Montana, points in Nevada on and north of Interstate Highway 80, points in Oregon and Washington, and points in Utah on and north of Interstate Highway 80 (Pittsburg, Kans.)\*. The purpose of this filing is to eliminate the gateways indicated by the asterisks above. The purpose of this correction is to correct the commodity descriptions and territorial destination points.

No. MC 107002 (Sub-No. E12), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: John J. Borth (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Chemicals, restricted to liquid tall oil and liquid tall oil products*, in bulk, in tank vehicles, from Panama City, Fla., to points in Michigan. The purpose of this filing is to eliminate the gateway of Cedartown, Ga.

No. MC 107002 (Sub-No. E167), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: John J. Borth (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, from

points in Harrison and Jackson Counties, Miss., to points in Iowa, Michigan, Ohio, and Wisconsin. Restricted against the transportation of liquid hydrogen, liquid oxygen and liquid nitrogen to points in Iowa, Michigan, and Wisconsin. The purpose of this filing is to eliminate the gateways of Mobile, Ala., and Barfield, Ark., and points within 10 miles thereof.

No. MC 107002 (Sub-No. E15), filed May 16, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: John J. Borth (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Dry cement*, in bulk, in tank vehicles, from Birmingham, Ala., to points in Arkansas and Louisiana; from Natchez, Redwood, and Vicksburg, Miss., to points in Alabama and Tennessee; and from Memphis, Tenn., to points in Alabama. The purpose of this filing is to eliminate the gateways of Lee, Lowndes, Madison, and Rankin Counties, Miss.

No. MC 107002 (Sub-No. E164), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Anthol, cymene, esterified tall oil, liquid soap, nylene, paracymene, paramethane, hydro peroxide, pinene, pine oil, pine pitch, pine tar, rosin, rosin liquor, rosin sizing, rosin solution, synthetic gums and resins, tall oil, tall oil fatty acids, tall oil pitch, terpineol, turpentine, and zinc resins*, in bulk, in tank vehicles, from Harrison and Jackson Counties, Miss., to points in Pennsylvania. The purpose of this filing is to eliminate the gateway of Bay Minette, Ala.

No. MC 107002 (Sub-No. E165), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Tall oil*, in bulk, in tank vehicles, from Panama City, Fla., to points in Kentucky. The purpose of this filing is to eliminate the gateway of Decatur, Ala.

No. MC 107002 (Sub-No. E166), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Chemicals, restricted to liquid tall oil and liquid tall oil products*, in bulk, in tank vehicles, from Panama City, Fla., to points in Michigan. The purpose of this filing is to eliminate the gateway of Cedartown, Ga.

No. MC 107002 (Sub-No. E167), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123,

Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid tall oil*, in bulk, in tank vehicles, from Panama City, Fla., to points in Kansas. The purpose of this filing is to eliminate the gateway of Collierville, Tenn.

No. MC 107002 (Sub-No. E168), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid Chemicals*, restricted to tall oil and tall oil products, in bulk, in tank vehicles, from Panama City, Fla., to points in Illinois. The purpose of this filing is to eliminate the gateway of Cedartown, Ga.

No. MC 107002 (Sub-No. E169), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid* in bulk, in tank vehicles, from Panama City, Fla., to points in Ohio. The purpose of this filing is to eliminate the gateway of Bay Minette, Ala.

No. MC 107002 (Sub-No. E170), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Vegetable oil*, restricted to naval stores and naval store products, in bulk, in tank vehicles, from Mobile, Ala., to points in Maryland. The purpose of this filing is to eliminate the gateway of Picaune, Miss.

No. MC 107002 (Sub-No. E171), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Vegetable oils*, restricted to naval stores and naval store products, in bulk, in tank vehicles, from Mobile, Ala., to points in Maine. The purpose of this filing is to eliminate the gateway of Picaune, Miss.

No. MC 107002 (Sub-No. E172), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from River Falls, Ala., to points in Kansas. The purpose of this filing is to eliminate the gateway of Collierville, Tenn.

No. MC 107002 (Sub-No. E173), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123,

Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except liquid hydrogen, liquid oxygen, liquid nitrogen and liquefied petroleum gases), in bulk, in tank vehicles, from Hazlehurst, Miss., to points in Iowa. The purpose of this filing is to eliminate the gateways of Barfield, Ark., and points within 10 miles thereof.

No. MC 107002 (Sub-No. E174), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except liquid hydrogen, liquid oxygen, liquid nitrogen and liquefied petroleum gases), in bulk, in tank vehicles, from Hazlehurst, Miss., to points in Indiana. The purpose of this filing is to eliminate the gateways of Barfield, Ark., and points within 10 miles thereof.

No. MC 107002 (Sub-No. E175), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, from River Falls, Ala., to points in Arkansas. The purpose of this filing is to eliminate the gateway of Vicksburg, Miss.

No. MC 107002 (Sub-No. E176), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Chemicals*, liquid, in bulk, in tank vehicles, from River Falls, Ala., to points in Texas. The purpose of this filing is to eliminate the gateways of Harrison and Jackson Counties, Miss.

No. MC 107002 (Sub-No. E177), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles (except hydrogen peroxide), from River Falls, Ala., to points in Oklahoma. The purpose of this filing is to eliminate the gateways of Barfield, Ark., and points within 10 miles thereof.

No. MC 107002 (Sub-No. E178), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except liquid hydrogen, liquid

oxygen, liquid nitrogen and liquefied petroleum gases), in bulk, in tank vehicles, from Hazlehurst, Miss., to points in Missouri. The purpose of this filing is to eliminate the gateways of Barfield, Ark., and points within 10 miles thereof.

No. MC 107002 (Sub-No. E179), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except liquid hydrogen, liquid oxygen, liquid nitrogen and liquefied petroleum gases), in bulk, in tank vehicles, from Hazlehurst, Miss., to points in Kansas. The purpose of this filing is to eliminate the gateways of Barfield, Ark., and points within 10 miles thereof.

No. MC 107002 (Sub-No. E180), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except liquid hydrogen, liquid oxygen, liquid nitrogen and liquefied petroleum gases), in bulk, in tank vehicles, from Hazlehurst, Miss., to points in Illinois. The purpose of this filing is to eliminate the gateways of Barfield, Ark., and points within 10 miles thereof.

No. MC 107002 (Sub-No. E181), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid caustic soda*, in bulk, in tank vehicles, from McIntosh, Ala., to points in West Virginia. The purpose of this filing is to eliminate the gateways of Harrison and Jackson Counties, Miss., and the plant site of Monsanto Chemical Company in Anniston, Ala.

No. MC 107002 (Sub-No. E182), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid caustic soda*, in bulk, in tank vehicles, from McIntosh, Ala., to points in South Carolina. The purpose of this filing is to eliminate the gateways of Harrison and Jackson Counties, Miss.

No. MC 107002 (Sub-No. E183), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, from River Falls, Ala., to points in Illinois (except points in the East St. Louis Commercial

Zone). The purpose of this filing is to eliminate the gateway of Arlington, Tenn.

No. MC 107002 (Sub-No. E184), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid caustic soda*, in bulk, in tank vehicles, from McIntosh, Ala., to points in Louisiana. The purpose of this filing is to eliminate the gateways of Harrison and Jackson, Miss.

No. MC 107002 (Sub-No. E185), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid caustic soda*, in bulk, in tank vehicles, from McIntosh, Ala., to points in Texas. The purpose of this filing is to eliminate the gateway of Hattiesburg, Miss.

No. MC 107002 (Sub-No. E186), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid caustic soda*, in bulk, in tank vehicles, from McIntosh, Ala., to points in Oklahoma. The purpose of this filing is to eliminate the gateway of Hattiesburg, Miss.

No. MC 107002 (Sub-No. E187), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Chemicals*, liquid, in bulk, in tank vehicles, from River Falls, Ala., to points in Missouri. The purpose of this filing is to eliminate the gateway of Collierville, Tenn.

No. MC 107002 (Sub-No. E188), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, from River Falls, Ala., to points in Iowa. The purpose of this filing is to eliminate the gateway of Arlington, Tenn.

No. MC 107002 (Sub-No. E189), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, from River Falls, Ala., to points in Illinois (except points in the East St. Louis Commercial

Zone). The purpose of this filing is to eliminate the gateway of Arlington, Tenn.

No. MC 107002 (Sub-No. E190), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Chemicals*, liquid, in bulk, in tank vehicles, from River Falls, Ala., to points in Kansas. The purpose of this filing is to eliminate the gateway of Collierville, Tenn.

No. MC 107002 (Sub-No. E191), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except petrochemicals), in bulk, in tank vehicles, from River Falls, Ala., to points in Indiana. The purpose of this filing is to eliminate the gateway of Decatur, Ala.

No. MC 107002 (Sub-No. E192), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Vegetable oil*, in bulk, in tank vehicles, from points in Alabama to points in Arkansas. The purpose of this filing is to eliminate the gateway of Memphis, Tenn.

No. MC 107002 (Sub-No. E193), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except liquid hydrogen, liquid oxygen, and liquid nitrogen), in bulk, in tank vehicles, from River Falls, Ala., to points in Minnesota. The purpose of this filing is to eliminate the gateway of Cedartown, Ga.

No. MC 107002 (Sub-No. E194), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 39205, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except liquid hydrogen, liquid oxygen, liquid nitrogen and liquefied petroleum gases), in bulk, in tank vehicles, from Hazlehurst, Miss., to points in Michigan. The purpose of this filing is to eliminate the gateways of Barfield, Ark., and points within 10 miles thereof.

No. MC 107002 (Sub-No. E195), filed May 13, 1974. Applicant: MILLER

TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle over irregular routes, transporting: *Liquid caustic soda*, in bulk, in tank vehicles, from McIntosh, Ala., to points in Arkansas. The purpose of this filing is to eliminate the gateway of Hattiesburg, Miss.

No. MC 107002 (Sub-No. E196), filed May 13, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *liquid chemicals* (except liquid caustic soda), in bulk, in tank vehicles, from the site of the Geigg Chemical Corporation plant, near McIntosh, Ala., to points in Illinois, Indiana, Kansas, Missouri (Collierville, Tenn.); Kentucky (Collierville, Tenn.); Iowa, Michigan, Wisconsin (Barfield, Ark., and points within 10 miles thereof); and Foley and Port St. Joe, Fla. (Harrison and Jackson Counties, Miss.); (2) *liquid caustic soda*, in bulk, in tank vehicles, from the site of the Geigg Chemical Corporation plant, near McIntosh, Ala., to points in Illinois, Indiana, Kansas, Missouri (Collierville, Tenn., and Louisville, Miss.); Kentucky (Decatur, Ala., and Louisville, Miss.); Iowa, Michigan, and Wisconsin (Louisville, Miss., and Barfield, Ark., and points within 10 miles thereof); and (3) *liquid chemicals*, in bulk, in tank vehicles, from the site of the Geigg Chemical Corporation plant near McIntosh, Ala., to points in Minnesota (Cedartown, Ga.); Oklahoma, Texas (Hattiesburg, Miss.); West Virginia (Harrison and Jackson Counties, Miss., and the plant site of Monsanto Chemical Company, in Anniston, Ala.); and Kingsport, Tenn. (Hattiesburg, Miss.). Restricted against the transportation of liquid hydrogen, liquid oxygen and liquid nitrogen to points in Iowa, Michigan, Minnesota, and Wisconsin; petroleum chemicals to those points in Kentucky on, south and east of a line beginning at the Kentucky-Tennessee State line and extending along U.S. Highway 41 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction U.S. Highway 431, thence along U.S. Highway 431 to the Kentucky-Illinois State line, and liquefied petroleum gases to points in West Virginia. The purpose of this filing is to eliminate the gateways as indicated by asterisks above.

No. MC 109478 (Sub-No. E32) (Correction), filed May 15, 1974, published in the FEDERAL REGISTER January 22, 1975. Applicant: WORSTER MOTOR LINES, INC., Gay Rd., P.O. Box 110, North East, Pa. 16428. Applicant's representative: Joseph F. MacKrell, 23 W. 10th St., Erie, Pa. 16501. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Wine*, in bulk, in tank vehicles, from Chicago, Ill., to points in Massachusetts, Connecticut, Rhode

Island, New York, New Jersey, Pennsylvania, Delaware, Maryland, and the District of Columbia. Restriction: The operating rights granted herein shall be subject to the restriction that such rights which are in any way duplicative of the operating rights of James H. Powers, Inc., shall be cancelled in the event the latter carrier or any portion of the operating rights which duplicate those of the above-named carrier should subsequently come under control of any person or corporation other than Worster-Towa, or persons in control of the latter. The purpose of this filing is to eliminate the gateway of Westfield, N.Y. The purpose of this correction is to clarify the gateway to be eliminated.

No. MC 109478 (Sub-No. E33) (Correction), filed May 15, 1974, published in the FEDERAL REGISTER January 22, 1975. Applicant: WORSTER MOTOR LINES, INC., Gay Rd., P.O. Box 110, North East, Pa. 16428. Applicant's representative: Joseph F. MacKrell, 23 West Tenth St., Erie, Pa. 16501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wine*, in bulk, in tank vehicles, from Boston and Waban, Mass., Jersey City, N.J., and New Jersey points within 25 miles thereof, all points in that part of New York on, south and west of a line beginning at Lake Ontario extending along New York Highway 13 to junction U.S. Highway 11 near Pulaski, and thence along U.S. Highway 11 to the New York-Pennsylvania State line, Geneva, Ohio, and Erie, North East and Philadelphia, Pa., to St. Paul, Minn. The purpose of this filing is to eliminate the gateways of Brocton, Westfield, and Fredonia, N.Y. The purpose of this correction is to clarify the gateways to be eliminated.

No. MC 111401 (Sub-No. E91), filed May 12, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petrochemicals*, in bulk, in tank vehicles, from points in Texas on, north and east of a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 281 to its junction with Interstate Highway 20, thence along Interstate Highway 20 and west of U.S. Highway 271 to points in Connecticut, Delaware, Florida, Georgia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, West Virginia, and Washington, D.C. The purpose of this filing is to eliminate the gateway of Longview, Tex.

No. MC 111401 (Sub-No. E92), filed May 12, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular

routes, transporting: *Petrochemicals*, in bulk, in tank vehicles, from those points in Texas on and south of a line beginning at the Texas-Louisiana State line and extending along Interstate Highway 20 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with U.S. Highway 59, thence along U.S. Highway 59 to its junction with Interstate Highway 10, thence along Interstate Highway 10 to the Texas-Louisiana State line to points in Connecticut, Delaware, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Tennessee, Vermont, Virginia, West Virginia, and Washington, D.C. (MC-111401 Sub 390). The purpose of this filing is to eliminate the gateway of Longview, Tex.

No. MC 111401 (Sub-No. E93), filed May 12, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petrochemicals*, in bulk, in tank vehicles, from points in Texas on and east of Texas Highway 288 and on and south of U.S. Highway 90 to points in the United States except points in Washington, Oregon, California, Colorado, New Mexico, Texas, Oklahoma, Kansas, Nebraska, Minnesota, Wisconsin, Michigan, Louisiana, Mississippi, Alabama, Georgia, South Carolina, Florida, and those in Arkansas east of U.S. Highway 167 and south of U.S. Highway 79. The purpose of this filing is to eliminate the gateway of Longview, Tex.

No. MC 111401 (Sub-No. E95), filed May 12, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petrochemicals*, in bulk, in tank vehicles, from points in Texas on and north of U.S. Highway 66 to points in the United States on, south or east of a line beginning at the coast of the Gulf of Mexico and extending along the Texas-Louisiana State line to Interstate Highway 20 near Shreveport, La., and extending along Interstate Highway 20 to its junction with Interstate Highway 85 at Atlanta, Ga., thence along Interstate Highway 85 to its junction with Interstate Highway 77 near Charlotte, N.C., thence along Interstate Highway 77 to its junction with Interstate Highway 81 near Wytheville, Va., thence along Interstate Highway 81 to the United States-Canada International Boundary line, thence along the United States-Canada International Boundary line to the Atlantic Coast. The purpose of this filing is to eliminate the gateway of Longview, Tex.

No. MC 113908 (Sub-No. E145), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo.

65804. Applicant's representative: John E. Jandera, 641 Harrison Street, Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Charlotte, N.C., to points in California and Washington, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 113908 (Sub-No. E148), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison Street, Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Bailey, Belding, and Fremont, Mich., to points in California, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of St. Paul, Minn.

No. MC 113908 (Sub-No. E149), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison Street, Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Bailey, Belding, and Fremont, Mich., to points in California, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Rogers, Ark.

No. MC 113908 (Sub-No. E150), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison Street, Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Chicago, Ill., to points in California, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Oklahoma City, Okla.

No. MC 113908 (Sub-No. E151), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison Street, Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Chicago, Ill., to points in California, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Denver, Colo.

No. MC 113908 (Sub-No. E152), filed December 5, 1974. Applicant: ERICKSON

TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison Street, Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Marionville, Nixa, and Kansas City, Mo., to points in California, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Denver, Colo.

No. MC 113908 (Sub-No. E156), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison Street, Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Houston, Dallas and Paris, Tex., to points in Missouri, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Rogers, Ark.

No. MC 113908 (Sub-No. E161), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison Street, Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Chicago, Ill., to points in Missouri on, south and west of Missouri Highway 39 and U.S. Highway 54 and Texas, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Rogers, Ark.

No. MC 113908 (Sub-No. E163), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Bailey, Belding, and Fremont, Mich., to points in California and Washington, with no transportation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 113908 (Sub-No. E165), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Chicago, Ill., to points in California, with no transportation for compensation on return except as otherwise authorized.

The purpose of this filing is to eliminate the gateway of Marionville, Mo.

No. MC 113908 (Sub-No. E166), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Marionville, Nixa, and Kansas City, Mo., to points in California, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Belding, Mich.

No. MC 113908 (Sub-No. E168), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Dallas, Houston, and Paris, Tex., to points in Illinois and Michigan, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Nixa, Mo.

No. MC 113908 (Sub-No. E169), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Dallas, Houston, or Paris, Tex., to points in California, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Oklahoma City, Okla.

No. MC 113908 (Sub-No. E171), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Lyndonville and North Rose, N.Y., to points in California and Washington, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 113908 (Sub-No. E173), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a

*common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Wichita, Kans., to points in Michigan, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Nixa, Mo.

No. MC 115841 (Sub-No. E119), filed June 4, 1974. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., P.O. Box 10327, Birmingham, Ala. 35202. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods* (except frozen fruits, frozen berries, and frozen vegetables), and *frozen fruits*, *frozen berries*, and *frozen vegetables*, when moving in mixed loads with frozen foods, from the facilities of Town Square Foods, Inc., at Lake City, Pa., to points in Oklahoma and Texas. The purpose of this filing is to eliminate the gateway of Memphis, Tenn.

No. MC 115841 (Sub-No. E120), filed June 4, 1974. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., P.O. Box 10327, Birmingham, Ala. 35202. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods* (except meats, meat products, meat by-products, and articles distributed by meat packinghouses, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 and except frozen fruits, frozen berries, and frozen vegetables), and *frozen fruits*, *frozen berries*, and *frozen vegetables*, when moving in mixed loads with frozen foods, from Kansas City, Mo.-Kans., to New Orleans, La., points in Delaware, and points in Mississippi on and east of Interstate Highway 55. The purpose of this filing is to eliminate the gateway of Dyersburg, Tenn.

No. MC 115841 (Sub-No. E131), filed June 4, 1975. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., P.O. Box 10327, Birmingham, Ala. 35202. Applicant's representative: E. Stephen Heisley, 666 Eleventh St., NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods* (except frozen fruits, frozen berries, and frozen vegetables), and *frozen fruits*, *frozen berries*, and *frozen vegetables*, when moving in mixed loads with frozen foods, in vehicles equipped with mechanical refrigeration, from Birmingham, Foley, Mobile, Montgomery, and Brundidge, Ala., to points in Delaware, Iowa, Missouri and Oklahoma, and points in Kansas and Nebraska on and east of U.S. Highway 81. The purpose of this filing is to eliminate the gateways of Nashville and Memphis, Tenn.

## NOTICES

No. MC 119774 (Sub-No. E307), filed March 27, 1975. Applicant: EAGLE TRUCKING COMPANY, P.O. Box 471, Kilgore, Tex. 75662. Applicant's representative: Nolan F. Killingsworth (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Plastic pipe, from Bensenville, Ill., on the one hand, and, on the other, points in Nevada on and south of U.S. Highway 40 from the California-Nevada State line to junction U.S. Highway 95, thence along U.S. Highway 95 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Nevada-Utah State line; and points in California. The purpose of this filing is to eliminate the gateway of Burns Flat, Okla.

No. MC 119988 (Sub-No. E122), filed June 3, 1974. Applicant: GREAT WESTERN TRUCKING CO., INC., P.O. Box 1384, Lufkin, Tex. 75902. Applicant's representative: Joe E. Kinard, 201 W. Commerce St., Dallas, Tex. 75208. Authority sought to operate as a common carrier, by motor vehicles, over irregular routes, transporting: (1) Printed advertising matter, and (2) newspaper supplements otherwise exempt from economic regulation under Section 203(b) (7) of the Act when transported in mixed loads with printed advertising matter, from points in that part of Texas on and bounded by a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 81 to junction U.S. Highway 181, thence along U.S. Highway 181 to junction Texas Highway 35, thence along Texas Highway 35 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction U.S. Highway 259, thence along U.S. Highway 259 to the Texas-Oklahoma State line, thence along the Texas-Oklahoma State line to point of origin, to points in West Virginia on and north of U.S. Highway 33. The purpose of this filing is to eliminate the gateway of Montgomery County, Kans.

No. MC 119988 (Sub-No. E123), filed June 3, 1974. Applicant: GREAT WESTERN TRUCKING CO., INC., P.O. Box 1384, Lufkin, Tex. 75902. Applicant's representative: Joe E. Kinard, 201 W. Commerce Street, Dallas, Tex. 75208. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) Printed advertising matter, and (2) newspaper supplements otherwise exempt from economic regulation under Section 203(b) (7) of the Act when transported in mixed loads with printed advertising matter, from points in that part of Texas on and bounded by a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 81 to junction U.S. Highway 181, thence along U.S. Highway 181 to junction Texas Highway 35, thence along Texas Highway 35 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction U.S. Highway 259, thence along U.S. Highway 259 to the Texas-Oklahoma State line, thence along the Texas-Oklahoma State line, to point of origin, to points in Maryland. The pur-

pose of this filing is to eliminate the gateway of Montgomery County, Kans.

No. MC 123685 (Sub-No. E5), filed May 15, 1974. Applicant: PEOPLES CARTAGE, INC., 8045 Navarre Rd. SW., Massillon, Ohio 44646. Applicant's representative: James W. Muldoon (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Oil field equipment and supplies, between points in West Virginia on and west of U.S. Highway 21, on the one hand, and,

on the other, points in Pennsylvania, and points in Ohio on and east of a line beginning at the Ohio-West Virginia State line, thence along Ohio Highway 60 to junction U.S. Highway 250, thence along U.S. Highway 250 to Lake Erie. The purpose of this filing is to eliminate the gateway of Parkersburg, W. Va.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON,  
Acting Secretary.

[Notice No. 59]

## MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

May 21, 1975.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a (a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the

protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

## MOTOR CARRIERS OF PROPERTY

No. MC 85374 (Sub-No. 8TA), filed May 12, 1975. Applicant: FERRO TRUCKING, INC., 134 Washington Ave., Belleville, N.J. 07109. Applicant's representative: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Food products, animal feeds, and materials used in the manufacture, sale, and distribution of such commodities (except

commodities in bulk, in tank vehicles), in vehicles equipped to provide protection from heat and cold, between Hillside, N.J., on the one hand, and, on the other, points in Rockland and Orange Counties, N.Y., for 180 days. Supporting shipper: Kraft Foods Division of Kraftco Corporation, 200 Sheffield St., Mountainside, N.J. 07092. Send protests to: District Supervisor Robert S. H. Vance, Bureau of Operations, Interstate Commerce Commission, 3 Clinton St., Newark, N.J. 07102.

No. MC 95376 (Sub-No. 9TA), filed May 12, 1975. Applicant: McVEY TRUCKING, INC., R.R. 1, Oakwood, Ill. 61858. Applicant's representative: Clyde Meachum, 41 on The Mall, Danville, Ill. 61832. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Concrete coping for swimming pools, from Urbana, Ill., to all points in Indiana, Iowa, Wisconsin, Ohio, Kentucky, Tennessee, Michigan, Missouri, Minnesota, Florida, New York, and Texas, for 180 days. Supporting shipper: Kinematics, Ltd., 1108 N. Cunningham, Urbana, Ill. 61801. Send protests to: District Supervisor Robert G. Anderson, Interstate Commerce Commission, Bureau of Operations, Everett McKinley Dirksen Building, 219 S. Dearborn St., Rm. 1086, Chicago, Ill. 60604.

No. MC 95876 (Sub-No. 173TA), filed May 9, 1975. Applicant: ANDERSON TRUCKING SERVICE, INC., 203 Cooper Avenue North, P.O. Box 56301, St. Cloud, Minn. 56301. Applicant's representative: Val M. Higgins, 1000 First National Bank Bldg., Minneapolis, Minn. 55402. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) Granite, marble, slate and stone, from points in Llano County, Tex., to points in Alabama, Arkansas, Florida, Georgia, Kansas, Louisiana, Mississippi, Missouri, North Carolina, Oklahoma, and South Carolina; and (2) Granite, marble, slate and stone, from points in Gillespie County, Tex., to points in Alabama, Arkansas, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, South Carolina, South Dakota, Tennessee, and Wisconsin, for 180 days. Supporting shippers: Premier Granite Quarries, P.O. Box 847, Llano, Tex. 78643; Red Granite Division—Dezendorf Corp. 909 East 49½ Street, Austin, Tex. 78751. Send protests to: A. N. Spath, District Supervisor, Interstate Commerce Commission, Bureau of Operation, 414 Federal Building & U.S. Court House, 110 S. 4th St., Minneapolis, Minn. 55401.

No. MC 106674 (Sub-No. 163TA), filed May 13, 1975. Applicant: SCHILLI MOTOR LINES, INC., P.O. Box 123, Remington, Ind. 47977. Applicant's representative: Jerry L. Johnson (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Lead and lead alloys (except commodities

## NOTICES

which because of size or weight require the use of special transportation equipment), from Glover, Mo., to points in California, Florida, Georgia, Illinois, Indiana, Louisiana, Massachusetts, Minnesota, New Jersey, New York, Pennsylvania, Texas, West Virginia, and Wisconsin, for 180 days. Supporting shipper: American Smelting and Refining Company, Suite 2506, 720 Olive Street, St. Louis, Mo. 63101. Send protests to: J. H. Gray, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 345 West Wayne Street, Rm. 204, Fort Wayne, Ind. 46802.

No. MC 111936 (Sub-No. 13TA), filed May 13, 1975. Applicant: MURROW'S TRANSFER, INCORPORATED, Box 4095, High Point, N.C. 27263. Applicant's representative: Darrell Peace, P.O. Box 4095, High Point, N.C. 27263. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Citrus pulp, from points in Florida to points in North Carolina on and between Highway N.C. 16 and Highway U.S. 301, for 180 days. Supporting shippers: Davis Feed and Supply, Rte. 1, Randleman, N.C. 27317; Hinkle Milling Company, 110 Randolph, Thomasville, N.C. 27360; and W. A. Davis Milling Company, 126 S. Centennial, High Point, N.C. 27260. Send protests to: Archie W. Andrews, District Supervisor, Bureau of Operations, Interstate Commerce Commission, P.O. Box 26896, Raleigh, N.C. 27611.

No. MC 113388 (Sub-No. 108TA), filed May 13, 1975. Applicant: LESTER C. NEWTON TRUCKING CO., P.O. Box 618, Seaford, Del. 19973. Applicant's representative: Chester A. Zyblut, 1522 K St. NW., Washington, D.C. 20005. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) Frozen food-stuff and (2) Commodities the transportation of which is partially exempt from regulation under the provisions of section 203(b) (6), of the Interstate Commerce Act, when moving in the same vehicle and at the same time with commodities described in (1) above, from Sumter, S.C., to points in Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Delaware, Pennsylvania, Virginia, Salisbury, Md., and Washington, D.C., for 180 days. Supporting shipper: Richard J. Lloyd, Manager-Transportation, Campbell Soup Company, Salisbury, Md. 21801. Send protests to: William L. Hughes, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 814-B Federal Building, Baltimore, Md. 21201.

No. MC 113908 (Sub-No. 342TA), filed May 13, 1975. Applicant: ERICKSON TRANSPORT CORPORATION, 2105 East Dale Street, P.O. Box 3180 Glenstone Sta., Springfield, Mo. 65804. Applicant's representative: B. B. Whitehead (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Neutral spirits, distilled spirits, alcohol, fruit juice and fruit juice

concentrate, in bulk, from points in California, to Atlanta and Roberta, Ga. and Altus, Ark., for 180 days. Supporting shippers: Monarch Wine Company of Georgia, P.O. Box 6847, Atlanta, Ga. 30315 and Wiederkehr Wine Cellars, Inc., Altus, Ark. 72821. Send protests to: John V. Barry, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 600 Federal Building, 911 Walnut Street, Kansas City, Mo. 64106.

No. MC 115331 (Sub-No. 393TA), filed May 9, 1975. Applicant: TRUCK TRANSPORT, INCORPORATED, 29 Clayton Hills Lane, St. Louis, Mo. 63131. Applicant's representative: J. R. Ferris, 230 St. Clair Ave., E. St. Louis, Ill. 62201. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Charcoal, charcoal pellets, bagged, vermiculite (base for grill), in bags, charcoal lighter fluid, in cans, hickory chips, in bags, and fireplace logs (compressed sawdust, wax impregnated), from National City Cold Storage Warehouse, National City, Ill., to points in Arkansas, Indiana, Iowa, Kansas, Missouri, Minnesota, Nebraska, North Dakota, Oklahoma, South Dakota, and Wisconsin, for 180 days. Supporting shipper: The Kingsford Company, P.O. Box 1033, Louisville, Ky. 40201. Send protests to: District Supervisor, J. P. Werthmann, Interstate Commerce Commission, Bureau of Operation, Room 1465, 210 N. 12th Street, St. Louis, Mo. 63101.

No. MC 117416 (Sub-No. 50TA), filed May 13, 1975. Applicant: NEWMAN AND PEMBERTON CORPORATION, 2007 University Avenue NW., Knoxville, Tenn. 37921. Applicant's representative: Herbert Alan Dubin, 1819 H Street NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Such merchandise as is dealt in by wholesale, retail, and chain grocery food business houses (except in bulk, or frozen or fresh fruits and vegetables), from the plantsites and storage and warehouse facilities of The Clorox Company located at or near Atlanta, Ga., to points in Kentucky and Tennessee, for 180 days. Supporting shipper: The Clorox Company, 7901 Oakport Street, Oakland, Calif. 94621. Send protests to: Joe Jo. Tane, District Supervisor, Bureau of Operations, Interstate Commerce Commission, A-422 Federal Building, 801 Broadway, Nashville, Tenn. 37203.

No. MC 120098 (Sub-No. 27TA), filed May 2, 1975. Applicant: UINTAH FREIGHTWAYS, 1030 South Redwood Road, Salt Lake City, Utah 84104. Applicant's representative: William S. Richards, 1515 Walker Bank Bldg., P.O. Box 2465, Salt Lake City, Utah 84110. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: General commodities (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment) Between Salt Lake City, Utah, and Canon City, Colo., serving all intermediate points on U.S.

Highway 50 in Colorado: From Salt Lake City, Utah over Interstate Highway 15 to junction U.S. Highway 50, thence over U.S. Highway 50 to Canon City, Colo., and return over the same route, for 180 days. Supporting shipper: Supported by 91 shippers which may be viewed at the Office of the Secretary, Interstate Commerce Commission, Bureau of Operations, Washington, D.C. Send protests to: Lyle D. Helfer, District Supervisor, Interstate Commerce Commission, 5301 Federal Building, 125 South State Street, Salt Lake City, Utah 84138.

No. MC 124078 (Sub-No. 648TA), filed April 23, 1975. Applicant: SCHWERTMAN TRUCKING COMPANY, P.O. Box 1601, 611 South 28 Street, Milwaukee, Wis. 53215. Applicant's representative: Richard H. Prevette (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Mineral spirits*, in bulk, in tank vehicles, between Douglasville, Ga., and Port Charlotte, Fla., for 180 days. Supporting shipper: Safety-Kleen Corporation, 16325 W. Ryerson Road, New Berlin, Wis. 53151. Send protests to: John E. Ryden, Bureau of Operations, Interstate Commerce Commission, 135 West Wells Street, Room 807, Milwaukee, Wis. 53203.

No. MC 124078 (Sub-No. 649TA), filed April 29, 1975. Applicant: SCHWERTMAN TRUCKING COMPANY, P.O. Box 1601, 611 South 28th Street, Milwaukee, Wis. 53215. Applicant's representative: Richard H. Prevette (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Dry soybean meal and hulls*, in bulk, from Logansport, Ind., to points in Kentucky and Wisconsin, for 180 days. Supporting shipper: Krause Milling Company, P.O. Box 1156, Milwaukee, Wis. 53201. Send protests to: John E. Ryden, Bureau of Operations, Interstate Commerce Commission, 135 West Wells Street, Room 807, Milwaukee, Wis. 53203.

No. MC 125777 (Sub-No. 157TA), filed May 5, 1975. Applicant: JACK GRAY TRANSPORT, INC., 4600 East 15th Avenue, Gary, Ind. 46403. Applicant's representative: Donald B. Levine, 39 South LaSalle Street, Chicago, Ill. 60603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Coal*, from the Mine of United Coal Corporation located at or near Inola, Okla., (a) to points in Oklahoma for continuing movement via water or rail, and (b) to points in Neosho and Wilson Counties, Kans., and Clebourne and Dallas, Tex., for 180 days. Supporting shipper: United Coal Corporation, 4321 East 51st Street, Tulsa, Okla. 74315. Send protests to: J. H. Gray, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 345 West Wayne Street, Rm. 204, Fort Wayne, Ind. 46802.

No. MC 126736 (Sub-No. 73TA), filed May 12, 1975. Applicant: PETROLEUM CARRIER CORPORATION OF FLORIDA, 155 East 21st St., P.O. Box 1559,

Jacksonville, Fla. 32201. Applicant's representative: L. H. Blow, 155 East 21st St., Jacksonville, Fla. 32201. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid feed ingredients*, in bulk, in tank vehicles, from Memphis, Tenn., to Jacksonville, Fla., for subsequent movement by water, for 180 days. Supporting shippers: Master Forwarding Corp., 117 Cottonwood Court, Coraopolis, Pa. 15108, and Central States Forwarding Corporation (same address as applicant). Send protests to: John J. England, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 2111 Federal Bldg., 1000 Liberty Ave., Pittsburgh, Pa. 15222.

No. MC 135945 (Sub-No. 2TA), filed May 12, 1975. Applicant: BOB HILDEBRANDT, Prescott, Wis. 54021. Applicant's representative: F. H. Kroeger, 1745 University Ave., St. Paul, Minn.

55104. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Soybean meal and linseed meal*, in bulk, from Red Wing, Minn., to points in Wisconsin, for 180 days. Supporting shipper: Archer Daniels Midland Company, Box 74, Red Wing, Minn. 55066. Send protests to: Raymond T. Jones, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 414 Federal Building & U.S. Court House, 110 S. 4th St., Minneapolis, Minn. 55401.

No. MC 136211 (Sub-No. 30TA), filed May 13, 1975. Applicant: MERCHANTS HOME DELIVERY SERVICE, INC., 210 St. Mary's Drive, Suite G, P.O. Box 5067, Oxnard, Calif. 93030. Applicant's representative: Max G. Morgan, Suite 223 Ciudad Building, Oklahoma City, Okla. 73112. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *New furniture, furnishing, and appliances* (restricted against the transportation of shipment to retail or commercial enterprises) (1) from the facilities of M. Shalvitz & Sons located at Baltimore, Md.; to points in (a) Franklin, Cumberland, Dauphin, Adams, Lebanon, Lancaster, and York Counties, Pa.; (b) New Castle, Kent, and Sussex Counties, Del.; (c) Fairfax, Loudoun, Clarke, Frederick, Shenandoah, Page, Rappahannock, Culpeper, Orange, Spotsylvania, Carolina, Essex, Richmond, Northumberland, Westmoreland, King George, Stafford, and Prince William, Counties, Va.; (d) the District of Columbia; and Cumberland, Gloucester, and Salem Counties, N.J.; and (2) from the facilities of Waldheim's Furniture located at Milwaukee, Wis. to points in McHenry and Lake Counties, Ill., for 180 days. Supporting shipper: M. Shalvitz & Sons, 6415 Baltimore National Pike, Baltimore, Md. and Waldheim's Furniture, 857 N. Plankinton Avenue, Milwaukee, Wis. 53203. Send protests to: District Supervisor, Walter W. Strakosch, Interstate Commerce Commission, Bureau of Operations, Room 1321 Federal Building, 300 North Los Angeles Street, Los Angeles, Calif. 90012.

No. MC 136899 (Sub-No. 13TA), filed May 9, 1975. Applicant: HIGGINS TRANSPORTATION LTD., 824 Valley View Dr., P.O. Box 192, Richland Center, Wis. 53581. Applicant's representative: Gary A. Anderson (same address as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by retail, wholesale, and chain grocery food business houses (except commodities in bulk) from Hopkins, Minn., to Richland Center, Wis., for 180 days. Supporting shipper: Carroll, Inc. 120 S. Jefferson St. Richland Center, Wis. 53581. Send protests to: Barney L. Hardin, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 139 W. Wilson St., Room 202, Madison, Wis. 53703.

No. MC 138054 (Sub-No. 8TA), filed May 9, 1975. Applicant: CONDOR CONTRACT CARRIERS, INC., P.O. Box 1354,

Garden Grove, Calif. 92642. Applicant's representative: Patrick E. Quinn, 605 South 14th Street, P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Ornamental iron, plastic articles, vents, ventilators, ceiling grids, shutters, louvers, and parts and accessories* used in the manufacturing, sale and installation of the commodities named above (except commodities in bulk and those which by reason of size or weight require the use special equipment), (1) between the facilities of Leslie-Locke, Division of Questor, located at or near Lodi, Ohio; Franklin Park and Mt. Carroll, Ill.; Tucker and Tifton, Ga.; Ft. Worth, Tex. and Madera, Calif.; and (2) from the plant site of Leslie-Locke, Division of Questor, at Ft. Worth, Tex., to points in Arizona and New Mexico, under contract with Leslie-Locke, Division of Questor, for 180 days. Supporting shipper: Leslie-Locke, Division of Questor, Ohio Street, Lodi, Ohio 44254. Send protests to: Philip Yallowitz, District Supervisor, Interstate Commerce Commission, Room 1321 Federal Building, 300 North Los Angeles Street, Los Angeles, Calif. 90012.

No. MC 138126 (Sub-No. 3TA), filed May 13, 1975. Applicant: WILLIAMS REFRIGERATED EXPRESS, INC., P.O. Box 47, Old Denton Rd., Federalsburg, Md. 21632. Applicant's representative: Chester A. Zyblut, 1522 K St. NW., Washington, D.C. 20005. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Frozen foodstuff* and (2) *commodities* the transportation of which is partially exempt from regulation under the provisions of Sec. 203(b) (6), I.C.A., when moving in the same vehicle and at the same time with commodities described in (1) above, from Sumter, S.C., to points in Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Delaware, Pennsylvania, Ohio, West Virginia, Virginia, and Salisbury, Md. Restriction: Restricted to partial pick-up of shipments originating at Salisbury, Md., as authorized in MC 138126 Sub 1TA, for 180 days. Supporting shipper: Richard J. Lloyd, Manager—Transportation, Campbell Soup Company, Salisbury, Md. 21801. Send protests to: William L. Hughes, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 814-B Federal Building, Baltimore, Md. 21201.

No. MC 138157 (Sub-No. 18TA), filed May 8, 1975. Applicant: SOUTHWEST EQUIPMENT RENTAL, INC., doing business as SOUTHWEST MOTOR FREIGHT, 4284, Mission Boulevard, Pomona, Calif. 91769. Applicant's representative: Patrick E. Quinn, 605 South 14th Street, P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought to operate as a common carrier by motor vehicle, over irregular routes, transporting: *Wood products, plastic products, plastic products, toothpick dispensers, sporting goods and sporting goods accessories*, from Wilton, Maine, to points in the United States (except Alaska, Hawaii, Maine, Denver, Colo., Jacksonville and

Miami, Fla., San Francisco and Los Angeles, Calif., and Seattle, Wash.), for 180 days. Supporting shipper: Forster Mfg. Co., Inc., Wilton, Maine 04294. Send protests to: Phillip Yallowitz, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 1321 Federal Building, 300 North Los Angeles Street, Los Angeles, Calif. 90012.

No. MC 140468 (Sub-No. 2TA), filed May 14, 1975. Applicant: DONALD R. BAJEMA AND GERALD O. BAJEMA, doing business as RIVERVIEW DIARY FARMS, 2777 Hillside Drive NW, Grand Rapids, Mich. 49504. Applicant's representative: Martin J. Leavitt, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dairy products*, other than in bulk, in vehicles equipped with mechanical refrigeration and the return of empty containers, from Lansing, Mich., on the one hand, and, on the other, to the customers of Sealtest Food Division of Kraftco Corporation in Lansing, Ill.; Valparaiso, Ind. and La Porte, Ind., for 180 days. Supporting shipper: Sealtest Foods, Division of Kraftco Corp., 2224 W. Willow, Lansing, Mich. 48917. Send protests to: C. R. Flemming, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 225 Federal Building, Lansing, Mich. 48933.

No. MC 140615 (Sub-No. 2TA), filed May 9, 1975. Applicant: DAIRYLAND TRANSPORT, INC., P.O. Box 1064, Wisconsin Rapids, Wis. 54494. Applicant's representative: Dennis C. Brown, P.O. Box 1064, Wisconsin Rapids, Wis. 54494. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Unedible food products*, in vehicles equipped with mechanical refrigeration equipment, from Hainesport, N.J., to Peoria, Ill., Battle Creek, Mich., and Everson, Pa., for 180 days. Supporting shipper: Barney L. Hardin, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 139 W. Wilson St., Room 202, Madison, Wis. 53703.

No. MC 140615 (Sub-No. 3TA), filed May 9, 1975. Applicant: DAIRYLAND TRANSPORT, INC., P.O. Box 1064, Wisconsin Rapids, Wis. 54494. Applicant's representative: Dennis C. Brown (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic materials (other than expanded)*, solid, lump, granules, pellets, powder, flake or liquid, from the plant-site and warehouse facilities of BASF Wyandotte Corporation at South Brunswick Township (Jamesburg), New Jersey and North Brunswick, N.J., to Albert Lea, Lester Prairie and Rockford, Minn.; Webster, S. Dak.; and Eau Claire, Elkhorn, Madison, Markesan, Pembine, and Stevens Point, Wis., for 180 days. Supporting shipper: BASF Wyandotte Corporation, 100 Cherry Hill Road, Parsippany, N.J. 07054. Send protests to: Barney L. Hardin, District Supervisor, Interstate Commerce Com-

mission, Bureau of Operations, 139 W. Wilson St., Rm. 202, Madison, Wis. 53703.

No. MC 140903 (Sub-No. 1TA), filed May 7, 1975. Applicant: DENNIS JIMISON CONSTRUCTION CO., INC., Highland Park Road, P.O. Box 1154, Glendive, Mont. 59330. Applicant's representative: John R. Davidson, Room 805, Midland Bank Bldg., Billings, Mont. 59101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer*, in bag and in bulk, from Salida, Colo., to points in Carter, Daniels, Powder River, Rosebud, Custer, Fallon, Wibaux, Prairie, Dawson, McCone, Richland, Sheridan, Roosevelt, and Valley Counties, Mont., and Bowman, Adams, Hettinger, Stark, Billings, Golden Valley, Dunn, McKenzie, Williams, Slope, and Divide Counties, N. Dak., for 180 days. Supporting shipper: L & E Enterprise, Inc., Cracker Box Rt., Glendive, Mont. 59330; Terry L. Dotson, 1408 East Ames, Glendive, Mont. 59330. Send protests to: Paul J. Labane, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 222, U.S. Post Office Bldg., Billings, Mont. 59101.

No. MC 140934 (Sub-No. 1TA), filed May 2, 1975. Applicant: WILLIAM E. MOROG, doing business as JONICK & CO., 2815 East Liberty Avenue, Vermillion, Ohio. 44089. Applicant's representative: Michael M. Briley, 300 Madison Avenue, Toledo, Ohio 43604. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Refractory materials*, (1) from the plantsite and facilities of BMI, Inc. (and its subsidiaries) located at or near Pedro, Ohio and South Webster, Ohio to points in the State of Pennsylvania, Indiana, Illinois, Michigan, West Virginia, Missouri, Wisconsin, and New York and the return of raw materials used in the manufacture of refractory materials, from points in Indiana, New York, Pennsylvania and Illinois; and (2) from the plantsite and facilities of BMI, Inc. (and its subsidiaries) located at or near S. Rockwood, Mich., to points in Ohio, Pennsylvania, and West Virginia, and the return of raw materials, used in the manufacture of refractory materials, from points in Ohio, for 180 days. Supporting shipper: BMI, Inc., P.O. Box 38, Pedro, Ohio. Send protests to: Keith D. Warner, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 313 Federal Office Building, 234 Summit Street, Toledo, Ohio 43604.

No. MC 140945 TA, filed May 8, 1975. Applicant: JAMES W. CROWE, doing business as JAMES W. CROWE, 307 Brennan Road, Columbus, Ga. 31903. Applicant's representative: C. E. Walker, Suite 307 First National Bank Bldg., P.O. Box 1085, Columbus, Ga. 31902. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Dry fertilizer, fertilizer materials, crop protection chemicals*, when shipped in vehicles with fertilizer and fertilizer material, farm seed and animal feed, in bags, containers

or in bulk, between points in Alabama, Florida, and Georgia, for 180 days. Supporting shipper: U. S. S. Agri-Chemicals, (Division of United States Steel Corp.), Title Building, 30 Pryor Street, P.O. Box 1683, Atlanta, Ga. 30301. Send protests to: William L. Scroggs, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 1252 W. Peachtree St. NW., Room 546, Atlanta, Ga. 30309.

No. MC 140946 TA, filed May 8, 1975. Applicant: TYSON EXPRESS, INC., 2210 West Oakland Drive, Springdale, Ark. 72764. Applicant's representative: John Maguire (same address as applicant). Authority sought to operate as a *contract carrier* by motor vehicle, over irregular routes, transporting: (1) *Foodstuffs* (except in bulk), from Washington County, Ark. and Gibson County, Tenn., to points in the continental United States and (2) *materials, equipment and supplies* (except supplies in bulk) used in the manufacture and distribution of the commodities named in (1) above, from points in the United States, to Washington County, Ark. and Gibson County, Tenn., for 180 days. Supporting shipper: Tyson Foods, Inc., 2210 W. Oakland Drive, Springdale, Ark. 72764. Send protests to: William H. Land, Jr., District Supervisor, Bureau of Operations, Interstate Commerce Commission, 2519 Federal Office Building, 700 West Capitol, Little Rock, Ark. 72201.

No. MC 140889 (Sub-No. 1TA), filed May 9, 1975. Applicant: FIVE STAR TRUCKING, INC., P.O. Box 20148, El Cajon, Calif. 92021. Applicant's representative: Kenneth F. Dudley, 611 Church Street, P.O. Box 279, Ottumwa, Iowa 52501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting *electric motors, electric welders, electric motor and welder parts, welding kits, welding supplies and accessories*, from Cleveland, Ohio, to points in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming, under contract with The Lincoln Electric Company, for 180 days. Supporting shipper: The Lincoln Electric Company, 22801 St. Clair Avenue, Cleveland, Ohio 44117. Send protests to: Mr. Phillip Yallowitz, District Supervisor, Interstate Commerce Commission, Room 1321 Federal Building, 300 North Los Angeles Street, Los Angeles, Calif. 90012.

No. MC 140950 TA, filed May 13, 1975. Applicant: BROOKVILLE TRANSPORT, LIMITED, P.O. Box 2332, Station C, St. John, New Brunswick, Canada. Applicant's representative: Peter L. Murray, 30 Exchange St., Portland, Maine 04111. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Limestone and limestone products*, including ground and agricultural limestone, in bulk, in dump vehicles, and in bags, from ports of entry on the United States-Canadian international boundary, at or near Fort Kent, Fort Fairfield, Mars Hill, Houlton, and Calais, Maine, to

points in Maine, for 90 days. Supporting shipper: Brookville Manufacturing Company, Limited, Brookville, St. John, New Brunswick, Canada. Send protests to: District Supervisor Donald G. Weiler, Bureau of Operations, Interstate Commerce Commission, Rm. 307, 76 Pearl St., Portland, Maine 04111.

No. MC 140951 TA, filed May 13, 1975. Applicant: JAMES R. PATERSON, doing business as PATERSON TRUCKING CO., 11099 Lyon Rd., Delta, British Columbia, Canada V4E 1J4. Applicant's representative: Samuel W. Fancher, 600 American Federal Bldg., Tacoma, Wash. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from the Dickman sawmill located at Tacoma, Wash., to United States-Canada International Boundary, located at or near Blaine, Wash., and return with any over-shipments or unsatisfactory goods, on shipments destined to Vancouver, B.C., Canada, for 180 days. Supporting shipper: Dickman Lumber Co., 2423 Ruston Way, Tacoma, Wash. Send protests to: L. D. Boone, Transportation Specialist, Bureau of Operations, Interstate Commerce Commission, 858 Federal Bldg., 915 Second Ave., Seattle, Wash. 98174.

## APPLICATIONS OF PASSENGERS

No. MC 123126 (Sub-No. 3TA), filed April 13, 1975. Applicant: FRANKLIN BUS SERVICE, INCORPORATED, 309 Roosevelt Street, Franklin, Va. 23851. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage in the same vehicle* from points and places in the Cities of Franklin, Va., and Suffolk, Va. Counties of Greensville, Sussex, Southampton, Isle of Wight, Brunswick, Va., and Hertford County, N.C., to points and places in Connecticut, Florida, Georgia, Tennessee, West Virginia, Pennsylvania, and South Carolina, for 180 days. Supporting shipper: There are 55 statements of support attached to the application, which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: C. M. Harmon, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 10-502 Federal Bldg., 400 North Eighth Street, Richmond, Va. 23240.

No. MC 138494 (Sub-No. 2TA), filed May 13, 1975. Applicant: NORTHERN

BUS LINES, LIMITED, 1415 3rd Avenue South, Lethbridge, Alberta, Canada. Applicant's representative: Paterson & Co., 407 Holiday Village South, Lethbridge, Alberta, Canada. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and personal effects* in round trip charter operations, from points in the Province of Alberta to points in the United States, excluding Hawaii, utilizing all ports of entry between the United States and Canada for 180 days. Supporting shippers: There are approximately 11 statements of support attached to the application, which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: Paul J. Labane, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 222, U.S. Post Office Bldg., Billings, Mont. 59101.

By the Commission.

## HOSPITAL COSTS UNDER THE HEALTH INSURANCE PROGRAM

### Schedule of Limits for Cost-Reporting Pe- riods Beginning on or After July 1, 1975

On April 17, 1975, there was published in the *FEDERAL REGISTER* (40 FR 17190), a notice of proposed Schedule of Limits on Hospital Inpatient General Routine Service Costs For Hospitals (With Cost-Reporting Periods Beginning On or After July 1, 1975, Section 1861 (v)(1) of the Social Security Act, as amended, permits the Secretary of Health, Education, and Welfare to set prospective limits on direct or indirect overall incurred costs or incurred costs of specific items or services or groups of items or services furnished by a provider, to be recognized as reasonable based on estimates of the cost, necessary in the efficient delivery of needed health services. The proposed Schedule of Limits published in the *FEDERAL REGISTER* on April 17, 1975 (40 FR 17190), was intended to revise the Interim Schedule of Limits on Hospital Inpatient General Routine Service Costs published in the *FEDERAL REGISTER* on June 6, 1974 (39 FR 20168), and was intended to be applicable to cost-reporting periods beginning on or after July 1, 1975, and until the effective date of a revised schedule.

Interested parties were given 30 days within which to submit data, views and arguments. Comments and suggestions received with regard to that notice of proposed Schedule of Limits, responses thereto, and changes made in the proposed schedule of limits are summarized below:

1. The bulk of the comments dealt with the lowering of the limits to the 80th percentile. A number of commenters asserted that the limits were lowered to the 80th percentile only as a cost-cutting device, without consideration of the financial impact on providers or the possible reduction in the quality of care. Other commenters suggested that the lower limits based on the 80th percentile, with the accompanying lowering of the interim payment rate, would imperil the cash-flow position of many providers.

The results of lowering the limits to the 80th percentile were carefully considered before the notice of proposed Schedule of Limits was published. It continues to be the Secretary's view that because of the more homogeneous groupings resulting from the improved cost-limit methodology, which more accurately reflect the necessary input costs of the hospitals, it is appropriate to set the limit at the 80th percentile plus 10 percent of the median of each classification group. The revised limits will better identify hospitals whose costs are substantially higher than those deemed necessary for efficient delivery of hospital inpatient general routine services. In addition, though the limits have been set at the 80th percentile plus 10 percent of the median, hospitals with rou-

tine costs above the limit will continue to have an opportunity to explain their excess costs and obtain relief to the extent that these costs are justified and verified (see 20 CFR 405.460(f)).

2. Comments were made that the effects of such factors as educational programs, patient mix, or scope of service on the hospital's inpatient general routine service cost were ignored in the revised classification system. These factors were not ignored, but were carefully considered before the revised classification system was issued. It is true that institutions which have educational programs may incur higher costs than institutions without educational programs. However, the classification variables in the new system cause teaching hospitals to be grouped together. In each Standard Metropolitan Statistical Area (SMSA) income class, for example, the two comparison groups composed of the hospitals with the largest bed sizes include over 70 percent teaching institutions (most over 80 percent). Thus, those hospitals most concerned about being compared with like hospitals are, in fact, being compared to other teaching hospitals. No direct provision has been made for the effects of patient mix and scope of services. Careful study of several variables representing these factors showed that their inclusion resulted in no significant improvement in any tested system based on general routine input service costs. The variables tested proved to be highly correlated with bed size. We will continue to consider any improvements suggested and will make changes where evidence shows changes are justified. However, no evidence has been submitted to support the concept that patient mix and scope of services have a significant effect on general routine inpatient service costs. The regulations (see § 405.460(f)(2)) provide that, where a provider can demonstrate that its costs exceed the applicable limit by reason of educational activities or by the special needs of the patients treated, an exception can be made to the application of the limit, to the extent that the added costs flow from approved educational activities, to the extent they are atypical (although reasonable) for providers in the comparison group, or flow from the provision of special needs of patients treated and are necessary in the delivery of needed health care.

3. Various questions have been received concerning the treatment of counties in different States in the same Standard Metropolitan Statistical Areas (SMSA) in the revised classification system. All counties or cities within an SMSA (as defined in the Federal Information Processing Standards Publication (F.I.P.S. Pub. 8-4)) are placed in the same group, regardless of State location. For example, Montgomery County, Maryland and Alexandria City, Virginia, both of which are in the Washington, D.C. SMSA, would be in the same group (SMSA Group I, which contains the Washington, D.C. SMSA) even though they are in different States.

4. A number of commenters appeared to be under the impression that the limits apply to total hospital inpatient costs per day. It should be understood that the Schedule of Limits presented herein applies only to the hospital inpatient general routine service costs, but does not apply to the costs of services furnished in special-care units or to the costs of ancillary services.

5. Some parties expressed the view that they have a lower average length-of-stay than comparable hospitals, due to the more intense services that they provide, and this results in their having a higher routine service cost per day. They believe hospitals with shorter length-of-stays are more adversely affected by the limits. A lower average length-of-stay results from differences in case mix or from the provision of more intensive ancillary services. Since the published limits pertain to general routine service costs, the application of the limits do not more adversely affect hospitals with a lower average length of stay.

Also, the regulations in section 405.460 provide an exception to the limits for the cost of atypical services where the provision of the atypical items or services were by reason of the special needs of the patients treated, and necessary in the efficient delivery of needed health care. Thus, if a hospital can demonstrate that, due to the special needs of its patients, it provides more intense general routine services, it may be granted an adjustment to the limit.

6. A number of parties commented that the classification system and Schedule of Limits does not distinguish between whether a hospital is an old or new one. Thus, a hospital with a new building and, therefore, with higher capital and interest costs, may have a higher routine cost per day than would other hospitals with older facilities.

Although a newer facility may have higher capital and interest costs than an older facility, a newer facility, generally, incorporates more advanced design concepts, which permit it to operate more efficiently than an older one and incur lower repair and maintenance costs. Thus, the different cost consequences of capital and interest costs, on one hand, and repair, maintenance, and operation of plant costs, on the other hand, are reasonably accounted for in the published limits.

Moreover, while the regulations do not provide for an exception for costs associated with new buildings, the carry-over provision in section 405.460(g) does provide for the recognition of the higher costs associated with a new provider. The regulations allow a new provider which has incurred costs above the limits, to carry over these excess costs and recover them during the subsequent 5-year period, if certain conditions are met.

7. In response to questions concerning the source of per capita income data, used to group SMSA's and Non-SMSA's, the data utilized are from the *Survey of Current Business*, May 1974, Volume 4, Number 5, Part II, published by the United

States Department of Commerce, Social and Economic Statistics Administration, Bureau of Economic Analysis.

8. Various editorial changes have been made in the interest of clarity.

While it is recognized that we must continue to refine the classification system, we believe that the new classification system is an improvement over the current system, and will better identify hospitals whose costs are substantially higher than those deemed necessary for efficient delivery of inpatient general routine hospital services. Substantial effort is being expended to make further improvements in the classification system and cost-limits methodology. Many of the suggestions set forth in the comments received on the proposed notice will be considered further in our continuing effort to improve that system and methodology.

Under the revised classification system, hospitals will be grouped based on whether they are located in a Standard Metropolitan Statistical Area (SMSA) or a non-Standard Metropolitan Statistical Area (non-SMSA). Hospitals located in SMSA's are classified on the basis of per capita income in those areas and without regard to State lines. All SMSA's have been divided into the following five groups based on per capita income.

Non-SMSA areas will be classified according to the per capita income of all non-SMSA counties within a State. The following are the five income groupings, with States classified according to per capita income, to be used for hospitals located in non-Standard Metropolitan Statistical Areas in those States.

Non-SMSA	
GROUP I	
Alaska	Kansas
Connecticut	Massachusetts
Delaware	Nebraska
Illinois	Nevada
Indiana	Rhode Island
Iowa	Washington
GROUP II	
Arizona	New Jersey
California	New York
Hawaii	Ohio
Maryland	Oregon
Montana	Vermont
New Hampshire	
GROUP III	
Colorado	North Dakota
Florida	Pennsylvania
Idaho	South Dakota
Michigan	Wisconsin
Minnesota	Wyoming
GROUP IV	
Georgia	Oklahoma
Maine	South Carolina
Missouri	Texas
New Mexico	Virginia
North Carolina	
GROUP V	
Alabama	Puerto Rico
Arkansas	Tennessee
Kentucky	Utah
Louisiana	Virgin Islands
Mississippi	West Virginia

To develop urban groups, the Standard Metropolitan Statistical Areas were arrayed in order of the size of their per capita income and classes were established. The nonurban groups were developed in the same manner, using per capita income of non-SMSA areas. The class and points were selected where a relatively significant per capita income difference occurred.

The following bed-size categories are used to classify hospitals:

## NOTICES

## STANDARD METROPOLITAN STATISTICAL AREAS

Less than 100
100 to 404
405 to 684
685 and above

## GROUPS I AND II

Less than 100
100 to 404
405 and above

## GROUPS III, IV, AND V

## NON-STANDARD METROPOLITAN STATISTICAL AREAS

Less than 100
100 to 169
170 and above

The limits were developed in the following manner:

1. Inpatient general routine service cost data for each participating hospital were obtained from the fiscal intermediaries.

2. The data for hospitals in each class were arrayed in descending order of inpatient general routine service costs.

3. The 80th percentile and the median were computed for each class.

4. For each class, an amount equal to 10 percent of the median was added to the 80th percentile amount.

5. This sum was adjusted to reflect the 16 percent annual rate of estimated cost increases in per diem costs following the date of data collection.

6. The amounts calculated in step 5 are rounded to the next highest dollar which establishes the limit for each class, subject to adjustment for hospitals reporting on other than a reporting period starting July 1, 1975.

Under the authority of section 1861 (v) of the Social Security Act, the following cost limitations apply to the total of the hospital inpatient general routine service costs (excluding costs incurred for special care units and ancillary services) adjusted upward as provided for below. The limits are applicable to cost-reporting periods beginning on or after July 1, 1975, and will remain in effect until the effective date of a revised schedule. However, this schedule will apply to the entire cost-reporting period of a hospital whose cost-reporting period begins during its effective period.

The limits are applicable to any hospital with a cost-reporting period beginning on or after July 1, 1975. Where a hospital has a cost-reporting period beginning after July 1, 1975, the published limit will be adjusted upward by a factor of 1.33 percent for each elapsed month between July 1, 1975, and the first day of the month in which the hospital's reporting period starts. The result of this calculation is not rounded and is to be given in dollars and cents.

Example: Hospital A's cost-reporting period starting in 1975 begins October 1, 1975, and ends September 30, 1976. The cost limit for Hospital A's group from the table below is \$133.00.

## COMPUTATION OF ADJUSTED COST LIMIT

Cost limit.....	\$133.00
Plus: Adjustment for 3-month period (July 1, 1975, to Oct. 1, 1975), 3 months x 1.33 percent = 3.99 percent, 3.99 percent x \$133.....	5.31
Adjusted cost limit applicable to Hospital A for the Oct. 1, 1975, to Sept. 30, 1976, reporting period....	138.31

## SCHEDULE OF LIMITS ON HOSPITAL INPATIENT GENERAL ROUTINE SERVICE COSTS FOR HOSPITALS WITH COST-REPORTING PERIODS BEGINNING ON OR AFTER JULY 1, 1975

## HOSPITALS LOCATED WITHIN SMSA'S (URBAN)—BED SIZE

SMSA group	Less than 100	100 to 404	405 to 684	685 and above
I.....	\$113	\$111	\$133	\$174
II.....	91	90	96	120
III.....	89	88	89	89
IV.....	86	86	87	87
V.....	65	72	84	84

## HOSPITALS LOCATED OUTSIDE SMSA'S (NONURBAN)—BED SIZE

State group	Less than 100	100 to 169	170 and above
I.....	\$76	\$83	\$86
II.....	90	80	88
III.....	75	80	79
IV.....	67	67	66
V.....	62	64	67

Limits apply to all Group I SMSA's except Anchorage, Alaska, and Honolulu, Hawaii, where cost-of-living adjustment was made. The limits for these areas are as follows:

	Less than 100	100 to 404	405 to 684	685 and above
Anchorage.....	\$141	\$138	\$166	\$218
Honolulu.....	130	127	153	201

Limits apply to all Group II States except Alaska—limits for Alaska are:

	Less than 100	100 to 169	170 and above
I.....	\$95	\$108	\$106
II.....	100	102	101

(Secs. 1102, 1861 (v) (1), 1866(a), and 1871 of the Social Security Act; 49 Stat. 647, as amended; 79 Stat. 313, as amended; 79 Stat. 327, as amended; 79 Stat. 331; 42 U.S.C. 1302, 1395x(v), 1395cc(a), and 1395hh.)

Effective date. The Schedule of Limits will be effective for cost-reporting periods beginning on or after July 1, 1975, and before the effective date of a revised schedule.

### MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions,  
Modifications and Supersedeas  
Decisions

V 40-105 MAY 30 75

XUM

## DEPARTMENT OF LABOR

Employment Standards Administration  
MINIMUM WAGES FOR FEDERAL AND  
FEDERALLY ASSISTED CONSTRUCTION

## General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (40 Stat. 1494, as amended, (40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 12-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5. Accordingly,

the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

## MODIFICATIONS AND SUPERSEDES DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and Supersedes Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedes Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (40 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 13-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedes Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting

this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

## MODIFICATIONS TO GENERAL WAGE DETERMINATION DECISIONS

The numbers of the decisions being modified and their dates of publication in the FEDERAL REGISTER are listed with each State.

Georgia:  
AR-4038 ----- Sept. 27, 1974  
Iowa:  
IA75-4036; IA75-4037; Jan. 31, 1975

Nevada:  
NV75-5037; NV75-5038; Mar. 28, 1975  
NV75-5039  
Texas:  
TX75-4090 ----- May 16, 1975  
Virginia:  
AP-805 ----- May 4, 1973  
MD75-3003 ----- Jan. 3, 1975  
Washington, D.C.:  
DC75-3002 ----- Jan. 3, 1975

## SUPERSEDES DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

The numbers of the decisions being superseded and their dates of publication in the FEDERAL REGISTER are listed with each State. Supersedes Decision numbers are in parentheses following the numbers of the decisions being superseded.

Alabama:  
AR-4043 (AL75-1056) ----- Oct. 4, 1974  
AL75-1023 (AL75-1060) ----- Feb. 14, 1975  
Illinois:  
AR-3055 (IL75-2078) ----- Aug. 2, 1974  
Montana:  
MT75-5012 (MT75-5062);  
MT75-5017 (MT75-  
5063); MT75-5109  
(MT75-5060) ----- Feb. 7, 1975  
Pennsylvania:  
AQ-2083 (PA75-3057) ----- Apr. 5, 1974  
Tennessee:  
AR-4022 (TN75-1052) ----- Aug. 30, 1974  
Texas:  
TX75-4022 (TX75-4110) ----- Jan. 24, 1975  
TX75-4089 (TX75-4109) ----- May 16, 1975  
Washington:  
AR-1030 (WA75-5064) ----- Sept. 27, 1974

Signed at Washington, D.C., this 23rd day of May 1975.

RAY J. DOLAN,  
Assistant Administrator,  
Wage and Hour Division.

rollers; welding machine (4 or more)

GROUP C  
Air compressor (125 & under); others: firemen; conveyor (1 tended by other);  
pumps (under 4 inches); welding machines (3 or under); mechanic helpers

GROUP D  
ON SPECIAL EXEMPTION: Crane; dragline; derrick; hoist; piledriver; winch truck;  
fork lift; tower cranes; climbing cranes; cherry picker; mechanics; loco-  
motive; tug boat

GROUP E  
Tractor; welding machine; gas or diesel; driven welding machine (4 or  
more); air compressor over 125 (2 or less); power generating units (gas  
or diesel)

GROUP F  
Gas or diesel driven welding machine (3 or less); mechanic helper;  
air compressor 125 and under (2 or less); oiler; fireman; small boat

FEDERAL REGISTER, VOL. 40, NO. 105—FRIDAY, MAY 30, 1975

STATE: Alabama  
 COUNTY: Mobile  
 DECISION NUMBER: AL75-1060  
 DATE: Date of Publication  
 SUPERSEDES DECISION NO.: AL75-1023 dated February 16, 1975 in 40 FR 6913  
 DESCRIPTION OF WORK: Building Construction, (excluding single family homes and garden type apartments up to and including 4 stories).

BUILDING CONSTRUCTION	Basic Hourly Rate	Fringe Benefits Payments			App. Tr.
		H & W	Pension	Vacation	
Asbestos workers	8.60	.395	.75	.02	.02

## GROUP A: General Building Construction Laborers

GROUP B: Mortar makers (any method), hod carriers, paving breakers - breaking & chipping concrete (any method), air operating tools (also, or gas), mason and plaster tenders, tile setter & terrazzo helpers, handling oreosote concrete materials, glass wool and all types insulation, kettle man, asphalt maker & tapper, drills and vibrators, concrete dump bucketman, All concrete rollers, wheel barrows, Georgia buggies, pipe cleaners & pipe layers of clay, terra cotta, ironstone, vitrified concrete or non-metallic pipe for main & side sewers and drainage only, pipe vipers (inside and out)

GROUP C: Gunite or pressure concrete workers, nozzleman, gunman, rodman, power driven buggy mobile, height: all work performed 40 ft. or less, folds, inside and out (except where scaffolds are set up from wall to wall inside)

## GROUP D: Cofferdam or tunnel workers (underground)

## GROUP E: Blasting (powderman)

## GROUP F: Concrete sawman

## GROUP G: Form setters; roadways, runways, highways

## GROUP H: Track laborer

## GROUP I: Brick washers (laborers)

## GROUP J: Burners on dismantling (anything not to be reused)

## GROUP K: Stack laborers

## GROUP L: Stac: laborers (over 40 ft.)

## GROUP M: Tank cleaners (caustic chemicals)

NOTICES

- Group 1: General Laborer; Axeman; Carpenter Tender; Car and Truck Loaders, Scissorlift, Chuck Tender and Nipper (above ground); CosmoLine, applying and removing; Fence Erector and Installer including the installation and erection of fences, guard rails, median rails, reference posts, guide posts and right-of-way markers; Form Stripper; Form Setter; Landscape Laborer; Nozzleman - air and water, gunnite and play machine; Pilot Car; Rlrap Helper; Scaleman; Sod Cutter (hand operated) (General Laborer); Stake Jumper for equipment; Tool Checker, Toolhouseman
- Group 2: Ripraper; Sandblaster; Sandblaster Tailhouseman; Pot Tender
- Group 3: Hand Faller
- Group 4: Post Hole Digger (power Auger)
- Group 5: Concrete or asphalt saws; Tar Pot Operator
- Group 6: Powderman helper
- Group 7: Callson Workers (free air); Choker Setter; Spike Driver, single or dual or hand
- Group 8: Drills, Air-tract, self-propelled car or truck mount air operated drills; Jackhammer, Pavement Breaker, Wagon Driller, Mechanical Tamper, Vibrating roller hand steered and other power tools; Pipe Wrapper, Power Saw (bucking)
- Group 9: Asphalt Raker; Dumpman (grademan)
- Group 10: High Pressure Machine Nozzleman
- Group 11: Pipelayer (all types); Cutting Torch Operator
- Group 12: Powderman
- Group 13: Grade Setter
- Group 14: High Sealer
- Group 15: Dumpman (potter)
- Group 16: Power Saw (falling)
- Group 17: Rigger
- Group 18: Core Drill Operator

DECISION NO. MT75-5062

LABORERS (Cont'd)

Beaverhead, Deer Lodge, Jefferson, Madison, Powell (excluding SE portion) and Silver Bow Counties

- Group 19: Concrete Worker, wet or dry; Tending Masons when pouring and finishing concrete
- Group 20: Vibrator Operator; Tending Stonesetters, Marble Setters, Tile Setters, Skagloia and Terrazzo Workers; Tending brick masons or brick or stone work; Tending plasterers or stuccoing or plastering; (This does not include rubbing down of foundation or concrete walls), Surekete, Stonehard and Rubberlate; Concrete Conveyor Swinger Operator
- Group 21: Power Driven Concrete Buggies

DECISION NO. MT75-5062

Page 16

LABORERS

Broadwater (Northern area), Lewis & Clark, Meagher, Powell (that portion lying east of a N-S line at the west edge of the Town of Elliston) Counties

- Group 1: General laborer; Car and truck loader; Concrete handler; Form stripper; Fence erector and installer
- Group 2: Concrete buggy; Vibrator; Jackhammer; Wagon driller; Barco tamper; Pavement breaker; Powderman helper
- Group 3: All power tools; Rodder and spreader; Non-metallic pipe layers; Pipe erappers; Sandblasters, Pot tenders; Curb form setter, Concrete tenders
- Group 4: Mortar mixer; Powderman

Broadwater (Southern portion incl. the City of Tosten), Gallatin, Park, Sweetgrass and Wheatland Counties

- Group 1: Common laborers
- Group 2: Semi-skilled; Hod carriers; Jackhammer operator; Vibrator; Mixer operator; Concrete pump tender; Nozzleman; Concrete machiner; Curb form setter

NOTICES

Flathead, Glacier National Park, Lincoln, and that area of Lake and Sanders Counties lying 5 miles north of the 5th Parallel

- Group 1: General laborers, scaleman; form strippers; car and truck loaders
- Group 2: Concrete handlers, conveying and handling concrete, Nozzleman (air or water); Sand blast tail hose man; Powderman helper, Power wheelbarrow; Rodder and Spreader; Form settlers (paving); Bucketman; Small air tool operators, including blow pipes and small power tool operator; Chuck tenders; Asphalt rakers, Dumpman; Rlp rapping; Pipe wrapper, Pot tender; Concrete pumper hoseman; Jackhammer; Pavement breaker; Vibrator; mechanical tamper and other air tools; Cement handlers (sack or bulk); Burning bar
- Group 3: Pipe layers (non-metallic); Metal culvert pipe layers; Mason and Plaster tenders; Cement finisher tender; Small concrete mixer operator; Shoring and lagging open ditches; Powderman; Drills, Air-Trac, wagon drill, cat or truck mounted air operated drills, Sand Blaster (wet or dry); gunite nozzleman; Barco tamper

ENVIRONMENTAL PROTECTION AGENCY

[FRL 380-6]

ENVIRONMENTAL IMPACT STATEMENTS Availability

Pursuant to the requirements of section 102(2)(C) of the National Environmental Policy Act of 1969, and section 309 of the Clean Air Act, as amended, the Environmental Protection Agency (EPA) has reviewed and commented in writing on Federal agency actions impacting the environment contained in the following appendices during the period of April 1, 1975 and April 30, 1975.

Appendix I contains a listing of draft environmental impact statements reviewed and commented upon in writing during this review period. The list includes the Federal agency responsible for the statement, the number and title of the statement, the classification of the nature of EPA's comments as defined in

NOTICES

Appendix II, and the EPA source for copies of the comments as set forth in Appendix VI.

Appendix II contains the definitions of the classifications of EPA's comments on the draft environmental impact statements as set forth in Appendix I.

Appendix III contains a listing of final environmental impact statements reviewed and commented upon in writing during this review period. The listing includes the Federal agency responsible for the statement, the number and title of the statement, a summary of the nature of EPA's comments, and the EPA source for copies of the comments as set forth in Appendix VI.

Appendix V contains a listing of proposed Federal agency regulations, legislation proposed by Federal agencies, and any other proposed agencies reviewed and commented upon in writing pursuant to section 309(a) of the Clean Air Act, as amended, during the referenced reviewing period. The listing includes the

Federal agency responsible for the proposed action, the title of the action, a summary of the nature of EPA's comments, and the source for copies of the comments as set forth in Appendix VI.

Appendix VI contains a listing of the names and addresses of the sources of EPA reviews and comments listed in Appendices I, III, IV, and V.

Copies of the EPA Manual setting forth the policies and procedures for EPA's review of agency actions may be obtained by writing the Public Inquiries Branch, Office of Public Affairs, Environmental Protection Agency, Washington, D.C. 20460. Copies of the draft and final environmental impact statements referenced herein are available from the originating Federal department or agency.

Dated: May 16, 1975.

PETER L. COOK,  
Acting Director,  
Office of Federal Activities.

## NOTICES

## APPENDIX II

## DEFINITIONS OF CODES FOR THE GENERAL NATURE OF EPA COMMENTS

## Environmental Impact of the Action

LO—Lack of Objection  
EPA has no objections to the proposed action as described in the draft impact statement; or suggests only minor changes in the proposed action.

## ER—Environmental Reservations

EPA has reservations concerning the environmental effects of certain aspects of the proposed action. EPA believes that further study of suggested alternatives or modifications is required and has asked the originating Federal agency to reassess these impacts.

## EU—Environmentally Unsatisfactory

EPA believes that the proposed action is unsatisfactory because of its potentially harmful effect on the environment. Furthermore, the Agency believes that the potential safeguards which might be utilized may not adequately protect the environment from hazards arising from this action. The Agency recommends that alternatives to the action be analyzed further (including the possibility of no action at all).

## Adequacy of the Impact Statement

## Category 1—Adequate

The draft impact statement adequately sets forth the environmental impact of the proposed project or action as well as alternatives reasonably available to the project or action.

## Category 2—Insufficient Information

EPA believes that the draft impact state-

ment does not contain sufficient information to assess fully the environmental impact of the proposed project or action. However, from the information submitted, the Agency is able to make a preliminary determination of the impact on the environment. EPA has requested that the originator provide the information that was not included in the draft statement.

## Category 3—Inadequate

EPA believes that the draft impact statement does not adequately assess the environmental impact of the proposed project or action, or that the statement inadequately analyzes reasonable available alternatives. The Agency has requested more information and analysis concerning the potential environmental hazards and has asked that substantial revision be made to the impact statement.

COPIES OF  
COMMENTS

GENERAL NATURE OF COMMENTS

TITLE

IDENTIFYING  
NUMBERFEDERAL MARITIME COMMISSION

R-FMC-A86087-00 46 CFR PART 547, POLICY AND EPA CONSIDERS THE PROPOSED RULEMAKING AS A.  
PROCEDURES FOR ENVIRONMENTAL ADEQUATE. HOWEVER, EPA RECOMMENDED SOME  
PROTECTION CLARIFYING LANGUAGE. ADDITIONALLY EPA RE-  
COMMENDED A 15 DAY COMMENTING PERIOD AFTER COMING TO A "NEGATIVE DECLARATION" AND REQUESTED A  
CHANGE IN THE DISTRIBUTION OF IMPACT STATE-  
MENTS.

INTERSTATE COMMERCE COMMISSION

R-ICC-A53037-00 PRELIMINARY SYSTEM PLAN. A  
THE PLAN DISCUSSES THE AIR POLLUTION IMPACT  
OF DISCONTINUANCE OF SELECTED LIGHT DENSITY  
RAIL SERVICES AND REASONABLY CONCLUDES THAT  
SUCH DISCONTINUANCE WOULD HAVE MINIMAL ADVERSE  
EFFECT ON AIR POLLUTION. HOWEVER, EPA SUGGESTS  
THAT EACH PROPOSED DISCONTINUANCE BE EVAL-  
UATED FOR ITS PARTICULAR AIR QUALITY IMPACT AND  
POSSIBLE RESULTING GROWTH PATTERNS ALONG  
HIGHWAYS USED BY ALTERNATIVE MEANS OF TRANS-  
PORTATION.

# RESOLUTION CHART

100 MILLIMETERS

**INSTRUCTIONS** Resolution is expressed in terms of the lines per millimeter recorded by a particular film under specified conditions. Numerals in chart indicate the number of lines per millimeter in adjacent "T-shaped" groupings.

In microfilming, it is necessary to determine the reduction ratio and multiply the number of lines in the chart by this value to find the number of lines recorded by the film. As an aid in determining the reduction ratio, the line above is 100 millimeters in length. Measuring this line in the film image and dividing the length into 100 gives the reduction ratio. Example: the line is 20 mm. long in the film image, and  $100 \div 20 = 5$ .

Examine "T-shaped" line groupings in the film with microscope, and note the number adjacent to finest lines recorded sharply and distinctly. Multiply this number by the reduction factor to obtain resolving power in lines per millimeter. Example: 7.9 group of lines is clearly recorded while lines in the 10.0 group are not distinctly separated. Reduction ratio is 5, and  $7.9 \times 5 = 39.5$  lines per millimeter recorded satisfactorily.  $10.0 \times 5 = 50$  lines per millimeter which are not recorded satisfactorily. Under the particular conditions, maximum resolution is between 39.5 and 50 lines per millimeter.

Resolution, as measured on the film, is a test of the entire photographic system, including lens, exposure, processing, and other factors. These rarely utilize maximum resolution of the film. Vibrations during exposure, lack of critical focus, and exposures yielding very dense negatives are to be avoided.
